## REV. WALTER FIRTH WILL BE PASTOR AT CALUMET CHURCH

Rev. W. I. Walker, a former pastor of Grass Lake Church, will minister to folks in Chelsea.

Announcement of appointment of pastors to various Methodist churches throughout the Detroit conference area Monday resulted in transfer of many Methodist ministers from one field to another. Rev. Walter Firth, pastor of the local church, was transferred to Calumet Methodist church, in the Upper Peninsula. In his place will come Rev. W. I. Walker of Newburg and Plymouth, who, two years ago, was pastor of the Grass Lake Methodist church. The Calumet church, to which Rev. Firth goes, is a much larger church than the Chelsea organization, and carries with it a substantial increase in salary. It has a membership of approximately 365, while the local church has a membership of approximately 265 persons who are residents of Chelsea and vicinity. Rev. Firth and family will leave here next Wednesday morning by automobile for their new charge, shipping their furniture by truck to the northern city. Rev. Walker is not a stranger to many of the Chelsea Methodist folks, having exchanged pulpits with Rev. Firth during the latter's minister here, and on other occasions during his stay in Grass Lake he was a visitor at various affairs of the church and local folks are looking forward to a prosperous season under his leadership. He will occupy the local pulpit Sunday morning and evening for his introductory sermons.

**ERMA MOHRLOCK WEDS ADDISON, N. Y. MAN**  
Mr. and Mrs. Henry Mohrlock, 764 South Main street, announce the marriage of their daughter, Erma Harriet, to Lawrence J. Hovey, son of Mr. and Mrs. Daniel J. Hovey of Addison, N. Y.

The marriage was solemnized at 2:30 o'clock Saturday afternoon, September 10, 1927, at the Methodist Episcopal parsonage in Bowling Green, Ohio. Rev. R. E. Woodruff officiated. Mr. and Mrs. Hovey are at home to their friends at 314 E. Catherine street, Ann Arbor.

## TELLS BETROTHAL TO SYLVAN YOUNG MAN

The betrothal of Miss Iva Rittenhouse, of Jackson, and Ralph Kalmbach of Sylvan, was announced last week at the home of the bride-elect's parents, Mr. and Mrs. H. D. Rittenhouse, 1317 Rhodes street.

Mr. Kalmbach is the son of Mr. and Mrs. Henry Kalmbach of Sylvan. The wedding will be an event of September 20.

The group of 20 friends were entertained with a mock wedding, and with music. A buffet lunch was served and many lovely gifts presented the honored guest.

On Saturday afternoon, Miss Rittenhouse was complimented at a miscellaneous shower at the home of her fiancé's mother, Mrs. Henry Kalmbach in Sylvan. A group of 30 guests were invited for the occasion.

## CHAPPELL-HESLSCHWERDT WEDDING HERE TUESDAY

The marriage of Elizabeth M. Heschwerdt to Charles A. Chappell of Detroit, took place at St. Paul's parsonage Tuesday, September 20, Rev. P. H. Grabowski officiating.

Mr. and Mrs. Chappell will spend a few days in the northern part of the state and upon their return will be at home in Chelsea.

## MANY STUDENTS LEAVE FOR COLLEGE DURING PAST WEEK

A large number of graduates of Chelsea high school have left during the past week or will leave soon for various colleges and universities to take up their duties in the higher institutions of learning. The Standard has compiled a list of these students and as many included as was possible at the time. Through error or lack of information some may have been omitted, and these will be gladly published if the Standard is so informed. The list to date includes:  
University of Michigan: Doris Foster, Dwight Beach, Ruth Brooks, Howard Faber, Debra Beach, Arnold Steger, Kenneth Brosamle.  
Michigan State: Leonard Witherell, Nina Evans, Anna Mayer.  
State Normal, Ypsilanti: Helen Lambert, Celesta Alber, Dorothy Cavanaugh, Helen Dancer, Elora Finkbeiner, Henry Fox, Ann Gottschling, Ruth Russell, Dorothy Weinman, Marguerite Widmayer, Irene Huchl, Louise Plemele, Florence Laird, Edwin Fulec, Lucy Webb, Lucille Haskins, Harry Dancer, Gertrude Weinberg, Lorine Haist, Helen Branch, Ruth McClure, John Kousch.

Olivet: Mae Hamp.

## MR. & MRS. SMITH JACKSON

**MARRIED: LYNN EISENBEISER**  
The announcement made by Mr. and Mrs. A. W. Smith, 222 Bates street, of the marriage of their daughter, Lynn, to Mr. W. E. Eisenbeiser, son of Mr. Eisenbeiser of Chelsea, was solemnized Thursday afternoon, July 28, at 5:30 o'clock at the Methodist Episcopal parsonage in Bowling Green, Ohio. Rev. William Wallace Constein was the officiating minister. The attendants were Miss Doris Karpert of Jackson and Albert Alexander of Chelsea.

The bride was charmingly dressed in apple greenorgette, trimmed with court lace. A large white hat was worn with her costume. Miss Garrett's gown was of rose crepe and she wore a large black hat. Mr. and Mrs. Eisenbeiser are residing at 222 Bates street, Jackson.

## BROTHERHOOD WILL GIVE BANQUET TO YOUNG FOLKS

Following the custom established last year, the men's Brotherhood of the Congregational church will on Friday evening, tender their annual banquet to the young people of the church. The young folks will be the guests of honor, and following the supper a program of songs, recitations, and dialogues will be enjoyed, as well as an address by Try Narver, general secretary of the I. M. C. A. Lansing, who is ranked very highly as a speaker, entertainer and worker among young people. The banquet is a feature of the opening of the fall and winter season of activities among the young people.

## JURY LIST DRAWN FOR COMING TERM

The list of petit jurors for the October term of circuit court was drawn Friday afternoon by Justices C. A. Reading of Ann Arbor, Darwid Z. Curtiss of Ypsilanti, Sheriff Ernst M. Wuester and County Clerk Clarence L. Pray.

The October term of the circuit court will open Monday, Oct. 3, when the cases on the docket will be reviewed by Judge George W. Sample and attorneys. The jury will not report, however, until the following day, when the first case is scheduled to be tried. Following is the list:  
Charles E. Feldkamp, First ward; Theodore O. April, Second ward; Jas. Albert Shetterly, Third ward; Alias Saddler and Charles Cornell, Fourth ward; George McCollum, Fifth ward; Lucille Menefee, Sixth ward; J. Arthur Mahaffy, Seventh ward, all of Ann Arbor.

Koch, Northfield; Will Harwood, Pittsfield; Foster Smith, Salem; Bon-die Spitzer, Llande, Sharon; Bert Selo; August Lunde, Sharon; Bert Cannon, Superior; Theodore G. Riemenschneider, Sylvan; John Moore, Webster; Fred G. Hasely, York; Richard E. Limpke, Ypsilanti township; Frank G. Simmons, Ypsilanti city; First district; William Thayer, second district.

## 239 CASES LISTED FOR OCTOBER TERM OF COURT

Two hundred and thirty-nine cases will appear on the October docket of circuit court when copies are received from the printers and made ready for distribution among attorneys, according to a list of civil cases compiled by County Clerk Clarence L. Pray, and a list of criminal matters prepared by Prosecutor Carl H. Stuhberg.

## THREE ACCIDENTS FEATURE MONDAY'S AUTOMOBILE TRAVEL

Three Dead, at Least Two Injured, and Five Wrecked Cars in One Day Within Six Miles of Chelsea

Three Ann Arbor persons, representing three generations of the same family, are dead following a collision Monday night between an interurban car and automobile.  
D. McKinley Keck, 31, of 509 Monroe street, Ann Arbor, and his mother, Mrs. Lucy Keck, 70, were killed and Keck's four-year-old son, Robert, died in St. Joseph's Mercy hospital, Ann Arbor, a short time later after the sedan in which they had been riding was struck by a west-bound interurban car on the Henry Clark crossing about five miles east of Chelsea early Monday evening.  
Mr. Keck, his mother and son were on their way to the farm home of Henry Clark in Lima where Keck intended to repair a radio, according to a report of the accident. He drove his car off the U. S. 12 pavement onto a private driveway leading to the Clark home. It is believed by sheriff's officers who investigated the accident, that Keck failed to hear the approaching interurban as he neared the tracks.  
The interurban, on which William Kirkpatrick, Detroit, was a motorman and Frank Moy, Ypsilanti, was conductor, apparently struck the car in the middle, demolishing it and hurling the wreckage several feet down the track.

Fred Covert, R. F. D. 3, Dexter, a passing motorist, brought the body of Mrs. Keck to Ann Arbor, and Reuben Steinbach, Dexter, and Clinton Collier, Chelsea, brought Keck's body and the injured child to Ann Arbor in their car. The boy died a short time after he had been taken to the hospital.

Mr. and Mrs. Lloyd R. Wauk, Oxford, were brought to a private hospital in Chelsea with cuts and bruises sustained Monday forenoon when an automobile operated by Wauk and a truck driven by G. Vanderwall, Kalamazoo, on which Leonard Dyke, a plain clothes officer of the Kalamazoo police department, was a passenger, collided on U. S. 12 about seven miles east of Chelsea.

A two-month-old baby of Mr. and Mrs. Wauk escaped unhurt. Deputy Sheriff Floyd Gentner investigated the crash but no action against either driver is contemplated.  
Irwin G. Wilson, Detroit, was arrested by Special Deputy Sheriff Wm. Atkinson Monday morning, and pleaded not guilty to a charge of driving while drunk when arraigned in Justice Readings' court at Ann Arbor. His trial was set for today and he was released on \$600 bond. Wilson, driving a Chrysler coach, collided with a Chevrolet coach, occupied by Mr. and Mrs. Leag Howe, who were returning to their home in Detroit, after visiting over the week-end in Parma, near the Weiss school house about daylight Monday morning. Both cars were badly wrecked. Wilson is said to have been without a driver's license.

In the three accidents which occurred Monday, three persons were killed, two injured, and five cars wrecked, all within five miles of each other, and within about six miles of Chelsea.

## SCHROEDER-MOHRLOCK WEDDING THURSDAY

The marriage of Jacob F. Mohrlock and Edith B. Schroeder was quietly solemnized at the home of the bride's mother, Mrs. Carrie E. Bingham, at Farwell, Mich., at one o'clock Thursday morning, September 12, 1927.

The couple were attended by the bride's brother, Fred E. Bingham and wife and the ceremony was witnessed by only the immediate relatives.  
A wedding breakfast followed the ceremony and later Mr. and Mrs. Mohrlock departed for this city where they will make their home.  
Mr. Mohrlock is a very well known here having spent his entire life in this vicinity. Mrs. Mohrlock has for some time past been a teacher in the Bellefontaine, Ohio, schools.

## VILLAGE ROBBERIES BEING INVESTIGATED BY SHERIFF

The sheriff's department has been investigating the robbery of several stores in Manchester village and of one in Bridgewater while officials of Lenawee county were seeking thieves who broke into a gasoline station at Clinton and attempted to rob another about a mile and a half away.  
The dry goods store of Young & Marx, Manchester, escaped the fate of several others there when the thieves abandoned an attempt to gain entrance after trying the front door. Twenty dollars in currency was taken from the garage of J. C. Cathey, \$4 from the R. E. Robison hardware store, and \$5 from a candy store, it was reported. An oil station in Manchester was broken into but nothing was reported missing.

At the station in Clinton, the thieves obtained \$22.50 in currency, some oil, gasoline, candy, cigars and cigarets. A watch dog frightened away the intruders who attempted to gain entrance into a station a mile and a half from the one in Clinton on the Chicago turnpike.

## Royal Luxuries

The great Napoleon who could endure any hardship on the field of battle had two personal needs that he always demanded. One of these was a change of linen at least twice a day. The other was a hot bath as often as possible. He found nothing so soothing and restful as a hot bath, and the older he grew the hotter he liked the water. It calmed his nerves and gave him relaxation he needed after the strain of battle.

But consider how difficult to assure such luxuries, even for an emperor, in those days. There was no gas water heater to supply that steaming flood of hot water at the turn of the spigot. There was no gas heated laundry equipment to make a twice-a-day change of linen inconsequential as it would be to us of the twentieth century.

Today, thanks to Gas, even the humblest home can enjoy what were, in the days of Napoleon, luxuries for an emperor.

## Editorial

## THE BRAIN IS SUPREME

Remember how on Fourth of July night you used to take a little fireworks stick called a sparkler, and whirl it about? You wove circles, figure eights, all sort of fantastic patterns in the air. And at that time you didn't realize that the figures you were seeing didn't exist at all. It was your eyes that were deceiving you.

Try the same experiment any time with a match or a glowing cigar. You can't trust your eyes. That's why so many of us need glasses.

You can't trust your nose, either. The sweetish, almond-smell may come from deadly cyanide or potassium. Many of the poison gases in the World War had a not unpleasant smell at first.

Your ears are just as unreliable. Just try to whistle a tune in someone's presence. Unless you are a phenomenon, you'll whistle mostly wrong notes, off key. Your whistler's all right. It's your ear that's playing tricks on you.

Your taste, allied to smell, is equally deceptive. The sense of touch is probably the most reliable of all, but it is a poor thing at best. How would you like to sit down blindfolded, feeling around and guess to get whatever you might be permitted to feel of?

Then, if the five senses are such poor servants, how do we get along so well with their aid? It is because the brain directing them is more perfect than any one sense. When your eyes fail, the brain orders the touch-sense, and the hearing-sense to help out.

No life, no home, no business, can be successfully carried on without a central mind more capable than any of the subordinates. Just as your sense, cooperating, achieve what no single one could do, so in your every activity you will find most success if you, too, learn to cooperate. Know when to subordinate yourself, and be not afraid when it comes your time to command.

## PICTURE LESSONS

Pictures have played a vital part in the shaping of the destinies of the world and the individual. They are an inspiration either for good or evil—depending on the picture. Good pictures find their way into the cottages or castles of the thoughtful and the cultured. The thoughtful and the cultured bring good pictures into their cottages or castles.

We can not all afford to purchase the originals of the few immortal masterpieces but modern commercialism beneficently brings within the reach of the humblest home good copies. It is true that the rich buy "paintings" and the poor buy "prints" but no less true is it that there are millions of prints sold for each painting "sold for a fortune." There is a wealth in pictures that is unknown to "wealth." The artist could wish for no fuller and finer appreciation of his art than that bestowed upon it by those without means to own it "in oils."

The value of the picture is known to those in all walks of life. Newspapers have long recognized the news value in the picture, educators know its educational value, the church depends upon it for inspirational power.

An advertising writer says "to unlock the average mind use a pictorial key." Shakespeare, Reynolds wrote "a room hung with pictures is a room hung with thoughts" and in the words of Ben Jonson, "whoever loves not a picture is injurious to truth. The picture is the invention of heaven, the most ancient and most akin to nature. It is itself a silent work and always one and the same habit."

Man learned to paint and draw pictures—roughly and rudely at first—before he learned to talk and to build himself a fire. Some of the pictures created by the genius of man will be among the last things cherished by man.

## ADVERTISING AIDS ALL

Newspaper advertising and the automobile have combined to bring city shops to the very door of the farm house and the suburban home. Each day the newspapers bring a complete notation of what can be bought, where it can be purchased and the prices at which it can be purchased. The sale is actually made through the advertising columns of the newspaper. A visit to the store next day by automobile completes the exchange of money for merchandise.

How much more convenient is this convenience of modern commercial and industrial genius to the inefficient method of our rural forebears who knew only their personal needs. With them there was no alternative for the slow, tedious and disappointing expedient of going to town by wagon or cart and trusting to diligence and a stout pair of shoes to seek out the shop which sold that which they were in need of and which sold it at an acceptable price, if not at the lowest obtainable price.

The merchants in the cities and towns need not have debated over the merits of the automobile and of persistent newspaper advertising. The mail order houses provided the rural and suburban buyer with a store—if only on paper—in which to plan his buying. Newspaper advertising is now offering the service formerly offered by the catalogs of the mail order houses but in addition is furnishing this service weekly instead of

twice yearly, is giving the buyer the choice of prices and goods of all merchants not those of one, and is rendering a valuable 24-hour service in assisting the public to determine its wants.

## ROAD TO SUCCESS

In the attainment of solid, well-founded success there has been found no substitute for honest labor with the hands or mind. The ages have recognized this as an immutable truth, yet every age, including the present, has had its skeptics, its unbelievers, its seekers after fame and fortune without paying the price in work.

Some sage has said that to attain success use half as much effort as you would exert in attempting to seek success without work. There is much wisdom in the axiom that it takes less mental effort to climb to legitimate success than to climb to illegitimate success. Legitimate achievement requires no fortifications, no protection. Illegitimate achievement demands more in its retention than in its attainment.

It is gross injustice to humanity to say that if there is any one thing, more than another, that enlists very much of the attention, time and effort of the people it is in scheming and planning to get something of value for nothing. The number of society's parasites is large but the number of honest, hard-working pillars of society is preponderantly larger.

## POWER OF COURTS ENLARGED

The good old days of the criminal class in Michigan seem to be over. The easy loopholes through which they reaped their way to freedom have been closed, and now once in the clutches of the law they are going to find the way to liberty a long hard road.

Under the new criminal code judges will be given much wider latitude, with power to comment on the testimony of material witnesses and point out discrepancies where they are suspected that perjury has been committed.

They may also comment on the character of witnesses. Heretofore they were limited to an impartial review of the case before the jury. Courts may also insist on the speedier trials, and may even refuse to grant continuance of a case where they are satisfied that delay is being sought in order to allow time for material witnesses for the state to disappear and thus weaken the cause of the state. And in other ways have the powers of the courts been strengthened. Waivers of trial by jury may now be had and judges are permitted to hold trials without a jury, something that has always been guaranteed under the constitution of the state. However, if the defendant or his attorney insists, trials by jury must be had. It looks as if bad days for the crook were at hand.

When the boss gets back from his vacation he finds everyone rested.

Fishermen are not the laziest men. Some men are too lazy to fish.

Many supposedly erudite gentlemen are merely persons who have nothing to say and never say it.

## A PRIMER IN COOPERATION

Most of the current farm relief proposals rely to a greater or less degree on a broad expansion of cooperative marketing practices. It is generally recognized that cooperation, to be successful, must build from the bottom up, from the individual farmer to the local district, and perhaps national cooperative associations. Producers wishing to familiarize themselves with elementary principles of cooperation may find a helpful and simple discussion in Department of Agriculture Circular 408-C by Chris L. Christensen of the Bureau of Agricultural Economics. Mr. Christensen discusses and analyzes different types of cooperative organizations and their distinctions from commercial concerns the membership relations and means for controlling marketing contracts, the financing of the cooperatives and of the crops, the management and obligations of the trustees, and the selling programs as affected by the type of product handled and the scope of the association.

This circular may be obtained by application to the United States Department of Agriculture, Washington, D. C.

## Asphalt Lumber

The term "asphalt lumber" is employed to designate a board-like product, not so very long ago brought to the attention of the commercial world, which while composed of layers of a special long fiber saturated with a composition of asphalt, can be cut, worked, joined and nailed like wood. This material is designed for roofing and is water and weather-proof. The boards are made with a one-inch rubber running the full length on both sides, enabling the material to be matched up readily and quickly, while a special asphaltic cement applied along the rabbeted joint makes the joints virtually a part of the solid board.

## A Philanthropist

Sidney was only seventeen, but he had the air of seventy. Sauntering down the Strand, he took out a cigarette, only to find he had no matches.

So he made for a tobacconist and asked for a light.

"We don't give 'hitches' away," he was told, rather rudely, by the man behind the counter. "We sell them."

"How much?" asked Sidney.

"A penny a box," Sidney paid up and lit his cigarette with dangerous calm. He put the matches back on the counter.

"Look here," he said coldly, "when next a gentleman asks for a light in this shop, kindly give him one of my matches." Answers, London.

## Says Oil Prevents Rain

That lack of rain is caused by oil film spread on the surface of oceans by ships that burn oil fuel, is the theory advanced by L. A. Ramdas, a weather expert at Karachi, India. He says that this film, while less than a millilith of an inch thick, may be sufficient to retard the evaporation of ocean water, which is the chief source of rain.

## Iodine in Foods

Sea foods, agar (Japanese seaweed) and Irish moss are rich in iodine. It is also present in milk, whole grains, green peas, green beans, bananas, asparagus, tomatoes, garlic, white cabbage, mushrooms, strawberries, carrots, sorrel, leeks, grapes, artichokes, pears, white dried beans, lettuce, beets, turnips, melons, radishes, parsley and potatoes.

## Now-an even better car at even lower prices

Since its first day before the public, the Pontiac Six has been scoring a series of triumphs. First came the triumph of its introduction, which resulted in world record sales for a new make of car! Then came a steady succession of important improvements in quality, luxury and convenience.

—improvements that resulted in smoother operation and greater handling ease, in greater comfort, greater economy and greater owner pride—in higher standards of quality and higher levels of popularity!

And now Pontiac Six again represents a sensational new standard of value—the result of this notably finer quality, combined with beautiful new Duco colors on bodies by Fisher, at lower prices on all body types.

**PINCKNEY**—Rev. Frank J. McQuillan, for the past four years rector of St. Mary's church, Pinckney, has been transferred to a newly created parish at Redford, Wayne county, where he will erect a church and rectory. He may remain in Pinckney for several Sundays longer until a successor to him is chosen. Rev. Fr. McQuillan during his pastorate here has built up and strengthened the parish in many ways and made a wide circle of friends in all sects and walks of life by whom his departure will be greatly regretted. He is a man of great force and energy and there is no doubt of his being a success in his new charge.—Dispatch.

**Plymouth**—The people of the village of Wayne are to be commended for the progressive spirit which they have displayed in the extensive paving program which they have carried out in the past two years. A drive about the village shows a large percentage of their residence streets are already paved or are under the process of paving. It is a permanent improvement and the cheapest in the long run. The cost of the paving at Wayne is borne entirely by the abutting property owners, and this method of paying for the paving improvements is being adopted by a great many places with satisfaction and success.—Mail.

**NORTHVILLE**—H. S. Greene, who since 1905 has worked in the fruit department at the Michigan State fair, brought to his home in Northville the other day a number of apples that were given him by L. **CORN BORER DEMONSTRATION PLANNED FOR WASHTENAW**

Special corn cutting demonstrations have been arranged for Washtenaw county. At these demonstrations the low cutting attachments for corn binders will be shown in operation. The United States department of agriculture is providing all equipment, power, twine, and operators for these demonstrations.

Corn will be cut showing the farmers present how the low cutting attachment operates. The schedule for Washtenaw county is as follows: Friday morning, September 23, at 10:00 o'clock at the Ed. Huns farm, Freedom township, two miles east of Rogers corners.

Monday afternoon, September 26, at 1:00 o'clock at the Henry Hederitz farm, Saline township, three miles southwest of Saline on U. S. 112.

Wednesday afternoon, September 28, at 1:00 o'clock at the Athnell Braun farm, one and one-half miles north of Ann Arbor on the Whitmore Lake road, or M-65.

All persons interested in seeing the operation of low cutting attachments should plan to visit one of these demonstrations. It will give all visitors an opportunity to see how practical the attachments are and where it can be used. It may help to reduce the amount of labor in clean-up work this fall and next spring.

The United States department of agriculture will have charge of its operations. The extension department of Michigan State College will have a speaker to answer questions and discuss corn borer control methods.

**CLUBS WILL HOLD THEIR FALL FESTIVALS AND SHOWS**

The Ypsilanti Kiwanis club will hold their annual Harvest festival on October 7. At that time all corn, clothing and canned club members in the zone districts supervised by the Ypsilanti Normal school will be invited to make an exhibit of their wares, and compete for the prizes and honors that will be awarded.

Judges from the state club department will be here to judge the exhibits. The canned club exhibit should be especially large because there are four real live wire canning clubs in the Ypsilanti area.

The Chelsea Kiwanis club is making plans for their potato show where all of the Washtenaw 4-H potato club members in the Chelsea area will exhibit and compete. The show will be held sometime during the latter part of October or fore part of November.

Preparatory to the show the Kiwanians, who each have one potato club boy as a junior partner in this project, are making special efforts to have his particular partner win.

The boys should grade and measure their potatoes that harvest from their plots, and should be exceptionally careful to select their exhibit of tubers for the show. In doing so uniformity of size, shape and true-ness to type should be kept in mind. An eight ounce potato makes about an ideal show potato.

The boys who have not sprayed or dusted with Bordeaux mixture are going to experience some loss from Hopperburn. The leaf hoppers have been especially active this fall and, in some cases, have done considerable damage.

**LAST CALL FOR PYROTOL**

Word has been received at the county extension office from the department of agriculture that Michigan will receive its last quota of pyrotol, the war salvage explosive. This will be the last opportunity Michigan farmers will have to secure this material. Shipments will be made only in car load lots, 10,000 to 20,000 lbs. Several counties can combine their orders for a car load. The price is \$2.50 per 100 pounds and cash must accompany the order.

County Agent Oeler advises that sufficient orders are received an effort will be made to combine these with other counties in a car load shipment. Orders must be in the county agent's office, Court house, Ann Arbor, by October 15th.

**MICHIGAN BELL TELEPHONE CO.**

*Suggests a Telephone Night for the Young Folks Away at School*

You can experience the pleasure of talking regularly with the son or daughter attending school, although they are far away. Establish a certain night of the week as *Telephone Home Night*, where they can place a call for the home telephone number.

Such a call is known as a *Station-to-Station* call, and costs appreciably less than a call placed for a *Particular Person*. It is the kind of call to make when you are reasonably certain the person to whom you wish to talk will answer the telephone or can be called to it quickly.

In placing a *Station-to-Station* call, if you do not know the number, say to the Long Distance Operator, for instance, "I want Mr. John Smith's residence, 250 Sayre Street, Lansing, Michigan." Be sure that you do not specify to the operator that she call any particular person. A call placed for a particular person is known as a *Person-to-Person* call, and costs more than a *Station-to-Station* call.

There are reduced Evening rates on *Station-to-Station* calls, from 7:00 p. m. to 8:30 p. m., with further reduction during the Night rate period, 8:30 p. m. to 4:30 a. m.

**Fastest Four in America Proves Its Claim to Title**

*Dodge Averages 67.35 miles per hour in Beating All Other Fours in Atlantic City A. A. A. Race*

The Atlantic City (N.J.) Speedway Association, without Dodge Brothers instigation or knowledge, bought a Dodge Brothers Four and entered it in a Labor Day race for Four cylinder stock cars. Four cars of other makes also competed. All were strictly stock cars as required by the rules of the association.

The race was for 25 miles—to determine which was "The Fastest Four in America."

The Dodge won.

Its average speed for the entire race, from a standing start, was 67.35 miles per hour (officially timed by A. A. A.).

Generous confirmation, to say the least, of the modest claim of "Mile-a-minute Performance!"

Even more remarkable than the speed, however, is the fact that the car had been driven only 10 days and yet was able to withstand this difficult test without once stopping.

Thus the race not only offers conclusive proof of the Dodge's superiority in speed, but stands also as a glowing tribute to the rugged materials and excellent workmanship that go to make it—America's Fastest and Finest Four!

After two weeks of strenuous practice the Chelsea high school football squad is prepared to play the first game of the season Friday afternoon at 4 o'clock with the alumni team. The game will be held at the Holmes athletic field. This is sure to be an interesting as well as exciting game and the team desires the support of all those interested.

The second chapel period of the year was held Tuesday morning at Chelsea high school. At this time the students were entertained in a musical way by a men's quartet composed of Messrs. A. B. McClurg, P. F. Nishaus, E. E. Winans, and J. H. Boyd and they were accompanied by Mrs. P. F. Nishaus. The three numbers rendered were greatly enjoyed and it is with pleasure that the students anticipate the times when this quartet will appear again. The speaker of the morning was Rev. A. E. Potts who used as his subject, "Money." He tried to impress upon the students manifold ways in which money can be used, no matter what the amount, to the betterment of ourselves as well as those about us. The speaker defined money as "money is me" and whatever we do with it, it is always to our credit or discredit. The exercises were closed with singing by the entire assembly.

Already more than thirty are expected to meet at the initial rehearsal and more will be added if they desire to sing. Mr. and Mrs. I. B. Brosius were tendered a farewell reception by the members of the Old People's Home family, in the parlors of the home on Tuesday evening, about 70 persons being present. After a half hour of music and entertainment, Mr. Hunt, one of the family, graciously presented Mr. and Mrs. Brosius with a purse of \$50 as a token of the esteem in which they are held by the family. In responding to the presentation Mrs. Brosius gave to the home their piano which has been in use at the home since their superintendency there. Philip Cahill, thought to have been the man who passed a worthless check at the Chelsea Hardware Co. on Monday of last week, was arrested at Fort Huron on Wednesday of last week and brought to Ann Arbor. Harry Wood, 36, Adrian, another suspect arrested on the same charge was brought to the county jail Saturday from Ypsilanti where he had tried the same game as that tried here earlier in the week. While neither man has as yet been positively identified as the man who victimized the local business men, it is believed that Cahill is the guilty person. Further investigation is being made.

\$2,870.51 PAID IN FEES BY COUNTY OFFICES

Four county offices turned in \$2,870.51 in fees during the month of August, according to a report filed in the offices of Claramon L. Pray, county clerk. From the county clerk's office, as usual, came the largest share of these receipts, this department turning in \$1,986.40. Fines and court costs made up more than half of the clerk's fees, these items amounting to \$1,250. Fishing licenses brought in \$100, law and chancery entry fees, \$180, hunting licenses, \$283.15, marriage licenses \$61, and miscellaneous items made up the remainder. Of the \$734.57 turned in by the register of deeds, \$375.02 was revenue for the recording of the deeds. The filing of mortgages brought \$190.55 and the recording of agreements, leases, rights of highway and so forth yielded \$32. Fees of the probate court amounted to \$590.50, which sum was paid for making out certified copies of papers filed in the probate office. The sheriff's fees amounted to \$190.04, the largest items in this sum being \$37.15 which was paid for the serving of summonses and \$21.38 for serving court orders. NEW SYSTEM SAVES LOSSES FROM RAIN Serious losses from rains during bean harvest may be avoided by the use of the McNaughton system of curing the beans, according to an announcement by the farm crops department at Michigan State college. This system provides for the stacking of the beans from eight windrows around pests placed at such intervals that there will be front eight to twelve of the small stacks per acre. A pad of straw is placed on the ground at the base of each post before the beans are piled about the post. Four men can stack from 12 to 20 acres of beans a day, and the beans can remain in these stacks until it is convenient to move them. **MICHIGAN STOCK WINS  
HONORS IN SHOW RING**

That Michigan livestock, competing against the pick of many other sections of the country at the recent Detroit State Fair, won high honors in most of the classes of competition is shown by a review of the premium winners for this year.

Local entries in horse, cattle, sheep and swine sections all hold their own against the nation's best, furnishing a striking tribute to the quality of Michigan's best stock.

In addition to the private exhibitors who brought back championship ribbons, the state owned herds at the Michigan State College alone won nearly 75 places in the final awards. The famous M. S. C. horse string alone was responsible for 31 prize places while sheep and beef cattle also were high in the standing.

Manitla De Rubis, sensational Belgian mare in the College herd, repeated her winnings from the Ohio State Fair, being crowned senior champion and grand champion at Detroit; while Belle Phoenix came home as junior champion Belgian.

Michigan livestock men are reported to be taking a great deal of satisfaction in the fact that local animals were able to win such signal honors in the really international competition of the various state fair classes.

**COW-TESTING ASSOCIATION  
COMPLETES THEIR WORK**

The annual report of Grant Crowell, tester for the Chelsea-Ann Arbor Cow-Testing Association, gives an interesting summary of the year's work.

Mr. Crowell visited each herd once a month during the year and made a complete record of each individual cow in each herd. Association members now have dependable information on the total milk and butter fat produced by each cow and the average test per year. Also the feed cost per pound of butterfat and hundred pounds of milk.

The records also show the return of each cow for each dollar of feed consumed. 202 cows with an average production of 7773 pounds of milk and 282.65 pounds of butter fat. The average feed cost per pound of butterfat was 80c and the feed cost per 100 lbs. of milk was \$1.19.

The average production of the four poorest cows in the association was 2093 pounds of milk and 69.7 pounds of butter.

Carl Mast, Dexter, had high herd in the association in both butterfat and milk production. His herd of 7 cows, for the 12 months, produced an average of 12,410 pounds of milk and 460.3 pounds of butterfat. The average test of the herd was 3.71 pct. Mr. Mast's average feed cost per pound of butterfat was 25.1-2c per pound and 15c per 100 pounds of milk. These figures are feed costs only, and do not include cost of labor, interest, depreciation, taxes, etc.

P. E. Stewart, Lima township, pure bred Guernsey, was the highest in butterfat production, producing 11,633 pounds of milk and 567.1 pounds of fat, with an average test for the year of 4.81 pct.

Wm. Geiger & Sons, pure bred 7-year-old Holstein, was high cow in the association in milk production. She produced 14,712 pounds of milk and 469 pounds of butter fat.

The following herd owners had herds producing over 300 pounds of butterfat per cow per year:

Carl Mast, Dexter township; L. S. Grossman, Sharon township; P. W. Shaffer, Grass Lake; C. R. Veldman, Superior township; Arthur Wacker, Chelsea; Edmund Cooper, Lyndon; E. L. Beach, Lima township; Wm. Geiger & Sons, Salem township; B. L. Galpin & Sons, Superior; George Hufley, Sylvan; F. E. Stewart, Lima.

The following herd owners had cows 5 years of age producing 400 pounds of butterfat or over:

P. E. Stewart, pounds of fat 562.1  
Carl Mast 567.1  
Geo. Hufley 532.2  
Carl Mast 506.2  
P. E. Stewart 483.0  
Wm. Geiger & Sons 469.0  
P. W. Shaffer 463.6  
Carl Mast 462.4  
P. W. Schaeffer 427.1  
B. L. Galpin & Son 418.5  
Fred Norton 412.3

Mr. Crowell's record shows that all members use pure bred sires. There is one proven sire in the association and twenty members are going to keep sires until production of their daughters are known.

During the year 7 members have built safety keeper bull pens. Thirty cows were sold by association members as unprofitable. 10 were sold as profitable.

All members are feeding balanced rations; eighteen members feed grain according to milk production; twenty are feeding grain during pasture; ten have are equipped with drinking cups. Every member of the association is growing alfalfa; 12 are using sweet clover.

The average farmer has two principal ways of disposing of his crops: selling on the market at market price or selling it to his livestock.

Records are the only definite way to determine which cow will pay the most for the feed consumed. Most of the members in the Chelsea-Ann Arbor association have been in the association for three and four years.

It would appear that these farmers would hardly be condoning paying out good money if they were not receiving some value from it.

**SEVERAL OUTSTANDING PIANISTS**

Several outstanding pianists will play: Guy Maier and Lee Pattison, renowned throughout the world as the outstanding dual pianists, will be heard in a recital for two pianos early in November. These two men are both Americans, and have made the art of two piano playing distinctly their own. Later in the same month Josef Hofmann will appear with Lea Luboschutz, the violinist. Hofmann, it will be remembered, is one of the few child prodigies who have succeeded in becoming great personalities. When a mere child he toured Europe and America extensively, and everywhere was acclaimed by the most eminent audiences. Then came a period of several years during which he made no public appearances, but devoted his time to study under eminent masters. He later made a second tour in Europe, and since that time has occupied a place in the world of piano players similar to that of the great Paderewski. Another great pianist who will appear is Myra Hess. Miss Hess is a distinguished British virtuoso, British by birth and training. She is said to possess all of the artistic virtues of man and none of the weaknesses of woman.

**THE FLONZLEY STRING QUARTET**

The Flonzley String Quartet will be heard for the fifth time in Ann Arbor. More than a score of years ago when this organization made its first American tour it was heard in Ann Arbor, and made a profound impression. Since that time it has been brought back to the University city from time to time, and the splendid impression made at first has not only been maintained, but if anything has been deepened. It stands as the most distinguished group of players of its time. With the exception of the viola player, its personnel has remained intact all these years. Ugo Ara, who for many years played viola, was superseded a few years ago by Nicholas Moldavan.

**TWO RENOWNED ORCHESTRAS**

Two renowned orchestras will be heard. In December Ossip Gabrilowitsch will bring his band of players from Detroit, while in February Walter Damrosch will appear in a farewell performance with the New York Symphony Orchestra, over which he has presided for more than forty years. The Detroit Symphony orchestra, although relatively young in years, has attained a position among the great organizations of its kind in this country. Under the leadership of its matchless conductor, Ossip Gabrilowitsch, it has attained wide distinction. Not only does it perform many concerts in Detroit, including symphonic programs, popular programs, and programs arranged for children, but each year it gives numerous concerts in other cities. Ann Arbor has been fortunate in being able to hear them on many occasions in the past.

**THE NEW YORK SYMPHONY ORCHESTRA**

The New York Symphony orchestra was organized nearly half a century ago through the instrumentality of Leopold Damrosch, father of Walter. Upon the death of the elder Damrosch, when Walter was a lad of nineteen, he was chosen to assume the responsibilities formerly borne by his father, and for more than forty years has been at the head of this great band of players, which has had a tremendous influence in the development of orchestral music throughout the world. Many concerts are given in its home city, while an important part of its activity has been the crisscrossing of America many times in transcontinental tours, performing symphonic programs, participating in festivals and in other capacities. It has also toured Canada, Mexico, Cuba and the countries of Europe, where upon invitation of many governments it appeared under royal auspices.

**THE ST. OLAF LUTHERAN CHORAL SOCIETY**

The St. Olaf Lutheran Choral Society, Northfield, Minnesota, under the leadership of F. Mellus Christensen, will be heard for the second time in Ann Arbor. This organization occupies a place among the great choral organizations of this country similar to the great orchestras.

**MANY CONCERTS SCHEDULED  
FOR HILL AUDITORIUM**

Music will be a conspicuous factor in the life of Ann Arbor this year. The Choral Union Concert Series, now in its forty ninth annual series, will bring to Hill Auditorium an outstanding list of attractions, while in the ninth Extra Concert Series a similar group of world renowned artists and organizations will be heard. Combined the two series cover well nigh the entire field of music performers. Distinguished solo performers, renowned ensemble groups and great orchestras and choruses will be heard. Artists will appear singly, in pairs, and in other capacities. Among the attractions engaged is found a reasonable proportion of artists who will be heard for the first time in Ann Arbor, but whose international reputations are such as to place them in the front rank of great performers. On the other hand several favorites who have been heard here on previous occasions will be brought back, thus a happy balance between the old and the new is assured. In every case, however, only those who occupy places in the very front ranks will be heard.

**ROSA RAISA**

Rosa Raisa, acknowledged to be one of the world's greatest dramatic sopranos, will come in October. Beniamino Gigli, the great operatic tenor of the Metropolitan, will be heard early in October. Giacomo Rimini, distinguished baritone of the Chicago Civic Opera, will appear jointly with Raisa, while in February Pedro Chaliapin, the distinguished Russian bass, renowned both in opera and in recital, will be heard in Ann Arbor for the first time.

**TWO OUTSTANDING VIOLINISTS**

Two outstanding violinists will be included: Lea Luboschutz, who is looked upon as the outstanding Russian woman violin virtuoso, will be heard in a recital for violin and piano in November, while Paul Krichanski, the distinguished Polish violinist, who has taken the country by storm, will give a recital in January.

**TWO RENOWNED ORCHESTRAS**

Two renowned orchestras will be heard. In December Ossip Gabrilowitsch will bring his band of players from Detroit, while in February Walter Damrosch will appear in a farewell performance with the New York Symphony Orchestra, over which he has presided for more than forty years. The Detroit Symphony orchestra, although relatively young in years, has attained a position among the great organizations of its kind in this country. Under the leadership of its matchless conductor, Ossip Gabrilowitsch, it has attained wide distinction. Not only does it perform many concerts in Detroit, including symphonic programs, popular programs, and programs arranged for children, but each year it gives numerous concerts in other cities. Ann Arbor has been fortunate in being able to hear them on many occasions in the past.

**THE NEW YORK SYMPHONY ORCHESTRA**

The New York Symphony orchestra was organized nearly half a century ago through the instrumentality of Leopold Damrosch, father of Walter. Upon the death of the elder Damrosch, when Walter was a lad of nineteen, he was chosen to assume the responsibilities formerly borne by his father, and for more than forty years has been at the head of this great band of players, which has had a tremendous influence in the development of orchestral music throughout the world. Many concerts are given in its home city, while an important part of its activity has been the crisscrossing of America many times in transcontinental tours, performing symphonic programs, participating in festivals and in other capacities. It has also toured Canada, Mexico, Cuba and the countries of Europe, where upon invitation of many governments it appeared under royal auspices.

**THE ST. OLAF LUTHERAN CHORAL SOCIETY**

The St. Olaf Lutheran Choral Society, Northfield, Minnesota, under the leadership of F. Mellus Christensen, will be heard for the second time in Ann Arbor. This organization occupies a place among the great choral organizations of this country similar to the great orchestras.

**IN MAY THE ANNUAL MAY FESTIVAL**

In May the annual May Festival, as

usual, will be given. The Chicago Symphony Orchestra, under Frederick Stock, will appear both in orchestral selections, and as a background for the choral and solo performances. The University Choral Union under Earl V. Moore, Musical Director, of the Festival, will present several important choral works, while the Festival Children's Chorus, under Joseph E. Maddy, will also appear in one of these programs. A dozen or more of the world's greatest soloists, both vocal and instrumental, will also participate. On this occasion it is hoped that the new organ to be constructed in Hill Auditorium will be completed, and that it will play an important part in the musical program to be provided.

In addition to these concerts many other concerts will be given under the auspices of the School of Music. The Faculty-concert series, in which members of the faculty, the University Symphony Orchestra and various student ensemble groups appear, will take place at intervals Sunday afternoons in Hill Auditorium, while many other recitals will be given by advanced professional students of the School of Music.

**WATERLOO**

Mr. and Mrs. Wm. Barber and Mrs. Earl Beeman took an auto trip up north to Harbor Springs.

Mr. and Mrs. John Dykemaster of Jackson, Mr. and Mrs. Clarence Lehmann and daughter of North Francisco, spent Sunday with Mr. and Mrs. Geo. W. Beeman.

Mr. and Mrs. Victor Moeckel and daughter, H. J. Lehman and Roland spent Sunday with Mr. and Mrs. Ray Whipple near Chelsea.

Mrs. Ella Monroe of Chelsea is spending a few days with her sister, Mrs. L. L. Gorton.

The A. O. G. W. will have a special meeting last Thursday of this month, Sept. 20, at the hall. Have special business and want everybody to come. The L. A. S. will serve supper at Town hall Tuesday, Sept. 27.

**SEVERAL OUTSTANDING PIANISTS**

Several outstanding pianists will play: Guy Maier and Lee Pattison, renowned throughout the world as the outstanding dual pianists, will be heard in a recital for two pianos early in November. These two men are both Americans, and have made the art of two piano playing distinctly their own. Later in the same month Josef Hofmann will appear with Lea Luboschutz, the violinist. Hofmann, it will be remembered, is one of the few child prodigies who have succeeded in becoming great personalities. When a mere child he toured Europe and America extensively, and everywhere was acclaimed by the most eminent audiences. Then came a period of several years during which he made no public appearances, but devoted his time to study under eminent masters. He later made a second tour in Europe, and since that time has occupied a place in the world of piano players similar to that of the great Paderewski. Another great pianist who will appear is Myra Hess. Miss Hess is a distinguished British virtuoso, British by birth and training. She is said to possess all of the artistic virtues of man and none of the weaknesses of woman.

**THE FLONZLEY STRING QUARTET**

The Flonzley String Quartet will be heard for the fifth time in Ann Arbor. More than a score of years ago when this organization made its first American tour it was heard in Ann Arbor, and made a profound impression. Since that time it has been brought back to the University city from time to time, and the splendid impression made at first has not only been maintained, but if anything has been deepened. It stands as the most distinguished group of players of its time. With the exception of the viola player, its personnel has remained intact all these years. Ugo Ara, who for many years played viola, was superseded a few years ago by Nicholas Moldavan.

# You Never See Gasoline

It goes into your tank through a hose—you take it on trust. You can't examine it. Only a chemist can analyze it. The brand and the company back of the brand are all you have to go on.

If you buy unbranded gasoline, you buy a product which no company vouches for. You may save a few pennies in the purchase price, but it will cost you more in the end.

It is wiser to buy a known product—a branded product—with the backing of a company with a reputation to sustain. Your car represents a big investment. It is worthy of your care. It requires dependable fuel.

You are protecting your car investment to the utmost when you buy Red Crown Ethyl Gasoline or Red Crown Gasoline. The Standard Oil Company [Indiana] is back of them. It is proud to claim them and proud to assume responsibility for the way they work in your car.

Red Crown Ethyl Gasoline makes the engine quick to obey, powerful, speedy and smooth. It costs a few cents more but it "knocks out that knock".

Our famous economy fuel, Red Crown Gasoline, will give you a maximum of power at a minimum of expense without the anti-knock factor.

It pays to buy brands known for dependability—Red Crown Ethyl and Red Crown.

**4-H CLUB CONTEST  
CLOSES OCTOBER 10TH**

The 4-H club contest that has been in operation during the past summer will close October 10th. This is the contest in which the 4-H club leaders and secretaries have been scoring their clubs on the points that were stated on the score cards that were distributed during the summer.

The contest has stimulated a great deal of interest throughout the county. Practically every club now opens their meeting with the 4-H club ritual and closes with the 4-H club pledge. Several inter-club meetings have been held in general attendance and punctuality at meetings have been very good.

The winning club will be given a party sometime during the latter part of October or the first part of November.

**Good Feeding Grass**

Pasture grass is defined as any grass of the genus panicum, or of any of several closely related genera, as echinocloa. The Department of Agriculture says that practically all of these grasses are used for feeding cattle and are animals. They belong to the millet family.

**Be Reasonable**

"Sweet reasonableness" is one of the gifts most enviable, most to be coveted and cultivated. Goldsmith says of his village schoolmaster that, "even though vanquished, he could argue with a sure sign that this high-spirited fellow was in quest of victory rather than truth."—Exchange.

**Verse and Poetry**

Much verse fails of being poetry because it was not written exactly at the right crisis, though it may have been unconsciously near to it. It is only occasionally that poetry is written at a crisis, and it is not recoverable thought, but a hue caught from a vaster thought, thought.—Thoreau.

## Peter the Great a Giant

H. B. H. Prince Nicholas of Greece, in his new book, "My Fifty Years," says that in the cathedral at Moscow, on one of the central pillars, called "the King's column," are marked the heights of several Danish kings and some of their guests. Emperor Alexander III, who was over six feet in height, found the mark indicating the height of Peter the Great. It was "a good twelve inches above the emperor's head."

## "Universal" Languages

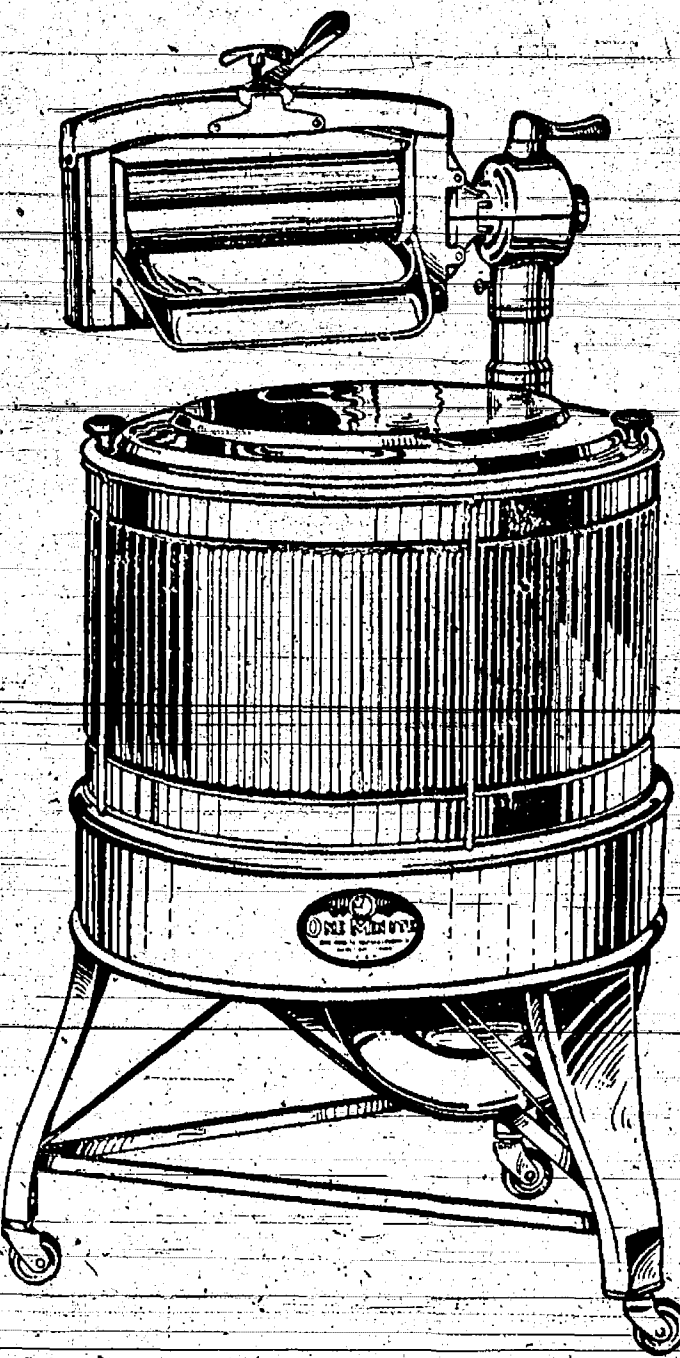

Volapuk was the name given to what was intended by its author, Johann Schleyer, a teacher in Switzerland, to be a universal language. For some time after its invention in 1870, it flourished exceedingly, but then it languished, and its place is now taken by Esperanto, proposed by Doctor Zamenhof of Warsaw, Poland, in 1887.
