Dodge Brothers Victory Six is not only a new car but an entirely new and better kind of a car. For the first time in history, body and chassis are a single, integral unit.

The wide, deep Victory chassis frame, flush with the body lines, eliminates the body sill and the customary body OVERHANG.

Major body parts are reduced from 367 to 8! 175 pounds of useless weight are cast off!

The gravity center is radically lowered-with head-room and road clearance unaffected. The results can not be expressed—they must be experienced.

No unpleasant skidding or sidesway at the corners. No back-wheel "chatter" when the Lockheed Hydraulic brakes are quickly applied.

A smoothness over cobble roads that you have never imagined possible.

A swift car that is safe-a moderate-priced car that is unsurpassed in smartness and individuality.

People continue to express amazement that cars of such remarkable quality and mechanical perfection can be offered at such low prices.

Here is true beauty in color, lines, proportions and interiors.
