CHELSEA KIWANIS CLUB TO SPONSOR 4-H CLUB WORK

Encouraged By Last Year's Success It Has Been Decided To Continue The Good Work

The Chelsea Kiwanis club will again sponsor 4-H club work as a feature project for 1928. The agricultural committee of the club made the following recommendations to the organization: That they sponsor all 4-H club work in the Chelsea trading area. When application for membership in any project is received and passed upon by the committee of the club that those reported favorably upon will be invited, with one of their parents, to attend a "starters" banquet sometime during the month of April or May. The club will then be organized under the supervision of the Kiwanis club.

At the close of the season a general 4-H club show of all projects, except livestock, will be held at Chelsea. This will take the place of the potato show that they held in 1927. An achievement banquet will close the season's work and again all finishers and one parent, will be invited to attend the banquet. The honors and awards of the season will be awarded at this meeting.

Blanks for application for membership in 4-H clubs will be left at the Kemf Commercial and Savings Bank, and the Farmers' and Mechanics' Bank at Chelsea. Boys and girls who wish to enroll should apply for blanks and after getting them filled out should either send them to Arthur E. Hagen, county club agent, Ann Arbor, or leave them at one of the banks in Chelsea.

RESULTS OF MONDAY'S ELECTION WAS A GREAT SURPRISE

ESTABLISHING PRISON CAMPS FOR STATE HIGHWAY WORK

A Large Number of Prisoners Will Be Used On Michigan Highways This Season

With the new four-acre camp site just north of Ovid in Clinton county secured, the first contingent of Michigan State Prison inmates assigned to road work were transferred to the Ovid camp last week.

The advance group will start work on camp construction and the first building should be ready for occupancy by March 15. Plans call for the sending of 300 inmates to Ovid for road work during the season. The camp buildings will be temporary in nature to permit their removal to a new site for next year.

The permanent road camp at Cambridge Junction in Lenawee county is ready for occupancy and prison officials are awaiting word from the State Highway Department and the parole commissioner before moving 300 men to this camp. The names of 800 Michigan State Prisoners eligible for parole to road work have been submitted to Arthur D. Wood, parole commissioner, by Warden Jackson.

The inmates assigned to the Ovid camp will be employed in laying the pavement on M-21 between St. Johns and Owosso, while those in the Cambridge Junction camp will work on the paving of US-127 between Somers and Rome and a short piece just west of Adrian.

TWO CARS MET HEAD-ON NEAR WAYNE LAST SUNDAY

Ypsilanti Man Killed And Several Others Were Seriously Injured Others May Die

An east-bound car on the D. U. R. lines met a special going west out of Detroit to Jackson Sunday afternoon a mile east of Wayne with serious results. George Merwin of Ypsilanti, was instantly killed and ten other passengers were seriously injured, some of whom it is feared may die.

Responsibility for the accident was placed upon the motorman and conductor of the east bound car, Charles Burrows and Otto Bauer. The east-bound car was a regular, but the one going west was a special carrying members of the Detroit Polish-Americans basketball team and their friends to Jackson in the evening, and was running as a second section of another regular west-bound car but had been delayed in getting out of the city. Burrows, motorman of the east-bound car, had been ordered to take a sidetrack a few miles west of Wayne, but after the regular car had passed, and the special failed to appear, he was directed to advance to the Austin switch two miles west of Wayne, and to wait for the special there. According to the officials of the D. U. R., Burrows over-ran the Austin switch and met the special about a mile and a quarter east of Wayne.

The east-bound car was making about 60 miles an hour when the special came in sight and all efforts to stop the on-rushing cars proved futile. Motorists rendered prompt aid and the injured were rushed to the hospital at Eloise and later taken to the receiving hospital in Detroit.

Beside the two daughters she leaves four grandchildren, Hugh and Gladys Miner, of Stockbridge; Mrs. Ray Butler and Florence Laird, of Chelsea, and a host of friends to mourn their loss.

It's Smart to be THRIFTY

That's why more smart Women are buying their Coats and Dresses at this Store

Getting one's money worth is being done in the best families today. It's just as "Smart" as it is intelligent. The men of the wealthiest families have always been shrewd buyers; now their wives excel them.

Whatever they buy, an automobile or a bar of soap—a watch or a rug for the bathroom—a fine rug or a pound of parsnips—women pride themselves on getting every penny's worth.

No longer do they boast of HOW MUCH they spend for a Dress or Coat. Now they boast of HOW LITTLE

These remarks are typical of many in smart gatherings of Chelsea women today. "Heavens no! It didn't cost \$35.00. Only 17.50 at Vogel & Wurster." "You don't know their dress department. I got this and one other for less than I expected to pay for one." "I'm not going to spend one cent more than \$25.00 for any dress this summer. They've got beautiful dresses too, at \$10.95 and \$13.50.

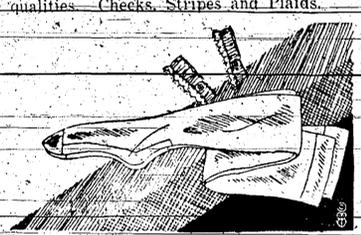

And so on. You've heard them. And you'll hear them more and more. Because its getting to be common knowledge that our direct New York buying and selecting is giving values not obtainable under the old system of buying. Whether you pay \$10.95 or \$25.00 for a dress or coat you always get your money's worth at this store.

It's Smart to be Thrifty!

COL. LINDBERGH'S MOTHER IS RESCUED BY WHIPPET
Fred Neterer, a farmer residing near Edwardsburg, Mich., is certain that the Whippet is the only car to have, at least among light cars.
When the Ford monoplane bringing Mrs. Evangeline Lindbergh, mother of Col. Charles E. Lindbergh, back from her Mexican trip, was forced to land during a snow storm near Edwardsburg, its pilot selected Mr. Neterer's farm.
Mr. Neterer volunteered to break a trail to the plane with his Whippet. If enough members of the party would be recruited to hold it down on the snow to give it traction.
Despite having traveled 15,000 miles, the Whippet succeeded in bringing the entire party including Mrs. Lindbergh to a hotel in Edwardsburg in three hours.
Fred Neterer is a proud farmer, proud that he could be of service to Charles Lindbergh's mother and proud, too, of his Whippet automobile that was equal to the emergency.
You can't out-do the Whippet.

REAL APE MA. TITLE ROLE
Producer of Mystery-Comedy Sensation States Simian Actor Stood Nine Feet and Weighs 400 Pounds
In response to numerous queries that have come in to him from motion picture fans all over the world, Edward Small, of Aasher, Small & Rogers, producers of "The Gorilla," the mystery-comedy sensation which will be seen at the Princess Theatre next Wednesday and Thursday, March 21-22, that a real bona-fide, nine-foot ape-man actually appeared in the title role as seen on the screen. He tipped the scales at 400 pounds. Mr. Small stated: "In one of the scenes he is shown carrying Alice Day, the petite leading lady, from room to room of a house. He also carries Charlie Murray, the chief comedian.
Charlie Murray and Fred Kelsey appear in the roles of two trick detectives, known as Mulligan and Garrity whose efforts to capture the huge ape-man are anything but what correspondence school policemen do.
"The Gorilla" as a stage play, was the sensation of Broadway. Eight road shows toured the country for two solid years, and then a company played in Europe for a year. Now it has been made into a motion picture by First National Pictures.
Edward Small is the man who made "The Cohens and the Kellys" and "McFadden's Flats" two of the outstanding comedies of the year.
Mr. and Mrs. Clifford Smith, of Jackson, were Sunday guests at the home of Mr. and Mrs. Wesley Smith.
Mr. and Mrs. Ed Kouch entertained at their home on Van Buren street, Sunday at dinner a party of relatives. The event was in honor of the anniversary of the birth of Mrs. Kouch's mother, Mrs. John Walsh.
Mr. and Mrs. Harold E. McCarty, of Detroit, are being congratulated on the birth of a daughter, Constance Marie, March 9th. Mrs. McCarty is a daughter of Mr. and Mrs. Peter Merkel.
Mrs. Elizabeth Wackenhut, who is spending the winter with her daughter in Jackson, returned to her home in Chelsea on Monday. Her friends here will be glad to welcome her home again.

BEWARE, SIGN SHOOTERS
Those careless, indifferent individuals who sometimes think it smart practice to take a shot at road signs placed along state and federal highways will do well to go just a little slow in the future. It is a criminal offense to destroy property and these road signs belong to the state or to the government. Sign-shooters under the state penal code, are guilty of double infractions since the malicious injury to signs is punishable by six months in jail and a \$500 fine. An additional fine of equal amount and another six months in jail may be imposed for discharging firearms from any vehicle on a public road. Hence the person with an urge to spot-shoot signs from a vehicle is liable to spend a year in jail and pay a fine of \$1,000.

IRON AND SMOKE
BY
SHEILA KAYE-SMITH
Author of "Joanna Godden," "The End of the House of Alard," etc.

Here is the new book of fiction by England's gifted author, Sheila Kaye-Smith, for which an enthusiastic American audience has been waiting the past three years. The publishers offer this new work, confident that its mature and distinctive workmanship will compensate for the delay and also justify the expectations of Sheila Kaye-Smith's most ardent admirers. In this rich and powerful novel, the author, with her clairvoyant understanding of the human heart in distress, paints a haunting emotional picture of two women and a man to whom Love has brought, not peace, but conflict. The denouement will challenge the understanding of every woman.

"Iron and Smoke" is a novel that will dwell long in the memory, and it is written in prose poetically rich, tinged with a golden light that throws into relief a certain high ideal underlying the moving drama.

Barley Long in Use

It is said that barley is the oldest food of man. Several varieties, one the sacred barley of the ancients, were known to the late dwellers of Switzerland. It was cultivated in ancient Egypt and was also the chief bread stuff of the Hebrews, Greeks and Romans.

HELP TO MAINTAIN

THE COUNTY HIGHWAYS

All Who Use The Roads Are Urged Not To Overload—State Law Will Be Enforced

The time of year is rapidly approaching when, due to the frost leaving the ground, the roads of the county get in softened condition and are injured very quickly by heavy loads passing over them. This applies equally well to the pavements maintained by the state, gravel roads maintained by the county and township roads, the latter being largely dirt with some gravel surface.

There is a state law, revised in 1927, which fixes the maximum allowable load between March 1st and June 1st and makes the violation of this law punishable by heavy fine. Usually this law is not enforced except during and preceding the break-up of the roads.

The County Road Commission would be glad if those people in the county who operate heavy trucks and those farmers who haul baited hay and other goods who get out logs, would give consideration to this question and do as much of this hauling as possible before the frost leaves the ground. It is only a question of a few days before a warm spell will come when the roads will become too soft to carry up such loads. At the present time there is approximately 18 inches of frost in the ground and the indications are that conditions will be much better this spring than during the past two years, however, this will also depend on how quickly the frost comes out of the ground. At the present time the County Road Commission does not have men on the road checking truck overloading but as soon as the first indication of a break-up comes, men will be on the job and the loading enforcements will be carried out. Anyone who is interested in finding out what he should carry on his truck, to be within the law, can get the information by calling or telephoning the Washtenaw County Road Commission.

DOG QUARANTINE DECLARED IN WASHTENAW COUNTY

Washtenaw county has been placed under a dog quarantine by B. F. Killiam, state veterinarian, according to word received last week Thursday by Sheriff Ernst M. Waister, who announced Lansing authorities consider the rabies situation here as serious.

Milan, Willis and Ann Arbor are cited as localities where dogs affected with rabies have been permitted to roam at large. Quarantine regulations require all dogs, unless properly vaccinated within one year by a qualified veterinarian and logged for identification, to be chained, confined or killed.

Persons violating these rules are liable to prosecution and dogs not properly cared for may be killed, the state officials declared.

In a statement Thursday, Dr. Herbert W. Emerson, director of the Pasteur Institute at the University of Michigan, declared rabies is increasing in Michigan and neighboring states.

All persons regardless of party affiliations will applaud the efforts now being made to curb the efforts of the professional lobbyists at Washington. Every special interest in the country has a lobby at the national capital, the common people being about the only group not represented.

Standard liners pay well.

CLUB LEADERS TO MEET IN ANN ARBOR MARCH 24

With Luncheon At Noon And An Interesting Program To Follow

Leaders of clothing, handicraft and hot lunch clubs of Washtenaw county will meet in Ann Arbor Saturday, March 24. The meeting will begin with a luncheon followed by a luncheon program. The afternoon program will be devoted to discussion of topics in which the leaders will be interested in completing their work.

The Dorcas sewing club, led by Miss Julia Gordon, of Saline township, the "We, the Busy Six" club, Lyndon township, led by Mrs. Veva Kalmbach, and the Delhi Hammer club, led by Miss Mildred Walsh, will be represented by demonstration teams which will demonstrate various phases of their work before the group of leaders. The object of these demonstrations is to show the leaders what a demonstration team is and what it does.

It will be necessary to group the local exhibits into larger exhibits composed of several local clubs. This grouping will be made on that day. The final plans for the music memory contest will be arranged and plans for the programs of the local and county achievement days will be discussed. County Club Agent Hagen is trying to arrange to conduct the health contest on that day. The leaders will be notified whether or not this can be done. In case it can be held on that day the best health boys and girls from each club will be asked to come into Ann Arbor for a final examination. There will be two age classifications: Any club member who will not reach their 15th birthday by November 1, 1928 will compete in the junior health contest. Those over 15 will compete in the senior contest.

CLUB NOTES

Boys and girls in 4-H club work are working hard on the music memory contest which will be conducted on May 4. The March music sheet has been sent out to all of the leaders, and contains the following listening numbers:

- Stars and Stripes Forever . . . Sousa
- Intermezzo—Cavallerini Rusticana . . . Magasani
- April Chorus . . . Verdi
- Singing Numbers:
- Swing Low, Sweet Chariot—Negro Spiritual
- Long, Long Ago . . . Thomas H. Bagly
- Nancy Lee . . . Stephen Adams
- Rural school children who are not in 4-H club work are also going to take part in this contest on May 4, but the trip to East Lansing for club work next July will go to the 4-H club boy or girl who scores highest of all 4-H club members in Washtenaw county.

Representatives of the State 4-H club department will judge exhibits of clothing, handicraft in Washtenaw county Wednesday evening and Thursday and Friday, April 25, 26, 27. Several clubs in the same area will be asked to hold their exhibits jointly in order to make it possible to hold all of these exhibits within that time.

All clothing and handicraft work must be done, and reports and stories filled out and written ready for the judges to score. The grouping of these exhibits will be decided upon at the leaders' meeting in Ann Arbor, March 24.

A. G. Kettunen, state club leader, Michigan State College, spent Tuesday, March 13, in Washtenaw county planning a program of club work for Washtenaw county, with County Club Agent, A. E. Hagen.

The Stone Academy Sheep club and the Never-Fail Potato club held joint meeting at the home of Wm. Kenney, Lima township, Thursday evening, March 8. The topic that was discussed at the regular business meeting was, "Should the clubs of Lima township continue to carry on the project basis or should all 4-H clubs in Lima township consolidate into one big community 4-H club."

Jack Bradbury attended the meeting as a representative of the calf club members. A committee was appointed composed of Irwan Hais, leader of the sheep club, Emanuel Biele, leader of the potato club, and Jack Bradbury, leader of the calf club, to make final plans for a community 4-H club. The organization meeting for this club has been tentatively set for Friday, March 30. Any boy or girl wishing to enroll can secure the application blanks at either of the Chelsea banks. This club will be under the sponsorship of the Chelsea Kiwanis club.

The state and federal departments of agriculture have arranged a corn borer exhibit in a truck consisting of laboratory specimens of corn borer parasites, charts explaining the life history of the borer and the method of control, as well as other features relating to corn borer activities. This truck is scheduled for four stops in Washtenaw county of follows:

- Monday afternoon, March 19, Chelsea.
- Monday evening, March 19, Ann Arbor.
- Tuesday afternoon, March 20, Dexter.
- Tuesday evening, March 20, Ypsilanti.
- Wednesday afternoon, March 21, Manchester.
- Wednesday evening, March 21, Saline.
- Thursday afternoon, March 22, Ann Arbor.

"HORSE SENSE" RULES

A life insurance company has offered to give "horse sense" rules for keeping cur-air but the rules are not given us with nature in a plan for cooperating in prolonging life and preserving health. The seven "horse sense" rules are: Learn to play; don't eat too much; take proper exercise; don't work too hard, either mentally or physically; don't worry, fuss or lose your temper—the best tonic in the world is optimism and cheerfulness; seek some healthful amusement that diverts your mind and exercises the muscles; once a year have your family doctor examine you for health, not for disease.

Ordinarily seven rules of conduct would not be so difficult to observe but here are given seven rules which regulate every act of every day of our lives. By the exertion of a little will power we would probably not find them much worse than a stern taskmaster in spite of the broad field they cover.

How many men and women past thirty know how to play? Are there any in this community who never overeat? Regular exercise is observed by only a small minority. Most people work too much or not enough. The most optimistic among us worry too much and lose our tempers too often for the good of our health. More people are, to be sure, participating in the many diversions, fads and amusements offered them by modern civilization and yet too many do not. And as for the seventh rule, where are there men and women who think of the doctor when they are well?

WET TOURISTS NOT WANTED

Border cities on the Canadian side have been plagued under the Ontario liquor plan, by "one-day tourists" from the States who run over to get drunk. Ontario is willing to sell liquor for reasons of hospitality as well as profit, but doesn't encourage abuse of the drinking privilege.

So the Ontario Liquor Board acting on complaints from Canadians, has announced that liquor permits hereafter will be issued only to "bona fide tourists." Those who merely cross a bridge or ferry to buy a few drinks and return the same day will be disappointed.

Americans in general can readily sympathize with that attitude. Many an American town, after entertaining a visiting holiday crowd or an out-of-town convention, has felt the same way. Communities that are not given to drunken riot themselves don't like to stand it from strangers.

As a general rule the people of Ontario are not satisfied with their present liquor law and it will be strange indeed if it is not radically changed at the first opportunity.

COIN OF THE REALM

Caesar caused the Roman money to be stamped with his likeness, thereby including it among "the things that are Caesar's." In ancient times the emperor owned not only the money but all the substance of his realm, including the lives of his subjects. The same is true today in all those countries in which the government is still an absolute monarchy. The coin of the realm has peculiar interest in that it bears the likeness of the ruler of the nation.

The coin of the United States is not a departure from this rule, although all the figures depicted thereon are symbolic. Upon most of the coins is the goddess of liberty. The eagle, symbol of strength and courage, is also upon most of them. In only one case is the head of a particular individual appointed upon—an American coin—the head of Lincoln on the cent.

NO COMPROMISE FOR GOVERNOR

The Standard of last week contained a Lansing dispatch which stated that litigation which has been in progress between the state and the Michigan Bell Telephone company would be discontinued because of a mutual understanding between the parties interested. Governor Green declared soon after the article was given to the press that there would be no compromise upon any basis as long as the telephone company refused to recognize the authority of the state in dealing with public utilities. That has been the bone of contention all along and Mr. Green says the litigation will continue through the higher courts unless the telephone people assume a different attitude.

A committee representing both the citizens of Jackson city and Jackson county have been appointed to present a plan whereby a suitable building can be erected for use of the city and county. A little co-operation will save the taxpayers some money.

Some of the biographies of the departed great, now on sale in the book stores, suggest that the writers got their information from campaign speeches of the opposition.

Did you vote Monday? If you did not you will have little excuse for finding fault if village affairs are not managed to suit your fancy.

Our future farmers must come from the ranks of the boys and girls who are becoming interested in the great 4-H club work. They ought to be encouraged in every possible way.

THE FARM TO CITY MIGRATION

The farm-to-city migration, which has been so pronounced in recent years, seems to be slackening, according to a report of the bureau of agriculture economics for 1927, which has just been made public. The report finds that the net gain of cities from rural population last year was 604,000. In 1925 the gain was 834,000, while in 1926, there was a peak movement of 1,020,000 cityward. This is an encouraging situation, because the country needs a well sustained population on the land to continue our national prosperity, and no movement towards the country will take place unless it is apparent there are prospects for betterment for those making the change. Of those returning to the country last year, 87 out of each hundred had had farm experience. With conditions on the farms growing better, with land prices the lowest in years, it would seem that there is still an opportunity for those who would seek health and fortune from the soil.

TALK WITH THY GOD

In the land of the fertile meadow and the greenest of sod,
Where the weary find rest in the gloaming of life,
Safe sheltered from harm with its strain and its strife,
Away from the harrowing cares that annoy
With many a heart-throb of tenderest joy,
Look out of thy window and talk with thy God.
Mabel R. Collins.

FORESTRY WEEK DESIGNATED

The week of April 22-29 has been designated as American Forest Week by President Coolidge. The President urges that all citizens and appropriate organizations give thought to the preservation and wise use of our forests, to the end that energetic forest policies will be adopted in all communities.

"We have made a beginning in forest renewal," he says, "but the task is stupendous, and we should permit no satisfaction over what has been done to blind us to the magnitude of what remains to be done."

WHY NOT NAME YOUR FARM?

Every farm of any size or pretension should have a name and the owner of such farm should have printed letterheads, showing the name of it, as well as his own name, the products of his farm, the name of his market place, and such other information as may be of interest to outsiders—those with whom he does business. Why should not a farmer take as much pride in advertising his farm and the products he raises for sale as the merchant, owner of a factory, a mill or whatever it may be, should take in advertising their establishments and the articles in which they deal.

Winning story each week will be printed here the following week.

In February, 1928, Carl and Lloyd F. Ernst opened an electrical shop in the basement of their home in Ann Arbor. From the start their business grew and as the weeks passed it became evident to these enterprising young men that they must have more convenient and extended quarters, and they decided to secure them on North Fourth street, near the Y. M. C. A. building. As trade increased they enlarged their stock of fixtures and supplies and each month the business of the firm grew in volume. Soon additional help was required to meet the demands of their customers and finally their quarters became so crowded that additional space had to be secured. After looking about for a more suitable location they decided upon the store at 210 South Fourth street and the new and larger location afforded the firm an opportunity to further extend their activities and to increase their stock.

To-day but few cities can boast of a more complete electric shop. The large stock of fixtures and appliances is well displayed so customers may see at a glance just how they will look when installed in their home. All kinds of electrical work is done and special attention is given to every order. They have a force of 17 men now employed and they are all busy. During the summer season the number will be increased to care for the growing business of this well known and popular firm.

You can call the following points and talk for THREE MINUTES at the rates shown. Rates to other points are proportionately low.

FROM CHELSEA TO:	Night Station-to-Station Rate
Birmingham, Ala.	\$1.10
Boston, Mass.	1.10
New Orleans, La.	1.10
Duluth, Minn.	1.10
Jacksonville, Fla.	1.10
Portland, Me.	1.10
Savannah, Ga.	1.10
Washington D. C.	1.10

The rates quoted above are Station-to-Station night rates effective from 8:30 p. m. to 4:30 a. m.

A Station-to-Station call is one that is made to a certain telephone number rather than to some person in particular.

If you do not know the number of the distant telephone, give the operator the name and address and specify that you will talk with "anyone" who answers at the called telephone.

Day rates, 4:30 a. m. to 7 p. m., and evening rates, 7 p. m. to 8:30 p. m., are higher than night rates.

A Person-to-Person call, because more work is involved, costs more than a Station-to-Station call. The rate on a Person-to-Person call is the same at all hours.

Additional rate information can be secured by calling the Long Distance operator.

SENATOR W. N. FERRIS WILL NOT BE A CANDIDATE AGAIN

United States Senator Woodbridge W. Ferris of Big Rapids, who succeeded Charles B. Townsend, of Jackson, has written a letter to William A. Comstock of Detroit, national democratic committeeman for Michigan, in which he stated he would not be a candidate for re-election this fall.

The senator, an avowed dry, declared he would support Sen. Thomas J. Walsh of Montana, also a dry, for the democratic presidential nomination.

The Ferris letter was regarded by Michigan Democratic leaders as the first consequential blow at a solid Smith delegation from Michigan to the Houston convention. It had long been doubtful if Senator Ferris, who is 76, would be a candidate for reelection, but he had steadfastly refused until the present time to discuss the subject or to announce his choice for president.

Horatio J. Abbot, of Ann Arbor, chairman of the democratic state central committee, a rock-ribbed dry, was sharply at variance with the Ferris views.

"I am as dry a democrat as the Senator, but am not allowing my loyalty to the great Democratic principles of equal rights for all and special privileges to none to be fogged by transient issues," he said.

"It is my opinion that the cause of temperance would not suffer more under the administration of Gov. Smith than it has under the present regime."

Chelsea Loses Final Game
Friday the C. H. S. boys were defeated in the last game of the season by Stockbridge. The final score was 16-9. Neither team scored in the first quarter, but in the second, Stockbridge scored three points. In the third quarter Chelsea scored twice on long shots.
