## CHELSEA KIWANIS CLUB LEADS ALL THE STATE

First To Pay Its Assessment For The  
Kiwanis Reforestation Project  
—A 100 Percent Record

The entire membership of the Kiwanis Clubs of Michigan volunteered for the purpose of supporting a great reforestation project in Michigan. Of course the Chelsea club joined with the other clubs of the state in this very worthwhile project and Chelsea carries off the honors for being the first club to pay its assessment in full—a 100 percent record. A total of 82 acres will be designated in the forest area as being under the care of Chelsea club.

At Monday night's meeting of the club Howard Lloyd was in charge of the program and he presented Claude Rogers who favored the donors with two cash phone numbers, being accompanied by Miss. E. P. Potts. He then introduced Verne Cushing, one of the county auditors of Washtenaw county, who told in a most interesting manner of some of the reforms that had been made in the conduct of the county's and of the savings that had been effected. In closing his very interesting talk he spoke of the prevalence of rabies in this county and in Oakland county and urged the members in being diligent in the apprehension of any strange dogs going about. In Oakland county the situation has become so serious that the sheriff has a large force going about the county killing dogs that do not have a tag indicating they have been properly treated.

Next Monday the Plymouth club will provide the program for the local meeting.

## ANN ARBOR THE VICTOR IN ORATORICAL CONTEST

Chelsea was well represented at the oratorical contest held at Pottsville, Michigan, Monday night. All contestants did well.

Chelsea was well represented at the oratorical contest held at Pottsville, Michigan, Monday night. All contestants did well.

The contestants and a few friends were entertained at dinner at the High school lunch room at 4:30 and everything was done that could in any way add to the pleasure of the gathering. At 8:00 a crowd that filled the auditorium had gathered to hear and to cheer their favorite contestant and every one of the six young people who took part was given a generous applause—the public played no favorites.

President McKinney of the State Normal College at Ypsilanti, who knows and loves young men and women so well, presided and he announced a section by the Ann Arbor High school orchestra under the direction of Miss. Higbee.

The schools taking part were represented by the following: Ann Arbor High school, Ben Dudley; Chelsea High school, Albert E. Potts, Jr.; Saline Union High school, Alice Schleh; St. Thomas High school, John Edward McCarthy; University High school, Elizabeth Shull; and Ypsilanti High school, Jay Westcott.

When all the contestants had been heard the judges "took time off" to render their decision and while the audience was waiting the orchestra played two numbers. Finally the decision was reached and President McKinney announced the result as follows: First, John Edward McCarthy; second, Elizabeth Shull; third, Jay Westcott. In announcing the result Mr. McKinney took occasion to congratulate all who took part upon the manner in which they presented their oration and to express to Hackley Butler the appreciation of all for the interest he manifested in the contest.

About twenty representatives of the Chelsea schools attended the banquet preceding the contest. Prof. Trueblood, head of the public speaking department of the U. of M., was the speaker.

## TENDERED A FAREWELL

Last Saturday evening Mr. and Mrs. A. B. McClure and children were tendered a very pleasant farewell at the M. E. church, the affair having been arranged under the auspices of the Fellowship club. After some time had been spent in visiting and in an exchange of greetings and best wishes, the company was called to order by President Clark of the Fellowship who expressed the regret of its members at the departure of the McClures from Chelsea. O. C. Hughes, McClure's former pastor, also expressed the regrets of the church and society at the departure of the McClures from Chelsea. The society greatly regretted the departure of the McClures from Chelsea. The society greatly regretted the departure of the McClures from Chelsea.

## PRINCESS THEATRE OFFERINGS

A new cowboy film star will be the attraction at the Princess Theatre Saturday night—John Wells, who has become famous only recently. For Sunday Belle Bennett in "The Devil's Trade Mark" will be the attraction and Wednesday and Thursday nights "Lightning" a story by Zane Grey will delight all who attend the theatre.

## VISITS SPECIAL SCHOOLS IN EASTERN CITIES

Former Chelsea Woman Chosen One  
Of Four Teachers In State To  
Make Inspection Trip

Mrs. Ford Axtell, of Jackson, formerly of Chelsea, and a special teacher for girls in the Jackson Vocational school, is making a ten days' trip through the East visiting vocational and trade schools in Pittsburgh, Philadelphia, Washington, New York, Worcester and Buffalo.

Mrs. Axtell was chosen by Prof. Clea Murland of the educational department of the University of Michigan as one of four special women teachers in the state to accompany her east for the purpose of investigating vocational training for girls. Other teachers in the party are Miss Woodin of Pontiac, Mrs. Lightfoot of Flint and a special teacher from Saginaw, the school boards of the several cities paying the expenses of the trip.

## WHO WILL VOLUNTEER

Who will volunteer to pass a subscription paper for the purpose of raising some funds for the support and maintenance of the Chelsea branch of the League of Women Voters this summer? People are ready and willing to subscribe for the purpose, but some one must "pass the hat." Here is a chance for some one to render a real community service—a service that will afford enjoyment to a lot of people during the summer months.

## LEAGUE OPENING GAME NEXT MONDAY NIGHT

The Oddfellows and Methodists will be the first to step out in the public eye. The opening game of Chelsea's twilight baseball league will occur on Monday next, at 6:30 sharp, when the Oddfellows and Methodist teams will face each other in a royal battle. When the umpire sounds his whistle it is expected that every fan in this section will be on the side lines to give the opening teams a rousing cheer. The opening game gives promise of being a real contest, too, and if you miss it you will have something to regret as long as you live.

The field has been moved 25 feet to the west, thus providing more parking space for cars. The schedule for next week has been arranged as follows: Monday—Oddfellows vs. Methodists; Tuesday—C. R. G. vs. Masons; Thursday—Congregationalists vs. St. Paul's; Friday—Knights of Pythias vs. American Legion.

The games will take place at the golf grounds, and for many years and they are free to the public.

## TO HOLD CONFERENCE AT YPSILANTI FRIDAY

Bernard Coggan, Superintendent of the Adult Division of the Michigan Council of Religious Education, with headquarters at Lansing, is coming to Ypsilanti at the Methodist church on April 27th to speak to a county-wide supper gathering of christian men and women. Mr. Coggan is in the employ of eighteen Protestant denominations in Michigan. He comes to Ypsilanti under the auspices of the Washtenaw county council of religious education, the Washtenaw county Brotherhood.

Mr. Coggan has a background of seven years experience with the state council of religious education, two years with the Ingham county council, six years in the efficiency department of the U. S. Steel Corporation, ten years with a Presbyterian mission at Gary, Indiana, and six years public school teaching in Michigan.

Recently in recognition of his achievements and proposed program in the adult bible class work of Michigan, he was made secretary of the professional advisory section of the international council of religious education. He is also a member of the American association for adult education. There will be other good speakers on the program also.

The event at the Methodist church will begin at 6:30 p. m. and the evening will be made by Mrs. Chas. Harris, 517 Pearl street, Ypsilanti, Michigan. Everybody is invited.

## EASTERN STAR CHAPTER INSTALLS OFFICERS

## FREE CLINIC NEXT TUESDAY

Parents from the village and the country as well, are urged not to forget the free school clinic which will be held at the Chelsea public school building on Tuesday next. Children from four to seven years of age are especially desired and parents are invited to bring them. There will be no official attached to this clinic in any way. The physician and nurse in charge understand children and they are only desirous of discovering any defects that may be manifested, to the end that measures may be taken to correct the trouble before it is too late. Children and parents may go with perfect confidence, as they would go to their own local physician.

## CHELSEA ODDFELLOWS OBSERVE ANNIVERSARY

Attended Services At The Congregational Church Sunday Morning  
—Interesting Address Given  
By Rev. A. E. Potts

One hundred and nine years ago this month, five men, who had become residents of this country, and were members of the order in their native land, met in the city of Baltimore, Md., and instituted the first lodge of Oddfellows in the United States. The organizers of the first lodge lived up to the principles of the order, "Friendship, Love and Truth," and during their lifetime and from their persistent efforts the American headquarters have been permanently established in Baltimore.

From the organization of the first lodge until today, there is a membership of hundreds of thousands and there are but a very small per cent of the members of the United States which do not have a lodge. The organization is world wide and no matter where a member of the order may be, if he is in need of assistance, it is cheerfully given.

Sunday morning the members of Chelsea Lodge, No. 101, and the Rebekah Lodge, met in their hall and in a body marched to the Congregational church where the annual anniversary services were held. Rev. A. E. Potts, who is a member of the order, delivered a very able address. He selected for his theme "The Good Samaritan." This is one of the principal lessons of the order and is exemplified in the second degree, known by the members as "Brotherly Love."

All of the degree work of the order is taken from the Bible and if lived up to every member of the order is a true example of American citizenship. The choir rendered several fine selections and all members of the order who were present highly appreciated the entire service.

## STARTED IN BUSINESS HERE THREE YEARS AGO

F. W. Merkel Opened Hardware Store Three Years Ago This Month Enjoys A Fine Trade

Three years ago this month F. W. Merkel opened a hardware store in his present location and while he has made no attempt at observing the third birthday of his business he naturally recalls the days when he set forth in the venture. Some shook their heads when it was announced that Chelsea was to have another hardware store, but he had faith in his own ability to conduct a successful business and he believed that the time was a good place in which to start. He selected his stock carefully and started out with the best wishes of many friends. During the passing years he has enlarged his circle of acquaintances as well as his stock and each year has witnessed a steady increase in the business of the store.

He carries many well known lines and his stock is well arranged and attractively displayed. He has given the business class attention and by fair dealing and courteous treatment of his patrons he has made for himself a permanent place in the business life of Chelsea.

## COUNTY CLUB MEMBERS MET HERE LAST NIGHT

Achievement Meetings Are Being Held In The County This Week —A Good Program Here

Last evening at the Chelsea public school auditorium the hot lunch, clothing and handicraft clubs in this portion of the county held a joint meeting, the very interesting program being under the direction of Mrs. Veva Kalmbach. The following clubs were represented and took part in the program: We, the Busy Six club, led by Mrs. Veva Kalmbach; Rough and Ready Ropers, led by Katherine Lucas; Stitch and Sew club, led by Mrs. Cora Metzger; Handicraft Lovers, led by Mrs. Veva Kalmbach; James Crismon; U-Need-A-Hot Lunch club, led by Mrs. Dorothy Teachout; Busy Carpenters, led by Guy Barton; Industrial Three in One, led by Mrs. Homer Stoffer; Jolly Lads and Lassies, led by Miss Mary Horton; Square Sawing club, led by Mrs. Veva Kalmbach; Sewing club, led by Evangeline Griffith; McIntee Hot Food Station, led by Mrs. Veva Kalmbach.

Representatives of the state club staff were in attendance for the purpose of judging the exhibits and selecting the champions in clothing and handicraft club work.

## TO HAVE MODERN FUNERAL HOME

George E. Staffan is making arrangements to have a new funeral home built at his residence on Park street. The west wing of the residence is to be removed and an addition for a morgue is to be extended to the south of the present wing. The barn on the rear of the lot is to be torn down and replaced with a modern garage.

## TRANSFERS OF PROPERTIES

The Chelsea Homestead estate have sold the farm in Lima to John L. Fletcher. Mrs. August Wier has purchased the farm from Mr. Fletcher and with her family has moved to their new home. Mrs. Honick has purchased from Mr. Fletcher his residence property on Garfield street and will move there about the first of June.

There is no other refrigerant like ICE. You can depend upon it. In a good refrigerator it maintains a temperature cold enough to keep foods fresh, dry enough to prevent mold and moist enough to retard the drying out of meat, cheese, butter and fruit.

It is nature's way of preserving the delicious juices and precious, elusive flavors of food.  
It is important to have a good refrigerator. This does not necessarily mean an expensive model. You can get a thoroughly good one, correctly designed, tightly constructed and well insulated, at moderate cost. If kept in good order and properly handled, it cannot fail to give the most satisfactory results.

### FARMERS MUST HAVE FAITH

We read in the Good Book that "Faith is the substance of things hoped for and the evidence of things not seen," and outside of religion, is there greater proof of the existence of faith than out yonder on the farms of America?

We are on the very threshold of another spring. The lengthening days, the milder climate, the singing birds, and the sprouting grass, all tell us that another winter is almost past and that we are soon to witness a new birth of nature.

While the city folks are beginning to think and talk of where to spend a looked-for vacation, the farmer begins to plan and blow for a crop which yet is only in his mind but which by faith he sees afar off and expects to reap, if he does his part. Out of the house before the break of day, he harnesses his horses and goes forth to prepare the soil for the proper reception of the seed. This done, his next step will picture the sowing, to be followed by cultivation. He knows not what the weather is to be, he has no idea as to whether insects or other plant destroying pests are to visit him, but, by faith, he marches forward, hoping, praying and believing that when the fall arrives with it will also arrive a harvest sufficient to provide for himself and loved ones.

Let those who prate about faith living an idle dream of fancy look upon the farmers of America and behold the works produced by faith.—National Farm News.

### CHELSEA NEEDS A SPRING HOUSECLEANING

Like all towns at this season Chelsea needs a real old fashioned spring housecleaning and the village board and the village board of health are asking the people to co-operate in this community effort. There are a lot of unsightly ash piles, rubbish piles and other accumulations about the village that greatly detract from the appearance of the town and that make for an unsanitary and unhealthy condition when warm weather comes. If every property owner will join in this movement and clean his or her premises Chelsea can easily be made the cleanest town in the state. The cost of such a clean-up will not be great, nor will it require a lot of work on the part of anyone.

During the summer hundreds of tourists will visit Chelsea and for the good opinion of our guests as well as for the comfort and health of our own people, the town ought to be given a thorough cleaning—from front lawn to back alley.

As a property owner, or a property renter, you are urged to take an interest in this movement and to assist in every way you can.

### A GOOD WAY TO CURB CRIME

There is a definite national need for law simplification, particularly in the criminal statutes. At present there is so much legal chaos attached to criminal cases that justice is delayed or defeated.

So rapid has been our civic, state and national growth that laws effective and valuable a comparatively few years ago are now entirely impractical. Yet little effort is made to correct them.

The legal system of the British Empire is more accurate and immediate, with the result that a high percentage of criminals are caught and convicted, and crime is discouraged. A simple, but complete, criminal code that is framed by legal loopholes will do more to discourage crime than a thousand anti-revolver laws and ordinances which merely restrict the law-abiding citizen, to the safety and advantage of the crook.

No one objects to curbing the criminal, but there is widespread objection to continually bearing down harder on the honest man or woman.

### HIS CROWING DAYS ARE OVER

Gasoline is a dangerous article to play with. The owner of a rooster left his automobile standing in the driveway at the rear of his house while he went inside to get tools with which to repair a leak in the gasoline line of the car. Along came a rooster and decided to search for gravel on the road-way. It didn't mean anything to him that gasoline was dripping down beside him—he didn't know he might better have been scratching on dynamite! Evidently his claws struck off a spark, for the next instant the air was full of fire, cushions, twisted metal and white feathered feathers! That rooster will crow no more.

While gasoline is about the most dangerous, all petroleum products should be handled with care. The National Board of Fire Underwriters reports that in 1926, \$14,978,599 was the amount of wasted wealth that went up in oil smoke.

This is national and state forest week. Have you planted a tree or a shrub about your farm or village home? A little time spent now will pay large dividends in comfort and happiness in the years to come.

The University of Michigan will offer again this summer a course in athletic coaching and administration, starting with June 25th and continuing until August 3rd. Coach Yost and his wonderful staff will be in charge, which will insure the success of the enterprise.

### FINAL DEBATE WILL TAKE PLACE FRIDAY NIGHT

Royal Oak and Zeeland will clash for state forensic honors in the eleventh annual state championship debate of the Michigan High School debating league to be held in Hill Auditorium, Ann Arbor, Michigan, at 7:45 p. m. on April 27th.

This coveted honor of appearing in the state championship debate falls to the debating teams representing Royal Oak and Zeeland as they emerged successfully from the schedule of debates arranged by the Michigan High School debating league after having eliminated their opponents, Memphis and Cheboygan respectively, in the semi-final debates.

### THERE'S ROOM AT THE TOP

No matter how little he's getting; No matter how little he's got If he wears a grin, and is TRYING to win— He is doing a mighty LOT! No matter how humble his job is, If he's STRIVING to reach the crest—

The world has a prize, for the fellow who TRIES. The man who is doing his BEST! Today he may be at the bottom Of the ladder to wealth and fame; On the lowest rung, where he's bravely clinging.

In spite of the knocks—DEAD GAME! And slowly he's gaining a foothold, His eyes on the uppermost round, It's a hard old climb, but he knows in time He will LAND—and be looking DOWN!

The fellow who never surrenders, And is taking things as they come; Who never says "quit," and exhibits GRIT

When the whole world's looking glum; The fellow who stays to the FINISH, That nothing can hinder or stop, And who works like sin, is the chap who'll WIN—

And SOMEDAY he'll land on TOP! —Selected.

### THE TROUBLES OF MICHIGAN STATE COLLEGE

The administration of Michigan State College at East Lansing seems to be troubled with an undue introduction of politics. The campus is kept in a state of nervous tension by the actions of the State Board of Agriculture, the body which is charged with the direction of the institution.

Dr. J. C. Butterfield, the president of the college, and several of his faculty members have been viciously dismissed as a move in an economy campaign. It was only a few years ago that Dr. David Friday, one of the nation's foremost economists was released from the presidency of Michigan State College due to difficulties in administration.

The effect of continual friction between members of the board of agriculture and those engaged in academic positions in the college is generally destructive and unhealthy. That feeling of uncertainty tends to retard progress at Michigan State.

As long as the citizens of Michigan support an educational institution by tax money it is proper that a board of citizens should be entrusted with the general overseeing of the activities of the institution. But the trust should be held as sacred, obligating the members of the directing body to act without personal or political animus. The State Board of Agriculture should see only the eventual welfare of Michigan State as a power for good. The board certainly should not be actuated by any hope of making political capital out of its decisions.—Jackson Citizen Patriot.

Governor Green would be justified if he asked all the members of the board to resign. They have quarreled and fussed for years and the state can well get along without their services.

At the Second district republican convention held at Adrian last Wednesday resolutions were adopted endorsing Herbert Hoover for president and urging the re-nomination of Congressman Earl C. Michener. The district delegates paid Washington courtesy a compliment in electing Roscoe Bonistell of Ann Arbor as a delegate to the national convention to be held at Kansas City.

### NATIONAL EGG WEEK FIRST WEEK OF MAY

May 1st to 7th is National Egg week during which time the attention of the consuming public is called to the use of eggs in the diet particularly from a mineral and vitamin standpoint. Egg yolk is one of the richest foods in iron, in fact it contains more iron than the highly advertised dried fruits. Egg yolk is very high in vitamins and if sufficient eggs are consumed it is not necessary to feed cod liver oil.

The poultry flock is becoming the farmer's best cash producer and it is entirely proper that he pay our tribute to the lowly hen at least one week out of the year.

### INCREASED PRODUCTION BRINGS PROSPERITY

Our experience during the past six years has demonstrated conclusively

that higher wages with an increase in per capita production is a sure way to prosperity and its attendant blessings of a higher standard of living. As people are all employed at remunerative wages, a demand is created for the increased productivity resulting from the use of modern machinery.

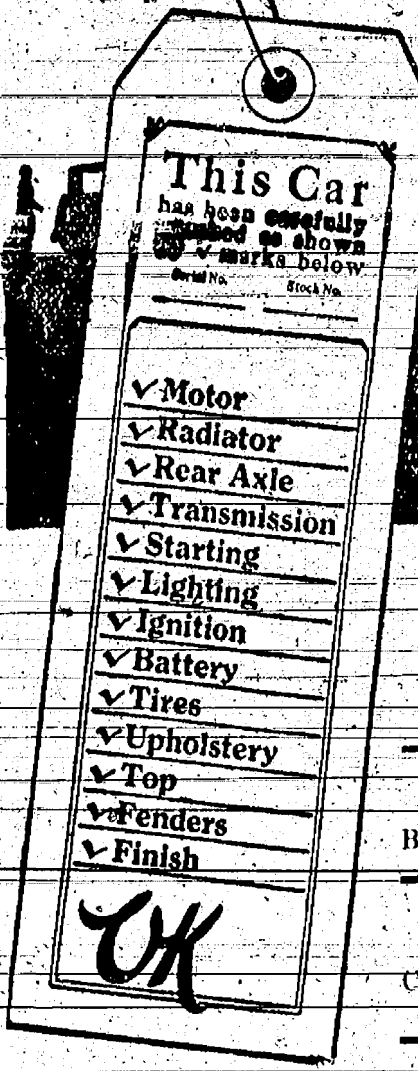

Monroe—Seventy barrels of oil were produced in twenty hours on March 2 oil well on Dusseau-LaPointe farm, miles west of here.

## GOVERNOR DESIGNATES CHILD HEALTH DAY

Governor Green issued the following May-day and child health proclamation:  
"To all of us, children are of first importance. Upon them depends the welfare of our homes and the ensuring prosperity of our state. It is the responsibility, as it is the privilege, of each one of us to do our part in giving to every child the opportunity to develop into a strong, self-reliant and happy man or woman. And of all the factors necessary for such development none is more vital than health."  
"To this end I hereby set aside May day as child health day in Michigan and urge its thoughtful observance."

## ADVISES RESEEDING OF ALFALFA FIELDS

Owners of alfalfa fields upon which part of the plants have been winter-killed are advised by the farm crops department at Michigan State College not to plow down the alfalfa but to reseed the fields. In cases where the plants are killed out in well defined areas, these spots should be thoroughly worked up with a spring tooth harrow and seed broadcast at the rate of eight to ten pounds to the acre. On fields where the stand has not been killed out in spots, but where the stand has been thinned over the entire acreage, the spring tooth harrow should be used on the whole field and the seed broadcast as before. Reseeding will not be successful on fields where June grass or quack grass has made a soil. A heavy roller or a cultipacker should be used on the fields after the alfalfa seed has been sown. The packing of the soil will help cover the seed and will also assist in saving some plants that have been partially heaved from the soil during the winter. Reseeding fields will pay in most cases where from one-half to two-thirds of the original stand is still alive. A fair crop of hay will be produced on these fields.

## Bible Thoughts for the Week

**Sunday.**  
THE WAY OF ESCAPE.—It shall come to pass in the day that the Lord shall give thee rest from sorrow, and from fear, and from thy hard bondage wherein thou wast made to serve.—Isa. 14:3.  
**Monday.**  
A WISE THOUGHT.—Let us search and try our ways, and turn again to the Lord.—Lam. 3:40.  
**Tuesday.**  
WHO INDEED?—If God be with us, who can be against us?—Rom. 8:31.  
**Wednesday.**  
THY WILL, NOT MINE.—Teach me to do thy will; for thou art my God. Thy spirit is good; lead me into the land of uprightness.—Ps. 143:10.  
**Thursday.**  
EVERY DAY.—This is the day which the Lord hath made; we will rejoice and be glad in it.—Ps. 118:24.  
**Friday.**  
SPEAK NO IDLE WORD.—But I say unto you, that every idle word that men shall speak, they shall give account thereof.—Matt. 12:36.  
**Saturday.**  
TIME NO OBJECT.—But, beloved, be not ignorant of this one thing, that one day is with the Lord as a thousand years, and a thousand years as one day.—II Peter 3:8.

## COMMON FOODS

Careful seasoning and cooking with nice serving makes an ordinary dish, though plain, attractive. Attention should be more often on our tables. When it is properly handled it is a most tasty meat. The woody flavor will be unnoticed if the skin is carefully removed.

## Mock Venison

—Hung a leg of mutton in a cool place to ripen as long as possible; this adds to its tenderness as well as flavor. Take off the skin and place in a deep kettle; cover with the following: Three heads of garlic, one-half ounce of peppercorns, one-fourth ounce of crushed allspice, six bay leaves, a dozen sprigs of thyme, the same of parsley, all brought to boil in three cupsful of vinegar. Allow the meat to remain in this pickle, covering the meat with thinly sliced onions until the next day. Rub the meat well with this when it is first put over it and again the next day; turn over and cover the other side with the sliced onions. Continue this for four days, then drain and wipe the meat dry. Rub for half an hour with a pint of hot molasses. Now hang the meat in a cooking unit the following day. Roast as a leg of mutton. Serve with currant jelly or spiced grape jelly.

## Fruit Salad

—Wash peaches cut into quarters with orange and grapefruit in sections arranged between the pear quarters is a most delicious combination. Serve with:

**Golden Dressing.**—Take three tablespoonsful of orange juice, one tablespoonful of lemon juice, one-half cupful of sugar, a few grains of salt, place in a double boiler and add one slightly-beaten egg. Cook until smooth and thick. Cool and just before serving add one-half cupful of cream beaten stiff.

## Almond Torte

—Take one cupful of granulated sugar, beat with the yolks of six eggs and the juice of half a lemon for fifteen minutes. Mix one-half teaspoonful of baking powder with one-half pound of finely ground almonds. Now add the stiffly beaten whites of the six eggs, grated lemon rind and bake one hour in a very slow oven.

Howell—Consumers' Power Company installing gas main connecting Lansing and Howell and serving 2500 customers.

## THE PEDDLER STINGS

Despite repeated warnings, the common house-to-house variety of peddler continues on his happy and general uninvited way, selling everything from mousetraps to raincoats, gathering his victims here and there who are seemingly unable to withstand his wiles. Some peddlers carry their stock of merchandise with them, this in communities that are unprotected by local ordinances. Then, there is the order taker who is content to deliver later, trusting to luck that you have not changed your mind or moved away in the meantime. But most to be feared is the fellow who gets your signature on an order blank and then demands a down payment. Sometimes they return to deliver your purchase and collect the balance due and then again there are many number who take your initial payment and are seen no more. The safe way is to shun all peddlers but if you must patronize them, make it a hard and fast rule to pay out no money until the goods are in your hands.

## CONSERVATION IN HOME AND FACTORY

The waste of natural resources on life and property from the use of coal and oil, has encouraged the gas industry to substitute its product for the needs of urban domestic and industrial communities. Each succeeding year will undoubtedly increase the steadily increasing availability of gas fuel; both as a result of the gas companies' initiative to substitute its product for the needs of urban domestic and industrial communities. Pinckney—A world's record is believed to have been established for the purchase price paid for chickens at the Featherly auction at Hamburg last week. 185 Barred Rocks sold for \$3.20 each. The total amount was \$1,113.75. The buyer was Perry Smith, a wealthy Detroit man who purchased the property and wanted the chickens left on the farm, regardless of price.—Dispatch.

## Methodist Home

Mrs. Clara Bangs does not improve very much and is still very feeble. Miss Betty Mae Frye of Manchester, called on friends in the Home Sunday.

Mr. Ross, wife and children, of Francisco, were callers at the Home Sunday.

The Home now has 80 members and others who are waiting for an opening.

An addition to the musical staff of the Home is Simon Luley and his harmonica.

Rev. W. J. Balmer left Friday to spend a week with his daughter in Detroit.

Mr. and Mrs. C. W. Huddleston, of Detroit, visited with friends in the Home Sunday.

Mrs. Sarah McGregor spent a week visiting old friends in Romeo and returned last Wednesday.

Mrs. Nellie A. Rumford, of Detroit, takes Mrs. Shepherd's place as nurse on the second floor.

Mr. O'Conor, of Birmingham, will probably be the next addition to the family. His compass heads him this way.

Miss Mollie Jones, Miss Harriet Adams, Frank Bishop and Jack Coults, all of Detroit, were callers on Miss Alice Brown Sunday afternoon.

Mrs. Amelia Griffith has been receiving a visit from her daughter, Mrs. Stinson, of Cadillac. Mrs. Griffith has been a member of the Home since February, 1919.

Mr. Benjamin Lawrence, Mrs. Charles Merriam and Mrs. Edith Irwin with their two children, visited with Mr. and Mrs. Bowen and Mrs. Wilcox last Sunday.

Mrs. Laura Rowe has not recovered as much as was hoped for and was taken to the hospital for treatment.

Miss Jean Georgan, of Detroit, was a visitor Tuesday. She wanted to find out if the descriptions of the Home were overdrawn, so came personally. She was well pleased with what she saw.

Mrs. Mary Wooster, of Adrian, joined the family as a new member last Sunday. Mrs. Wooster is an old resident of Adrian, having been born in that township and always having lived there.

Mrs. Atwood McAndrews called on her mother, Mrs. J. C. Brabb last Sunday. She was accompanied by her young son, Atwood Jr., and by the "in-laws," Mr. and Mrs. Thomas W. McAndrew of Lpsilanti.

William A. Ryan and wife, the Misses Margaret and Jeanette Stelten, Mrs. F. McKenzie and Mrs. Adda Church, all of Adrian, visited the Home Sunday. They brought with them Mrs. Mary Wooster as a member of the family.

Mr. and Mrs. Charles G. McEntee called on Mrs. Nellie Smith Monday afternoon. They were returning from an automobile trip through Oklahoma, Texas and Arkansas. They spent five weeks at Hot Springs.

B. G. Miller and wife of Hoyal Oak, accompanied her brother, the Rev. Fred B. Johnston, to the Home Sunday. Rev. Johnston conducted the services in the parlors. He gave a very good address on "Happiness" which was appreciated by all members of the family.

Services Sunday afternoon as usual. Mrs. and Mrs. McEntee of Ann Arbor, called on John Hubbard Sunday afternoon. Mrs. Hubbard lived neighbors to Mr. Hubbard in Vernon. They have been long acquainted since childhood and enjoyed an hour renewing old acquaintances.

An impromptu gathering in the sun room, on Tuesday evening, celebrated the birthday of Mrs. Martha Wheeler, who is 83 years young, the happiest, handsomest woman in the Home. She entertained her guests with humorous readings, in her usual easy style, and confectios and congratulations followed.

An old-fashioned singing school was held Saturday evening. The occasion was brought about by the donation by Grinnel Bros., of Detroit, of fifty copies of old songs of years ago. The old songs caused the members back to years long past and they all sang with as much vim as though they were in their teens.

Frank Bishop, of Detroit, a pianist of renown and acknowledged ability, visited Miss Alice Brown last Sunday evening and fulfilled an old promise made to Miss Brown that he would favor the family in the Home with some of his compositions. It was a treat that the "shut-ins" very seldom receive. It was unexpected and the reporter still hears praises of it. We could not help but noticing the willingness of Mr. Bishop to give pleasure to his little group of listeners. The smile on his face added pleasure to the company. Mr. Bishop has made four trips abroad to improve his musical education and certainly shows the results.

**SUGAR LOAF LAKE**

L. D. Guinan of Detroit, spent the week-end with his parents here. Leo Guinan is working at the M. C. freight office in Chelsea.

Mr. and Mrs. Charles Finney and children, of Detroit, spent Sunday at the Guinan home.

Austin Bush is working in the Chelsea Sewer plant.

Mr. and Mrs. E. E. Rowe and Claire called on Mrs. Betty Howlett Sunday.

Mr. and Mrs. Wm. Musgrave of Detroit, spent Sunday at their cottage here.

## FRIDAY IS ARBOR DAY

Governor Fred W. Green has designated Friday, April 27th, as "Arbor Day."

This special day in springtime is really an old institution—we have been observing it for many years.

Its original purpose was the beautification of our cities and villages, the making of the home community a more beautiful place in which to live.

That was in the days when millions of acres of virgin timber were still standing in Michigan. Nobody thought that the time would come when "Arbor Day" would mean the planting of not one tree, but many trees, as a part of a big general plan of reforestation.

At least, once a year, Friday, if there is not room in the back yard, then plant in the front yard. Trees help to make a good home, they help us to be proud of the places where we live. And our friends, the birds, are happy at the homes near where there are trees. Plant a tree—you can do that—God will grow it for you—posterity will remember your act.

Mrs. Frank Paine, of Richmond, motored over to Chelsea Friday afternoon to bring Mrs. Martha Bates to her home here. Mrs. Bates has been spending the winter with Mrs. Paine.

## W. R. C. ENJOYS ANNUAL BANQUET MONDAY NIGHT

Sixty-five Guests Were Present And An Interesting Program Was Given

The annual banquet of the Woman's Relief Corps which was held Monday evening in the dining room of the Congregational church, was a very enjoyable affair.

A delicious supper was served by the Brocade Chapter of the Ladies Guild, covers being laid for 65 guests. The tables were beautifully decorated with flags and tulips. The evening's program opened by a reading "Peace" by Mrs. Runeyman. Prayer was offered by the chaplain. The address of welcome by the president, Mrs. Warren K. Guerin, was responded to by Mrs. Jabez Bacon. A reading "The Soldier Boys Return" was given by Roland B. Waltons. Vocal duets "Sweet Genevieve" by Tucker, and "Slumberland" by Simons, were rendered by Mr. and Mrs. J. Vincent Burg. Mrs. Bruce Plankell gave a reading "The Minister's Grievances," responding to an encore with "When A Lady Shifts Gears." This was followed by a reading "The Battle Royal," by Mrs. A. B. Clark. A piano solo "Patriotic Airs" was rendered by Mrs. J. Nelson Dan. Gen. J. E. Palmer gave a very interesting and instructive talk on India, relating many amazing experiences while in Ceylon, Colombo and Kandy. The program concluded with the singing of the "Star Spangled Banner" followed by the pledge of allegiance to our flag. The company then repaired to the W. R. C. hall where a pleasant social evening was enjoyed. Music for the banquet was furnished by Gentner's orchestra.

## A President Born

By Fannie Hurst  
Author of "Lummon"

The life of a family, a town, of America surges through the pages of this new novel. A new Fannie Hurst, also for "A President is Born" is unlike anything she has ever done. There is not a word of politics—a fascinating story from first to last. Really it is a new kind of American folk story.  
At the Schuyler family Thanksgiving dinner David's imminent birth is announced; he soon arrives in the Centralia home, in a birth-state of Presidents. From that page on you live there also. To the end you would not wish to live elsewhere. When you turn the last page you have a picture of David, the future president, going out into the world.  
But the magic of these pages is that you have a picture of David as president, a picture more thrilling and convincing than if you could look into their future. This projection of the novel into another day is like a vision opened up and through it every episode in the lives of this community is doubly vivid and real.

the official organ of the Michigan Milk Producers' association. We take the following regarding the price of milk as agreed upon for the Detroit area: Due to the fact that milk prices in May and June may run extra high as compared with consumption it was agreed that instead of a fixed price for these two months ahead of time, the prices for two months would be determined at the end of each month. The price of these two months will be determined by using the actual production and consumption figures for the first twenty-eight days of each month. The amount of milk consumed will be figured at \$3.00 per cwt., and the remainder at 92 score butter New York plus twenty per cent.  
The price on all milk shipped during April will remain the same as for March which is \$2.77 per cwt. for 92

**WILLIAM P. PURFIELD**

The shoeman of Ann Arbor is a purely Ann Arbor product. He was born in that city in February, 1879, and has remained there all his life with the exception of a single year, 1903, when he managed two shoe stores in Grand Rapids. The shoeman is William P. Purfield, who entered the University of Michigan with the intention of becoming a chemist, but quit college after two years for lack of funds, and entered the shoe business where he has made his mark.

Mr. Purfield first entered the employ of William C. Reinhardt who owned a retail shoe store on South Main street. It was there that Mr. Purfield first realized the amount of torture which is the punishment of improperly built or fitted shoes. Mr. Purfield himself suffered from such trouble and from that time on he specialized in foot and shoe study.

Within a short time Mr. Purfield was offered the management of the Puritan Shoe Store, which he accepted in 1897, to the benefit of that store which within two years was forced to take a larger store in Main street leaving its Liberty street location. In 1903 he went to Grand Rapids to work for the Puritan Company which owned stores in that city. After a year he returned to Ann Arbor to open a business of his own at 119 South Main street. He vacated that store for his present shop at the corner of Liberty street and Fourth avenue in 1913.

With a single purpose of developing better shoes, Mr. Purfield has put on the market a special arch supporting shoe which is known as Purfield's Foot Preserver Shoe. Another discovery of Mr. Purfield's was made in 1904 when he built up the theory of fullwidth bottoms to shoes, which has since been adopted by the larger and more advanced shoe stores of the United States. That principle has done much to make modern shoes more comfortable.

That Mr. Purfield's two major discoveries coupled with his personal designing of shoes for his store have done much for the people of the entire state is proved by the large clientele which he has worked up. Physicians from Detroit and many other parts of the state send foot sufferers to the Ann Arbor shoeman who sends them away happy. Most of his customers come back, not with complaints, but with more seekers after foot comfort which Mr. Purfield has spent a quarter of a century in developing. One local physician sends an average of eight patients a week to the shop.

The secret of Mr. Purfield's success is his ability to combine in his shoes comfort, strength and style, on a scientific basis, and though still a young man, Mr. Purfield hopes to continue his work which is known throughout Michigan and the United States, as a huge bulk of mail orders testify.

Howell—Howell high school graduates this year seventy-seven at the end of the school year in June. The largest class in the history of the school with a very high average for the four years work.—Democrat.

Brighton—The purchase of 200 acres of property on the shores of Crooked Lake announced recently by Herbert Herndon Company, Detroit realtors. This property was formerly owned by the Dorr farm. Development calls for an 18-hole golf course, park and tourists hotel.—Argus.

Fowlerville—The Sunday school convention of Livingston county will be held in the Brighton Methodist church, Tuesday, May 1st. This convention is for all who are interested in Sunday school work. This convention bars no denomination from attending.—Review.

Milan—The biggest treat of the year in Maasick circles will occur when the Milan lodge will visit Milan lodge on April 30th and exemplify the work in the third degree. Lions is one of the largest lodges in Detroit and they expect to bring about 70 members to Milan.

Ypsilanti—The tri-county field day will be held at Lincoln Consolidated school this year on May 18. The following schools are members of the tri-county association: Clinton, Milan, Gladys, Dundee, Lamberville, Ida, Petersburg, Deerfield, Writton and Arletton.

ents in the history of Milan Chapter, No. 106, O. E. S. occurred at the Masonic Temple Tuesday evening, April 17th, when the chapter honored its Past Matrons, Past Masters and Past Officers, and also celebrated the thirty-fifth anniversary of the organization of the chapter.—Leader.

Manchester.—Tuesday morning workmen began digging trenches in order of business houses on the east side of the river that were not given a pipe connection with the village water main last fall. Iron pipes are used to corrode and leak is made before the change is made. Some towns the water does not corrode pipes and they do not have to use lead.—Enterprise.

Williamston.—Work is progressing rapidly on the new sub-station being erected in Williamston by the Detroit Edison Company. Most of the equipment is on the ground or on track in Williamston, and men are at work on installation. It is expected that it will now be a comparatively short time before the new sub-station is completed.—Enterprise.

South Lyon.—Thomas B. King, superintendent of the Grand Trunk Railway system, when addressing the Latta Exchange club some time ago stated that the gasoline-electric train operated on this line through the Latta (and South Lyon) and

approximately 60 cents a mile. The assessor's revenue brings the road to ten cents per mile. Herald.

Dexter—The village council has purchased a 5 h. p. automatic control system which will be placed on the town house. The reason, where it is located, is not properly located. The system is designed to be used for fire alarms. After it is permanently erected, it will be sounded every Saturday, at 12 noon for testing purposes. The clock and other apparatus purchased for the village, will reduce the fire insurance rate approximately 25 per cent.—Leader.

Brooklyn—Adding the teaching of economics and manual arts to a strong academic course is now announced by the Brooklyn school board and Superintendent A. J. Skinner, in signing contracts for a highly creditable teaching staff for the coming school year commencing next September. Following a plan of early graduation, the students of the high school have been active in securing teaching with special training in each department.—Exponent.

Plymouth—The special election held Wednesday to submit to the electors a proposition for borrowing the sum of \$40,000 and issue bonds therefor for the paving of street highways and the building of a series of constructed storm sewers in connection therewith, and for paying in front of public property on several streets, brought

Progressive sheep raisers are using wool twine and sheep branding that will scour out of their hands. However, the wool trade reports there is a need for still more improvements along this line. They point out that the owners of farm flocks of sheep are especially interested in the use of wool twine tied with paper twine. Wool tied with paper twine will hold more readily than similar twine tied with twine of jute or similar fibers. Fragments of wool twine will come out of the wool

in the scouring process. Other twines leave bits of vegetable fibers which are removed from the finished cloth by expensive hand labor.

The Central Fibre Products Co. of this place is shipping large quantities of the product to wool buyers, twine dealers and auto manufacturers, and their spinning machinery is running full blast at present in order to fill all demands.

**WEBSTER GRANGE OBSERVED  
TWENTY-FIFTH ANNIVERSARY**

Many former members joined in the celebration Thursday evening—Banquet and Program.

Mr. and Mrs. George E. English of Chelsea were present at the twenty-fifth anniversary celebration of Webster Grange, No. 111, which was held last Thursday night. Mr. English having been instrumental in organizing the grange twenty-five years ago, guests were present from Ann Arbor, Ypsilanti, Highland, Dexter, Chelsea and Webster and the gathering proved one of the most enjoyable ever held by the organization. The banquet was served at the community home at 7:30, being in charge of Mesdames J. Bernard Moore and Emily Docking, who were assisted by Mesdames Fannie Wheeler, William Wilson, E. Wray Hickey, and Edmund Carroll. Following the banquet, the company adjourned to the Grange hall where an interesting program was given, consisting of vocal and instrumental music, recitations, and readings. An interesting history of the Grange movement was given by Miss Grace, who stated that the first Grange to be instituted was formed at Washington, D. C., December 4, 1857, with Oliver H. Kelley the real founder of the order. The order grew slowly, and after a hard struggle at the end of the fourth year, there were but 1000 granges in the United States. The first grange in Michigan was the Burnside grange in Leape county, organized January 10, 1872, the second grange in the state was Eureka grange No. 2, in Washtenaw county. Washtenaw county was quite a pioneer county in grange work. Today there are in Michigan, 547 subordinate granges with a membership of approximately 30,000, 62 Pomona or county granges and 38 juvenile granges.

Miss Ball told of the work and accomplishments of the Michigan State Grange and urged the necessity of closer co-operation among farmers in matters of mutual concern. A history of Webster Grange was given by Mrs. Howard J. Ball, who mentioned briefly many of the pleasant happenings and meetings of the organization during the years of its existence. An amusing feature of the meeting was the program given by Webster's celebrated women's synopators. During the evening appropriate remarks were made by Mrs. English, Onley Outwater, and others.

The circuit court jurors who will serve during the May term were drawn Saturday by Justices C. A. Reading, of Ann Arbor and D. Z. Curtis, of Chelsea. The names of the jurors will not report for duty until the second day of the term, May 8th, the opening session being devoted to a review of the status of cases listed on the docket.

**CIRCUIT COURT JURORS  
THE MAY TERM**

Following are the jurors selected: Ann Arbor—Fred M. Stevens, First ward; Miles Jacobs, Second ward; Guy Stevens, Third ward; William Seery, Fourth ward; Freeman Ward, Fifth ward; George H. Pope, Sixth ward; Mrs. Alice Laird and Thomas E. Riley, Seventh ward. Zella Beardsley, First district; Mrs. Lois Schneider, Second district. Townships—Julius Kerr, Ann Arbor; G. R. Mattison, Augustus; John Feuerbacher, Bridgeview; Edward Carr, Dexter; Frank Beatenwischer, Carr; Dexter; Harry M. Cole, Lodi; Fred Freedom, Lima; Oscar Ulrich, Lyndon; N. L. Ferguson, Manchester; John Wagner, Northfield; James Morton, Pittsford; Amos Worden, Salem; Ralph Hammond, Saline; Ernest Elsas, Seto; Wilbur Comstock, Sharsasser; Selto; Nanry, Superior; Henry Onley, Sylvan; William Wilson, Webster; Andrew Kazmaier, York; and Errol Moore, Ypsilanti township.

**Elephants Draw Plow**

It is reported that elephants are trained to the plow at the Belgian Congo government schools at Apt, and that a pair of well-trained elephants can plow two and a half difficult acres in half a day.

**SEPTIC TANK DEMONSTRATION TO BE GIVEN TUESDAY**

At the Home of N. W. Laird in Sylvan Township—The Public Invited To Be Present

Sewage disposal for rural homes will be demonstrated next week in Washtenaw county. Four community meetings will be held where a special talk will be given, the construction explained and the principles of sewage disposal discussed by L. P. Livingstone of the agricultural engineering department, Michigan State College. The first meeting will be at the home of N. W. Laird, Sylvan township, Tuesday, May 1. All folks interested are invited to attend the meeting at Mr. Laird's next, Tuesday afternoon at 2:30 o'clock, at which time Mr. Livingstone will explain the details regarding the construction and operation of a dependable home-made tank. Plans for making tanks similar to the one to be constructed at Mr. Laird's will be distributed to those attending the meeting.

Mr. Laird has already done some of the preliminary work of construction. The excavation has been made and the material is being ground for use. Mr. Livingstone will make the necessary forms in the forenoon. In the afternoon they will be placed in position, the concrete poured, and all construction work completed.

With the addition of electricity and water systems in so many rural homes, there has been an increased interest in sewage disposal. Running raw sewage out of an open drain or into a small stream is a very dangerous practice.

Properly designed and constructed septic tanks are essential for proper sewage disposal. These factors will be fully discussed by Mr. Livingstone at the demonstration at Mr. Laird's home and also at the other demonstrations on Wednesday, Thursday and Friday.

County Agent Osler reports much interest in these demonstrations and that it was very easy to obtain the four co-operators for next week's meetings.

The second meeting will be held May 2nd, at the home of Chas. Rowe, located east of Ann Arbor on Packard road. On May third the demonstration will be at the farm of George Hartman, southeast of Saline, and the fourth and last meeting will be at Mark Lather's farm, Slocum Creek, Augusta township, May 4th.

**COUNTY POLICE BEING DISCUSSED THESE DAYS**

All Of The Present County Officers Will Seek Re-election—Contest To Be Spirited

County politics are being discussed these days about the county and judging from opinions that are being expressed—the approaching campaign will be a pretty lively one in Washtenaw county. The republicans are now in possession of all the offices to be filled this fall with the exception of that of sheriff, and they are making plans to return the present officers, who have served the county well. On the other hand, the democrats of Washtenaw county have a pretty strong organization and they will make a spirited contest for every office. Ernest M. Wurster will be a candidate to succeed himself, of course, but he will have a spirited contest for the election because there are a number of republicans who have thrown their hats in the ring and a "vote getter" is bound to be chosen at the primaries who will oppose the popular sheriff.

resident of Chelsea for many years and is held in high esteem by all who know him. He was appointed to the office in 1925 to fill the unexpired term of Perry Townsend and was elected for two years in 1926.

Already three men have announced their desire to secure the republican nomination for sheriff, and others may enter the race later—James W. Robinson and George Gillespie of Ann Arbor and Lee Davidson, a world-war veteran of Manchester.

**DOING MEANS REMEMBERING**

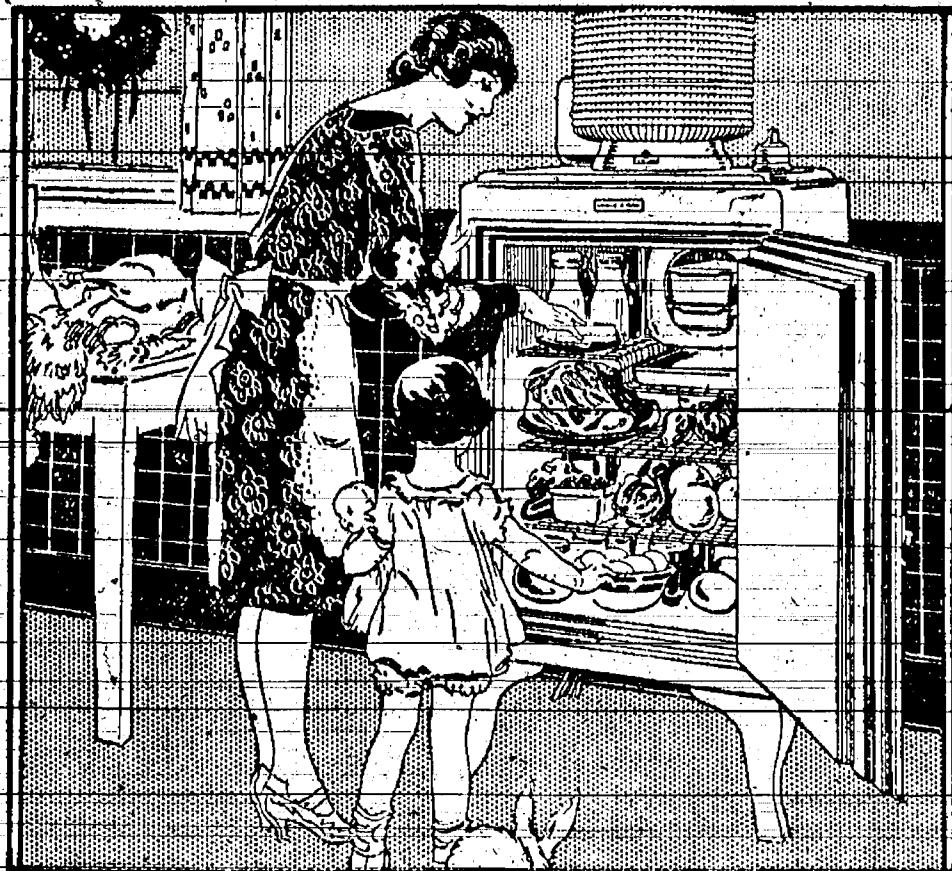

Why the Extension Service of the United States department of agriculture always endeavors to get people to do something rather than in listening to a speaker or watching him is indicated by a letter from a State demonstrator who has been conducting schools in farm accounting. In these schools each person who is present and ready to learn is expected to work out the business record of a typical farm in one of the account books provided in the course. Each step in the record keeping is explained as the school progresses until each pupil understands it. The pupils are then able to go home and work out the books for their own farm business, using the one they have already worked out as a guide.

**GENERAL ELECTRIC  
Refrigerator**

When a refrigerator contributes to the health and comfort of the whole family for years to come... when a refrigerator cuts the tasks and the costs of housekeeping... then it proves itself a thoroughly sound investment.

The General Electric Refrigerator consumes very little current because all the heat generated rises above the cabinet, not through it. And because its

efficient motor is unusually small. Its roominess makes fewer trips to market possible. All foods are preserved in healthful freshness, because the temperature never rises above the 50 degree danger point. Food wastage is absolutely done away with.

Come in today and see the many models yourself. Study them carefully. And send for a descriptive booklet. Time payments can be arranged, if you wish.

There is a movement on foot among Jersey cattle breeders of eastern Michigan to hold a cattle show this fall. There was a meeting held at Ann Arbor Tuesday. About eight counties were represented. With the assistance of Prof. H. E. Dennison of the American Jersey Cattle club, an organization was formed, and George Cooper of the Oakland was elected chairman. A meeting will be held in the near future to perfect the plans. Elimination shows will be held in each county and the prize animals in these shows will be shown in a final show which will probably be held at Ann Arbor some time in October.

Owing to the sickness of Miss Anna Weber, the teacher in district No. 2, school has been closed for the past four weeks.

## Let's Give Chelsea A Spring Housecleaning

To The Citizens of Chelsea.

Every wise and prudent householder cleans house in the spring, removes the rubbish about his premises, and makes his or her home a well-appearing and sanitary place of abode.

In our community household the streets and the alleys of the town represent the rooms and the closets of our community dwelling. Unsightly piles of ashes and other rubbish are not only most unattractive, but they are unsanitary and a menace to the health of the community.

The village council and the village health department is asking for the co-operation of all the people of Chelsea this spring in the united task of giving our streets and alleys, our back yards as well as our front lawns, a real housecleaning. Each year Chelsea is attracting a greater number of tourists who come to this section to visit our beautiful lakes and naturally we desire to make a good impression upon our guests.

Rubbish and old ash piles do not give the stranger a very good impression of a town, and we are asking all to join in the movement to make Chelsea clean. It will require but little effort and but small expense if each citizen will clean their own premises for the good of Chelsea and for the protection of the health of the community.

## The Store That Satisfies

It may well be said that no business house transacting business in this part of Michigan today has a higher standing as a leading home outfitting establishment than the E. J. FOSTER FURNITURE STORE at Grass Lake.

This well conducted establishment is a store OF THE PEOPLE AND FOR THE PEOPLE—a store built on the plan that aims to give mutual pleasure, satisfaction and benefits, for it is the aim of the proprietor of this store to make the life of the people worth while by supplying what you need to match up with your surroundings.

In fact they now have the most complete stock of Furniture, Rugs and Gas Ranges that you have had during their entire business career.

We advise our readers who and it has had a constant growth and Chicago, frequently, makes

it possible to secure the best that the markets afford. With the large and rapid turnover the stock in kept fresh and new.

It makes no difference whether it is a room you desire to furnish, the whole house, or just a piece or two you want, you can secure it there on the most favorable terms. They can furnish you a room in any of the late designs.

THE E. J. FOSTER FURNITURE STORE carries a large line of fine rugs. The people in charge of this department are familiar with the details of the business and can help you in what you need to match up with your surroundings.

examine the various assortments found at the E. J. FOSTER FURNITURE STORE before purchasing elsewhere, as the goods are right and the prices are always very much lower than the city stores. "The Location Makes the Difference."

This progressive store is known far and wide as "The Store That Satisfies," this reputation having been acquired only by furnishing the public the "best there is" at fair prices.

Taken all in all, this establishment is one of the most popular, substantial business enterprises of this section of Michigan under the management of people who have had many years of experience in the Furniture Business in the same location. The senior member of this firm started this store 40 years ago and it has had a constant growth and Chicago, frequently, makes

DRUGS—GROCERIES

Now the Instantaneous Potato Dip  
Disinfect your seed this new way

Treat your seed potatoes as fast as you can scoop them up, dip them in DIPDUST solution and out again—all ready to plant.

This new seed potato disinfectant is much more effective than the old-fashioned "two-hour soak" treatment—besides there is the slightest danger of injuring the sprouts or even cut seed, season late blight attack in many seed producing areas makes it necessary to prevent seed decay.

After one trial of DIPDUST, you will never again waste hours treating seed potatoes or spend two weeks worrying your stand. DIPDUST PROTECTS THE SEED AND INSURES STURDY, PROFITABLE PLANTS.

Compare this New Treatment point by point with the old.

THE NEW WAY  
Dipdust Organic Mercury Disinfectant

1. Requires less than 1 minute. One man can easily treat from 200 to 400 bushels of potatoes per day.

2. Can be used on cut or sprouted seed without the slightest injury.

3. After cutting, protects the cut surfaces from seed-rotting organisms in the soil. This insures a better stand of stronger plants.

4. Controls surface-borne diseases, such as Rhizoctonia, scab and black-leg.

5. Improves the stand and growth of the plants, and thus increases the yield 10 to 20%.

THE OLD WAY  
Formaldehyde or Corrosive Sublimates

1. Require from 1 1/2 to 2 hours. One man can treat only from 75 bushels per day.

2. Can not be used on cut or sprouted seed without injury.

3. Before cutting, give no attention to the cut surfaces. The frequently decays in the field before the young plants get a start.

4. Although effective against Rhizoctonia, scab and black-leg.

5. Frequently decreases the yield, and therefore the yield, to a great extent.

One pound treats 15 to 20 bushels of seed potatoes.

Treat your Corn and Vegetable Seed

You can now also disinfect your seed corn vegetable seeds with DIPDUST and increase yield by preventing many of the diseases which poor germination, weak, spindly plants, and quality crop. Simply use as a dust treatment on to seed and seeds, and seeds, but a few cents per acre. One pound of DIPDUST will treat 15 to 20 bushels of seed corn, or from six to eight bushels of vegetable seed.
