## GOV. FRED GREEN ASKS THAT STATE DISPOSE OF LOCAL CEMENT PLANT

Claims That Plant Is Being Operated In "Red;" Legislature Will Make Decision.

In a special message to the legislature Monday night, Gov. Fred W. Green recommended that the Chelsea cement plant be disposed of by the state, "providing the state can get its money out and the sale will not endanger cement price levels."

The governor's proposal met with considerable opposition, especially from Charles J. DeLand, who was secretary of state during the Groesbeck administration when the plant was purchased, and now a member of the house of representatives.

Gov. Green stated that the state has more than \$700,000 invested in the plant, while DeLand contended that if surplus supplies, finished product and liquid assets were disposed of, the plant could be sold for about \$250,000 and the state would not lose anything, and that he would guarantee a buyer at that figure.

DeLand declared that the state owned industry had stopped cement price fixing and had saved Michigan cement users millions of dollars, while the governor argued that the plant was being operated in the "red."

The auditor-general's report, which has been completed for 1928 shows a book profit of about \$60,000, but this does not include depreciation, interest charges on the investment, etc., which would put the plant far in the red, according to the governor.

The governor, in his message, gave M. H. McGuffigan, superintendent of the plant, credit for increasing production 48 per cent, and stated that the plant had been wisely and economically managed under his guidance during the present administration.

## Ann Arbor Woman Is Victim of US-12 Crash

Mrs. James Murray of Ann Arbor, who was injured in an automobile accident about seven miles east of Chelsea on US-12 last Thursday, died at University hospital Saturday night.

The car in which Mrs. Murray was riding crashed into a fence at the side of the highway to avoid a head-on collision with an approaching car, when they attempted to pass a truck going in the same direction, according to witnesses of the accident.

Mrs. Guy Wichterman and son, also of Ann Arbor, who were riding in the car, escaped uninjured.

Funeral services for Mrs. Murray were held at 2 o'clock Tuesday afternoon at Muehl's funeral chapel, Ann Arbor, Rev. A. E. Kurth officiating.

T. Cobb, manager of the local Kroger grocery, is a nephew of the deceased, and attended the funeral services Tuesday.

## J. V. Burg Announces Another 1 Cent Sale

J. Vincent Burg is announcing another of his popular semi-annual Penslar One Cent sales which will be held this week—Thursday, Friday and Saturday, April 4, 5 and 6.

Mr. Burg's store has been heavily stocked with goods for this sale, and extensive plans are being made for one of the largest sales in the history of the store.

As the result of extensive advertising campaigns people have traveled for many miles during previous sales to take advantage of the great savings which are offered by the Penslar company and Mr. Burg in an effort to better acquaint the buying public with their products.

### JOHN H. BROESAMLE

John H. Broesamle died at his home on South Main street, Wednesday morning, April 3, 1929, after a three weeks' illness.

Mr. Broesamle was the son of the late John and Katherine Broesamle and was born in Sylvan township November 7, 1865. He was married to Bessie E. Young on November 8, 1905. He is survived by his wife, two daughters, Mrs. Charles Briston and Bernice, four brothers, Philip and Fred of Chelsea, Edward of Munnich, William of Sylvan, and one sister, Mary, of Detroit.

Mr. Broesamle was a member of the Methodist church and a member of the Chelsea Arbor of Gleaners.

Funeral services will be conducted Saturday afternoon at 2:00 o'clock at the home and 2:30 at the Methodist church, Rev. F. I. Walker officiating. Burial in Oak Grove cemetery.

DON'T FORGET—Fenn's Original Rexall One Cent Sale, next week, Thursday, Friday, and Saturday, April 11, 12, and 13.

## Noted Artist Has Been Painting Here

Carl Arthur Failla, noted painter and art lecturer of New York and San Diego, California, has been spending two months at the Sylvan Estates Country Club painting a series of snow scenes and early spring landscapes in Sylvan and Lyndon townships.

Mr. Failla is an artist of national reputation and especially noted, not only for the excellency of his work but also for his original and outstanding technique.

This community has been very fortunate and is to be congratulated in having its local beauties of nature recognized and duplicated on canvas by an artist who exhibits in the Art Institutes throughout the United States.

These paintings, with others secured on his present tour, will be exhibited at the Sylvan Estates Country Club, at a private reception in his honor, on Sunday, April 7, 1929 from three to six o'clock after which they will be exhibited at the Institute of Arts at Louisville, Ky. on the week of May 4, at which time Mr. Failla will be the sole exhibitor.

To break into and be recognized by the principal Art Institutes of the country is a privilege granted to very few and to only those who can show very exceptional and unusual ability, and for an artist of such ability, who selects only nature's greatest works, to recognize our community, is a very forceful demonstration to us all of our inability to recognize the wonderful scenery which surrounds us, and has to be thus introduced to us and brought to our attention before we are able to appreciate it.

We want to thank artist Failla for his interest in our community and congratulate the Sylvan Estates Country Club.

## INCREASED FUNDS TO BE LEVIED FOR SYLVAN ROAD IMPROVEMENT

At the annual meeting of the Sylvan electors which was held in the town hall Monday afternoon, the report of the treasurer of the receipts and disbursements was read by the clerk. The report was, on motion, accepted, approved and adopted.

The clerk then read the report of the township board as recommended at their meeting which was held in the town hall on Saturday, March 23.

The clerk also read a communication from W. C. Pritchard in which he recommended that 2-1-4 mills be levied in the highway improvement fund instead of 2 mills as recommended by the township board. The 2-1-4 mills was, upon motion, put to vote and carried without a dissenting vote.

The levies for the coming year for the various funds are as follows: Contingent Fund—\$2,500.00. Highway Improvement Fund—2-1-4 mills. Road Repair Fund—\$2,000.00. Poor Fund—\$500.00. Town Hall Fund—\$200.00.

The foregoing was, on motion, duly supported and carried.

A motion was made by Geo. T. English, which was supported, that the highway commissioner and overseer of highways be authorized to prosecute all persons under the state laws who are found guilty, or known to have deposited rubbish of any kind along the side of any highway within the township.

Mr. English stated that the practice of making the side of public highways a dumping ground for refuse matter was becoming a public nuisance. Upon the motion being submitted to the electors, it was carried. The meeting was then adjourned.

## Houck Death Inquest Postponed One Week

The inquest into the death of John Houck, which was scheduled for last evening at Sylvan town hall, was postponed until next Wednesday evening due to the inability of Prosecuting Attorney Carl Stuhberg to be here.

Mr. Houck was killed Saturday evening, March 23, when he was struck by a car driven by Paul Fry of Sharon, while walking on the Chelsea-Manchester road.

Young Fry gave himself up to officials the following Monday, and was arraigned in justice court Wednesday of last week, being released on \$2,000 after he had demanded an examination. The date for his appearance was set for April 4, but due to the postponement of the inquest it is expected he will be asked to appear next Thursday, following the inquest.

## GEORGE W. BECKWITH ELECTED SUPERVISOR AT MONDAY ELECTION

John B. Cole, Republican, Is Defeated By 52 Votes; Remainder of Republican Ticket Elected.

The election in Sylvan Monday was a very quiet affair. Only 665 electors of the 1,600 on the registration books exercised the right of franchise. The day was very stormy and only a small portion of the rural voters came to the poles to cast their ballots. The democrats elected the supervisor and the republicans the remainder of the ticket. The republican candidates appear first and the democrats second in the following summary:

Supervisor—John B. Cole . . . 298  
Geo. W. Beckwith . . . 345—62  
Clerk—Geo. S. Davis . . . 461—203  
Chas. Meseriva . . . 168.

Treasurer—Walter F. Kantielner 374—124  
Otto Hinders . . . 250

Commissioner of Highways—Wm. C. Pritchard . . . 425—223  
John Liebeck . . . 202

Justice of the Peace, full term—Howard F. Brooks . . . 428—234  
Joseph Mayer . . . 194

Justice of the Peace, to fill vacancy—W. Riemenschneider 421—217  
Nevin H. Cook . . . 204

Member board of Review—Geo. W. Gage . . . 368—169  
Conrad Lehman . . . 224

Constables—Geo. A. Young . . . 418  
Geo. Zeeb . . . 415  
Edwin Chandler . . . 427  
John Frymuth . . . 412  
James Dann . . . 202  
Harry Savage . . . 206  
Henry Heim . . . 196  
John Geddes . . . 301

The vote on the proposition granting a 30-year franchise to the Consumers Power Company to furnish electricity in rural districts of Sylvan was as follows: Yes, 481; No, 180. The majority by which the proposition won was 268.

The proposition prohibiting Sunday hunting in Washtenaw County resulted as follows: Yes, 351; No, 226. Majority in favor of the proposition, 163.

The vote cast for the state offices on the republican ticket ranged from 487 to 447, and the democrat vote was from 163 to 174.

The vote on the republican ticket for Judge Geo. W. Sample was 451. The democrats did not have a candidate on their ticket for circuit court judge.

In the county, the ban on Sunday hunting carried by a large majority. Under an interpretation of the county prosecutor, this measure will not prohibit a person from hunting on his own premises on Sunday but it will be necessary for sportsmen to obtain permission before using the lands of another for hunting purposes.

## Bandits Get \$400 In Bus Holdup Near Wayne

A Detroit-Chicago bus was stopped near Wayne Sunday night and the passengers, thirty-one in number, were robbed of about \$400.

Two men, who boarded the bus at a Detroit station, engaged the driver in conversation, and just west of Wayne, ordered him to drive off the pavement on a side road, which he did.

There the passengers were ordered to leave the bus. In the meantime, two bandits were joined by four others who arrived in two cars, carrying machine guns.

The men worked hurriedly and failed to get all the money from the passengers. Before leaving they ripped ignition wires from the bus in order to delay pursuit. The bus was delayed about an hour and a half.

## Rexall 1c Sale Will Be Held At Fenn's

Henry H. Fenn is advertising a Rexall 1c sale which he will hold at his store next week Thursday, Friday and Saturday, April 11, 12 and 13.

Mr. Fenn states that he has a large stock of goods to offer in this sale, and no doubt the public will take advantage of the many bargains to be offered.

Sales of this nature have been featured in Mr. Fenn's store before and satisfactory results obtained.

## Local League Games Will Start April 29th

Representatives of all teams desiring to enter the local baseball league this year are requested to meet at Miller Brothers' barber shop Thursday evening, April 11, at 7:30, when plans for the season's schedule will be discussed, and other business taken care of. It is expected that the first game of the season will be played April 29.

## This Tread has "Teeth" in It for safe stops!

Deep "Teeth" of sharp-pointed, sharp-edged rubber IN THE CENTER "teeth" that bite in and grip slipperiest pavements. "Teeth" that also EXTEND UP THE SIDES—to prevent skids on turns—to take hold in ruts—to pull out of deep mud, sand, snow or slush.

The only tread that gives you these "teeth" is the Goodyear All-Weather. Proved by more than 20 years of slippery roads the safest and best non-skid tread.

**New Styles**

New styles in lens shapes, spectacle frames, eye-glass mountings, Oxfords and Lognettes are constantly being developed.

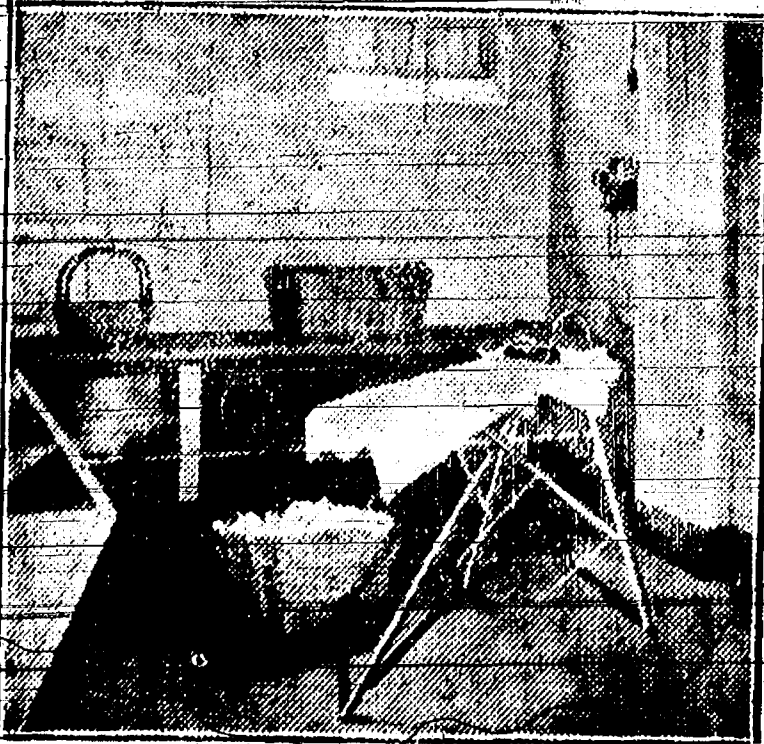

They are all attractive and have been carefully designed from an optical standpoint. Just now there are several new styles available, including a refinement of the popular shell frame having a metal bar bridge and pads, also a number of new designs in white gold and rimless mountings.

If you like an Oxford, we have them in either metal or shell and in gold filled, or solid gold, as desired.

**OBSERVATIONS**

**[MICHIGAN BELL  
TELEPHONE CO.]**

**The New Basement**

Among the radical changes in homes wrought during the past few years, the improvement of the basement is noteworthy. That part of the home gradually has become a light, airy and warm room, instead of the damp, murky place of other years. It has become livable, instead of merely tolerable.

Another convenient improvement for your basement would be an extension telephone. When the telephone rings upstairs, and you are in the basement, it would be much easier to take the call without climbing the stairs.

**An Extension Telephone Costs Only  
a Few Cents a Day**

**First Cellulose Yarn**

It is to the Frenchman, Count Eliane de Chardonnet, who allowed at the Paris exhibition of 1889, a cellulose yarn, that we owe the rayon of today; his process has been developed to its present perfection.

**Laisure**

The right use of leisure is no doubt a harder problem than the right use of our working hours. The soul is dyed the color of its leisure thoughts. As a man thinks in his heart so he is.—Dean Inge.

**HOOVER ECONOMIES**

President Hoover is being criticized in Washington for abolishing, as it were, the presidential yacht Mayflower. They say that his course in this matter is a slap at his immediate predecessor, whose slogan was economy. According to the critics it is as if President Hoover said: "I'll show that wastrel Calvin up."

The critics overlook the fact that President Coolidge got a great deal of recreation and pleasure out of the Mayflower, while President Hoover's taste does not run in that direction. The upkeep of the Mayflower, incredible as it may seem, was \$300,000 a year. It was worth it or almost any other sum when it afforded the president a means of refreshing himself and keeping in good trim. But, since trips on the Mayflower would be a bore to President Hoover, who prefers fishing in quiet streams, the relegation of the yacht to the navy yard and of the officers and crew to active service in the navy seems like a very sensible procedure, with no reflections cast on anybody. Three hundred thousand dollars a year is a good deal to spend on nothing.

President Hoover also has ordered the White House stables discontinued. He does not care about riding and sees no reason why six saddle horses, which will be turned over to the army, should be kept at his disposal, eating their heads off, and that, too, is a sensible view. These minor economies, achieved at no sacrifice to anybody except the officers and crew of the Mayflower and the caretakers of the horses, who may not have so easy jobs hereafter, are worth while and commendable. With farm relief, flood control and 15 new cruisers and an airplane carrier looming just ahead, the administration does well to save what little it can.

**TARIFF REVISION UPWARD  
SOUGHT**

Senator Smoot of Utah appears to be one of the principal leaders in the movement to secure a complete revision of the tariff at the coming special session of Congress. Industrial organizations will give their organized support to that movement. They want the revision to be upward, on—that they are agreed. They were able to force through a declaration on that point at the last Republican national convention and will mass their forces to secure what they want when Congress is opened.

It is known the president does not favor a complete revision of the tariff, holding the need now is for adjustments to meet known situations. Any consideration of the tariff will require time and there might be an all-summer session if the entire schedule were to be revised. A complete revision would interrupt business while questions were open and no administration would welcome that result.

If Congress is responsive to the wishes of the administration there will be no general revision, some adjustments will be made, then the rest of the session will be given to legislation in the interest, real or supposed, of agriculture. Preliminary preparations for the session indicate that plan is to be followed. That would not require an extended session and the results of the legislation adopted would be manifested without prolonged delay. The administration has a long program of important matters for attention and these will be delayed to some extent while the session lasts. No president wants Congress on his hands for the entire summer.

**SUCKER BAIT**

Beware of the stock promotion newspapers that are being mailed out by the millions from Eastern industrial centers, they are baited for suckers and it is the wise man who foregoes their liberal advice and predictions in financial matters.

While apparently giving correct news of the markets these papers are loaded with hidden propaganda regarding unlisted stocks, which are boomed to the skies as money-making possibilities, but which are their own promotion schemes brought out to trap the unwary.

The United States Chamber of Commerce says that over a billion dollars is taken from the pockets of the American people every year through these fake promotion schemes. These white-collar bandits never declare a dividend, not a single dollar sent to them for investment is ever returned to their dupes, they work on a one-hundred per cent margin and every attempt to make them disgorge has proven fruitless. Don't let them get you on their sucker list. If you have money for investment purposes—consult your banker first.

**DOUBLE DISCOURTESY**  
Florence Reed, the actress, recently stopped a performance of Macbeth, until two people who laughed had been ejected from the theatre. It is probably true that a person sees more bad manners at places of entertainment than elsewhere. A certain percentage of the people always talk when there is music or speaking to be listened to. Such an act is discourteous to the performers, disrespectful to other people who came or paid to hear.

No matter where you go people who make a nuisance of themselves appear and the better the performance the more obvious the discourtesy. Actors who will ask for respect will have the backing of the large part of their audiences.

**Will Have Contests  
For Potato Grading**

Grading contests for both boys and men will be held on the Potato Improvement Special train which will run over the Ann Arbor lines from Ann Arbor to Frankfort, April 8 to 12, according to an announcement by members of the crops department at Michigan State College.

Grading is one of the essential factors in determining the quality of potatoes shipped from Michigan. Mr. Moore says, and he states that grading contests conducted in other sections of the State have drawn large numbers of contestants. Prizes will be awarded at each of the 15 stops to those who best grade field run stock into U. S. No. 1 and No. 2 samples.

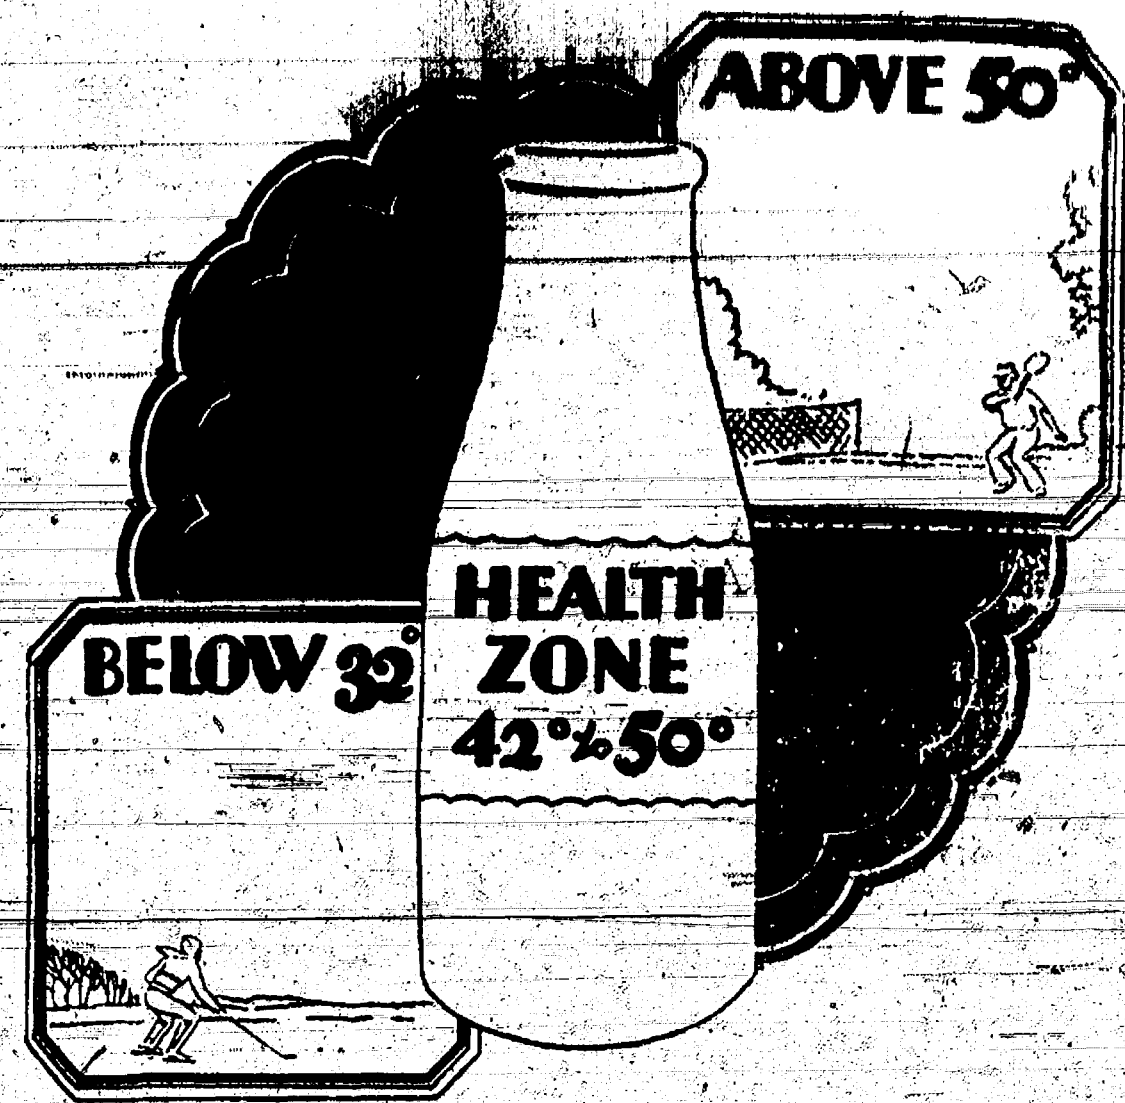

Present plans for the make-up of the train include two exhibit cars. An electrically driven potato grader will be shown. The grader sorts the potatoes for size and the operator can pick out the ill-shaped and damaged tubers as they pass over the machine.

Methods for treating seed potatoes to prevent scab, black surf, and black leg will also be shown in this car. Corrosive sublimate solution will be used in this demonstration. Samples of potatoes affected by these seed-borne diseases will be on exhibit in the car.

Ways of making Bordeaux mixture for use in the control of leaf hoppers and blight will also be shown in the train. The latest types of spray and dusting machinery will also be on display.

**Anger Worth While**

A little anger now and then is regulated by the best and simplest of men especially if it takes the form of indignation over wrongs, the unfairness of others. Thus Charles Dickens was in a perpetually indignant state of mind over the wrongs of the poor and not only the poor but Dickens benefited from it.

**A Gas Refrigerator**

**Keeps Food in the Health  
Zone.**

Pay us a visit and  
let us demon-  
strate the finest  
system of refrigeration known to-  
day.

MILK—most important food for children—needs year-round protection to check the inroads of bacteria. With a Gas Refrigerator you have frosty DAY COLD that never goes above 50 or below 42 degrees Fahrenheit.

All other foods—meats, vegetables, fruit, eggs—are preserved longer and better flavored when kept in the HEALTH ZONE. The cost of operation is amazingly low. And there's no machinery. No moving parts. Nothing to wear out. It's a lifetime investment in better food and health protection.

MRS. MIRANDA SWARTHOUT

Mrs. Miranda Swarthout, widow of the late Joseph Swarthout, died Monday, April 1st, in Chicago, Ill. She was born in New York, March 3, 1845, coming to Michigan with her parents, who located near Mason.

In 1868 she was united in marriage to Joseph Swarthout and for several years they made their home in Chelsea. To this union was born one son, who died in infancy.

Following the death of her husband in 1911 Mrs. Swarthout has resided in Chicago. She was a member of St. Paul's Methodist church of that city.

She is survived by a foster son, Chas. B. Deyo, of Chicago, three grandchildren and one great grandchild, besides numerous nephews and nieces.

Funeral services were held at two o'clock Wednesday afternoon at Chelsea Methodist church, Rev. F. I. Walker officiating. Interment was in Oak Grove cemetery.

Coals for Newcastle

Newcastle-on-Tyne, England, is the center of the coal industry of Northumberland and Durham. The phrase, "carrying coals to Newcastle," appears in an anonymous sermon to the people of Queen-Hill, advertised in the Daily Chronicle of October 6, 1700, and published in Westminster row, London. The phrase implies unnecessary labor.

# Spring Time and HOME FURNISHING TIME

Springtime is here and soon all nature will take on its new green mantle. With the coming of spring also comes house cleaning time and the re-arrangement of house furnishings for the summer. Springtime is the ideal time to buy new furniture, whether one piece or many. The home may be brightened by the addition of a rug or two. We are receiving shipments of new furniture and rugs daily, and all our floors are crowded to capacity with the latest and best things the furniture and rug markets offer. And with our rapidly increasing business and great turnover, we are able to make very reasonable prices. Won't you come and see us?

## Ed. Weiss Displaying Novel Safety Device

Ed. Weiss is proudly displaying a novel automobile safety device which he purchased while in Germany, bringing it home when he returned here last week. The contrivance is in the form of two signal arms, one being placed on each side of the car, attached to the front corner posts of the body. The arms are electrically controlled and operated with a switch on the dash, and as the arm goes out it is automatically lighted, giving a warning signal to the driver in the rear as to which way one might wish to turn.

Mr. Weiss states that the use of a safety device of this nature is mandatory in Germany, on both passenger cars and trucks, the latter being equipped with larger ones. They are manufactured and patented in Germany. Installation work on Mr. Weiss' car was done by mechanics at Palmer Motor Sales.

ST. MARY CHURCH

Second Mass at 10 a. m.  
Mass on week days at 8 a. m.

## Chelsea Pythians Will Take Part in Contest

Queen City Lodge, Knights of Pythias, Ypsilanti, have challenged the third degree team of Chelsea Lodge, Knights of Pythias, to a third rank contest in an effort to take from the local lodge the loving cup which they won in a contest with Ann Arbor, Adrian and Ypsilanti two years ago. The contest will be held in Ann Arbor Pythian Castle, Tuesday evening, April 9. O. D. Luick is captain of the local team of eighteen members. It is expected that a large delegation from here will attend the meeting, which starts at 7:30.

A. B. CLARK REMODELS STORE  
A. B. Clark & Son are having their salesroom in the grocery department rearranged and when the work is completed it will be a self-serve grocery. It is expected that the store will be ready for the purchasing public on Saturday of this week. When a patron desires any article in the stock they merely go to the shelves or counters, get what they want and pay one of the clerks for their purchases. Coming soon. Don't miss it. The Senior Play, Friday, April 12. —Adv.

## LOCAL ITEMS

## Plymouth Kiwanians Give Program Here

Twenty-five members of the Plymouth Kiwanis club attended the meeting of the local club Monday evening, taking charge of the program, which was an interesting one, under the leadership of their five-wire president, Dr. Peck.

Vocal selections were given by Whipple Brothers, of Plymouth, with Mrs. P. F. Niehaus at the piano. The speaker was Rev. Walter Nickel, pastor of the First Presbyterian church of Plymouth, who gave a very interesting talk.

The local club will journey to Plymouth June 4 to take charge of the program at the meeting of the Plymouth Kiwanians on that date.

## Cavanaugh Lake Road Will Be Completed

Among bids for which the Jackson County Road Commission has for, is included the nine-tenths of a mile containing the Cavanaugh Lake Road from the Jackson-Washtenaw County line to the improved Frank Waterloo road. The bids are due to the office of the commission at the Cavanaugh Lake road, which was started by Washtenaw County two years ago, and which was completed to the county line last summer.

DON'T FORGET our big Senior Play, Friday and Saturday—you'll get twice as much for your money.

### "The Pot of Basil"

The legend of "the Pot of Basil" relates that Isabella was in love with Basil, but her romance was opposed by her seven-cruel brothers. In order to frustrate the romance, they slew Basil. Isabella then planted his heart in a beautiful flower pot, from which grew a plant which Isabella tended carefully. In Alexander's painting Isabella is shown standing beside the pot.

### Buffalo Nickel Model

From Tall, a Sioux chief on the Pine Ridge reservation, was the model for the Indian head on the buffalo nickel, designed by James Earle Fraser and put into circulation in February, 1913. When Fraser later joined the Buffalo Bill Wild West show and toured the country, he was told that the Indian head on the nickel was said to be the head of the chief who had killed his brother.

### Not Greek to Her

Even the somewhat unfamiliar Greek letter alphabet gets itself translated somehow. When nine-year-old Dorothy was entertained at dinner for the first time at a fraternity house which bore the Greek symbols over the door, one of them being the letter Omega in its Greek form, she was heard afterward relating her social career at the "A. T. Horsholme" house.

### In Solomon's Time

The principal articles of food of the common people during the time of Solomon were wheat and barley meal, fish, lentils, olives and their oil, locusts (a species of insect), honey, figs, grapes, mulberries, melons and peaches. Meat was an article of luxury, the flesh of goats being perhaps the most commonly used. Swine, of course, were altogether forbidden as an article of food.

Mr. and Mrs. Frank Hopkins and son, Melvin, and granddaughter, Beulah Pickell spent Sunday with Mr. and Mrs. Paris Giltner of Brighton.

Fortune Telling Boom

A man may or may not be the architect of his own future, but since the income tax law he's had to be his own fortune teller.

## Penalties Exacted On Lamb Shipments

Penalties, which in some Michigan cases have reached \$250 a carload, assessed by livestock buyers against the shippers of poor quality lambs have failed to keep these lambs off the markets and the buyers are now offering prizes to counties in which the largest percentage of such owners adopt practices which will improve the market value of their lambs.

Undocked lambs and ram lambs are most discriminated against in the terminal markets. Wether lambs are worth from 50 cents to three dollars a hundredweight more than ram lambs, and undocked animals suffer a price cut of from 15 cents to one dollar a hundredweight.

If the poor quality lambs are not the price differential is less than when the lambs are thin and have to be sold as feeders.

Sheep owners in 20 Michigan counties, most of which are in the northeastern portion of the State, have entered the quality improvement contest. The winning county will be determined by finding the percentage of sheep owners who have adopted better practices and also what proportion of all the owners use these practices.

Specialists from the animal husbandry department at Michigan State College will assist in conducting the contest. Meetings are being held in several of the counties to urge farmers to ship only the best quality lambs.

**Bloom-Aid**  
A FOOD FOR PLANTS

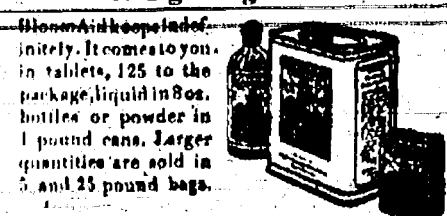

Practical for a few plants or a great garden

SOME little plants have Bloom-Aid. And some little plants have none! And what a difference. Plants, shrubs and flowers take a new lease on life when fed this perfectly balanced plant food, Bloom-Aid.

Ask your dealer about it. And also about V-C Fairway fertilizer, a special food just for lawns.

The beauty of these V-C products is that they are clean, virtually odorless and packaged in both small and large units.

Go to the nearest dealer and let him explain the advantages of scientific plant food. He will give you descriptive literature that will help you improve your lawn and garden.

**V-C Fairway**  
FERTILIZER

The scientific food for lawns is V-C Fairway fertilizer. It keeps your lawn thick turf of velvet green. You see results when using it.

## STUDY YOUR OWN FAILURES

Don't be afraid of the word ECONOMY—it's the middle name of every rich man who made his own way.

Most wealthy men learned early in life that a part of their income should be put aside for safe-keeping.

Later they found profitable ways to use it.  
You will find it advantageous to build a reserve fund here.

## Farmers & Merchants Bank

Under State and National Control

## Question And Answer Dept.

NOTICE—If your question does not appear below, it is because it is awaiting its turn, and will be published eventually.

Ques.—Will you please answer in your question column who are the members of the United States Supreme Court, and what is the religion of each one? Also who appointed them and what state they are from?

Ans.—There are nine members of the United States Supreme Court—4 Episcopalians, two Unitarians, one Catholic, one Methodist, and one Jew. They are as follows: William Howard Taft, chief justice, Ohio, Unitarian; Republican, appointed by Harding in 1921; Oliver Wendell Holmes (son of the great poet of the same name), Mass., Unitarian, Rep., by Roosevelt in 1902; Willis Van Devanter, Wyo., Episcopalian, Rep., by Taft in 1910; James Clark McReynolds, Tenn., Methodist, Dem., by Wilson in 1914; George Sutherland, Utah, Rep., Episcopalian, by Harding in 1922; Edward Terry Sanford, Tenn., Rep., Episcopalian, by Harding in 1923; Louis D. Brandeis, Mass., Dem., Jew, by Wilson in 1916; Pierce Butler, Dem., Catholic, by Harding in 1922; and Harlan Fiske Stone, N. Y., Rep., Episcopalian, by Coolidge in 1925.

Ques.—Will you please publish populations of the first ten cities of the United States and the states which are the six largest railroad centers?

Ans.—According to the recent estimates, the ten largest are: New York, 5,770,800; Chicago, 3,102,000; Philadelphia, 2,035,900; Detroit, 1,384,500; Los Angeles, 1,300,000; Cleveland, 819,500; St. Louis, 839,200; Baltimore, 819,000; Boston, 793,100; Pittsburgh, 605,000. The largest railroad centers are considered to be Chicago, St. Louis, Indianapolis, Kansas City, Toledo and Columbus.

Ques.—Will you please tell me in your question column if an airplane traveling westward can keep up with the sun?

Ans.—No airplane speed yet attained or that seems possible in the immediate future would be sufficient to keep time with the sun. In order to do this it would be necessary for the airplane to make the entire flight around the earth in 24 hours since this is the rate at which the earth turns on its axis.

Ques.—May I ask in your column if a bullet leaving the barrel of a rifle forms an arc in its path of travel above the projected line of the barrel, or does it take a straight course until gravity pulls it down? Why are rifle barrels grooved?

Ans.—The bullet is subjected to the force of gravity as well as the resistance of the air, which changes its direction to a curved path, called its trajectory. The grooves in the rifle are given a spiral direction and this has the effect of rotating a bullet forced through the bore. This spinning motion greatly increases the accuracy of its flight. The grooving also secures against the escape of the gas past the bullet.

Ques.—I am just a little curious to know what a "certified check" is. Will you answer?

Ans.—It is one that has written or stamped on its face "certified," "good," or an equivalent phrase and the signature of the cashier or paying teller, indicating that the drawer has funds on deposit to pay it and that the money has been set aside.

Ques.—I would like to ask you if the Chinese introduced rice into the United States?

Ans.—Rice was introduced into America in 1494 by accident. A vessel bound from Madagascar to Liverpool, England, was driven by adverse winds to America. It took refuge in the harbor at Charleston, S. C. In return for their hospitality the captain presented the settlers with several sacks of rice. This rice was planted and was the beginning of the rice industry in the United States.

Ques.—I wish to ask in your question department why hot water in a pipe will freeze quicker than cold water in a pipe along side of it?

Ans.—If heated water is permitted to cool to the same temperature as cold water, the heated water will freeze first because the heat has removed the dissolved air from the water, thus slightly lowering the freezing point.

Ques.—As you are good at answering questions please tell me who "Sam Patch" is or was.

Ans.—Sam Patch was a young man who became known for his daring high jumps. He was born in Rhode Island in 1807 and became a cotton spinner in Paterson, N. J. He gained some fame for leaps into the Passaic river, the Pawtucket falls and other places. In 1829 he went to Niagara and made two leaps into the Niagara river, 97 feet distance, from a ladder erected under Goat Island. Shortly after this he was killed when attempting a jump of 125 feet in the Genesee river, near Rochester, N. Y.

A Thought:  
V. S. philosophizes as follows: Thrift makes you save your cake until you are too old to enjoy it. The installment plan cuts a slice while you still have an appetite.

## SLAT'S DIARY

Friday—we just finished up—are tests in school and when me and pa

was a talking about it he said he didn't want to hear no bad reports about my work at school. I said I would try and not let him hear none. But I Xpeck it will be just about my luck for it to leak out some way.

Saturday—They in a show by the name of Hamlet a coming to the opy house weak after. Next, Ma and pa they says

they want to see it. but Ant. Emmy dussent, she says this town is way behind the times becuz she seen this show morn twenty yea ago when she was a yung women.

Sunday—ma got me in trouble today. She told me to stop on my way home from Sunday school and see how old Miss Dixon was. So I stopped and ast her how old was she and she told me it wassent none of my durn business nor nobody elses. I left at onct.

Munday—Pa cum home this evnyng and was a laffing about what happened down town today. A girl cum to the town hall and her dress was all rumpled up and her hat was gone and etc. and the mayer ast her did she get nooked down by a ottomobee and she replied and said. No I was picked up by a I dont see the joak so I will rite it down and mebbey sum day I will see the joak.

Tuesday—Pa told the new man witch works on the noose paper this afternoon to go up to the city and get a electrotipe for the paper. He sed: Will I have time to go tell my wife good by. Pa sed well that depends on how long you have ben married. Just why that made no difference I dont no. But I'm yung tho.

Wensday—I gess the editor thinks pa's pritty dum sum times. Today he told pa to rite a peace about art forren relashuns and pa replied and sed heed be glad to do it oncy he didnt have no forren relashuns witch he new of.

Thursday—Pa says that a fellow from the city has moved into town with a mifty silk idear. He has opened a barber shop for Men. And will get a lot of hare bobben to work on.

### Not Lazy

If you think you are too tired to walk to work, just put it down to the fact you are getting hopelessly soft. Think of the Chinese coolie. He pushes a wheelbarrow loaded with eight persons. Try that on your way downtown.

## "KONJOLA IS JUST WHAT I ALWAYS NEEDED"

Happy Lady Tells How Just Six Bottles of Konjola Brought New and Glorious Health.

MRS. MARY PEREZ

"What a joyous privilege it is to read and hear the many endorsements of Konjola, the new and different compound that has become the most talked-of medicine in America. Konjola, with its 82 ingredients, 22 of which are the juices of roots and herbs, contains no alcohol, no nerve-deadening drugs, no heart-depressing chemicals, yet it cleanses and soothes and paves the way for the return of health.

Consider, for a minute, the fine experience that Mrs. Mary Perez, 200 Chene street, Detroit, had with this master medicine:

"I was run down and worn out by years of indigestion and kidney trouble. My back ached and every duty was drudgery. No food agreed with me. I tried simply everything recommended, but nothing touched the spot until I put Konjola to the test. At once I started to get better, and day by day my digestion improved. In six weeks I was perfectly well again, feeling better than in years. I am sleeping like a child and eating anything I like. Konjola is a medicine in a class by itself."

Konjola is sold in Chelsea at Burg's drug store and by all the best druggists in all towns throughout this entire section.

—Adv.

## Man Far Outnumbered by Lesser Creatures

It is probable that few persons save naturalists ever consider the enormous amount of life other than human which exists in any locality, civilized or not, densely peopled or thinly settled. A plague of rats in London within recent years prompted an interview with a distinguished scientist, who estimated that within the area of Greater London there were 20,000,000 rats, more than three times as many rats as people.

Sparrows undoubtedly come next in point of numbers among London's warm-blooded population, but the scientist preferred to make his estimate cover all the birds in the United Kingdom. He believed that the bird population would average 800 to the square mile. That would give a total of nearly 97,000,000. Thus the bird population outnumbered the human by something like two to one.

As for the insect population, that is quite beyond any statistician. But, allowing that each bird eats only 50 insects a day, British birds would consume more than a billion insects in a year. Yet such an estimate seems quite futile when we consider that the insect population of a single cherry tree infested with aphides was estimated by a competent authority to be 12,000,000.

### Rather Catty Comment

A Persian kitten has been insured for \$25,000, and Uncle Hiram of Hamcat follows opines that if anything happens to the cat, it will be the insurance company which has the fit.

Manchester—The Knights of Pythias must surely be having fun over the euchre contest, with the Chelsea brothers. Tuesday evening there were 66 of them playing and Chelsea won 143 and Manchester only 14 games in the lead. Next week Friday evening, April 5, they will go to Chelsea. Enterprise.

Jackson—Plans are being worked out by the advisory board to furnish the Salvation Army a home in which to more efficiently do its religious and welfare work in Jackson. It will be located at a point where the Army can give the best service. About \$50,000 will be required to carry out this program and provide around \$6,000 for operating expenses in caring for the poor during the next year, according to members of the board. Tribune.

Tecumseh—Orville W. Laidlaw, for three years superintendent of the public schools here, has been offered a new contract by the board of education, carrying an increase of \$150 per year in salary. Mr. Laidlaw is now receiving \$3,600 per year and the new agreement calls for \$3,750. Decision to retain Mr. Laidlaw as head of the school system in Tecumseh, and to invite him to sign a new contract for a period of one year was reached at a meeting of the board, held Monday. Herald.

Brooklyn—A pike weighing 19 lbs. was speared by Milford Cruse last week. The fish was exploring the shallow water of the overgrown marsh creek bridge. The fish must have come north of town just west of the Goose up stream from the Norvell mill pond. The big head was on display a few days at the Taylor market, and the open jaws indicated that a two or three pound fish would be just about the right size for the big fellow's lunch. Exponent.

Brighton—The warm sunshine of the past few days has been enticing city people to the state park at Island Lake. According to James Bennett, caretaker at the park, five or six carloads of Detroit people ate their Sunday dinner on the camp grounds as well as a number of motorcyclists who took advantage of the same opportunity. A few weeks at the most will see the grounds filled with tourists who no doubt will begin their usual summer itinerary as soon as the weather permits. Argus.

## Law of Gravity Not an Obstacle to Incas

The ancient Inca fortress of Sacahuaman is located on a mountain summit 704 feet above the city of Cuzco, Peru, which is itself 10,500 feet above sea level. It is made of huge massive stones, some of which measure 30 by 12 feet and are very thick. Though irregular in outline, they are fitted together so perfectly that a knife blade cannot be inserted between them.

How the seemingly impossible feat of getting these stones to the summit was achieved is explained by the mystics of India. The Egyptians who built the pyramids, so the legend goes, and the ancient Incas, both knew how to suspend the law of gravity, having learned it from the mystics of the lost Atlantis.

Statement of the ownership, management, circulation, etc., required by the Act of Congress of August 24, 1912, of The Chelsea Standard, published weekly at Chelsea, Mich., for April 1, 1929.

State of Michigan, County of Washtenaw, ss.

Before me, a Notary Public in and for the State and county aforesaid, personally appeared M. W. McClure, who, having been duly sworn according to law, deposes and says that he is the Publisher of the Chelsea Standard and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management, etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, embodied in section 443, Postal Laws, and Regulations, printed on the reverse of this form, to-wit:

## More Barley Grown On Michigan Farms

The acreage of barley which is grown on Michigan farms is rapidly increasing and special markets maintain a good price level on the grain produced, according to a statement by members of the farm crops department at Michigan State College.

The popularity of barley has increased because a large quantity of excellent feed can be grown per acre. It will grow on many soil types. It is a good nurse crop for legume seedings, and new varieties are not so unpleasant to handle as some of the old varieties.

Yields of from 40 to 45 bushels of barley are obtained by Michigan farmers and several crops exceeding 60 bushels per acre are reported each year. Barley weighs 48 pounds to the bushel, and 40 bushels contain as many pounds of feed as a 60 bushels of oats.

Feeding experiments at Michigan State College prove that barley may be substituted pound for pound in the ration for dairy cows, and in localities where the production of corn is endangered by early frosts, barley can be used to replace it. While corn seemed to slightly excel barley in hog fattening experiments, barley ripens early enough so that it can be used to finish hogs for the early fall market.

Many Michigan growers seed 12 to 15 pounds of sweet clover with the barley, and then plow down the clover the next year. Records at the College indicate that barley should be sown as early as the ground can be properly fitted.

### Both Experts

A "stark" is a slang term for one who excels in something. A "sharp" is a term for an expert, but seems to have the idea of cheating. The idea was formerly included in the word "stark" but that meaning has now become obsolete.

### Expert Passers

Politicians are expert at passing laws and water machines. But that's nothing to what they can do with the buck.

## Farmers Worked Up Over Spanish "Lions"

A wag's remark to farm tenants near Dover, N. C., during the Spanish-American war caused much apprehension for several days to the simple folk of the countryside. He told them the American cavalry and military forces were superior but Spain had "more lions." He even went so far as to say 600 of the beasts had been landed at Beaufort, not far away, the night before.

Taking up the joke, villagers played up a "horse riddle" or riddle box across which could be drawn a piece of wood as a box, emitting sounds similar to the growling of lions. This was secreted in the neighborhood and "played" throughout the night. The tenants were terrified and among some of them the belief in the lions re-mained alive for a long time. William Winters, resident of Dover, recalling the tale, said that for several days barred doors and loaded guns were the rule in the district. Detroit News.

Kuhl, 78; justice of peace, (full term), Gottlob Horning, 72; justice of peace, (fill vacancy), Frank Kress, 74; constables, Harold Roller, 85, Walter Heuerle, 82, George Hoeller, 83, Chris Grau, 81.

### Achievement Program Given By 4-H Clubs

An Achievement program was given in the Chelsea high school gymnasium last Friday evening, all winter 4-H clubs in the Chelsea area taking part. It is reported that the exhibits were better than any previous Achievement held here, and that the attendance was larger than usual.

The following program was given under the supervision of Mrs. Max Katmbach:

- Toastmaster—Norman Beemdn, McIntee Hot Food Station.
- Minuet—Sunshine Sewing Club.
- "My Book Is a House"—Lloyd Wheeler, Plain-Place Club.
- Song—Industrial 3-in-1 Club.
- "The Discontented Cow"—Sawers and Sewers Club.
- Music Memory Record—Emily Kashman, McIntee Hot Food Station.
- "Mr. Brown's Linclucky Day"—Sylvan Center school.
- May Day—Lucky 4 Leaf Clover.
- Farmer Boys—Sylvan Center Club.
- Handicraft Demonstration Club, Quantity and Quality Club.
- 4-H Workers—Health Builders Club.
- Style Show—All girls who made dresses.

Anticipating local championship of Boys' Handicraft Clubs—Mr. Nevel Pearson.

Anticipating local championship of Girls' Sewing Clubs—Miss Lola Belle Groch.

Remarks—Mr. Hagen.

### Severe Wind Storm Does Much Damage

Considerable damage has been reported as the result of the high wind Monday which followed a severe electrical storm Sunday night. Consumers' Power company and Michigan Bell telephone company experienced a great deal of trouble between here and Jackson, and reported that conditions throughout the state are worse than they have experienced since the sleet storm in February, 1922. Poles and wires were down in great numbers, and fumes of men were kept in some sections in an effort to keep the highways cleared.

Several farmers in this section have reported a great deal of damage to outbuildings, some being completely destroyed and others being moved from their foundations.

The wind was followed with lower temperatures Monday night and snow flurries Tuesday.

### What is a One-Cent Sale?

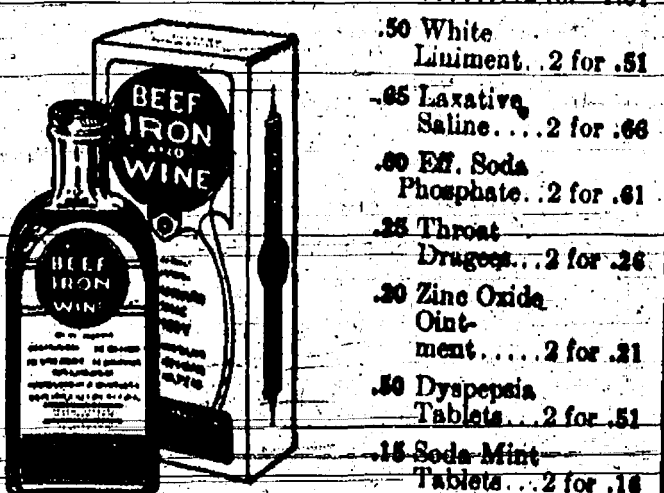

The 1c Sale is an advertising plan used to acquaint the public with the merits of the Penslar Products. You buy an item at the regular price then another item of the same kind for one cent.

Every article in this sale is a high-class standard piece of merchandise, just the same as we sell you every day at regular prices.
