PROMINENT BUSINESS MAN, VILLAGE OFFICIAL DIED TUESDAY EVENING

Edwin E. Koebe, Passed Away After Illness Of Three Weeks; Was Active In Local Affairs.

Edwin E. Koebe, one of Chelsea's most prominent citizens, passed away at his home on Madison street Tuesday evening. Mr. Koebe, during the 15 years of his residence in Chelsea, had been an outstanding figure in the business, social and political life of the community. He was vice president of the Chelsea Lumber, Grain & Coal Co., having taken an active part in the business until three years ago when he was compelled to retire on account of ill health. Since his retirement Mr. Koebe had been able to be about most of the time until he was taken seriously ill less than three weeks ago.

Mr. Koebe was always interested and active in village politics and had served several terms as village trustee, being re-elected to that office at the spring election, March 11. During his residence in Freedom township prior to coming to Chelsea he was also active in the political affairs of that township, serving several terms as township clerk and was a member of the school board of his district.

He was a member of the Chelsea Methodist Church and at the time of his death was chairman of the board of trustees of that church.

Mr. Koebe was born July 9, 1863 in Freedom township, the son of Bernard and Ann Koebe. He was united in marriage in November, 1889 to Christina Pinkbeiner and they made their home in Freedom until fifteen years ago when they moved to Chelsea.

Surviving are the widow, one son, Dr. Ezra Koebe of Columbus, Nebraska, one daughter, Miss Edythe Koebe of Grand Lodge, one sister, Mrs. Edward Weiss of Lima township, and one granddaughter.

Funeral services will be held Friday afternoon at 2 o'clock at the Methodist church, Rev. F. I. Walker officiating. Burial in Oak Grove cemetery.

Paul Fry Is Exonerated Of Criminal Negligence

At the coroner's inquest into the death of John Houck, which was held at Sylvan town hall Wednesday evening, the jury returned a verdict exonerating Paul Fry of any criminal negligence in connection with the death.

The inquest was in charge of Coroner Fred Heusel and Prosecuting Attorney Carl H. Stuhler. Carl A. Lehman of Ann Arbor acted as attorney for Mr. Fry. The jury consisted of A. G. Clark, D. E. Beane, J. B. Vogel, Harold Fridmold, Clarence Bahrniller and B. B. Turnbull.

John Houck was killed Saturday evening, March 23, when he was struck by an automobile while walking on the Chelsea-Manchester road south of the Fred Wellhoff home. The identity of the driver of the death car was not known until the following Monday when Paul Fry surrendered to local authorities.

Lima 4-H Club Member Highly Honored

Katherine Outwater, Lima township, of the Lima 4-H club, and Cyril Spike, Ypsilanti township, of the Korreck Kare Klub, are the two Washtenaw county candidates for the honor of representing the state of Michigan at the national 4-H club camp at Washington, D. C., in June. The two outstanding girls in the state, and the two outstanding boys, are selected each year to go to the camp.

The camp was organized in 1927. That year Leona Gale of Washtenaw county was one of the two girls to represent the state. In 1928 Raymond Girbach, Washtenaw county, was one of the boys to represent the state.

One of the requirements of a candidate is that he, or she, submit a story of his, or her, experiences as a 4-H club member to the state club office. Miss Outwater's story will be printed in a subsequent issue of the Standard.

Chelsea Office Building Wrecked By Wild Auto

The front of the office building of John H. Alber and J. W. Van Riper on North Main street was caved in early Saturday morning when J. L. Sibley lost control of his car while making a turn, going over the sidewalk and hitting the building with sufficient force to cause the cave-in. Mr. Sibley's car was slightly damaged by the impact and was driven off the street and into a vacant lot.

CONSUMERS POWER COMPANY PLANS DAM ON MUSKOGON RIVER

Will Be Largest Of Its Plants; Earthwork Embankment Will Be Highest In World.

Consumers Power Co. has filed application at White Cloud for a permit from the Muskegon county board of supervisors, to construct a 100-foot dam on the Muskegon River at Oxbow, about six miles up stream from the company's present dam at Croton. According to the company's engineers, the new Oxbow dam will be bigger in every dimension than any other water-power plant on the company's system and the highest earthwork embankment project of its kind in the world.

Under the provisions of the permit sought by Consumers Power Co., work will start this year on the project and the plant will be completed during 1931. A mammoth new lake will be created by this construction project which will have a maximum depth of 100 feet. It will be some sixteen or eighteen miles in length and about a mile and a half across at its widest point. Every stick of standing timber in the proposed lake-bed will be taken out before the valley is flooded with the idea of making this body of water one of Michigan's most attractive beauty spots.

The new dam will have a total length of some 3,000 feet and will be of reinforced earthwork construction, with a heavy concrete corewall from base to crest and either a concrete or welded steel facing for the embankment on the up-river slope. The volume of water impounded will be nearly nine billions cubic feet, and it will exert a total pressure on the dam of about 275,000,000 pounds.

About 1,154,000 cubic yards of soil will be moved to complete the embankment and about 80,000 cubic yards of reinforced concrete used for the corewall in the center of this embankment. More than 6,000,000 pounds of structural and reinforcing steel will be required. The modern type of concealed or conduit spillways will be installed, similar to the installation at Hodenpyl dam on the Manistee and Alcona and Mio on the Au Sable.

Three vertical, alternating current generators will be installed in the powerhouse, driven direct by three modern hydro-turbines or water wheels and the generating capacity of the plant will be about 40,000 horse power. This is nearly double the capacity of either Junction or Hodenpyl on the Manistee River, the company's two largest plants. Whether transmission lines to supply an outlet for the power at the new plant will be built to Grand Rapids or direct to Lansing to tie into the company's system there, is still a question for engineering decision.

During construction, a small city will be built adjacent to the project. It will be complete with modern conveniences, comfortable cottages and dormitories, stores, theatre, hospital and central mess halls. Work will be pushed on a twenty-four-hour day basis and at times there will be population in this temporary community of from 2,000 to 3,000 persons.

DOG ATTACK SHEEP ON L. P. VOGEL FARM

The flock of sheep on L. P. Vogel's farm north of Chelsea was attacked by dogs Sunday night, or early Monday morning. The door of the barn where the sheep were housed was forced open and the flock driven into a field adjoining the barn. One lamb was killed and one ewe was so badly injured that it had to be killed. The guilty dog has not been apprehended.

Bus Co. Announces Change In Schedule

Officials of the Eastern Michigan System announce some important changes in the motorbus schedule of the division operating between Jackson, Grass Lake, Chelsea, Ann Arbor and Detroit. The new timetable will become effective Monday, April 15.

Buses will leave Jackson on the odd hour for Detroit and will pass through Chelsea at 7:47 a. m. and every two hours to 5:47 p. m. with an additional bus at 7:47 p. m. on Saturdays, Sundays and holidays.

The buses will leave Chelsea for Jackson at 10:08 a. m. and every two hours to 8:08 p. m. with an additional coach at 10:08 p. m. on Saturdays, Sundays and holidays. These coaches operate on eastern standard time.

STATE FAILS TO ACT ON 1929 IMPROVEMENT OF M-92 TRUNK LINE

Chelsea Again Disappointed When Administrative Board Does Not Act For Much-Needed Improvement

That Chelseaites who have cherished the vision of some day having an improved M-92 thoroughfare north of Chelsea are again "holding the bag" is the general opinion of local people who are acquainted with proceedings of the State administrative board and Gov. Fred W. Green.

Information was given out at Lansing late in the winter that the contract for completion of M-92 from the Jackson county line to Chelsea would probably be let March 10. This date passed and no contract was awarded. The contractor who last year did the grading work on the trunk line from Stockbridge to the county line had left his machinery and equipment, with the intention of trying to land the contract for the completion of the job.

According to reports, the machinery has been moved from this road to construction work at other points, and there is evidently little chance that there will be any action taken in the matter this year at least, and maybe never, unless this part of Washtenaw county can devise some method of getting in on the "pull" which other portions of the county and state seem to enjoy.

A local party, who wrote to the State Highway Department on April 1, seeking information as to the progress being made in the matter, received the following letter, dated April 3:

"I wish to acknowledge receipt of yours of the 1st. It is true that the Administrative Board on October 24, 1927 authorized gravel construction from Stockbridge to Chelsea on TL 92. The section of this road found to be in greatest need of construction is in Ingham and Jackson county and is now under contract. We will undoubtedly complete the plans for the remainder of the road, however I am unable to advise you at this time when it can be put under contract."

Signed,
C. E. Foster,
Chief Engineer.

KEEPING THE MIND FIT

Doubtless the world is quite right in a million ways; but you have to be kicked about a little to convince you of the fact. And in the meanwhile, you must do something, believe something. It is not possible to keep the mind in a state of accurate balance and blank; and even if you could do so, you would be very apt to remain in a state of balance and blank to perpetuity.—R. L. Stevenson.

DISGUSTING

Good taste dictates that this newspaper refrain from expressing in print its reaction to a recent full page tooth paste advertisement which pictured an attractive young girl smoking a cigarette and which carried copy centering more around the theme of smoking by women than around the good points of this particular dentifrice.

And yet the sponsors assert that a test demonstrated that this type of advertising increased sales of the toothpaste. No statistics given on the jump of cigarette sales to high school girls and in the future mothers of America.

Such advertising disgusts thousands who read it and destroys confidence in advertising generally.

EVERYBODY CAN HELP

Never lose an opportunity to boost Michigan as a great summer resort state to your out-of-state friends. The more summer tourists who visit the state the more money it means to nearly every person living in the state.

The tourist cannot help leaving a trail of currency in his wake. When he receives full value he gladly leaves it in the stores, at garages, at resorts, at farms. In time this money is circulated to every line of endeavor through the natural course of business.

Tourist trade means summer prosperity. Let's have more of both in Michigan.

HANDY TRIGGER FINGERS

A rum runner killed a prohibition officer near Port Huron a few days ago. Within 48 hours he had been

captured, confessed, and was on his way to serve a life-sentence at Marquette.

Such prompt application of the law is bound to win the respect of every decent citizen. It will also act as a healthful deterrent to those who are altogether too handy with their trigger finger when apprehended red-handed in the commission of a crime. When they learn that detection is certain, punishment swift and severe, they will be more hesitant about shooting their way out of a jam.

Zealots hurt any cause. If you would have respect for the law, the law must be administered with respect to the rights of others. On the other side of the picture we find many enforcement officers who do not hesitate to invade human rights.

They enter private homes without search warrants, shoot to kill on the slightest provocation, and in other ways drag law enforcement into disrepute. The murder of an innocent woman in Illinois was a glaring example. Nor has Michigan been free from this kind of law application. Two years ago an innocent mail carrier was killed near Monroe, and a year ago a mere boy was murdered on the highways in Ionia county by a deputy sheriff, despite the repeated warning of his chief not to shoot. And there has been many other instances of this nature.

In dealing with crime we seem to be running around in circles. But one thing is certain, we cannot hope to have the right kind of enforcement if we do not have the active support of the average citizen. We can gain

and retain their support only when we apply the law vigorously, sanely, without fear or favor, and insist on keeping criminals in prison once they get them there. In the meantime we must not forget that we injure the cause of society when law is applied in good judgment, or the sacred precincts of citizenship is invaded without due process.

KEEPING HIS PROMISE

The eastern newspapers and politicians who profess to be surprised by President Hoover's assertion that his long-awaited prohibition investigation would be limited to ways and means of making enforcement more rigid, instead of suggesting modifications in the dry law, are doing Mr. Hoover scant justice.

Through the campaign Mr. Hoover made his position just about as clear as words could make it. He said that the whole situation needed study, but that the law itself was a good law and that he supported it.

To suppose now, as some of these people seem to be supposing, that Mr. Hoover planned to suggest modifications in the law once he was elected—that he was not quite as dry as he was, in fact—is to accuse him of double dealing.

His announcement that the law will be preserved and enforced is absolutely in keeping with his campaign declarations.

Question And Answer Dept.

NOTICE—If your question does not appear below, it is because it is awaiting its turn and will be published eventually.

Ques.—Will you kindly answer in your question department what the Eskimos use for money?

Ans.—Those Eskimos living nearest to the Dominion of Canada use Canadian money, and those living nearest to Alaska use United States money. Those too far away from civilization exchange or barter is resorted to. They have no money of their own.

Ques.—Can you please tell me where is radium found and how is it used in medicine?

Ans.—Radium is extracted from certain mineral ores, such as pitchblende, found in Czechoslovakia, Australia, Spain, Belgian Congo, Colorado, Utah, etc. The radium salt is applied in various ways, as in minute tubes, to the diseased tissue or is given internally in the form of radium emanations.

Ques.—May I ask in your good question column what is meant by a "postgraduate course"?

Ans.—A "postgraduate course" is that which is taken by a student who remains in college after graduation.

Ques.—Will you be kind enough to answer in your question department what a "totem pole" is?

Ans.—A totem pole is a pole set up by American Indians to exhibit the signs or symbols of their tribes or families.

Ques.—Will you please state what presidents of the United States were Masons, and were any of the presidents Ku-Klux Klan?

Ans.—Ten presidents of the United States were Masons, as follows: George Washington, James K. Polk, Andrew Jackson, James Buchanan, Andrew Johnson, James A. Garfield, William McKinley, Theodore Roosevelt, William H. Taft and Warren G. Harding. No president was a Klansman that we know of.

Ques.—Is the Canadian parliament made up like the United States Congress? If not, what is the difference?

Ans.—Not exactly, but very similar. Canada has ninety-six life senators, and at present has 245 members in the house of commons. The number of commons increases one member to every 35,283 increase in population.

Ques.—May I ask you which Canadian provinces are the largest in point of population?

Ans.—Ontario is the largest, with approximately 3,250,000; Quebec is next, with about 2,500,000, and Saskatchewan is third, with about 1,000,000.

Ques.—Please answer how many years is a term for the president of France? Also, who is president there now, and when will his term expire?

Ans.—The president of France is elected for a term of seven years.

Gaston Doumergue is now president, and his term will expire in 1931.

Ques.—I would like to know who holds the world's record for speed in an airplane, and how many miles per hour were made?

Ans.—This distinction goes to Mario de Bernardi of Italy, who, last year (1928) attained a speed of 318 1/2 miles per hour. Lieut. Darcy Grieg of England flew at the rate of 319 1/4 miles per hour the same year in an unofficial trial.

Ques.—Did Georges Carpentier, the champion pugilist of France, and Gene Tunney ever fight? And didn't Carpentier knock him out?

Ans.—Carpentier and Tunney had a battle, on July 24, 1924, in New York, in which Tunney won in fifteen rounds.

Ques.—Can you tell me what form of government has Albania? Your answer will decide a dispute.

Ans.—Albania is now a kingdom. For two years prior to Sept. 1, 1928, it was a republic.

Ques.—When two people are introduced to each other, and one of them says, "I am pleased to meet you," what should the other one say?

Ans.—Be perfectly natural in whatever you say in response, and a very good form is to say cordially "I am delighted."

Ques.—What is the longest bridge in the world at the present time, and what is its length?

Ans.—The longest bridge in the world to date is the Cerno-Voda, over the Danube, which is, with its approaches, twelve miles long.

Are You Planning A Home?

Here is a suggestion . . .

Builders of the most modern homes of today are, including in their plans specifications for extension telephones in various rooms. The old time reception hall telephone is being augmented by extension telephones in the library, bedroom and kitchen. They promote convenience and quick answers. The additional cost is slight, and adequate telephone service is a requisite in the present day home. The Telephonemanager will be glad to tell you more about extension telephones and house wiring plans.

Never Such Flowers Before

Why they are faster growing, larger and with lovelier, more brilliant blooms than you had ever dreamed.

All flowers—those in pots indoors as well as those in the garden—will grow luxuriantly if you will only give them fair chance. If you will only help them with Bloom-Aid.

There is no secret to plant feeding that makes flowers, shrubs and vegetables bloom earlier and more colorfully. It is simply the scientific principle of a balanced diet.

Grass needs a special food, of course. The scientific food for lawns is V.C. Fairway fertilizer. It produces firm, thick turf of velvety green. You see results.

A little or a lot—

You can try these V.C. products on a few potted plants or on an acre of lawn. The beauty of them is that they are clean, virtually odorless and packaged in both small and large tins.

Go to the nearest dealer and let him explain the advantages of scientific plant food. He will give you descriptive literature that will help you improve your lawn and garden.

Bloom-Aid
A FOOD FOR PLANTS
Fertilizer for a few plants or a great garden
Bloom-Aid keeps plants healthy, it comes in pot or in tins. Use to the garden, limit it to 2 pints or 1 quart in 1 week, or 1 quart in 2 weeks. It is 5 and 25 pound bags.

V.C. Fairway
The scientific food for lawns is V.C. Fairway fertilizer. It produces firm, thick turf of velvety green. You see results with it.

DOINGS AT LANSING

Michigan Press Association
Lansing Bureau
April 5, 1929

There was a brilliant display of fireworks in the House Tuesday afternoon. Despite the fact that both branches had passed the fireworks bill which has been signed by the Governor and given immediate effect. The oratorical pyrotechnics were displayed when Rep. Callahan of Detroit arose in the defense of his bill to take private employment agencies out of the hands of the labor and industries commission to be appointed by the governor, attacking Eugene Brock of the labor commission for an alleged dereliction of duty. Rep. Frank Wade defended Brock and then Rep. Milton Palmer of Detroit in a coldblooded address took Brock and his record up and down the line of denunciatory castigation. It was the first really acrimonious debate of the session and aroused great interest. Brock defended himself in the newspapers the following day, but his department is likely to undergo a searching investigation as a result of

the rumpus. Callahan's bill passed the house without amendment by a heavy majority.

A bill by Rep. John Gillett, which would have permitted boards of supervisors to publish their proceedings in pamphlet form instead of county newspapers met with such emphatic protest that Gillett amended the bill, making county newspaper publication mandatory, as before, and also authorizing pamphlets in addition, if the board so desires. In this form the bill passed the House.

The Snow income tax bill, a highly controversial measure, was passed by the House Thursday afternoon after a heated discussion by a narrow margin, and now goes to the Senate for concurrence. The measure is claimed to have the favor of the administration. The bill levies a tax of two per cent on all incomes, with \$500 exemption for a single man, \$1000 for a married man, and \$400 for each dependent child.

Senator Chet Howell has discovered that all of us are breaking the law by not having the gas tanks on our automobiles painted a bright red and la-

belled "Gasoline." He has introduced a bill in the Senate to free us from legal penalties in this regard. We hope it goes through.

The bill allowing townships to establish and maintain airports has passed the House, only the first of several bills which are on their way through to make aviation safe for democracy.

The Governor sent a report to the legislature early in the week of the status and condition of the Chelsea cement plant, but made no recommendations as to its disposal. There are varied opinions as to what to do with the plant, which is not a paying venture owing to its distance from a source of supply, the local supply of material having been exhausted. A suggestion that the plant be moved to some available location elsewhere in the state, where material may be obtained, and the plant be modernized to make the continued employment of convicts profitable is being seriously discussed.

Talk of a probable date for final adjournment is heard among the leaders of the state congress, which is a good sign. Both branches are working overtime in getting lesser measures out of the way, but there is a lot of business yet to be done before the session closes. May 10 is the most popular date suggested but some of the optimists think it can be made a week earlier.

A joint committee of both Houses is busy investigating charges made by Rep. DeLand that the utilities commission was not functioning properly. DeLand demanded an investigation and the commission promptly responded with a request that the investigation be made and most thoroughly. A report is expected within a couple of weeks.

The Senate is still scrapping over a capital punishment bill, which the committee seems unable to agree upon. Likely something along that line will come out from under cover of the judiciary committee blanket next week but probably with fuzz from the blanket all over it.

The appropriation bills will be probably the principal topic of discussion next week, and they will likely go through in a hurry, because every detail has been studied and discussed in committee meetings and practically all details agreed upon. None of the educational institutions will get all they have asked for, but the cut will be equitized so that all will be fairly treated so far as possible without making the tax burden too heavy.

The tobacco tax measure has been passed by only a majority of one, which a tax of \$2.00 per 1000 will be levied if the Lamm bill goes through according to schedule.

The Madera bill in the House asks that every automobile driver must carry at least \$10,000 liability insurance, unless he can satisfy the authorities that he is personally worth at least \$11,000.

The Senate has passed the fisheries bill, with an amendment which will allow smaller mesh nets in the Saginaw district for herring. The bill will now go back to the House for concurrence in the amendment and if the House refuses to concur the matter will probably go to a conference committee.

After a hot session in the House Friday morning the Turner Senate bill apportioning \$2,000,000 in aid of the poorer school districts in the state was passed, for the day at the Friday morning session and will be up again Monday. It provides that all districts in which school taxes are more than \$10 per \$1000 valuation will share in a pro-rata distribution of the fund. This will help out the mucky rural districts of the state which are overburdened by school taxes. Each legislator was furnished a list of the school districts in his district which will benefit under the proposed appropriation.

The Peters corporation tax bill passed the House and if approved by the Senate will permit taxing of intangible assets held by out of state corporations.

The bill allowing the conservation commission to sell oil rights on lands was ditched, then resurrected and then passed, with an amendment that oil and mineral rights may be sold to the person holding title to the lands. More than 100 obsolete laws were stricken from the statute books at one fell swoop, by the Haight bill.

The House Wednesday passed the bank and trust company bills which were prepared by the banking department. Said bills will prevent the organization of any more so-called industrial banks. The most important change, according to the state banking department, will be the granting of trust powers to banks, without requiring them to set aside portions of their capital and surplus in separate funds for that purpose.

Congressman Grand Hudson made talks from the rostrums of both House and Senate Thursday. Later in the Senate he was scored by Senator Gansser for voting against a tariff increase on sugar from Cuba and the Philippines.

Senator Person has introduced a bill empowering the governor to appoint a commission to index Michigan laws

from 1803 to the present time, something which sadly needs to be done.

The governor has signed the criminal code bill, but the Cuthbertson bill, which provides stiffer penalties for liquor law violations, is still out of sight in a Senate committee.

IT CANNOT WARP ..because it is ALL-STEEL

THE General Electric Refrigerator requires no soldering or plumbing because it has no drainpipe. It uses a minimum of current because the all-steel cabinet cannot warp and therefore never allows heat to creep in or cold to seep out.

It is individually controlled—its operation does not depend on the janitor or on any other installation in the building. It is exceptionally and remarkably quiet. It freezes ice faster (one tray in two hours, two trays in four.)

No longer does "any refrigerator" satisfy the discriminating apartment hunter. It must be a General Electric, because this remarkable all-steel refrigerator has many unique features which make it ideal for apartment use.

Listen in on the General Electric Hour, broadcast every Saturday evening, 9 to 10 Eastern Standard Time, over the N. B. C. network of forty-two stations.

ANN ARBOR, MICHIGAN

OUR NEIGHBORS

Ann Arbor—Leo Pfitzenmaier and Earl A. Lowry, Ann Arbor, reported to the sheriff's office last week that carpenter's tools owned by them had been stolen from buildings where they had been working. Pfitzenmaier's tools were taken from a structure at Towline and Scio roads and Lowry's from a building at Liberty road and the Belt Line. News. Mr. Lowry was a former Chelsea resident.

Stockbridge—The Wilson Packing Co., of Jackson, has purchased a piece of land here and are making arrangements to build a salting station on the property.

Manchester—Misfortune has again overtaken our friend, George Niele, and on Monday a big elm tree that stood near the dance pavilion at Wampler lake was broken and the top portion crashed down upon the roof of the building, breaking everything to the floor. The piano that stood near the center of the dance floor was struck but escaped serious damage. He had men with rope and

tackle, saws, etc., at work the following two days removing the rubbish and will have carpenters at work repairing the roof as soon as possible. Enterprise.

Milan—Twenty musicians of Milan have signed up as members of a new band that is being sponsored by the local lodge, I. O. O. F. All rehearsals will be held in the Oddfellow Hall and efforts are being made to find a competent instructor and band leader. Leader.

Jackson—Katharine Ann Riethmiller of Jackson was named executrix in the will of Andrew Riethmiller, probated Thursday. The heirs include Mrs. Riethmiller, Floyd, Milton and Lewis Riethmiller, Margaret Kutz, all of Jackson, and Lela Bostwick, of Cleveland.

Howell—The Livingston County Board of Supervisors is composed of nine republican and nine democrat members.

Tecumseh—George A. Rathbun, republican, for 20 years a practicing attorney in this village, and a graduate of the law school of the University of Michigan, was elected circuit judge of Lenawee county, at the regular spring election held on Monday. Mr. Rathbun was unopposed for the office, and newspapers and unofficial observers at the election booths made

no effort to keep a record of the vote he polled in the county. Herald.

Tecumseh—The Hon. Judge Clyde I. Webster of Detroit, will be the principal speaker at a banquet, to be held in the high school gymnasium here Friday evening, April 12, under the auspices of the Tecumseh Masonic lodge, celebrating the diamond jubilee anniversary of lodge No. 69, founded here 75 years ago. Herald.

Gregory—The Southern Ingham and Livingston Ministerial Association held a meeting in the Baptist church here on Monday, April 8. Two sessions were held and several addresses were delivered.

Stockbridge—The proposition to bond this district for \$100,000 for a new school building lost last Thursday 127 to 168. The election called out one of the largest votes ever polled here. The voters of the district seem to be of the opinion that it is not necessary to spend such a large amount for a new school and registered their disapproval. Brief-Sun.

Saline—Ypsilanti Rotarians, who sponsored the organization of the local group, promised there would be a large representation here to witness the bestowing of the charter, and they certainly made good, for last Thursday evening there were Rotarians present from Adrian, Ann Arbor, Dearborn, Detroit, Manchester, Northville, Plymouth, Monroe, Ypsilanti and Highland Park, to welcome Saline into the fold. Observer.

Saline—The Milan road is still in an almost impassable condition. On Saturday several reports came in where parties had been pulled out of mud holes. An attorney in town Saturday night said he was two and one-half hours coming from Milan and that he was pulled out of two places. Observer.

Grass Lake—Mrs. Emma Larriek, who disposed of her house and furnishings at auction last Saturday, is staying at the Louis Patchin home until the middle of April, when she expects to make her home in the soldiers home in Grand Rapids. She is the widow of Frederick Larriek, who served the four years in the Civil war with an Ohio regiment. News.

Northville—Township Clerk Elmer Smith at the annual meeting of the taxpayers of the township Monday, asked for \$100 additional to the Poor fund, there being a balance of several hundred dollars left over from the previous year, he stated. While the report shows that a few dependent women have been given some aid by the township there is not a single family that the township must look after during the entire year living within Northville township. Record.

First Armored Ships

The first ten armored vessels were the floating batteries used at the siege of Gibraltar in 1782. France was the first to produce a seagoing armored ship. Four were commenced in 1858.

The first to be completed was the cloire. In 1861 the United States congress passed an act providing for armored vessels. Under the provisions of this act the Galena, the New Iron sides and the Monitor were built.

Seymour Goodyear died at his home in Chelsea, Tuesday evening, April 9, following an illness of six weeks. He is survived by the widow, one daughter and two sisters. The funeral will be held from the M. E. church Friday afternoon.

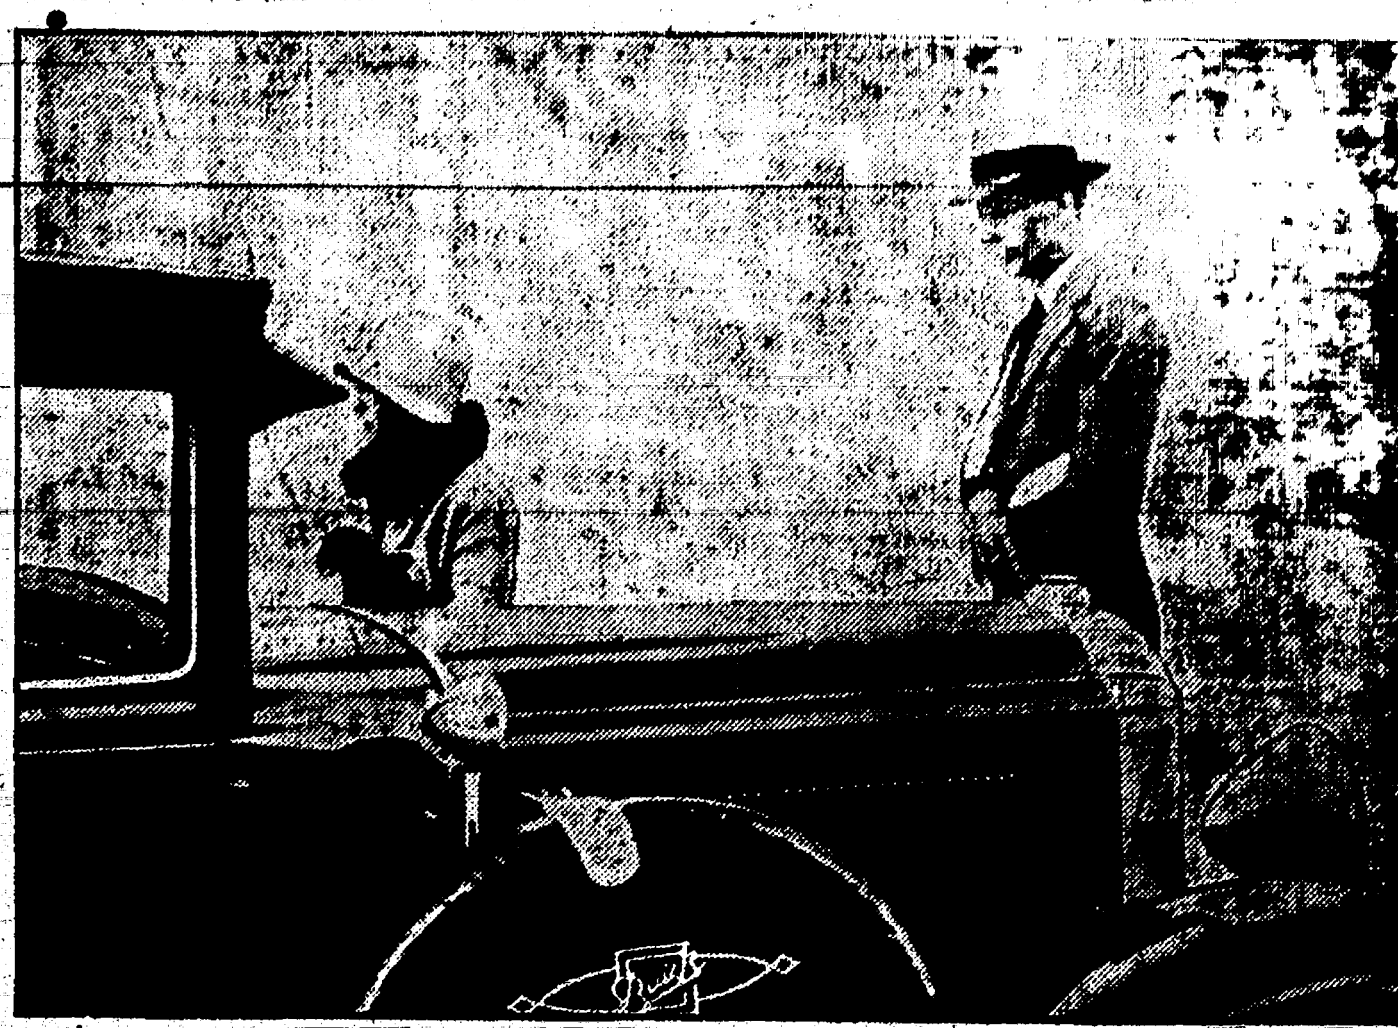

Hiram Lighthall of Sylvan is being named as the next chairman of the Washtenaw County Board of Supervisors by the newspapers in Ann Arbor.

Miss Cora M. Irwin and Vern C. Stover were united in marriage in Chicago April 6. Miss Myrtle E. and Geo. H. Irwin, brother and sister of the bride, attended the couple.

Catherine Keelan asks to be separated from her husband, Bernard Keelan, by divorce on the grounds of extreme cruelty. The claim is made that the husband is worth \$40,000 and that he is disposing of his property by deed to his children by his first marriage. The court has issued an injunction restraining him from farther disposal of his property.

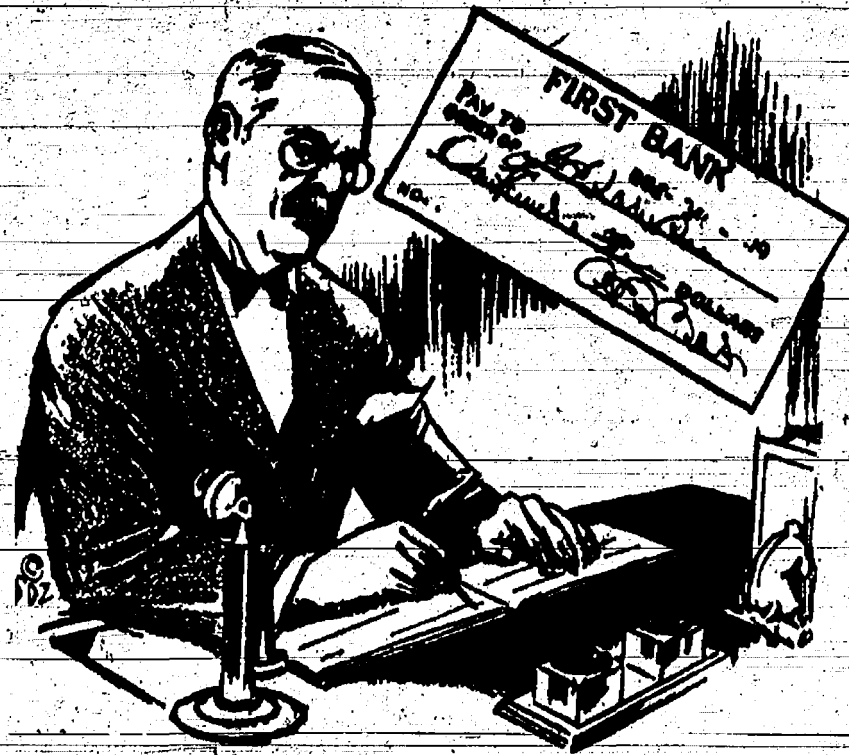

D. W. Berry is here with county surveyor Jerome Allen placing grade stakes on Mill Creek and will let the contract for draining the creek the last of this month.

The following have been granted teachers' certificates in Ann Arbor from Chelsea: Etta K. Dealy, Flora M. Kempf, Agnes Miller, Mary Goodrich and Nerissa Hoppe.

LINDY AND ANNE GO FOR RIDE IN BUICK

This picture, taken at Ambassador Dwight Morrow's estate in Cuernavaca, Mexico, shows Miss Anne Spencer Morrow, daughter of the ambassador, and her fiancé, Col. Charles A. Lindbergh, about to enter a Buick sedan. Note that Lindbergh's arm is in a sling, the result of the mishap at Valbuena Airfield, when he and Miss Morrow went for their first air jaunt over Mexico City.

two STURDY-RICH MOTOR OILS

Polarine-Iso-Vis

WHICH do you favor? Both are good motor oils—rich and sturdy. Both meet the new motoring conditions of engines running hotter because of higher compression and faster driving.

Polarine has a record of twenty years of outstanding service. Many thousands of motorists demand it wherever they go. If you want a smooth running motor—use Polarine—drain and refill your crankcase every five hundred miles.

Iso-Vis is newer. No other oil like it. It has a constant viscosity. It will not break down—it will not thin out—it lubricates faithfully and well all frictional surfaces. It wears and wears and wears!

Many Iso-Vis enthusiasts drive for a thousand miles or more without changing oil. Iso-Vis is as efficient on the last mile as on the first.

The Standard Oil Company [Indiana] recommends both. Which do you favor?

Boys Improve Value Of Idle Home Lands

Michigan boys have reversed the
with the country and are improving
old advice to go west and grow up
idle home land by planting trees
whose beauty and value will increase
as their own age increases, according
to a statement by members of the
forestry department at Michigan
State College.

Three forestry ranger stations es-
tablished in Washtenaw county last
week are the forerunners of many
such stations whose members will be
the boys and girls of several Michi-
gan counties. Organization plans for
these stations have been completed in
Kent, Van Buren, Antrim and Che-
boygan counties.

Members of the stations agree to
plant 1,000 trees on an idle acre of
ground which is not adapted to the
production of other farm crops. Ever-
greens, spruce or pine, are the trees
usually planted because they grow
better than hardwoods on unfertile
soils, are easier to plant, and produce
more board feet of lumber per acre.

Mixed plantings of pine and spruce
are popular, as a part of the spruce
can be harvested in 10 years for
Christmas trees. The removal of the
spruce thins the stand of trees and
gives a comparatively quick money re-
turn on the forestry project. Spruce
which is allowed to stand may be cut
for pulp wood in 30 years.

Four years of training in forestry
practices are open to the members of
the ranger stations. Specialists from
the forestry department of Michigan
State College will assist in training
the station members.

Field Mice

A good word might be said for field
mice, usually set down categorically
as "vermin." If the store of seeds re-
cently taken from a mouse's nest in a
ranch building in Yellowstone park
can be taken as a fair sample, "the
cave of this tiny creature filled a
five-pound hard pan. The seeds were
all of the firmest, one of the worst
plant pests in Montana.

SLAT'S DIARY

Friday—Ma was giving me the
dickens this evening on acct. I was
herling a few
bricks at Hunny
Boy Morgan. She
sed it was a Cow-

A SIX IN THE PRICE RANGE OF

Since January first, over 300,000 people have chosen
the Chevrolet Six. And every day sees an increase in
this tremendous public acceptance—

—for the new Chevrolet not only brings the enjoyment
of six-cylinder performance within the reach of every-
body everywhere, but gives the Chevrolet buyer a
greater dollar value than any other low-priced car.

Just consider what you get in the Chevrolet Six! The
smoothness, flexibility and power of a six-cylinder
engine which delivers better than twenty miles to the
gallon. The beauty and luxury of bodies by Fisher with
adjustable driver's seat. The effortless control of big,
quiet, non-locking 4-wheel brakes and ball bearing
steering. Then consider Chevrolet prices! And you will
discover that this fine quality Six can actually be
bought in the price range of the four! Come in. Let us
prove that anyone who can afford any car can afford
a Chevrolet Six!

MISS EDITH L. CONGDON
Miss Edith L. Congdon, a former
well known resident of Chelsea, died
Wednesday forenoon, April 10, in Ot-
tawa, Ont., after an illness of about
ten days.

Miss Congdon was born in Chelsea,
February 28, 1897, and was the daugh-
ter of Arthur and Sarah (Arnold)
Congdon. She attended the Chelsea
public school, and following her grad-
uation, went to Ridgeway, Ont.,
where she remained for some time.
Returning to Chelsea, she accepted a
position as bookkeeper for W. P.
Schenk & Co., which position she held
for 14 years until her removal to Ot-
tawa.

Miss Congdon is survived by two
sisters, Mrs. William Barr of Saline,
and Miss Nellie Congdon of Hillsdale.

The body will be brought to Chelsea
this afternoon and funeral services
will be held Saturday afternoon at two
o'clock at the residence of her uncle,
William D. Arnold, on East Middle
street. Rev. F. L. Walker will officiate.
Interment will be in Oak Grove ceme-
tery.

IS IT
REALLY RUNNING?

That's the question
every woman asks the first time she
sees the New Silent Kelvinator

SO SILENT is the new 1929
Kelvinator that even when
standing close by, you cannot
detect whether the mechanism
is running. Scores of women
who have inspected the new
unit are delighted with its
smooth, silent performance.
Come in and make the test
yourself. Then note the other

advanced features of the New
Silent Kelvinator, including the
new flexible rubber tray for in-
stant removal of ice cubes, auto-
matic cold-keeper and artistic,
sturdy cabinets.

You can enjoy Kelvinator at
once. Buy it now on Kelvinator's
attractive ReDisCo monthly
budget plan. No need to wait.
