Now that tire prices are the lowest in history --

This is a good time to size up tire VALUES.
The difference in prices between good tires and inferior tires is now so slight that there can be no logical reason for any car owner to buy "bargain" tires.

He may save a dollar or so on the first cost, but he cannot possibly get the same mileage from a "bargain" tire that he will get from a tire like the Kelly-Springfield or the Kelly-Built Buckeye; he will not get even as much mileage in proportion to what he has spent.

Almost any of the standard makes of tires are economical compared with "cheap" tires, but if you want to be sure of getting the very utmost in value and quality, buy Kelly-made tires.

CORN CULTIVATOR

OLIVER NO. 35

Perfect design, better construction, easy operation, pedal guide type, makes the Oliver No. 35 the fastest selling cultivator on the market today.

The No. 35 is built short and sturdy, the hitch is adjustable to meet the draft of different size horses. Gangs are well forward between wheels, insuring more uniform work on uneven ground. It is always perfectly balanced, regardless of the position of the gangs or weight of operator. Handy levers to level gangs, expand or close row clearance. Handy levers to lift either, or both gangs if desired. The pedal guide is so constructed that the gangs are self-centering. The draft brings wheels and gangs into line as soon as pedal pressure is released. The No. 35 cultivator is a 100 per cent tool in every respect and deserves your consideration and inspection before you place an order.

We have the Oliver spike tooth harrows in 60, 90 and 120 tooth sizes. Oliver is the better built spike harrow, stronger and better throughout and costs no more than the ordinary kind.

A. B. CLARK & SON PURCHASE HERMAN J. DANCER GROCERY

Will Close Out Old Stock And Conduct Business With Complete New Line.

Announcement is made by A. B. Clark & Son that negotiations are under way for purchase by them of the H. J. Dancer grocery stock, located in the Penn building on Main street.

An inventory of the stock will be taken within the next few days, and if the deal is satisfactorily consummated a sale to close out the stock of groceries in the Dancer store will be announced the first of the week. The Clarks state that the entire stock will be disposed of before new goods are added.

Following the clean-up of the stock, which will be priced to close out in a few days, the store will be completely redecorated and when re-opened for business within the next two or three weeks will be one of the most attractive and up-to-date grocery stores in Chelsea.

The firm of A. B. Clark & Son started in the grocery business in a small way about eight years ago, in the room they now use for storage of their products. The business increased to such an extent that it was necessary for them to expand, and two years ago the store building which they now occupy was erected.

Since erection of the new building the business has continued on the upward trend and they now consider it advisable to further increase their service to the people of Chelsea and vicinity by acquiring and conducting the Main street store.

The same complete line of fresh fruits, vegetables and groceries that are carried in their Park street store will be stocked in the new store. Daily trucking service between Chelsea and Detroit makes possible this always fresh stock of commodities which has made the Clark store so popular.

Plans are being made by the board of County Road Commissioners to further improve the county park at the south end of Cavanaugh Lake, work on the project to be started as soon as possible.

At the session of the county board of supervisors held last October, \$1,000 was appropriated for use in this improvement, and the road commissioners were appointed as the county park commission to take the matter of county park improvement in charge.

A row boat has been placed in the lake, for public use, with instructions for use by any one party for one hour only. It will be necessary to do more grading in the park, and shrubbery will be planted to beautify the spot. Tables will be erected for public use and playground equipment will be placed on the ground for the pleasure of the young folks.

The Cavanaugh park site was obtained by building the new county road to the south of the old roadbed which was near the shore of the lake. F. H. Riemenschneider, owner of the frontage, gave half of the tract, between the highway and the lake, as well as some land back of the road, to repay the county for building the new roadbed through the new course, which also gives him some very desirable frontage property.

Rev. Geo. L. Nuckols, pastor of Nardonn Park M. E. church, Detroit, will deliver the commencement address at the graduation exercises of Chelsea High school in the public school auditorium tonight, when forty-one graduates, the largest class graduated from Chelsea High in the history of the school, will be awarded diplomas.

Smith's orchestra will furnish the instrumental music for the occasion, and Mr. and Mrs. Paul F. Niehaus will render two vocal duets. Diplomas will be awarded by Supt. E. L. Clark.

A large crowd attended Class Day exercises which were held last night, when members of the graduating class gave their productions.

Jackson Man Acquires Klingler Meat Business

A business change which will be of much interest locally will take place Monday, June 17, when Geo. Kaercher of Jackson will take over the meat market business of Fred C. Klingler.

Mr. Kaercher, who now operates three meat markets in Jackson, has consummated a deal whereby he will rent the fixtures in the Klingler market, and has purchased Mr. Klingler's slaughterhouse.

It is the intention of the new proprietor to purchase livestock from farmers in this vicinity and do butchering here to supply most of the needs in Jackson markets as well as the Chelsea market. Mr. Kaercher, who is Mr. Kaercher's son-in-law, will conduct the local market.

Mr. Klingler purchased the meat market which he now operates from Floyd Van Riper nineteen years ago, and has been actively engaged in the business since that time.

Mr. and Mrs. Klingler have made no definite plans for the future, but they expect to enjoy an extended vacation and will leave some time next month for northern Ontario, where they will spend most of the summer.

COUNTY TO BEAUTIFY PUBLIC PARK TRACT AT CAVANAUGH LAKE

SENIORS TELL ABOUT INTERESTING TRIP TO THE NATION'S CAPITAL

Tell Of Educational Advantages Of Eleven Day Journey In The East.

Greetings Folks:
We know that you know we are back, but we aren't sure that you know what a wonderful trip we have just completed. It is our aim in this article to impress how educational this trip was, and how we are boosting it for next year's class.

First, we wish to thank Mr. Clark and everyone who has made it possible for us to have this opportunity.

You were awakened from your slumbers just two weeks ago "at three o'clock in the morning" by the incessant horns on automobiles and the screams of excited Seniors and Underclassmen—who with the more dignified townspeople gathered at the schoolhouse.

Later—
Speeding through southern Michigan towns, we passed over into Ohio at five o'clock. Around seven, we were ready to devour our sandwiches, pickles, oranges, olives—we survived until a flat tire came to our rescue at Sandusky and here we drank gallons of sodas and pop—good mixtures!

At Marion we visited Harding's Memorial Tomb, and we lunched at Columbus. With only another flat tire to hinder us, we crossed over into West Virginia and arrived a little later at the Windsor Hotel, on the banks of the Ohio, where we spent our first night.

Saturday:
We crossed the border line into Pennsylvania and here we began to get our first glimpses of the mountains—and to be among them. Other new interests were the oil wells and coal mines. Two of the outstanding things that day were visiting the new statue "The Madonna of the Trail"—

Work Being Rushed On Federal Building

Construction work on the new addition to the Chelsea Division of the Federal Sewer Works plant is progressing very rapidly, and, according to Fred Frew, construction superintendent, the building will be completed within another thirty days.

Work on the building was started four weeks ago by the Gallagher-Fleming Co., of Detroit, the contract calling for completion of the work within sixty days.

Steel work, which was commenced Monday of last week, was completed Tuesday of this week, work has been started on the roof and bricklayers are being added to rush work on the walls.

The addition will be 60x134 feet, will have a truck entrance on Congdon street and will be connected to the west side of the main plant. This new addition will give the local Federal plant facilities for increased and more economical production.

TALENTED LOCAL YOUTH TO SING IN ANN ARBOR CHURCH

J. Fred Bareis has been asked by Professor Ferris, director of the choir of the Episcopal church of Ann Arbor to do solo work in that organization this summer. Professor Ferris after having heard Mr. Bareis on several occasions, interviewed him, and asked that he come to Ann Arbor for a private try-out, the result of which was very favorable. Mr. Bareis will take up his work as tenor soloist of that organization in the near future.

"Fritz" as he is known to his many local friends, is the popular young son of Mr. and Mrs. J. J. Bareis of 246 Adams street, and has on several occasions taken difficult parts in the choir of St. Paul's Lutheran church here.

ENTERTAINS AT SHOWER IN HONOR OF BRIDE-TO-BE

Mrs. M. W. McClure entertained twenty friends, Wednesday afternoon at her home on West Middle street, in honor of Miss Thelma Loveland, whose marriage to Glenn Henschel will be an event of next Wednesday.

The color scheme of pink and white was used throughout the house. The flowers were white peonies, syringa, pink and white roses.

In the dining room the table was centered with a large cake, decorated with a miniature bride and groom, crystal candlesticks with pink tapers and rose nut cups. Dainty refreshments were served by the hostess, Miss Loveland was presented with several lovely gifts.

Thrills Follow Fast In Great M-G-M Air Epic

Giant seaplanes thundering in the skies; hawklike fighting planes whirling in gyroscopic maneuvers; the wreck of a huge flying monster at sea and a sensational parachute jump from a blazing plane—these are some of the thrills that Ramon Novarro gives his audience in "The Flying Fleet," Metro-Goldwyn-Mayer's sensational drama of the airmen of the navy at the Princess theatre next Wednesday and Thursday.

Here is a new Novarro—in a new type of story. Although a charming romance, it is set amid such breath-taking thrills that it creates an absolutely different effect on its audiences from anything the screen has ever seen before.

There have been air pictures before, and great ones, but in "The Flying Fleet" more of the thrills of flying have been caught than perhaps were ever before placed on the screen. There are several reasons. One was that most daring aviators of the Navy including the famous "Suicide Squad" staged them. Another was that the photography from the camera planes involved many new discoveries in getting the ultimate thrill from such spectacles.

George Hill, famous director of "Tall It to the Marines" and "The Cossacks," adds another outstanding triumph to his list in the new play, and Novarro perhaps one of his greatest artistic success in the role of the young naval aviator, torn between rivalry over a love affair and the still-lingering regard for an old pal who has come to grief in a seaplane wreck. The sensational rescue scenes make an outstanding dramatic climax to the story.

Although two-thirds of the picture were filmed in the air, the story has a rich vein of human interest and a delicate love romance. Anita Page makes a beautiful heroine and the young naval aviators are well cast. Ralph Graves, Carrol Nye, Gardner James, Sumner Getchell and Eddie Nugent. Many actual naval officers also appear. Alfred Allen plays the admiral.

The naval air base at North Island was the locale of the thrills, through cooperation of Admiral J. M. Reeves.

Gas at Father's Service

We always think of gas service as benefiting Mother... for it cooks the meals, heats the water, operates the gas refrigerator.

But who is it that sits down to those well cooked dinners... that enjoys instant hot water for bathing and shaving... that is saved all the work of furnance tending in winter-time because gas heats the house automatically?

After all, we're serving Father too, and in commemoration of His Day—June 17, Gas Service rededicates its efforts toward giving Father the most comfort and satisfaction with the least bother and exertion.

Question And Answer Dept.

NOTICE—If your question does not appear below, it is because it is awaiting its turn, and will be published eventually.

Ques.—Can you answer in your question column what percentage of water is there in milk?

Ans.—Ordinary cow's milk contains about 87 per cent of water.

Ques.—As you answer all kinds of questions, I am curious to know what was the nationality of the Queen of Sheba?

Ans.—The nationality of the Queen of Sheba, mentioned in the Bible in connection with a visit to King Solomon, is unknown for certain. It is supposed that "Sheba" is a variation of the word "Saba" which was the name of the country on the Red Sea in southwestern Arabia. This region is now known as Yemen. The Sabaeans were dark-complexioned white people and belonged to the same general family of mankind as the Hebrews. They had extensive colonies in Africa, where they mingled with the Ethiopians with whom they are sometimes confused. The Abyssinians have a tradition that the Queen of Sheba who visited Solomon was a monarch of their country, and their royal family claims descent from Menelik, an alleged son of the Queen of Sheba and Solomon. The queen, who made herself famous by her spectacular visit to King Solomon, was very likely the same person known in history as Queen Balkis of the Sabaeans.

Ques.—To settle a dispute will you please answer in the question department what is the title of the emperor of Japan, if not "Mikado"?

Ans.—The emperor of Japan bears the title "Tenno." However, in external affairs he is usually called "Kotai," a word of Chinese origin. Only foreigners make use of the title "Mikado."

Ques.—I would like to know which lime would be the best for a light soil. Can you tell me?

Ans.—Where lime is required by the soil it should be supplied in the form of slaked lime or ground limestone. The slaked lime may be used at the rate of half a pound to the square yard of freshly dug soil; the ground limestone at the rate of a pound to the square yard. It should be applied to the soil in the Spring or

Fall, but not at the same time as the manure.

Ques.—Will you kindly state where Land's End is, and why it is called that?

Ans.—Land's End is a promontory in Cornwall, England. The name, of course, was suggested by the fact that the point is the end of land going westward. The promontory itself is of granite and is pierced by a natural arch.

Ques.—I see by a Detroit paper that a groceryman in that city has eleven daughters. Can you imagine that? Eleven Daughters.

Ans.—That's nothing. Just imagine eleven sons-in-law working in one grocery store.

Ques.—Will you please answer who Gilderoy was in the expression "higher than Gilderoy's kite"? Also what is the origin of that expression?

Ans.—To hang a man as "high as Gilderoy's kite" means to punish him very severely. "Higher than Gilderoy's kite" signifies very high. Gilderoy was the nickname of a noted robber named Patrick McGregor, who operated in Perthshire, Scotland. He boasted that he had hanged a judge, robbed Oliver Cromwell, and picked the pocket of Cardinal Richelieu in the presence of the king. This notorious highwayman, who was noted for the beauty of his person, is the subject of several ballads. He and several of his companions were captured in 1636 and hanged at Edinburgh. The greater the crime the higher the gallows; was at one time a practical maxim of the common law. Accordingly, Gilderoy was hanged on a gallows high above the rest. Tradition says it was thirty feet in height. Just what "kite" alludes to in the old expression is not clear. Some author-

ities think it alludes to the fact that Gilderoy's body was hung so high that it "looked like a kite in the clouds." One writer, however, thinks that "kite" in this connection was originally the old North Scotch dialect word "kyte" meaning belly, stomach, or paunch. By extension, he says, it was applied to the whole body, especially in a derogatory or contemptuous sense. Hence the old saying "high as Gilderoy's kite" may be equivalent to "high as Gilderoy's carcass."

Ques.—Who was the originator of the slogan to "See America First"?

Ans.—Don't know. Probably it was Christopher Columbus.

Good Hay Is Made By Modern Method

The primary purpose of the hay making system which will be demonstrated by farm corps specialists from Michigan State College this summer is not to make hay in one day but to make the best quality hay possible and sometimes this requires two or more days.

This system uses the windrow method of curing hay because, by such curing it is possible to save a large portion of the leaves on alfalfa hay and less labor is required to get the hay in condition to be put in the barn. Weather conditions seldom permit complete curing so the hay is ready to go into the barn in one day, and the hay should be left in the windrow until it is cured. If rain falls on the windrows, they can be rolled over with a side delivery rake and the labor of hand turning is unnecessary. Hay making demonstrations have been given in many Michigan counties during the past two years and have proven one of the most popular of the

new farming methods. The meetings this year will be started as soon as the alfalfa crop is in the proper stage of growth.

County agricultural agents in the counties have selected the farms where the meetings are to be held and will set the time for the demonstrations in their counties.

Why pay more than Buick's price for less than Buick performance?

Motorists who can afford to pay almost any price for an automobile are buying more than twice as many Buicks as any other car priced above \$1200.

Men who can afford to pay almost any price they desire for a motor car are testing Buick and discovering an order of performance never before known . . . with the result that they are buying more than twice as many Buicks as any other car priced above \$1200!

With Buick superiority so obvious and outstanding as to result in two-to-one countrywide preference, you, too, should investigate thoroughly

before you buy any car. You, too, should seek the guarantee of lasting satisfaction which searching test on the road alone can provide!

Come to our showroom! Arrange to drive a Buick! Prove its absolute mastery over street, highway and hill. Compare every element of performance with other automobiles. Then you'll know that you, too, should have a BUICK!

Kelvinator Greetings Dropped From Skies

Greetings from Detroit officials to representatives of the nation's electric light industry, in convention at Atlantic City, were dropped from the skies in a Kelvinator electric refrigerator by Eddie Stinson, veteran pilot, and president of the Stinson Aircraft Corporation who flew in one of his own monoplane to the convention from Ford Airport last week.

The National Electric Light Association convention at Atlantic City was part of the nation-wide celebration which is taking place throughout the year to commemorate the invention by Thomas A. Edison of the electric light, half a century ago. Because a great number of the exhibits at the convention, including Kelvinators, were Detroit-made products and because of Henry Ford's work in creating at Dearborn, an Edison Memorial museum, a concerted effort is being made by Mayor John C. Lodge and various Detroit civic organizations to bring the next convention of the N. E. L. A. to that city.

Stinson was elected to carry the message of Mayor Lodge and the civic heads when it became known that he had undertaken to fly Campbell Mitchell and Lyle Hutton, both of the Kelvinator Corporation, to the

convention. As they were carrying their oil of Kelvinator's new models, it was decided to place the messages in the refrigerator and drop it into the suit at Atlantic City. The refrigerator, containing the letters, was placed beneath the fuselage of the monoplane and was cut loose as the plane swooped low over the breakers. It was picked up safely a few minutes later by coast guards and its contents were delivered intact and dry to their destination.

The plane was equipped with broadcasting apparatus and as it passed above towns and cities on its trip, music was broadcast together with the name of the plane and its destination.

FROSTING does not make the cake

The best frosting won't make a poor cake good. But it will make a good cake better. Ethyl fluid can't make a poor gasoline good. It takes the best, crude and proper refining to make a good gasoline. Ethyl added to proved dependable Red Crown makes the best gasoline you can buy!

there is only ONE
RED CROWN
ETHYL

You have known Red Crown gasoline for many years. You have proved Red Crown Ethyl gasoline for five years. They are known quantities with the Standard Oil Company (Indiana) back of every drop.

You have no way to test gasoline! You can hear the knocks but you can't see what causes them.

Poor gasoline may look like the best. You can't see the gums and the sulphur in it—but if they are present they are sure to damage your car.

Gums clog the pipes—form on valves—and valve heads do not seat properly. Sulphur causes acid—acid eats wrist pins and cylinders—and you pay for repairs.

To clear up gasoline, to take out sulphur, to eliminate gums, to make it sweet and clean are expensive processes. To insure this being done is why there is a minimum price you can afford to pay for gasoline. Red Crown is sold at that minimum price. You cannot afford to pay less!

If you'd like to know what your car can do, use Red Crown Ethyl. Try it on the longest run, in the heaviest traffic, up the steepest hill. At the wheel you can feel the difference Red Crown Ethyl makes.

You can get Red Crown Ethyl anywhere in the Middle West and the price is only 3c above Red Crown—which in turn is sold at as low a price as you can afford to pay.

Marquette

BUILT
BY
BUICK

Body by Fisher

"A GREAT PERFORMER!"

The motoring world has already endorsed the Marquette as "a great performer!" And no wonder—10 to 60 miles an hour in 31 seconds—over the top of a long 11.6% grade at 25 miles an hour, starting at 5 at the bottom—all in high gear! (The average road grade is 7%). 68 or 70 honest miles in comfort! There isn't a phase of performance where it can't show a clean pair of wheels to every car in its price class.

One word can say most about the Marquette—it's "VALUE." The Marquette with the latest Bodies by Fisher is America's most complete moderate-priced car. Throughout this great new six—in every feature, from bumper to bumper, from top to tread—there is more quality than seems possible to put into a car at the price. But it is there, because Buick knows how to build an extra margin of out-and-out goodness into all its products. Drive the Marquette and you're bound to say, with all the others, "A great performer!"

Cen-Pe-Co Super-Refined Motor Oils

The Cen-Pe-Co Line of Motor Oils has established a nation-wide reputation among auto, Truck and Tractor owners. We are specialists in all types of gas engine lubrication—and as such are able to offer a service to the motor owner that he is unable to obtain elsewhere.

Cen-Pe-Co Auto Oils Are the Finest, Most Select Line of Auto Lubricants on the Market!

Special attention is given to the refining of these oils, with the result that they will give better lubrication, gallon for gallon, than any other oils the auto owner can buy. Nine out of ten motors go to the scrap heap years before their time due to improper lubrication. A motor lubricated with the right grade of Cen-Pe-Co Oil will last for years with practically no wear.

Every Auto Owner Is Looking for Good Oil

The cost of oil compared to the other costs of operating a car is so small that no one can afford to economize on oil. Poor oil is expensive at any price.

Michigan Theatre Installs New Talkies

The Michigan theatre is announcing the introduction of the talking and sound pictures in Ann Arbor starting Sunday, June 16th. The theatre is completely equipped with Western Electric equipment, utilizing both Vitaphone and Movietone productions. It is the largest installation in Michigan outside of Detroit, employing the same mammoth de lux amplifying and reproduction apparatus as characterizes the metropolitan theatres.

The opening picture will be the much talked of "Weary River" with Richard Barthelmess singing and talking his way into the hearts of all his auditors. The picture ran many weeks in Detroit to capacity houses, and still holds the second longest run of that city. Sound reels, synchronized short features and Rob Howland in person at the Grande Organ are also as permanent features of the new policy.

The theatre has added to their cooling plant, and are now equipped to keep the theatre at 70 degrees during the hottest weather outside. The Michigan is also announcing a price sale ranging from 10c to 50c. Elsewhere in this edition will be found their schedule and policy.

Women Travel Far All In One Place

The old-fashioned treadmills which derived their power from the continuous walking of animals which never got anywhere have been discarded but housewives still go on extensive walking tours which never take them beyond the kitchen, according to statements by Michigan State College home management specialists who accompany a traveling kitchen built to show methods of saving steps.

A rearranging of the position of kitchen equipment sometimes saves mothers the task of walking hundreds of additional miles each year. One woman walked 250 miles while doing household tasks one month.

Kitchen equipment is often large and the working equipment is usually placed to look well instead of being grouped to save steps. When a distance of several steps separates the stove, the work table, the sink, and the cupboards, the labor of preparing family meals is increased unnecessarily.

The model kitchen which is mounted on a truck has been arranged to enable the work to be done with the least possible steps. Lighting systems, water systems, and a complete bathroom are also carried on the truck which will visit many Michigan counties this summer.

Counties which will be visited are

Gladwin, Bay, Arenac, Iosco, Alcona, Oscoda, Alpena, Presque Isle, Cheboygan, Ogemaw, Montmorency, Crawford, Roscommon, Ogemaw, and Clare.

a Low Price
and not Sacrifice your pride**

When you familiarize yourself with low-priced cars in general, simple logic tells you the newly-refined Plymouth is the car for your money.

JUDGMENT calmly says, "Plymouth is the only low-priced car which has the modern style of Chrysler designing or the thrilling performance of Chrysler engineering."

PRIDE says, "Plymouth is the roomiest and most comfortable of all low-priced cars—a car you can invite your friends to ride in without having to make any excuses."

CAUTION says, "Plymouth is a safer car to drive. It has full-size ruggedness and stability. It is the only low-priced car possessing weatherproof internal-expanding four-wheel hydraulic brakes."

THRIFT says, "Plymouth costs so phenomenally little to maintain and operate."

WISDOM, summing it all up, says, "Buy a Plymouth. It is the greatest value in its field."

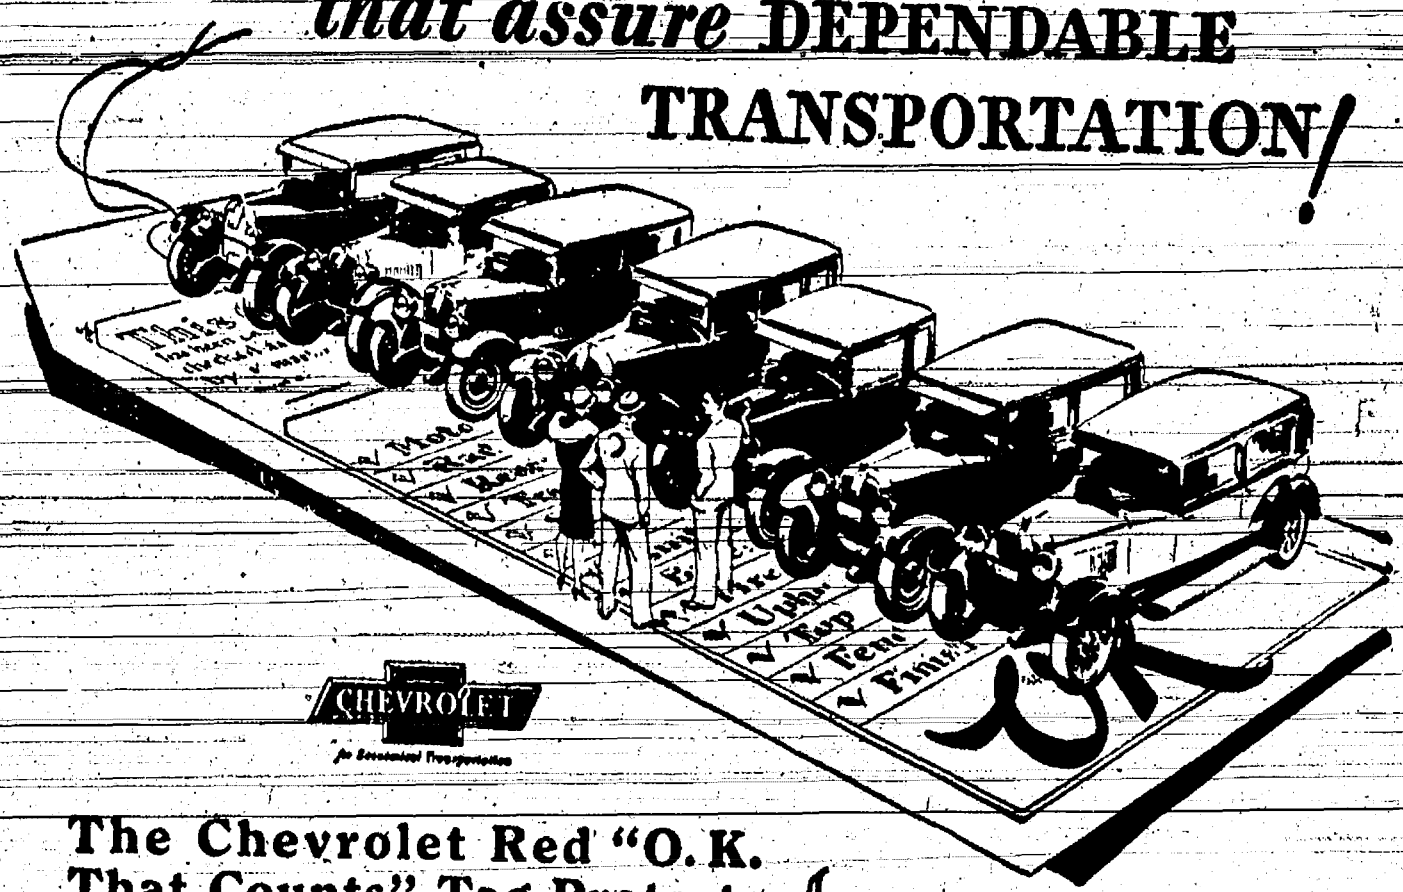

Six body styles, priced from \$555 to \$695. All prices f.o.b. factory. Plymouth dealers extend the convenience of time payments.

Flag Day Proclamation

By the Governor.

Our flag is a symbol of all that is good and great in our national life. One hundred and twenty-one years have come and gone since this national emblem was unfurled before a people seeking equal opportunities and liberation from a foreign power. It reflects the glory of the past and the hope of the future. It is not only the flag of our fathers but it is the flag of our children and the flag of generations yet to come.

It is indeed fitting that a day should be set aside on which to place unusual emphasis upon the ideals which our flag represents.

By virtue of the authority vested in me as Governor of the State of Michigan, I hereby proclaim Friday, June 14, 1929, as Flag Day and urge that the flag be displayed wherever possible and that schools and other organizations conduct exercises in an effort to instill into the hearts and minds of the rising generation the proper respect for the emblem of our national life.

FRED W. GREEN,
Governor.

BASE BALL DOPE

Games played during the last week resulted as follows:

Thursday—C. R. C., 14, Methodists, 8.

Friday—Masons 6, I. O. O. F. 5.

Monday—Congregationalists 7, C. R. C. 3.

Tuesday—I. O. O. F. 8, Methodists 2.

Wednesday evening (the game scheduled for tonight, but played last evening on account of Class Day exercises)—St. Paul's 14, C. R. C. 7.

The ratings of the several teams now stands:

Team	Won	Lost	Pct.
I. O. O. F.	5	1	.833
Masons	4	1	.800
Methodists	4	2	.666
C. R. C.	2	4	.333
Congregationalists	2	4	.333
St. Paul's	1	4	.200

Games to be played the coming week are as follows: Tuesday, June 17—Masons vs. C. R. C., Tuesday, June 18—St. Paul's vs. C. R. C.

If the Masons should defeat the I. O. O. F. team Monday evening they will be tied with the I. O. O. F. for first place in the first series games and the game to decide the winning team will be played Thursday evening.

There will be no games tonight or Friday night, tonight's game having been played last night and Friday's game being postponed to Monday night on account of the Alumni banquet.

The second series game will start Tuesday, June 25, the first game of that series to be played between the Congregationalists and Methodists.

Fred Rehwert of the St. Paul's team has the honor of making the only home run so far this season in the Twilight League. Wednesday evening he clouted the ball over the right field fence, which gives him the honor of "Home Run King."

The annual convention of the Michigan State Music Teachers' Association will be held in Grand Rapids, June 25, 26, and 27. Headquarters will be at St. Cecilia Building, 201 Ransom Avenue, N. E.

The officers of the organization are: President, LaVerne Brown, Detroit.

Vice-president, Marguerite Colwell, Grand Rapids.

Secretary, Wm. E. Engel, Detroit.

Treasurer, Mrs. Homer E. Malsiden.

Executive Chairman, Mrs. Helen Baker Rowe, Grand Rapids.

Publicity Chairman, Marie Eastabrook, Grand Rapids.

Programs will be given by talent from Detroit, Lansing, Battle Creek, and Grand Rapids, and there will be round table discussions led by well known musicians—Mr. Karl Wecker, violin; Mr. Arthur Farwell, piano.

These will be of special interest to all musical folk.

A cordial invitation is extended to every music teacher in the state to become a member of this association, and attend these meetings.

Litigation For State Park Tract Ended

In circuit court at Adrian last week Herman O. Hane was awarded \$35,000 for the 86.1-2 acres of land adjoining the Cedar Hill state park enlargement. Taking in an addition of 210 acres the state conservation department officials were unable to come to agreement with Mr. Hane on the 86.1-2 acre tract owned by him on the southeast side of Wampplers lake. The tract has 110 feet of frontage on the lake and lies between the lake and U. S. 112.

This State had offered \$30,000 for the tract, and had been asked \$125,000 by Mr. Hane. Because of wide variation of estimates on the value of land considerable interest was aroused. The state tax commission representatives about three years ago appraised the land at \$10,000, but all estimates in the condemnation suit were at higher figures. Larry Miller of Clarks Lake estimated the tract to be worth \$60,000, and some city real estate men placed the value at higher figures. The jury evidently took into consideration the price at which other tracts

in the locality had changed hands and placed the figure at \$35,000.

A cement highway from U. S. 112 leading through the tract and through the park leading out to meet the Brooklyn-Wampplers lake road has long been surveyed, but has been held up pending the settlement with Mr. Hane.

American industry is moving in high gear just now. Reports gathered by the Central National Bank of Cleveland indicate a record-breaking rate of production, with the combined output of all the nation's factories averaging some 8 per cent higher than a year ago.

PIONEER SOCIETY MEETS

At a meeting of the Washtenaw County Pioneer Society held Tuesday afternoon in the courtroom, Ann Arbor, a resolution was passed authorizing a change of name and it will be known at the Washtenaw County Historical Society. Articles of incorporation have been forwarded to Lansing and an adjournment was taken until June 28, at which time election of officers will take place. The Pioneer Society was organized August 16, 1876, and incorporated February 2, 1876. O. C. Burkhardt, treasurer of the society, and one of the seven surviving members was present at the meeting.

Three Glasses Water Helps Constipation

One glass of water is not enough—take three glasses one hour before breakfast. Much better results are obtained by adding a teaspoon of simple glycerin, saline compound (known as Adierika) to each glass. Adierika acts on BOTH upper and lower bowels and removes old waste matter you never thought was in your system. Stops gas and sour stomach in TEN minutes. Relieves constipation in two hours. Henry H. Fenn, Druggist.

Within Arm's Reach

In the most modern homes you will find a telephone conveniently near you wherever you may be. The old time reception hall telephone is retained, but, in addition, extension telephones are placed in the bedroom, library, guest room, kitchen and bathroom, and even the bathroom.

A telephone makes any room more livable. You may use it not only to talk to near neighbors and distant friends, but the installation can be made so that it will be possible to telephone from one room to another within your home.

Extension telephones are inexpensive conveniences which are becoming more and more popular. There are portable telephones, too, that can be moved from room to room.

We will be glad to have a representative explain to you just how these modern telephone facilities can be applied to your own home, at moderate cost. Call the Telephone Manager.

A Sweeping Success because it offers Big Car Qualities for only \$745

The New Pontiac Big Six is a sweeping success—an even more pronounced success than its famous predecessors. And it owes its success largely to the fact that it offers big car qualities at low prices. Oakland produced this car to enable progressive people to step up in motor car quality without leaving the low-priced field. And the very people for whom it was created have made it an impressive sales success.

Pontiac Big Six, \$745 to \$895, f.o.b. Pontiac, Michigan, plus delivery charges. Bumpers, spring covers and Lovjoy shock absorbers regular equipment at slight extra cost. General Motors Time Payment Plan available at minimum rate.

Consider the delivered price as well as the list price when comparing automobile values. . . . Oakland-Pontiac delivered prices include only reasonable charges for handling and for financing when the Time Payment Plan is used.

THE RELIABLE KELVINATOR

New Silence New Convenience in the modern Automatic KELVINATOR

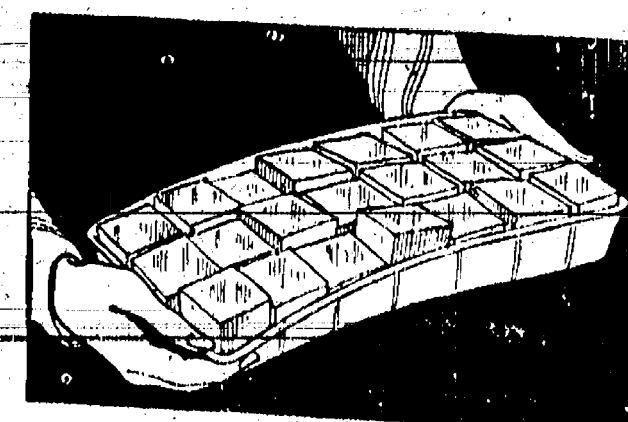

SO amazingly quiet are the new 1929 Cabinet Kelvinators that you can stand alongside them and never dream they are running. Yet silence is just one of their many exclusive advantages.

Kelvinator, for example, features the Cold Keeper, a wonderful economy factor which acts as a constant reservoir of cold—requiring less frequent starting and stopping of the Kelvinator electric power unit.

Kelvinator is fully automatic—maintaining correct temperatures for food preservation, and for rapid freezing of

desserts, salads and ice cubes, winter or summer. No regulating or attention is necessary on your part.

The new Silent Kelvinators reflect in appearance and embody in craftsmanship, the experience of 15 years devoted

exclusively to automatic electric refrigeration. See them today. The most beautiful of finishes—many in color—and priced so moderately as to meet refrigeration problems in every home. Why not enjoy your Kelvinator at once? It can be placed in your home immediately on Kelvinator's convenient ReDisCo monthly budget plan.

A New Kelvinator Convenience
The new Silent Kelvinator is first to offer as standard equipment the rubber tray for quick removal of ice cubes. Frozen in this flexible rubber tray, the ice cubes can be removed in a few seconds—without trouble, without shrinkage of ice, many minutes saved daily.

Club Members Meet At Half Moon Lake

June 8, 1935, will be a long-remembered as a banner day in Washtenaw county Jersey Cattle club history. The members, and their families, of the Washtenaw County Jersey Cattle club enjoyed their annual summer meeting and picnic at Glenbrook stock farm on Half Moon Lake, owned by E. C. Glenn. Mr. Glenn's farm consists of 1800 acres of picturesque country surrounding Half Moon Lake in Lyndon township, Washtenaw county. He has just completed a unique dwelling house built of tamarack logs, all of the material used in the house coming from his own land except the hardwood floors. There is a large barn, 100 feet long on the farm. Those in attendance arrived in time for a basket dinner on the shores of the lake. After this picnic dinner the cattle club held a short program. Mr. H. E. Deunison, field man of the American Jersey Cattle Club was the special speaker. The remainder of the afternoon was spent in recreation. Ball games, boating and swimming being the chief attractions.

Mr. Glenn's hospitality in entertaining the Washtenaw County Jersey Cattle club will long be remembered by those fortunate enough to be able to attend.

Seniors Tell About Washington Trip

(Continued from front page.)

dedicated to the pioneer women of the covered wagon days, and Braddock's monument where Washington read the funeral sermon. We entered the state of Maryland a little later and it was now that the burnt rod in the bus occurred (really, the bus didn't burn). Around 8:00 o'clock we arrived at the Hotel Fort Cumberland, tired and happy.

Sunday: An early start and many interesting things. We crossed the Mason-Dixie Line, and now the scenery became more and more wonderful to us who do not often have the opportunity of traveling in the mountains. In Frederick, Maryland we saw the house of Barbara Fritchie, also her grave, and that of Francis Scott Key. Our first evening in Washington was spent at the Congressional Library—said to be the most wonderful building in the world. The ceilings are very elaborately decorated in gold leaf. We went through the reading rooms for the Senators and Representatives, the newspaper room where the leading papers of the United States are kept, we also went up into the Rotunda to view the famous statue and the main reading room below, we passed through the art rooms, the old manuscript room, and saw the original copies of the Declaration of Independence and the Constitution.

Monday: Arlington—the cemetery, the grave of the unknown soldier of the World War, and also the common grave of the unknown dead of the Civil War, numbering two thousand one hundred and eleven. Sheridan's grave, the monument and anchor of "The Maine", the historic mansion of the Lees—all this kept us bewildered until noon, when we came out of our trance, had lunch and then departed for Alexandria where we visited Christ Church where Washington and Lee attended and also its ancient churchyard, the Masonic Lodge where Washington was worshipful master, the ancient Carlyle House where Braddock and Washington planned the French and Indian war. From here we journeyed to Mt. Vernon where we saw the home, the tomb, and went down to the pier, and through the gardens.

Tuesday: Having to leave Mr. Clark behind at the hotel, Mrs. Clark proved her ability as a guide. We visited the Capitol—the most wonderful, because it really belongs to us all. We went through the postoffice buildings, and the union station. In the afternoon

we visited the Bureau of Printing and Engraving, some of us whose money was fast disappearing looked longingly at the procedure of making paper money. Here we also saw them make postage stamps. Words can never express the beauty of the Pan-American building, likewise the beauty and impressiveness of the Lincoln Memorial. The Art Institute also proved interesting. This same afternoon we visited the Mt. St. Alban's Cathedral. This cathedral is being built by individual contributions, and when completed it is to be the National Cathedral and the sixth largest in the world—it is here that President Wilson and Admiral Dewey are buried in the Bethlehem Chapel. On our tour of the city, history was recalled to us when we passed the Ford Theatre—it was exactly as we had pictured it to be. At night we went to the Earle Keith Theatre where we saw "Innocents of Paris", a talkie.

Wednesday: For days we had been watching Washington's Monument from a distance, waiting patiently until we might climb those steps, more steps. By the time we reached the base of the monument the elevator looked mighty good to some, while others walked both ways. We spent several hours at the Smithsonian Institution where we saw Lindy's plane "The Spirit of St. Louis" and the Evolution of Travel. In the new Smithsonian we saw a great variety of animal and human life, as well as a display of the geologic past. While at the White House seven of our party were fortunate to have the honor of shaking hands with President Hoover.

Thursday: On our way out of Washington we stopped at the Botanical Gardens to have our pictures taken. Then we reluctantly left Washington behind and our first stop was in Annapolis where we saw the old State House where Washington resigned his command of the Continental Army. We also stopped at the Naval Academy. As it was graduation day, the graduates in their white uniforms and the guests in their lovely clothes presented a very pleasant picture. At Wilmington, Delaware the same road burned again—this time we took two buses into Philadelphia, arriving a little late but (most of us have been out this late before at home). We stayed at the Benjamin Franklin while here.

Friday: We left the hotel early in the morning, first going to the old State House where the first government under the Constitution was established. We also saw the first Senate and the House of Representatives rooms, also the Liberty Bell. At the Curtis Publishing Co. we saw the largest mosaic in the world—forty-nine feet long, fifteen feet high, it is made up of one million pieces of colored glass and is called the "Dream Garden". It is by Max Parrish. In the afternoon we took a tour of the city, we saw where the first flag was made, we visited the United States Mint and watched them make the various coins, we saw the new single span suspension bridge which joins Trenton, N. J. and Philadelphia, also we visited the John Wanamaker Dept. Store.

Valley Forge—The Chapel which was called by Wilson, "The Shrine of the American People" is said to be the most beautiful Gothic Chapel in existence. The National Birthday Bells chime out each hour and at sunrise they play the "Star Spangled Banner" at sunset, "America". The Chapel and the service held there were very impressive. From Valley Forge to Lancaster we saw many old colonial homes.

Saturday: We left Lancaster and drove to Gettysburg. Here the old guide made the stirring scenes of that decisive battle relive for us. We visited the spot where Lincoln delivered his famous "Gettysburg Address". We just touched the outskirts of Harrisburg, taking the famous Susquehanna River Train to Williamsport. On our way we saw some of the old river boats.

Sunday: We left Williamsport early and drove to Wellsboro where the most of us partook of an old-fashioned chicken dinner. From Wellsboro we drove to Erie—where we spent our last night of the trip at the Lawrence Hotel.

Monday: Leaving Erie early, we moved on to Cleveland where we stopped for lunch. We crossed the border into Michigan around 8:00 o'clock and everyone around (deaf or not) could not help but hear the rousing cheers we, tired and happy folks, gave.

Chester—and such a welcome! No royal personage ever received one so great. All during our trip our bus was a great attraction. Our drivers were pleasant and most efficient—there was never a time on the trip when one could have been alarmed by the driving.

The hotels, too, were of the finest and were an education in themselves. Those eleven short days came to an end all too quickly and it seems very much like a dream.

You who have never experienced this trip will never know what it is like for it is impossible to try to explain, there are not words wonderful enough to describe even a small portion of it.

It was well worth the year of work for it has changed a number of us and we realize, as we never did before, what a wonderful nation we are a part of. That is why we are putting

forth all our efforts to boost this wonderful experience for next year's class—the Class of '36.

PILOT INJURED IN CRASH
Clarence A. Guenther, 21 years old, of Belleville, a nephew of Mrs. W. D. Huston of this place, was seriously injured last Saturday when the plane he was piloting crashed at the Stinson airport, near Wayne. Guenther, who was flying alone, was taking the large cabin plane, which belonged to Cliff Durant, son of W. C. Durant, automobile manufacturer, from the Ford Airport to the Stinson field when the accident occurred. The injured man was taken to Eloise hospital and later removed to Harper hospital where his condition is regarded as very critical.
