Third Boxing Show Of Season Monday

The next boxing show will take place at the usual place, the Sylvan town hall, Monday night, October 7, at 8:30. This is the third show of the season, and the promotion of these events guarantees the boxing fans of the community that they will be well pleased with the next card.

Boys from Ypsilanti, Saline, Ann Arbor and a select few from Chelsea will participate. The main event will be four rounds, between Bruce Gordon of Saline, light heavyweight champion of M. S. N. C. for two consecutive years, and Merrill Richards, challenger of the last fight. Richards has copied the title at Camp Grayling for the past two years. This bout certainly should be a thriller, because both boys are confident of a victory.

From Saline there comes a German lad who holds a title in the German Army during the World war. His opponent will be a lad from Ann Arbor, a sparring mate of Richards. The other four bouts will be equally as interesting to witness. Curly Van Gieson, a clever in-experienced boxer, is coming along nicely and with a little more training, he will stand up with most anyone his weight. Others in the card will be men such as the shifty chap, and the German boy, Karl Reigger, who has improved considerably since the last show.

Prizes will be awarded to the winners; this being the rule of the amateur standing.

Churches To Conduct United Training School

Dr. G. E. Carrothers, director of the division of high school inspections of the University of Michigan, has been chosen dean of the community leadership training school which will be conducted for six weeks in Ann Arbor beginning October 14th. The school will be held under the joint auspices of Ann Arbor churches.

Courses of study in "New Testament," "Sunday School Administration," "Study of Childhood," and "Principles of Teaching" will be offered by the school, which will be open to all Sunday school teachers and officers, and religious workers of the community who care to enroll.

It is announced that the Rev. Henry Lewis will be the instructor in "New Testament." Dr. E. W. Halpenny, of Lansing, general superintendent of the Michigan Council of Religious Education, will be in charge of the "Administration" class. Miss Ruth L. Bristol, supervisor of elementary education in the Ann Arbor public schools, has been secured to give the course in "Study of Childhood." Dr. Carrothers will present the "Principles of Teaching."

Mrs. E. A. Byrum, of Ann Arbor, superintendent of the Washtenaw County Children's Division, has been appointed registrar of the school, and will be in charge of the registrations. The committee of ministers in charge of making the arrangements for the training school is composed of Rev. H. R. Chapman, Rev. S. L. Harrison, and Rev. R. N. McMichael.

It is stated that the school will be under the official jurisdiction of the State Council of Religious Education, and full credits will be given for all courses completed, both toward state and denominational leadership training certificates.

The first session of the school will be held on Monday evening, October 14th, and will continue for two hours each Monday evening for six weeks. A preliminary banquet is being planned for October 7th.

Blimp Is Seen By Many Local People

Many local residents witnessed the flight of the Goodyear dirigible, Puritan, over Chelsea last Friday when it was returning to Detroit after making a flight to Lansing and Grand Rapids. The blimp, which is more than 100 feet in length, passed over a short distance north of Chelsea but was clearly visible. It cruised over Ann Arbor and returned to the Detroit base, returning to Ann Arbor Monday when several city and University officials were treated to a ride over the city.

CHELSEA GIRLS HONORED

At a freshman class meet Tuesday night at the School of Nursing, at St. Joseph's Mercy Hospital, Ann Arbor, Gertrude Forner of Chelsea was elected vice president of her class. Leah Schanz, also of Chelsea, was appointed a member of the social committee for the year.

A CORRECTION

Through an error, the name of Edwin Barth was omitted when the list of graduates of the class of 1929, Chelsea high school, who are attending college was printed in our issue of September 19. Mr. Barth is attending the State Normal at Ypsilanti.

EXPRESS OFFICE IS MOVED TO MICHIGAN CENTRAL RY. STATION

A. E. Winans Has Conducted Office 33 Years; Wesley Smith Is New Agent.

G. E. Gardner of Detroit route agent for the Railway Express Agency, was in Chelsea on Wednesday making final arrangements for removal of the company's office from the store of A. E. Winans & Son to the Michigan Central railroad station on Jackson street.

According to Mr. Gardner, the change has not been made because of any dissatisfaction in the conduct of the office under the management of A. E. Winans. Mr. Winans has had charge of the express business here for the past thirty-three years and has always discharged the duties of the office in a courteous and conscientious way.

Mr. Gardner stated that since acquisition of the Railway Express Agency last March by the combined railroads of the country, it has been their policy to bring about the merging of express and ticket offices where the proposition is at all feasible, and because of the nearness of the Michigan Central station to the business district, it is thought that the new plan will be very satisfactory here.

Wesley C. Smith, Michigan Central Station agent is now taking care of the office work for the express company, starting this morning. B. H. Chamberlain, who has had charge of the delivery for the past several years, will continue in that capacity under the new management.

A Proclamation By the Governor

For some years past it has been the custom to inaugurate a campaign of education and action for fire prevention, with the view of reducing the great unnecessary fire losses which cause an enormous destruction of property each year.

The time designated for this commendable undertaking is the second week in October of each year, therefore as Governor of Michigan I proclaim the week from October 6th to October 12th, 1929, Fire Prevention Week.

The work which will be accomplished during that period will result in a great saving of life and property, therefore it is essential that it be given the cooperation which the movement deserves. It should be observed in cities, villages, and rural communities to the fullest extent.

Heretofore there has been a lack of extending fire prevention week activities into the rural districts where it is so much needed. A scattered population, numerous buildings grouped and no means or apparatus for fighting fire, the farmer is quite helpless in case his buildings take fire, facing the complete destruction of his accumulations of years. Therefore, it is hoped that the work may this year be extended into the rural districts.

Great benefits would follow in the years to come if teachers in rural schools would instill in the minds of the growing pupils the most common dangers of fire on the farm, and how to combat them, with the suggestion that they closely watch for fire hazards, that their parents be advised and the property made safe.

With the near approach of time for the starting of heating plants, furnaces, stoves, pipes, chimneys, etc., should be placed in safe condition, rubbish removed and burned, all combustibles, gasoline, oils, paints, varnishes, etc., should be safely stored.

The marked interest shown by the Michigan Fire Chief's Association, in their efforts to make Michigan safe from fire furnishes an example of what may be accomplished by other similar organizations.

Through the united action of the citizens of our state, it is hoped that we may be able to continue to decrease the great unnecessary fire waste.

Given under my hand and the great seal of the State this twelfth day of September, in the year of our Lord one thousand nine hundred and twenty-nine, and of the commonwealth the ninety-third.

FRED W. GREEN,
Governor.

GUEST OF PARENTS

Lieut. Herbert D. Vogel of Memphis, Tenn., was a guest today at the home of his parents, Mr. and Mrs. L. P. Vogel. Lieut. Vogel who was a former Chelsea resident recently returned from Europe where he spent the past year on an observation tour of European laboratories.

Working under the Flood Control Plan of the Mississippi river he is now making an inspection trip for the purpose of observing methods in American hydraulic laboratories to aid in the construction of a laboratory at Memphis which will solve the problems relative to the alluvial basin of the Mississippi. Mr. Vogel will have charge of this laboratory.

Parent-Teacher Ass'n Observes Men's Night

The Parent-Teacher Association of School District No. 7 observed "Men's Night" at their monthly meeting held Friday evening at the home of Mr. and Mrs. John M. Heselischwerdt in Sylvan township. About 60 were in attendance.

The evening's entertainment consisted of old time songs by Henry Orthing, Sylvester Weber and Louis Grossman, with Mrs. E. S. Kennedy as accompanist, the songs being impersonated as follows:

"Comin' Thro' the Rye"—Herman Weber and Edgar Orthing.
"Old Black Fox"—Clyde Lasslet.
"Long, Long Ago"—George Steele and John Heselischwerdt.

"When You and I Were Young, Maggie"—Leon Chapman and Reuben Grieb.

Following the program, progressive euchre was played. Mrs. Herman Weber and Homer Townsend, receiving high honors and Clyde Lasslet consolation. A pot luck supper was served.

Ball Players Honored By I. O. O. F. Lodge

About forty members of the local I. O. O. F. Lodge were present at the stag party which was held in their hall Tuesday evening, honoring their ball team which won the pennant in the Twilight Ball League this season. A sumptuous banquet was served at seven o'clock by men of the Lodge, Bert Gray, Rha Alexander and John Fuber being the committee in charge. A special table was arranged for the ball-players of the Lodge and officials of the League who were guests at the affair.

Following the banquet, Clarence McHride, manager of the Odd Fellow ball team, acted as toastmaster and called upon members of the Lodge and officials of the League for short talks, and gave a short summary of results of games played by the team. The Odd Fellow team scored a total of 99 runs and their opponents 56 runs in the fourteen games played. Only two games were lost by the team.

Fellowship Club Will Hold Meeting Tuesday

The Fellowship club will hold its first meeting of the new conference year at the Methodist church next Tuesday evening, October 8. Pot luck supper will be served at 7 o'clock. Reorganization and election of officers for the coming year will be followed by a program of good music and speeches. All men of the church are cordially invited to attend this meeting.

N. W. Laird Injured In Fall From Ladder

N. W. Laird sustained a fractured collar bone and three broken ribs while picking apples Monday forenoon at his farm in Sylvan, when the ladder he was standing on broke, throwing him several feet to the ground. He was taken to Ann Arbor for X-ray examination.

E. E. Rowe is assisting Mr. Laird with his farm and orchard work.

Intellectual America

Valuable Lives

Mexican News, Good, Bad

All About Strange Man

Intellectual Americans paid \$300,000 to see Mr. Tom Loughran fight Mr. Jack Sharkey, a Lithuanian who borrows his fighting name.

The gentlemen, who are "heavyweights" in more senses than one, fought three rounds. Sharkey won. Mr. Loughran "technically" knocked out.

The same crowd will pay \$300,000 more later to see them fight three more rounds, with Mr. Loughran winning.

After that will come the deciding match. Sad, dull days for those who crave brutality.

Of all big business, life insurance is biggest. Frederick H. Becker, president of the Metropolitan Life Insurance company, predicts an increase in life insurance from one hundred to two hundred billions by 1940, while discussing problems involved in the investment of fourteen thousand million dollars, held in trust for policy holders.

Two hundred billion dollars' insurance on the people of the United States seems gigantic. But it averages less than \$2,000 per inhabitant. It's a poor American that isn't worth more than that.

Two pieces of Mexican news are good, one bad—for Mexico's people. With excellent intention, Mexico is helping to let Mexican labor take itself by its own bootstraps. What is the bad news?

Employees living more than twenty miles apart make collective contracts with all.

An employer for any reason letting men go, even closing down for lack of business, must continue paying wages for three months.

Such laws, if established, would drive capital and prosperity out of Mexico. It would upend the only automobile factory in Mexico, which belongs to Henry Ford.

Mexico's good news tells that the number of her schools has doubled within a year. The government plans public school education for every child, on the American plan.

Man is a strange animal. David Bernstein, Brooklyn tailor, deliberately killed a man against whom he held no grudge, pushing him on an elevated railroad platform in Brooklyn. No one saw him. He confessed to the police.

Insane, probably. The lawmaking machinery of New York decided to kill Frank Plata in the electric chair. Acute appendicitis threatened the electric chair program. A good surgeon, hired at public expense, restored Plata to the death house. "Out of kindness," he is allowed to play cards with his partner in crime, Michael Scalfoni, a wall representing them.

Strange use of science, killing men by electricity, saving their lives by surgery that the electricity may kill them, treating them kindly while waiting for the chair. A cat does no worse with its mouse.

Earth's 1,800,000,000 people are not QUITE CIVILIZED YET. Further details concerning the massacre of 9,000 Mohammedans by Chinese in Kansu province show that the human race has still some distance to travel.

Of late Mohammedans had been murdering Chinese. Then came famine, most desperate, among the Mohammedans, who were invited by Chinese officials to come to Paochow for a conference, with promises of roasted barley.

When they came, men from fifteen to fifty were separated from the women, taken outside the walls and "3,000 of them butchered like sheep." When they saw that they were to be killed the Mohammedans asked no mercy. After the famine the Mohammedans will doubtless murder ten or twenty Chinese for each Mohammedan killed in the massacre.

No it goes among human beings, most cruel and blood-thirsty of all animals.

Senator Frank says that President Hoover "must go through to the end

and assume responsibility for the tariff." That new view of the President's duty interests Mr. Hoover and the people.

The old idea was that congress should write the laws, the President approve or veto them, the Supreme court interpret them.

Mr. Mussolini would agree with Senator Borah's suggestion.

Uncle Sam collected from his nephews this year \$200,000,000 more than he needs. President Hoover and Secretary Mellon are said to agree that income taxes can safely be cut.

It is said that collecting the income tax is costing the government \$500,000,000 a year, which seems a great deal. It should be possible to find a better system.

TUBERCULOSIS COSTLY

Estimates made by tuberculosis workers after the examinations of large numbers of working men and women indicate that about two in every hundred have active tuberculosis.

There are, approximately, forty million to forty-two million industrially employed men and women in this country. This would indicate that there are about eight hundred thousand active cases among American working men and women.

What the cost of this disease to industry can be barely guessed at, but it no doubt amounts into millions of dollars when one considers that practically all tuberculosis individuals are driven from one job to another, seeking always an easy job on which they might support their families and regain their health.

Estimating the turnover in industry caused by tuberculosis on conservative figures furnished by large manufacturers, officials of the Michigan Tuberculosis Association have shown that nearly twenty-million dollars a year is sacrificed by American manufacturers through the insidious disease.

Tuberculosis is even more costly to the working man and woman, however, than this money loss to employers. To the workers it means their very lives. No working family can bear the cost of a tuberculosis illness without losing much of its independence.

Estimates show that the average duration of the disease is something like three years and with a breadwinner ill it is not surprising to find that otherwise independent people are made to appeal to friends, relatives and county officials for aid when this disease strikes.

Tuberculosis still is the most deadly thing on earth to working men and women in the age period from 15 to 45. The Michigan Tuberculosis Association very wisely suggests that employers as well as employees in industry will do well to devise means for maintaining the health of the worker and for guarding against the deadly white plague.

The occasional physical examination of working men and women is probably the best safe guard against this disease since early discovery of tuberculosis is essential to recovery.

OUR JOYS

The joys of the newspaper business: Collecting material for this paper is no picnic.

If we print jokes people say we are silly.

If we don't they say we're too serious.

If we clip things from other papers we are too lazy to write them ourselves.

If we don't we are stuck on our own stuff.

If we don't print contributions we don't appreciate true genius.

If we do print them, the paper is filled with junk.

If we make a change in the other fellows' writeups we are too critical.

If we don't we are fast asleep.

Now, like as not someone will say we swiped this article from some other paper.

Well, we don't deny that 'cause we did.

Club Members Going To Represent State

Thirty boys and girl club members from Michigan will compete against youngsters from other states in the contests to be conducted at the National Dairy Show at St. Louis, Oct. 12 to 19, and at the Boys' and Girls' Club Congress, Chicago, November 20 to Dec. 6, according to A. G. Kuttunen, state club leader.

The dairy cattle judging team which will go to St. Louis will be Vedo Herbie, Delta County; Wilbur Steinacker, Livingston county; and Maxwell Kempf, Newaygo county. Hilding Williamson, Delta, is alternate to fill any vacancy on this team.

Kent's Church and Harold Woven, both from Kent county will go to St. Louis as a dairy demonstration team.

Members winning trips to Chicago include Junior Mitchell and Olyn Johnson, Midland county; handicraft demonstration; Lewis Drake, Antrim; Ralph Brown, Ottawa; and Jack Gilbert, Washtenaw county. Hilding Williamson, Delta, is alternate to fill any vacancy on this team.

The girl team members are Mary Haas, Muskegon; and Mamie Bernhardt, Ionia, Canning Judging; Carole Sturdevant, Newaygo, and Marie Pokema, Oceana, Clothing Judging; Lowan Churchill, Oceana, style show; Catherine Hakes and Louise Hakes, Calhoun, and Lydia Altman and Margaret Knapp, Chippewa, home economics demonstration.

Brighton—Thomas A. Smith of Detroit was arrested Sunday by state game warden Louis Kahl, and brought before Justice Collett on the charge of shooting squirrel near of season. Smith who had six squirrels was apprehended by Officer Kahl in Green Oak township near what is known as the James Knight farm. His car was held, also his gun and game and he was ordered to appear in court Monday. Upon his appearance he pled guilty and was given a fine of \$80 and \$10.75 costs. His gun was confiscated, also his license. He paid—Argus.

A City of
New Telephone
Buildings

IN 1926, the Michigan Bell Telephone Company entered upon the largest expansion program in its history. The intervening three years have witnessed the engineering and construction of 25 new telephone buildings and major building additions throughout the state.

Grouped together, these structures, housing thousands of telephone workers and millions of dollars' worth of equipment, would make an imposing "business city."

But this building construction represents only a portion of the extension of telephone plant by this Company during that period. Total expenditures for telephone plant expansion in Michigan the past three years were \$72,000,000, greatly increasing facilities and improving the service. This is a continuing program, for as business and social activities increase, demand for still greater telephone expansion develops.

This plant expansion and improvement would be meaningless if it were not translated into terms of service and a desire to afford increasing telephone comfort, convenience and satisfaction, and to meet the growing needs of the state.

Our policy—"To continue to furnish the best possible telephone service at the lowest cost consistent with financial safety"

Former Resident Dies In Colorado City

A clipping taken from a recent issue of the Boulder Daily Camera and sent to Mr. and Mrs. Jacob P. Aker tells of the death of Charles M. McAllister, a former resident and business man of Chelsea. Mrs. McAllister is a sister of the late Mrs. Geo. P. Glazier.

The clipping was sent by Rev. Adolph Roedel, a former Chelsea pastor and now associate pastor of the Methodist church at Colorado Springs. Rev. Roedel is a brother of the late Fred Roedel of this place and an uncle of J. F. Aker. He has been in the ministry for many years and recently celebrated his 74th birthday.

The clipping, which gives the life history of Mr. McAllister, follows:

Charles M. McAllister, 84, a resident of Colorado since 1884, died Saturday evening at a local institution after a long illness. He came to this state from Michigan to mine, and like many others, turned to farming and dairying. Through his love of horses he became a personal friend of Mr. and Mrs. J. H. Harbeck, millionaires, who resided in Boulder years ago, and for nineteen years served as caretaker for their handsome property on University hill.

Mr. McAllister was born at Monroe, Michigan, and his middle name is the same as that of his home. He was raised on a farm. In his young manhood he engaged in the hardware business at Chelsea, Mich.

In 1865 he started for Colorado, but 300 miles from Denver, turned back because of Indian troubles and an attack of the immigrant band that he was traveling with. He returned to St. Joseph, Mo., which was then the starting point of many western expeditions and of the pony express where he worked until 1867 when he returned to near Parma, Mich., where he farmed until November 1872, when he again started for Colorado—this time by train.

After two years in Colorado mining in the Russell Gulch district, he returned to Michigan and was married at Parma, March 4, 1874, to Miss Mary A. Stinson. They quietly celebrated their 55th wedding anniversary on March 4 of this year.

They came to Colorado in 1884 and lived in various mining counties of the state. He was interested in the Tiger group at Sugar Loaf for many years. Later he purchased a ranch three miles east of Boulder on the Arapahoe road which will be part of his estate along with his home at 1528 Spruce.

In 1910 he became caretaker of the Harbeck property at Twelfth and Euclid. This home, closed for many years, was opened up this summer, improved and some of the furniture given away to friends. The University is understood to be considering purchasing the house and land south of Euclid, between 12th and 18th for a dormitory site, and the half block north for fraternity houses.

Mr. McAllister joined the Masons when he was a lad in Parma, Mich., but dropped out years ago. Had he continued his membership, he once told a Camera staff member, he would have been one of the oldest Masons in the United States.

Surviving Mr. McAllister are his widow and a daughter, Lulu B. McAllister, who has shown considerable talent as a poet.

The funeral is to be held from the Kelo mortuary at 2 o'clock tomorrow with Rev. Adolph Roedel, pastor of the Methodist church at Colorado Springs, officiating. Rev. Roedel was in the employ of Mr. McAllister in the hardware store referred to in Michigan. J. A. Davis, E. C. Mason, J. T. Earl, H. A. Wallis, O. R. Shinkle and Frank Williams will be pallbearers. Interment will be in Green Mountain cemetery.

Will Study Methods Of Improving Homes

How to improve the appearance of their homes and its surrounding grounds will be the subject for study by groups of 20 people in each of 18 Michigan counties this winter under the supervision of a specialist in landscape architecture from Michigan State College.

The course of study will not be limited to theory, as each of the students is required to provide photographs and measurements of their home grounds so plans can be worked out to make plantings of shrubs and flowers to most effectively improve each one.

Three hours of each study period will be devoted to learning the reasons why plantings are desirable, how to care for the plantings after they are made, and why certain groupings of plants are undesirable. Afternoons in the course will be spent in applying this knowledge in working out plans for the improvement of the student's home grounds.

The counties in which study groups are already organized are Ingham, Branch, Cass, Kalamazoo, Van Buren, Barry, Kent, Ottawa, Ogemaw, Newaygo, Huron, Washtenaw and Tuscola.

The county agricultural agent in each of the counties is making the local arrangements for the organization of the groups.

Amazingly Low Prices and a Wonderful Selection

The rugs we offer have been carefully selected to meet the needs of this community. Every rug is of especially fine quality—a beauty in design and coloring. Yet the prices will fit your pocketbook. You will be astonished that such beautiful rugs can be bought so cheaply—way below the prices charged for the same rugs in many high-rent big city stores.

Mohawk Woven Rugs Beautiful, Durable, Economical

Mohawk woven rugs mean warm floors—quiet floors. A surface to walk upon that is soft and yielding, yet which wears for years and years. For actual cost per year of service, a good Mohawk Velvet, Axminster or Wilton rug can't be equalled. You'll find in our new rug department the widest choice ever offered in this vicinity.

On all standard sizes we can give delivery almost immediately. Rugs of unusual sizes we can order direct from mill stock and assure prompt service.

The Mohawk Carpet Mills have made possible rug departments like this in four thousand progressive stores all over America. These are being advertised widely in National Magazines for your attention. Only a great organization of the soundest policies and highest standing could have launched such a program.

Come in and see, even if you aren't yet ready to buy.

A Feeding Trial, Results of Which Are of Importance to Every Farmer

The herd of F. W. Schaeffer was fed for 60 days under the supervision of W. M. McCumsey, of the Grass Lake Farmers Elevator Company, and C. O. McVey, of the Ralston Purina Company. Feed for each cow was carefully weighed and milk produced was also recorded at each milking. The herd was carefully divided according to age and lactation period. The following letter is self-explanatory.

Grass Lake, Mich., Sept. 16, 1929.

The Grass Lake Farmers Elevator Company,

Grass Lake, Michigan.

Gentlemen:—

This is to inform you as to the results of a competitive feeding test which was conducted on our dairy farm, covering a period of 60 days, starting July 16, 1929, and ending Sept. 13, 1929. The herd of cows was divided equally, ages and lactation period being taken into consideration, also the amount of production.

The test was made for the purpose of determining which feed would produce the most milk at the lowest cost, the Grass Lake Farmers Elevator Company entering its "Dairy 20" in competition with Purina Cow Chow. The Grass Lake Farmers Elevator Company was represented in the contest by W. M. McCumsey, who supervised the feeding of "Dairy 20", and the Ralston Purina company was represented by C. O. McVey, who supervised the feeding of Cow Chow. A daily record was kept of the feed fed and the milk produced by each cow in the respective competing herds. The results are as follows:

COWS FED WITH PURINA FEED

Average age of cows, 5.2 years.

Production for period, 6,073.6 lbs. milk.

Feed used, 2,822 lbs.

Cost of feed, \$72.143.

Cost of 100 lbs. milk, \$1.187.

COWS FED "DAIRY 20"

Average age of cows, 3.6 years.

Production for period, 6,684.8 lbs. milk.

Feed used, 2,783 lbs.

Cost of feed, \$64.00.

Cost of 100 lbs. milk, \$.957.

Total milk produced by "Dairy 20"	6,684.8
Less handicap of 4 per cent	267.4
Total milk produced by "Dairy 20" less handicap	6,417.4
Total milk produced by Cow Chow	6,037.6
Difference in favor of "Dairy 20"	379.8
at \$3.14 per cwt.	\$11.925
Milk produced by Cow Chow	6,037.6
at 23c per cwt. more than "Dairy 20"	\$13.886
Total (loss on Cow Chow group of cows)	\$25.811

NOTE:—Handicap.

The group of cows that were put on the "Dairy 20" feed for the preceding 15 days produced 4 per cent more milk than the herd that was put on Cow Chow. Thus I am placing the "Dairy 20" cows under a 4 per cent handicap.

It will be noted from the above, that during the period and of feeding "Dairy 20" produced 6,684.8 lbs. of milk and Cow Chow 6,037.6 lbs. of milk, the cost of the "Dairy 20" for the period being \$.957 per cwt. and Cow Chow \$1.187 per cwt. The extra milk produced by "Dairy 20" together with the extra cost of the Cow Chow feed gives a loss of \$25.811 by feeding Cow Chow.

I hereby certify that the above figures, which are taken from the records kept by me during the period of the test are correct.

(Signed) F. W. Schaeffer.

Dexter—The big elstern at the intersection of Main and B streets which was built to hold water for fire protection, was pumped dry Saturday and will be filled with earth before the new pavement is put down.—Leader.

Grass Lake—At the Boy Scouts' meeting Tuesday evening the troupe was divided in two groups for organization of foot ball teams. Earl Sibson was chosen as leader for Grass Lake and Dorr Howlett, leader for the Leoni group. There was an attendance of 19 with Supt. Jacobs as a guest.—News.

Munith—The firm of Carley & Smith who have been in business here for many years have decided to close out their stock and retire from business.

Saline—The large "U" beams for the new bridge on Monroe street arrived last week and are being put in place. They are 45 feet in length and three feet deep. Cement pouring also commenced Monday.—Observer.

Brighton—The Marshall gas station just east of the Kensington church, on U. S. 126, near the county line road was held up by three bandits early Sunday morning. The wife of the proprietor, Mrs. Nellie Marshall, 42, was kidnapped, taken for a "ride," attacked and left to find her way home as best she could.—Argus.

Michigan Happenings

When Mrs. David M. Whitney said good-bye to her husband in New York, she never expected he would be waiting at the Michigan Central station in Detroit to greet her—but he was. As soon as the train left New York, Whitney chartered a plane and a pilot, and flew to Detroit. And when Mrs. Whitney stepped from the train the next morning there was her husband. Whitney confided to friends: "The expression on Mrs. Whitney's face when she saw me would have been worth flying to California to see."

Although a locomotive passed over her, after it had hit the automobile in which she was riding, Della Muzzy, 18 years old, of Corunna, was not seriously hurt. The girl was riding with William Murphy, 20, of Durand. As they drove onto the Washington street crossing of the Ann Arbor Railroad, in Owosso, a switch engine struck the car, hurling Miss Muzzy out. She fell between the rails and, after the engine blazed the automobile aside, it passed over her. Murphy was not hurt.

Hunting squirrels out of season cost Robert Mitter, 28 years old, and William Russell, 27 years old, both of Auburn Heights, \$25 each when they pleaded guilty in the municipal court at Pontiac. Expensive guns they carried were also confiscated. They told Deputies K. L. Philpott and Albert Ekstrom they were hunting ducks but were unable to explain the presence of a fox squirrel in their game bag or account for the use of a hound dog which accompanied them in duck hunting.

Lawrence E. Moore, 60 years old, marine engineer, known among his friends as "Tanner," was scalded to death in the engine room of the tug Charles Dunbar, at Marine City, when a steam pipe broke. He was preparing to take the tug to Chicago in the absence of the regular engineer. Moore for many years was superintendent of the water works at Marine City. He leaves a wife and two daughters, Marion and Grace.

Eugene Burgess, of Kalamazoo, 46 years old, charged with the killing of Mrs. Etta L. Fairchild, hanged himself from a shower bath pipe, in a wash room adjoining his cell in the County Jail. Burgess and his wife, Pearl Burgess, who killed the woman July 12, declared Mrs. Fairchild had "cast an evil mental influence over the family." The suicide was discovered when a prisoner in the cell block bumped into the body as he entered the wash room.

Gov. Green has confirmed the report that a site in York Township, Washtenaw County, consisting of 1,200 acres, will be recommended to the State Hospital Commission by its subcommittee as the location of the State's new psychopathic hospital. The Governor said, however, that the committee's report must be approved by the commission and later by the State Administrative Board.

Explosion of eight tank cars of oil, following a train wreck in front of the railroad station at Riverdale, caused minor injuries to a number of motorists, set fire to the railroad station, jeopardized a crew of trainmen who were dragging a string of oil cars to safety and resulted in \$150,000 loss by fire that threatened the village.

Water from the drainage system of the Michigan stadium at Ann Arbor, will be used to water the new Michigan golf course, because of inability to get it from the municipal system. It also may be used on Ferry field. The source of the water is springs in the gravel hills back of the stadium.

Bert Rents, of Kalamazoo, 33 years old, was killed when struck by a county road truck. His companion, Willie Battle, 21, with whom he was scuffling for possession of a cigaret, was seriously injured. The men ran from behind their own truck into the path of one driven by Wayne Ryder.

Frank W. Garber, chief-of-staff of the Hackley Hospital at Muskegon, is recovering from a second operation on his left hand, to halt radium poisoning. Dr. Garber, a pioneer roentgenologist, suffered from X-ray burns and resorted to radium to remove the warts. Radium poisoning resulted.

Thirty days in the County Jail was the sentence meted out in the Monroe Police Court to Henry Lois, of Pittsburgh, for stealing three bunches of grapes. Lois told the judge he took the grapes because he was hungry. He was walking from Pittsburgh to Saginaw, he said.

The Lake Superior Power Co. recently abandoned its interurban traction line between Ironwood and Bessemer. The Northwestern Motorbus Co. will operate on a half-hour schedule instead. The trolley line was built in 1911.

Frank Waggoner, living in the southeastern portion of Summerfield Township, near Monroe, raised 2,800 bushels of onion on three acres of land it was reported there. The yield was obtained on a sandy soil.

Brooklyn—Leo Steiner, proprietor of Ocean Beach on Clarks Lake three miles west of Brooklyn has been made defendant in a suit for \$20,000 as to responsible for the death of Max Allen, 17 year old son of Mr. and Mrs. Orin C. Allen of Jackson. The boy was fatally injured in falling about 25 feet from the new water toboggan installed this season at the resort. The plaintiff asserts that the proprietor was negligent and that the slide was not properly guarded. A trial by jury is asked at the October term of court. —Exponent.

ENTIRE FAMILY SINGS PRAISE OF NEW KONJOLA

Saginaw Lady Relates Splendid Experience With The New And Different Medicine.

MRS. B. MARTIN
"My entire family unites with me in giving to Konjola the most enthusiastic endorsement possible," said Mrs. B. Martin, 328 Bagley street, Saginaw, Michigan. "I had indigestion, kidney trouble, backache and my nerves were a tangled wreck. My appetite was not good; I had frequent dizzy spells and aches and pains throughout my body."

"When I had taken three bottles of Konjola, I knew that at last my search for health had been rewarded. The change that three bottles made in my condition was so remarkable that I could scarcely believe it. When I had finished the sixth bottle I was a well woman in every way. If the world knew what I know about Konjola, there would be few sick people on this earth."

Konjola is sold in Chelsea at Burg's drug store and by all the best druggists in all towns throughout this entire section. —Adv.

Grain Yields Well On Michigan Soils

Michigan small grain yields entered in the Ira H. Butterfield grain growing contest at the Michigan State Fair show that it is possible to secure exceptionally good crops on the soils of this state.

The winner in the wheat class was C. D. Finkbeiner, Saline, with a yield of 46.9 bushels of Red Rock wheat per acre on an eleven acre field. The prizes in the contest are decided on a basis of the gross value per acre, and the value of Mr. Finkbeiner's wheat was computed to be \$55.81 per acre.

Five acres of Spartan barley which produced 65.5 bushels per acre won first place in that class for John Ingalls, Millersburg.

Yield and quality of grain are the factors which determine the gross value of a crop per acre and this contest is conducted to interest Michigan farmers in the possibilities of large returns from comparatively small acreages. Sixty-three farmers entered the contest this year.

Trophy winners in the show classes for grains were: corn, R. W. Hayward, Hillsdale; wheat, A. W. Jewett, Jr., Mason; two-row barley, Farley Brothers, Albion; six-row barley, Fritz Mantey, Fairgrove; rye, G. C. and L. G. Hutzler, South Manitou.
