"Flying Son" Brings Greetings To Mother

Philip Hoffman, a former Chelsea resident and now a student at the Stinson Aircraft School in Detroit, made a flight over Chelsea last Sunday and his flight was witnessed by many of his local friends who had been told of his anticipated visit here on that day.

Mr. Hoffman, who was accompanied by his wife on the flight, had planned to land on the Staffan field in the southwest part of town, but after looking the field over decided it was not in shape for a safe landing. Circling low over the home of his parents, Mr. and Mrs. Geo. Hoffman, he dropped a small parachute containing a box of candy and greetings to his mother, who was celebrating her birthday anniversary on that day.

Although not holding a pilot's license at this time, Hoffman will be eligible to obtain a license in a very short time. He now has sufficient flying experience to entitle him to the use of the Stinson company's planes and it was in one of their new Ryan monoplanes that he made the flight here Sunday.

Boxing Show Draws Record Attendance

Monday night the boxing fans of Chelsea and the neighboring towns witnessed the third round of the season. The bouts were started at the usual time, 8:30 and before the gong sounded for the first round every seat in the hall was taken.

The opening bout of the evening was somewhat disappointing. Reluctant, the German boy, fouled Van Gieson in the opening round after only a few blows had been exchanged. The blow was low and without any hesitation, referee Spaulding awarded the fight to Van Gieson. The second bout was a thriller, Joe Makson meeting the German boxer from Saline, Herman Vobak. These boys fought three fast rounds to a draw. Both boxers showed some good punching, and each scored a knock-down.

The third match was a good fast exhibition of boxing. Buckles of Ann Arbor met Goldsmith of Saline. These two lads fought fast and furious from the start. Buckles demonstrated some fancy punches and some clever footwork, and was awarded the decision.

The semi-final of the evening was between Sheddoff of Ypsilanti and Havens of Ann Arbor. This fight was pleasing to everyone. Sheddoff won the opening round by a large margin, but Havens came back strong in the later rounds and out-boxed his opponent to win the decision. Both boys showed a lot of speed as well as punching power.

The final event of the evening was between Bruce Gordon of Ypsilanti and Merrill Richards of Ann Arbor. Gordon was the shorter of the two and was thereby handicapped by reach, but at every moment of the fight he was boxing and watching for an opening to land his terrific left hook, which he could not do, due to his clever young opponent's defense. For nearly two rounds both boys stood toe to toe and exchanged hard blows. The bout was a thriller from the start and at the close of the third round, either could have gone another three, due to the fine training. The decision was voted a draw.

Sweaters were awarded to the winner of each bout. The promoter also presented a sweater to the boys who fought to a draw.

Farm Power Line Is Nearing Completion

The Consumers Power Co. have their farm line in Sylvan along the Chelsea-Manchester road and the branch lines nearly completed. Some of the thirty-three patrons along the route are being supplied with the electric current which was turned on the latter part of the past week. Several of the property owners along the route had lighting plants in their homes and with a small out-lay had the current from the power company turned on. Those who have contracted to take the current and whose premises were not wired are having the work done and will soon be using electricity for lights.

FELLOWSHIP CLUB ELECTS

The Methodist Fellowship club held an organization meeting Tuesday evening in the church dining room, following a pot luck supper at 6:30. Officers for the year were elected as follows: President, E. L. Clark; vice president, Wesley C. Smith; secretary, John Klimer; treasurer, Irvin H. Weiss. Program committee: Rev. F. L. Walker, Philip M. Bregman and Schuyler P. Foster.

BUSINESS PLACES TO CLOSE

MYSTIC MARDONI TO APPEAR IN LYCEUM NUMBER WEDNESDAY

Season Course Being Sponsored By High School and Kiwanis Club; Season Tickets Now On Sale.

The Mystic Mardoni, who presents his spectacular entertainment of magic and mystery here next Wednesday evening, under the auspices of the Chelsea High school and the Kiwanis club, has become famous for his bewildering escape spectacles, done a la Houdini, and with a skill that defies detection from the most astute.

Last summer Mardoni made a tour of one of the big Redpath Chautauqua circuits, proving one of the most popular attractions on the entire circuit. Here are a few extracts from newspaper comments on his work:

"This morning Mardoni, soft spoken and smiling, invited Chief W. H. Manney and Sergeant Paul Samulish to bring out their best handcuffs, lock them securely upon his wrists and then give him a few moments to free himself. Mardoni was firmly and not too gently put into a pair of Peerless double-lock handcuffs, acknowledged as the best and most secure in the criminal industry. He was inspected by police officials, the municipal judge and a representative of the Evening Record and forthwith retired to the privacy of the chief's office.

"In exactly five minutes he returned with the cuffs still securely locked, but in his hands, not on them. Examinations followed. The cuffs had not been unlocked. All that remained upon the wrists of Mardoni to indicate that they had ever been on were the red marks where they had been pressed about his wrists and locked."

"To cap the climax, he leads the entire Chautauqua crowd to Lake Eustis, where he rows out a way from the shore, and though handcuffed, dives in the lake and comes up with the handcuffs in one hand, free again."

"The program of Magic and Mystery presented by Mardoni and Company thrilled the large audience. Torn papers were made whole, handkerchiefs were returned without the big hole which everybody saw out, rings contrived to get from the hand of a boy to the inside of two paper bags all done up in a silk handkerchief."

Pheasant Season Will Open October 25th

The 1929 pheasant season will open at noon, October 25, the conservation commission has ordered, using the discretionary power act. The opening of the season at noon instead of at daylight as in the past follows requests of sportsmen who said under the old system most of the pheasants were shot early the first day and had no chance to scatter. It is thought that by opening at noon the first day the birds will have an opportunity to spread through the hunting districts.

Thieves Get Chickens At Reuben Grieb Farm

Thieves entered the poultry house of Mr. and Mrs. Reuben Grieb of Sylvan Friday night and stole about two hundred chickens. The theft was not discovered until Saturday morning, the thieves making a clean get-away with the fowls during the night. No clue as to the identity of the thieves has been found.

TREE SURGEONS HERE

Specialists from the Davey Tree Surgeons, Kent, Ohio have been engaged by Edw. Vogel and M. J. Dunkel to trim, chain and do necessary tree surgical work to the trees on their premises. Work which was commenced on the Vogel trees Tuesday was completed Wednesday and the men started to work on the Dunkel trees today.

Many trees bordering the streets of Chelsea are very much in need of surgical attention and it would add greatly to the beauty of Chelsea streets if more interest would be taken in the care of trees.

Irving Davis, Monday, were: Mr. and Mrs. Edwin Pielmeier of Vincennes, Ind., Mrs. Simon Kismiller, Mrs. Fred Tolligan and Miss Elvora Strate of Freelandville, Ind., Mr. and Mrs. Paul Wagner and Miss Marjorie Mapes of Detroit, Mr. and Mrs. E. G. Hoag of Jackson, Mr. and Mrs. John Stark of Springfield, Mr. and Mrs. Henry Glazier and Mr. and Mrs. Hest Waters of Ann Arbor, Mr. and Mrs. David Waters of Fowlerville, Mr. and Mrs. C. A. Mapes of Gregory.

C. A. Faille, Artist, To Leave Saturday

Carl Arthur Faille, artist, of San Diego, California, who has spent the summer painting in this vicinity, has made arrangements to leave Saturday for Indianapolis, Indiana. From Indianapolis Mr. Faille will go to Pittsburgh, New York and other eastern cities to attend exhibitions of his paintings and to take care of other business matters in those cities before returning to Indiana where he expects to do some painting prior to his departure for his home in California for the winter.

Mr. Faille, who has recently been painting at the Lindley farm in Lyndon, has a wonderful collection of paintings which he has produced in this section of the country during the past several months. His many Chelsea friends will regret the departure of Mr. Faille from our midst, but best wishes of the entire community will be extended to him for a continuation of his wonderful success in art, his chosen life work.

Mr. Faille was a dinner guest last Friday evening at the home of Mr. and Mrs. W. F. Kautlehner. Other social events have been planned for his pleasure this week.

Gun Battle Results In Two Casualties

The fact that not even a skunk is safe in the alleys of Chelsea was proved Tuesday night when a "big game hunt" was organized by several of our bold young men who craved excitement in an extraordinary. The incentive for the attack upon the innocent alley prowlers came during the day when the "fragrance" broadcast by them had become almost unbearable to occupants of business places on the east side of Main street between Middle and Park streets.

Armed with pop bottles the advance started as planned, promptly at 8:00 o'clock. The advance guard consisted of some of the braver young men, the meek bringing up the rear. As they approached the enemy and reconsidered the method of attack, fearing the consequences of striking the pretty little pets with a pop bottle, the offensive army retreated and later advanced again, this time armed to the teeth with revolvers, rifles and machine guns (the reported), with blood in their eyes.

There being rather poor visibility the enemy could not be sighted and after much struggling around through trenches and barbed wire entanglements the field of battle was illuminated by a bon fire and the battle was on. When the smoke of battle cleared away, the result revealed one dead skunk, one broken window, and upon further investigation another skunk was found dead under a porch at the rear of one of the business places, the theory being advanced that it died of fright when the machine gun fire started.

Year's Work Planned By Economics Club

The Home Economics club of West Lima held a meeting Thursday afternoon at the home of Mrs. George Satterthwaite for the purpose of discussing the work for the coming year. The topics for consideration are "Standards of Health," "Food in Relation to Health," "Seeing ourselves as Others See Us," and "Maintaining the Body House."

Mrs. Fred Kennedy was elected secretary-treasurer of the club to succeed Mrs. Walter J. Butler who is one of the leaders. The first lesson for the leaders will be held in Ann Arbor, October 22 and 23. At the close of the meeting the members served a delicious lunch as a surprise for Mrs. Satterthwaite who will leave next month to make her home in Chelsea.

HONOR NEPHEW AT DINNER

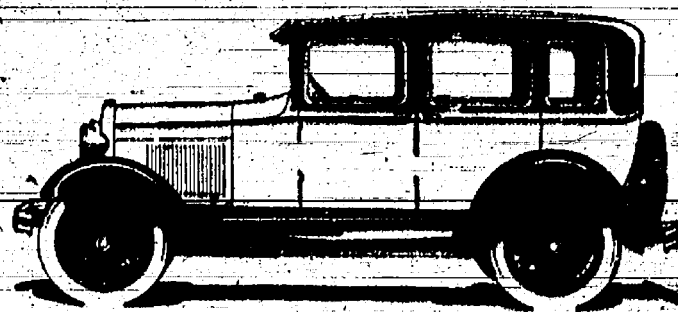

Mr. and Mrs. George C. Koenig entertained the following relatives Sunday at a dinner in honor of their nephew, Henry H. Bigley, of Denver, Colorado, who is spending the week with relatives in this vicinity. Mr. and Mrs. Gustav Draganski of Detroit, Mr. and Mrs. Fred Bollinger and family, Mr. and Mrs. Arthur Koenig and daughter, and Mr. and Mrs. Edwin Downer and children of Lima, Mr. and Mrs. Ruben Lesser and daughter, Reinhold and Herman Weber of Sylvan, and Mr. and Mrs. Fred Prinsing and Mrs. Mary Bollinger of Chelsea.

SCHOOL MEETING

A special meeting of the voters of School District No. 4, Chelsea, will be held at the schoolhouse, Tuesday evening, October 15, at 8 o'clock, for the purpose of discussing the matter of additional tuition required by Chelsea high school.

By Order of School Board.

Britain's Real Ruler Old-Fashioned Daughter Drugs in That Prison? A Prosperous Country

James MacDonald, elected head of the British Empire by the Labor party, is here, the first British Prime Minister to visit the United States while in office.

The Prime Minister is the most powerful man in England. The King, addressing his lords and commons, says exactly what the Prime Minister tells him to say.

Miss Isabel MacDonald, here with her father, will seem hopelessly old-fashioned to many of our rising female generation.

She does not smoke or drink alcoholic liquors and does not paint or powder her face.

And, most unfashioned of all, she does look after her father and take a serious interest in public affairs.

If you see Ramsay MacDonald, Labor Prime Minister of Great Britain, you may also see Miss Rose Rosenberg, vivacious, able young woman, the Prime Minister's private secretary.

Miss Rosenberg joined the Socialist party in London eleven years ago and has been MacDonald's secretary nine years.

Observe the difference between "democratic America" and "conservative Great Britain." Here, if you join the Socialist party, and talk "that way," you stand a fair chance of being locked up. In Britain you may become secretary to the Prime Minister.

The tragic rebellion of convicts in the Colorado state prison ended with 150 convicts walking out, hands raised, above their heads, in surrender.

Four leaders of the rebellion had killed themselves. The convicts, at intervals, had thrown out of an upper window the bodies of guards captured and murdered by them, the warden having on each occasion refused to let them go free.

Once a prison inmate was a poor and miserable creature, with poor and miserable friends, if any.

Some women, sad-faced, might come to see the man in jail, bringing her child to see him, through the bars, giving him, perhaps, a few cents' worth of tobacco.

That is all changed in these bootleg days. Convicts have, outside the prison walls, gangster friends that control money unlimited. Convicts can afford to buy privileges, including drugs, even at the high prices charged in prison traffic.

That drugs played a part in the Colorado outbreak, with its reckless disregard for death and its audacious, seems probable.

Guards will learn from the Colorado tragedy to watch their prisoners carefully, and to watch with especial care any guard or other person engaged in the prison drug trade.

Uncle Sam continues to prosper in spite of increasing expenses. In three months ending September 30 he collected more than one billion dollars, and \$128,050,854 more than he collected in the same three months a year ago. It's a big, rich country, with one single city spending in a year as much as the United States used to spend before the war.

Booster whisky, "home brew" and automobile accidents are related. Drunken drivers kill many. Every body knows that.

Now Doctor Norris, chief medical examiner of New York City, says that "drunken walkers" cause accidents for which the automobile industry is blamed.

Doctor Norris urges that reckless walkers be fined and jailed. "Twenty-five per cent of adults hurt by automobiles are intoxicated."

Herman Linderman, New York gangster, strangled himself with his belt in prison. He had "squealed" on his associates, and been stabbed once in prison, and feared what would happen when he reached the penitentiary again.

The police say a pocket of a certain gangster, with a note asking him to be released, was found. He wrote to his friends, "I have a good deal on my mind, but I can't say it." (Does not pay.)

CHLSEA, MICH. THE LAMP OF STREETS

mann, great and patriotic leader, who actually worked himself to death for Germany. Before he died he had the satisfaction of negotiating the evacuation of the Rhineland, thus restoring to Germany her territorial integrity.

The governor of North Carolina very intelligently thinks that in North Carolina wages should be made higher, hours shorter, in the textile industry.

He does not agree with the theory that human beings in the South should be treated like cattle in order to attract northern capital.

Every intelligent American, especially the very rich and prosperous, should want to remain rich and prosperous, is coming to realize the importance of paying good wages and giving men reasonable leisure for the enjoyment of life.

Florida Hurricane Is Described In Letter

Clarence Hall, of Miami, Florida, son of Mrs. D. S. Hall of this place, in a recent letter to his mother tells of the tense hours spent by residents of Miami after the warnings of an approaching hurricane had been broadcast through that section. Mr. Hall is well known by many Chelsea residents, having spent several weeks with his mother here this summer. The letter, under date of September 20, follows:

"There has been a hurricane out in the ocean for the past week and has caused quite a bit of excitement. Its movements have been very peculiar, first going one way and then another and some days not traveling more than one mile an hour but it was a very bad storm and at last has come and gone down through the Florida Straits and out in the gulf.

"Miami has been boarded up and barricaded ever since last Wednesday, but we did not feel any effects of it until Friday night about 9 o'clock and it kept up until Saturday night about the same time. All business was at a standstill that day.

"We had from a 45 to 60 mile gale. It did not do any particular damage but we did not know how much of it we would get. The center of the hurricane was never closer to us than 100 miles and that was close enough. Homestead, thirty miles south of us, was hit quite hard, many buildings being blown down.

"The lights all went out Friday night and some parts of the city will still be dark tonight. There was over 6 inches of rainfall in 12 hours and with a 60-mile wind made quite a fuss."

Standard Oil Company Sponsors Broadcast

Standard Oil Company (Indiana) has made arrangements with Professor Stock to resume the Sunday afternoon broadcasts of The Chicago Symphony Orchestra. The series will start on October 20, from 2 to 3 o'clock, Chicago time and will be given each Sunday afternoon following, for a period of six months over WGN, Chicago, WWJ, Detroit, WTMD, Milwaukee, WOC, Davenport, WHO, Des Moines, WOW, Omaha, WDAF, Kansas City, KSD, St. Louis, KSTP, St. Paul, WABC, Duluth Superior.

The Standard Oil Company's continued sponsorship of these concerts is a response to the articulate appreciation of the audience who listened to last season's series. The mounting vigor of the listener's hosannas for Professor Stock's offerings seem to indicate that since the air was first tapped for its sounds, no program has been more cherished than the Sunday afternoon broadcast of the Symphony Orchestra.

Professor Stock proceeds with the comforting certainty that fine music has a tremendous allure for great numbers of people. Many of them are deterred by distance or other obstacles, from attending the Symphony Orchestra's regular concerts. It is to these thousands that the Standard Oil Company presents the six-month series for all that it may mean to them.

Tribute to the Symphony Orchestra came from the most remote parts of the country. Listeners seemed to take much delight in the inimitable preludes of Professor Stock himself during each concert. There was a likeable intimacy about the whole offering, and even people to whom Symphony had meant music on a remote and classical plane, found themselves caught in the thrill of the Standard Oil hour.

The previous season has served more or less in the nature of an experiment for this year's offering. Millions of pieces from the works of the great classicists will be given, as well as compositions of contemporary masters. And, as the orchestra has proved before, it can be as gay and lightsome as any caroller, when it serves a lively measure.

The Standard Oil Company hour with the Symphony Orchestra on Sunday afternoon promises to be one of the most important musical offerings of the season.

Show More Interest In Farming Methods

While the farm population in Michigan has been decreasing, the interest of farmers in learning new angles of their business has increased, according to class records in the short course office at Michigan State College.

The first short courses, three in number, were given in 1897. Forty-five students enrolled in those courses. Last year 19 short courses were given at Michigan State and 445 students enrolled.

Many of these courses last only one week and are designed as a clearing house of new information about a particular subject. Most of the students can spare only a short time from their business and the short courses meet their needs.

The longest of these courses is the two-year general agricultural course of 16 weeks. Fifty-one men took this course last year.

Five courses are given in dairy subjects, five courses in horticultural subjects, and one each in poultry, agricultural engineering, home economics, bee keeping, seed production, farm management and veterinary medicine.

The 16 week course in general agriculture begins October 28. All others are held in January, February or March.

Tecumseh—John Zick was taken in to the court of Justice William F. Harding last week upon complaint of Mrs. Mary Zick, for disturbing the peace and threatening to kill her, last Monday. He was arrested by Deputy Sheriff Harold Treat. When arraigned he entered a plea of guilty and was ordered to pay a fine and costs totaling \$15. The justice then placed him under bond with two sureties to keep the peace for six months.—Herald.

There will be no Sunday evening services at the Lima Center Evangelical church until further announcement. Mrs. E. Duncer spent Friday afternoon at the home of her sister, Mrs. E. Reindinger.

Mr. and Mrs. Roland Wenk are spending some time at the home of Mr. and Mrs. Julius Eisele of Chelsea. Roland Mueckel of Waterloo spent the week end at the home of his aunt.

Mrs. Alfred Linhauer and family, Mr. and Mrs. G. E. Mueckel were Sunday guests.

Mrs. C. Selleck of Ann Arbor is having the buildings on her farm wired for electricity.

Mr. and Mrs. Sherman Pierce and Mr. and Mrs. Elmer Pierce and daughter, Joan, spent Sunday at the home of Mr. and Mrs. Myron Race of Redford.

Test Shows Dairy 20 an Economical Feed

Of far reaching importance to the farmers and dairy-men of this community is the announcement published last week of the results of the competitive feeding test conducted by F. W. Schaffer at his dairy farm near Grass Lake.

The results of this test prove conclusively that "Dairy 20," manufactured by the Grass Lake Farmers Elevator Co., is not only well balanced, but the most economic feed you can buy for your cattle.

Why experiment with other feeds when you can buy "Dairy 20" right here at home and know that you cannot buy a better feed at even a higher price.

129,000 Additional Telephones in Three Years

DURING the past three years, 129,000 additional telephones were installed by the Michigan Bell Telephone Company, as follows:

1926	-	46,000 additional telephones
1927	-	38,000 additional telephones
1928	-	45,000 additional telephones

During the first eight months of this year, 40,000 additional telephones were placed in service, making more than 670,000 now served by this Company.

Every additional telephone installed increases the value of your telephone service by bringing more people within your reach.

Our policy—"To continue to furnish the best possible telephone service at the lowest cost consistent with financial safety."

SCHOOL NOTES

Monday afternoon, September 30th, the high school assembly enjoyed having Dr. Russell Hussey as a guest. Dr. Hussey is a member of the Geological Department of the U. of M. He showed us a number of interesting slides, accompanied by explanations, on Early Man. We hope to have him here again.

Tuesday, chapel day, is treat day in Chelsea High. The assembly vocalized a hit and then listened to a series of talks given by Dudley Holmes, Mahlon Dunkel and Howard Holmes. These talks were very interesting and dealt with the trips taken by the three boys and their parents through the Black Hills, Yellowstone and Glacier National Parks. After the talks, using a Cine-Kodak projector, Mahlon Dunkel showed a roll of film of pictures taken in those places.

After receiving their initial defeat of the season at Howell, the Chelsea boys after a week of hard practice went to take the results of their defeat out on Manchester.

All the boys were in fine spirit and were more than ready when the whistle blew. It was only a matter of minutes when Chelsea had scored two touchdowns and a point after touchdown. These were results of brilliant running and passing of the backfield. The line was working wonderfully and the score mounted steadily. Not once did Manchester threaten Chelsea.

With the score 36-0 a new team was sent in and showed up fine time at the end of the half the score stood at 48-0 in favor of our boys.

Starting the second half more subs were sent in and kept the ball in Manchester territory most of the time scoring a touchdown.

Near the end of the fourth quarter the first team was returned to the game and scored another touchdown with a running and passing attack that overwhelmed Manchester's defense. When the whistle blew the score stood 63-0.

All the boys were given a chance during the game and showed that we have a fresh team waiting all the time.

Manchester at Chelsea—Chelsea won the toss-up and received the kick-off from Manchester and tried to rush thru for a fast touchdown but the Manchester line held and Chelsea was forced to punt. The possession of the ball went back and forth. Finally by a combined running and passing attack scored a touchdown and the additional point.

Chelsea was not up to the standard of the previous week and failed to run up a score equal to the other score. The boys showed they had good qualities but they lacked the practice and were a little over confident.

Although the score was small all the boys were given a chance and did their best making the final score 19-0 over a much-improved Manchester team.

This week the first real test of the season will be against Dundee. They have a good fast team and will give Chelsea a real game. It will be the official opening game of the year. Everybody come and root for our boys. Chelsea has lost only 4 games in the last 4 years. So they need your support to win all the games this year.

If you should lift the body of every car

in Buick's field—and compare the chassis—then you too would choose

The New BUICK

If you were to lift the body from the chassis of any one of a hundred cars—and compare the vitally important details of chassis design and construction—you would find Buick so outstandingly superior in all phases of fine car engineering that you would almost inevitably make Buick your choice. Here is what you would see in this famous chassis:

Buick's great new Valve-in-Head engine—developing 99 horsepower in the 124- and 132-inch models, and 80½ horsepower in the 118-inch model. Unapproached in sturdiness, all-round performance—ability, reliability and economy as well.

Buick's new Controlled Servo Enclosed Mechanical Brakes—providing smooth, positive, silent braking, with minimum pedal pressure. And—because fully protected against dust, dirt and water—operating at maximum efficiency in any weather.

Buick's new frictionless steering gear and new Road Shock Eliminator—twin advancements introduced by Buick. The Buick wheel offering effortless control throughout its entire turning range—and the new Road Shock Eliminator assuring complete freedom from annoying jolts and jars.

Buick's new, longer rear springs, and new

Lovejoy Duodraulic Shock Absorbers—front and rear. Combining to check both bound and rebound, and providing a degree of riding ease without parallel anywhere. And, finally, such established Buick superiorities as the famous double-drop frame of toughest steel... the massive side and cross members reinforced at points of stress to insure greatest long life... the celebrated torque tube drive, Buick multiple-disc clutch, self-lubricating differential, and numerous other features.

When the list of Buick's chassis features—entirely aside from the irresistible appeal of Buick's new Fisher Bodies—reads like a roll-call of all that is soundest and best in fine car engineering... and when, in addition, you can buy a Buick for as little as \$1225, f. o. b. factory... what wonder that all comparisons lead to Buick! What wonder that more than 2,000,000 people have invested their money in Buicks—and that from two to five times as many are purchasing this new Buick as any other automobile priced above \$1200!

BUICK MOTOR COMPANY, ELINT, MICH. Division of General Motors Corporation Canadian Factories: McLaughlin-Buick, Oshawa, Ont. Builders of Buick and Marquette Motor Cars

118" Wheelbase Models, \$1225 to \$1295

124" Wheelbase Models, \$1465 to \$1495

Question And Answer Dept.

Ques.—I am twenty-six years old and believe it was time I was married. What kind of a husband shall I pick out?

Ans.—Take the editor's advice and leave the husbands alone. Get a single man.

Ques.—Why wasn't Mrs. Walker Willebrandt given a judgeship by President Hoover when she was such an ardent worker for his election throughout the campaign last fall for President of the United States?

Ans.—This question scarcely needs answering. It should be remembered that her plan of campaign by injecting the religious issue was repulsive to Protestants and Catholics alike, and it is believed, one not approved by Hoover himself. Therefore, it is

probable that Hoover was diplomatic enough not to offer her a judgeship.

Ques.—May I ask in your good question column what would be the result if the former kaiser of Germany should return to his own people in Germany?

Ans.—The kaiser cannot return to Germany. In 1922 a "defense of the republic" law was enacted, and contains what is known as the "kaiser clause." This clause forbids any of the members of the ruling family at the time of the world war from returning to Germany without permission; and the government may also restrict the localities in which they may live if they are allowed to return. Therefore, the kaiser cannot return to Germany without violating the German law.

Ques.—Can you answer in your question and answer column why some of the stars at times seem to get brighter and larger, even while one is looking at them?

Ans.—This is a phenomenon that is

unknown. There is a strong belief that these are "giant suns" which are many millions of miles in diameter, and which have flames that surge for a distance of 1,000,000 miles at a speed of more than 4,000 a minute. This is believed to cause the illusion of swelling and contraction.

Ques.—I am nifty and nimble, and would like to know if it is best to learn the typewriter by the touch system?

Ans.—Yes. But just be careful who you "touch."

Ques.—Can you tell me in your interesting question column what tin cans are made of?

Ans.—The ordinary so-called "tin cans" are made of thin sheets of iron can coated with pure tin.

Ques.—To settle an argument will you kindly state in your question column of your good paper if the poet laureate of England can be deposed?

Ans.—Yes. But it is rarely done. John Dryden was stripped of his honor in 1789 when he became a Catholic and partisan of James II. When William and Mary ascended the throne they deposed him as poet laureate of England.

Ques.—Will you kindly answer in your question column if a projectile from a 12-inch gun has its greatest penetrating power at the muzzle, or what distance must it travel to attain this power?

Ans.—Not necessarily so. It depends upon the composition of the object when it strikes. Penetration, you know, is not the measure of the striking energy; as many supposed. A projectile has its greatest striking energy when it has its maximum speed, and that is usually at the muzzle. But it does not always have its greatest penetrating power at this point unless all other conditions are equal.

Ques.—In this day and age automobile makers seem to be striving to make more quiet machines. Do you suppose they will ever succeed in producing a noiseless car?

Ans.—We do not know; probably not until the back-seat driver is eliminated.

Ques.—According to history the Battle of Santiago in the Spanish-American war was fought on July 8, 1898. Will you please tell me if that date was on Monday?

Ans.—The battle of Santiago in the Spanish-American war was fought on Sunday morning. This was not, strictly speaking, a battle. The Spanish fleet was bottled up in Santiago bay, and the enemy selected Sunday morning as a good time to make their escape, which they tried without giving battle.

Ques.—I wish to know if the peanut is classed as a nut? If it is, explain why; and if it is not, why is it called a nut at all?

Ans.—The peanut belongs to the bean family. It gets its name from the fact that it has a shell, together with its similarity to the peas in a pod. Hence peanut.

Ques.—What did James McDougall, the famous Scotch statesman, die from?

Ans.—We do not know positively. It is said that he was standing in front of a slot machine which had a sign "Your Money Returned if You Give Your Weight," and that he missed his guess by half a pound.

TWENTY-FOUR YEARS AGO

Thursday, October 5, 1905.

The Glazier Stove Company have declared a special dividend of fifty per cent of the company's surplus fund after regularly paying the semi-annual dividend of four percent. The stockholders at their meeting voted to increase the capital stock from \$300,000 to \$600,000.

SLAT'S DIARY

Friday—Well pa has finely dissided to get a raydeo so today when he came home from work why ma had a surprise for him and had it all set up and after she told him what the payments was a why pa wanted to hear sum cheerful music etc. Ant Emmy says she cant see why them Announcers wont tell what is the name of these stasun in stead of just saying a few dum letters like they do most generally always.

Saturday—This evening I bet pa that I cud eat 4 hot dawgs and 3 deashes of ice cream and not get sick. Pa won and now ma is sore at him. I gess probly becuz he is taking my hart eat money from me like that.

Sunday—I neglected to talk my bath the regular day and so ma made me do so this a. m. I got to singing and she bulled me out for being so noisy and I replied and sed I didnt beleave in keeping it a secret when you talk a bath.

Monday—Tonite wile I was a studying my home work at home why I ast pa what was bigger of Spence and after he herd ma talking out in front he work at me and sed. Most When is.

Tuesday—I oney made I mis take in the culss in langwidge today and that reely vassent my falt. Their teacher ast me what was a Sluggard and Last Elsy and she told me it was a Prize Fighter and it seems like I was rong. But my consients is clear enny ways.

Thursady—They was a cupple here visiting tonite and they kept quarrelling most of the time till nobody cudnt talk much. After they had went home pa sed to ma that women was like a peace of cake and ma sed why so. And pa answered and sed, becuz she is very rich and never agrees with the husband.

Stockbridge—Floor joists are being laid for the second floor of the new school building and the work on the first floor is nearing completion with the mason work. The building operation is now to such a point that every day's work looks much larger than when the building was below the ground.—Brief-Sun.

Dexter—The work of pouring concrete with the big paving machine started on the first 20ft strip on Main street Tuesday afternoon, and is proceeding rapidly, the machine being now nearly to Baker street. The process is very interesting to watch and a great many have availed themselves of the opportunity to see the work done.—Leader.

COMPLICATIONS YIELDS QUICKLY TO NEW KONJOLA

Stomach Trouble, Constipation And Rheumatism Yield To Powers Of New Medicine.

MR. HENRY WOODWARD "I had been suffering for some time from mizeries in my stomach," said Mr. Henry Woodward, 121 Madison street, Howell, Michigan. "I was always constipated. Nothing that I ate seemed to agree with me. On top of these ailments I suffered terribly from the pangs of rheumatism. At times it seemed almost impossible for me to move about."

"I used Konjola, and have benefited wonderfully. My stomach no longer bothers me in the least. My bowels now move freely and the constipation is a thing of the past. No more strong laxatives for me. The awful pangs of rheumatism have gradually left my body. I am glad to be able to endorse Konjola for the benefit of others. If only one other sufferer is helped as a result of my recommendation I will feel that I have done a good turn."

Konjola is sold in Chelsea at Burge's drug store and by all the best drug-

Fowlerville—Calude G. Rounsaville, the hostling Fowlerville real estate dealer, planted ten acres of beans last spring and the shade trees around the edge and high water in low spots in the field took out at least one acre leaving about nine acres of beans. A short time ago Mr. Rounsaville harvested the beans and hauled them to market. There proved to be 140 bu. and 40 pounds, for which he received a check for \$711.00, not so bad for a dry season.—Review.

SAVE MONEY

Ownership of a Pontiac Big Six is an experience in economy. True, most people choose Pontiac, not because it is so inexpensive, but because of the many big car advantages which it provides. But it is a fact that with a Pontiac you actually save money. You save—

When You Buy... When You Drive... When You Trade It In

You save when you buy a Pontiac because it is the lowest-priced car ever produced which offers so many advantages. You save when you drive because, according to a large corporation which employed 926 cars of 33 different makes during 1928, Pontiac costs one cent less per mile to operate than any other low-priced six. You save when you trade it in because the demand for used Pontiacs has always exceeded the available supply. Come in to see and drive the car which offers all these advantages.

D. J. & C. Properties To Be Sold At Auction

The Detroit, Jackson & Chicago Railway properties will be sold at auction on October 31, at 12 noon, at the interurban station in Ann Arbor under an order issued by the Federal District Court in Detroit.

William S. Sayres, Jr., master in bankruptcy for the court, will conduct the sale.

Services on the D. J. & C. line between Jackson and Detroit, has been discontinued for some time. The last movement of traffic over the tracks was scheduled for Tuesday evening when the final allotment of Michigan Electric Railway trailers sold to the Eastern Michigan Railway and Lake Shore Electric Railroad were moved from Jackson to Detroit.

Zeppelin Is Won By Palmer In Contest

L. G. Palmer, Goodyear dealer here, recently received a model Zeppelin, his reward for the splendid showing his organization made in a national sales contest.

The Zeppelin model, measuring three feet in length and painted silver, is mounted on a most nearly two-

feet high. Mr. Palmer has placed the prize on display at his show room.

Thousands of Goodyear dealers took part in the Zeppelin race contest. The dealers were grouped in four divisions.

"It was a real race," Mr. Palmer stated. "I am greatly pleased over the fine showing made by my station. Our success was due to the hearty co-operation of everybody, together with the fact that we handle a line of tires, tubes and accessories of the highest quality."

STONE SCHOOL NOTES

Ransom Armstrong and Fred Bareis visited the Stone school, Monday afternoon. Mr. Armstrong gave an interesting talk on the North American Indian.

The Stone school has a very fine Indian exhibit loaned through the courtesy of Herman Pierce, George Satterthwaite, Mrs. J. N. Dancer and Ransom Armstrong.

Children of the stone school of Lima 10 fr. have just completed some interesting Indian booklets and posters, and a very fine Indian sand table. Mrs. Fern Roth visited school Wednesday afternoon and talked to the scholars on Learning How To Read.
