## Statement of Facts—

The Atwater Kent Manufacturing Co. has never had any shares in its stock on the market.

It owns outright its business and its manufacturing plant. It has been in business for more than twenty-seven increasingly profitable years, has always done business on its own capital and has never borrowed a dollar.

All its resources and experience are concentrated upon just one thing—the making and selling of fine radio instruments. Production in its thirty-two acre factory is scientifically controlled, so that Atwater Kent dealers always have enough radios on hand to meet the public demand and are never overstocked. Its inventory is never excessive.

Single-minded devotion to its one job—the production of the finest radio that can be built—has put the Atwater Kent Manufacturing Company today in the strongest position it has ever held. Strongest in the excellence of its product—Atwater Kent Screen-Grid Radio. Strongest in the confidence of the public. Strongest in stability, which is the keystone of permanence in any business. —Atwater Kent.

## Death Claims Veteran Rural Mail Carrier

Edward Weiss, of Lima township, died Saturday, November 2, at University hospital, Ann Arbor, following a recent operation.

Mr. Weiss was born in Cassel, Hessen, Germany, April 21, 1866, coming to America when 16 years of age. He was married November 1, 1887 to Miss Mary Kogbe, of Freedom township, and for the past 38 years they resided on the farm in Lima.

Mr. Weiss had entered his 29th year of service as mail carrier on Route No. 2, Chelsea. He was a member of the Knights of Pythias and the Maccabees.

Surviving him the widow, two sons, Clarence, of Detroit, and Irwin, of Chelsea; one sister, Mrs. Elizabeth Linsenhaus, in Germany, and four grandchildren.

Funeral services were held at three o'clock Tuesday afternoon at the Methodist church, Rev. E. I. Walker, officiating. Burial was in Oak Grove cemetery.

## Economics Leaders To Meet Next Week

The second meeting of the local leaders in the home economics extension classes, under the supervision of the Agricultural Extension office, H. S. Osler, county agricultural agent, co-operating with Michigan State College, will meet in their regular monthly training meeting for November, on Tuesday and Wednesday, November 12 and 13, in the 2100 Lutheran Parish Hall, corner of East Washington street and South Fifth avenue, Ann Arbor.

Miss Becker, nutrition specialist, Michigan State College, will present the second lesson in nutrition to these classes. "Seeing ourselves as others see us" may prove to be a great disappointment unless health habits have been such that the right sort of growth and development have taken place. Applying a scientific and popular means of measuring the relative values of various products of the day. Only recently, however, has such a secure card been used on individuals. Nutrition specialists have found that this is a means of improving standards of health for it shows the individual where mistakes are being made. Project leaders will receive instruction in the use of the score card at these meetings. Miss Becker asks that each local leader bring note book, pencil and their score card on weight and height, which they received at the last meetings last month.

## Man Who Befriended Boys Being Sought

I am very desirous of obtaining the name of a man in Chelsea who very kindly assisted three young men from Bay City, on the Ann Arbor road three miles east of Jackson, on Sunday, September 29, 1929. This Chelsea man was riding with his wife and two children, and seeing the needful boys had when struck by an automobile, breaking one boy's ribs, he befriended them, though his name was not learned.

Will this man please correspond with the boys' mother, Mrs. G. V. McClure, 408 W. Millard St., Bay City, at once?

Mrs. McClure.

MRS. FLORENCE HABBIT, a pioneer resident of Chelsea, died Sunday afternoon in the Bay City Memorial hospital. She was 89 years old. Mrs. Habbit had been prominent in the W. R. C. and O. E. S. lodges. She assisted the local W. R. C. in raising funds for the Soldiers Monument which was erected in Oak Grove cemetery. Mrs. Habbit was one of the state's pioneer antique collectors, her collections have been placed in the Chicago Art Institute, Kent Museum, Grand Rapids, and in the Capitol Building in Lansing.

Funeral services were held this afternoon.

What is thought to be the largest tarantula ever seen on bananas in Chelsea was captured by J. V. Burg at his store this week. It measures approximately 5 inches from tip to tip. The venomous spider-like species is on exhibition in a glass case in the Burg store. It has been estimated by parties who claim to know something about them that the tarantula is about three years of age.

## CHELSEA VICTORIOUS IN GRIDIRON BATTLE WITH JACKSON TEAM

St. John's Team Victims Of Shut-Out With 7-0 Score In Game With Local Boys.

By Bob Wallace  
The Chelsea gridiron warriors went to Jackson Monday to play the postponed game of last Friday. On the way to the field the boys met with a hailstorm. The field on the fairgrounds was very muddy and in no way was it desirable to play.

The St. John's Academy boys won the toss and chose the north goal. Chelsea elected to receive. H. Holmes received the kick on his 5 yard line and returned it 20 yards. A pass netted 25 yards on the next play. The combination was H. Holmes to G. Staffan. Three line plays by Schneider, Holmes and McLaughlin gained 7 yards and Chelsea kicked to Jackson's 10 yard line. Two line plays by Jackson failed and they kicked on third down. Schneider took the ball on his 40 yard line and eluding three tacklers returned the ball 20 yards.

At this point of the game Chelsea drew a 15 yard penalty for holding. Then two line plays by McLaughlin and Staffan netted about 9 yards. H. Holmes kicked. Again the Jackson boys failed at the necessary yardage and kicked to H. Holmes who returned to our 48 yard line. H. Holmes made 2 yards through the line and Schneider made it a first down on an off tackle play. A pass was good for but a yard. Mac made for 4 yards but H. Holmes was tackled back of the line for a 4 yard loss. H. Holmes then kicked to their 20 yard line. They returned the ball on the first play for 20 yards around their right end. On the next play they were smothered behind their line for a three yard loss by Dunkel. A play through the line made up 2 yards. Jackson then kicked. Schneider fumbled, but recovered. The quarter ended as Korn substituted for Schneider. Score: 0-0.

Second quarter. On the first play, H. Holmes made 9 yards around end. Another end run by McLaughlin netted 10 yards. Korn made 3 yards off tackle and H. Holmes made 2 yards through the same hole. Korn again took the ball, making 3 yards by hitting the same place that two other plays had weakened. Staffan made a first down on Jackson's 40 yard line. McLaughlin then took the ball around end for 5 yards. A nice pass from H. Holmes to D. Holmes made 8 yards and a first down for Chelsea. Three line plays failed and with inches to go, Chelsea lost the ball on downs. Eisenbaiser was substituted for Dunkel at right end. Jackson, after making but 6 yards on three line plays were forced to punt. H. Holmes returned the ball 15 yards. H. Holmes made a yard through the line and Staffan hit the same place for 3 yards. On the next play H. Holmes made 5 yards.

## BURNETT STEINBUCH

Burnett Steinbuch, age 78 years, died Tuesday, November 6, at his home in Jackson following an illness of a year's duration. He was born February 17, 1851, in the municipality of Hessen-Germany, and was the son of the late Henry and Catherine (Voland) Steinbuch. He came to America with his parents in 1864 and settled in Ann Arbor, later moving to Chelsea where the greater part of his life was spent. He moved to Jackson in 1920.

He is survived by the widow, one son, Bert, of Jackson; two brothers, John and George, of Lima; three sisters, Mrs. Carlo Eastorle of Detroit, Miss Mingle Steinbuch of Los Angeles, California, and Mrs. Anna Storms of Chelsea. Funeral services will be held Thursday, today, at two o'clock, from the Knickerbocker funeral home, Jackson. Rev. A. B. Brown, pastor of the Jackson Congregational church, will officiate. Burial at Oak Grove cemetery in Chelsea.

## EDWARD A. BACHERT

Edward A. Bacher, aged 47, died Saturday forenoon, November 2, at the home of Mr. and Mrs. W. D. Huston, on East Middle street.

Mr. Bacher was born August 10, 1882 in West Virginia. He came to Chelsea in 1924 from Middleburg, Ohio, and had been employed as yard foreman at the plant of the Michigan State Cement Industries.

He is survived by two sons, George, of New York City, and Asil, of Rockford, Illinois; three sisters, Mrs. G. W. Baker, Mrs. Frank Kus and Mrs. John Worba, of Easton, Pa., and one brother, George Bacher, of Van Drano, Calif.

Funeral services were held at 1:30 Tuesday afternoon at the Staffan funeral home, Rev. P. H. Grabowski officiating, with interment in Oak Grove cemetery.

## Lyceum Number To Feature Real Artists

Ralph Henry Steffen, notable basso who comes here Friday evening, November 15, with a "A Light Opera Mirror," the celebrated concert production which is to be presented by the Redpath Artist Singers under the auspices of the Chelsea High school, was formerly soloist at one of the most interesting churches in America—the famous Little Church Around the Corner in New York City. This little church, tucked away in the heart of the city, has been the scene of many romantic marriages between persons of every class. Men and women in the social roster, famous actresses, European noblemen, notables of every description, have alighted "around the corner" to plight their troth at this quaint little church.

Mr. Steffen left the Little Church Around the Corner to enter the light opera field. He scored a great success in Shubert's beautiful production of "Blossom Time."

Mr. Steffen is especially effective in the role of Devilshoof, the gypsy chief of "Bohemian Girl." He will sing this role here in the Redpath Artist Singers' of Balfe's picturesque opera, which is one of the outstanding features of "A Light Opera Mirror."

In addition to Mr. Steffen, the personnel of the company includes a number of other distinguished singers—Mary Krukowski, soprano; George Benetky, tenor; Alma King, contralto. Magdalena Masamann, well-known concert pianist, is at the piano.

## University Press Club Convenes In Ann Arbor

Daily and weekly newspaper publishers of Michigan will attend the sessions of the 11th annual meeting of the University Press Club which will be held at the Michigan Union, Ann Arbor, Thursday, Friday and Saturday of this week.

The largest attendance in the history of the club is anticipated at this meeting. The speakers on the several programs are among the most distinguished newspapermen of the country, including Louis Wiley of the New York Times, George F. Milton of the Chattanooga News, Grove Patterson of the Toledo Blade, W. S. Gilmore of the Detroit News, Charles B. Dryckall of the McNaught Newspaper Syndicate, Senator A. H. Vandenberg, formerly of the Grand Rapids Herald.

On Saturday, members of the club will be guests of Fielding H. Yost at the Harvard-Michigan football game.

## Detroit Firm Buys D. J. & C. Railway

Scrapping of the equipment of the Detroit, Jackson & Chicago Electric railway between Detroit and Jackson will be begun immediately, officials of the Woodmen Scrap Iron and Metal company, of Detroit, announced Saturday. The latter firm bought the rails, overhead equipment and rolling stock of the railway concern for \$450,000. Interurban service over the line was discontinued a month ago.

The equipment included under the contract is 70 miles of rails weighing 70,000 tons, while the overhead system consists of 700 tons of copper.

## TACHEZ CLUB ENTERTAINED

The Tachez club was entertained Monday evening by Mrs. Ann Werner and Mrs. Josephine Roy at the home of the former, at a Halloween party. The rooms were decorated with black cats, witches and pumpkins. Three tables of 600 were in play and honors were awarded to Mrs. Mary Merkel and Miss Wilhelmina Burg. A delicious Halloween supper was served by the hostesses. The next meeting will be held November 18 at the home of Mrs. Mary Merkel.

## HONORED ON 81st BIRTHDAY

A dinner party given Thursday evening at the home of Miss Little Wackenhut honored the 81st birthday anniversary of Mrs. Clara Kingsley. A vine-covered pergola lighted with Jack-o-lanterns centered the table, while red candles in tiny holders adorned the birthday cake. Covers were laid for six guests.

Good News, Generally  
Senator Nye in a Hurry

The earth turns on its axis about 1,000 miles an hour, 25,000 miles in 24 hours. Because of its size, the earth's motion is slow. The same comparative rate of motion you could not detect any motion in a car wheel revolving once in 24 hours. However, as President Hoover just complains, there is something slow about that the senate's motion on tariff.

It has been considering a tariff bill, the President says, since June, with fifteen schedules to work out, and has not yet completed schedule 1.

Edsel Ford announces reductions in

Food prices, expressing the belief of the Ford organization that "basically the industry and business of the country are sound."

There is no better contribution to prosperity than to give buyers more for their money, when greater efficiency makes that possible.

It isn't how much money you get, but what you get for your money, that counts.

F. H. Ecker, president of Metropolitan Life, biggest insurance company in the world, replies to a question concerning recent Wall Street excitement.

"Drastic deflation of market prices of shares of common stock in no wise affects life insurance policies issued by companies whose investment policies, guided by laws, such as those of the state of New York, or the sound judgment of executives, excludes common stock from their holdings."

"More than ever this recent experience demonstrated that life insurance is the safest, most dependable repository for the savings of millions of our population, furnishing at the same time sound protection against loss which follows in the wake of death."

cultural department are to be congratulated on a fine achievement. More money than Wall Street could lose in a dozen panics would be saved if science could eliminate agricultural pests, boll weevil, corn borer and the rest of the army.

Excellent news comes from Florida as to the success of that state in dealing with the Mediterranean fruit fly. It has been a costly battle, but worth the money and trouble.

Samuel Insull and other big employers, following the example of Julius Rosenwald, supply money to protect employees from losses in stock speculation.

Henry Ford wouldn't agree with that. Two years ago when this writer mentioned certain stocks in which there were bound to be heavy losses, Ford said, "Of course. But that's the only way people can learn."

"Whether it is wise not to let nature take its course in gambling as in other things, is, questionable."

Senator Nye of North Dakota wants Wall Street and "all speculation sifted." What's more, he wants a remedy ready by February 1.

That's a short time for so big a job.

The Malay, in his breech-clout, bet on cock-fights.

The proud red Indian piles up his shirt and blanket, bets them on a proxy race, standing in dignified nudity.

Two ways of getting something: one is to work, the other to gamble.

Nine per cent of human beings prefer the gambling way.

That will be changed a good deal later than February 1, 1930.

You will be glad to hear that the Federal Reserve board says the Wall Street earthquake is over, public fears calmed.

It may be permissible to remark therefore, while the earthquake is still

fresh in many minds, that gambling is dangerous. And it isn't necessary. There are other, better ways of making a living in the United States. In addition to which gambling is NO WAY to make a living.

It used to be said, "Wise men take your profits." That has changed to "Wise men, take your losses," meaning, don't sell in a panic and regret at leisure.

Two more great oil fields have been found, one in Texas, one in Kansas. And it is called "a misfortune harmful to the price of oil stocks."

It ought to mean general satisfaction, proving the limitless wealth of this country. Unfortunately, oil companies and government combined have not learned to protect oil resources and prevent criminal waste.

## Oakland Sweeps Boards At Road Event In India

India, whose main highways resemble American back country detours, has recorded high honors to the Oakland Sweepstake Six, which swept the boards in a gruelling road contest of the type that once held popular interest in the United States.

The endurance contest was conducted by the Automobile Association of Bengal over a course extending from Calcutta to Jessore and return—a distance of 160 miles. The Oakland, not the latest type, but a 1928 model phaeton—was entered by a private car owner against a large field of foreign and American cars.

After flushing past the finish line, the owner returned to the judges' stand where the Oakland's tonneau was loaded with an imposing assortment of silverware. Included among the trophies which represented first prize in every major event of the contest were the Silver Cup; the Challenge Shield presented by the American Automobile Association of Bengal; the Veedor Challenge Shield for the best performance of the day, and a cup offered for the winner in the unlimited class.

A short time later Oakland's popularity among the motorists of India was further emphasized when another All-American Six was awarded first prize for beauty of design at the Mysore Exhibition, conducted during the "Dusseerah" or New Year of the Hindu calendar.

Mason—Traffic on U. S. 127 was blocked by a series of accidents about a mile north of Mason Sunday night of last week which for a time threatened to fill every garage in town with wrecks and every hospital with injured. Sheriff Hugh W. Sigby, who responded to the call for aid and who had parked his car at the side of the highway well off the pavement, was among the victims, fenders and running board being stripped from one side of his car when one car stopped too quickly for another following.

Williamston—Lavern Clark, Fenton, was held up and robbed by fake officers while on his way home last Saturday. The holdup occurred about two and a half miles from Hartland in Livingston county. The thugs succeeded in getting only a few cents from Clark as he had left most of his money at home.—Enterprise.

Stockbridge—The Stockbridge Fire Department was called to the old Henry Akeley farm, southeast of this village, Sunday night, about 11:30 p. m., where fire destroyed the barn and contents including the hay. The flock of sheep has not been checked as yet, owing to their fright. The farm was untenanted.—Brief-Sun.

Manchester—R. F. Burtless of Lansing, son of Mrs. Wm. Burtless of this village, has been appointed by Governor Fred W. Green, executive secretary of a commission created by the last legislature to study the entire tax situation as it affects Michigan and to make recommendations to the next legislature. The governor appointed three members of the house, two from the senate and four citizens from various parts of the state. Mr. Burtless was secretary of the State Tax Commission for many years, but has since been connected with the Garlock-Chrysler Sales department.—Enterprise.

Tecumseh—A public reception and banquet for the members of Tecumseh High School football squad and their coach, M. E. Wilson, will be held in the school's gymnasium on the evening of December 3, according to an announcement on Tuesday by Dr. R. G. B. Marsh, chairman of the Rotary club's program committee. Dr. Marsh is cooperating with the Commerce club in the banquet reception, and he made it plain that every person in Tecumseh interested in the school and its football team is invited to attend.—Herald.

South Lyon—The pupils of the high school in this village have organized a band.

Porterville—It has been reported by a number of local hunters that since last Saturday game around a certain locality south of town, especially near the town of Stockbridge, has been very scarce and no one seemed to be able to account for the scarcity until it finally leaked out that Gov. Fred W. Green, State representative Lynn Gardner and postmaster Clarence Fuller, bombarded the small game in that locality on Saturday last. We have been unable to learn the exact number bagged, but of course we presume they got their limit.—Review.

Milan—At the meeting of the State Administrative Board early last week, the body approved the Urania site as the location of the new \$7,500,000 psychopathic hospital. After several weeks investigation and the consideration of more than a dozen possible locations for the new hospital, the York township site was chosen. The land consists of more than 1,200 acres, lying at the north edge of York township and about 80 acres across the line in Pittsfield township. The old siding of the Ann Arbor railroad at Urania Station is included in the property purchased by the state. The property also faces on the new Federal Highway, US-23, which will be completed next year.—Leader.

## Best Flowers Sent To Annual Exhibit

Southern snail and northern spruce will be used as a background for the 10,000 choice blooms which will be displayed at the Flower Show to be held at Michigan State College, November 15, 16 and 17.

The flowers will be only a part of the attractions, as apples, vegetables, honey, and nuts will compete for prizes at the same time.

Prize money in the various divisions will total \$3,500 and many cups and other awards are offered for prize winning displays. Announcement will be made of the prize winners in the contest for submitting the best varieties of walnuts and hickory nuts.

The use of floral displays for weddings, dinners and other social occasions will be shown by arrangements of flowers prepared by Michigan florists.

## Advise Buying Ewes During Fall Months

Recommendation that breeding ewes be bought in October and November is made by the animal husbandry department at Michigan State College because ewes can usually be obtained at a lower price during those months and the buyer also has a larger number from which to make his selections.

The purchase of ewes from breeders who live near the buyer is also advised. If the buyer sees the animal before they become his property, many misunderstandings can be avoided. The buyer can also examine the conditions under which the animals have been kept and can judge whether the flock is apt to be free from parasites.

Western ewes can often be purchased more cheaply than native stock. These animals are not native to Michigan and the buyer is unable to see them before he receives them on his farm.

Two three-year-old ewes are most desirable. They are proved breeders; their owner may expect less trouble at lambing time. The animals should be healthy and should carry a good udder. A firm dense fleece attached to a pink skin indicates good condition.

Good breed type and an absence of coarseness in body conformation are other points which should be noted before the ewe is bought.

## More Death To Poor Stomachs

After deciding to give Voco Stomach Preparation to the public, we were astounded at the rapid demand and distribution it attained. We traced many of the orders we received to the people of Northern Michigan, who had wonderful success in correcting their stomach troubles and had written to friends and relatives throughout the United States.

We received orders from practically every State in the Union; some wanted it for acid stomach, some for indigestion, others for ulcerated stomach and some for the "morning after." From the replies we were absolutely convinced that it will correct any stomach trouble.

Today thousands are carrying it in their bags for emergency. No matter what you have taken, write us for a FREE three days treatment and be convinced yourself. One dose proves it—not to be confused with patent medicines. Voght Laboratories, Escanaba, Mich.—Adv.

Dexter—Miss Irma Ernst, daughter of Mr. and Mrs. Ferdinand Ernst, became the bride of Jack Blanchard, son of Mr. and Mrs. Harvey Blanchard, at a quiet wedding ceremony solemnized Wednesday of last week in Ann Arbor.

**Question And Answer Dept.**

**Ques.**—Since Gene Tunney retired as the undefeated heavyweight champion, who is the title now goes to?

**Ans.**—According to the New York Boxing Commission the heavyweight championship title automatically reverts to Jack Dempsey, from whom the title was won by Tunney.

**Ques.**—I know a shoemaker who has three wives living. Is he classed as a bigamist?

**Ans.**—Not if he sticks to his "last."

**Ques.**—I would like to know if the United States and Canada respectively keep up their half of the expense of maintaining Niagara Falls?

**Ans.**—There is a pact between Canada and the United States in which the expense of upkeep of Niagara Falls is equally divided.

**Ques.**—I am told that salmon die immediately after they get through spawning. Is that the truth?

**Ans.**—Yes. As the spawning season approaches those fish work their way as far as possible up streams. Some species work their way up brooks so shallow that their backs stick out of the water. They get very thin, their eyes become sunken, their appetites grow less and less, their throats begin to narrow and their stomachs shrink until they become entirely incapable of receiving food. After they have spawned they turn over and die, leaving great quantities of rotting carcasses on the banks of creeks and rivers.

**Ques.**—Is it true that there are no two things exactly alike?

**Ans.**—It is true. So far as science has been able to learn, there are no two objects exactly alike in the world, whether natural or artificial. No two leaves or snowflakes, no objects manufactured in a factory, are alike. Scientists believe that even each infinitesimal atom composing the elements differ from all the rest.

**Ques.**—Is it a fact, as reported, that Herbert Hoover, president of the United States, is a millionaire? If so, how did he get it?

**Ans.**—Yes. It is estimated that the wealth of Herbert Hoover, president of the United States, will exceed \$10,000,000. He accumulated the bulk of it as a mining engineer.

**Ques.**—When a bullet is fired from a gun, how far will it travel before it hits the ground?

**Ans.**—That depends upon the speed of the bullet. A bullet begins to drop the instant it leaves the muzzle of the gun. The action of gravitation is the same on all bullets of all other conditions are equal. If a bullet is fired from a gun elevated ten feet from the ground, and another bullet the same size and weight is dropped from the hand at the same height and at the same time, the gun is fired, both bullets will strike the ground at the same instant. One will be at your feet, while the other (the one fired) may be two or three hundred yards away. In other words, gravitation is the same, no matter how slow or how speedy the bullet may be.

**Ques.**—Will you answer in your good question department how long the Yukon River is?

**Ans.**—The Yukon river in Alaska and Canada is a little over 2,800 miles long. In North America it is only surpassed in length by the Mackenzie and Mississippi rivers.

**Ques.**—Can you tell me in your question and answer department why "red" makes a bull mad more than any other color?

**Ans.**—It is a general belief, but an erroneous one, that bulls become infuriated at the sight of red. This is a myth. All cattle distinguish one color from another. It is the bright color that attracts the bull. For that reason bullfighters wave a piece of bright colored cloth at the animals in the arena. Red is a favorite color for this purpose. Hence it is the brightness and not the color that maddens the bull.

**QUALITY so fine that half the world doesn't realize that Buick is priced so low!**

It is an impressive fact that men and women are buying from two to five times as many new Buicks as any other car priced above \$1200. Moreover, during August and September, Buick monopolized its market to such a degree that it won 41% of the total sales of the 15 makes of cars in its price class. And yet this marked preference for Buick would be still greater if all motorists realized that they can buy six of the fourteen luxurious Buick body types for less than \$1300, f. o. b. factory.

These are Buicks through and through, embodying the full array of Buick quality features: Buick's new and surprisingly beautiful Bodies by Fisher; the famous Buick Valve-in-Head engine—most powerful engine of its size in the world; Buick's new Controlled Servo Enclosed Mechanical Brakes; the new Buick steering gear; new Road Shock Eliminator; and Buick's new, longer rear springs with Lovejoy Dual-draulic Shock Absorbers.

The new Buick, with these features, will introduce you to new and unequalled performance, driving ease, riding comfort and reliability on any day you put it to the test. And yet these six Buick models are offered at the price of cars which motorists never think of comparing with Buick!

Visit our showroom. Bring your present car. Learn how easily you can obtain one of these new Buicks. All are available on the extremely liberal General Motors time payment plan.

In addition to these lower priced models, Buick offers eight other distinguished body types, representing the ultimate in luxury, and priced from \$1465 to \$1995, f. o. b. factory.

# Hudson Essex

SUPER-SIXES  
They are going fast. This is your greatest opportunity, so act promptly

At no extra cost—Bumpers front and rear—extra tire and cover—tire lock—4 hydraulic shock absorbers, electric range for fuel and oil on the dash, radiator shutters for heat control, all bright parts chromium-plated, saddle lamps, windshield wiper, glare-proof rear view mirror, controls on steering wheel, electric lock, new type double action 4-wheel brakes.

On that basis, buying your new car now is like finding money. It means you can have the pleasure and comfort of a new car at once, and save real money by doing so. Plainly, then, you can't afford to wait.

More People Buy Hudson-Essex Cars than Any Other Six in This Field

Leadership in quality has for years given Hudson-Essex outstanding public favor.

More than 1,000,000 Hudson-Essex cars in service, and this year the greatest sales in our history are simply the results of giving greater value that was ever offered in fine automobiles.

There can be no proof so convincing as the praise bestowed by Hudson-Essex owners, and the fact that these cars continue, as for years, the outstanding sales success of motordom.

## Wrong Sprays Waste Dollars In Orchard

Flinging dollar bills to the winds and the use of spray mixtures on Michigan fruit trees are equally bad economic practices, in the opinion of the horticultural department at Michigan State College; and, in an attempt to lessen wastes, the department has arranged a course of instruction in the use of spray materials to be held at the College Nov. 19-21.

Instructors and specialists from the College staff and other men familiar with spray materials will conduct classes for dealers, county agricultural agents, fruit exchange managers, and growers who enroll in the course.

Problems donated by Michigan orchardists by the Old World will be up for discussion when the control of the European red mite and the Oriental peach moth appear on the program.

In addition to the instruction on how to avoid insect and disease injuries, the students will be told how to avoid injuries caused by improper uses of the sprays themselves. Spray residues are another subject for discussion. New methods of combating old enemies will be topics for lectures, and those enrolled in the course will get some first-hand instruction in spray mixtures by the actual mixing of materials in the College laboratories.

SCHOOL NOTES

Chapel period opened Tuesday with the usual bang. A song was sung by the assembly and our friend Rev. A. E. Potts read to us from the Bible and then gave a mighty fine talk on "The Youth Problem of Today." He brought out many strong points and put them across as only he can. One of the finest points he brought out was that environmental changes had little influence upon the youth of today but that the bestowal of God-given rights from childhood to maturity was the crowning factor in determining of one's morality and spirituality of character. We enjoyed listening to Rev. Potts and hope to have him with us again.

Two playful kittens took the part played by the widow O'Leary's cow in the Chicago fire when they upset a lantern at Big Rapids and started a \$4,500 conflagration. Lafayette Smith was milking by the light of a lantern in his barn, when the two kittens in frolicking about upset the lantern and fired the barn, burning with it a quantity of hay and grain.

Leon Allen, 22 years old, of Saginaw, was killed while hunting with four friends, eight miles north of Mottville. The accident occurred when Alex Anderson raised his shotgun to fire at a rabbit. The charge struck Allen, who was standing a few feet in front of him, in the neck. Connor Haultbus-Gugel declared death was accidental.

Twenty-one fingerling brook trout were taken from a trout-blue-heron, killed by Guy Lincoln, overseer of the Otter fish hatchery, according to a report made by Lincoln to the fish division of the department of conservation at Lansing. The fingerlings were believed to have been taken from the Otter rearing point.

There are more mallard ducks in the Monroe marshes than ever before at this time of the year, according to Henry Dubay, well known fisherman and hunter. They are also much heavier. Dubay attributes this condition to the fact that the birds had received excellent food elsewhere before reaching Monroe.

SIX CYLINDER SENTENCES

By DR. JOHN W. HOLLAND  
Nature puts lazy men to work digging their own graves. Time, a word, an arrow, and a thought, never return. He who knows pride in his knowledge shows his own ignorance. The noblest private motive we may have is love of the public good. The man whom you would be willing to swear is a fool, would be glad to take oath that you are one. I have heard Christians complain that an hour at church was long. Then they will sit three hours at a show.

## SLAT'S DIARY

Friday—my little home was very comfortable this evening to the Jr. member of our family when I got home from school this p.m. on acct. of sun grades I got witch didn't mean—with me's a provol. She seemed to think that my nuptial was near high noon and she got new as above several D-merts I got all so. But I don't see why she should ought to worry about my grades I am the 1 witch has got to suffer by failure.

Saturday—I that we was all set to go to the pitcher show tonight. Pa and me was going to the show while me went to a Community meeting but when pa found out it was a tawky pitcher he wouldn't go because he said he couldn't sleep when they was a tawky. So we stayed home and I hit the hay early because I can't stay awake just think about a pitcher.

Sunday—They was a new kid in are class at Sunday school today and he looks to me he is a tuff bird and we didn't play many jokes on him yet till we ne a little more about his disposition. The teacher told him she hoped she would meet him in heaven and he said, Well if you are a real good girl and don't swear and smoke Cigaretts meby you will have sun luck. I guess we will let him alone for a while.

Monday—Pa was looking over me to nite because I ben in a flite. He said whenever you get mad you must try not to say anything mean no strike a tick. But if you don't say nny thing mean no strike sun buddy why is praves that you're not mad.

Tuesday—About a 1/2 dozen of us was invited down to Illisters house tonight and at pa's own apples on me it was his birthday and I tried to dance with the girls but they was very poor dancers and there it was all ways a getting under mine.

## Daily Thought

The test of friendship is its fidelity when every charm of fortune and environment has been swept away, and the bare, undraped character alone remains. If five side-jobs, steadfast, and the joy of companionship survives such an hour, the fellowship becomes a beautiful prophecy of future unity. Hamilton-Wright-Mable.

THROUGHOUT THE HOME YOU CAN DO IT BETTER WITH GAS

Catching "Hot"

Instead of

Catching "Cold"

A prominent physician has said that, contrary to popular belief, most people catch "hot" instead of "cold." It is undoubtedly true that stuffy, overheated

rooms and sudden changes of temperature are a menace to health.

Science endorses unfailing, easily controlled Gas Heat as a means of combating the cold and its resultant ills. A constant, even temperature in the home is frequently a more effective health measure than full medicine chests. This is particularly true when there are children in the home.

Gas-fired furnaces are today being installed in hospitals and homes where it is imperative that healthful heat be maintained at all times. Can you afford to disregard its never-failing protection and comfort?

Highways

and

The Telephone

From woodland trail to corduroy and dirt road; then gravel, macadam, concrete—thus, our highways have evolved.

Yesterday, we traveled twenty miles a day behind a spirited mare; today, we ride one hundred miles of an evening, in a motor car. Yesterday, travel was momentous; today, it is incidental.

From smoke signal and moccasined runner to pony express; from pony express to fast mail; fast mail to long distance telephone—thus, communication has evolved.

Yesterday, we wrote long letters and waited days, weeks, or even months for a reply; today, we lift a telephone receiver and, in a few seconds, have an answer. Yesterday, communication was laborious; today, it is effortless.

Michigan is building one of the finest highway systems in the United States, linking her cities by means of splendid concrete roads and opening a paradise of lakes and forest to all her people and to thousands of visitors.

The Michigan Bell Telephone Company, too, is building highways, modern voice wireways, comparable in every way with the finest concrete roads; these wireways link every section of the state. Michigan's telephone wireways are partners of her other highways of commerce, and an important part of a universal telephone system.

Highways and wireways have helped develop our state, its commerce, prosperity and social life, and wherever your motor takes you over the fine, wide roads of Michigan, you also will find a voice wireway leading to your home and office.

Our policy—"To continue to furnish the best possible telephone service at the lowest cost consistent with financial safety."
