Former Resident Is Murdered In Detroit

George Mast, a former resident of Chelsea, was "taken for a ride" and murdered in Detroit Sunday morning. The body was found at 8 o'clock Sunday morning in an alley at the rear of 8080 Conger avenue.

Though he was completely dressed, Mast's hat was not found and police believe he was killed elsewhere and his body carried to the alley. A deep, zigzag mark about his neck is taken by detectives to indicate he was strangled with a length of heavy, crooked wire.

Mast was at one time an undercover prohibition operative. According to a statement by Thomas H. Brennan, assistant prohibition administrator of Detroit, Mast was not a federal agent but had been used on some occasions as an informer. He had not, however, been employed in that capacity for six months.

The deceased was 28 years of age. He lived for many years in Chelsea with his grandmother, the late Mrs. George Mast. He is survived by the widow and a daughter, three years of age.

Funeral services were held in Detroit today at 1 o'clock and the remains brought to Oak Grove cemetery, Chelsea for interment. Short services were conducted at the grave, Rev. A. A. Schoen of Farmington, officiating.

Legion And Masonic Teams Win Monday

The American Legion volleyball team emerged victorious in their game with the Odd Fellows, and the Masons won from the K. of P. team in the first games of the season at the public school auditorium Monday evening.

To be declared the winner, a team must win three out of five 15-point games, according to the rules of the league. Both the Legion and Masonic teams won three straight from their opponents Monday evening.

The scores of the Legion-Odd Fellows games were 15-0, 15-7, 15-7. The K. of P. scored 10, 10 and 7 against the Masons.

Next Monday evening the Legionaires will oppose the K. of P. and the Odd Fellows will play the Masons, in the second of the series of games scheduled.

The public is invited by Mr. Harper to call and inspect the many improved features of this new and lowest-priced "V" type eight.

SPECIAL ELECTION TO BE HELD IN VILLAGE MONDAY, FEBRUARY 3

Election Will Be Asked To Approve
Loan Of \$50,000.00 To Complete
Sewer System.

In this issue of the Standard will be found resolutions and notices of a special election to be held in the village on February 3rd next, in regard to the Chelsea Sanitary Sewer System.

It seems that the previous council on January 6, 1929 entered into a contract with G. Van Pamel and Louis Gekiere to construct the sewer according to plans and specifications prepared by George Champe.

After these contractors began their work it was discovered that this original contract made no provision for lateral or house connections with the main sewer and another and supplemental contract was made on April 22, 1929 providing for such connections at the time of laying the sewer.

At the time of making this contract it was evidently the intention of the council to pay the contractors from the surplus funds in the general fund of the village and to borrow the balance.

The question as to how the village can legally borrow about \$50,000.00 to finish paying for and complete said system has come up, and the village has no legal right to borrow money and expend it for such an improvement without its being first ratified by a three fifths vote of the taxpayers of the village.

So this election is called for the purpose of giving the Chelsea taxpayers a chance to confirm and ratify the action of the council in making these two contracts and in paying out about \$45,000.00 from the general fund and to authorize the council to borrow \$50,000.00 to complete this sewer system.

If such three fifths vote is received there will be no special assessments spread upon any individual property and the cost of the sewer will be paid for in about five or six years from the surplus in the general fund each year, which for the past several years has amounted to nearly \$10,000.00 per year.

The village will be put to extra expense in repaving its streets and putting them back into its good shape as before they were torn up for the sewer installation, which will also have to be met the coming season.

We surely have a right to be proud of our village, which has no public debt, and had such a splendid surplus on hand to start this much needed improvement and when it is completed we will have a splendid sewer system and it will all be paid for in a very few years and no one will feel it.

This proposition should meet with the hearty approval of every taxpayer in the village.

Chelsea High Wins From Manchester

The boys easily defeated Manchester last Friday at the official opening of the basketball season of Chelsea High. The score was 43-0. Chelsea had scored 24 points before Manchester made their first basket. The score at the end of the first half was 24-2. The Varsity was at top form, every fellow working fine.

Chelsea took the lead at the beginning and held it throughout the game. The starting line-up was as follows: H. Holmes, rf; D. Holmes, lf; R. Foster, c; G. Griffin, rg; C. McLaughlin, lg.

The preliminary game was played by the high school girls. They defeated the Manchester girls with an easy score of 24-6. The girls played a very good game of basketball and held leading score throughout the game. Several substitutions were made in the game, giving each a chance to play. The line-up was as follows: Turnbull, rf; Guide, lf; Kinsey, c; Finkbeiner, rg; Dancer, lg; Lixey, rg.

The substitutions were: Britton, forward; Adams, center; Hopkins, running center; Benson, guard; and Stiffan, guard.

The Reserves played an alumnae team. They were defeated 9-8. The Reserves were handicapped because of the alumnae previous experience, but held them at a low score. The line-up was as follows: Wallace, rf; Baxter, lf; Lixey, c; Kern, rg; R. McLaughlin, lg.

Annual Masonic Banquet Tuesday

The annual Masonic banquet will be held at the public school auditorium Tuesday evening, January 14. Ladies of the Methodist church will serve the banquet at seven o'clock.

Lynn W. Kern, local Dodge Brothers dealer, has on display at the old D. J. & C. waiting room, one of the new 8-In-Line Dodge Brothers motor cars which was announced by the company last Saturday.

The new 8-In-Line is very attractively priced, is very beautiful in design, and with the new 8-cylinder motor is designed for real performance.

Mr. Kern will hold a special showing of the new eight as well as the new Dodge Brothers six at the old D. J. & C. waiting room Saturday and Sunday, and extends an invitation to the public to call and inspect these new cars.

Hoover Re-Nominated By President Hoover

President Herbert Hoover on Tuesday of this week sent to the senate the re-nomination of Postmaster Orrin T. Hoover of Chelsea for another term of four years.

If Mr. Hoover serves another term of four years in the Chelsea postoffice it will complete a few months more than twenty-five years of service as postmaster here. He was first appointed postmaster in February, 1903, serving until March, 1915. He was again appointed to the position in December, 1920, and has been in continuous service since that time.

France Gets the Gold

We're All Richer
New Theory of the Universe

The Sorrows of Wall Street

Some worry because gold is going abroad: \$7,250,000 was shipped to France on the Berengaria, making a total shipment of \$105,000,000 gold for the month.

You admire French financiers when you hear that they got \$80,000,000 of that gold.

How do the French do it? They work and they save.

As your debts diminish you automatically become richer. The people of the United States became richer by about a thousand million dollars during 1935.

Mr. Mellon's statement shows that in twelve months the national debt has been reduced by one billion and nine million dollars.

U. S. Uncle Sam collected his foreign debts as efficiently as he collects from taxpayers at home; we'd be clear of debt soon.

In Germany Mennonite refugees from Russia, encamped with their children, are stricken with a strange disease. Forty children died in a few hours. Many were sacrificed because their mothers did not want to do so. Following a Mennonite custom of substituting prayer for medical attention: "That method no longer works. 'Know the truth, and the truth shall make you free.' Includes scientific medical truth."

The son of a king who soon he married and 6000 will be freed from prisons, by way of celebration.

What seems strange in America is a custom old in Europe.

After Admiral Nelson brought his ship into the Bay of Naples, he sent a message to the king and queen and the French revolution, many convicts were set free to celebrate.

And kings, on mounting the throne, have often accepted persons as a sign of joy.

The National Surety company has issued a policy of \$50,000, guaranteeing against the suicide of a man insured within the next two years. The man borrowed money. The bank lending it wanted the added security.

That's how in insurance.

The Journal Post, James MacLure of Dartmouth, brings forth a new theory of the universe, pushing Platonism and relativity into the background.

The universe possesses a radiation of super-frequency and super-penetration, pervading all space.

The ether, which Einstein eliminated, returns, but it is a dynamic, not a static, ether.

That deep news interests a few. Secretary Mellon says 1936 will be a super year, money abundant, interest rates low, business good.

That interests everybody, violently. Infinite time, space and ether will take care of themselves; 1936 and business must be attended to at once.

Now that the "big wind" that swept through Wall Street, blowing away paper profits, has died down, there are sad hearts, but no real losses.

Apparent values, born of lunghana, cloth and outrageous issues of watered stock, have shown by more than twenty-three billions of dollars in three months.

But our national property is all here, including the nicely printed watered stock.

What one common sense does is a few "public utility concerns" and prints 60,000,000 shares of wind and water, with 2,000,000 shares of preferred and heaven knows how many obligations of the assembled companies ahead of the 60,000,000 shares, something must happen. It did happen.

Among all the sorrows of Wall Street, however, bright spots stand out. Actual dividends declared in 1935 up to December 28 totaled more than \$4,402,000,000, an increase of more than a thousand million dollars over 1934.

We are really not poor, only a little discouraged, some of us, at the idea of beginning over again.

How the years drag for the young! How they fly for the old!

A man past sixty knows that it is only a step to 1931.

A child cannot believe that another Christmas will ever come.

The earth, according to scientists, will last millions of millions of years, but a thousand years in the sight are

but as yesterday when it is past, and as a watch in the night."

But that is no excuse for not getting the best possible results from each of 1936's 365 days.

You have, gentle readers, about 110, 305,000 American brothers and sisters. The bureau of economic research puts our population at 110,305,000, including you.

We have increased 14,000,000 in ten years, while keeping out, largely, the "unfit European population that breeds crime," according to advocates of restricted immigration.

But we have not kept our crime level. We have plenty of that.

MORE INVASION OF
PRIVATE RIGHTS

The interference of government with private rights, and the control of their own lives and affairs by private citizens is growing constantly. This is true of both nation and state.

Meddling government officials and inspectors are interfering with business and personal privileges to an extent that is becoming oppressive.

There is a constant demand and pressure on congress and legislatures for more and more power backed by oppressive legislation.

The latest move in this direction is the bill introduced by Senator Smoot in congress.

This bill would give the food and drug department arbitrary control of the advertising of food and drug products, a power no governmental bureau should be given.

There is already on the statute books laws against false advertising that, if enforced, will fully protect the citizens.

There are also ample laws against impure and adulterated food and drug products.

To give a bureau censorship and control of advertising of food and drug products is carrying bureaucracy to a degree dangerous to private rights and wholly uncalled for by existing conditions.

A decided halt should be called to this invasion of the affairs of citizens of the government.

A nationwide protest has gone up against the Smoot bill that congress should heed.

Pawnees' Odd Tribes

The Pawnees were the only American Indians who practiced human sacrifice. Aztecs and other tribes in Mexico sacrificed to their gods, but no other Indians north of the Rio Grande practiced this rite. The Pawnees were different in language, habits, religion and all else from the other North American Indian tribes.

"KONJOLA ONLY" MEDICINE THAT DID ANY GOOD

Nervousness And Stomach Trouble Vanish When New Medicine Goes To Work.

MR. HENRY MULDER

"Konjola is the only medicine that did any good," said Mr. Henry Mulder, 415 Graham street, SW., Grand Rapids, Mich., "and I endorse it because what it did for me I am sure it will do for others. I was in a highly nervous condition for some time. This was no doubt, due to the misery I suffered from stomach trouble. After every meal I had gas pains and due to pressure my heart palpitated. I became weaker and weaker as first one medicine and then another failed to bring relief."

"More to please my friends than anything else I decided to try Konjola after they kept insisting that it was just what I needed. And that's what Konjola proved to be—just the medicine I needed. Quickly my indigestion was restored and my nerves quieted. Surely my case is a mighty good proof of Konjola's merits."

Konjola is sold in Chelsea at Burg's drug store and by all the best druggists in all towns throughout this entire section.

life of more than sixty-one years, he passed away last June. They had always lived in this vicinity, excepting about eighteen years spent in Dakota. She leaves a nephew, John R. Kempf, and his daughter, Mrs. E. J. Cupper of Detroit, and a niece, and a daughter, Mrs. E. H. Close of Toledo, and Mrs. Walter J. Barker of New York.

Funeral services were held in the auditorium Wednesday afternoon at 1:30, conducted by Revs. F. I. Walker and W. J. Balmer. Interment beside her husband in Oak Grove cemetery.

TWENTY-FOUR YEARS AGO

Thursday, January 4, 1906

The publisher of the Chelsea Standard and the paper in the future will appear under the heading of the Chelsea Standard-Herald. The Herald was established in 1871 and the Standard was started in 1880. Mr. Mingay retires from the local newspaper field to accept an attractive position in a large field of newspaper work.

Michael Schanz, Jr., died at his home in Lima, Saturday morning, December 30, 1905, from heart disease. He was 28 years of age. He is survived by his wife, two children, his parents and several brothers and sisters. The funeral was held Tuesday from St. Mary's church, Rev. Fr. Considine officiating. Burial in Mt. Olivet cemetery.

Geo. T. English, secretary-treasurer of the Northwestern Washtenaw Farmers' Mutual Fire Insurance Co., has issued a call for the annual meeting of the stockholders, which is to be held in the Sylvan town hall on Wednesday, January 17.

E. H. Chandler has sold his dry business to B. H. Glenn. Mr. Chandler has accepted a position with the Glacier Stove Co. for the coming year. Frank Leach has purchased the residence on Jefferson street known as the Twimley place.

The Chelsea barbers have advanced the price of hair cutting from 15 to 25 cents.

The bans of marriage between Geo. Edward Sumner and Miss Ella Breitenbach were published Sunday in St. Mary's church. The wedding will take place Tuesday, January 9.

The marriage of Miss Pearl Duart and Mr. Miles Alexander took place at the home of the bride's parents in Anderson, Michigan, December 27, 1905. Rev. Emerick of Pinckney, officiating. The young couple will make their home in Chelsea.

As the Standard-Herald goes to press it is reported on the streets that Wilson West of Sylvan died in the hospital at Ann Arbor early this morning.

Mrs. G. Grau died at the home of her son in Freedom on Tuesday of this week. Mr. and Mrs. Grau were residents of Chelsea for several years. The husband and sons are the surviving family.

The Eiselo Brothers have taken the contract for the mason work for the new parish school of St. Mary's church.

Mrs. Patrick Kelley of Pinckney, mother of John Kelly of Chelsea, died at her home on New Year's day. Rev. Fr. Considine, her former pastor, is assisting in the funeral services today in St. Mary's church at Pinckney.

THIRTY-FOUR YEARS AGO

Thursday, January 2, 1896

Walter H. Dancer, having moved to Ann Arbor, has resigned as supervisor of Lima, and the township board has appointed Mason Whipple as his successor.

The marriage of Miss Myrta, daughter of Mr. and Mrs. C. H. Kempf, and Mr. Clarence J. Chandler took place on New Year's day in the Chelsea Congregational church. The officiating clergymen were Revs. W. H. Walker and Thos. Holmes. Over 300 guests were present. The couple will make their home in Chelsea when they return from a short wedding trip in the East.

Bert Gerard is now employed in the office of the H. S. Holmes Mercantile Co.

Hiram Lighthall has his saw mill on North street running full blast and has several weeks work ahead of his mill.

The marriage of Miss Jessie Bush and Mr. Wm. Eisenbeler, both of Sylvan, took place Thursday, January 2, 1896, at the home of Mr. and Mrs. Lewis Winans of Chelsea, Rev. C. L. Adams officiating.

Married, on Thursday, December 26, 1895 in Fresno, Calif., Miss Emily J. Boyer and Mr. Geo. D. Schatz, both of that city. The bridegroom is a son of Mr. and Mrs. Joseph Schatz of Chelsea.

Mr. and Mrs. Frank F. Brooks on Christmas day celebrated the 20th anniversary of their marriage. The event was a surprise to the couple and was arranged by their relatives and friends. About fifty were present and they were presented with two upholstered chairs and some silverware.

The Taylor Bros. held their annual reunion on New Year's day at the home of Mr. and Mrs. George Taylor of Lima.

Show Plans Ready For Farmers' Week

Farmers' Week visitors at Michigan State College February 3 to 7 will see the prize samples of field crops produced in the State this year and also livestock which turned back all competitors at the Chicago International Stock Show.

Six shows are already listed for that week. The livestock will be shown at the Little International where students have charge of fitting and showing of the animals. This show will replace the livestock parade which has been a feature of other years.

Michigan grains and seeds will compete and the winning samples sent from this state to the Chicago Hay and Grain Show, will be exhibited. Winners of the five-acre corn growing contest will be announced and an exhibit will show their methods of producing the crop.

The best samples of potatoes from the seven sectional shows previously held in the State are to compete for championships. Michigan's 300 bushel

potato club members are to be announced during the week.

A new show to be held for the first time this year is the colt show which will bring together prize winning colts from the contests held at various fairs last fall. These colts are entered in the Michigan colt production contest.

A rural electrification show will have exhibits of all the latest developments in farm machinery and equipment adapted to that form of power.

Plymouth—One hundred seventy-six persons of Plymouth and vicinity were on the annual Christmas list of the Kiwanis club this year, and none of them were forgotten. Everything, stockings to candy was in the baskets that were distributed to Plymouth's needy by the committee. On the day before Christmas a big sleigh, was hauled high with gifts, and Santa Claus, in full uniform, assisted his helpers in distributing the gifts.

Use for Apricot Kernel

Until chemists learned to free the kernel of the apricot seed from its bitter quality it was considered waste material. Now, owing to its similarity in taste to the almond, extract from the kernel is used in flavoring macaroons.

FREEDOM TAXPAYERS

I will collect taxes on the following days: Union Savings Bank, Manchester, December 27th; Bridgewater Savings Bank, January 3rd; Kempf Commercial & Savings Bank, Chelsea, January 4th; Union Savings Bank, Manchester, January 7th.

ROBERT HIEBER, Freedom Twp. Treas.

WISE AND INEXPENSIVE

The wisdom of carrying adequate insurance on your property is freely acknowledged by property owners and they are prompt to arrange for full coverage when they find how small is the extra cost.

Have you seen the actual figures showing the low cost of full coverage on your property? Let us show them to you.

Today

- Chevrolet announces

THE GREATEST CHEVROLET

IN CHEVROLET HISTORY

Today, Chevrolet presents the Greatest Chevrolet in Chevrolet History—a smoother, faster, better Six—with beautiful new bodies by Fisher.

Basically, it is the same sturdy, substantial Six which won such tremendous popularity in 1929. But it is a greater car in every way—for there are scores of vital

improvements which contribute to comfort, performance, endurance and safety!

An improved six-cylinder valve-in-head motor, with its capacity increased to 50 horsepower; four Delco-Lovejoy hydraulic shock absorbers; fully-enclosed internal-expanding weather-proof brakes; a new dash gasoline

gauge; heavier and stronger rear axle; new Fisher non-glare windshield; larger tires—

—these are typical of the many improvements which make this car the Greatest Chevrolet in Chevrolet History.

But most impressive of all—this smoother, faster, better Six has been made available—

- at greatly reduced prices!

During 1929, more than a million three hundred thousand persons bought six-cylinder Chevrolets. This enormous volume has made possible many savings in the Chevrolet factories—and, in keeping with its long-established policy, Chevro-

let is sharing these savings with the public. No written description can do justice to the extra value and quality provided in this new car. Visit your Chevrolet dealer—see this car—ride in it—and judge for yourself its sensational value.

Dr. Lewis J. Paul Weds Charleston, Ill., Girl

At four o'clock New Year's afternoon, the marriage vows were exchanged by Miss Helen McNutt, daughter of Mr. and Mrs. Fred McNutt and Dr. Lewis J. Paul of Chelsea, in the McNutt's rural home, near Charleston, Ill. The single ring ceremony was performed by the Rev. Harry B. Lewis of the Methodist church of that city, in the presence of relatives and a few friends.

A canopy of green Arbor Vitae and white chrysanthemums was erected before the east window in the living room. The bridal party stood beneath the canopy during the ceremony. The entire house was decorated with Bilar Cliff-roses and Stavia.

Miss McNutt wore a beige chiffon gown, lace-trimmed, of the new silhouette lines. She carried a show-bouquet of gladioli, lilies-of-the-valley and Calliopsis. Her sister, Miss Frances McNutt, acted as maid of honor. Her dress was of blue chiffon velvet. Her arm bouquet was yellow roses, white sweet peas and Stevia. Robert Thrall was best man. The bridal party entered the living room to the strains of "Lohengrin's Wedding March," played by Miss Ruth Connor, a cousin of the bride, from Toledo. Mrs. Maurice F. Reman sang the ever beautiful "Oh Promise Me."

Mrs. Paul attended the Charleston schools. In 1920 she was graduated from the Teachers College and for the past three years taught the Fair Grange school, near Charleston, with marked success. She is popular with a large circle of the younger people of Charleston.

Dr. Paul, son of Mr. and Mrs. L. R. Paul of Dayton, Ohio, was graduated from the Chicago College of Osteopathy in 1925. He is a member of the Phi Kappa Psi fraternity. At present he is practicing in Chelsea, but was formerly located in Charleston.

A reception followed the wedding ceremony. After the usual congratulations, best wishes and refreshments, Dr. and Mrs. Paul left by motor for Chelsea, where they will be at home to friends in the Bohnet apartments, Orchard street.

Boomerang
A railroad man was ready to make his usual run. His wife instructed him to get her some turkey eggs to eat. In passing through a small town a city country had approached the same. He asked him: "Don't you want to buy some buzzard eggs?" Seeing an opportunity to play a joke upon his wife, he gave the bird a nickel for them. About a month later he asked his wife: "How are your turkeys getting along?" "Oh, I decided it was getting too late for turkeys, so I put them in your lunch."—Fishes Magazine.

Quitting at the Start
W. H. Crane, beloved actor, used to tell the story of a day's fishing party depicted in by President Cleveland. Joseph Jefferson and himself. They fished all day, and caught nothing. About six o'clock Cleveland got a little trout, and Jefferson, who was ready to drop, suggested: "Now that we've got a fish, let's go home." "You're the strangest man," retorted Cleveland. "Here we've been fishing all day, and just as they begin to bite you want to go home!"—Kansas City Star.

Record Leaf Growth?
A giant-leaved water lily of Japan and China probably holds the world's record for speed in leaf-growing, according to a note in the British scientific journal Nature. This plant, a relative of the Victoria regia of South America, expands its four-foot floating leaves in less than nine days, increasing their diameter at a rate of nearly a half-inch an hour. At that rate of growth the produce between 15 and 25 square inches of leaf in 60 minutes.

Whistler's Extra Monocle
Whistler could play the actor, too, writes Rollo Walter Brown in "Famous Americans." One day, while he lectured informally, his monocle slipped from his eye and rolled across the floor. A dozen ardent disciples rushed to rescue it from the dust and bread crumbs. He declined not to touch it, but with an easy flourish drew a fresh one from his waistcoat pocket and adjusted it in his eye as he proceeded with the lecture.

"She"
Obviously some of the old sayings do not apply any more. Take the one, "Why is a ship called a ship?" for which the answer used to be, "because it takes so much rigging." What could be farther from the truth in this age of scant attire?
When the question was recently propounded to a college coed she replied promptly: "Because they are so hard to make."

Abortive Thought

Entranced by Strains of "Magical" Calliops

That hoard of the circus, the calliops, made its first public appearance in July, 1883, screaming "Old Dan Tucker" down the Worcester & Nashua railroad.

A contemporary account describes the effect as "magical, nay wonderful, exciting and amusing." Men left their workshops and rushed for the railway. Women and children swarmed like ants when their anthill is trodden on, again with wonder and delight. The horses danced proudest to the music; the very pigs relaxed the tension of their tortuous tails and stupid calves snuffed the music-laden air their pendant tails outstanding straight behind.

"Very marvelous," and we should not have been surprised if all the bending woods, charmed by the Orpheus strains, had walked down the shaded hills and made obeisance to the Calliops—even as Birnam wood came down to Dunblane!"

Great French Soldier Knelt Long at Altar

One day in France when thousands of guns were roaring, an American named Evans went into an old church to examine it. As he stood there with bare head satisfying his respectful curiosity a gray man with the stars of a general on the collar of his shabby uniform entered the church. Only an orderly accompanied him; no glittering staff of officers—just an orderly.

The American soldier paid little attention to him at first but was curious to see him kneel in the church praying. The minutes passed until three-quarters of an hour had gone, before the man arose from his knees.

Then Evans followed him down the street and was surprised to see soldiers salute the man in great excitement, while women and children stopped in their tracks with awestruck faces. It was Poch.

Among His Souvenirs

Donald MacFiddle, a famous Scotch musician, had many admirers in this country. On one concert-tour he had just arrived in New York and was walking from his room to the theater. A young woman admirer who recognized him determined to procure some souvenir of the great man. It was raining, and from beneath her new silk umbrella she called to him. MacFiddle stopped and gazed at her from beneath his old cotton umbrella, green with age.

"Oh, Mr. MacFiddle," the woman said, "if you would only give me some light remembrance of yourself as memento, how small!" The great man surveyed her keenly, glanced once up at his old umbrella, then in a burst of words, said: "Certainly, my dear young lady, I shall be delighted. We will exchange umbrellas."—Entertainer Magazine.

Cucumber Long Delicacy

De Candolle says that cucumbers were originally from the East Indies, but other botanists ascribe them to Asia and Egypt. Literature proves them to be more than 3,000 years old in Asia, and it is known that they were brought into China 140-80 B. C. They were known to the Greeks and Romans and were mentioned by Pliny, who says that they were grown in Africa, and that they were such a favorite with Emperor Theodosius that he had them daily on his table. Charlemagne ordered them planted on his estate in the Ninth century, and they were grown by Columbus in Haiti in 1492. Capt. John Smith mentions them as being cultivated in Virginia in 1584.

Druggists as Opticians

In these days of optometrists, oculists and opticians it is interesting to recall that not so many years ago eyes were cured for by druggists, as is evidenced by an ad Jonathan Day ran in the Onondaga Standard: "The subscriber keeps constantly on hand for sale, a complete assortment of concave and convex spectacles, on steel and silver mountings. Glasses and magnifying glasses. He can remedy any defect in sight by age. Spectacle eyes set on moderate terms. At the sign of the Mortar and Spectacles."—Detroit News.

Silver Leaf Healing

Silver leaf has been found to be a superior substitute for salves and tinctures in the treatment of cuts, wounds and burns as demonstrated by many experiments at the hospital of the Vienna university. The silver leaf is simply laid on the wound and its effect is greatly to accelerate the healing process. Not only does it rapidly dry up the wound, but it apparently exerts a bactericidal action, as a result of which infections and other complications can be avoided.

A Wave is a "Sea"
The term "sea" and "wave" has a variety of uses. A sailor never says "wave" or "waves," he speaks of "seas." A sea may be rolling toward you—that is a "head sea." One at the side is a "beam sea"; then the ship rolls. And a sea coming up astern is a "following sea"; then your ship tosses, and it is a point of debate among sea-sick travelers which of the two sorts of motion—rolling or pitching—is less agonizing.—From "Sea Lore," by Stanley Rogers.

GODIVA'S HORSE TOO FRISKY

The humor of carrying Lady Godiva in a carnet at Dudley, England, was too much for her steed. The white horse, unused to bearing a lady in dressings before a huge crowd, became excited and began to prance dangerously. Miss Lucie Smith, the lady Godiva, hastily dismounted and was taken to a house, where she rested until a quieter steed could be found. Then the march proceeded.

Make No Appeal in City

Just "people" as an object of interest appeal for less to the inhabitant of the city of a million than to one living in the country. Carlotta is lacking.

Unfortunate Trend to

Flabbiness of Thinking

It has been said a good many times over, in this generation as in others, but President Hibern of Princeton did well to remind the students of his university that they should be on their guard against a flabby mind. Just as watchfully as against flabby muscle. The old Roman who spoke for "a sound mind in a sound body" put the mind first. Let us remember, men learn in corpore sano—but in our modern quotation of the saying we are almost always throwing the emphasis on the body. As civilization becomes more and more complex, the flabby mind, unequal to the task of taking up an important problem of life and thinking it through, becomes more and more pernicious, both to the possessor and to others who may be obliged in any way to depend upon the judgment of that possessor. Certainly no one should be more watchful than the student—Columbus Dispatch.

Varying Trade-Mark Laws

In discussing the principles of trademark laws existing in the world two separate systems of law have to be considered, one system being that in force in the United States, Great Britain, France and a few other countries where the first use of a trademark is protected, and the other system where ownership is based on registration of the mark. This latter system is used more generally throughout the Latin countries of the world. The law of the United States is practically unique in one respect, in that it requires as a basis of the right to register that the mark shall have been applied to goods sold in interstate or foreign commerce. This requirement following the clause of the Constitution in which trademark rights are recognized.

Treasures Beyond Price

The value of the treasures owned by the American Philosophical society cannot be estimated in dollars. It is said that 78 per cent of the Franklin manuscripts are in possession of this society. Among its other possessions which cannot be duplicated are a Gilbert Stuart portrait of Washington Benjamin Franklin's splendid chair and Jefferson's chair, in which he signed the Declaration of Independence.

FRANCISCO

Mrs. Mary Willy received word Monday morning of the death of her sister, Mrs. William Finkbeiner of Sebewaing. No word had reached her of her sister's illness, and it must have been of short duration, as the families had exchanged greetings at Christmas time, when all was well in the Finkbeiner home. Mrs. Willy and son Wilbert left at once for Sebewaing, where the funeral will be held Wednesday.

Mr. and Mrs. Wm. Sanderson and children were Sunday guests at the George Bronner home on US-12.

Mr. and Mrs. John Helle joined Mr. and Mrs. Roy Wyckoff of Jackson, Sunday to go to Ann Arbor, where they spent most of the day with Ar-

thur Frey, who is recovering from pleurisy at St. Joseph's hospital.

Mr. and Mrs. James Richards visited their sister, Mrs. Etta B. Frey, Saturday evening.

George Scherer was in Jackson, Monday, on business.

Mr. and Mrs. Truman Lehman and children were Sunday visitors at the Henry Kalmbach home in Sylvan.

Frieda Willy stayed with Mrs. Etta B. Frey during the absence of Mrs. Willy.

Mrs. Fred Peterson has returned from Detroit, where she spent a number of days with relatives.

Adam Frey, who has been ill for a number of months at the home of his sister, Mrs. Carrie Rank, is able to be about again, even to going out of doors.

WATERLOO

Mr. and Mrs. Emory Runciman and children were visitors at the Cooper home, Sunday.

Mrs. Kate Walz spent several days with her son, Arthur and family, last week. On Sunday, all visited at the home of her son, Harold and wife.

Mr. and Mrs. Ed. Schulz and Howard spent Sunday at the home of Mr. and Mrs. Geo. Stofer, near Stockbridge.

Mrs. Walter Vicary spent from Thursday to Sunday with her parents and sister at New Baltimore. Mr. and Mrs. Fred Schlosser and Thelma accompanied her home Sunday, to spend the day.

Lyle Engle of Ann Arbor was a week-end guest at the home of Mr. and Mrs. Geo. M. Webb.

Sunday Hunting Law Held Constitutional

Lansing, Jan. 2.—The Michigan Sunday hunting law is legal and constitutional and attempts to fight it through the courts on unconstitutional grounds would be futile, in the opinion of the attorney general's office.

M. M. Larmonth, assistant attorney general, talking to representatives of sportsmen's organizations at a meeting held at Lansing, said that under the Sunday hunting law as it stands today, hunting may be stopped on Sunday through a referendum vote in a particular county. There can be no question as to the constitutionality of this, he said.

According to George R. Hogarth, director of conservation, conservation officers are not charged with the enforcement of this law, nor are they charged with the enforcement of the Horton trespass act.

ON DISPLAY TODAY

NEW PONTIAC BIG 8

\$1045 AND UP

General Motors' Lowest-Priced Eight the Car with Superior Performance

Today a new eight-cylinder motor car makes its appearance. It is the newest General Motors eight and by several hundreds of dollars the lowest in price. It is the New Oakland Eight with smart new bodies by Fisher.

Superior Performance

The New Oakland Eight develops 85-horsepower and is the first stock car of its size and weight to employ an engine of such high power. Since performance depends largely on the ratio between horsepower and weight, the New Oakland Eight is exceptionally fast and powerful because it produces

one horsepower to 37 pounds of car weight.

Eight-Cylinder Smoothness

The New Oakland Eight has all the smoothness which results from the overlapping power impulses inherent in eight-cylinder engine design. In addition, it enjoys exclusive mechanical advantages which make it even smoother and more delightful to drive.

Sound Basic Design

Several of the engineers who participated in creating General Motors' first eight back in 1914 were responsible for the develop-

ment of the New Oakland Eight. To this latest task they brought a wide knowledge of eight-cylinder design. It is reasonable to expect that the Oakland is a finer eight because of this fact.

Moderate Price

We believe the New Oakland Eight will appeal to you all the more forcibly when you consider its very moderate price. And a demonstration will reveal how well it merits the description "the car with superior performance."

The New Oakland Eight, \$1045 and up, f. o. b. Pontiac, Michigan, plus delivery charges. Lovejoy Hydraulic Shock Absorbers included in list prices. Bumpers, rear fender guards and spring covers extra. General Motors Time Payment Plan available at minimum rate.

NEW SERIES PONTIAC BIG 6

\$745 AND UP

A Famous Name—A Finer Car Introducing Important Improvements

The announcement of the first Pontiac in 1926 brought to the low-price field a new order of beauty, performance and reliability. And each Pontiac announcement since that time has introduced a car which represented an improvement even over its own highly regarded predecessors.

Important Improvements

Now comes the New Series Pontiac Big Six—an even finer car with a famous name. It retains all the qualities responsible for Pontiac's success in the past. And in addition it introduces many improvements.

New bodies by Fisher make this latest Pontiac Big Six more beautiful than ever.

Greater Smoothness and Safety

The smoothness of Pontiac's 60-horsepower engine is further increased by the use of improved type rubber engine mountings. Pontiac's large non-squeak four-wheel brakes have been made even more efficient. A new sloping non-glare windshield also adds to its safety. Handling ease is increased through the use of a new type of steering mechanism. Improved Lovejoy Hydraulic Shock Absorbers give increased riding comfort.

Time-Tried Performance

In speed, power and pick-up the New Series Pontiac Big Six continues to uphold the Pontiac reputation for spirited performance. Come now to our showroom and inspect this finer car with a famous name—the New Series Pontiac Big Six.

The New Series Pontiac Big Six, \$745 and up, f. o. b. Pontiac, Michigan, plus delivery charges. Shock absorbers standard equipment. Bumpers and spring covers at slight extra cost. General Motors Time Payment Plan available at minimum rate.

Consider the delivered price as well as the list (f. o. b.) price when comparing automobile values. . . . Oakland Pontiac delivered prices include only authorized charges for freight and delivery and the charge for any additional accessories or financing desired.

Michigan Happenings

Merger of the Grand Rapids railway company with the Yellow, Checker, Red, Top, Bird and Harris taxicab companies of Grand Rapids was announced recently by Louis J. Delamarter, vice-president and general manager of the railway company. The Furniture Capital Air service, although not included in the merger, will take offices in the railroad company building and will cooperate in a service which will transport a Grand Rapids resident from his home to any part of the United States.

Emory Levi Grant, of Kenosha, Wis., 85 years old, who for several years had held the distinction of being the oldest living "M" letter man in athletics at the University of Michigan, died there recently after a prolonged illness. Grant distinguished himself both as a scholar and as an athlete, having won the "M" as a shortstop on the Wolverine varsity baseball team in 1896, the year of his graduation. He was in the lumber business in Wisconsin.

Jim Grant, 34 years old, the first man to be arrested in Jackson in 1930, attributes his plight to a can of beer. Grant was given the beer by a neighbor. Another neighbor had a fine goose in the chicken coop, Walter Green, the owner of the goose, reported the fowl stolen. Detectives found the can of beer in the henery, so by a process of elimination, the beer was traced to Grant and he is held as a suspect.

Shooting a female pheasant while riding in their truck cost two men \$48.60 each or 30 days in jail at Mt. Clemens. The truck was confiscated. The men, William F. Hummel, 42 years old, and Hector Bonsson, 32 years old, both of Warren township, were arrested and assigned before Justice of the Peace William F. Sawin of Mt. Clemens. The men were unable to pay their fines and were remanded to jail.

Hugh Matthews of Mt. Clemens, an employee of the Rapid Railway, revealed that he has not opened Christmas presents he received in 1927, to say nothing of his 1928 and 1929 gifts. "I put it off temporarily in 1927 as a joke on my family," he explained. "The cause they were so curious. I found it was like quitting smoking. After a while it isn't hard to resist the temptation. When will I open them? Oh, one of these years."

Andrew Marshall, 14-year-old Grand Rapids high school student, who suffered a fractured arm while cranking an automobile a few weeks ago, was burned there when a gasoline explosion rocked a filling station at which his father, Clyde Marshall, is attending. The youth was taken to Butterworth Hospital. The explosion is said to have occurred while he was pouring gasoline near a stove.

In order that the State treasurer's report for the close of business in 1929 might show a more favorable condition, arrangements were made at Lansing for the transfer of \$3,372,728 of automobile license money for 1930 into the State's active accounts. Hitherto, the automobile license money collected during December has remained intact in the treasury until after January 1.

During the month of October, state trappers in the upper peninsula killed 122 coyotes, according to a report issued by the law enforcement division of the Department of Conservation at Lansing. During September the trappers killed 182 coyotes, and in August, 48, bringing the total for the three months to 352.

Twenty-eight young women postulants were received recently into the Order of St. Dominic, a catholic teaching sisterhood, at the Mother House of the order at St. Joseph's Academy, in Adrian. The Rt. Rev. Michael J. Gallagher, bishop of Detroit, presided.

While Mr. and Mrs. Henry Gusko and family of four small children were in Port Huron to visit his father, who was in the hospital, their home burned in 14per. It is believed that the furnace became overheated.

Gas fumes overcame Lee McGuffin, Memphis truck driver, while he was sitting in his truck at Port Huron. He was revived with a pulmotor from the Port Huron fire department.

George Service, a farmer living three miles west of Clinton, was killed when he fell from a ladder while repairing a windmill.

John Barrett, 66, a Carson City farmer, died there from injuries caused by the kick of a colt.

The old Brigg mill at Paw Paw, which was built 85 years ago, was destroyed by fire. It was one of the landmarks of the village. About 16 months ago the mill was purchased by an Indianapolis company from E. Stanley Briggs, whose ancestors built the mill.

With only one fatal automobile accident in Hillsdale during the year just closed, Hillsdale believes it has set a record unequalled by any other city in the state.

Mrs. Adalene Gray of Cassopolis, who celebrated her one hundred and third birthday Nov. 19, was burned to death when fire destroyed the home of a niece, Mrs. Clara Northam, with whom she lived. The fire is believed to have started from a lamp. When discovered the flames had gained such headway that Mrs. Northam found it impossible to save the aged woman. Mrs. Northam was burned in getting her three grandchildren, Margaret, Dorothy and Elmer Stroppe, to safety, but her condition is not serious.

The State, through its Department of Conservation at Lansing, recently held its first public auction of oil rights. It offered 2,150 acres, some of it "prorated" most of it "wildcat" land in Mason, Muskegon, Midland, Isabella and Clare counties. On 740 acres it received no bids at all. The bulk of this was "wildcat." For the remaining 1,410 acres the State got \$1,122.50, or an average of 61 cents an acre. The principal buyer was Charles Strange, of Clare, who was purchasing for a company just formed.

One-year-old Thaddeus Atymond, 288 Selden avenue, Detroit, was strangled to death when a glass eye from a toy dog he had received for Christmas became lodged in his throat. Unnoticed by his mother, the baby had worked the eye loose and placed it in his mouth. When he began to choke, the mother summoned aid, but efforts of fire department rescue squad No. 2 to revive the child with a tank motor proved unavailing.

Three persons were burned to death when fire destroyed the home of Vern D. Andrews, three and one-half miles southeast of Nashville. The bodies of Andrews and two unidentified men were recovered from the ruins. Andrews was unmarried and lived alone. It is assumed by officers that a party was in progress at the home when the fire started. None of the neighbors knows the identity nor number of Andrews' guests.

An express car containing 3,700 silver black fox pelts, insured for \$425,000, left Hermansville, in the Upper Peninsula, for New York recently, where the furs will be sold at auction Jan. 20. The pelts were from the 1,300-acre Huawatha Fur Farm. Foxes are bred in Wisconsin and then brought north to the Huawatha Farm where the colder weather makes the fur better. The shipment is the largest ever to go from that district.

The State of Michigan was operated at a loss of \$1,894,319 during 1929, the year-end balance of the state treasurer revealed. The books show that it cost \$119,036,660 to maintain the function of government during the past calendar year while receipts from all sources totaled \$118,241,831. The treasurer's balance, December 28, was \$2,553,430 to compare with a balance of \$4,182,297, December 28, 1928.

An open window in their small sedan saved the lives of David Szymanski and Albion Rutowski, of Ludington, when their automobile went through the ice on Pere Marquette Lake. Rutowski, the driver, pulled himself through the window, with Szymanski pushing. Rutowski then grabbed the edge of the solid ice and pulled Szymanski through the window as the sedan sank.

A 62-year-old husband who begrudged to buy milk for his year-old baby and refused to buy a cab for it, was divorced by his wife when Mrs. Georgianna Sloat, 40 years old, of Owosso, obtained a decree against Lewis Sloat. The latter makes good wages and owns considerable property, his wife said.

James Knuckles, elderly farmer, was burned to death when fire destroyed the farm home of his son, Oscar, 10 miles southeast of Petoskey, in Charlevoix County. The parent was trapped in an upstairs room by flames, following the explosion of a gasoline laundry iron.

Gerald Wright, 10-year-old son of Roy Wright, living three miles north-east of Palo, died in the India Community Hospital an hour after he had shot himself accidentally through the shoulder with a shotgun while hunting rabbits in his own yard.

Isaac Jewett, of Jackson, 73 years old, was injured fatally when he fell while helping push a stalled automobile out of a rut. His head struck the running board of the car. He suffered a skull fracture and died before an ambulance arrived.

Falling beneath a tractor, William Bryner, 18 years old, former Coldwater high school football and basketball player was injured fatally near Angola, Ind.

George Thakey of Grand Rapids, 32 years old, father of four children, died of injuries suffered when he was struck by an automobile driven by Marjorie DeRaad. His wife also survives.

What is believed to be a new world's record was set by Floyd Marquardt, of Kalamazoo, member Scout Troop 32, when he kind fire with flint and steel in 8 seconds. The previous world's record, according to the scout handbook, was 4.6 seconds. Marquardt was timed with three watches.

Charles Holthouse, of Muskegon, 60, was killed when, walking across a bridge there, he slipped into the side of a car driven by Richard Johnson.

Northville—Mrs. Lillian Belford, a former resident of Northville, who is at present making her home in South Lyon, was one of the workers of that place who assisted in preparing something like 200 bags of Christmas goodies for the inmates of the Oakland county poor house. Each bag when filled contained four pounds of good things to eat. Money to pay the expense of this charitable work was made by the ladies in various entertainments and baked goods sales that have been held. Mrs. Belford was chairman of the committee that had charge of the worthy cause. —Record.

Jonia—Robert Palmer, holding elevator man, is advising all farmers to sell at once all wheat which they may be holding which is a year or more old. A species of weevil which starts to work on the grain when it nears two years of age spoils it for some purposes. —News.

Warning!

To Persons Shoveling Snow at Expense of Sylvan Township:

All persons are hereby notified not to shovel snow at the expense of Sylvan township unless ordered to do so by the Highway Commissioner. If such work is done without receiving a direct order from the commissioner, the party or parties doing it will do the same at their own expense. The fund of \$500 that was set aside for this purpose has become nearly exhausted and, while there will be more or less of this work done, it must be so authorized.

W. C. Pritchard
SYLVAN HIGHWAY COMMISSIONER

Dated: January 3, 1930.

Wayne—The removal of snow in Wayne last week was the largest task of its kind that he has faced in the many years he has served as commissioner of the D. P. W., Chas. Goudy has stated. The task was especially great in view of the fact that Mr. Goudy had only a limited fund at his command that did not permit the employment of many additional men.

Mason—Deputy Sheriff of Ingham county turned druggists on Christmas day. Longyear Bros. store in Mason was left unlocked and customers flocking in. No clerks being on duty the customers helped themselves and placed the money on the counter. The matter was reported to the sheriff's department and a deputy became dispensing clerk until the proprietors could be located.

Question And Answer Dept.

Ques.—I have a friend who was born in Germany. When he was 17 years of age he came to the United States, but has never taken any steps to become an American citizen. Now he wants to make a short visit to his old home in Germany. Can he go and return without interference by the immigration authorities?

Ans.—He will have to have a permit from the commissioner of immigration, from whom your friend is entitled to make application for re-entry to the United States on his return. The commissioner, however, may or may not refuse his application, dependent upon circumstances. Full particulars may be had by addressing a letter to the Department of Labor in Washington, D. C.

Ques.—Which has the most brains on the average—man or woman? Also does an insane person have any brains? Your reply will settle an argument.

Ans.—In actual weight a man's brains average 48 to 50 ounces, and that of woman is 42 to 44 ounces, but the "weight" of brains is not a standard of intelligence. If a person is insane or feeble-minded, it is because the brain is diseased, and not because the brain is smaller or less in weight.

Ques.—Can you tell me if the word "boozie" is a slang word? If so, how did it originate?

Ans.—The word "boozie" in one form or another has been part of the English language for centuries. Although generally regarded as slang, in its common usage, the verb "boosen," which means to "drink deeply," is a reputable word. It is from a corruption of this word that we get "boozie."

Ques.—Why do so many young men walk stoop-shouldered? Is it a bad or what?

Ans.—It's no bad; more likely sick stockings.

Ques.—Will you be kind enough to explain in your interesting question column what the difference is between a state bank and a national bank? Which is the safest?

Ans.—A state bank is licensed or incorporated under state laws, while a national bank is chartered by the federal government under the federal banking laws. With other conditions equal, one is as safe as the other.

Ques.—Can you tell me what is the meaning of "Bolsheviki" as it is applied to the Russians?

Ans.—The term is not applicable to the Russians generally. In the Russian language "bolsheviki" means "majority," the opposite of "mensheviks" the "minority." The "bolsheviki," or majority, is now in control of the government of Russia.

Ques.—I am curious to know how "John Bull" came to be put on the English people, as likewise "Uncle Sam" to the government of the United States. Can you answer this for me in your good paper?

Ans.—The term "John Bull" originated in a satire published in 1819 by John Arbuthnot, a Scotch humorist. His book was entitled "The History of John Bull," and was intended as a satire on the Duke of Marlborough. The term "Uncle Sam" originated during the War of 1812, when the government purchased supplies from Elbert Anderson, a contractor at Troy, N. Y. When the government buys goods it appoints an inspector to see that they are up to specifications. In this case the inspector was a good-natured man named Samuel Wilson, who was popularly known as "Uncle Sam." When he O. K.'d the purchases he used the initials "U. S.," meaning Uncle Sam. As a coincidence these same initials represented "United States," and thus it was quickly popularized as "Uncle Sam."

Ques.—I am writing to ask you in your question department what were the "dark ages" and why were they so called?

Ans.—The period known as the "dark ages" extended from the fall of the Western Roman Empire to the revival of learning on the discovery of the pandects at Amalphi, Italy, in 1150—a period of about 700 years. During the dark ages learning was at its lowest ebb and civilization seemed to retrograde owing to the masses of barbarians from the north of Europe who overran the former seats of learning. Owing to this low ebb of learning that period became known as the "dark ages."

Ques.—What is meant by a "first-water" diamond?

Ans.—Any diamond that has perfect brilliancy—free from blemish, flaw or color.

Ques.—May I ask you if there ever was anybody that crossed the Atlantic ocean in a row boat? If so, when was it done?

Ans.—Yes. Two men—John Traynor and Ivan Olsen—were the first two men to accomplish this feat. They crossed the ocean safely when they left Bath, Me., on July 5, 1881, and arrived at Falmouth, England, Aug. 2 of the same year, making the trip in one month and twenty days.

OUR NEIGHBORS

Tecumseh—Plans for the reorganization of the Lilley State Bank of Tecumseh, permitting that institution to reopen its doors in about two weeks, were announced last Thursday. The reorganization plan, the outgrowth of a meeting held here on Tuesday, and attended by a majority of the stockholders and R. E. Reichert, state banking commissioner, requires the aid of the stockholders and depositors to assure its success. The stockholders, it was announced, have subscribed liberally in a financial way to the plan and an intensive campaign will be carried on throughout the next two weeks among the depositors in an endeavor to assure the success of the enterprise.

—Herald.
Fowlerville—Last Friday, December 27, while Lloyd Livornice, the local telephone man, was driving in the country he saw a snake running down the road in the wheel track ahead of him. He stopped the car, got the snake and brought it into town, where the snake dropped out unknown to Mr. Livornice and was picked up by John Daniels and brought to the Review office. The snake was of the streaked variety, thirty-two inches long and about three inches in circumference. In order to dispel any doubt as to the contrary, several reputable witnesses were brought in to view the snake, and clear up any belief that Mr. Livornice, Mr. Daniels or the editor were working off the effects of too much "Christmas Cheer."—Review.

—Brooklyn—Two or three of the eastern states lately have started taking road hogs seriously, especially when the hogs happen to be buses. Not that there is anything against the buses, but because of their size, their hogishness is more obstructing than that of other motor vehicles. A few fines are said to result in much improvement. The same treatment might well be applied, oftener than it is, to big trucks ignoring the rights of other vehicles. Not omitting, of course, even the little fellow who has a tendency to slide over into the middle of the road and hold it against all comers.—Exponent.

Dexter—Owing to the fact that a dog was killed in Dexter village that had rabies, the common council and the Washtenaw sheriff have issued a strict quarantine prohibiting all dogs from running at large for a period of four months.

Dexter—Mr. and Mrs. J. B. Dalton of Webster have bought a farm near Danville and are moving there this week. They have a large circle of friends here whose best wishes will go with them to their new home.—Leader.
Mrs. Dalton, nee Sager, was a former well-known resident of Sylvan, Manchester. For several years Mrs. Ella Nestell has trimmed a Christmas tree out of doors for the birds, using holly berries, suet, etc., and the little chickadees and others surely are hungry over being thus bountifully supplied. Quail, cardinals, and other birds make their home on her spacious grounds.—Enterprise.

Grass Lake—A. P. Radcliffe, relief operator on the M. C. & R. R. between here and Chelsea, is spending three weeks with his parents in Argyle, Minn.—News.
South Lyon—Serious burns were suffered by Paul Showerman, 12 year old son of Mr. and Mrs. C. V. Showerman, Sunday afternoon when a kerosene can exploded as he held it in his hand. Paul went to the milk house about three o'clock and believing the fire under the boiler was dead as there appeared to be no coals he threw on a quantity of oil from the can. Instantly it burst into flames and it seemed that at the same time the can in Paul's hands exploded, throwing burning oil over the lad. With his clothing ablaze the boy dashed out into the open and plunged into a snow bank. Fortunately this extinguished the fire. His face and hands were badly burned.—Herald.

Humanity Facing Changes

An eastern doctor is greatly alarmed lest the use of automobiles do away eventually with the legs of the human race. The prospect is quite terrifying, and then too, there is the vacuum cleaner, that has rendered the beating of rugs and carpets no longer necessary, and this may in time do away with the arms of the human race. It seems more than likely that we shall hardly recognize ourselves a hundred or two hundred years from now.—Exchange.

Says Powdered Glass Safe

Expelling the stories that the Borghese and other notorious poisoners of history mixed finely powdered glass in food and drinks for their victims, Dr. Roche Lynch recently demonstrated to the Medical-Legal society of London that this supposedly deadly material usually passes through the human digestive system without causing death or even doing serious damage. Danger lurks in larger pieces of glass with sharp edges, he added.

Artificial "Sun" for Horses

Thoroughbreds in a racing stable near Chicago receive ultraviolet-ray treatment every day, as it is believed that they need artificial sunlight when the natural supply is unavailable, as much as do human beings, says Popular Mechanics Magazine. A short exposure to the special lamp is said to give an effect equivalent to that from a whole day in the sun. The treatment is of special benefit in winter, when the animals are confined indoors.

Investigate Before You Invest.

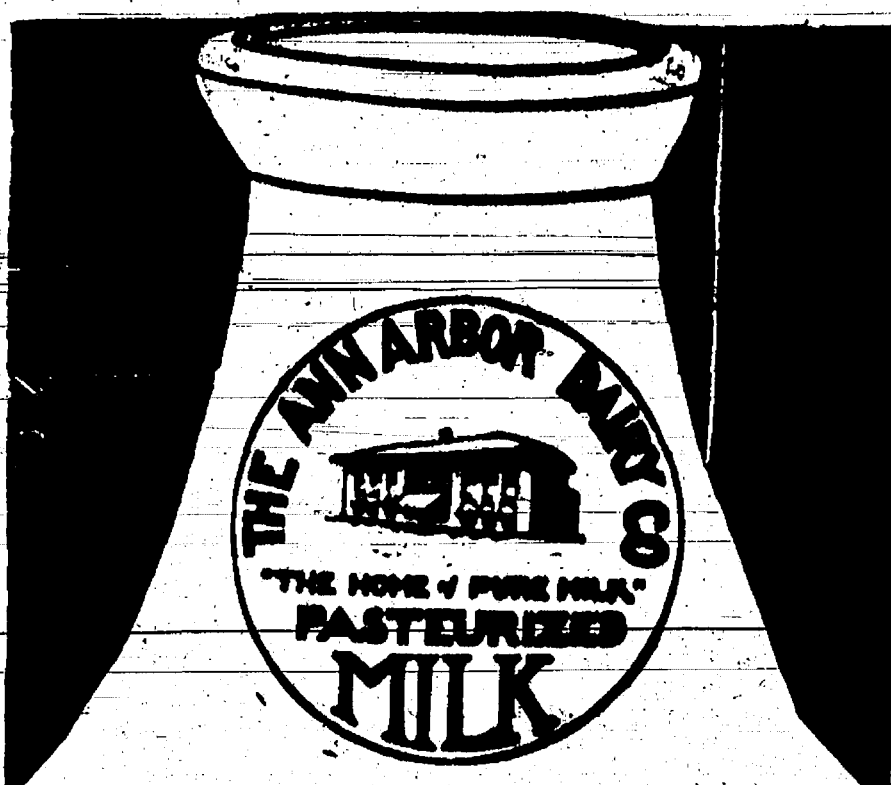

Here is a good thing to bear in mind: When an investment proposition offers big returns with little chance of loss, it is not necessary to send salesmen around the country letting the public in.

The next time a stranger comes to you with a "sure shot" business opportunity, ask yourself if he isn't going to a lot of trouble in order to let you make some money. Ask yourself why he didn't let a few financiers handle it. If a thing is safe for you, it would have been safe for them.

Unnumbered Victims of

Dream of Easy Wealth

Sudden wealth, acquired without labor, assuring ease and luxury and power, appeals to the avaricious instinct of many otherwise sound and intelligent people. The thrill of expectation, of suspense, the possibility of success with the next spin of the wheel, the next turn of the card, the next shovel of earth has kept men fighting odds since history began, says the St. Paul Dispatch.

There is a romance to search for buried treasure, to stories of unearned wealth won in the gold fields, the roulette wheel, the gaming table and the stock market that is fast fading. It leads to victims in risk and danger. They even go through to how many are beaten.

Men seldom forget their losses, so failures in the gamble for easy wealth rarely win the spotlight. Now and then a paragraph tells of a broken spirit ending his life. Young men who gamble with their company's money are frequently imprisoned as embezzlers. But these are the dramatic incidents that get into print. The thousands who risk and lose their life's savings sink out of sight without leaving a ripple on the surface.

It is sometimes worth remembering that all who play do not win.

"Take Me With You!"

When'er I climb into the car,
To go up town, or journey far
And start to roll away—
If Mary Jane should happen near,
One thing from her I'm sure to hear—
She never fails to say:
"Daddy, take me with you!"

Whate'er perchance my road might be,
This child of mine would go with me,
With glad and eager heart!
Be it a path that led to fame,
Or one that led me down to shame—
I'd hear as I would start:
"Daddy, take me with you!"

And so, when I would go astray,
And from the right I'd turn away,
She seems right there with me!
Her dimpled hand I seem to take,
How dare I, then, the right forsake—
Before this childish plea:
"Daddy, take me with you!"

Visitor's Request Left
City Manager Guessing

The city manager stepped out of the City hall, started towards his

office. A man carrying two heavy

trunks addressed him.

"Parson ma," he said, "how much do

you know about this town?"

"Why, I am fairly familiar with it,"

the city manager replied. "Why do

you ask?"

"Well, I've asked three policemen

how to get out to an address in Engle-

side, and they told me to take a bus

on this street," the stranger said. He

was perspiring, somewhat, and it was

evident that he was not a little

traveled. "I got on a bus and the driver

told me he didn't go that way at all.

I want to know just where I stand

anyway."

"All right, sir," the city manager

replied, "you come with me." And

the city manager took one trip and

started down the street. He stopped

at the health department, called an

inspector and told him to get a car.

"Take this man where he wants to

go," he said.

When the car had gone the city

manager confided to his assistants that

as a matter of fact he couldn't have

done the man's job. He had to get to the

side address, either, and that had

looked up right away. Norfolk Vir-

ginian Pilot.

Great Writers Worked
Under Odd Conditions

A new game for the students of the

history of literature, writes the Paris

correspondent of the London Observ-

er, is to examine the physical condi-

tions under which famous writers did

their work. For some, tobacco was in-

dispensable. Voltaire put up with a

dimmer, incessantly. So did Francois

Coppee, and Flaubert was a great

cigar smoker. Both of these men

also found the society of cats a stim-

ulant to their inspiration, as did The-

ophile Gautier and Balzac. The

very and vigorous Jean Racine, who

researched Paul Bunyon for drinking

nothing but water, used to do twenty

minutes of gymnastic exercise before

sitting down to work, and Mistral

could only write poetry after a sharp

walk. Ernest Renan used to stare into

the palm of his hand as if his ideas

came from there. Balzac, who could

eat with a gargantuan appetite, when

he had finished working, needed the

help of a waiter to get to his bed,

which he reached, although fam-

ine, by the way, of his showing

with blackened by the noxious

smoke of his pipe, when he de-

clined to his secretary, used to walk

hereafter up and down the cold stone

floor of his room.

Origin of "Head Tax"

In days gone by in British history,

head tax was really a tax on the

head. In the middle of the eighteenth

century the wig ceased to be worn

and the "Marquise" wig was in-

stead. Then, in 1705, Pitt

passed a law that every person

entering the country was forced to

invest in an annual certificate costing

£10. In 1706 the tax yielded

£210,000, but the "guinea pig" soon

refused to face powder. The tax

changed the fashion. The powder-

pan, the powder knife, and the pow-

der music disappeared, and the

stiff whiskers, and short cropped

heads crept in for the masters, and

the powder fell on the heads of the

man-servants. Montreal Herald.

Authors Who Despised Books

While it is natural to assume that

all authors are devoted readers and

advocate reading for others, it is

pointed out that de Maupassant said

books "smell one narrow, they misrep-

resented life, induced in deception

and gave the mind false direction."

and Rousseau declared that he "hated

books; they teach people to talk about

things they do not understand." Fur-

ther, Emily Zola compared authors in

general to "sausagemakers who pre-

pared their stuff for others while se-

ludiously not eating any themselves."

Snaring of Song Birds
Popular Italian "Sport"

The "sport" of shooting and snar-

ing song birds is very popular all

over Italy, especially in Tuscany. Per-

haps it is not quite so prevalent as it

was in the old days when every villa

had its "uccelatore" or little thicket

to which birds were lured by the call

of tame caged birds trained for the

purpose. They were either shot or

more frequently, caught alive on twigs

smeared with bird-lime, artfully con-

cealed among the trees and dispatched

by having their necks wrung.

Yet so long as thrushes, larks and

other song birds continue to be a favorite

winter dish, so long will the little

villagers continue to be snared, and

the bird fair at Porta Roma-

ina, held from time immemorial on

September 28, provides the where

withal.

At the fair, many long and

daylight country bird trainers begin

to arrive from far and near, with

hundreds of tiny wicker cages each con-

taining a songbird. The variety is in-

finite. Chantrelles and thrushes fetch

the highest prices. London Mail.

Youth's First Earnings

Usually Go for Food

When a boy closes his first ad-

venture in finance with money in his

pockets, earned by his own efforts, his

first impulse is to buy something to

eat.

"We have no more important cus-

tomers," said the proprietor of a city

lunch counter, "than the boy who has

earned his first dollar. Now, you don't

often find a boy with loose clothing in

clothes—financial straits at a soup

kitchen in a drug store. His needs

are for something more satisfying, and

he comes to us. He looks over the

menu with an eye to quantity rather

than to quality. Corned beef and cab-

bage have a greater appeal to him

than artichokes, and having eaten he

pays a small tip beside his plate with

a nonchalance that is amusing."

The boy may have a few cents left.

If there is no urgent need for his con-

tribution to the family budget he stops

at a store on the way home and buys

his mother something she does not

need. Thus, very early, he begins ex-

pressing his love in the stereotyped

masculine way.

His Little Lapse

Little Reggie was dining out for the

first time in his life. His mother had

given him a few hints beforehand on

good manners, and so far Reggie had

fulfilled all her expectations of him.

"Will you have a little more and

ding, Reggie?" asked his hostess to-

wards the end of the meal.

"No, thank you," replied Reggie, to

his mother's gratification.

"Oh, come on, now," urged his

hostess, "do have a little."

"No, thank you," said Reggie again.

The good lady smiled.

"Well, dear," she asked, "what will

you have?"

Then Reggie's politeness broke

down.

"A lot, please!" he shrieked.

Witty American Preacher

Dr. Matthew Ryles, a preacher and

famed for his wit, was arrested in

New York in 1776 as a "pernicious

Tory. He was subsequently tried,

convicted and sentenced to confine-

ment on board a guardship, and to be

sent to England with his family in

40 days. Later the sentence was

changed to confinement in his own

house. A guard was placed over him

and then removed, then replaced and

again removed, whereupon the doctor

exclaimed that he had been guarded

regarded and disregarded. He called
