Annual Banquet Is Held By Local Masons

More than one hundred Masons,
their ladies and members of the O.
E. S. were in attendance at the 9th
annual banquet of Olive Lodge, No. 156,
P. & A. M., which was held in the
public school auditorium Tuesday eve-
ning.

Ladies of the Methodist church serv-
ed a three-course banquet at 7:15
o'clock. The menu consisted of fruit
cocktail and wafers, roast pork, mash-
ed potatoes and gravy, apple sauce,
battered rolls, pickles, jelly, Perfection
salad, pumpkin pie and coffee.

Following the banquet, Chester Mil-
ler, S. W. of Olive Lodge, delivered
the address of welcome, and introduced
Rev. Albert E. Potts as toastmaster
of the evening. In his usual cleve-
manner, Rev. Potts introduced the par-
ticipants in the evening's program.
George Atkinson was first presented
as song leader and led in several se-
lections of community singing. Rol-
and B. Waltrous gave a toast, and
Rev. F. I. Walker delivered a very in-
teresting address, taking for his sub-
ject "A Resume of Masonry."

Wesley Smith's sycophants fur-
nished music during the banquet and
for the dance following the program.

St. Mary's Club Wins From Jackson Moose

St. Mary's Club won from the Royal
Moose, of Jackson, in a fast game at
St. Mary's hall Monday evening. Lo-
cal fans were given plenty of thrills
when the Chelsea champions of 1928-
29 combined their plays, scoring heav-
ily.

Paul Hoffman, Robert Wheeler and
J. Eder displayed their brilliant tal-
ent of team work. Steger demon-
strated a few all-American plays most
accurately. He was later replaced by
Charles Howe, an all-defense man of
no small ability.

Kewsch, Tuttle and M. Hoffman con-
tinually broke through and annoyed
their opponents. The final score was
St. Mary's 32, Moose 25.

COMMUNITY GATHERING HONORS STATE OFFICIAL

130 People Present At Function Hon-
oring W. H. Pearce.

A community gathering sponsored
by the Dexter group of teachers with
their supervisor, Mrs. Fern Roth, was
held Saturday in North Lake parish
house, in honor of Webster H. Pearce,
State Superintendent of Public In-
struction who is a former teacher of
the North Lake school.

About 130 were in attendance, in-
cluding the families and pupils in
Lakeview school district, North Lake
school, Pumpkin College and Smith
school. The teachers in these dis-
tricts, Misses Edwyna Titus, Mary
Parker, Lucile Camburn and Lucy
Webb, had charge of the dinner which
was served at 12:30, the decorative
color scheme being rose and white.

Centering the table was a miniature
Capitol building and at either end a
country school house, representing how
Mr. Pearce worked his way from a
country school teacher to his present
position at Lansing.

Seated at the table with Mr. Pearce
were those who had followed him as
teachers in North Lake school since
1893. They were Schuyler P. Foster,
Chelsea; Mrs. E. Wylie, Dexter; Mrs.
C. Carey Tremmel, Ann Arbor; Mrs. Otto
Hinderer, Chelsea; Mrs. Maude Vaughn,
Harold Spaulding, Chelsea, and Mrs.
Leon Shutes, North Lake.

After the dinner a program was
rendered as follows:
Community singing—led by Mrs.
Max Kalmbach with Miss Mary Park-
er, piano and Knight Kissinger, violin
accompanist.

Invocation—Rev. Edward Hocking.
Introduction of Former Teachers—
George Webb.

Health Talk—Princess Walsworth of
Michigan Tuberculosis Association.
"Our Book Friends"—Pupils of the
Lakeview school.

Introduction of Speaker—Miss Cora
L. Haas, County School Superintendent.

Village Sidewalks Must Be Kept Clean

This question has been asked the
Standard.

"Can the owner or occupant of a
village lot be compelled to keep the
sidewalk adjoining said lot free and
clear of snow, ice and other obstruc-
tions?"

Sec. 2649 of the Compiled Laws of
Michigan provides:—"The council
shall also have power either by ordi-
nance or resolution to cause and re-
quire the owners and occupants of any
lot or premises to remove all snow and
ice from the sidewalk in front of or
adjacent to such lot and premises, and
to keep the same free from obstruc-
tions, encroachments, incumbrances,
filth and other nuisances."

The next section provides that if
same is not done as required by the
council, the council may cause the
same to be done at the expense of
such owner or occupant and the amount
of such expense, with a penalty of
ten per cent additional thereto, shall
be reported to a board of special as-
sessors and spread upon the tax roll
of said village as a special tax or as-
sessment and collected as other taxes.
This tax is subject to review, after
proper notice, as in all other cases of
special taxes. Or the village may
collect the same in an action of as-
sumpsit with all costs including pen-
alty.

Conforming to the powers given vil-
lages, Chelsea passed an ordinance in
regard to the removal of snow and
ice, same being Ordinance No. 13,
which provides that every owner or
occupant of any lot or premises keep
same free and clear of ice and snow,
and upon refusal of any person so
to do within two hours after they shall
have received a notice from the vil-
lage marshal so to do, and if such
person shall continue to refuse or
neglect the same may be done by the
village and spread as a special tax on
the person who so refuses or neglects
may be prosecuted upon proper com-
plaint being made to any justice of the
peace.

From the above it would appear that
the village can legally compel any
owner or occupant of premises to keep
their sidewalks free and clear of ice
and snow provided there are any such
in the village who are not public spir-
ited enough to do so without being
compelled.

The fact that at the last meeting of
the common council a Board of Special
Assessors was appointed to take care
of all such special assessments would
indicate that complaints of this nature
had been made to the council and that
action might have to be taken by the
council if such complaints continue to
be reported.

Chelsea Hi Loses Two Games To St. Mary's

In three games of basket ball played
between St. Mary's and public school
teams at St. Mary's hall Tuesday eve-
ning, the parochial school reserves
and girls' teams were victorious, and
the Chelsea Hi first team won their
game.

The St. Mary's Reserves won by a
score of 12 to 7. At the close of the
first period, in the girls' game, the
score stood 15-0 in favor of St. Mary's.
Being so far in the lead, the subs were
given a chance and at the half the
score was 17-2. In the last half St.
Mary's played with five players to
Chelsea Hi's six, and the final score
was St. Mary's 22, Chelsea Hi 14.

The main attraction of the evening
was the game between the first teams
of the two schools. The Chelsea Hi
boys rallied, winning the game, mak-
ing up for two previous defeats, al-
though at no time during the game
did they take the lead that had been
predicted. At the half St. Mary's
were in the lead with a score of 4-3.
The final score was Chelsea Hi 10, St.
Mary's 6.

Two Alarms Sounded During Past Week

The Chelsea fire department was
called to the county road commission's
lot on West Middle street about 6:30
last Thursday night when an auto-
mobile, belonging to X. F. Truener
caught fire when it was being started.
The car was considerably damaged by
the blaze but buildings on the lot were
not damaged.

An alarm was sounded Friday night
about 9 o'clock when the awning at
the Miller Sisters store was discovered
to be ablaze. The fire was quickly
extinguished without a response from
the fire department, about one-third
of the awning being burned. The
cause of the blaze is unknown.

Fire Destroys Lake Cottages Tues. Night

The Frank Jones and Dr. Dennis
cottages, located on the Glazier sub-
division on the north shore of Cava-
naugh Lake, were destroyed by fire
about 10:30 Tuesday night. The Den-
nis cottage burned first, the wind
sweeping the flames into the Jones
cottage.

According to reports there had been
nobody at the cottages during the eve-
ning, and the origin of the fire is a
mystery.

This is the second mysterious cot-
tage fire during the past week, a cot-
tage on the east shore of Crooked lake
having been destroyed by fire one eve-
ning last week.

Thrifty French

The extreme thinness of the French is nowhere better illustrated than in some of the smaller cities where regular patrons file their upkins in a sort of row, suggestive of the rows of smoking pipes in a old-time barber shop, and pay once a week for the laundry of their thin clothes. Some may call it thrift—the French call it "thrifty".

Violet Rays Fight Disease

Apples and Oranges

Little Men Do Learn

No Chemical Life

Doctor Lucas, one of the many able

scientists employed by the telephone

company, has perfected a "violet ray"

microscope, expected to work wonders

in the fight against disease, specifically

in treatment of cancer and other

malignant tumors.

A violet ray machine, using 10,000

volts, magnifies to an extent absolutely

amazing, making the specimen examined

"seem to jump through the lens."

Following a typhoid epidemic at

Oviedo, in Spain, drinking fountains

were closed and people ordered to

drink only clear. In a week the epidemic

was vanquished. "Spaniards" believe

that apple juice kills disease germs.

Perhaps cutting off a bad water

supply had more to do with it. But

every human being would be the better

for an apple a day at noon and

an orange in the morning.

Some one should make a little elder

press that could be used at the family

table to squeeze out the elder and

give it to children with their noon

meal, fresh from the apples.

If you have a darling pet parrot,

do not bury your nose at mouth in

its pretty feathers or stroke the parrot

and afterward put your hand to your

mouth. Surgeon-General Cummings

of the national health board says

parrots are bringing into the country

a highly dangerous disease, easily

contracted, often fatal. Several

cases have occurred in Maryland.

The big ill wind that blew in Wall

Street did undoubtedly good.

New York's savings banks report

more than eighteen thousand new ac-

counts within a few days after the

slump. The "little" man seems to

have learned a lesson.

At the royal wedding in Rome five

foreign sovereigns, five rulers who had

recently lost their jobs, and fifty

four other royals looked on. Queens,

princesses and princesses crowded the

chapel.

The interesting moment came when

Mussolini, Italy's dictator, entered and

was greeted by the royalists with the

Fascist salute—the outstretched right

arm.

Mussolini did not march with the

royalty. But when they saw him and

gave him that salute, angels looking

down could easily identify the real

ruler of Italy.

Doctor Hoyl, physicist of the United

States bureau of standards, says sci-

ence will produce life artificially. "It

is chemical, not supernatural," and

there is "nothing occult in the pro-

cess of life."

Nothing occult, perhaps, but Pro-

fessor Hoyl will not produce life, nor

will any other physicist by chemical

means. Things may be made to wig-

gle, but that will not be life.

This universe is a great trinity—

matter, force and spirit or conscious-

ness. No scientist will produce con-

sciousness, possessing the potential

ability to think. "Chemicals can't do

that," says Hoyl.

The United States army of simply

sons that buy stocks when gentlemen

ring the doorbell and tell them "now

or never," or when other gentlemen

call them on the telephone, are inter-

ested in this:

One get-rich-quick concern on trial

is a federal court is said to have spent

\$400,000 in one year for telephone

messages to fools.

You may imagine how much the

keys at the other end of the tele-

phone must have cost to justify a

\$400,000 telephone bill in one year.

PROHIBITION

Prohibition, like all social questions

affecting the entire country, is bound

to have its friends and enemies, its

defamers and its supporters.

Under our form of government discus-

sion of this social problem is bound

to continue, nor can it be successfully

stilled by law. It must be fought out

in the open forum of public opinion

and there acted upon as intelligently

as the facts will warrant. Pre-judice

or bigotry cannot enter into a success-

ful solution.

Right now the temperature at

Washington has risen to fever heat as

friends and foes of this great social

problem engage in a virtual hand-to-

hand conflict in hurling charges and

counter charges at each other.

The Hoover administration is charged

with lack of enforcement; the propo-

sals is made to place the Department

of Justice in charge of the enforcement

machinery of the nation, and the

Supreme Court of the United States

is being urged to declare the "buyer

equally guilty with the seller."

Federal courts have the aid of the

Jones law in dealing with violators of

the prohibition law in Michigan we have

the Cuthbertson act to assist state

courts in combating this illicit indus-

try, but in spite of the heavy penalti-

ties being inflicted by both state and

nation there seems to be no decrease

in the great demand for liquor.

While this endless battle of words

and courts continues what about the

man, woman, or child who might be

induced to settle this question in

dividually? If a nation elects individ-

ually to become temperate there will

be no need for prohibition liquor leg-

islation.

The great temperance movement of

pre-prohibition days should be revived,

new crusaders should be sent into the

field pointing out the health, happi-

ness and prosperity that follows in the

wake of sobriety. The "will" of any

human being is much more efficient

as a driving power for good than the

law.

"Thou shall" of any reformers who

ever lived.

The prohibition question will never

be settled in America until the little

white ribbon of temperance becomes

once more a national emblem.

Women Have Own

Show At Farmers Week

The emancipation of women extends

to the disposition of their time during

Farmers Week, February 3 to 7, at

Michigan State College, as plans are

completed for a program of speak-

ing and entertainment for them in the

new Home Economics building.

Arrangements have been made to

care for children in the regular school

rooms of that building, and as play

equipment is available there, the chil-

dren will have a chance to enjoy them-

selves under competent supervision

while their mothers attend the meet-

ings.

Mrs. Mary Frankhauser, state lib-

rarian, will tell about the values of

books and libraries; Dr. Helen Mit-

chell, Battle Creek, speaks on nutri-

tion, and Mrs. Clara Ingram Judson,

Chicago, has home management for

her topic.

The care and training of children

will be discussed by Mrs. Lydia Lyne,

East Lansing; and Miss Helen Arms,

Birmingham, Indiana, will tell her

audience about household furnishings.

Music furnished by College organi-

zations or individuals will be a part

of the daily programs and a play has

been scheduled for one day. The

women's banquet will be held Wed-

nesday evening.

Educational exhibits prepared by

members of the home economics divi-

sion will be on display throughout the

week. A meat cutting demonstration

is another feature which will draw the

attention of all who have tried to

carve with a dull knife.

Plan Short Course For Seed Producer

Michigan farmers who have now a national reputation as producers of excellent seed grains will have an opportunity to pool their knowledge of the business and to learn the latest research discoveries made at State College during the seed production and marketing short course given at the College, January 27 to 31.

This is the second year that the course has been given. Last year's class included a group of 23 farmers who not only obtained the instruction

ANN ARBOR

in the regular classes but were also able to compare notes on individual yield practices during the informal discussions held during the week.

The course as outlined starts with planning the farm itself and adapting it to the economic production of grain and seeds. All phases of cultural practices are then considered and the course concludes with discussions on marketing and shipping.

Members of the soils department are included in the group of instructors and emphasis is placed on the correct use of fertilizers. Methods of destroying weeds which will lower seed values are also included in the week's work.

The course is held the week preceding Farmers Week to permit those enrolled to stay for the best crops show held in the State.

WOMEN'S BUSINESS PROBLEMS

The average woman does not have the opportunity to acquire a knowledge of financial matters.

Even if she be a business woman, there are likely to be occasions when banking or investment problems may perplex her.

If she be a widow, or a single woman with property, she is likely to have financial responsibilities and virtually no experience in business matters.

The Kempf Commercial and Savings Bank welcomes the accounts of women, and its officers are always glad to lend their advice or assistance.

Advice to Husbands

The key to happy married life

Is—do your best to please your wife.

If she believes that white is black, It doesn't pay to argue back.

And if it's hard for you to see Why two plus two should equal three, So long as SHE believes it so, You might as well admit it, Bo!

And if she cannot prove her claim, That doesn't count—it's all the same.

You shouldn't ask your wife, my Son, To prove her case—it isn't done.

Her intuition stands supreme However odd her claims may seem.

However wrong she may appear, Just say to her—"All right, my Dear."

Just smile at her, and don't be cross, But let her think that she's the Boss— And let her run the domestic To fit her own peculiar style.

And though you may not like her hat, Don't ever, ever, tell her that!

Although it may not suit your eyes, Be sure to praise it to the skies.

And when she gets a dress that's new Admire it, Lad—whatever you do!

However bum the thing may fit, Don't ever, ever, speak of it.

Whatever tact you try to use, To tell her that—you're bound to lose, And if she claims that black is white— Remember this—she's LIKELY right!

Question And Answer Dept.

Question: Is it true that salmon will leap a 44-foot jump to reach the headwaters of a stream?

Answer: Salmon can easily ascend a 44-foot waterfall, but not in one leap. They possess a peculiar ability to suspend themselves and leap forward in the falling water by a switch of the tail. They have been seen to leap a height of sixteen feet in a waterfall and then suspend themselves in the falling water, preparatory for another leap if necessary to reach the headwaters of a stream.

top. Salmon is a salt water fish and impossible to be caught in the sea. It is only on their annual visits to freshwater streams for spawning that they are caught. They are the most elusive and leap fish known.

Question: Is a so-called "cousin" classified as such if they are not blood related?

Answer: Yes, but to distinguish between them a blood-related cousin is known specifically as a "german" cousin, meaning that he is of the same "germ" or stock. The word "german," however, should not be confused with "germane;" they have an entirely different meaning.

Question: Can you answer in your interesting question department how big whales get when they are full grown?

Answer: We do not know. The largest whale ever caught weighed 147 tons or nearly 300,000 pounds. It required three railroad flat cars to transport it.

Question: To settle an argument I wish you would answer if Woodrow Wilson had a middle name? If so what was it?

Answer: Woodrow Wilson was christened Thomas Woodrow Wilson. Therefore "Woodrow" was really his middle name. He dropped the name "Thomas" and stated that while he was president "Woodrow" was his first name.

Question: May I ask in your good question column if it was an American or an Englishman or a German that brought down the most planes during the world war?

Answer: Captain Rene-Paul holds this record. This is a Frenchman that has the honor of bringing down 75 enemy planes during the world war.

Question: Will you please tell me when wheat was first cultivated from its wild state?

Answer: It is not known when wheat grew wild. Evidence found by archaeologists show that wheat was cultivated at least 25,000 years ago.

Question: Will you kindly tell how a person can tell the age of sheep?

Answer: The age of sheep can be told by observing the following: First, baby teeth appear. When the lamb is 12 to 14 months old the two permanent front teeth come in. When it is 22 or 24 months old a tooth comes in on each side of the two permanent front teeth. The third pair appear a year later, and the sheep has a complete set at the age of four years. As the animal grows older the teeth spread and show signs of wear. When it reaches this stage, only an expert can tell the age.

Question: I want to ask you if all of Charlie Chaplin's movie films are talking pictures?

Answer: We do not know, but many of them are old enough to talk.

Question: Can you tell me what Coca-Cola is made of and whether it can make it at home?

Answer: Coca-Cola is made of about 40 per cent of water, 50 per cent of sugar, some caffeine, a little alcohol, some phosphoric acid, a little glycerine and time. It is a mixture of all these ingredients. It is not possible to make it at home.

Question: What day of the week did September 25, 1878 fall on; also June 14, 1886?

Answer: September 25, 1878, was on Wednesday and June 14, 1886 was on Thursday.

Question: Is there any sort of an institution for any one not in their right mind in Elkhart, Mich?

Answer: September 25, 1878, was on Wednesday and June 14, 1886 was on Thursday.

Question: Where did the following say: "Our originator, I am from Missouri, you have to show me."

Answer: The originator of this expression is not known for sure. One authority states that it originated at a poker game in Coffeyville, Kas., when a big Missourian sensed crooked work and called a thousand dollars bet with only a pair of deuces in his hand. At the same time he whipped out a big 45-caliber, and pointing it at his adversary, shouted, "Show-me." His deuces won the pot and his adversary dropped dead. It developed he had five diamonds and one club without a pair, but failed to "ditch" the club because of the keen eye of the "man from Missouri." Hence the expression "I'm from Missouri, show me."

Question: Joseph Blake, long one of the active workers in the American Legion of Northville, has been honored by the sixth congressional district executive committee by appointment as Wayne county commander of the Legion.

The selection of Mr. Blake comes in appreciation of his work in behalf of the Legion and the fact that when he sets out to accomplish a task he generally gets real results.

RADIO AMATEURS

By One of 'Em.

Scattered about the earth are some thirty-five thousand radio amateurs, most of whom are within the continental limits of our United States. This of course is due to our vast population, our wealth, and our increased facilities for advanced education. Generally it is only the well-to-do that own radio stations over on the other side of the world.

These amateurs are enthusiastic adventurers in the realm of the scientific, spending long hours with their apparatus either experimenting or conversing with other experimenters. They are licensed by both the Federal Radio Commission and the Department of Commerce. This license gives him the right to use his station for experimental purposes and to communicate with other similarly licensed stations and to transmit free of charge messages of good will, greetings and emergency.

Although licensed for experimentation, the amateur takes special delight in the successful relaying of messages to all parts of the world, and back in 1915 organized the American Radio Relay League, to which all most every worthwhile amateur belongs. These league members are honor bound to handle messages as quickly as possible and to all act together in case of emergency to affect communication throughout the troubled area.

To illustrate the action of some of these fellows let me describe a recent incident: It was 10:30 p. m. and I was in communication with radio station W8DSA at Saranac Lake in the heart of the Adirondack mountains.

I asked him if he would take a message for a young lady there. He replied "OK GA" so I gave him the message which was one of greetings and good cheer for the coming year. Since I didn't know the street address of the girl it was up to W8DSA to find her. So he went immediately to the local broadcasting station WNBZ and had it announced that any one knowing the whereabouts of Miss Martha Curtis please have her phone 187-J. Well, it worked and in a few hours he had the message delivered. On December 28, two days later, I received a letter of confirmation from both her and the radio station W8DSA.

Amateur radio does not discriminate either among professions or classes. And when you answer a "CQ" it is just as apt to be a farmer as an electrical engineer at the other end. Rich man, poor man, beggar man, thief, doctor, lawyer, merchant, chief, they are all potential radio amateurs, of course we do like to leave out the thief, and would like the beggar man to get out and earn a living! At any rate, whatever be his occupation, you will find the "ham" a tolerant fellow always ready to help the beginner or to show the tug with an old timer. He is anxious to send messages for you and always ready in case of emergency.

The transmitting amateur lives in a world of good fellowship, and woe unto the amateur that utters one word that does not indicate good feeling. Amateur radio is a bond between young and old, rich and poor, of every nation on earth.

It is entirely possible for any of you readers to construct a simple little radio set over which you can tune in on these amateur conversations. And if you are looking for real thrills, just tune down to twenty meters and listen to Byrd in the Arctic, or to some "Hams" in Australia, or if you prefer to be closer to home you may tune in England, France, Germany, or you may go south to Argentine. It is a common thing to bring in those stations about three or four p. m.

The short waves are just teeming with these conversations and if you care to tune them in, music, lectures, and television. All this is open to the adventurer on the short waves. It's a lotta fun to spend an evening just "prodding" around on these "high frequencies" and just listening!

But let me tell you folks, listening is just half the story, the real thrill comes when you "pound the brass" when you call and get an answer, when a fellow way down in the state of Texas answers your call, or you raise a fellow on the west coast.

But wait—it's not "all roses." There is the code to be learned and a certain amount of technical knowledge to be gained before you can get on the air. First you must be able to receive and transmit international Morse code at the rate of ten words a minute, then you must pass a comparatively simple technical exam. Then you will be issued an amateur Radio Operators License, but that is not all the Federal Radio Commission at Washington, D. C., for a station license and call. These will be sent you in due time and then you are all set for the fun. More of this later.

Here's a little extract from my log book for New Year's Day, 1930:

W9EAM—4:30 a. m.—Denver, Colo.
W9FLK—4:45 a. m.—Sibley, Iowa.
W2LW—6:00 a. m.—N. Y. City.
W8BPI—6:30 a. m.—Wheeling, W. Va.

W8TP—3:00 p. m.—Clay Center, O.
W8BDI—3:45 p. m.—Dexter, Mich.—operated by Ezra Heiminger.
W8ATK—7:15 p. m.—Westchester, Pa.

W8QL—7:30 p. m.—Hergen, N. Y.
W8ANK—9:30 p. m.—Chicago, Ill.
And believe me folks, there is a thrill behind every QSO. And as the radio man would say "WI om gas time"

QRT to TX QSO HPE CUGAN VY 78 ES LUCK TO U" DE W8JAC.
Which interpreted would be "Well old man I guess it is time to quit sending so thank you for the communication, and I hope to see you again. Very best wishes and luck to you from radio W8AJC."

Recount Demanded
Continued is a misnomer. There's nothing that has 100 legs except a chorus.—Birmingham News.

Plymouth—In connection with the 190th anniversary of Pentecost, which is being observed this year by all churches, the Methodist Episcopal church of this city is also observing the 100th anniversary of Methodist work in Plymouth. Preaching was begun "out-side of Detroit" in 1828, but the place was in what is now Waterford. In 1830 services were established within the present village, which makes 100 years of continuous service by the Methodist church in Plymouth.—Mail.

Brighton—Dr. W. J. McHenry, a resident of this city, and the oldest medical practitioner in Livingston county, passed away at Osprey, Fla., where, with his daughter, he had gone to spend the winter months. His death took place on New Year's day as the result of heart trouble and came very suddenly. He was 79 years of age, a successful physician and surgeon, and one of Brighton's most highly respected citizens.—Argus.

HONORS STATE OFFICIAL

(Continued from First Page)

North Lake school, showing what he called a contrast of the Past and Present. Mr. Pearce began his speech by relating other differences of "then" and "now," the sleigh rides of olden days and the auto rides of today; the salaries, the school equipment and the methods of teaching.

Although Mr. Pearce is not a school teacher now, he is still interested in the child and its welfare. He said the real problem for parents to solve is how their children can become Christian men and women. "The two most important ways is for the parents to be Christians themselves and to cooperate with the church and the school."

Character, Mr. Pearce said, is far more important than book knowledge, and it does not matter how one feels or who they are, but it does matter what they are.

An interesting story was related by Mr. Pearce showing his anxiety and conscientiousness in carrying out his duties as State Superintendent of Public Instruction. While giving an address in northern Michigan, he pointed out an Indian mother and asked her how much she would take for her baby. Her reply was that she would not take a million dollars, but he could hold the baby for a while. Mr. Pearce said this incident made him realize that in a few years she would give this child to him to be put into the hands of the kindergarten teachers who would hold him for a year, then a first grade teacher would hold him for a year and so on until the child had completed his schooling.

Then turning to a group of teachers he told them that no matter how good a teacher is, she will never be too good for her school.

Mr. Pearce's address was inspirational both to the school teachers and the community.

A recitation was given by Robert Gilchrist after which "America, the beautiful" was sung.

A letter from Claude Burkhardt, president of Lund McNally Co., Chicago, was read in which he related his first experiences as teacher in North Lake school.
