Boy Scouts To Meet Thursday Evening

Washenaw Council, Boy Scouts of
America, will hold its annual meeting
and election of officers Thursday eve-
ning, January 23, at the Church of
Christ, Corner Hill and Tappan, Ann
Arbor. The council is composed of
representatives from each scout troop
in Livingston and Washenaw coun-
ties, together with a group of men se-
lected at large for their interest in the
scout movement. The general public
is invited to attend these annual meet-
ings, and ladies are especially wel-
come.

Among the features of the occasion
will be an address by Dean W. W.
Whitehouse of Albion college who will
speak on "The Value of a Boy." Dean
Whitehouse was born in the slums of
London, and has had a remarkable
rise to his present position of in-
fluence.

Representatives from the various
districts will be elected to membership
on the Washenaw Council Executive
Board, and practically an entirely new
constitution will be considered for
adoption. The previous constitution
did not meet the conditions which
have developed as the council has
grown. Latest reports show that on
December 31, 1929, there were 902
scouts registered in Washenaw Coun-
cil, the largest total ever recorded by
the organization.

C. M. Fennell of Chicago, deputy
regional scout executive, has indicated
that he may be present for the annual
meeting. Mr. Fennell is an expert on
council organization.

Dinner will be served at 6:15, at 75
cents per plate. This will be followed
promptly at 7 o'clock by the general
session, and it is planned to expedite
the handling of business in such a way
as to permit those present to attend
other functions that evening.

Ladies' Night Observed By Local Kiwanis Club

The local Kiwanians entertained
their Kiwaniteques at a ladies' night
affair Monday evening at St. Mary's
hall. A banquet was served at 6:45
by Wm. Korb and his assistants.

Following the banquet a very in-
teresting program was given. Kath-
arine Fletcher rendered two xylophone
solos, accompanied by Mrs. P. F. Nie-
haus at the piano. This being the
15th anniversary of Kiwanis Inter-
national, H. D. Withers gave a very
interesting history of the activities of
the organization since its beginning.

Several musical selections were ren-
dered by the high school Uke Quar-
ter, Katharine Fletcher, Jean Turn-
bull, Margaret Hoeselwerdt and
Helen Brooks. Rev. A. E. Potts
gave a brief talk, taking for his sub-
ject, "Why Worry?"

Lewis Atherton, secretary of the
Metal Trades Association of Jackson,
was the principal speaker of the eve-
ning. He gave a very interesting talk
on "The Spirit of Chelsea." Vance
L. Ogden was in charge of the eve-
ning's entertainment.

behalf of the assembled guests, pre-
sented Mr. and Mrs. Alber with a
beautiful rug.

Those present were Mr. and Mrs.
Jacob F. Alber and children of Lima,
Mr. and Mrs. Louis Alber and family,
Mr. and Mrs. George Alber, Mrs.
Lima Trok and sons, Glenn, Lyle and
Loren, Mr. and Mrs. Ray Johnson,
Mr. and Mrs. Ray Haselwerdt and
Mr. and Mrs. Albert Sutton, of Sha-
ron, Mr. and Mrs. Harry Sutton and
Mr. and Mrs. Oscar Eschelbach and
daughter of Manchester, and Mr. and
Mrs. Wm. Alber of Grass Lake.

ST. MARY'S WINS

St. Mary's Club came from behind
to defeat Saline Independents in an
overtime game 31-27 Friday night,
January 17. The game was hard
fought and full of thrills until the fi-
nal gun. St. Mary's pass work and
accurate shooting was more than the
Saline guards could stop.

Sunday afternoon St. Mary's whip-
ped Manchester in line shape, playing
a good steady game. The Saints had
Manchester about where they wanted
them in all parts of the game. The
final score was 22-20.

Wednesday night the Saints traveled
to Grass Lake, where they were de-
feated, 30 to 21. Sunday afternoon
they entertain three Detroit teams in
St. Mary's gym.

DANCING PARTY

There will be a dancing party at I.

TAXPAYERS ARE URGED TO VOTE AT SPECIAL ELECTION, FEBRUARY 3

Ratification Of Proposition To Raise
Money To Complete Sewer Sys-
tem Predicted By Officials.

Village officials are very optimistic
in their predictions as to the outcome
of the forthcoming special village elec-
tion which will be held on Monday,
February 3. At this special election
taxpayers in the village will be asked
to authorize the council to borrow
\$50,000.00 for the purpose of complet-
ing the sanitary sewer system which
was started last spring.

About \$45,000.00 has so far been
paid the contractors who are con-
structing the sewer system. This
money has been paid from the general
fund of the village, which funds are
now exhausted. The council cannot
legally borrow money to complete an
improvement of this kind unless their
action is ratified by three-fifths of the
taxpayers in the village. For this
reason the electors qualified to vote
at this election will be asked to ratify
the contemplated action of the coun-
cil.

Through municipal distribution of
electric current, the village of Chelsea
is making a profit of approximately
\$10,000.00 per year. It is the plan of
the council to borrow money to com-
plete the sewer system and pay the
debt from the surplus which will be
added to the treasury each year by
operation of the Electric Light and
Water Department.

Although it will not take the entire
amount of \$50,000.00 to complete the
sewer construction work, it is a well
known fact that the streets of Chelsea
are in bad condition and it will take
several thousand dollars to get them
in good shape this coming spring and
summer. For this reason it was
thought by the council to be advisable
to appropriate enough money to do
this necessary repair work.

The most frequent question asked
is "What will be done about the mat-
ter if the proposition of borrowing
money is not ratified?" While this
question cannot be definitely answer-
ed, in all probability construction
work would be stopped and as a vil-
lage we would be in a "mess", wait-
ing for the state to compel completion
of a sanitary sewer system.

The people of Chelsea who can vote
at this election are urged to give the
matter serious consideration. Every-
one knows the sewer system is a
much-needed improvement for the vil-
lage, should the work be completed
and paid for in a way which would not
burden anyone, or should matters be
further complicated?

Are Your Tires Just "Getting By"?

Does that describe your present tires? Treads
worn smooth and slippery as banana peels. Cuts
and cracks that any moment may cause a blow-
out that could easily wreck or ditch you?

For the sake of the very few dollars that these
new Goodyears sell for, why tempt Fate another
hour—with roads so slippery and tire-changing
so disagreeable?

Yes sir, these are first-rate values—possible be-
cause Goodyear builds nearly one-third of all
tires sold today. Come in and have a look?

Crime's Loud Voice
Earth's Ozone Blanket
Wise Ben Franklin

The Postmaster's Fleet

Crimes speak louder than words, and very loud in this fair country just now.

A man arrested in Chicago, accused of participating in the "St. Valentine's day massacre," was delighted to find that "only policemen" were after him.

Said he: "I am glad to see you. I thought some guys were going to take me for a ride sure."

More interesting is the fact that the well-known gambler, Rothstein, whose murder puzzled New York's police and baffled the district attorney, was probably killed by a man who will never be convicted, for the reason that he himself has since been murdered by Rothstein's friends.

Even our able corporations might learn something about efficient organization from our able criminals.

Scientists of Smithsonian Institution hope to learn about magnetic disturbances and weather phenomena generally, by studying the earth's "ozone blanket."

That "blanket" is a thin layer of superior atmosphere, thirty miles up, by measuring the thickness and contents of the earth's ozone blanket, it may be possible to tell what is happening on the sun, 88,000,000 miles away.

It might be possible also later to bring down some of that ozone, with its wonderful qualities for the improvement of the lungs and blood. Future advertisements may read: "Ozone fresh from the ozone-blanket every day."

Going up thirty miles from the earth's surface seems a great achievement.

But a microbe living on the face of an ordinary apple would do as much if he rose from the surface of his apple as much as one-hundredth part of an inch.

Thirty miles is much less than one two-hundredth part of the earth's diameter.

Here is good advice for youth or old age:

"Don't thou love life? Then do not squander time, for that is the stuff life is made of."

More good advice is this:

"If that goes a-borrowing, goes a-sorrowing."

And for a nation in which ninety old men out of a hundred die, worth less than \$100, this is valuable:

"A man may, if he knows not how to save as he gets, keep his nose to the grindstone."

Those wise things were said by Ben Franklin, born 224 years ago.

There is material for a thousand good sermons in Franklin's common sense talks.

Mr. Brown, postmaster-general, suggests a \$70,000,000 program to build a fleet of North Atlantic super-ships for American passengers and mail.

The postmaster demands "a service which could compete with any foreign flag service on the North Atlantic."

Americans will congratulate Postmaster Brown and President Hoover on that proposition, and hope that they will not only compete with but eclipse every foreign service on the North Atlantic and everywhere else.

Why should a country with the best engineers, from the President down, and with more money than any body else, ever play second fiddle on the ocean or in the air?

The only negro student at West Point is dismissed "honorable" for deficiency in mathematics.

Sixty-three white men failed in examinations with him and were also dismissed.

Prejudice had nothing to do with it, although Alonzo Souleigh Parham, the negro, said dismissed, is the fourteenth to enter the academy and the eleventh to be dismissed at the end of six months.

Another cut in the cost of travel by air. The Transcontinental Air Transport, on its "air-rail-water" trip "around the Americas," cuts \$100 off the price of a 16-day tour.

Air transportation is settling down to a business basis.

Mr. Mullins, son of the late

James Mullins, and, like his father, among the most highly respected men in Ohio, gives to Salem a home for nurses. This gift in memory of his mother sets an excellent example to others that can afford to be generous.

Young Americans, wondering "if there is still a chance" might study Mr. Mullins' start in business on his own account. When very young he saw a locomotive that had been in a smashup on the Port Wayne road that he bought for its value as "scrap," set himself and two or three mechanics to work, restored it and sold it for enough to start what became a big, successful business.

There are chances for those that have energy.

CRIME COMMISSION

Crime commissions, state and national, continue active research into crime conditions, always with the delayed hope that somewhere in their deliberations and investigations will be found an adequate solution of these modern social questions, which have been giving us so much concern in recent years.

The public, always patient, awaits these decisions, hoping against hope that corrective measures will be found in time to dam this flow of humanity towards prison doors, already taxed far beyond their capacity.

First congress and state legislatures legislate. Their work is accepted by the people, who proceed to put this new legislation into effect. If it fails in its purpose who is to blame? Certainly we cannot blame this lack of law observance upon the great mass of citizens, who are law-abiding and have a real desire to be of service in this battle of reformation.

Have we not gone legislative mad? Are we not engaged in passing laws that actually go beyond reason in their attempt to stamp out crime? Is it not a grievous mistake to put in mandatory legislation certain functions formerly exercised by the courts and juries?

Solution of most crime problems are generally local. Every community is best fitted to take care of its own situation. It is when we attempt to make blanket laws to govern local conditions that we fail most dismally. When both courts and juries refuse to recognize certain laws it must be patent for everyone that something is radically wrong. We seem to be forever getting the cart before the horse.

Crime commission investigations will be all right if we make common sense use of the information they place before us. And we should never lose sight of the fact that the best information is not through the law, but in the example we set for others.

BETTER RURAL SCHOOLS

State school funds to the amount of \$256,455.67 were distributed by the State of Michigan in 1928-1929 to her 61 Rural Agricultural Schools as special aid for consolidation. During the present school year nine additional consolidations, which were recently established, will participate in this special aid. Since the money is apportioned to each approved school at the rate of \$1,000 for maintenance and \$400 per vehicle for transporting pupils, the amount per school will not be decreased.

KONJOLA PUTS RAILROAD MAN BACK ON JOB

Had About Abandoned Hope Of Ever
Having Health—New Medicine
Wins Fine Victory.

MR. M. F. TAYLOR

"Konjola proved much more than a medicine in my case," said Mr. M. F. Taylor, 1008 Clay avenue, Detroit, an employee of the Grand Trunk railroad, "for it put me back on the job after having had to lay off for quite some time. For three years I suffered from stomach trouble, and ailments of the liver and kidneys. I could not digest sufficient food to keep me going. I suffered from pains and bloating and my system filled with poisons."

"A friend who called at my home recommended Konjola. I told him that I had lost faith in all medicines, but he insisted that Konjola was different. It surely was different, for just seven bottles restored my digestion, corrected my liver and kidneys and put me back to work. I am feeling better in every way than for years, and my wife and three boys are now taking Konjola."

Konjola is sold in Chelsea at Burg's drug store and by all the best druggists in all towns throughout this entire section.

Prints for the Princess Line

Prints again? Of course! But what prints they are, these new ones that smart women will choose now, instead of in the Spring when everyone will want them!

They have a new technique about them to accentuate the molded silhouette of the Princess Line. Their patterns are deliberately smaller and more carefully spaced, to bring out the subtlety of the new silhouette. For daytime they are small and widely spaced.

And since there's nothing smarter under a dark Winter Coat than a gay print dress, and since nothing is so perfectly stimulating as a gay print dress in January, we urge you to see what wonders the new print designs can achieve for the new silhouette. They're Here!

The new spring prints are available now in both the dress goods section and the ready-to-wear floor.

Konjola Makes Sales
Record In 48 Hours

What is believed to be a record in
the history of the prepared medicine
business is reported by the Mosby
Medicine Company, Cincinnati, manu-
facturers of Konjola.

In 48 hours, during the week of
January 1st, 1930, orders for fifteen
cartons of Konjola were received.
This was not the result of a special
sales drive, but the orders poured in
during the regular course of business,
when many great wholesale drug
companies sought to replenish their
stock after taking the customary an-
nual inventories.

Commenting upon this unprecedent-
ed order, Mr. G. H. Mosby, President
of the company said: "This is
more than a quarter of a million
bottles of Konjola are needed at once
to supply the demand, and this record-
breaking bit of business, which I be-
lieve to be unheard of in the mer-
chandising of medicine, may be attrib-
uted to two factors. One of them is
the merit of the product, and the other
is the consistent newspaper advertis-
ing back of Konjola. Certainly such
an order, coming from various sec-
tions of the country within two busi-
ness days, is a fine commentary upon
the far-reaching effect of the news-
papers that carry Konjola copy."

OUR NEIGHBORS

Ann Arbor—American History
Week will be observed in this city
from Feb. 3 to 8.

Mason—Louis B. McArthur refused
election Tuesday as president of the
Farmers' Bank for the twenty-sixth
consecutive term. He made his deci-
sion known to the board at its meet-
ing held last year. —News.

Northville—After a half century of
waiting, the government has finally
recognized the long military record of
Frank Pontney, better known as
Frank Raymond, of Northville, and
has granted a pension to him suffi-
cient to keep him the remainder of his
life. A familiar figure on the streets
of Northville, few knew that for nearly
half a dozen years he saw active
service in the Indian campaigns of
the west that followed the Civil war.
—Record.

Munith—The stockholders' meeting
of the Farmers' State Bank, of Mun-
ith, was held Tuesday, January 14,
and was conducted by Thomas Win-
gad, W. W. Ford and Roy C. Frinkel.
The report of the earnings of the bank
for the past year showed a little over
11 per cent. Directors elected for the
ensuing year are as follows: W. E.
Fleming, O. F. Moeckel, V. R. Weeks,
Charles Pickett, E. A. Parks, J. G.

Harr and J. S. Leece. The following
officers were appointed by the board
of directors: President, W. E. Flem-
ing; Vice-President, O. F. Moeckel;
Cashier, Fred W. Ford.

Saline—While other communities
have been reported as falling behind
on the sale of Christmas seals, we
understand Saline is well over the
top. —Observer.

Brooklyn—Six pigs only 112 days
old, and weighing 140 pounds each
were sent to the Detroit market last
week by George Martin, who received
10 cents per pound. Local feeders
tell George that this is the best gain
on pigs that has been recorded for
many months. —Exponent.

Brighton—Much excitement is being
caused in this county by the news that
a test oil well is being drilled on the
Tracy Cranall farm about three miles
northwest of Howell by the Shell and
Sun Oil companies. A ten-inch pipe,
which is the largest used on this test
well, is now down over 400 feet, and
the drilling is going on day and night
with two shifts of workmen. A gas
pocket was struck at a depth of 90
feet, but the gas is mixed with water,
and therefore unfit for burning pur-
poses. There is also oil. —Argus.

Pecumseh—F. P. Reed, of Onsted,
received word Saturday by cablegram
of the death of his sister, Mrs. Alice

Daniels, which occurred in Midnapore,
India, following an illness from ty-
phoid fever. Mrs. Daniels had been
in India for more than a year with
her daughter, Miss Ruth Daniels, who

teaches in a mission school there. She
was 70 years of age, and was well
known in this vicinity, having made
her home in Onsted. —Herald.

SCHOOL NOTES

Tuesday, the eighth graders conducted the chapel program. We heard for the first time, the high school orchestra directed by Miss Wilson. Rogers Hindover read from the Bible, then we had the extreme pleasure of listening to our radio friends, Amos and Andy broadcasting from Station X.Y.Z. Chelsea. "Amos" was no other than Bud Gulde and "Andy," Matthew McGulligan. After the scene in the Fresh Air Pavilion office, Paul Rogers as a Romeo and Leona Weinberg as a colored girl enacted a little dramatic scene called "Kate Phenath."

The orchestra played again, after which the eighth grade sang three songs. Everyone enjoyed the program and the boys and girls deserve credit.

Milan—Robbers entered the Milan high school some time during the night last Wednesday, and entered the office of Superintendent E. W. Mackey, and made way with a little more than 19 dollars. The deed was discovered by Elmer Donelson when he opened the building Thursday morning. How the robbers entered the building is still a mystery. No tracks in the snow were found around the front of the building, and it is believed that entrance was gained either through the boiler room windows, or someone hid in the building all night.—Leader.

And though the body slumbers here,
The soul is safe in heaven.

Question And Answer Dept.

Ques.—How did Henry VIII of England secure for himself the position as head of the English church?

Ans.—Henry VIII had been espoused to Catherine of Spain, who was first married to his elder brother Arthur, a prince who died young. Henry became disgusted with his queen, and became enamored of one of her maids of honor, Anne Boleyn. He had recourse, of course, to the Pope to dissolve his marriage to Catherine, which had been rendered legal only by a dis-

pensation from the Pontiff, but failing in this, he broke away from the Holy See, and in 1534 got himself recognized by act of Parliament as the head of the English church.

Ques.—I would like to ask in your query and answer column who was the real discoverer of America—Columbus, Cabot or Amerigo Vespucci?

Ans.—What was Vespucci's nationality?

Ans.—Cabot was the first to discover the mainland of America, but as the West Indies, where Columbus first landed, belong to the western hemisphere, the distinction of discovering America goes to him. Amerigo Vespucci was an Italian born in 1451. He claimed priority over Cabot and Columbus in discovering the mainland of

America. The best of authorities, however, consider the claim unfounded. He died in Spain in 1512.

Ques.—Can marriage be appropriately defined as the "fusion of two lives?"

Ans.—Yes. But quite often it results in "confusion."

Ques.—Will you kindly answer who was the first governor of Canada and whether he was a Frenchman or an Englishman?

Ans.—Samuel de Champlain was the first governor of Canada. He was a Frenchman who formed the first French settlements at Quebec and Montreal. In 1681 he was driven from his office by the English, but when peace was restored he was reinstated as the governor.

James Monroe came within one vote of making his election unanimous.

Ques.—What is meant by the "floating population?"

Ans.—That is a term applied to persons residing in one place temporarily. Some people seem to think it applied to Noah and his family in the ark.

METHODIST HOME

While Mrs. Nellie Rumford, one of our efficient nurses, was walking to the village last Friday she slipped on the icy sidewalk and fractured her left arm just above the wrist. She has gone to her home in Detroit to recuperate. Miss Edith Warner, of Adrian, is taking her place while she is away.

On account of the large number of the members of the family incapacitated by colds and other afflictions the services arranged for last Sunday afternoon by the Epworth League of Ann Arbor was postponed until a more favorable time.

Dr. W. J. Balmer is spending a few days with his children at Royal Oak.

Miss Elsie Balmor fell one day last week and sprained her ankle. Although limping she maintains her usual smile and keeps pleasant over the pain.

Mrs. Carrie Reed is still confined to her room by illness, but is gaining slowly.

Mrs. Sarah Ackerman returned Sunday from a two weeks' visit with her children in Detroit.

Mrs. Francis Pool received word Sunday of the death of a sister, Mrs. Alice Shaw at her home in Pontiac. On account of Mrs. Pool's health and the severe cold of the past few days, it was deemed inadvisable for her to attend the funeral services.

Mrs. Jane Taber, an account of her admission to the Home—recorded last week, felt the weight of her great age so much in the new surroundings as to overcome her, and she has been confined to the bed most of the time since.

Something of a hoodoo seems to be following our nurses' past and present. Miss Nellie Hall recently fell on the icy sidewalks and fractured her arm above the elbow. Mrs. Mabel Sheveller had a bad case of blood poisoning in her hand. Miss Elsie Balmor (a going-to-be nurse) sprained her ankle. Mrs. Nellie Rumford fell on the icy sidewalks and fractured her arm above the wrist and Miss Marie Butters got married!

John Hubbard is still confined to his room.

Titus Yettaw and Henry Pilemeier are doing their share of backing from the colds they have captured.

Mrs. Mercy Conan received word Monday of the death of a sister, Mrs. Helen Nichols while spending the winter in Florida. Mrs. Nichols spent some time a year ago with her sister here, and made many friends. She joined the Woman's Foreign Missionary Society here and has kept up her membership since.

Miss Agnes Adams of St. Clair is expected here this week to join the family circle.

Mrs. M. E. Andrews entertained on Sunday, her niece and nephew, Mr. and Mrs. Ralph Andrews and her sister, Mrs. Fannie Everett and two children, all of Ypsilanti.

NOTTEN ROAD

Floyd Schweinfurth is spending some time at Eaton Rapids.

Leona McCoy spent Monday evening with Miss Mildred Hayes.

Mr. and Mrs. Fred Notten were in Jackson, Thursday. They called on Elbert Musbach and Mrs. Kenneth Rowe at Mercy hospital. They also called on Mrs. Carl Rutan.

Mrs. Geo. Heydlauff and son, Lloyd, attended the funeral services of her aunt, Mrs. Susan Dickerson at Tekonsha, Thursday.

Philip Halper of Ypsilanti called on friends in this vicinity, Saturday.

Howard Artz of Waterloo called at the home of Mrs. Lina Whitaker, Saturday.

Schittenhelm Bros. are drawing ice from Grass Lake for Fred Notten.

South Lyon—One morning last week persons in the physics class of the South Lyon High School noticed there were some birds in the trees near the laboratory windows, the birds being of a species not commonly seen here. Investigation showed the birds to be evening grosbeaks. Reports came from other sections of the town that the birds were seen there also.

Early Tariff Bill

The preamble of a tariff bill passed by congress in 1790 stated that it was necessary for the support of the government, for the discharge of the debts of the United States, and the encouragement and protection of manufactures, that duties be laid on goods, wares and merchandise imported.

A registration of 2,783 for the Winter term at Michigan State College at East Lansing, has been announced. This is the largest registration for this term in the history of the college. Rumors that a large number of the students had "funked out" last term were branded as false by the announcement that only 100 students out of the 3,020 that registered last Fall were refused admittance this term because of failing grades.

When Mother's Sick

My mother's sick today, an' gee—
It makes me feel so bad to see—
How sick she looks— But still she'll grin
Each time that I come sneakin' in.
You never hear my mother kick
When she is tired and feelin' sick.
She always says, and tries to smile,
"I'll be all right, Son—after while."

An' when I sit beside her bed,
She'll hold my hand and pat my head,
An' smile at me so sweet that I
Am awful 'fraid I'm goin' to cry—
An' pretty soon I hear her say:
"If I were you, I'd run an' play."

An' then I squeeze her hand some more,
An' sneak out easy through the door.

But I don't want to play and run,
For I don't feel like havin' fun.
When Mother's sick—and too, my Dad
Just acts so funny like, and sad—
An' golly, he is grouchy, too.
But I don't think he's mad, do you?
I think he feels the same as me,
For he likes Mother, too, you see.

But she told me this afternoon
That she'd be better pretty soon.
An' gee but I do hope she will,
For I have surely had my fill
Of eatin' things that Daddy cooks—
An' I don't like their taste nor looks!
I tell you what, when Mother's sick,
We want her better mighty quick!
