

MOTHERS' DAY

Is one of the special occasions that the forgetful man or woman can use as a time to remember Mother, and to give to her some gift that meets her few wants. Mother wants your love and remembrance—a thing you cannot buy for her. But often it is a graceful way of showing this love by giving to her some practical gift that carries your feelings toward her.

C. H. S. Seniors Will Present "Fingerprints"

The Senior play, "Fingerprints," a comedy in three acts, will be presented Friday evening, May 2, in the public school auditorium. Following is the cast:

Hossey Hawks, a fingerprint detective—Olney Outwater.
Ned Thornydyke, part owner of "Thornydyke Ranch"—Clonard McLaughlin.

Jimmy Lee, his partner—George Staffan.

Roger Whitney, Jr., a rich city slicker—Robert Wallace.

Pamela Thornydyke, daughter of Ned—Rowena Brooks.

Paulette Whitney, sister of Roger—Katherine Fletcher.

Mrs. Roger Whitney, Sr., mother of the younger Whitney—Eleanor Lacey.

Miss Amelia Thornydyke, Ned's sister, very precise—Iva Kinsey.

Mignon Moore, the French maid—Joan Turnbull.

Porcelain Purdy, a colored cook—Bernadine Moore.

Celebrate Birthdays At Sunday Event

Mrs. Jacob Hummel was guest of honor at a dinner given Sunday at the home of her son and wife, Mr. and Mrs. John Hummel, celebrating her 72nd birthday anniversary, also the second birthday of her little granddaughter, Rosemary Hummel.

Two birthday cakes with candles adorned the table, which was covered with a bowl of red roses. Mr. and Mrs. Raymond Steele and children of Detroit were out-of-town guests.

Entertain At Bridge Party Friday Evening

Mr. and Mrs. A. Gilbert Clark, assisted by Mr. and Mrs. Gerald Luck, entertained at a bridge party Friday evening at the Clark home on Jefferson street. Tulips, hyacinths and daffodils in yellow and white formed the decorations. Five tables were in play. Mr. and Mrs. L. G. Palmer receiving high honors and Mr. and Mrs. Isaac I. Plunkett, second. Lunch was served.

Anniversary Sale At Burg's, Saturday

An event which promises to be the greatest in the history of the store, is Burg's Anniversary Sale, which is being advertised for Saturday of this week. As advertised in last week's issue of The Standard, a large list of bargains are offered at their actual value; the special prices include items in the grocery, as well as the drug, stationery and candy departments.

The Burg store is being neatly decorated with posters and pennants, and the windows, as well as the entire store, present a scene which emphasizes the enormity of the Saturday event. Mr. Burg is advertising, in addition to the specially quoted prices, "something for nothing and bargains for everybody."

HOSTESS TO S. P. I.

Mrs. I. E. Podas was hostess to the members of the S. P. I. at their meeting Monday evening. The topic for the evening was "Trees." The history of the English was given by Katherine Kusterer, the Oak, by Amanda Koch; the Elm, by Olga Stigter; the Horse Chestnut, by Lottie Kuehner; the Cork, by Mary Schneider; the Linden, by Lillie Wackenhut; the Pear, by Blanche Palmer; the Cotton Gum, by Louise Wilana, and the Maple, by Mary Podas.

Articles relating to the oddities of trees were given, and Joyce Kilmer's poem, "Trees" was recited in unison. Refreshments were served by the hostess.

COLLISION WITH LAMP POST

A car driven by Ben Moody, North street, crashed into the boulevard light post in front of the McKune House about 10:30 Tuesday night, throwing the post about thirty feet, breaking it in several places, and damaging the car considerably. According to Mr. Moody, the brakes on the car locked and turned the car over the curb into the light post.

RIMMENSCHNEIDER SCHOOL REUNION

The annual reunion of school district No. 2, Sylvan, will be held on the school grounds Sunday, May 18. All teachers, pupils or residents of this district at any time, and their families are invited to attend. Pot-luck dinner at noon.

ATTEND INSTALLATION

Mrs. Ray Schroeder, Mrs. J. A. Park, Mrs. Sidney Schenk, Mrs. Otto Luick and Mrs. Clarence Melville were in Bellevue, Monday evening, where they attended the installation meeting of the Bellevue O. E. S. chapter.

STANDARD TO CONDUCT LOCAL STRAW VOTE ON PROHIBITION QUESTION

Will include Chelsea And Surrounding Territory; First Ballots To Be Mailed In Few Days.

Such a great amount of interest has been displayed in the national prohibition poll being conducted by The Literary Digest that The Standard has decided to carry on a straw vote in Chelsea and surrounding territory in an honest effort to tabulate a comprehensive ballot of a complete representative rural community.

The territory to be covered in this straw vote will include all of Sylvan township, which includes the village of Chelsea, Lima and Lyndon townships. Sylvan township votes will be tabulated first, and within the next few days several hundred ballots will be mailed to people of voting age. Return postage will be provided for and those receiving the ballots will be asked to mark their preference in the matter of enforcement, modification, or repeal of the eighteenth amendment and send the ballot to The Standard by return mail.

In an effort to make the straw vote as complete as possible, the registration lists of the townships included in the poll will be used to secure the mailing list. About twenty-five hundred ballots will be mailed, in allotments of three or four hundred each week, and a final count should be available before July 1st. Results of the poll as it progresses will be published in The Standard each week.

Before the poll starts, we wish to state that, as a newspaper, we are not taking a stand for either the wet or dry side of the question in this vote. It is merely our desire to obtain the sentiment of the community at this time, when keen interest is being displayed in this important question of prohibition.

According to available information, The Standard is the first weekly newspaper in the country to announce a straw vote on the prohibition question, although polls are being conducted by daily papers in many cities. In addition to the poll of national scope being carried on by The Literary Digest.

Watch for your ballot—mark your preference and return it to us at once!

Interest Increases In Twilight Baseball

Considerable interest is developing in the Twilight Ball League games as the schedule gets well under way. Some of the teams have so far displayed some real playing ability and the weaker teams promise stronger line-ups for future games.

Following are the results of games played during the past week: Thursday, May 1, Methodists 2; Friday, May 2, O. O. F. 6, St. Paul's 0; Monday, May 5, O. O. F. 6, American Legion 6; Tuesday, May 6, K. of P. 0.

The standings are as follows:

	Won	Lost	Pct.
Methodists	2	0	1.000
O. O. F.	1	0	1.000
American Legion	1	0	1.000
St. Paul	0	1	.000
Methodists	0	1	.000
K. of P.	0	2	.000

MOVING TO FARM

Mrs. Ella Burkhardt and daughter, Miss Flora, who have been occupying apartments in the Bacon residence on East Middle street, will move Saturday to their farm home at North Lake. Mrs. Claude Burkhardt of Chicago will spend the week-end here, after which they will accompany her home for a month's visit.

DRAIN WORK STARTED

Fogot & Son, of Howell, who were awarded the contract for the nine-mile Pleasant Lake drain, placed their dredging machinery in position Monday and commenced the work Tuesday. Emanuel Wacker, who owns the Jerusalem mill, has sold the dam that held back the water used to furnish power to operate his mill, and last Saturday opened flood gates and the pond was well drained when the contractors began their work.

GOING TO SUMMER HOME

M. L. Burkhardt, his daughter, Olive and Miss Clara Feldkamp will leave Sunday, May 10 for their summer home at Little Mass lake, nine miles north of Romig, Minn. They will return about September 1.

Death Summons Aged Resident Of Sylvan

Mrs. Christina Weber, widow of the late Christian Weber, died Sunday evening, April 27, at the home of her daughter, Mrs. Albert Guthrie, on West Middle street.

Mrs. Weber was 89 years of age and was born September 19, 1840 in Wurtemberg, Germany. Her parents were Adam and Dorothy Kalmbech. Left an orphan when three years of age, she came to America in 1854, making her home with her oldest brother, Adam Kalmbech of Sylvan.

February 25, 1864 she was united in marriage to Christian Weber, and they commenced housekeeping on a farm in Sylvan township. Twenty years later they moved to the Erasmus Cooper farm near Grass Lake. For a short time they resided at Whitmore Lake.

Returning to Sylvan township they purchased the Michael Lehman farm, which was their home until 1920, when they took up their residence with their daughter, Mrs. James Richards. Mr. Weber died in 1925. Since last November, Mrs. Weber had made her home in Chelsea.

In 1857 she united with Salem Methodist church, Francisco, and was a member of the Ladies' Aid Society of the church. She also was an honorary member of Cavanaugh Lake Grange.

Mrs. Weber is survived by two sons, Henry, of Whitmore Lake, and John, of Sylvan; four daughters, Mrs. James Richards, of Matamoras, Pa.; Mrs. Manfred Hoppe, of Sylvan township, and Mrs. Albert Guthrie and Mrs. Adam Albers, of Chelsea; eight grandchildren and four great grandchildren. Funeral services will be held this afternoon at 1:30 at the residence of Mrs. Guthrie, and at 2:30 at Salem M. E. church. Rev. Henry W. Lenz officiating. Burial will be in Salem cemetery.

Entertain Relatives At Weekend Party

Mr. and Mrs. J. Nelson Dancer entertained at a week-end house party, the guests including the members of the Tuttle family, cousins of Mrs. Dancer, who are former well known residents of Chelsea.

Those present were Mr. and Mrs. Hammond Tuttle, and Tuttle Stiles, of Chicago; Mrs. Eva Stiles, of Muskegon; Miss Jane Tuttle, of Columbus, Ohio; Mr. and Mrs. Chas. Dolevan, of Ann Arbor, and Miss Marjorie Dolevan, of Lansing.

ATTEND CONVENTION

Mrs. Harry Prudden, Mrs. John Schieferstein, Mrs. Otto Luick, Mrs. J. D. McManus, Mrs. A. E. Johnson, Mrs. J. N. Dancer, Mrs. Samuel Bohner, Mrs. J. H. Boyd, Mrs. J. E. Weber, Mrs. Wesley Smith, Mrs. John Kilmer, Mrs. Wilbur Van Riper, Mrs. George Gager, Mrs. Fred Klingler and Miss Jennie Walker were in Manchester, Tuesday, where they attended the district convention of the Pythian Sisters. Mrs. Harry Prudden gave the response to the welcome and Mrs. J. N. Dancer gave a reading, "Painting a Portrait."

The local Pythian Sisters Lodge will entertain the 1931 district convention.

CAVANAGH LAKE GRANGE

Cavanaugh Lake Grange will meet with Mr. and Mrs. Clarence Lehman, Tuesday evening, May 6. Program: Song—Home, Sweet Home. Roll call—Miscellaneous. Piano solo—Mrs. Edna Loveland. Travel talk—Lewis Kilmer. Reading—Mrs. T. G. Rimmenschneider.

Influence of a good home—Rev. H. Lenn. Song—Leroy Loveland. Reading—Mrs. Geo. Heydault. Song.

ORCHESTRA PLAYS AT BANQUET

The orchestra of the Methodist Sunday school motored to Ridgeway, Friday evening, where they furnished the musical program for the Mother and Daughter banquet given at the Methodist church. Rev. C. S. Risley, a former minister of the local Methodist church, is the minister at Ridgeway.

GIVES TRAVEL TALK

Ransom Armstrong, of Cavanaugh Lake, was the speaker at the Monday evening meeting of the local Kiwanis club. He told, in his usual interesting way, of the trip which he and Fred Baris enjoyed during the past winter, when they traveled by boat from New Orleans to Cuba, Jamaica and the Canal Zone.

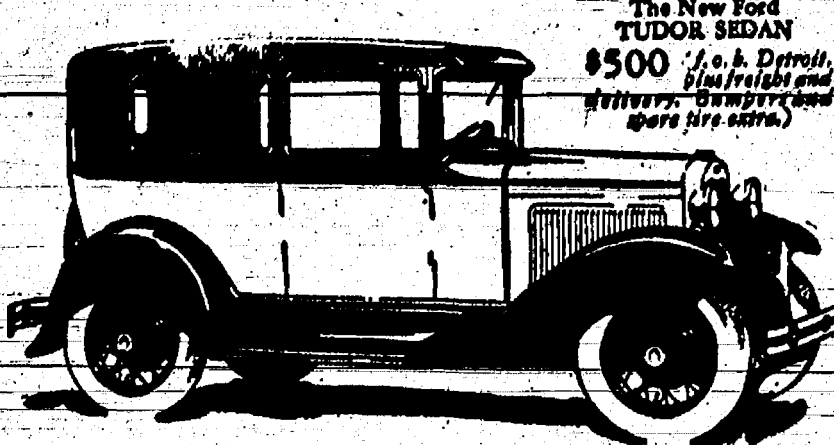

ATTENTION, ODD FELLOWS

Odd Fellows and Rebekahs will attend the Congregational church Sunday, May 4th, in honor of the 111th anniversary of the Order. Meet at the Odd Fellow hall at 9:30 a. m.

It's easier to build fences with RED TOP STEEL POSTS

IN a single day one man unassisted can drive 1-200 to 300 Red Top posts—and align them perfectly. They reduce a week's fencing job to a single day. Eliminate the back breaking post hole digging and make fence building and repair a one man odd-time job.

And Red Tops last long in the fence line—have more strength than you will probably ever need—are made of the same tough steel used in railroad rails and are properly designed to hold the fence in steady security year in and year out.

Come in and let us show you on an actual post the exclusive features that make Red Top the best steel post your money can buy—the reinforcing rib running the full length of the post for extra strength—the accurately placed, prominent studs that prevent the fence from being rooted up or ridden down—the easy driving triangular anchor plate which furnishes a firm underground foundation for the post and the rust resisting aluminum metallic finish which is baked on for permanence.

NATIONAL EDITORIAL ASSOCIATION

Dr. Walter N. Koelz
Receives Appointment

Dr. Walter N. Koelz, who was born at Waterloo, Jackson County, Michigan and graduated from Chelsea High School and Olivet College with scholastic records that have not been excelled in either place, and took his Ph. D. from the University of Michigan at Ann Arbor, has recently accepted a spectacular appointment with the Roerich Museum of New York City to do work in the heart of the Himalaya Mts.

For nine years, Dr. Koelz was Ichthyologist for the U. S. Bureau of Fisheries and during that time made a study of the whitefishes of the Great Lakes which, according to a former head of the Dept. of Zoology here, has not been excelled in this country and probably not elsewhere. In 1925 he accompanied the McMillan Expedition and made extensive biological studies in Greenland. Both Commander MacMillan and Admiral Byrd lauded him for being the best and hardest worker in the party. He has lately held the Lloyd Fellowship here, and is still more recently the position of State Ichthyologist.

Last summer Dr. Koelz made a study of the lakes and fishes of Isle Royale in Lake Superior, and from that has concluded that there must have been a land connection at some time between the island and the mainland, since the fish could only have reached the island according to him, in shallow water or streams, also that this land connection in recent geological time must have been severed and founded in some violent earthquake. This is most interesting, and it is hoped that geological studies this summer may throw light on the verity of this hypothesis.

Among the many scientific collections made by Koelz are: the world's largest collection of whitefishes; clothing, artifacts and equipment of the Eskimos of both North and South Greenland (placed with the Museum of Anthropology here); Greenland hawks and gyrfalcons; the Koelz bird collections in the University Museum; a collection of rare pottery from the pueblos of New Mexico; and a valuable Oriental rug. In science he is one of the few people who can qualify as an all-around biologist having a mastery of both zoology and botany. He speaks German, French, Spanish, Italian, and Chinese. He is considered by several people including former President C. C. Little as one of the few outstanding geniuses of the University.

Dr. Koelz's work will be to establish an herbarium for the Roerich Museum in the Kulu Valley, neighboring Kashmir in the Himalayas. He will endeavor to discover the botanical nature of mysterious medicinal herbs which have been famous for ages as the secret of the peoples of northern India and Tibet. To do this he will this summer take an expedition of Chinese and Russian scientists and native coolies across the Himalayan passes into Tibet. Dr. Koelz goes also as Collaborator in Asiatic Research for the University of Michigan and as Investigator for the Museum of Comparative Zoology of Harvard. His departure creates a vacancy in the University Museum which is difficult to fill.

Stout Air Lines of Detroit completed its millionth passenger mile with an unblemished safety record. Not a passenger of the 127,000 carried during the three-and-one-half year period of operations has been injured. The total was made in the regular service of the line between Detroit, Cleveland and Chicago and in night-flying trips, 1,454, or 13.8 per cent.

To Make Aerial Map
Of Northern Michigan

LANSING, April 30.—The Department of Conservation, the State Highway Department and the United States Geological Survey will begin work about May 10 for the second season of the aerial mapping of Michigan.

The ground control surveys will be carried on in Mackinac, Schoolcraft, and Delta Counties and as soon as weather permits aerial photographing of these counties will begin. It is possible that other counties of the peninsula will be photographed before the end of the season. Accurate base maps will be made from the photographs and ground control surveys.

Last summer Muskegon, Oceana, Mason and the western half of Lake counties were photographed. However, ground control surveys were not made. These will be completed during the coming season.

Through an act of the last session of the legislature and through cooperation of the federal government, all of the northern part of the lower peninsula and all the upper peninsula probably will ultimately be photographed from the air to form base maps that will prove valuable to the Department of Conservation, the State Highway Department and to the public.

The complete survey is expected to cost \$53,000 with the federal government bearing half of the cost. In each county a ground control survey, which includes proper marking of identification points and lines, is being made. These survey marks and lines are used in correlating boundaries of photographs taken from the air.

The photographs are taken from army air corps planes flying at an average altitude of from 10,000 to 11,000 feet. Each picture shows clearly all elevations, lakes, streams, roads, woods, clearings, buildings, railroads, etc.

The photographs and the base maps made from the photographs and ground control surveys are expected to prove especially valuable in the work of the Forest Fire and Forestry Divisions of the Conservation Department, the game refuge work, and the land Economic Survey, and to the Highway Department in laying out new roads.

The tops of the fire towers operated by the Forest Fire Division of the Department, in several counties are being painted white this spring to facilitate identification of points from the air.

NORTH FRANCISCO

Henry Lehman, Mr. and Mrs. Victor Moeckel and daughter, Leona, John Lehman and Laura Moeckel of Waterloo, and Miss Biederman of Leoni spent Sunday at the Clarence Lehman home.

Mr. and Mrs. Ralph Kalmbach of Jackson called at the home of Mr. and Mrs. Chester Notten, Sunday.

Mr. Hall of Summit township called on Herbert Harvey, Wednesday afternoon.

Mr. and Mrs. Herman Hayes called on Mr. and Mrs. Erle Notten, Sunday evening.

Mr. and Mrs. Leonard Loveland and sons Dale and LeRoy, and Mr. and Mrs. Glenn Rentschler spent Sunday in Monroe, at the home of Mr. and Mrs. Ralph Loveland and family. Little Helen returned home with them.

A good many in this vicinity are sick with colds.

Mrs. Lawrence Hasche of Ann Arbor spent a couple of days last week at the home of her parents, Mr. and Mrs. Herbert Harvey. Miss Charlotte Moeckel of Jackson spent Thursday afternoon at the Harvey home.

Will Harvey and daughter spent Sunday with Mr. and Mrs. Herbert Harvey.

Mr. and Mrs. Herbert Harvey spent Monday forenoon in Jackson.

Born, Tuesday, to Mr. and Mrs. Hazen Lehman, a daughter, Mrs. T. Vail of Chelsea, mother of Mrs. Lehman, is caring for them.

Tom Vail and daughter Thelma spent Sunday at the Hazen Lehman home.

This Week

Birds and Men
Women Always Pioneers
48 Years' Work. Thanks

A New Planet

At the Red Bank (N. J.) railroad station, two large flag baskets and two pasteboard boxes with holes to admit air were filled with carrier pigeons. A railroad-man opened them, tying four or five dozen birds. "I don't know where they come from or where they are going," said he. "They are often sent here to be turned loose. I suppose they go home."

The beautiful birds, descendants of Wild Rock-pigeons, found in steep Swiss canyons, flew up in two groups, and for more than ten minutes circled round and round, regaining their sense of direction.

Presently the two flocks, united, flew off together over the roof of the S. S. Thompson General Contractors' building in a northeasterly direction. "They always go over that building, after they fly around ten or fifteen minutes to make up their minds," said a bystander.

Presently flocks of young humans, released from their educational cages, will be turned loose in the world. It will take them more than 15 minutes to decide on direction, and many will never reach the destination. Some day when men shall have lived on earth as many million years as birds have lived here, too, will be born with a sense of direction and know which way to go.

Oklahoma unveils a fine statue to the pioneer woman. Women have always been earth's real pioneers, in ideas and in action.

Far back in the Stone Age they had predicted all the grains we know by developing the seeds of wild plants. They tamed female bunnies to provide milk for their children, planted gardens, changed human beings from a nomadic to a settled life.

They are the pioneer of the frontiers and pioneers in ideas and in religion.

The influence of mothers on their sons in the last million years has changed men from promiscuous cannibals to semi-civilized money-grubbers. It is a great improvement.

William Manck, forty-eight years a letter carrier, absent only one week in forty-eight years, retires. His superiors, shake hands with him and are photographed doing it. That's kind, but Uncle Sam might do more. He might give William Manck and

other faithful servants of the post office a generous pension on which they could live comfortably when their hard work is done.

And without waiting for them to be worn out, he might give them generous pay, which he does not do.

Professor Shapley, director of the Harvard observatory, hears from Canada that another planet, sailing around our sun, hitherto unknown to us, has been discovered.

How many are there in our celestial family? How far out to space does the family reach?

Our ignorance proves the extreme youth of our "winning race." Only a very young and ignorant baby is unable to tell how many sisters and brothers it has.

Our newly discovered planet neighbor, circling around the sun, far out beyond Neptune, is the most interesting thing in the news.

We are only a little more than 90,000,000 miles from the sun. This new planet, about the size of our earth, is 1,395,000,000 miles from the sun.

Multiply that by six and you will know approximately the length of the far-off planet's journey around the sun.

On that planet you must live 3,000 earth years in order to be one year old.

To see the new neighbor, look now. It will be visible with earth's telescopes only about a hundred years longer, and then be hidden for 3,000 years, while it finishes one of its own years.

Japanese custom compels each person to speak with great humbleness of his own achievements.

The clever Japanese statesman, Iwakura, who got everything for Japan that he wanted, gave nothing that he didn't want to give, writes his government lamenting his "inadequate ability," calling his work "regrettably insufficient," and winding up, "I am ashamed."

Interesting news from Russia. Stalin, boss of Bolshevism, celebrates the new commercial treaty with Britain by ordering nine British automobiles, costing from thirteen to fifteen thousand dollars each.

When Stalin and other Russians feel that a \$15,000 car is necessary, that's a sign bigger than a man's hand. It means that somebody is beginning to enjoy wealth, and means nothing good for Communism.

All the powers, you are told, agree that it is desirable "to humanize submarines."

Very desirable, but how?

The young lady in the comic opera sang: "Shoot him gently, Oh, so gently," but you can't do that in warfare.

Extension Work Briefs

The 10th of a series of national 4-H club programs will be broadcast over a hook-up of 43 stations on Saturday, May 3. The United States Marine band will furnish the musical numbers, continuing the music appreciation periods. The theme for the day will be American music in review, and the numbers chosen are "Yankee Doodle," "Battle Hymn of the Republic," "Old Kentucky Home," and "A Chant from the Great Plains." R. A. Turner, field agent in club work for the central states, will announce and discuss the numbers.

The speakers representing club members will be Adeline M. Fein, Hampden county, Mass., who will speak on "The Purpose of Club Work," and Max Drake, Williams county, O., who will speak on "Why 4-H Clubs." George L. Farley, state club leader of Massachusetts, will speak on "4-H Club Work and the Local Leader." "What 4-H Club Work May Contribute to Your Home" will be discussed by Gertrude Warren, organization, boys' and girls' club work, office of cooperative extension work.

The program can be heard in this locality over station WJR from 12:45 to 1:30.

The Lyndon Center 4-H club held their annual meeting at Lyndon town hall Tuesday evening, April 22. Five girls enrolled in canning, nine boys and girls in garden, six in potatoes and five in poultry club work. The officers elected for the coming year in the community club are as follows:

President, Orson Beeman; vice president, Kenneth Ulrich; secretary, Norman Beeman; asst. secretary, Leone Hibbs; treasurer, Mildred Beeman; reporter, A. J. Boyce.

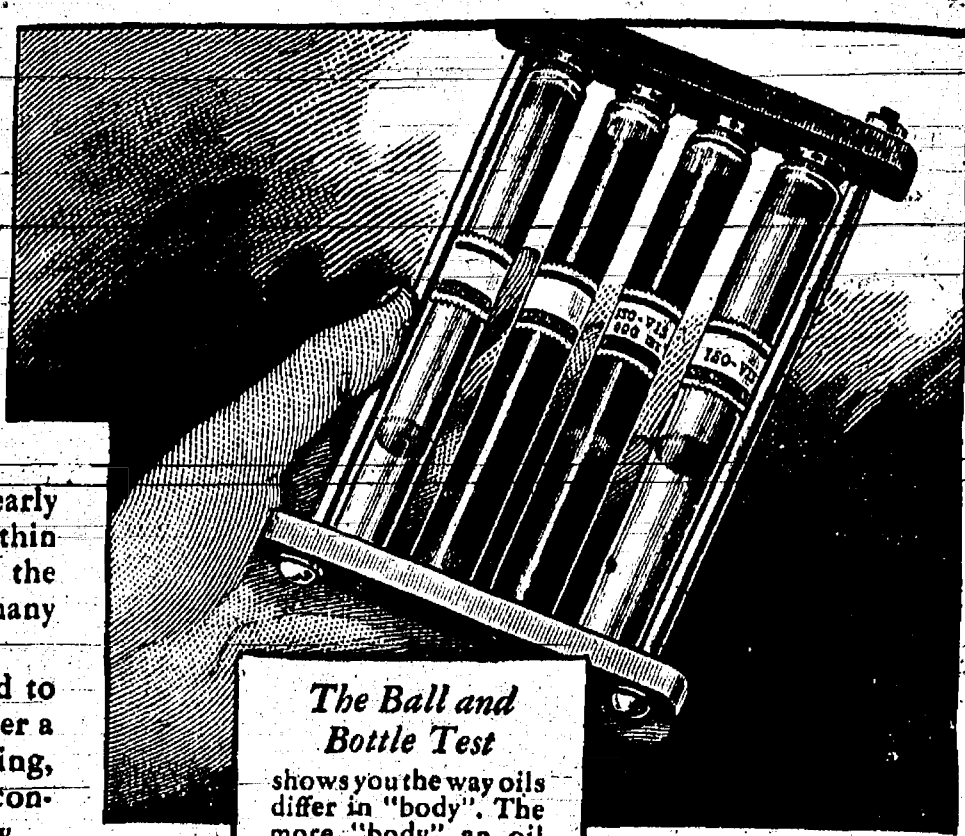

Miss Rose McIntee was elected leader of the canning club; John Young, leader of the crops club (potatoes and garden); Guy Barton, leader of the poultry club.

Traverses Many States

The Oregon Trail crosses the state of Nebraska, goes through the Black Hills of South Dakota, crosses Montana, Idaho and Washington.

Ask any Standard Oil service station attendant to show you...

The ball and bottle test

The Ball and Bottle Test

shows you the way oils differ in "body". The more "body" an oil has, the slower the little ball falls in the tube. Notice the difference between New Iso-Vis and any other oil drained from the crankcase.

THIS simple test shows clearly that New Iso-Vis does not thin out or "break down" in the crankcase no matter how many miles you drive.

To motorists accustomed to find oil thin and diluted after a few hundred miles of driving, New Iso-Vis brings a new conception of motor oil quality.

It is important to realize that 90 percent of the "thinning out" in your crankcase takes place during the first 200 miles after changing your oil. By overcoming this thinning out, Iso-Vis assures you of lubrication not only when your oil is fresh but right up until the time you change.

New Iso-Vis actually is as heavy, after a long period of use, as it was the day you put it in the crankcase.

Remember, too—it reduces carbon deposit far below most premium priced

oils and gives lubrication over a wider range of engine temperatures. You can get New Iso-Vis from any Standard Oil dealer or service station. Fill your crankcase today and enjoy more economical and efficient motor lubrication than you've ever had before.

SAVE MONEY on carbon removal. New Iso-Vis reduces the carbon nuisance.

New ISO-VIS 30¢ per quart

METHODIST HOME

Mr. and Mrs. E. R. Reed returned Monday from a week's visit in Saginaw.

Mr. Walker of Dryden and a daughter from Ann Arbor were guests of Mrs. Sylvia Smith, Tuesday.

Mr. and Mrs. E. M. Brabb of Romeo called on Mrs. Sarah MacGregor Friday.

Mr. L. L. Van Alken, who has had membership in the Home for a year, came Sunday to take her place.

Mrs. Sarah Ackerman is still confined to her bed.

Mr. A. T. Camburn of Tecumseh and several members of the Home called Tuesday.

Mrs. M. E. Andrews received a visit from her sister, Mrs. Della Switzer, daughter, Maud and son George, of Ypsilanti last Saturday.

T. B. Gilliam and wife of Royal Oak were guests Sunday of her parents, Mr. and Mrs. W. J. Balmer.

Mrs. Dora Davis received word Saturday that her sister-in-law, Mrs. Ed Henningway of Gregory has passed away. On account of her feeble health she was unable to go to the services.

Rev. F. B. Johnston of Detroit, executive secretary of the retired ministerial fund, is expected to pay a visit to the Home next Sunday and will conduct services in the auditorium at 7 o'clock.

Mrs. Margaret Bliss is still confined to her room from the effects of her recent illness.

News was received here Monday that Mrs. Seth Reed was taking the Mediterranean trip and expects to visit the Holy Land before her return.

Rev. Payne of Macon was a guest at the Home, Sunday.

Mr. and Mrs. M. Ackerman of Detroit visited her mother, Mrs. Sarah Ackerman, Tuesday.

Mr. and Mrs. Lockwood of Ypsilanti visited the Home Tuesday. They brought her mother, Mrs. Caroline Drake, who has become a member of the family. Her husband will soon be a member.

Ray Bliss of Detroit visited his grandmother, Mrs. Margaret Bliss, last Sunday. He was accompanied by Mr. and Mrs. Harry Gleeson, a nephew of Mrs. Bliss.

Mr. and Mrs. Joseph Juergens and family spent Sunday with relatives in Detroit.

Small, but Able
The ablest crowned heads have not always been crowned the highest. First in war and first in peace among the Prussians stands Frederick the Great. When he succeeded to the throne, one of his first acts was to disband his Potsdam regiment of giants. They probably made him nervous. Frederick himself was below middle-size.

HORSE SALE

At Manchester

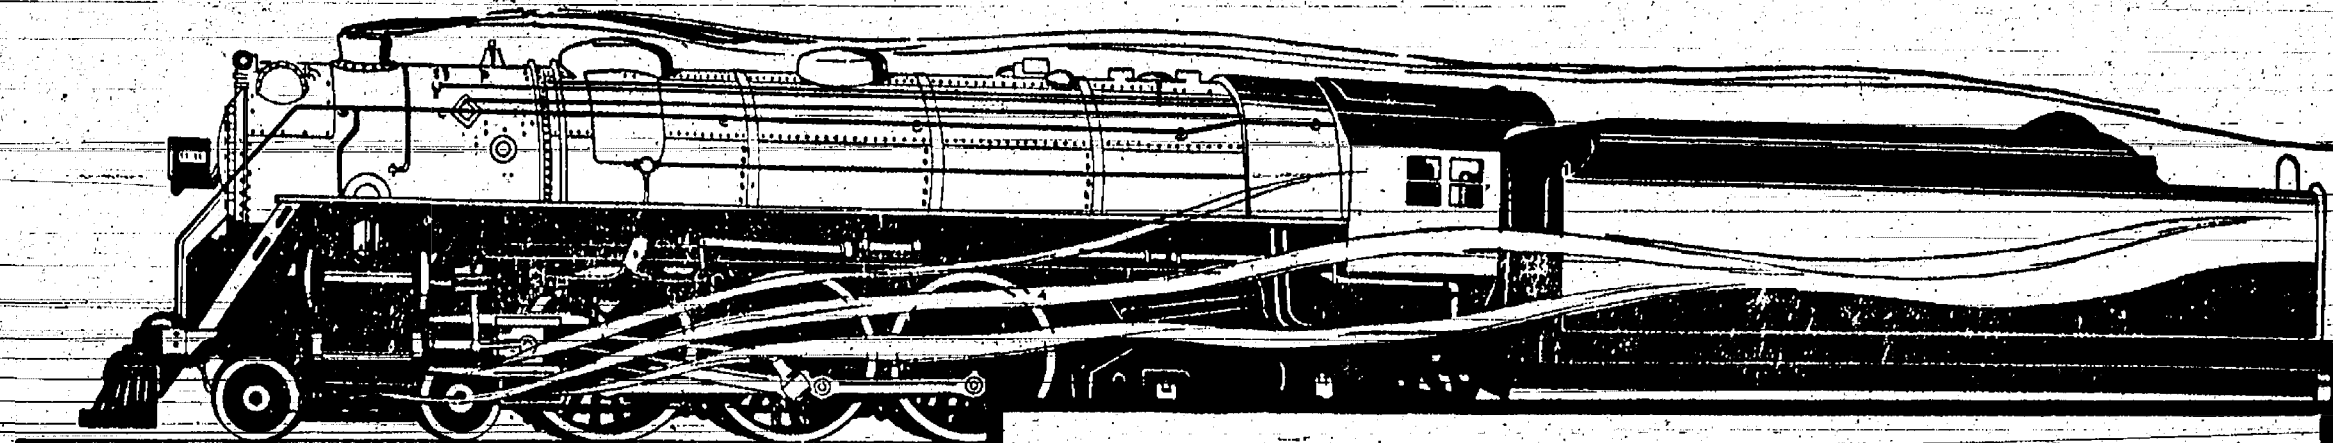

Saturday, May 3

AT 2 O'CLOCK P. M.

15 head of extra heavy good work horses. Can be taken home and tried before being paid for.

WILLIAM PRUCKA

RIVETS MAKE THE LOCOMOTIVE STEAM-TIGHT

The TORRID ZONE STEEL FURNACE

is gas-tight and dust-tight because it is riveted

The smell of coal gas is unknown in homes heated by the steel Torrid Zone. Winter after winter, without replacement or repair, this marvelous furnace keeps delivering clean, healthful, luxurious heat.

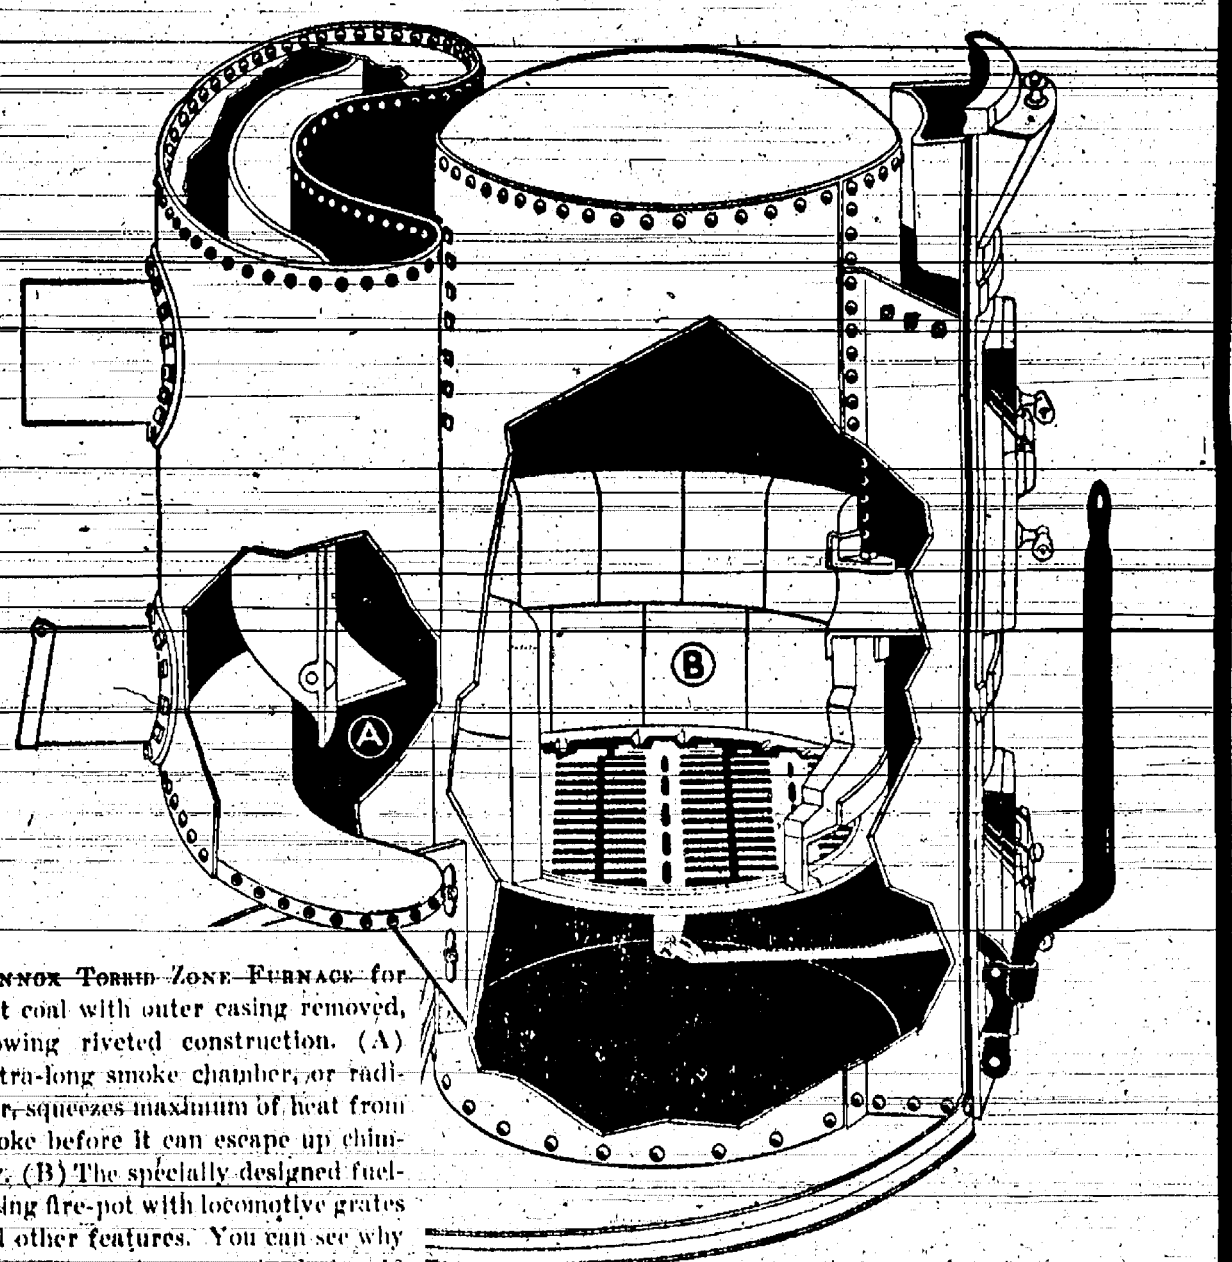

For just as the locomotive boiler is made of steel boiler-plate, hot-riveted and cold-calked for complete safety—so the Torrid Zone is made gas, smoke and dust-tight.

This is the wonderful improvement this furnace can mean in your home next winter—a more healthful atmosphere and greater cleanliness. No more poisonous gases—no more smoke or dust from registers to soil your walls and draperies. Even the cellar will be cleaner than you ever dreamed it could be. Every part of the Torrid Zone is as tight as a drum.

Two other essentials to healthful heating—humidity and air circulation (or ventilation)—obtainable only with warm air systems are yours with the Lennox Torrid Zone. In the Torrid Zone, the humidifier has twice the evaporating area inside the casing of ordinary water pans. Rapid evaporation is also necessary, so it is placed directly above the firing doors where it gets the most heat possible. Proper air circulation is guaranteed when an authorized Lennox Furnace man installs it according to the Standard Code. This is the most desirable heating plant that science has yet devised.

Torrid Zone design means more heat from your favorite fuel

Pick your favorite fuel—soft coal, coke, hard coal, oil, lignite, gas or wood—this furnace will save you money in burning it. The Torrid Zone

LENNOX TORRID ZONE FURNACE for soft coal with outer casing removed, showing riveted construction. (A) Extra-long smoke chamber, or radiator, squeezes maximum of heat from smoke before it can escape up chimney. (B) The specially designed fuel-saving fire-pot with locomotive grates and other features. You can see why this furnace is guaranteed for 10 years and why its average life, based on the service records of thousands of Torrid Zones, is 21 years.

produces from 10% to 20% more heat from the fuel than other furnaces do, hence will heat your house with less fuel than any other furnace will consume. Oversize heating surface radiates the greatest possible amount of heat from the smoke before it escapes up the chimney.

Come see this marvelous heating unit today—or phone or write. We want to show you the sturdy locomotive grates, the "lazy" shaker and many other features that would need pages if explained in this paper. Indeed, we have a mighty interesting book about it—to which you are welcome. Plans and estimates quickly furnished for installations in new or old homes and other buildings of all types and sizes. Factory engineering service and blueprints obtained for special problems. Made by the LENNOX FURNACE COMPANY, Syracuse, New York—Marshalltown, Iowa—Toronto, Canada.

LENNOX Torrid Zone STEEL FURNACES

The Standard Code for installing a warm air heater, adopted by the National Warm Air Heating Association and written by its research engineers, is our code.

Michigan Happenings

Sale of radio station WGHF of Detroit to John H. Kunsy and George W. Trendle was announced recently by George B. Storer, the owner. The transfer becomes effective about June 1. The station will be operated under the name of the Kunsy-Trendle Broadcasting corporation. Kunsy and Trendle were associated for 22 years in the theater business, and for several years controlled practically all of the large motion picture houses in the city. They retired temporarily from the amusement field last fall after disposing of their interests.

Jim Todd, 79-year-old recluse of Cadillac, was afraid he wouldn't live to get in the 1930 census, but he was counted, with the undertaker as a witness, and today he is dead. Ed Althouse, a neighbor, found him unconscious in his shack. Thinking he was dead, he called the undertaker. The undertaker found Jim alive, but critically ill. While Althouse and the undertaker were preparing to take him to a hospital, the census-taker came along and Jim Todd was counted in the 1930 census. He died a few hours later in a hospital.

For uncoupling the two rear coaches of a moving Michigan Central train in Bay City, one of which was the private car of Henry Shearer, general manager of the road, Edward Williams, 17 years old, was given a 15-day County Jail sentence.

The congressional rivers and harbors committee of Congress at Washington, D. C., has authorized \$481,000 for improvements to the harbor at Monroe, \$189,000 for the Holland harbor, and Black Lake, and \$26,000 for dredging Black River.

Fire caused \$20,000 damage to the Belding Hall Co. plant at Belding and lost more than a hundred men temporarily out of work. It is believed the blaze was caused by spontaneous combustion.

Tourist Paradise
The "Land of the Humming Birds" Trinidad, is a feast for the tourist. Here are found Europeans of English, French and German extraction, a few Americans, a large number of negroes, about one-third the population is of East Indian extraction. Despite the diversified population this most southerly of the West Indian islands is very prosperous. Largely because of its rich soil and fertile land, which supplies a good part of the United States and Europe with sugar.

Made Famous by Novelists
The model for the character of David Harlow in the novel of the same name by E. N. Westcott was David Harlow of Homer, Cortland county, New York. —Literary Digest

VOGEL & WURSTER

Chelsea, Michigan

Savings deposits in State and industrial banks of Michigan amounted to \$768,277,819 on March 27, or \$5, \$73,150 more than at the close of 1929, according to a summary of quarterly reports prepared at Lansing, by R. E. Reichert, banking commissioner. The total was smaller by \$44,179,411, however, than at the same date last year. Commercial deposits increased \$85,847,280 during the year, reaching a total of \$54,946,819. Between Dec. 31 and March 27, a decrease of \$448,390 was noted in commercial deposits.

One of those things that happen mathematically, only once in a million times or so came to pass the other night. A Detroit newspaperman held a perfect cribbage hand, counting 29, the highest score possible in the game. On the deal he got the five of clubs, spades and diamonds and the jack of hearts. He turned the five of hearts on the deck for the extra points. He has played the game for 40 years, and his opponent for 45, but this was the first time that either ever saw a perfect hand.

Detroit is assured a monumental main postoffice and federal building probably on the site of the present structure, under recommendations transmitted to Congress by the bureau of budget of the federal government at Washington, D. C. In place of the \$1,800,000 previously provided for a 15-story office building the bureau recommended expenditure of \$5,036,000. This will make the outlay approximately \$5,000,000 after the old customs house site has been sold.

An East Side resident of Detroit whose radio will receive broadcasts of WCK, the Detroit police radio station, enjoyed a real thrill the other evening when the police announcer told of a hold-up not three blocks away. "I was playing chess with my wife," he said, "when the call came over the radio. Leaving the chess game, I dashed out of the house and was at the scene of the hold-up shortly after the scout car arrived and just as the police cruiser drew up."

ORDER FOR PUBLICATION
State of Michigan, County of Washtenaw, ss.

Suit pending before Joseph C. Hooper, a Circuit Court Commissioner in and for the said county, between Abram K. Tucker, Emma Tucker and State Bank of Augusta, Michigan, assignee, plaintiffs, and Ralph Vigliotti and Clorinda Vigliotti, defendants.

Summons having been issued in this cause and having been returned that the said defendants cannot be found within the State of Michigan, and it appearing by affidavit that it cannot be ascertained where the said defendants reside, It is Ordered, that the said defendants appear at the office of the undersigned on the 10th floor of the First National Building, in the City of Ann Arbor, in the County of Washtenaw, Michigan, at ten o'clock in the forenoon, Eastern Standard time, on Wednesday, the 4th day of June, 1930, and defend the complaint filed in this suit, or judgment will be entered by default, and that this order be served or published as required by law.

The foregoing suit involves title to the following described premises:

The west half of the southeast quarter of section 22, and the southeast quarter of the southeast quarter of section 22, town 1 south, of range 6 east, Northfield Township, Washtenaw County, Michigan. Also, all that part of the east half of the northeast quarter of section 27, town 1 south, range 6 east, which lies north of the center of the Territorial Road running through said section, all in Township of Northfield, Washtenaw County, Michigan.

Dated at Ann Arbor, Michigan, this 30th day of April, 1930.

JOSEPH C. HOOPER,
Circuit Court Commissioner, Washtenaw County, Mich.

Try Standard Liners—only 25c.

Day's Meaning

Mother's day is essentially dedicated to the protection of the home and all that implies. In its more obvious aspects it is a reminder of a personal duty, from every son to every mother, but it suggests, too, the obligation of all sons to all mothers. It is broad in spirit, catholic in conception and admits no narrowness of interpretation.

Give Some Thought to

Mother's Leisure Time

Did it ever occur to you that you sometimes can be selfish with your mother simply because you are so fond of her? That is, you can be so fond of her that you want to take all her spare time yourself instead of sharing her with others. It may be pleasant to have your mother at home with you all the time. You may miss her when she is away, but don't forget that she ought to go out. Other people want a share in your mother, too.

Do you ever watch to see that your mother gets a little time every day that is really all her own? Sometimes mothers are so busy all day doing things for others and taking an interest in the affairs of the rest of the family that they never have leisure to read the things they would like to read, to write the letters they would like to write, or to do the little things in which they would find the most recreation. Watch to see whether your mother is getting a little bit of life of her own.—Selected.

Make It Unprofitable
How to stop crime? Well, people stopped making buggies when advancing civilization made it unprofitable.—San Francisco Chronicle.

Sunday, May 4—
Morning worship, 10 o'clock. Sermon topic, "The Narrow Gate."
Sunday school, 11:15. Mrs. N. W. Laird, Supt.

If not affiliated with some other church, you are cordially invited to worship with us.

CONGREGATIONAL CHURCH

Rev. A. E. Potts, Pastor

Sunday, May 4—
Morning worship at 10 o'clock. Special service in honor of the Odd Fellows and Rebekahs of the local lodges. Sermon appropriate for the occasion. The public is cordially invited to this service.

Sunday school at 11:45. Mrs. Helen Lindemann, Supt.

"Cap" Meade, one of the early hunters and trappers of Lake county rushed the season a bit by taking a summer vacation of rainbow trout from the Manitowish river, but he encountered two Isaac Walton league special deputies acting as conservation officers. He pleaded guilty to two counts, and was fined \$125 and costs, and was sentenced to 30 days in jail at Baldwin, the county seat.

Fire destroyed the main building, a three-story brick structure, at the Pine Crest Sanitarium, seven miles west of Kalamazoo. The loss was estimated at more than \$35,000. Forty-eight patients, housed in small buildings in the immediate neighborhood, were removed without injury. Dr. B. A. Shepard announced the structure would be rebuilt at once.

NORTH LAKE

Miss Eva Melvin of Pinckney has been engaged to teach the North Lake school the coming year.

Mrs. Oliver Janke and children of South Lyon spent Wednesday at the home of her parents, Mr. and Mrs. George Webb.

Character Formation
There cannot be any goodness unless it is a practiced goodness. Goodness forms itself in solitude, but a character in struggling with the world.—George Meredith.

PRIMARIES SEPTEMBER 2

Question And Answer Dept.

Ques.—In writing to my brother and sister-in-law will you be kind enough to tell me how I should address them? Should I say "Dear Charles and Mary," or "Dear Mary and Charles?"

Ans.—It is proper to use the lady's name first, whether it is a relative or others. Hence in your case the salutation should be "Dear Mary and Charles."

Ques.—Who are the Commodore now in the United States navy?

Ans.—There are none. The rank of "commodore" was abolished in 1899 except for officers on the retired list. The rank of "commodore" was created officially on July 16, 1862, during the Civil War. Prior to that time the rank did not exist, despite the fact that Paul Jones, John Barry, Stephen Decatur, Edward Preble and others were called commodores. Officially they were captains, but were called commodores merely by courtesy because they commanded squadrons.

Ques.—Our class is in dispute as to which is the largest island in the world. We see where you answer questions and we trust you will answer this in an early issue of your paper.

Ans.—It depends upon what you have classed as islands. If you have Australia classed as such, then it is the largest. As it is usually classed as a continent, however, the largest island is Greenland, with 827,300 square miles; followed in order by New Guinea, Borneo, Baffin Land, Madagascar, Sumatra and Great Britain.

Ques.—Has there ever been a world's fair held since the one that was held in Chicago thirty or forty years ago? If so, where?

Ans.—There have been several similar fairs to the Chicago exposition since that time. They are: In Buffalo in 1901; St. Louis in 1904; San Francisco in 1915; Philadelphia in 1926; Paris in 1900; Rio de Janeiro in 1922; London in 1924.

Ques.—How long does a foreign-born person have to be in the States before he can become an American citizen? Also can he get a divorce here from his wife who is still in the old country, and has good grounds?

Ans.—A foreign-born person who is not a naturalized American citizen cannot get a divorce in this country no matter how good his cause may be. He must first become an American citizen. To become an American citizen he must live in this country five years and then wait at least two years after taking out his first papers. Then if he has sufficient ground for divorce and can fulfill the citizenship requirements he can bring suit for divorce.

Ques.—Does the Island of Guam belong to the United States? If it does, what is the language that is spoken there? Also how is it governed?

Ans.—Yes, Guam belongs to the United States. It is governed by a governor of the United States. English is the official language, but there are not many there that speak it. The prevailing language is a corrupted Polynesian dialect called Chamorro. Some Spanish is spoken also.

Ques.—Now that the time is not far off I am writing to ask you if you know what is a good formula to put on trees that will kill or keep away the caterpillars?

Ans.—You can use any combination of grease, with wax, pitch or resin that will remain sticky when cold and will not melt easily. A good formula is 12 parts of pitch, 10 parts of resin and 2 parts of resin oil.

Ques.—Will you kindly answer which expression is correct: "I wrote a letter to my sister," or "I have written to my sister?"

Ans.—It is proper to say: "I have written a letter to my sister." The so-called word "wrote" is classed as obsolete, obsolete and has no place in reputable dictionaries. Webster, Johnson and other famous orthographers do not even attempt to define "wrote" other than to say it is low, vulgar obsolete.

Ques.—Could you tell me if there is any way of telling from the top soil if there is any oil beneath it or not? I was digging on some of my land and little indications of oil was seen. It would come to the surface and spread over just like oil does.

Ans.—We doubt if this would be considered by experienced oil men as sufficient indication of oil. In some oil fields there are seepages of oil and gas, while others give little or no surface indications. According to one authority on oil and gas in Michigan, such signs as a seep of oil on ponds and in wells have led to much fruitless drilling.

Ques.—Does the sound of an auto horn make a person's nerves "jumpy"? Ans.—Yes; and their legs too.

Northville.—As a part of the Memorial Day program to be held in Northville this year a boulder tablet to be erected by the Northville Woman's Relief Corps will be unveiled and dedicated to the memory of all veterans of American wars. Record.

SLAT'S DIARY

Friday—well the teacher rote a note to pa today and told him a lot a stuff about my Deport-

ment and ect. and tonite pa tuk me out in the garage and give me a licken and then he sed he was punishing me becuz I picked on a kid smaller n me but it popped into my hed that meby he was bigger n me also.

Saturday—They was a meeting to-day sum thing about a X service man here in town. And Jake and me marched with the Scouts and they had a band witch played a paterotte peace and also the french masherun the witch was named Mayemais and we had a very xalent time and a tea cream cone after words.

Sunday—wile we was out driving in the 2d handed ford just as we was a crossing a rale rode track why here cums a train and didden miss us morn a inch about. I goes the poor old engnear must a ben skared pritty, bad becuz he was white as a sheat us he went a past us.

Monday—Pa made a soshial error tonite when Miss Blunt cum in and showed us a pitcher of the lello to witch she is engaged to get married to. after she let pa see it she sed wot what do you think of him and pa replied and sed Well he must be very welthy. she went out without saying very much more and I herd Ant Emmy say sumthing about a fox Pasa.

Tuesday—we are a getting redly to give are play in a cuple wks. I do not like my part very well becuz I am supposed to be a Englishman and I am haveling a lot of trouble getting the Molecule to stay on my eye.

Wednesday—they was a agent here today and he was a trying to sell Ant Emmy a encyclopeda but she sed it wasent no use to try to sell her one of them things becuz she was to old to lern to ride it enny ways.

Thursday—Pa gits pritty mad avry yr. since he tuk up playing Golf. Evry yr. about this time sum I witch thinks he is Smart sends pa a little book intitled. Hints for Bagimiers in Golf, and he has ben trying to play for sever yrs. now. And says hes hard to lant.

RADIO AMATEURS

By One of 'Em.

Dead Air—that's about the best way to describe the radio weather we have been having for a couple of weeks past. Things are beginning to open up again after this little snow storm and the change of weather. The signals have been weak and unreliable and schedules with Chicago have not been certain lately. Short wave will be back on its feet again pretty soon when the weather settles down. Weather has a very decided effect on radio in spite of what some may say to the contrary.

There is lots of "kicking" going on among the gang, on account of the new regulations. They are O. K. though, and are a marked improvement in Amateur radio. They were surely needed. On Monday night, April 21, WSCAT in Detroit had two messages for Chicago and I had two for Detroit but our schedule was broken up—so badly that neither got the traffic through. The trouble was on account of two RAC notes that were on the waves and the "Hams" were asleep on their keys. I can think of nothing more aggravating than to have a fellow testing on the wave of a station I am working. Night is no time to test. That should be done in the day time or early in the evening and never then should the operator hold the key down. The proper way to test is to disconnect the aerial until adjustments have been made and then tune the aerial to the set while making a series of "v's."

Just the other night I heard a well known ham saying QTA for repeat, can you beat it? Another asked me what QTR meant? He said he hadn't learned the new Q signs yet. They are not new now they are about a year old.

On Army Amateur nights the A. A. stations use "Z" signs quite a bit and it might be interesting to know their meaning.

ZAR—I have msg fr U (QTC)
ZAH—Ga Mag (MK)
ZAJ—Nothing hr (QRU)
ZAX—Reception impossible
ZAU—C U later
ZLF—Increase in frequency
ZLG—Decrease in frequency (same as QSY)
ZKN—Send a series of V's (QRV)
ZBP—(QRQ)
ZBQ—(QRS)
ZCR—Cancel msg (QTA)

There are sixty of them that the A. A. station operators should know. The Z signs are the oldest know signs of that type and run into the hundreds, they say you can even make love with the Z signs.

When summer comes with its static (QRN) the bunch on the eighty meter band all want to go down to forty meters to get out of QRN. That is fine. Then the eighty meter band will not be congested and there will be better chance to handle traffic there. Even now the number of stations on eighty is thinning out and the regulars who stay there are in for a summer full of good skeeds and lots of traffic. Eighty meters is the only wave we have available to work short distance at night. Forty meters skips over the heads of our neighbors a hundred miles away. So stick to eighty, if you want traffic this summer. The static isn't bad, it comes by spurts and may be very bad even at seven P. M. and none at all at eight-thirty. I am told that we will all receive post card notices of the Ham-Fest, but those hams that don't get a card, I am extending this invitation, to come to Ypsi May 4th and meet the bunch at the National Guard Armory.

Cheap Method Kills Parasites Of Sheep

At a cost of one cent for drenching materials for each sheep, the internal parasites of the animals can be controlled if the drenching is done before the sheep go on pasture and good care is taken of the flock afterwards, according to animal husbandry specialists at Michigan State College.

Good feed and rotation of pastures are necessary in preventing losses from sheep parasites. The proper feed enables the sheep to build up resistance to the parasites and the rotation of pastures prevents infection. The drench recommended by the College specialists is made by measuring three quarts of water into a wooden or earthenware dish and then dissolving one ounce of copper sulphate by suspending it in a cloth sack just under the surface of the water. A liquid ounce of black leaf forty, a nicotine preparation, is then added to the solution of copper sulphate.

The doses advised are: For three months old lamb, one ounce; for a mature sheep, four ounces. The size of lambs should be considered in measuring the dose. A weak lamb which is small for its age should receive a dose smaller than the one recommended.

Sheep which are not on pasture should be kept off feed for 12 to 18 hours. In treating, the sheep should be allowed to stand with the head slightly elevated but the nostrils of the sheep should not be raised above the level of its eyes. A small neck bottle or syringe can be used for drenching. The sheep should have access to water both before and after drenching.

ANN ARBOR—Students at U. of M. will be asked to contribute \$3,000 toward the annual summer camp for boys, which is sponsored by the University. The remainder of the \$8,000 required will be furnished by faculty members. More than 2800 poor boys, mostly from Detroit's slums, have been given the benefit of this camp.

**The Happy Family**

THE HAPPY FAMILY is the one that is free from financial worry. Freedom from financial worry comes only when there is a surplus laid aside for use in case of necessity—a surplus that will provide for the future—more comforts for father and mother; good educations for the children.

With a moderate income, any family can arrange its expenditures to permit laying aside a definite sum each month in a savings account.

Begin now. Build a reserve that will take financial cares from your home.

DROWNED IN WATER YET "RUNS"

TONS of water surge fully against the General Electric Refrigerating Units in dealers' windows throughout the country. From coast to coast people are witnessing an astonishing demonstration of the unfailing reliability of General Electric Sealed-In-Steel Refrigerating Units. Drowned in torrents of water, they are operating quietly, efficiently, perfectly.

Dramatically General Electric shows why not one owner has ever spent a cent for service. No other mechanical refrigerator could withstand the test. Its mechanism, bathed in oil and hermetically sealed in steel, is unaffected by air, dirt and moisture. The General Electric is trouble-proof and worry-proof.

The cabinet is of all steel construction—porcelain-lined. Its movable, built up on legs, it has a free vision base that permits true kitchen cleanliness. Freezing rapid. Food storage capacity is greater. High efficiency and lower power requirements cut operating costs. Here is the most helpful and inexpensive household servant you can have. Ask us to prove these advantages to your complete satisfaction.

You Must Consume Less Than You Produce During Your Productive Years

The amount you spend for clothes, or amusement, or anything else is your own personal affair. Each man or woman has a different idea in regard to what should be classified as necessities, comforts, or luxuries.

HOWEVER, there is one thing certain—if you want to continue enjoying the necessities and some of the comforts and luxuries in the future, then you must spend less than you earn now.

Under State and National Control

MILAN—Clematis Lodge of Milan, won the cup in the Rebekah District Meetings for the third time last Monday when the lodges met at Deerfield. The local lodge becomes the permanent owner of the cup. Milan with a membership of one hundred and fifty-seven had sixty-four of its members in attendance. —Leader.

BRIGHTON—For the second time in less than five months, the Brighton post office had been broken into and robbed. The rear door had been forced by tools taken from the east section house, the safe wheeled out into the back room and forced open, the combination knob hammered off and the door pried open. About \$314 in stamps and a small amount of money in pennies rewarded the yeomen for their pains. On the night of December 1, the preceding year, the office was robbed and between \$800 and \$700 taken. —Argus.

NEURITIS AMONG AILMENTS THAT KONJOLA ENDED

"I Would Like To Shout The Praises
Of This New Medicine,"
Says Grateful Lady.

MRS. ROBERT CRUISE

"As long as I am able to talk I expect to continue praising Konjola, the medicine that banished my ailments and relieved my suffering," said Mrs. Robert Cruise, 701 Warren avenue, Saginaw. "My stomach was in a terrible condition. I could scarcely retain any food without severe, cramping pains. Food did not taste right, and I dreaded mealtime. I had awful dizzy spells, and when those passed away, my nerves were all upset. But worst of all were those terrible, knife-like pains of neuritis that stabbed my shoulders and arms. These kept me awake for hours at night and made life miserable during the day."

"A neighbor told me all about Konjola. I don't know why, but I put my faith in this medicine, and started the treatment. Within a week I noticed a slight change for the better, and, after taking seven bottles of Konjola, all pains vanished and my health was restored. I would like to shout the praises of this new medicine."

Konjola, a medicine containing 22 medicinal roots and herbs, works with the digestive tract, eliminating poisons and restoring normal activity to the important functional organs. From six to eight bottles are recommended as a fair treatment.

Konjola is sold in Chelsea at Burg's drug store, and by all the best druggists in all towns throughout this entire section. —Adv.

Star of My Life

Can ere I breathe the breath of life
Your prayers, like rays of heavenly light
Illumed safe paths for me to tread,
To point my ways in places bright.
Through childhood days of helplessness
And mystery, strange pain and tears,
You led me ever from the depths
Of joyless hours from needs or fears.

Star of my life—
My mother.

New interests with added years
Have come, but none that does imbue
With greater faith than your sure love.
No orb that gleams more brightly through
The clouds that float across my view
To peace and happiness and God,
To guide, to comfort, to sustain,
As life's uneven course I plod.

Star of my life—
My mother.

I know 'tis not without distress
You've kept your light before my feet,
Oft times I've followed errant bent
And brought you grief and sore defeat.
But your true life and patient love
Have kept me plain the surer way.
Though I fall short, you have not failed;
For this I honor you today.

Star of my life—
My mother.

—H. T. McChes

OUR NEIGHBORS

SOUTH LYON—Robbers were at work in South Lyon Tuesday night, and entered the Ford Service Garage where they helped themselves to four or five hundred dollars worth of tools. Mairauders seemed to have confined their work entirely to the shop, neither the safe nor the till had been molested, and the stock and accessories had not been touched. The visitors evidently left through the back doors, leaving them partly open. Just how the thieves entered has not been definitely ascertained. —Herald.

MANCHESTER—With every city and village begging for paved or gravel roads right away, Manchester is still hoping for some work to be done during the coming season or fall towards paving M-11. —Enterprise.

DEXTER—It has been quite a few years since the local high school has been represented by a base ball team, but the great American pastime will be renewed at Dexter high this spring. —Leader.

BROOKLYN—Improvements at the old A. P. Cook residence recently purchased by Geo. L. Worthington included the restoration of the bay window on the east side of the house. The roof of the window was found to contain a swarm of bees. At this time of year not much honey would be expected to be found, but G. C. Dresser and Emmett Turk who volunteered to remove the swarm secured sixty pounds of sweetness which had been neatly packed within the enclosure. —Exponent.

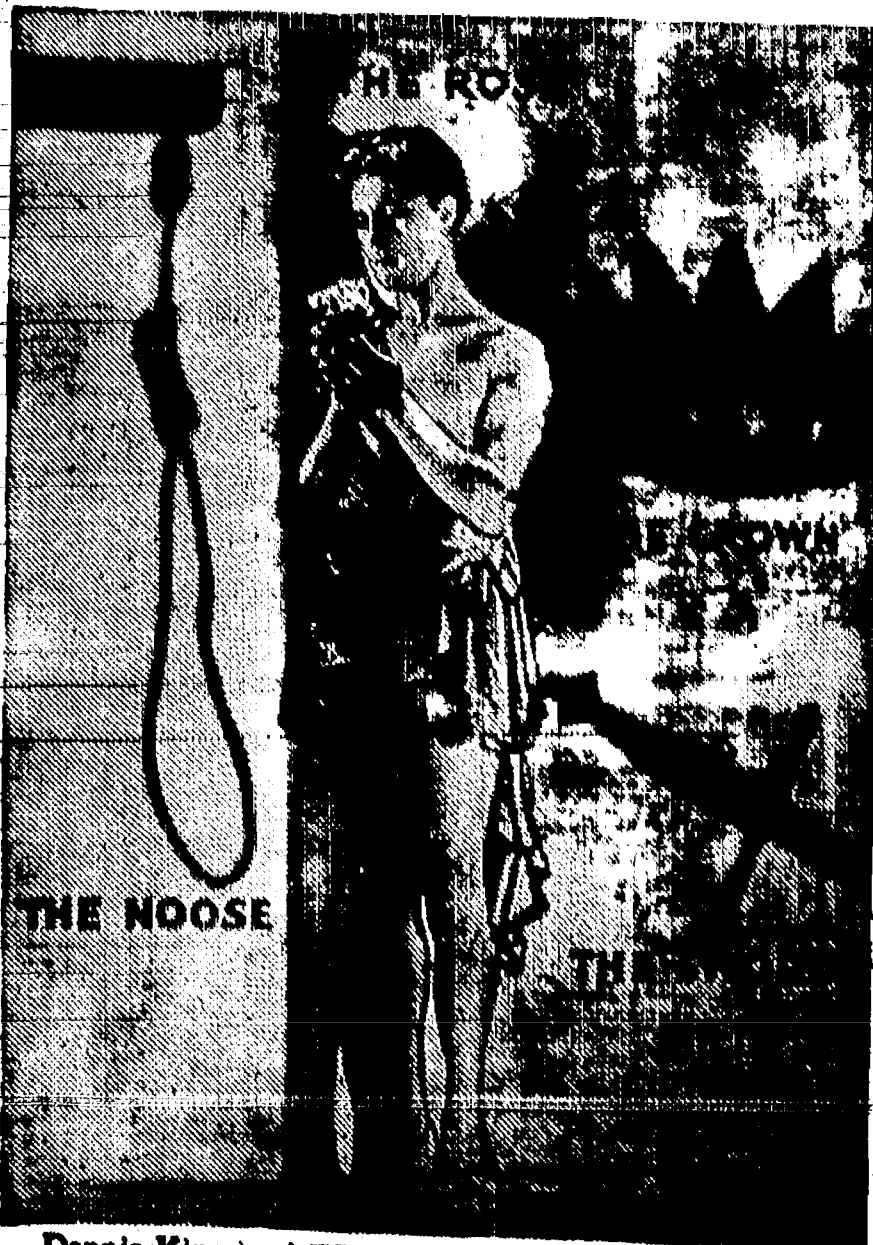

CEMENT CITY—Cement City's new school building is making good progress in construction. The foundations are nearly all in, the brick work is going up, and the steel beam for the gym and auditorium have been erected. The job of putting in foundations and footings was made more difficult by the under strata of sand stone. Every foot had to be picked out before it could be shoveled, but it ought to make a great foundation. The surface of the field on which the school is being built is level and fine.

MASON—Two strong baseball aggregations are being formed to take the field at Pleasant Lake this season. Manager Ed Blackmore will again be at the helm of Bartlett's organization and a group of younger stars have formed a team to represent Hankard's resort. C. Budd of Leslie will lead the newcomers. —News.

HOWELL—It is reported that preparations are in progress for the drilling of an oil well on Glenbrook farm, located five miles south and west of Pinckney, near Highland Lake. The farm of 500 acres is owned by Elmer Glenn. It is said that the drilling is being done by an independent company from Ohio and that no lease has been signed. The spot where drilling will be done is about 500 feet north of the Washtenaw-Livingston county line. —Republican-Press.

GRASS LAKE—Dr. James Mc Colgan was appointed to succeed himself as health officer for the ensuing year, at the township board meeting Tuesday. An appropriation of \$50 was voted for use on Memorial Day, and decision also made to sell the log cabin, built for the centennial celebration in Jackson last year, to the highest bidder. —News.

Attraction Extraordinary Coming To
The Majestic. Ann Arbor, For One Solid
Week, Commencing Saturday May 1st 3rd

Dennis King in the Paramount All-Talking, All-Color
Production "The Vagabond King"

PINCKNEY—The fame of the Pinckney base ball team has spread far and many out of state teams have requested to be given places on the schedule of the local team. If all are accommodated the schedule will include more than 25 games. —Dispatch.

Cars Climb Better, Show More Speed with QUAKER STATE OIL

And all for one easily understood reason. In special super-refining stills and filters Quaker State Medium Motor Oil is freed from the harmful, non-viscous matter which makes up 25%, or more, of the volume of ordinary oils. Quaker State Medium is all lubricant—100%. It holds its body remarkably at high temperatures—there's no non-viscous matter to thin out, or break down, just when your engine needs protection the most.

There's an extra quart of lubricant in every gallon of Quaker State Medium—four full quarts of service, instead of three, or less, as is the case with ordinary oils. That's why, despite its slightly higher price, Quaker State costs less by the year than any oil you can buy. There's a good garage or service station near you which will gladly fill your car with Quaker State. Try it, and see for yourself how much better your car runs... The price is 55c per quart.

Other Quaker State Products Are:

THIS WEEK SATURDAY, MAY 3,

SOMETHING FOR NOTHING AND BARGAINS FOR EVERYBODY.

SENATOR SINK NOT CANDIDATE FOR LIEUTENANT-GOVERNOR

Senator Charles A. Sink of Ann Arbor, today definitely set at rest the report which has been rather general throughout the State, that he would be a candidate for the Lieutenant-Governorship, at the Republican primaries next September by issuing the following statement:

"Ever since the closing days of the last legislature, my name has been mentioned as a possible candidate for

the Lieutenant-Governorship in the press and by many political leaders, friends and acquaintances. At first, I did not consider the matter seriously but assumed that the numerous communications and offers of support which were coming to me were but kindly expressions from those conversant with my past political activities. The increasing number of expressions, however, and their sincerity and earnestness, coming from the most substantial political sources and from men of affairs, have assumed such

proportions that in order to clarify the situation, I feel obliged to definitely set the matter at rest. While I am deeply appreciative of the honor that has been done me and the confidence which has been expressed in me by being mentioned for so responsible a post, I must respectfully decline to become a candidate or to sanction the circulation of nomination petitions in my behalf. I desire to express my sincere thanks and appreciation to all my friends and acquaintances and others who have honored me by interesting themselves in the matter, and I regret exceedingly that I feel obliged to decline to seek the honor and responsibility which they hoped for me."

Senator Sink has been three times a member of the State Senate, representing the Twelfth district consisting of Oakland and Washtenaw Counties, and twice Washtenaw County's representative to the House of Representatives. In both bodies he has been conspicuous by reason of his progressive attitude on all matters of general legislation and particularly in the field of educational legislation. He has served continuously as chairman of the Committee on Education and during his entire incumbency in the Senate was a member of the all-powerful Committee on Finance and Appropriations. During the closing days of the last legislature he was appointed by Governor Fred W. Green, chairman of the Michigan Teachers' Retirement Fund Commission, which is charged with the responsibility of surveying the present

situation in Michigan relative to the Teachers' Retirement Fund, and in reporting and recommending to the next Legislature.

Before his election to the State Legislature, Senator Sink served on the city council of Ann Arbor for six years and for three years was executive secretary of the Michigan League of Municipalities. He also served twelve years on the Ann Arbor Board of Education and was President during a portion of the period that the Ann Arbor school building program was in progress. He also served as President of the State Association of School Superintendents and School Board members. In private life Senator Sink is President of the School of Music of the University of Michigan.

Disagreement over the place of a cat in the household, is cited by Charles King, Birmingham, as reason for wanting a divorce from his wife. In a suit filed in circuit court at Pontiac, King says he insisted that the cat should be out at night. He wrote wanted it inside, he said, and its nightly perambulations over his body in bed seriously interfered with his sleep.

Aroused from sleep when a flaming portion of the roof fell on his bed at 4 o'clock in the morning, 5-year-old James Armstrong, Crescent lake, near Pontiac, screamed and awoke his parents, who led four small children from the home in safety. Bedding on which he was asleep was destroyed and a large hole was burned in the roof, but James escaped unhurt.

The FINEST TIRES

FISK Has Ever BUILT

Here are two Fisk Air Flight Principle Tires that are far superior to any tire your car has ever rolled on.

Just as different combinations and shapes of metals reduce the weight and increase the strength of your modern car, so an entirely new and different combination of cords and rubber in tire design and tire construction, patented and exclusive methods, have produced a tire of excess strength without excess weight. The Fisk De Luxe and the Fisk Rugged, embodying all the improvement which the exclusive Air-Flight Principle brings to Fisk Tires offer you a superior type of service than you have ever before received from any tire, regardless of make or cost.

The FISK All-Cord Process

FISK All-Cord **Ordinary Cord**

Note the even regularity of Fisk All-Cord and the distortion of Ordinary Cord.

The reason for this difference is that Fisk All-Cord has no cross threads, instead each cord completely surrounded and insulated with rubber, runs parallel to the next, preventing that continuous chafing and friction which is always present in ordinary cord tires. The flexibility of Fisk All-Cord is even at all points while the lasting ability of ordinary cord differs widely. Flexibility is absolutely necessary and the tire with the greatest flexibility is the one which offers the greatest resistance to road strain and bruises.

Trade in your present Tires. We will allow you full value for every mile left in them.

- The Seven Points of SUPERIORITY of Fisk Air Flight Principle Tires**
1. Larger Air Chamber
 2. All-Cord Process
 3. Multiple Cable Bead
 4. Increased Flex Area
 5. Stream Line Tread
 6. Greater Road Contact
 7. Air-Flight Balance
