Public Schools Are Inspected Monday

University Inspector, Dr. Curtis, visited the public schools on Monday of this week for the purpose of renewing the accrediting with the University. After very thorough inspection Dr. Curtis paid the school a fine compliment. He said: "This is a grand school. Chelsea is my last school to inspect and it is in the best condition of all the schools I have visited."

Dr. Curtis commented especially upon the fine plan of instructional efficiency and general administrative efficiency. He stated he was very much surprised and pleased to find such unusually and splendidly equipped grade and high school libraries.

The local schools are not only in fine standing with the University and all other surrounding colleges, but are on the North Central Association of Secondary Schools and Colleges.

Popular Lima Couple Married Thursday

Announcement is made of the marriage of Miss Cora Feldkamp and Mr. Munson L. Burkhardt, both of Lima township, which took place Thursday noon, May 8, at First Methodist Episcopal church, Toledo, Rev. Charles A. Rowland officiating.

Mr. and Mrs. Burkhardt and daughter, Olive, left Sunday for their summer home near Bemidji, Minnesota.

Sylvan Estates Formal Opening May 17 and 18

The formal opening of Sylvan Estates Country Club will be held on Saturday and Sunday, May 17 and 18, with program as follows:

May 17—Kicker handicap tournament for men. Medal play; 1:00 p. m., luncheon; 2:30 p. m., driving contest for women; 3:30 p. m., bridge; 7:00 p. m., dinner; 8:30 p. m., dancing.

May 18—12:30 p. m., putting tournament for women; 1:30-3:00 p. m., dinner; 6:30 p. m., lunch.

The board of directors and their wives will be the committee in charge for the opening days.

The program for the season will be announced in the near future.

BASEBALL RESULTS

Results of Twilight Ball League games played during the past week are as follows: Thursday, Legion 6, Methodists 4; Monday, I. O. O. F. 5, Masons 3; Tuesday, K. of P. 7, Methodists 7.

Standings:

	Won	Lost	Pct.
I. O. O. F.	4	0	1000
Masons	3	1	750
Legion	2	1	666
St. Paul	1	2	333
K. of P.	0	3	000
Methodists	0	3	000

Games to be played during the next week: Thursday, May 16, St. Paul vs. Legion; Friday, May 17, K. of P. vs. Methodists; play-off of Tuesday's tie game; Monday, May 19, I. O. O. F. vs. Methodists; Tuesday, May 20, Legion vs. Masons; Thursday, May 22, St. Paul vs. K. of P.

The game next Thursday will be the last in the first of the three series to be played during the season. The second series games will be started the following Monday.

ATTEND FUNERAL

Those from away who attended the funeral of Mrs. E. E. Coe, Tuesday, were Mr. and Mrs. Wm. Spicer, son Ray, and daughter Jessie, Mr. and Mrs. Haines-Clark, Mr. and Mrs. Frank Gibson and daughter, Mr. and Mrs. Howard Spicer and Mrs. Elsie Clark, of Rushton, Mr. and Mrs. Chas. Austin and Miss Letta Elliott, of Brighton, Mr. and Mrs. Harold Ford, of Munith, Mr. and Mrs. Emil Batchelor, of Ypsilanti, Dr. and Mrs. Lloyd Hirth, of Detroit, Chas. Coe and Mrs. Beatrice Hunt, of Wixom, Mrs. Annie Coe and Hollis Coe, of Milford, Dr. H. P. Lawson, of South Lyon, and Mr. and Mrs. Frank Smith, of Dexter.

GUESTS AT DINNER

A. H. Schumacher and sister, Miss Minnie, attended a family dinner in Ann Arbor, Sunday at the home of their aunt, Mrs. Mattie Krause, celebrating her 77th birthday anniversary. Thirty-five guests were present, including relatives from Detroit, Lansing, Adrian, Owosso, Ann Arbor and Chelsea.

7TH AND 8TH GRADE EXAMS

Seventh grade examinations for this district are being held at the Chelsea public schools today. Eighth grade examinations will be held at the same place tomorrow.

BAKE SALE

The Ladies' Aid of the Zion Lutheran church, Rogers Corners, will hold a bake sale at the Chelsea Hardware Co. store, Saturday, May 24, in the afternoon.

CARELESSNESS OF DOG OWNERS CAUSES GREAT LOSSES TO FARMERS

Sheep-Killing Dogs Making Hauls At Most Every Day; Severe Penalties For Violators Of Law.

That residents of this community are ignorant of the law pertaining to the confinement of dogs during the period from sunset to sunrise is very clearly evident, according to reports of the activities of sheep-killing dogs which are being received by local officials almost every day.

For the benefit of dog owners who are continually ignoring this state law, we print herewith the Act which gives the requirements and penalties for either dog owners or officers failing to comply with the law:

Section 3 of Act 889 P. A. of 1919: "Every dog shall at all times between sunset of each day and sunrise of the following day be confined upon the premises of its owner or custodian, except when said dog is otherwise under the reasonable control of some person."

Section 26: "Any person or police officer violating or failing or refusing to comply with any of the provisions of this Act shall be deemed guilty of a misdemeanor and upon conviction shall be sentenced to pay a fine not exceeding one hundred dollars or to imprisonment in the county jail not exceeding three months, or to both fine and imprisonment at the discretion of the court."

Justice O. J. Walworth reports that claims for sheep killed in Sylvan township alone during the past ten days will amount to about \$200.00. These claims are paid by the county out of the dog tax fund.

Mothers' Day Program At Monday Meeting

The following program, in observance of Mothers' Day was given at the weekly meeting of the S. P. I. held Monday evening at the home of Miss Lettie Kuorher:

Origin of Mothers' Day—Katherine Kustner.

Mother's Flower—Louise Wiggins. Mother's Emblem—Olga Strietor. Thos. Carlyle's Mother—Blanche Palmer.

"Poem—"My Ma-I Love So"—Mary Pudas.

Mother's Days—Alberta Schneider.

To My Mother on Mothers' Day—Amanda Koch.

Mother O' Mine—Mary Schneider.

Piano solo—"Gertrude Stream Waltz"—Olga Strietor.

Mother of Henry Clay—Lettie Kuorher.

Mother's Teachings Guide Destinies of Famous Men—Lillie Wackenhut.

Refreshments were served.

Chelsea Rebekahs Attend Convention

Mrs. Wm. Schatz and Mrs. Donovan Sweeney attended a District convention of the Rebekahs held Friday at Hanover, as delegates from the local lodge.

Other members attending were Mrs. Frank Novess, Mrs. George Barth, Mrs. Wilbert Brettonwischer, Mrs. George Goodell, Mrs. Lynn Korn, Mrs. J. J. Munro and Mrs. J. J. Baret.

MICHAEL M. CROWLEY

Michael M. Crowley, 86, died Friday evening, May 9 at the home of his daughter, Mrs. David Rossbach, where he had resided since September, 1929. He was born December 13, 1843, in McHenry county, Ill. The body was taken to Lennox, S. Dakota, where funeral services were held Tuesday and interment was made. His son, A. C. Crowley, accompanied the body to Lennox.

CARD OF THANKS

We wish to thank our neighbors and friends for their many acts of kindness and sympathy shown us during the illness and after the death of our wife, sister and aunt. Also Rev. F. I. Walker for his comforting words.

Everett E. Coe,

Miss Lavene Spicer,

Mr. and Mrs. Simon Hirth,

and Clara Hirth.

HOLD ANNUAL OUTING

The Teachers club held their annual outing in Jackson, Monday evening. Sixteen ladies enjoyed a delicious Oriental dinner at the Chinese Tea Gardens and later went to the Capitol theatre to see "Chasing Rainbows."

ATTEND KIWANIS MEETING

H. D. Withersell, vice president of the Chelsea Kiwanis club, and Rev. A. E. Potts were in Port Huron Tuesday, where they attended a meeting of State Kiwanis officers.

Repealers Still Lead In Prohibition Poll

Ballots returned in The Chelsea Standard prohibition poll continue to show a big lead for repeal of the eighteenth amendment. Although the number designating their choice for enforcement is on the gain in this week's tabulations, the repealers maintain a safe majority so far in the straw vote.

The total number of ballots returned, including the results published in last week's Standard, show the following vote: For enforcement, 73; for modification, 45; for repeal, 188.

The next allotment of ballots will be mailed this week. Watch for your ballot, vote, and return it at once!

American Legion To Sponsor Poppy Sale

Announcement has been made by officers of the local American Legion that the ex-service men will sponsor a poppy sale in Chelsea this year. The date for the sale will be announced in next week's Standard.

The Legion has received the first shipment of poppies for the sale, which are made by disabled veterans at the Little Creek Veterans' hospital.

Watch for the date of the sale, and buy a poppy!

Sheep-Killing Dogs Continue Activities

Saturday night, dogs made a raid on the flock of sheep on the farm of Martin Merkel in Lima. Four lambs were killed and three others were badly bitten. Ernest Adams, a Lima township Justice of the Peace, was called and placed the damage at \$92. A lamb on the L. P. Vogel farm was killed by dogs Sunday night. The damage was placed at \$4.00 by Justice O. J. Walworth.

About three o'clock Tuesday morning Harry Prudden heard dogs in his flock of sheep. Mr. Prudden hastened to the scene and shot one of the dogs but as the animal was only wounded it escaped before another shot could be fired. Eight lambs were bitten by the dogs, one of which was killed and the others are expected to die. Justice Walworth was called and placed the damage at \$95.00.

MRS. EVERETT E. COE

Mrs. Everett E. Coe died Saturday evening, May 10, at St. Joseph's Mercy hospital, Ann Arbor, after a month's illness.

Formerly Miss Hilda L. Spicer, she was born in Green Oak township, Livingston county, September 2, 1867, the daughter of George and Elizabeth Spicer. In 1895 she came to Chelsea, where she resided with her sister, Mrs. Simon Hirth, until her marriage to Mr. Coe June 20, 1911.

Mrs. Coe is survived by her husband, three sisters, Mrs. Chas. Barnes of Sandusky, Mrs. Hirth and Miss Lavene Spicer of Chelsea, and one brother, Wm. Spicer of Rushton.

Funeral services were held at the residence Tuesday afternoon at two o'clock, Rev. Fred I. Walker officiating, with burial in Oak Grove cemetery.

NORTH SYLVAN GRANGE

The North Sylvan Grange will meet at the home of Mr. and Mrs. Elmer Weinberg, Thursday evening, May 22.

Program: Grange. Song—Answer by giving your favorite vegetable.

Reading—Mrs. Henry Heim.

Arrangement of a garden—Mrs. Oscar Kalmbach.

Clarinet solo—Roy Kalmbach.

Canning vegetables—Mrs. N. W. Laird.

Instrumental music—Irene Wahl.

Closing song.

MOTHER'S DAY DINNER

Mrs. Wm. S. Pielenmeyer was hostess at a family dinner Sunday in honor of Mothers' Day. The guests included Mr. and Mrs. Albert Pielenmeyer and son, Mrs. H. H. Davis and son Harold of Sylvan, Paul Pielenmeyer and Simon Pielenmeyer of Freelandville, Ind., and Miss Louise Pielenmeyer and Guy Triffin of Capac.

ENTERTAIN AT COTTAGE

Mr. and Mrs. F. E. Storms entertained the following guests at a dinner Sunday at their summer home at Cavanaugh Lake: Mrs. Henry Vogel, daughter Ruth, Mrs. Carrie Soper Cushman and Mr. Gainsboro, of Ann Arbor, Henry Steinbach of Dexter and Albert Steinbach of Dearborn.

HONORED AT DINNER

Emmanuel Wackor of Lima was guest of honor at a family dinner given Sunday at the home of Mr. and Mrs. Emanuel Scott, Pleasant Lake, in celebration of his 58th birthday anniversary. Twenty-two guests were present. Those attending from Chelsea were Mr. and Mrs. E. M. Eisenman and Mr. and Mrs. Arthur Wackor.

METHODIST HOME

Mrs. Ella Snowden returned Saturday from several weeks visit in Detroit.

The sympathy of the members of the Home are extended to E. E. Coe over the loss of his wife. Mr. Coe has been connected with the staff for a number of years.

Mrs. Francis Pool is in the family circle again after several days of illness.

Joseph Gibson is spending a few days visiting in Detroit.

Mrs. Sylvia Smith spent several days with relatives in Munnich.

Mrs. Ella Snowden entertained on Sunday, Mrs. Ricardo French, daughter Betty and son Ricardo, Jr., and George Clark, all of Detroit.

Paul V. Hutchins of Detroit visited with his mother, Mrs. Mary Hutchins, Sunday.

George Tuck of Pontiac called on his mother, Mrs. Phoebe French, Sunday.

Mrs. Wm. Clark and Mrs. McKnight of Detroit spent some time Thursday afternoon with Mrs. Alice Chapin.

Burton Lawrence of Hudson called on his mother, Mrs. L. L. Van Aiken, Monday afternoon, and she left with him for a few days' visit.

Miss Harriet Shankland of Ypsilanti was a caller on Mrs. Frances Robby one day last week.

Mr. and Mrs. James Hansen of Detroit spent several days with his grandmother, Mrs. Susan Hansen last week.

Mrs. Nellie Smith is confined to her bed again by illness.

Mrs. James C. Sutton of Detroit called on her mother, Mrs. Eva Patton, Wednesday.

Mr. and Mrs. George Bangs entertained a number of cousins Tuesday.

Mrs. John Van Ness of Petoskey, her daughter, Mrs. Schubert and daughter, of Detroit, also Mr. and Mrs. Floyd Totten of Detroit.

The Romeo Glen club are expected here Sunday next, and will give an entertainment at 8 o'clock, in the auditorium.

Miss Emma Daniels is spending a few days at her old home in Gregory.

Mr. and Mrs. Leo Black and small son Billy, also Mr. and Mrs. Kenneth Black, all of Lansing, were guests of their aunt, Mrs. L. C. Brabb, on Mother's Day.

Mrs. George Mann of Ypsilanti was a Sunday caller of Mrs. Brabb.

George Bangs is confined to the bed by illness.

News was received here last week

that B. D. York of Detroit, treasurer of the Board of Managers, was in the hospital for an operation. The entire family wish for his speedy recovery.

Our popular nurse, Mrs. Mabel Chevalier, has been planning a trip to California for a long time and has announced her intention to start soon after June 1. The scribe wishes her a pleasant trip. Miss Edith Warner of Adrian, who was here as a special nurse recently, takes her place.

Mrs. E. F. Dunlavy and Miss Gladys Morrow of Detroit called on several old friends in the Home, Wednesday.

Mrs. Hattie Buntin of New Haven visited with Mrs. Sarah McGregor, Monday.

Mr. and Mrs. M. B. Chapin of Flint called on their mother, Mrs. Alice Chapin, Monday.

Mr. and Mrs. H. R. Daniels of Hillsdale and Mrs. Beatty of Sault Ste. Marie called on Miss Alma Rambeau, Sunday.

Mrs. S. M. Mapee and Miss Della Mapee of Detroit called on Mrs. Dora Davis, Tuesday.

Mrs. Elizabeth Lentz came from Lansing, Thursday to spend the day with Mr. and Mrs. C. E. Park.

Mrs. Frank Hedrick of Holloway, Green, Ohio, were callers on Miss Esther Fish, Saturday evening.

Sunday, Mr. and Mrs. O. Brooks and Howard Chapin and wife of Ypsilanti, and Miss Grace Charlton, Ontario, were callers on Mrs. Alice Chapin.

MOTOR SERVICE ON SUNDAY

An automobile man thinks week-end motorists are a pretty dumb lot.

"How many scores of cars," he says, "have you seen on any nice Sunday, standing in line at messy greasing and filling stations, while Father tramps impatiently chewing his cigar and the family sweaters in the waiting car? Most of the drivers do not seem to realize that they are spending the most valuable thing they possess—their leisure time—and are taking a chance of having their maintenance work half done and their repairs ruined by employing costly and haphazard type of service."

Why not, he wants to know, have such things taken care of during the week, along with any little repair work needed, so that when the family goes out for a pleasant week-end drive there will be some pleasure in it?—Hemidji (Minn.) Sentinel.

by ARTHUR BRISBANE

A Billion Dollar Target
Chicago's Big Gain
Successful Miss Hollins
Mr. Wells' Chimpanzee

On the ferry from Jersey City to Liberty street one morning recently you saw flocks of airplanes above the money district reaching from the East to the North river and from the Battery to Canal street.

Later you learned that New York was bombed, skyscrapers and banks destroyed by 140 military planes, and, most interesting, the navy's great fleet unloading below had been sent to the bottom of the water.

That was theoretical. But if it had been real war there would have been no theory; instead, a great city and fleet wiped out.

12-140 planes, one dirigible and two blimps could work such havoc, what could a real fighting air fleet do, such as the French fleet, for instance, with 5,000 airplanes?

"Nearly complete" census figures give Chicago more than 8,350,000 inhabitants.

That is a gain of 948,000 since the last census and almost 13,000 more than Chicago's Association of Commerce expected.

And Chicago hasn't "shown anything yet." Wait until 5,000 sea-planes coming from Europe on one side, Asia on the other, drop daily on the smooth waters of Lake Michigan. That is coming, and then Chicago will have a real population, spreading to Milwaukee on one side, Gary on the other.

Pope Plus, who has installed a broadcasting station in the Vatican, will, according to an Associated Press dispatch, initiate the use of the station with a personal address sent to the faithful everywhere.

That scientific miracle would have amazed the ancient popes.

Charles M. Schwab, in pleasant optimism, says 1930 will be a year of normal progress. "Business is better today than it was six or nine months ago," says he.

A million women, burning with the desire to be "independent," although nobody is independent, will be interested in Miss Marion Hollins. Years ago she was champion female golfer. Now she takes her place in big business as an able "oil woman."

She made up her mind that if men could do it she could, went into oil finance, and a recent sale netted her \$2,500,000.

Did you read H. G. Wells' interesting statement about the higher apes? They can "think ahead" a little. No other animal except man, not even monkeys with tails, can do it.

Without being taught, a chimpanzee will take one stick, insert it in the nostril of another stick, and, with the added length of stick, draw a banana into his cage.

Since the beginning of time no other animal but man could think as much as that.

Consider what man does now, weighing the stars, measuring the electrons inside of an atom, and only 12,000 years ago he was using sharp flints for weapons, not far ahead, mentally, of the chimpanzee. What will he do 10,000,000 years hence?

News from Burma tells of many deaths by earthquake and tidal wave. Ancient pagodas were rocked to destruction. From the top of one, the Shwe-Dagon pagoda, there fell a huge weather vane of solid gold said to be worth \$1,200,000.

Many devout Germans doubtless asked themselves what particular god had become annoyed, just what had annoyed him and how he could be placated.

This country's workers and industrialists need protection, and should have it.

Our people come first, other people second.

But intelligence should control even the tariff. It is possible to overdo the business of discouraging friendly nations with whom we deal.

President Mussolini of the Swiss republic wires President Hoover: "I am compelled to call attention to the fact that your watch and lace duties will, eventually, paralyze our industries."

The Swiss National Chamber of Commerce recommends the boycott of American goods, especially autos.

That suggestion means little to us. But we should take seriously the danger of hopelessly discouraging Swiss industries, offending and injuring the good people of Switzerland.

She lives apart and few will know when her career ends.

But Candelais, Jersey cow of Mount Kisco, New York, is a champion female worthy of honor.

Last year she produced 1,072.7 pounds of butterfat, and 18,822 pounds of milk.

Such cows could help to solve the farm problem. They are, in their way, as remarkable as machinery in mass production factories.

(© 1930, by King Features Syndicate, Inc.)

"TEN THOUSAND LAKES ARE CALLING"

Lay aside your cares and worries. Close your desk and pack your grip. For you owe yourself an outing. A vacation and a trip. Come and rest your weary body. Where the laughing waters steal through the shady nooks that lure you come with trusty rod and reel.

Come and learn real joys of fishing. Sporty bass or gamey pike. Take a train that leaves your home town.

You can motor if you like. Come and hear the wild birds singing. Joining in the welcome, too. For ten thousand lakes are calling. They are calling—calling you.

Come and bring the family with you. Where the cooling breezes creep through the pine trees of the forests. Gently singing you to sleep. There the sky-blue waters crimson as the sun sets in the west. Come, partake of nature's tonic in the land of peace and rest.

Come and breathe the fragrant ozone of the piney-wooded land. In the playground made to order by good Mother Nature's hand. Come on up to Minnesota.

With your pack-sack and canoe. For ten thousand lakes are calling. They are calling—calling you!

—M. L. Burkhardt

Dog quarantines have been established in five Southern Michigan counties, where an increasingly serious rabies condition prevails. Dr. C. H. Clark, State veterinarian, announces at Lansing. The counties are—Kalamazoo, Calhoun, Branch, Ingham and Monroe.

Here is the proof

that convinced these "Doubting Thomas" experts

LESS THAN the ordinary wear was found in the pistons after a 9000 mile test run with this improved motor oil—New Iso-Vis.

ALL THE piled-up evidence from hundreds of laboratory tests was not enough. The experts wanted the proof of a practical road test showing how New Iso-Vis Motor Oil protects the moving parts in an engine.

So this engine had been rushed through a test of 9000 miles. And now the micrometer reported less than normal wear... the bearing wear was less than 1/1000 of an inch. The experts were convinced.

Here are the reasons for the high lubricating value of New Iso-Vis:

1 New Iso-Vis will not thin out. It is made proof against dilution by a special patented process.

2 New Iso-Vis leaves but little carbon. It is Wholly Distilled and contains no undistilled parts of the crude.

3 New Iso-Vis lubricates effectively at engine temperatures both far above and below normal.

Have your crankcase drained, flushed and refilled with New Iso-Vis at any Standard Oil dealer or service station.

New ISO-VIS Motor Oil

30 quart

The New Polarine also is produced by our new refining process—giving it an efficiency which is exceeded only by New Iso-Vis. The price is 25¢ a quart.

Security for Securities

To invest one's money in high grade bonds is generally considered a worthy precaution against loss. And it is!

But to invest in safe securities and then put them in an unsafe place is inconsistent, to say the least.

Safe deposit boxes at the Kempf Commercial & Savings Bank will protect your securities and other valuables from loss through fire, theft, or carelessness.

Facilities are provided for clipping coupons and examining the contents of boxes in private.

This safety and convenience cost but a few cents a day.

20% MORE HEAT FROM TON OF COAL

Steel-riveted Lennox Torrid Zone Furnace Has Extra Large Radiator—And It's Gas-tight

Many home owners report a saving of from \$30 to \$50 a year by buying a Torrid Zone Furnace. The special design model saves even more, and is recommended by all oil burner manufacturers.

Design as much as construction is responsible for this economy. The steel plate, which is hot-riveted and cold-calked to prevent leaking of gas, smoke, or dust, conducts heat more quickly than cast iron and is more durable. But it is the efficient design of the fire-pot and radiator which gets more heat from fuel.

The deep fire-pot insures better combustion. The oversized radiator makes the gases and smoke escape from the fire-pot travel from 15 to 20 feet before going up the chimney—squeezing from them every last possible bit of heat.

There are seventy-nine different Torrid Zone types and sizes for heating every different type and size of building—and they burn and save hard coal, soft coal, coke, lignite, wood, gas or oil. Made by the Lennox Furnace Company, Syracuse, N. Y., Marshalltown, Iowa—Toronto, Canada.

Schafer and daughter, Mr. and Mrs. Carl Schafer and family of Jackson, Mrs. Clayton Jones of Grass Lake were Sunday callers of Mrs. Theresa Koelz.

LIVE AND BE HAPPY

The downing season is upon us. The spring comes, the lakes are open. Boys go out onto rafts and boats, fishermen crowd the water and later in the fall the duck hunters come.

And with all the sport and the good times come very sad days. They have already begun. Boats tip over, the waves come too high, somebody becomes careless, human lives are lost.

A day or a year of pleasure is easily turned into a day or a year of sorrow. So when you play this summer, whatever you do, play safe. Do not take chances in deep water, with big waves, with leaky boats and dangerous guns.

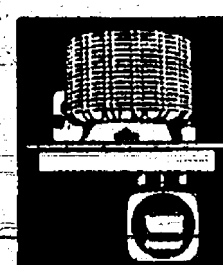

Be careful and be happy.

Summing It Up

A person's own good breeding is the best security against other people's ill manners.

15 WORDS THAT TELL YOU MORE ABOUT A REFRIGERATOR THAN **1000** claims

OF THE HUNDREDS OF THOUSANDS OF OWNERS **not 1** HAS PAID A CENT FOR SERVICE

That is the amazing record of General Electric Refrigerators—a record of economy and efficiency made possible by an exclusive General Electric feature—the hermetically sealed permanently oiled mechanism on top. General Electric mechanism is so tightly sealed that dust and moisture, rust and trouble are forever shut outside. Incredibly quiet operation is assured. Your cost of operation is cut to but a few cents a day. And of the hundreds of thousands of owners—*not one* has paid a cent for service. Think of this record when you buy! Come in and see our many attractive all-steel models—and let us tell you about our surprisingly easy terms.

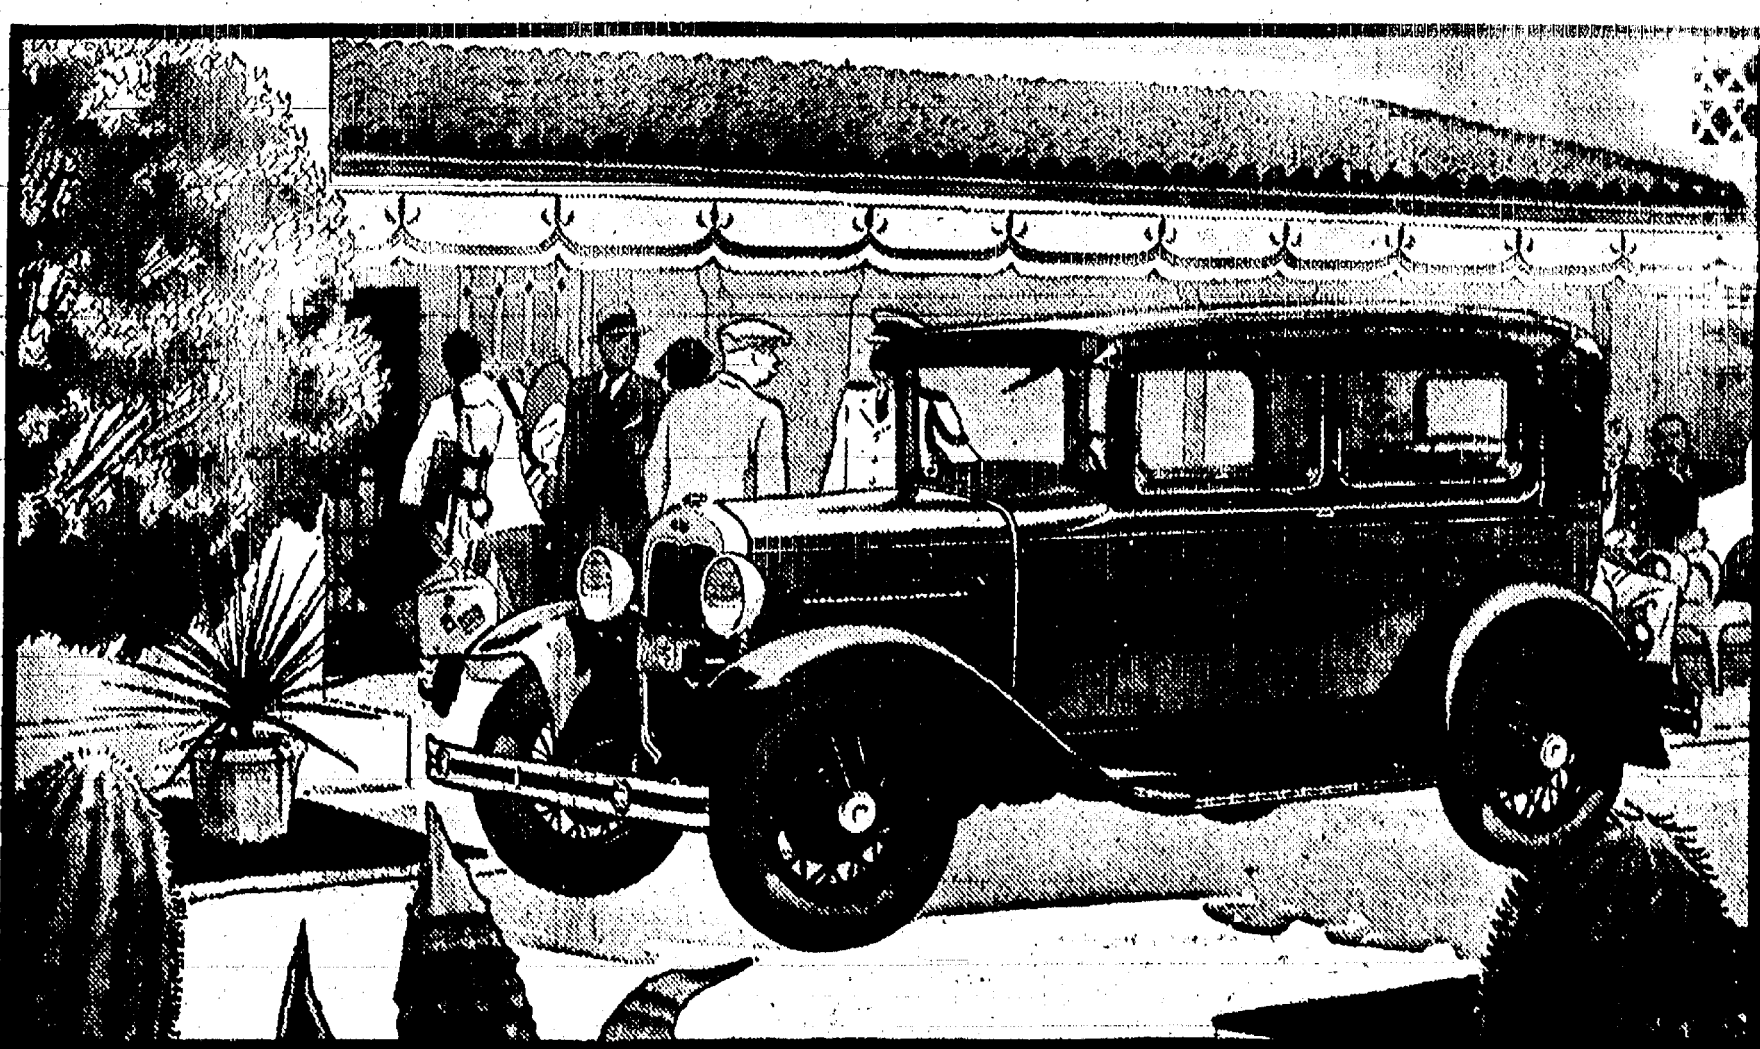

Join us in the General Electric Hour, broadcast every Saturday at 9 P.M., Eastern Standard Time, over a nation-wide N. B. C. network.

GENERAL ELECTRIC ALL-STEEL REFRIGERATOR

Rev. Moger officiated.

DON'T BE CARELESS

Co-operation will help keep fires out of Michigan forest lands this year. As a part of this plan asking for co-operation the Department of Conservation is placing thousands of signs in strategic places throughout the state warning motorists and travelers that carelessness leaves behind a tragic tale of burned acres and timber losses.

Michigan is a beautiful spot to gaze upon during the summer months. Do not let any carelessness on your part cause its beauty to be destroyed. If you travel in the out-of-way places, seeking rest and quiet, follow the rules of "safety first" laid down by the department. See that your camp fires are thoroughly extinguished before leaving, don't throw lighted matches, cigarettes, out of automobile or railroad car windows.

It is the easiest thing in the world to start a fire when the earth is dry as tinder. Only the utmost care will prevent this happening. Good citizenship should prompt every individual to exercise the greater vigilance while traveling through dangerous places.

Contest Will Seek Best Bean Growers

East Lansing, May 15—Search for the best bean growers in Michigan will be made this year by the farm crops department of Michigan State College through a contest sponsored jointly by the college, the Michigan Crop Improvement Association, and the Michigan Bean Jobbers Association.

Awards will be made to the 20 bean growers who receive the greatest margin of profit per acre from their crops. Production costs, yield, and quality of product will be considered in selecting the winners. A special award will be made to the individual grower having the best crop record for the season, based upon total acreage, crop rotation, cultural methods, and quality yield.

A uniform price for beans, and uniform charges for man, horse, and tractor labor hours will be used in determining the value of the crop, the cost of production, and net returns.

Growers who expect to enter the contest should keep records of labor, methods, and materials on blanks which are furnished by the college. All contestants must be enrolled by July 1.

Entry blanks may be obtained from county agricultural agents, local elevators, or directly from the farm crops department of the college.

Awards to the winners of the contest will be made at a special bean growers banquet to be held at M. S. C. during Farmers' Week next February.

Will Make Surveys Of Michigan Soils

East Lansing, May 15—The soils survey program of State College for this year includes an inventory of the soils resources of Eaton, Monroe, Bay, Montcalm, and Iron counties.

The survey in the southern counties is made in cooperation with U. S. Dept. of Agriculture, and in the two northern counties, the survey crew will include men from the State Conservation Department who will make accurate records of the recreational possibilities of the areas.

The soils survey permits the accurate mapping of soil types, which occur in bodies of five acres or more. Recommendations for soil management can be made only when the type of soil is known. If any of the soils are not adapted for agriculture and are valuable for the production of forests and will they the survey will give an inventory of such values.

Twenty-five Michigan counties have already been surveyed and mapped, and the work will continue until all counties have been included. This year's work will start in Eaton county, May 15.

Soil types in Michigan are so numerous that the survey maps are the only means of obtaining information of land values without a personal visit to the tract in question. These maps can be obtained by anyone as soon as they are printed if application is made to the director of the experiment station, East Lansing.

TIPSTER SHEETS

"With an increased activity of the market, the faking tipsters are at it again."

"So-called inside information is being spewed out in great volume from the manufacturing of lies, half-truths, evasions and hyperbole that work overtime in a bull market."

"More financial suicides, wrecks and irretrievable losses have been created by listening to these false prophets than we even care to compute. THE TIPSTER IS THE PARTNER OF THE MARKET, the tool of the financial world, the slave of greed and cupidity."

"A relentless war is being waged against him for every honest and sound financial organization stands squarely under the slogan, 'THE TIPSTER MUST GO!'"

"But he cannot thrive, cannot exist—if the investing and speculative public will do nothing more than simply ignore him."

"That is good advice to follow—coming as it does from a 'tipster sheet' being sent out from one of our largest cities by the hundred thousands. In spite of the warning they themselves give there will be many suckers who will take hold of their bait. By the time the dopes awaken to the fact they have been taken for a financial ride the tipsters have moved to a new location, perhaps to another city. Take them at their word—leave them alone. Take the advice of your broker or banker—what a lot of headaches it will save later on."

SYLVAN

Mr. and Mrs. Howard Bush and family, Mrs. Geo. Weber and daughter and Selb Keifer of Ypsilanti spent Sunday with Mr. and Mrs. Orrin Fisk.

Mr. and Mrs. Gottlieb Sager spent Sunday afternoon with Mr. and Mrs. Orrin Fisk.

Geo. Weber and sons and James Dorr of Ypsilanti spent Sunday afternoon with Mr. and Mrs. Ernest Meyer.

Qualities of Anger
If anger proceeds from a great cause, it turns to fury; if from a small cause, it is peevishness; and so is always either terrible or ridiculous.—Jeremy Taylor.

Dairymen Plan Ways To Increase Profit

East Lansing, May 15—Recommendations made for the improvement of Michigan's dairy industry by 1,000 farmers who attended meetings sponsored by the Ann Arbor Railroad and Michigan State College included the close culling of poor cows, the improvement of the quality of dairy products, an increased acreage of alfalfa, and the use of purebred sires.

Meetings were held in Benzie, Manistee, Wexford, Missaukee, Oscoda, Clare, Isabella, Gratiot, Clinton, Shiawassee, and Livingston counties. Before each meeting, eight grade pupils had made a survey of the number of purebred, grade, and scrub sires used in each school district.

The figures obtained by the pupils and the knowledge of local conditions possessed by the committeemen who attended each meeting formed the basis for working out a plan of improvement for each county. Businessmen in the towns agreed to assist in carrying the adopted plans to completion.

The survey made by the school children showed that only 40 per cent of the sires used in the dairy herds of that section are purebred. Missaukee county had only 28 per cent of purebreds.

NORTH LAKE

After spending the past seven years in Los Angeles, Calif., Raymond Webb has returned to the home of his parents, Mr. and Mrs. Geo. Webb. A dinner was given Sunday in his honor, the guests including Dr. and Mrs. Harmond Webb of Detroit, Mr. and Mrs. Chas. Pratt of Dexter, and Lyle Engles of Ann Arbor.

Shipped Hogs Show Big Losses In May

East Lansing, May 15—Records of the condition of livestock as received at the terminal markets shows that the death rate among shipped hogs is higher during May than any other month of the year.

A great deal of this loss can be eliminated if the proper precautions are taken when the hogs are loaded. Recommendations were made at the fourth annual meeting of the Live Stock Loss Prevention Association in Lansing that all prospective shippers be warned of the measures necessary to reduce losses in shipment.

Hogs fed in transit during hot weather have a higher percentage of loss than those unfed. Cars which are cleaned before the hogs are loaded contain less dead animals when the car arrives at the market.

Sand is the best material for bedding cars, and the death losses were 50 per cent lower in cars bedded with sand than in cars where other materials were used. Overloading the cars troubles the death rate during hot weather and increases the losses in any weather.

Carloads of hogs containing large sows or stags show heavy losses if the larger hogs are not partitioned off from the smaller animals. Many carloads of livestock are not as safe as straight cars of hogs even when the other kinds of livestock are separated from the hogs by partitions.

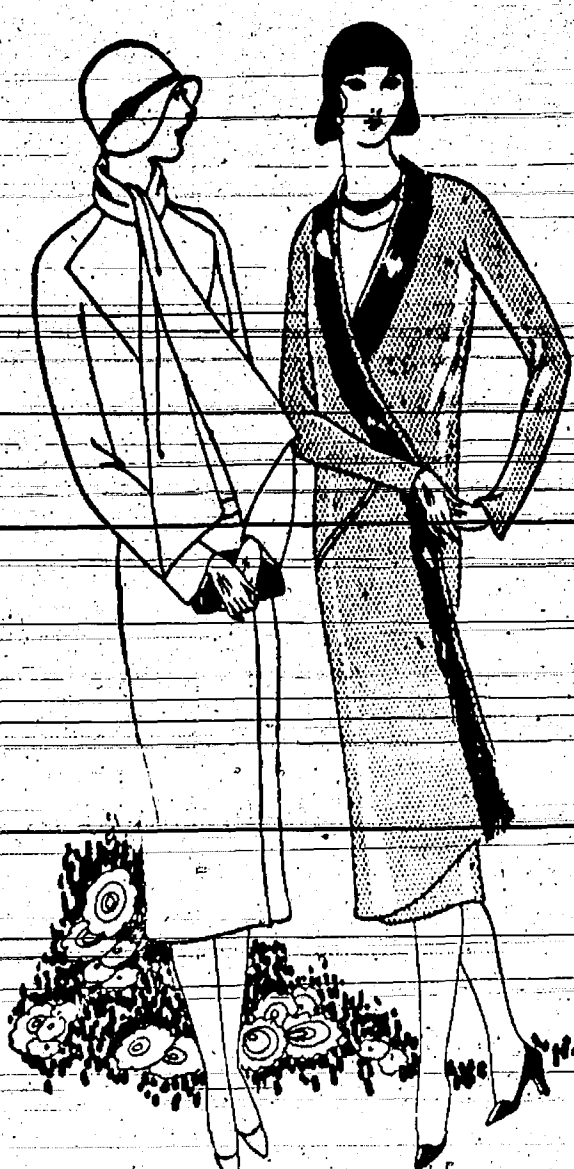

Disastrous Charge
The famous charge of the "Light Brigade" lasted twenty minutes, during which 247 men were lost out of 678.

Mrs. A. F. Tompkins of Marcellus, Miss Margaret and Arthur Tompkins of Pleasant Ridge were entertained at the home of Mr. and Mrs. Kent Walworth over the week-end.

Mr. and Mrs. Peter Merkel and son Al were in Detroit, Sunday to attend the First Communion services of their grandson, David McCarthy, also a family dinner given by Mr. and Mrs. Harold E. McCarthy.

Mr. and Mrs. James Moulds of Detroit spent the week-end at their cottage at North Lake. Mr. and Mrs. Edward Riemenschneider and Mrs. Wilbur Riemenschneider and family were Sunday guests of Mr. and Mrs. Moulds.

Ralph Wood of Lima spent Sunday evening in Ypsilanti.

Mrs. W. E. Canfield of Holly is the guest of her sister, Miss Abbie Chase.

Dr. and Mrs. L. J. Paul were guests Friday at the home of Mr. and Mrs. Ezra Holminger, Lima.

Mr. and Mrs. J. D. McManus returned Friday from a week's fishing trip to Belding, Morley and Stanwood.

Mr. and Mrs. Henry Varnum of Jonesville were callers at the home of Mr. and Mrs. John Kilmer, Sunday.

Miss Minnie Allyn is spending some time in Grand Rapids at the home of Mr. and Mrs. Wallace McKey.

Miss Nellie Jane Schneider of Dearborn was a week-end guest at the home of Mr. and Mrs. Herman Dancer.

Mr. and Mrs. Walter Mohrlock of Detroit were Sunday guests of their parents, Mr. and Mrs. Michael Mohrlock.

Dr. Henry C. Wood and Mrs. Mary McKnight of Detroit were Sunday guests of Mr. and Mrs. George P. Stellan.

Mr. and Mrs. Paul Geiger of Clinton were Sunday guests at the home of the latter's parents, Mr. and Mrs. Andrew Sawyer.

Chelsea Hardware Co. delivered John Deere G. P. tractors to C. F. Horning and Elmer Mayer for use in their farm work.

OUTSTANDING RACE AT TOLEDO ON MAY 25TH

Toledo, Ohio, May 15.—With an entry list of all star drivers, most of them entrants in this year's Indianapolis 500 mile race, the 100 mile A. A. Auto Race to be run at the Miami mile track here Sunday, May 25th is regarded as the outstanding dirt track event of the season.

Such outstanding stars as Deacon Lutz who led the Indianapolis race for 150 miles last year; Wilbur Shaw who is well known to fans of the Toledo district and winner of third place in the A. A. A. point-championship of last year; Bill Albertson the star of New York State who proved a sensation at Indianapolis and eastern speedways in 1929; Fred Frame holder of fourth position in championship standing; Herman Schuch the west coast star and Cliff Bergere the movie stunt man who is one of the most colorful drivers of all times.

Bergere drove in the late talkie "Burn Up" crashing his car at the finish line making one of the most thrilling crash scenes known to the picture industry.

These are only a few of the entries as many others will be in when the entries close May 17.

Never before has the spring classic drawn such a classy field of starters as the one billed for Sunday, May 25th. Most of the starters will be driving Deuseburgs and Miller straight eight 51 cubic inch jobs in which they won fame and fortune over the brick and board ovals in the past two years.

The ticket sale for the big event will open Monday at the Seagr Hotel Cigar Stand in Toledo, or address B. Ward Beane, Toledo, Ohio. Many orders have already been received by mail.

Elimination trials will be run starting at 10:00 A. M. the morning of the race, and it is expected that hundreds of race fans will bring their picnic baskets and enjoy the thrill of watching the kings of speed do their one mile laps at tremendous speed.

The race will start at 3 P. M.

THEY SWARM IN THE SPRING.

From many communities come complaints of the peedler evil. Swarms of these so-called salesmen are pouring out of the cities at the present time invading the smaller cities and villages. They are selling everything from sharpeners to broadcloth smuggled in on some foreign battleship. Rarely ever does the householder get a square deal.

If the person who calls at your door happens to be a resident of this community, is known to you, then that is a different matter entirely. In that case you will without doubt get your money's worth.

Strangers should be given short shrift. You have no guarantee that any statement made by them regarding their wares is true. Invariably if you listen to their blandishments you are the loser. In no case does it pay to take a chance.

Don't encourage them—don't let them take up your time. Your home town merchant will serve you in a much more satisfactory manner.

SIX CYLINDER SENTENCES

By DR. JOHN W. HOLLAND

Life's rarest artistry is the art of fine living.

The constant "sluggo" will fill well his hole in life.

For those in middle life. Take heed how you speed.

Follow your convictions, and you will never be "convinced."

Those whose end is respectability rarely succeed in being thoroughly respectable.

Young man! Once a month buy a book. Thus you will empty your pocket, and fill your head.

(© 1929, Western Newspaper Union.)

ANNOUNCEMENTS

The next regular meeting of the Washtenaw County Brotherhood will be held on May 18, at Masonic Temple, Ann Arbor. Afternoon session, 4:30; lunch, 6:00; evening, 7:30.

Priscilla Alden, Brookside and Harmony Chapters of the Congregational church will give a scrub lunch supper at the church on Thursday, May 15, at 6:30 o'clock. L. T. Freeman will give his report on the furnace question at this time.

Regular meeting of W. R. C. will be held next Tuesday afternoon at 2:30. A pot luck supper at 6:30, after which a program and social time will be enjoyed. All members are requested to bring a friend.

The P. T. A. of the Red school will be entertained by Mr. and Mrs. David Mohrlock at Kobb's hall, Friday, May 23.

The Chat-N-Seau of the Congregational church will be entertained on Monday evening, May 19, at 7:30, at the home of Mrs. Ross Munro. Please note the change of date.

STATEWIDE CAR TESTS

There seems to be no indication that the Michigan Safety Council is going to conduct a statewide car test this spring, similar to that of other years. If none is contemplated a mistake is being made. Testing cars for safe driving is just as essential as having traffic laws regulating the conduct of motorists.

If later it is decided to hold such a test it should be under the direct supervision of the state police—then it will get somewhere. With no desire to be critical past campaigns have seemed to be without an impelling force—they were headed nowhere and accomplished but little.

Before starting a statewide test the entire campaign should be mapped out. Instructions should be in the hands of traffic officers in every part of the state, there should be no duplication of effort. The heaviest motor season of the year is just ahead. There is danger in the car that is unfit for safe driving—official car testing would remove these hazards. Human life is too precious to let this threat go unchallenged.

One Way to Dodge a Job

A man who lives in a little town recently walked from there to a town forty miles away. His reason for not riding, he stated, was that he had gone there in an automobile and a trolley car and on a bicycle and that he wanted to see how long it would take him to walk it.

But the real reason, it later developed, was that the man, who is more or less inclined to shirk work, believed that he might have a job offered to him if he remained at home.

He arrived at the town in eight hours, and by the time he returned home again the job had been filled.—Springfield Union.

For Economical Transportation

This Sturdy Chevrolet Six

1 1/2 Ton Truck \$520

J. O. B. Jeffer, Flint, Mich.
Complete with front bumper, full length running boards and rear fenders

No matter what your busi- ness may be, bear in mind when you buy a truck that it's wise to choose a Six!

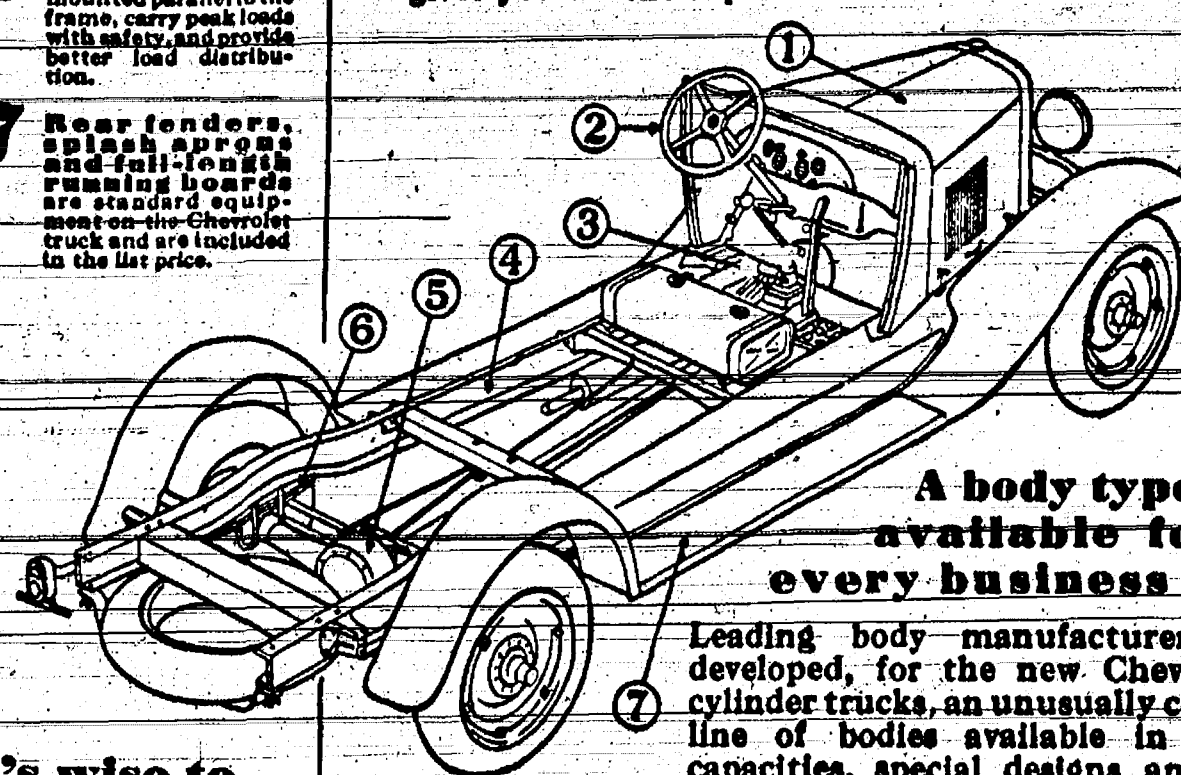

A six-cylinder engine runs smoothly—saving both the chassis and body from the harmful effects of vibra- tion. It is more flexible in traffic. It requires less gear- shifting. And it maintains high speeds more easily.

The Chevrolet Utility Truck gives you all the superior-

ities of six-cylinder per- formance—for it is powered by a great 50-horsepower six-cylinder valve-in-head engine. And, in addition, it brings you all the advantages of modern design listed at the left.

Come in today and see this sturdy six-cylinder 1 1/2 Ton Truck. You can see for yourself why truck users are finding it's wise to choose a Chevrolet Six!

- 1 Six-cylinder en- gine—50-horsepower—combines remark- able smoothness, flex- ibility, power and economy.
- 2 Ball bearing steering offers short turning radius of 23 1/2 feet and assures easy handling in the tightest places.
- 3 4-speed trans- mission gives ample power for every condition of road or load.
- 4 Channel steel frame, 13 1/2 feet long, takes over-size bodies without excessive overhang. Chevrolet offers un- usually low loading height.
- 5 The rear axle is built strong and has special ball joints—easily accessible for inspection and ad- justment, due to a detach- able cover plate.
- 6 Four load semi- elliptic springs, mounted parallel to the frame, carry peak loads with safety and provide better load distribu- tion.
- 7 Rear fenders, splash aprons and full-length running boards are standard equip- ment on the Chevrolet truck and are included in the list price.

A body type available for every business need

Leading body manufacturers have developed, for the new Chevrolet 6-cylinder trucks, an unusually complete line of bodies available in various capacities, special designs and types to fit the needs of every business.

It's wise to choose a SIX

AMERICA IS CHOOSING

BUICK

Consider what these
SIX GREAT RECORDS
mean to you

- 1 Two people have purchased Buicks, year after year, for every one buyer of any other automobile priced above \$1200.
- 2 There are 700,000 more people driving Buicks than any other of the fifteen makes of cars in Buick's price class.
- 3 Women, in every section of America, purchase more than twice as many Buicks as any other car priced above \$1200.
- 4 More than four out of every five—88 per cent of the great army of 1,500,000 Buick owners—buy Buicks again and again.
- 5 Month after month, today's Buick has won 30 to 50 per cent of the combined sales of the fifteen makes in its price class.
- 6 Buick owners alone purchase more Buicks than the total annual production of any other car priced above \$1200.

BUICK MOTOR COMPANY, FLINT, MICHIGAN

Division of General Motors Corporation

Canadian Factories: McLaughlin-Buick, Oshawa, Ont. Builders of Buick and Marquette Motor Cars

OUR NEIGHBORS

FOWLERVILLE—The ownership of the Fowlerville Review changed hands May 1st. J. J. Raby and H. C. Raby, who have conducted the publication for sometime past have sold their interest to J. M. Gilbert and C. M. Gilbert, former publishers of the Benzie County Patriot, located at Frankfort.

NORTHVILLE—All five members of the Northville police department now have uniforms, the village commission requiring that the officers have uniforms and also requiring the officers to pay for their own uniforms. Mayor Garman and members of the commission thought it would be better to have all the village employees equipped with police authority and that they be in uniforms when on duty.—Herald.

WINCKNEY—The drilling for oil on the Glenbrook farm south of town has made good progress and they have now penetrated to a depth of several hundred feet. Last Thursday a flowing well was struck at a depth of 100 feet and it has been flowing ever since. At times it gushes five feet above the ground. This is said to be a good sign as it shows the presence of gas pressure. The water is said to be very pure and of fine quality. The drilling is now going on night and day and several days a week. Large numbers of autoists are going there each day and the road is beginning to show signs of much hard travel.—Dispatch.

YPSILANTI—Eight high schools in this section of the state will compete for athletic honors on the athletic field of the Lincoln School on Tuesday, May 27. The eight high schools are members of the Huron League. They are University High of Ann Arbor, Chelsea, Clinton, Dundee, Lincoln, Milan, Roosevelt and Saline.

DUNDEE—At the regular monthly meeting of the village council held last Monday evening in the council chamber, a letter was read from the state treasurer's department approving the bonds of the new filtration plant and the village president, Mr. Henry Meyer, told the members that work was expected to be started about May 15.—Reporter.

MASON—The quartet of Mexicans arrested here last week for the theft of clothing from the Neely and Davis clothing stores in this city, demanded examinations when arraigned before Justice Whitmore on Thursday. The examinations were set for Monday of this week and each remanded to jail in default of bail fixed for each at \$2500. Monday, owing to the illness of Judge Whitmore, the cases were adjourned for one week. Miss Hill, the Saginaw girl, traveling with the party, is being held in jail as a material witness. They will probably be tried during the May term of circuit court.—News.

DEXTER—A special meeting of the electors of school district number 9 fractional Sec 10 and Webster, located in this village, will be held on Monday, May 19, for the purpose of voting upon a proposition of bonding the district \$70,000 for building a new school building and remodeling the present building.

ANN ARBOR—Contract for the construction of the Josephine drain, York township, was awarded Wednesday of last week to Robert Graham, Ypsilanti, whose bid was \$1,510. Bids were received at the residence of Clyde Gauntlett, York township. The American Vitified Products Co. of Grand Ledge was awarded the contract of supplying the pipe for the proposed drain at a cost of \$2,005, while the contract for corrugated culverts was given to the Beach Manufacturing Co. of Charlotte at a price of \$86.

HOWELL—According to the records of City Clerk A. Riley Crittenden, there were more deaths than births in Howell during the month of April. Twelve deaths are reported and 5 births.—Republican-Press.

TECUMSEH—Mr. and Mrs. Henry Sweet, residents of Tecumseh for more than 60 years, celebrated their 65th wedding anniversary Sunday, May 11, at the home of Mr. and Mrs. W. G. Schroeder, East Pottawatomie St. Mr. and Mrs. Sweet were married May 11, 1865, and as far as is known hold the distinction of being married the longest of any couple in Lenawee county.—Herald.

MANCHESTER—Many are pleased to learn that there are prospects of there being a series of baseball games played in Manchester the coming summer. American baseball has been a leading summer sport since say 1860. Besides the league games, the younger boys of the village will probably continue to play on the school grounds. The tennis courts are occupied most every day when the weather permits so there will be no dull moments.—Enterprise.

GRASS LAKE—Fire, Wednesday night, destroyed the Charles Schmid building occupied by the Rotary Shoe Repair shop, and for a time threatened to spread to nearby buildings but was finally brought under control by the Grass Lake fire department. A shower which fell during the progress of the fire wetted the roofs of adjoining buildings and lessened the danger of spread of the flames.—News.

Question And Answer Dept.

Ques.—Can you answer in the question and answer department of your good paper what is the real definition of a "parking place?"

Ans.—If you mean automobiles, it is a place where you get your fenders dented.

Ques.—I am told that a president of the United States cannot be arrested. Is that true? If so, how is it that President Grant was once arrested, as stated in the history of his life?

Ans.—Theoretically a president of the United States cannot be arrested for any kind of a felony against his will. President Grant was arrested by a negro policeman for fast driving. At the time, the negro did not know it was the president he was arresting. The president voluntarily submitted to arrest and then commended the policeman for doing his duty. If a president should commit a crime he would be impeached, which would strip him of his office. Then as a private citizen he could be arrested and tried for the crime committed.

Ques.—When was the seat of government removed from Philadelphia to Washington? And who was the first president inaugurated in the latter city?

Ans.—The federal seat of government in the United States was removed from Philadelphia to Washington in 1800. Thomas Jefferson, third president of the United States, was the first to be inaugurated in Washington—Mar 4, 1801.

Ques.—I want to ask in your question column if you can tell me the origin of the slang word "pep?" Your answer will settle a dispute.

Ans.—According to H. L. Mencken, author of "The American Language," the word "pep," meaning vim, snap, punch, vigor, ginger, is a shortened form of "pepper." However, it does not appear that "pepper" was ever used in the modern popular sense of "pep." It was probably suggested by "pepper," but not necessarily agreeing with the meaning.

Ques.—If both the president and vice-president should die who would become president?

Ans.—We presume you have reference to the United States. The secretary of state would automatically become president if he is a natural-born citizen. If not, then the secretary of the treasury would be next in line. In other words, the first cabinet officer who is natural-born citizen would be president.

Ques.—We notice on several United States coins a small letter at the bottom of the coin. Some of these letters are "P," "M" and "W." We know from your answers you have made in your question column they are not mint marks. Will you be kind enough to answer what these letters mean?

Ans.—The letters you mention indicate the designer of the particular coin. The "P" on the buffalo nickel stands for Frazer; the "M" on the quarter dollar is for MacNeil, and the "W" on the dime stands for Weinman. Mr. Weinman also designed the new half-dollar in 1916, on which the letter "W" may be found.

Ques.—Will you kindly publish the longest and shortest poems in existence, with the titles and the names of the composers?

Ans.—The longest we have any record of is too long for this department. It is entitled "The Trip to Mars and Back." The author is anonymous. The shortest poem is also anonymous, and is entitled "The Origin of Microbes." It is as follows:

"Adam
Had 'em."

Ques.—Will you please tell me in your query and answer column if anybody knows who the unknown soldier is that is buried in Arlington, and why he has been called "unknown?" How was he chosen?

Ans.—There is nobody knows who the unknown soldier is. Neither does anybody know his age, rank or where he came from. They only know that he gave his life for his country. The body was selected by Sergeant Edward Younger from a large number of unknown bodies removed from a cemetery in France. Younger went alone among the bodies and indicated the casket by placing a rose upon it.

Ques.—I am just wild to have the thrill of riding on a cowcatcher of a locomotive. Can you tell me if it is allowed?

Ans.—Permission would not be given. However, the thrill may not be what you expect when you collide with an automobile.

MILAN—Information available from Lansing would indicate that the work of paving Dexter street from Milan to the Washtenaw Road would undoubtedly be completed early this summer.—Leader.

WAYNE—The suggestion that Wayne business places close a half day a week during the summer months has been made to the Wayne Board of Commerce and in response to that request the Board of Commerce is distributing ballots to the merchants of the community to sound out their sentiment on the proposal. The proposed half-holiday would occur on Wednesday afternoon. Local merchants have followed the custom of closing on this afternoon for several years.—Review.

SLAT'S DIARY

Friday—Well are class took up Advanced Hstry today so us kids have got 1 on Jane and the kids in the class Below us. I was talking to Jane this p. m. and I sed Well advanced Hstry is a study that makes me think and she replied and sed Well it must be a wonderful Study then if it makes you think. I cant get what she means sum times. wim, en is so queer.

Saturday—I was a telling Jane that Pug Stevens made me tired today. I sed that he acks like he thinks I am not his equal. Jane sed dont you mind him a bit you are his equal he is nothing but a chuckle-headed nut. well enny ways I gess I no how I stand with her enny ways after that.

Sunday—we tuk a long ride in the country today on Strange roads. One time we got lost on a detour and finely pa had to ast a fellow out in the country if we was on the rite road to Shelby and the fellow answered and replied that we was on the rite road all rite but we wood arrive more sooner if we wood turn around and go the Opposite way for about twenty miles.

Monday—I found out when Janes birthday is going to occur and I ast her what she wood like to have and she sed she wood like to have a nice ring. I am going to see what they cost and by her one or meby 2 if they dont cost to much. I think she sed she wood like to have a Satire. Any how she didnt say dimend.

Tuesday—They was fire down at Mr. Glints house tonite and it burnt to the ground and when pa seen Mr. Glint he sed. Well old man you had a pritty tuff brake in Yure luck tonite and Mr. Glint sed Yes it was pritty tuff. I aint got no home to stay away from at nite enny more.

Wednesday—Jake and me was a digging fish worms tonite and we cud find but 1 little old worm so we cut him in 2 peaces becuz he looked so lonesum.

Thursday—Cuzen Clarence was here tonite and he sed he gess he was a going to get married to Florence witch lives over the crick. Pa sed to him. Why I thot she was 1 of these girls who dussent beleave in marriage. Clarence sed. Yes thats what I thot when I proposed to her. I gess thats what a fella gets for trying to joak and being 2 exquisites.

**YOUNG MOTHER
HIGHLY PRAISES
MODERN KONJOLA**

In One Month New Medicine Ended
Suffering and Restored
Her Health.

MRS. JOSEPH PREMO

"I think Konjola is the most wonderful medicine in the world, and I have reason to think so, for I suffered for a number of years with stomach and kidney troubles and Konjola was the only medicine that gave me more than temporary relief," said Mrs. Joseph Premo, 1224 Johnson street, Saginaw. "Gas formed in my stomach, pressed up around my heart, caused it to palpitate and made it hard for me to get my breath. I had terrible pains in my chest. The pains in my back, resulting from kidney trouble, also were very severe."

"An indorsement of Konjola by a lady I knew, and with whose case I was acquainted, led me to give this splendid medicine a trial. The first bottle proved to me that I had found the right medicine. After taking the treatment for just one month I felt fine. My ailments are gone, pains have vanished, and I have the strength and energy a mother of two children needs. Do you wonder that I am grateful for Konjola?"

Why not let such happy experiences as that of Mrs. Premo point the way for you to new and glorious health? A complete treatment of from six to eight bottles of Konjola is recommended for thorough relief. Konjola is sold in Chelsea, Michigan at Burg's drug store, and by all the best druggists in all towns throughout this entire section. Adv.

**It Costs More

- But Less In The Car!**

The few extra cents you pay for Quaker State Medium Motor Oil look mighty small alongside of the extra quart of lubricant you get in each gallon! For Quaker State's exclusive super-refining process takes out the 25%, or more, of undesirable, non-lubricating elements found in ordinary motor oils and gives you instead a 100% lubricant.

For better performance, lower running costs, longer engine life, and minimum repair bills, use Quaker State Medium Motor Oil in your car. You will quickly see why the engineers and builders of fine cars endorse it so heartily.

MEMORIALS AND BUILDING STONE

208 W. HURON

ANN ARBOR, MICH.

TWENTY-FOUR YEARS AGO

Thursday, May 10, 1906
The funeral of Rev. Wm. Bismarck, of the Salem German M. E. church in commemoration of the 50th anniversary as a local preacher. On May 3, 1856 he was granted a license as a local preacher, and for many years delivered at least one sermon on each Sabbath day.

About 1 o'clock Tuesday afternoon the funeral of Homer G. Ives, Fred Marshall, Mr. Roepke and Elmer Jacobs were the scene of a cyclone that did considerable damage to the buildings.

Miss Helen, youngest daughter of Mr. and Mrs. Jacob Heffer, was born May 2, 1880, and died at the home of her parents in Chelsea, on May 6. Besides her parents, she is survived by three sisters. The funeral was held from the family home Tuesday afternoon.

Born Thursday, May 3, to Mr. and Mrs. Albert Nicolai of Chelsea, a son, Prof. L. B. Alger will not accept the superintendency of the Chelsea public schools for the coming year. Mr. Alger expects to enter into active business life.

Born on Thursday, May 3, to Mr. and Mrs. Martin Elsie, Jr., a son. An extensive addition is being made to the parsonage of St. Paul's church.

Born on Wednesday, May 2 to Mr. and Mrs. Theodore Beuhler, a son. The graduating class of the Chelsea high school this year will contain 32 members.

Martin Koch and Emanuel Elsemann of Lima are building the walls for a new barn that Chas. Grieb will have built on his farm in Sylvan.

Edward Elsie, a former resident of Chelsea, died at his home in Lansing, Thursday of last week.

Miss Myra Fenn has sold her residence on North Main street, to John Forner.

Mrs. Etta Sparks died at her home in Detroit this morning, of heart trouble. Mrs. Sparks was a former Chelsea resident.

THIRTY-FOUR YEARS AGO

Mayor Hazen Pingree of Detroit will deliver two addresses in Chelsea Wednesday afternoon and evening, May 20.

Wednesday, May 20, will be a day of sports in Chelsea. The events will consist of horse races, bicycle races, foot races and a ball game. The Chelsea cornet band will furnish the music.

Born, on Sunday, May 10, 1896, to Mr. and Mrs. A. H. Schumacher, a son. In the issue of The Standard of this date one year ago, we reported a heavy snow storm and a killing frost.

Jacob Schumacher has improved his residence property on South Main St. by having the house raised up, grading the grounds and building a new cement walk.

A large party of relatives and friends of W. R. Purchase gathered at the home of his daughter, Mrs. Gen. H. Foster, Wednesday to assist him in celebrating the eightieth anniversary of his birth.

Sunday, May 17, is the seventh anniversary of the Epworth League of the M. E. church and the event will be fittingly observed by appropriate services.

Respite Altogether Too Late to Save Prisoner

South African stories dealing with the decidedly grim humor of the criminal courts have been published by Mr. Napier Daulton, under the title of "Legal Atmospheres." Some of them, grim as they are, are quite entertaining.

He says that in the early days of the republic, matters judicial were treated in a less punctilious manner than today. Where a criminal was sentenced to death, before his execution could be put into operation, the death sentence had to be confirmed by the state president.

The story goes that on one occasion a man was sentenced to death by the court of landroost and heurand, and the papers were in due course dispatched to Pretoria for the president's confirmation. In those days of post by Kaffir runner weeks elapsed before a letter could be obtained, and the reply in this instance was long delayed.

When eventually the papers were returned the landroost was informed that the president had refused to confirm the sentence, and he was ordered to release the prisoner.

Thereupon the landroost reported to Pretoria as follows:

"The prisoner is completely open-minded." (The prisoner has been hanged provisionally.)

SOUTH LYON.—Frame-work of a buick car found Monday morning near Henry's corners on the road south from Now Hudson, where it has been abandoned in flames after having been run partly over the embankment.

proved to have been the sedan belonging to Albert Musolf, which had been stolen from his garage north of town Sunday night.—Herald.

Reminders of "Lost Cause"

The "White House of the Confederacy" is now a Confederate museum, each of the Confederate states having a memorial room in it.

Why We Behave Like Human Beings

By GEORGE DORSEY, Ph. D., LL.D.

Why We Hate Our Enemies

It is in our very nature to hate our enemies, impossible to love them. Why is the very cornerstone of Christ's teachings so rarely taken literally?

James thinks those "awayed by it might well seem superhuman beings. Their life would be morally discrete from the lives of other men, and there is no saying what the effects might be they might conceivably transform the world."

They might indeed. As the world is, hate is given freer rein. Recently it reigned; and each half of the world brought the same God-to-help-it-kill-the-other-half. We can hate enough to kill, but killing no longer solves problems, nor having an enemy convert one.

Fear is old stuff, out of date. It should be thrown off with our swaddling clothes. And yet it probably plays a greater part than hope in the daily lives of most men and women. Fears are played upon by all sorts of propagandists for political, social, and religious purposes. Fear of hell-fire is supposed to lead to love of heaven; fear of "harmful foreigners" to hatred of aliens and so to the closing of the doors. And the only reason this nation could not be led to hate Germany as France did was because we could not be made to feel the fear of Germany as France did.

But for most of us life is only meat and the body raiment. Same reaction system, same environment; stereotyped behavior because our world stands still. And an emotionally valuable emotional reservoir of energy, capable of moving mountains and giving all life a joy-ride, is expended in hating those we envy and kicking against the pricks or in feeling in terror from our shadows because we cannot shake them off.

And so it is that an instinctive emotional endowment rooted deep in the body of life and inherent in man and mammals and all living beings that meet dangerous situations with complex mechanisms which must function as a unit and without warning becomes personal and individual. The organization of that endowment into specific fears and hates and general attitudes favoring negative and positive responses begins the day we are born.

"When I was a child, I spoke as a child, I understood as a child, I thought as a child; but when I became a man, I put away childish things." Some childish things we do put away, and we do forget most of the rag-dolls, tin soldiers, and mud pies; but we get our start in childhood for much of our bent and most of our set. We do not put away our nature. Paul was an exception.

We are afraid of the dark, of little green worms, of hundreds of things. And get emotionally excited about them. Some react to a cabbage worm as they would to a wild elephant or to a mouse; and are as nearly scared to death as life lets them. It is no merit of their own that they have not died of fright a thousand times.

We are not born that way. The newborn sets up a fear reaction only to fearful stimuli; the bang of a door being dropped, a sudden push or pull at its blanket; especially by removing its support. It catches its breath, clutches at anything within reach, crosses its eyes, closes, voice waste.

A rat learns to thread a noise for food; it must pass a trap which it ways terrified to, it removes the trap; it jumps as though the trap were present.

The child is afraid of a sudden and loud noise. It hears the thunder, sees the lightning; it learns to be afraid of the lightning. If the flash is blinding, it is afraid of the room. If there is some particular person in the room every time the lightning flashes, the child learns to be afraid of that person, lightning or no lightning.

With a what-not loaded with what not in the parlor and a dresser covered with hand-painted junk in the spare bedroom, and both parlor and bedroom in perpetual gloom, means must be found to keep little Willie out. A short-cut is found in the fact that Willie can be scared. And Willie is scared. By the time he is three, or sooner, he is as big a coward as his mother was when she was three.

We move about in a lighted room with the aid of our eyes. In a dark room we are not distracted by what we see and consequently are more alert to what we feel and hear. We keep meeting with the unexpected—sometimes the sudden—crash of a falling chair, bark of a dog, bump on the forehead. And by the time our fear of the dark has become further conditioned by ghosts and hobgoblins, we are more than afraid of a dark cravayard.

So with rage. The baby cannot fight, but by cries, clenching with arms and legs, stiffening of body, flushed face, clenched fists, and held breath, it shows its rage when its nose is pinched, head held, or its body hampered. And it soon acquires the ability to kick and slash and scream. I have seen a boy of two beat his head on the floor in a rage at being denied something. Such early outbursts are signs of the coward and the murderer that are in us. The way these potentialities are trained is the key to civilization and the clue to most of our attitudes.

(By George A. Dorsey.)

Drug Trade To Share In Medicine Company

Cincinnati, Ohio, May 14th — G. H. Mosby, President and General Manager of the Mosby Medicine Company, one of the world's largest manufacturers of prepared remedies, announced yesterday that eastern banking interests had bought a minority

holding in the company. The purchase however will in no way affect the present control or management of the concern, which remains in the hands of Mr. Mosby. A program of expansion in this country and in foreign markets will be inaugurated immediately. Banking interests will be represented on the Board of Directors by the following: James Imbrie of Imbrie and Co., Bankers, New York, and F. J. Romell, representing Imbrie and Co., Cincinnati. Other directors are G. H. Mosby, President and General Manager; W. T. Maynard, Vice-President and Merchandising Director; Charles Mosby, Secretary and Treasurer; and C. O. Rose, Legal Counsel, all of Cincinnati, Ohio. The selected Konjola dealer in Chelsea is Burg's Drug Store.

Application for change of the corporate name from the Mosby Medicine Company to Konjola, Inc. will be filed at the office of the Secretary of State at Columbus.

In discussing the negotiations which led up to the investment of the eastern capital in the Cincinnati concern, Mr. Mosby made the following statement: "Numerous efforts have been made in the last two years on the part of trade and banking interests to buy into the company but it has been only in connection with our present expansion program that a sale of minority interest has seemed desirable. This sale of minority interest not only assures our present expansion program but will also allow, through special arrangement, particularly favorable participation in the ownership of the company to those drug dealers who have been largely responsible for the success of the business."

"The business of the company had its inception seven years ago, since which time Konjola has grown to be one of the two or three outstanding successes in the proprietary field."

"During each of the past three years rapidly increasing sales have permitted the company to practically triple its advertising appropriation over that of each preceding year. Last year the company spent approximately \$1,700,000.00 in advertising, nine-tenths of which was spent in newspapers throughout the country."

"Net profits of the company for the year 1929, after charging out to current expense the entire advertising appropriation of \$1,700,000.00, were approximately \$300,000.00. These net profits represent an increase of over 300 per cent in earnings during the past two years."

"For the first four months of the present calendar year we have maintained our advertising expenditure at approximately the 1929 rate and after charging out all advertising to current expense our net earnings are running approximately double those for the year 1929."

The rise of the Mosby Medicine Company and its product is one of the marvels of the medical, drug and business world. It is also amazing to leaders in the advertising business. It has dazzled everyone but the man who did it. Newspaper men in an interview recently granted them by Mr. Mosby revealed some interesting facts concerning the phenomenal growth of the Konjola organization. Seven years ago (Gilbert H. Mosby had an idea. This is not an unusual experience for Mr. Mosby had been having ideas ever since he was a kid on the family farm near Versailles, Kentucky, and is still having them but this was the big idea like the thrill that comes once in a lifetime.

Mr. Mosby had been working for several medicine companies. He knew the business from top to bottom. He analyzed the success and failure of different companies and by the process of deduction and elimination he gathered up the best points of all of them, studied the results of his analysis, decided to make the best medicine in the world and stake his fortune (\$2,000.00 can be called a fortune) and his energy on the outcome. So, armed with bank account of \$2,000.00, he rented a small room, installed laboratory equipment about large enough to fit up a modern kitchenette, attached a two-burner gas stove and got ready to operate.

Mosby had already devised the word

"Konjola." Then ingredients had to be bought; 32 of these, 22 of them roots and herbs. This purchase put a large dent into the capital. Mosby was organizer, mixer, hotbox, labeler and most everything; also he was the sales manager and traveling representative.

When the first batch of Konjola emerged from the busy little two-burner stove Mosby made a quick shift from overalls to a one hundred dollar suit of clothes and had the first shipment of Konjola sent to Muncie, Indiana, and the career of Konjola was launched in a drug store in the Hoosier state with Mosby, sole owner and originator of the medicine, as the original Konjola Man.

More than ten million bottles have been sold since the inception of the business. These are staggering figures but are easily explained when one knows Mosby and his forcible character.

One of the newspaper men asked Mr. Mosby to what he attributed his marvelous success. He modestly replied that whatever success he had made was due to the merits of Konjola and the selling power of newspaper advertising, properly and consistently applied.

"Telephone, Neighbor"

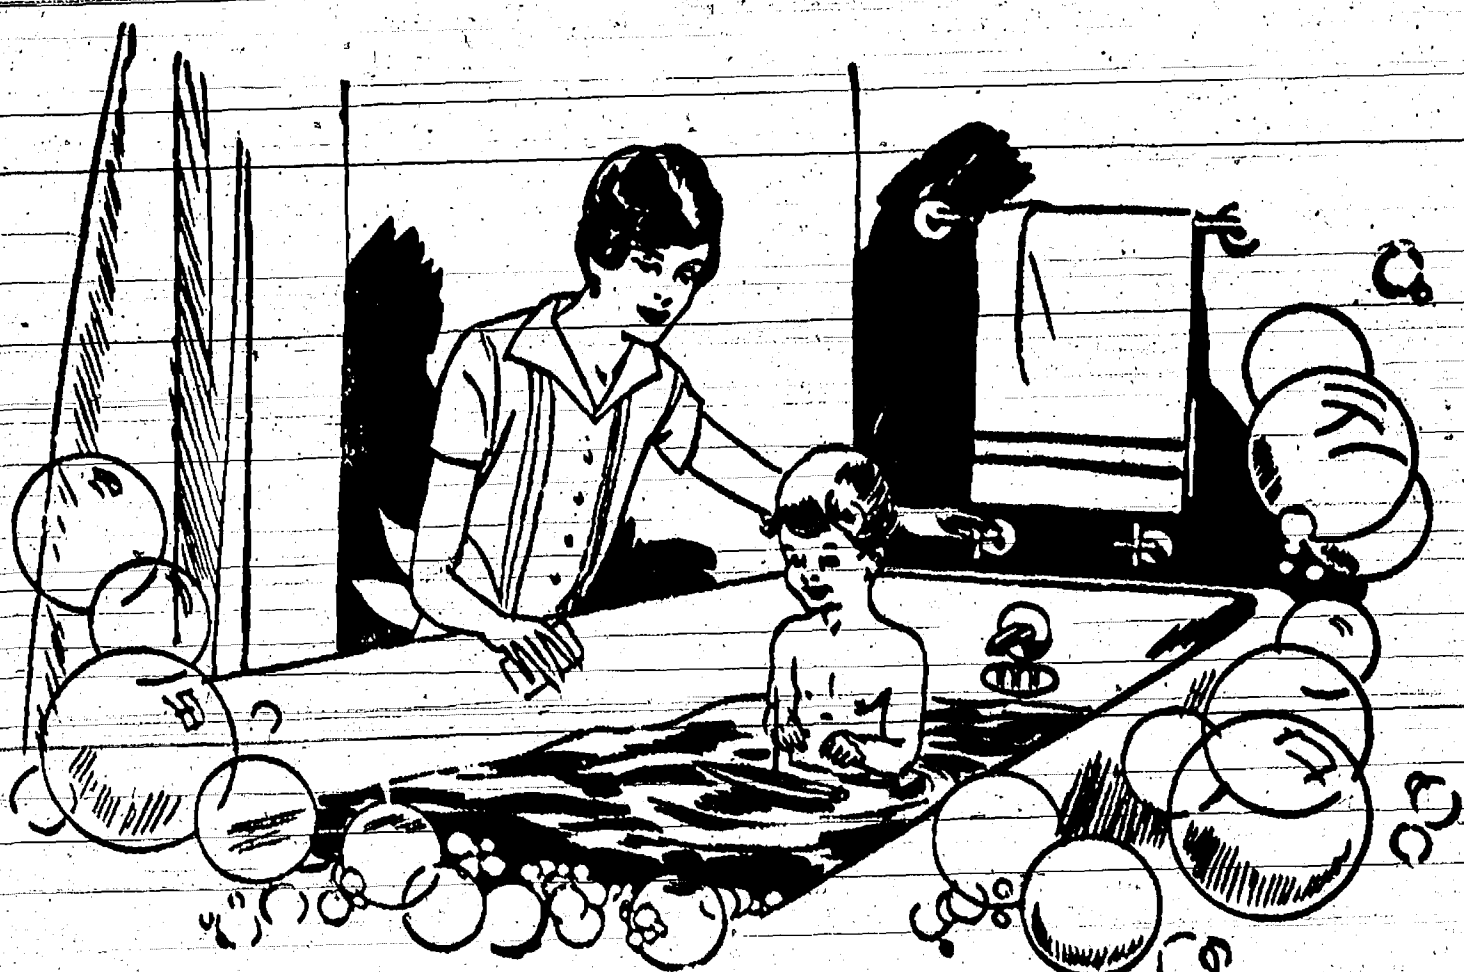

INCONVENIENT, isn't it, to leave your housework in the midst of some important bit of cleaning, in order to answer the telephone at your neighbor's.

It is inconvenient for your neighbor, too.

A telephone is a Comfort, and a Convenience—and it is a Safeguard in case of emergency. It costs less than many of our smaller luxuries and really is a necessity of modern living.

MICHIGAN BELL TELEPHONE CO.

YES, instant hot water is a luxury...

a luxury that everyone can afford

Reach for a faucet any minute, any hour, any day and you have hot water... a basin full for shaving, or a tubful for bathing. It's as simple as that with a Self-Action Gas Water Heater in your basement. No one has to tend fire or fill a kettle. No one ever has to wait. No one ever even thinks about hot water until the instant it's needed.

Such an easy way to cleanliness! What was once a "convenience" becomes a luxury—a luxury that costs a few pennies a day. No waste heat with a thrift gas storage heater—it's built like a thermos bottle and lasts a lifetime. Won't you visit our showroom and learn how easily and economically your home can be equipped for modern hot water service?

We Will Allow \$5.00 for Your Old Heater and \$2.50 for Your Wasteful Furnace Coil Toward a New Automatic Gas Water Heater

WASHTENAW GAS CO.

Michigan Happenings

When Mrs. Ed. McDougall, of Oscoda Township, stepped on the accelerator instead of the brake, her automobile ran over James Shannon, on the sidewalk at the Livingston County Court house in Howell, crossed the lawn, dashed across a street, damaged the automobile of the county clerk, struck a gas stove on display on the sidewalk, and crashed through a plate glass window at the Consumer's Power Co. office. Shannon suffered fractures of both legs and serious injuries to the head. Mrs. McDougall was released pending the outcome of his injuries.

Former lumbermen and log drivers who piled their bodies during the height of the lumbering industry in the Saginaw Bay and Northern Michigan districts are being sought by the Eastern Michigan Water Carnival Committee. They plan to feature the old "jacks" in the carnival parade. The carnival will be held in Bay City July 31 and Aug. 1 and 2. Sponsors of the carnival point out that log driving was really one of the original sports of the district and as such it deserves a place in the aquatic celebration.

"Every square mile of Michigan north of a line running east and west from Grand Rapids can be seen from the 140 odd towers operated by the forest fire division," according to Howard R. Sayre, chief fire warden of the Department of Conservation at Lansing. "This summer, as in previous years, we are issuing an invitation to the public to visit these towers. Last year more than 12,000 people climbed the towers and we expect that there will be more visitors this year."

Joseph Oport, 16-year-old caddy at the Flint Country Club, gave his life in a futile attempt to save Merle Manchester, 12, a Lincoln School pupil and a stranger to him, from drowning in "Phred Lake" on the south side of the city. The bodies were recovered 20 minutes after the drownings and although police ambulance attendants and firemen used pulmotors and artificial respiration, the boys were pronounced dead on reaching Hurley Hospital.

Red Dick, Lansing Central, won premier honors in the high school contests held at Ann Arbor recently, being named winner in class A, over nine other competitors. The results in the hand contests were as follows: Class A—Lansing Central, Kalamazoo, Flint Northern, Class B—Lansing Central, Mt. Clemens, Fordson, Class C—Oxford, Benzonia, Paw Paw, Class D—Berkley, Yale, Junior high schools—Adrian, Flint, Emerson, Lansing West.

Saginaw's population is 80,409, compared with 65,648 in 1920, a gain of 14.761 or 22.34 per cent. It was announced by Guy Jenkins, supervisor of the census for that district. The figures are subject to correction later. Saginaw, Jenkins pointed out, has experienced a substantial growth during the last two decades, the 1910 population being 50,510. The population is considerably above the Federal Census Bureau estimate of 78,321.

Ypsilanti police are seeking a poultry thief who stole a pair of geese from the farm of Jacob Blum, of Ypsilanti, brought them to town and sold them to him for \$1.25 each. Blum did not recognize the birds until he took them to his farm. Then he discovered that his geese were missing from their pen, and observed that as soon as the female was released she went straight to her nest of eggs, which she had been brooding for several days.

Fred Aherns, 60 years old, a farmer living in Shelby township, near Utica, was killed when he was crushed between a roller he was using and a pole. It is believed his team ran away. First intimation of the accident came when the team returned to the barn. The horses had broken loose from the roller. Investigation revealed the body. Aherns is survived by his widow, three sons and a daughter.

The Ludington High School band of 60 pieces, winner of the class B title at Ann Arbor, will enter the national tournament in Flint May 23. The Chamber of Commerce and the Exchange Club have contributed \$240 toward the fund of \$450 necessary for the trip. A concert will be given to raise the rest.

All vending and peddling in Michigan's state parks, will be prohibited this year. The conservation commission at Lansing has included in the state park rules and regulations a provision against peddling within any state park boundaries under any conditions.

R. Clara Starkweather, son of O. R. Starkweather, Lansing automobile dealer, ended his life by shooting himself in the automobile saleroom where he was employed. His health and fear he would lose his sight are given as the motive.

The largest rainbow trout on record at Manistee was taken from the Little Manistee river by William Bumko, of Manistee. His catch measured 38 1/2 inches and tipped the scale at 14 pounds.

The derailment of 37 cars of a Michigan freight train at Colon, 14 miles northwest of Sturgis, caused damage estimated at \$150,000. A long stretch of the right-of-way was torn up when the cars, loaded with automobiles, typewriters, food, coal and oil, were thrown down the embankment. The cars were about the middle of an 80-car train. The locomotive and 43 cars remained on the track. Members of the train crew escaped injury. This was the third wreck in this vicinity within a month. The other two occurring at Union City and Wasopi.

A baseball game at Hanover between the high school teams of Hanover and Horton, two Jackson County towns, deserves a place in the history of the national pastime. The final score of the game was 40 to 10, in favor of Hanover. The nine innings required 3 hours and 15 minutes playing time. Each team used two pitchers. The only home run was knocked out by Dancer, the Hanover catcher. The highest score in any one inning was 10, made by Hanover in the sixth. Hanover made 30 hits for its 40 runs, while Horton made 10 hits.

The Muskegon Railway & Navigation Co., commonly known as the Belt Line, became the property of the Grand Trunk Railway, when checks for \$312,000 were sent to the bondholders. The Grand Trunk, in accordance with an agreement made in 1926, paid 60 cents on the dollar and accrued interest of 3 per cent. The belt line, circling the city, was the subject of a contest between the Grand Trunk and Pere Marquette before the Interstate Commerce Commission.

Michigan's prison population was larger by 423 on May 1 than at the beginning of the year, according to reports in the office at Lansing. Arthur D. Wood, parole commissioner. The population of the Michigan State Prison at Jackson is now 4,688, that at the Marquette Branch Prison, 879, and that at the Michigan Reformatory at Ionia, 1,906. The 636 State prisoners in the Detroit House of Correction brings the total to 8,103, as compared with 7,830 Jan. 1.

The first Government-subsidized fruit cannery became a reality with the taking over, by Michigan and Wisconsin cherry growers, of the Grand Traverse Packing Co. plant at Traverse City. Said to be the second largest cherry cannery in the United States, a loan of \$408,160 from the United States Farm Board made the acquisition possible. The plant is being purchased for \$205,180 and \$50,000 is to be used for additional equipment.

E. B. Jones, Hillsdale County, had speared a fine mess of black bass, bluegills, and perch and was ready for a good fish dinner when the fish were discovered by Faye Warner, a local conservation officer. Jones was convicted in court of illegal spearing of fish and illegal possession of game fish. He was sentenced to pay the maximum penalty, \$100, and costs.

Kalamazoo and Lake Counties show population losses in preliminary figures for the Fourth Michigan District announced at Muskegon. Kalamazoo County has 3,799 inhabitants, a decrease of 1,778 or 31 per cent from the 1920 figures. Lake County now has 4,040 population, compared to 4,437 in 1920. This is a loss of 9 per cent.

Trapped in a man trap that had been hoisted too far and lodged over the mouth of the 3,000-foot shaft, Fred Michetti, with a skull fracture, and Anton Rickard, suffering from bruises, waited two hours before workers could reach them. Michetti died later. Both were pump operators for the Calumet & Hecla Mining Co. at Cadumet.

All special loading restrictions on motor vehicles in the Lower Peninsula have been lifted by Grover C. Dillman, State highway commissioner. The condition of the roads has improved to such an extent during the recent warm weather that the restrictions are considered no longer necessary.

Racing in Paraguay
The start of a Paraguayan horse race is often very protracted. It may be set to begin early in the morning, and a series of false starts continue until noon, when the owners of the horses take their charges home for rest and refreshment. Then they will meet in the afternoon to begin all over again. The reason for the delay is that no race can begin until both jockeys are agreed that neither has the advantage, so they center up to the start many times until they make up their minds to go.

Pretty Flower Becomes Pest
Once a cherished flower, now a pest that is destroying thousands of acres of valuable pasture land, the little lantern plant is the object of attack in Hawaii. Lantana, known in the United States as a pretty flower, was brought to Hawaii many years ago by some nature lover, just who is not definitely known, but immediately it began to spread. It grows thickly at altitudes from sea level to 1,500 or 2,000 feet, and several large Hawaiian ranches are heavy losers in grazing land.

Bell Composition
Carlton bells are made of copper, not only alloy being the three parts upper to one part tin. Any other alloy would tend to diminish the sound.

CHURCH CIRCLES

WATERLOO CIRCUIT
U. B. CHURCH
Chas. F. Moger, Pastor
First Church—
Sunday school at 10:00 a. m.

LET US QUOTE
Not Shakespeare—just this bit of insurance sense:
"Never forget that Automobile Insurance is protection for your car, property as well as your car. Proof of good intentions never satisfied a judgment. Either YOU or YOUR INSURANCE must pay when Public Liability or Property Damage is involved."
We know. Automobile Insurance and satisfactory adjustments are our business.

THE NEW AIR-FLIGHT PRINCIPLE TIRES

The most revolutionary advancement in the science of tire building in ten years.

The new Air-Flight Principle Tires by Fisk with their larger air-chambers, carrying a greater volume of air at a lower pressure permits you to ride on any highway with a far greater degree of riding comfort than ever before. Their flexible side walls of live rubber replace the stiff and over-hanging useless tread of ordinary tires and enable Fisk Air-Flight Principle Tires to smooth out all the bumps and jolts which cannot be absorbed by superfluous and poorly distributed rubber.

As wonderful as these new features seem there is still another of equal importance to every car owner. It is the greater Fisk Trouble-Free Mileage that this new found principle gives to these modern-day tires. Mileage that will far surpass your expectations at prices which are even lower than you are paying for tires that do not rank in the same class as these new Air-Flight Principle Tires by Fisk.
