Final Count Next Week In Dry Poll

With one more week left for the return of ballots in the Standard's prohibition poll, it is certain that a total of 1,000 votes will have been cast. This will represent a good fifty per cent of the number sent out, which is a very high coverage as newspaper referendums go. It will be remembered that in the Literary Digest poll, on a national scale, the return was about 20 per cent.

The vote today stands as follows: Enforcement, 429; modification, 120; repeal, 345.

The final allotment of ballots has been mailed. If you have received one and have not marked it, do so at once. The final standings will be announced in next week's issue of the Standard.

Following the big chicken dinner at noon the following program was given: Music by Chelsea orchestra, composed of Mr. and Mrs. P. M. Broesamle, Mrs. I. H. Weiss, Roy Kaimbach and E. J. Notten; vocal solo by Miss Frieda Schmidt of Ann Arbor, accompanied by Mrs. P. M. Broesamle; address by Rev. Severinghaus.

Visitors were present from Detroit, Ann Arbor, Stockbridge, White Oak, Leslie, Mason, Grass Lake, Jackson, Waterloo, Trist, Lima and Chelsea.

Jewish Mothers And Babies Camp Opened

The Ginsburg Mothers' and Babies' Camp on Lehigh Lake was opened Sunday, June 22, with 125 mothers and children on the rolls. This camp, which is now being operated for the third year under auspices of the Jewish Centers Association of Detroit, will remain open until Labor Day.

Arrangements have been made to take care of 19 orphan children during the entire season, according to Miss Mary Vizinthal, director. A staff of 23 teachers and social workers will direct the children in various types of creative work, including dramatics and athletics.

Residents of the camp are all from Detroit, the Jewish Centers Association being partially supported by the community fund of that city.

Veterans Slurred In Editorial Comment

Clowning with the American flag or those who uphold it has been considered contrary to good taste since along about 1776.

A short time ago, however, a neighboring newspaper printed a sarcastic editorial about the Chelsea Legion's temporary loss of its flag. The ensign had been misplaced and was found after a notice had been printed in the Standard.

Some of the Legion boys have read the editorial but have offered no comment beyond casual remarks that it was irrelevant, ill advised and a little vulgar. No doubt, the gifted author repented of his utterances after he saw it in type. The purpose of such an editorial is rather puzzling. It seems to be only one of those inadvertent things that creep into newspaper columns during the throes of editorial incubation.

Let the writer remember this: As long as the boys didn't lose their flag in 1918, it may be just as well to be a little tolerant of their carelessness at this date.

60 Attend Annual Sylvan P. T. A. Picnic

TWO WEDDINGS MARK SOCIAL CALENDAR IN CHELSEA FOR WEEK

Misses Dorothy Weimann and Enid Spiegelberg Become Brides In Pretty Ceremonies.

The home of Dr. and Mrs. A. L. Steger was the scene of a pretty wedding Wednesday afternoon when their niece, Miss Enid Spiegelberg, daughter of Mrs. Lulu Spiegelberg, and Mr. Carl A. Wenk, son of Henry Albert Wenk, both of Ann Arbor, were united in marriage by Rev. Ernest C. Stelhorn, pastor of Zion Lutheran church, Ann Arbor.

The ring ceremony was performed at four o'clock, in the presence of the immediate relatives and a few close friends. The fireplace, before which the bride party stood, was flanked with beautiful baskets of pink gladioli and delphinium and white tapers in silver candelabra. Bows of Canterbury bells and pink roses added to the attractiveness of the home.

The bride wore a gown of oyster white chiffon, a picture hat of white horse hair and carried a shower bouquet of white roses and baby breath. Miss Harriett Higgins of Detroit, as maid of honor, was attired in powder blue chiffon, with pink horse hair hat, and carried an arm bouquet of ophelia roses. Arnold Steger, cousin of the bride, attended the groom as best man.

The wedding march from Lohengrin was played by Mrs. Elmer Reickens of Ann Arbor. Preceding the ceremony, "O Promise Me" and "I Will Love You Always" were sung by Paul F. Nicholas.

A reception was held after the ceremony and lunch was served.

Mrs. Wenk, formerly of Chelsea, is a graduate of Ann Arbor high school and Michigan State Normal College, while Mr. Wenk also graduated from Ann Arbor high school and the University of Michigan.

The newly wedded couple left on a motor trip to northern Michigan. They will be at home to their friends after July 1st at 1610 Dexter Ave., Ann Arbor.

A quiet wedding was solemnized Tuesday afternoon, June 24, at the home of Mrs. Martha Weimann, when her daughter, Miss Dorothy A. Weimann was united in marriage to Mr. Lloyd C. Alban, son of Mr. and Mrs. Carl F. Alban of Ypsilanti. The ring ceremony was performed at four o'clock by Rev. P. H. Grabowski. Miss Weimann was attended by her sister, Mrs. Bruce E. Penbody as matron of honor, while Clayton Alban of Ypsilanti, cousin of the groom, officiated as best man.

The bride wore a gown of Nile green organdie and carried a shower bouquet of tea roses, white sweet peas and baby breath. Mrs. Penbody was attired in peach organdie and carried tea roses and baby breath.

Following the ceremony a wedding supper was served to the immediate relatives at the home of the bride's mother. Roses, ferns and white foxgloves decorated the table, covers being laid for fifteen guests. Mrs. Alban was graduated from Chelsea high school in 1926 and from Michigan State Normal college in 1929, and for the past year was a teacher at Central school, Plymouth.

Mr. Alban, who completed a course at Cleary Business college, has a position with the Ypsilanti Daily Press.

On their return from a trip to the Adirondack Mountains, Mr. and Mrs. Alban will make their home in Plymouth. A reception for the newly wedded couple will be given Tuesday, July 8, at the home of the groom's parents in Ypsilanti.

200 Attend Dexter Centennial Banquet

Several persons from Chelsea attended the Centennial banquet of the Methodist Episcopal church at Dexter Saturday. The banquet, which was attended by 200, was the feature event of a four day celebration commemorating the hundredth anniversary of the founding of the church. Senator Royal S. Copeland of New York delivered the leading address, which was heard by many former residents of the village who returned for the occasion.

The celebration opened Thursday evening with a family program. On Friday a history of the church and village written by Dr. Copeland, who was unable to arrive until the following morning, was read by Miss Cornelia Copeland, a sister. Services on Sunday, presided over by Dr. John E. Martin, Ann Arbor, district superintendent, concluded the ceremonies.

At the annual meeting of the Dexter and North Lake congregations, held in connection with the celebration, Rev. Edward Hocking was unanimously invited to remain with the parish for another year.

This test is an Eye-opener

WE RAN an engine on 50 hour tests under exactly
the same conditions with various brands of
motor oil, including New Iso-Vis. At the end of
each period every bit of carbon was removed and
accurately measured.

New Iso-Vis actually deposited 50% less carbon than
the average deposit of the better grade oils tested.

But this is only one of the results of the special re-
fining process by which this new type oil is made. It
lubricates effectively at low temperatures and all the
way up to temperatures far beyond the highest on
your gauge.

Moreover, New Iso-Vis is the only motor oil that
will not thin out in your crankcase. New Iso-Vis is
actually as heavy and oily when you drain it off as
when you first put it in.

Any Standard Oil dealer or station attendant will
drain your crankcase, flush and refill with New Iso-Vis.

ON THE LEFT is the
carbon from New Iso-
Vis in a fair comparison
with that from other oils.
This low carbon forma-
tion saves you money.

New ISO-VIS 30 quart

The New Polarine also is pro-
duced by our new refining pro-
cess—giving it an efficiency
which is exceeded only by New
Iso-Vis. The price is 25c a quart.

YOUNG MUSICIANS APPEAR IN A DELIGHTFUL RECITAL

The many persons attending the recital of the pupils and orchestra of Claude Isham, Tuesday evening at M. E. church, were much impressed by the latter and the advancement of the former. Each number received its full share of applause from the beginners, whose work was noticeable by their precision, perfect time and few errors. The performance of the more advanced pupils revealed much diligent rehearsing and a realization that only good music is worth while. The trumpet pupil, Donald Irwin, and the violin pupil, Verna Tisch, are also to be commended. The ensemble number by the orchestra of 17 pieces gave continued evidence of the intensive rehearsals which the members have been carrying out the past winter. The accomplishment of the beautiful closing overture "Poet and Peasant" gave an example of the ability and experience of the director.—Grass Lake News.

He that is without sin among you, let him first cast a stone at her.—Jesus.

Question And Answer Dept.

Ques.—Will you please tell me what is meant by the term "poll tax?"
Ans.—Poll tax is a tax levied on male citizens.

Ques.—May I ask you what is light? How fast does it travel?
Ans.—Light is that peculiar property of matter that affects the nerves and causes us to see. Light travels at the rate of 185,170 miles a second.

Ques.—Can you tell me the origin of the custom of "touching" glasses when drinking a toast?
Ans.—The custom of touching glasses before drinking toasts originated among the Jacobites after the flight of James II from England in 1688. For several generations the Stuart sympathizers in England were very numerous and serious military expeditions to restore the exiled family to the British throne were made in 1690, 1715 and 1745. These Jacobites, of course, had to be very secretive about their attachment to the Stuarts. Frequently on social occasions they were called upon to drink to the king's health. Among them, however, it was understood that the "king" was not the reigning monarch but the Stuart king "over the water," namely, across the channel in France. To symbolize this attachment to the exiled royal family "over the water" they passed their wine glasses over the finger-bowls before drinking the health of the king. When the significance of this was discovered finger-bowls were abolished and they were not restored to the banquet table in England until the accession of Edward VII in 1901. But the Jacobites kept up the practise by merely passing one wine-glass over another or by just touching the foot of one glass to the brim of the other. The present custom of clinking the glasses together before drinking a toast is a relic of this old Jacobite practise.

Ques.—How tall is the Washington Monument at Washington, D. C.?
Ans.—The Washington Monument is 555 feet high.

Ques.—Will you please tell me in your question column if Maine and Vermont were two of the original states? Will you give me the names of the original thirteen states?
Ans.—Vermont and Maine were not of the thirteen original states. Vermont was admitted in 1791 and Maine in 1820. The thirteen original states were Georgia, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, South Carolina and Virginia.

Ques.—Will you tell me in your good question column how to write "999" in the Roman numerals?
Ans.—It is written "XC."

Ques.—How did the so-called Hawaiian music receive its name?
Ans.—Hawaiians sing their native songs in a plaintive strain. Song writers of the so-called "Hawaiian music" have endeavored to observe this plaintiveness in their compositions and, hence, nearly all modern music that has a plaintive sound is called Hawaiian.

Ques.—Will you kindly explain what the Socialist party platform is?
Ans.—It is too long to reprint here. In substance, Socialism means the government-control of all the economic activities, and co-operation in all industries instead of competition. The whole income of society is to be divided among the laborers but not necessarily equally divided. Also the abolition of private property.

Ques.—What is done with the "conscience fund" by the United States government? What was the greatest individual amount ever received and who gave it?
Ans.—There is no such distinct account as the "conscience fund" in the United States treasury. All money so received goes into the general fund, but is identified with some sign to indicate it is "conscience money." The greatest individual amount received was \$18,669.00 about 12 years ago. The names of the contributors are unknown.

STOCKBRIDGE—Rev. Gibson, who directed the daily vacation Bible school in this village last summer, was graduated from the Kalamazoo College this week. He is in charge of summer religious educational work for five counties located around Howell, as a center. Mr. Gibson was a caller on Stockbridge friends Tuesday on route to his new employment—Brief-Sun.

Just how young our republic is can be realized by the fact that only a few days ago a real daughter of the American Revolution died in Michigan at the age of 99 years. Her name was Helen M. Barrett and she was the youngest child of Johannes Van Dusen of Steuben, N. Y., who was a veteran of the Battle of Saratoga. Eight real daughters of the Revolution still survive, and yet they picture Uncle Sam as a rather ancient individual with long whiskers.—Exchange.

The relation of superior to inferior excludes good manners.—Bernard Shaw.

DROWNED IN WATER YET IT RUNS

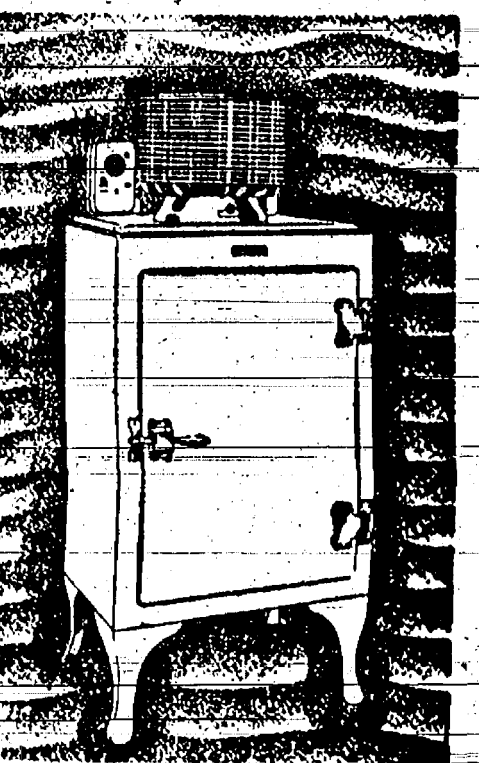

TONS of water surge futilely against the General Electric Refrigerating Units in dealers' windows throughout the country. From coast to coast people are witnessing an astonishing demonstration of the unflinching reliability of General Electric Sealed-In-Steel Refrigerating Units. Drowned in torrents of water, they are operating quietly, efficiently, perfectly.

Dramatically General Electric shows why not one owner has ever spent a cent for service. No other mechanical refrigerator could withstand the test. Its mechanism bathed in oil and hermetically sealed in steel is unaffected by air, dirt and moisture. The General Electric is trouble-proof and worry-proof.

The cabinet is of all steel construction—porcelain-lined. Its movable, built up legs—it has a free-vision base that permits true kitchen cleanliness. Freezing rapid. Food storage capacity is greater. High efficiency and lower power requirements cut operating costs. Here is the most helpful and least expensive household servant you can have. Ask us to prove these advantages to your complete satisfaction.

General Custer spent his boyhood in Monroe and lived there as a citizen in later years.—Reporter.

MANCHESTER—Mrs. Barbara Holmes, chief operator in the Manchester telephone office for many years and whose resignation takes effect July 1, was invited to Jackson Wednesday and was taken for a ride which ended at the Meadow Lark Inn, a few miles north of the city and soon after Mr. Adler and other officials of the Bell Telephone Co., and operators, some thirty in all, arrived and a delightful social function, including luncheon, was held in her honor and to her complete surprise.—Enterprise.

NORTHVILLE—Construction work has been started on the Northville Health Farm structures, which will be located on Fisher road just west of the U. S. fish hatchery. A new athletic field, a small boat and building improvements have been made. The boys will come to camp in three contingents which will remain two weeks each.—Exponent.

MASON—Dumville postoffice has been reduced from third to fourth class in a reclassification of Michigan postoffices announced from Washington. The change affects only the compensation and privileges of the postmaster, Frank Grimes, and in no manner lessens the services rendered. It is explained. The change is due to a change in rural routes which gave to Williamston postoffice much of a route formerly served from Dumville.—News.

PLYMOUTH—One hundred and twenty-four persons residing in the village of Plymouth are unemployed, according to a report issued last week from the district census headquarters by H. W. Klansner, district supervisor. The figures, included in a preliminary report, are subject to correction, the announcement states. The figures represent only persons without a job, able to work and looking for employment.—Mail.

PINCKNEY—The date of the annual picnic to be given by St. Mary's church of Pinckney is Tuesday, August 5. A big chicken dinner will be served by the ladies of the parish at noon. Cooling Cream Pays Dairymen Dividends

Cream which is cooled immediately after being separated is of better quality and should bring a higher price than cream which does not receive this inexpensive attention, according to members of the dairy department at Michigan State College.

Cream can best be cooled by placing it in a deep setting can where the temperature can be kept low. When the next cream is ready for cooling, that in the cooling can can be transferred to the can used for delivering the cream. The cream in the delivery can should be thoroughly stirred as each batch of cream is added. Both cans can be cooled the most easily by setting them in cold, running water. Cream can be kept in good condition by placing a tank, barrel or tub on the pipe line between the well and the stock watering tank. This will furnish a water supply with little expense for piping. The tank for the cream cans should be covered with a roof to keep off the sun's rays.

Cold water cools cream much faster than cold air. When cream is delivered in hot weather, the can should be covered with a wet blanket while being taken to the station.

Well kept cream can be tested for butterfat more easily and more exactly than cream which is in poor condition. High grade butter cannot be made from low quality cream. Cream which is properly cooled will add dollars to the cream check.
