## NEW US-12 TO PASS CHELSEA SOUTH OF PRESENT LOCATION

Proposed Trunk Line To Skirt All Towns; Cities Affected Approve Dillman Plans.

The proposed relocation of US-12, which is scheduled to begin next year, will bring the trunk road past Chelsea a mile and a half south of the present road, the Standard was informed today in a long distance conversation with State Highway Commissioner Grover C. Dillman at Lansing.

Plans for the new road were considered at the capital Tuesday in a conference between Mr. Dillman and representatives of the major cities affected by the program. The plan, as approved at this conference, provides for a new 40-foot concrete super-trunk line between Detroit and Chicago. The present No. 12 will be almost entirely abandoned between Detroit and Jackson, although parts of it west of Jackson may be incorporated in the relocated route. Such parts as are not to be used will be turned back to the counties.

The new road will follow Michigan Avenue and the Ford road out of Detroit, passing Ypsilanti several miles to the north and skirting Ann Arbor at a point two miles north. Thereafter it will pass Chelsea to the south and Grass Lake to the north, connecting with the present route west of Jackson.

The theory of the plan, as pointed out by the Standard some weeks ago, is to provide an efficient channel for through traffic, all cities being skirted. Inter-city traffic will be accommodated by local roads. Each city will have a connecting road to the new No. 12. In the case of Chelsea, this connecting road will be along the same route as that being surveyed for the north and south road connecting the village with Plainfield by way of Unadilla. The latter highway, the Standard was informed, will be constructed next year as a gravel road, concrete to be put in later. The reason for this, it was said, is that engineering difficulties do not admit of immediate concreting, if the road is to be finished in the time planned. However, the connecting road south of Chelsea will be built of concrete when constructed.

## Boy Scouts Camp Out During Visit To Lake

Nine members of the Boy Scout troop, loaded down with blankets, culinary utensils and the other appurtenances of out-door men, returned to their Chelsea homes at 10 o'clock Tuesday morning after an all-night expedition to Clear Lake, where they took a whirl at cooking over a camp fire.

The boys, fortunately, were not caught in the rain, as they had a cabin for shelter. There was some difficulty, however, in keeping warm throughout the long watches. They enjoyed a good swim in the lake and visited the Boy Scout camp maintained nearby for Lansing boys.

The adventurers hope to make several more similar trips during the fall months. Those who participated were Foster Beisel, Kenneth Gilbert, Glenwood and Philip Novess, Herbert Wallace, Martin Alexander, Robert Williams, Charles Spaulding and Matt. Hew. McGuffigan.

## New Teachers To Hold Institute September 6

Washtenaw county public school teachers for the coming year will hold their first institute at Ann Arbor Saturday, September 6, according to an announcement by Cora L. Haas, county commissioner of schools.

The meeting will be held in the court room on the second floor of the court house and will begin at 9:30 a. m. There will be a special session in the afternoon for teachers who are teaching for the first time this year or who are newcomers in the county.

General announcements for the year will be made at this meeting and supplies will be distributed.

## Masons Trim Legion; Another Game Slated

The soft ball season is still on, although the Legionnaires are nominally the champions of the known world in this neck of the woods, having won the Standard's trophy and everything. Monday evening, however, they were defeated by the Masons, 3 to 1 and immediately thereafter the Methodists challenged the winners. The game will be played Tuesday evening. Schroder, for the Legion, and Floyd Rowe, for the Masons, constituted the opposing moundmen in last Monday's encounter.

## Stores Will Close Half Day for Fair

Practically all stores in Chelsea have agreed to close at noon on Thursday in order that everyone may have an opportunity to see a part of the county fair at Ann Arbor. Placards announcing the closing were placed in display windows Tuesday.

## Township To Gravel West Middle Street

West Middle street will soon be ready to receive a gravel surface, the cost of which is to be borne by the township. A furrow above the newly laid sewer has been made and the earth subjected to repeated soakings. When it has been sufficiently settled, the street will be graveled, and, according to W. C. Pritchard, highway commissioner, the graveling will be started next week. The improvement will extend from the pavement to the railroad crossing at the Old People's Home.

## MISS ISABEL A. HOWE AND PAUL A. EISELE WEDDED AT ROYAL OAK

Couple Leave On Motor Trip Through Northern Michigan After Pretty Ceremony.

The marriage of Miss Isabel A. Howe, daughter of Mr. and Mrs. Thomas Howe, of Chelsea, and Mr. Paul A. Eisele, son of Mr. and Mrs. Albert Eisele, of Ann Arbor, was solemnized at nine o'clock this morning at St. Mary's church Royal Oak. The ceremony was performed by Rev. Fr. Richard M. Noon, cousin of the bride. Miss Marjorie Howe attended her sister as maid of honor, while Ambrose Eisele, of Detroit, brother of the groom, assisted as best man.

The bride was attired in a gown of brown chiffon velvet, a brown velvet hat and brown shoes completing her costume. Her sister wore a two-piece dress of dark brown travel crepe with matching accessories.

Following the ceremony a wedding breakfast was served to the immediate families at the Norwood Inn, Royal Oak, after which the couple left on a motor trip through northern Michigan. The bride traveled in a suit of black and white crepe, with hat to match. Upon their return, Mr. and Mrs. Eisele will reside in Clinton, where Mrs. Eisele will resume her teaching. The bride is a graduate of St. Mary's high school and Michigan State Normal College.

## W. M. Brucker Gives Campaign Talk Here

About 100 persons heard the address Saturday evening of Attorney General Brucker, candidate for the Republican nomination for governor. Mr. Brucker did not appear on the morning hour previously announced, having been detained, it was said, by business in Detroit. Mrs. Brucker and Assistant Attorney General Boyles, however, arrived here in his stead, accompanied by an Ann Arbor band.

In the evening the attorney general appeared, after having flown from Detroit to Manchester, where he also spoke.

The candidate's address here concerned itself with his taxation reform proposal, highway program and condemnation of the Groesbeck penal policies.

## Tri-County Granges To Picnic September 1

Mrs. W. N. Martin, Grange secretary, announced this week that the tri-county picnic of Washtenaw, Lenawee and Monroe county granges will be held Monday, September 1, at Washington Lake, Irish Hills, at the Boy Scout camp. The forenoon will be devoted to golf, horse-shoe pitching and Boy Scout demonstrations, followed by a pot-luck cafeteria dinner at noon. Coffee will be provided. The business meeting will be called at 1:30 p. m., after which there will be a program and sports. Boy Scouts will direct traffic.

## Bloomer Girls To Play In Chelsea On Sunday

The Independents won a ball game Sunday, then lost it when Dexter perpetrated a ninth-inning rally and left the field with the long end of a 5-4 score. It was a rally in every sense of the word, as the phenomenon was performed in the historical ninth inning with two men down. Dexter was trailing 4-1.

Goff, who pitched for Chelsea, had held his opponents nicely in hand throughout, but just as the crowd started to leave, the Dexter men began to smite him hip and thigh. Three successive hitters made three successive hits, the last of which was one of those inspiring achievements they call a three-bagger.

Goff went to his labors in the last inning under a severe handicap, as he had just been struck in his right arm by a pitched ball.

Next Sunday Chelsea will meet the Bloomer Girls of Jackson and a large crowd is expected, as the game is being advertised over a wide area.

## John Koch Observes His 77th Anniversary

John Koch was honored Sunday, his 77th birthday anniversary, with a family dinner given at the home of his daughter, Mrs. Glenn Barbour, of Lima. A basket of red, pink and white snapdragons, flanked by lighted pink tapers, formed the attractive decorations which adorned the table, while a feature of the dinner was a birthday cake in green and pink, bearing a "77", made by Mr. Koch's grand daughter, Miss Loretta Bahnmiller. Many birthday gifts were presented Mr. Koch. The guests included Mr. and Mrs. Niehaus and son Robert of Ann Arbor, Mr. and Mrs. Wm. L. Keubler and daughters, Jean and Katherine of Manchester, Mr. and Mrs. Koch and daughter Amanda and Mr. and Mrs. Emanuel Bahnmiller and daughter Loretta of Chelsea.

## Dorothea, Frederic Steiner Win Honors

Dorothea and Frederic Steiner, daughter and son of Mrs. Hertha Steiner and both students at Albion College, have received signal honors for scholastic activities. Miss Dorothea having just been notified that she has been awarded a scholarship at Albion for the coming year. The award made for scholastic proficiency, may be continued through her entire college career. She also won a place in the Woman's Athletic Association. Frederic has been appointed treasurer of Sigma Nu fraternity. Last year he won his numeral in freshman football. He played the end position.

James W. Gerard, formerly ambassador to Germany, says "Fifty-nine men rule the United States." The remaining 120,000,000-odd will be interested to know that no public official, not even the President of the United States or any member of his cabinet, except Secretary Mellon, appears in the list of "fifty-nine that rule the nation."  
"It seems impossible, but perhaps it isn't. Sometimes men seem to rule that really do not rule."  
Mr. Gerard says "All these men are too busy to run for political office." The really important man, of course, doesn't run when he can send a boy to run for him.  
However, the marvelous fifty-nine don't seem to be doing very much ruling of the nation just at present. They are letting the good old U. S. A. machine coast down hill, while each asks the other fifty-eight, "What do you think of the prospects?"  
A short time ago copper fell to its lowest price in 20 years. This suggestion is offered to copper producers: Offer copper, in thin sheets of various thicknesses, suitable for flashing and other building and repairing purposes. Sell it to farmers, house-holders and others at the lowest profitable price and unload your surplus. Get co-operation from mail-order houses and hardware stores, and advertise a definite price—15 cents a pound, if possible. Tell how many sheets there are in a pound of this copper sheeting and why it is better than tin or galvanized iron.  
The copper surplus could be disposed of if copper men would unite in a really intelligent, persistent advertising campaign, using extensively the country weeklies, read by farmers, among other mediums.  
This column would buy a few thousand pounds of copper sheeting, properly priced, to start the sale, and make money on it.  
Dispatches from Bucharest say the new King Carol, who decided to come back and put his little boy out of the royal job, plans to get a brand-new wife. He was divorced from his first wife, Queen Helen, after he had departed with a charming lady, making no secret of it.  
When he returned from Paris, looking "royal," it was said the divorce would be canceled. Now it is planned to let the divorce stand and get another queen.  
He may marry the lady with whom he departed, but, if so, it must be a "morganatic" marriage. A king cannot marry in the regular way, any one that is not "royalty."  
Bumantons thought they needed a king and they have got one.

In the regular course of business, before the war, one unimportant Russian was put to death, under the knout, by the Czar's government, for political offenses. That Russian's younger brother looked on, and his name was Lenin. The czars are gone, great St. Petersburg, built by Czar Peter the Great, is now called Leningrad, and the Romanoff jewels belong to Communists that will gradually trade them off for agricultural machinery—a wise trade, although Congo savages and many charming American ladies would not think so.  
Whatever your opinion of Bolshevism, you must admire the complete way Lenin avenged his brother.

Some read with surprise the statement that organized crime in the United States, including bootlegging, takes in each year an amount running into thousands of millions, far in excess of the total revenues of the United States government.  
It is no exaggeration. The get-rich-quick rascals, racketeers, gangsters, bootleggers, collect, squander and distribute in bribes a revenue greater than that of Uncle Sam.  
One little item in the organized racketeering shows that in New York, the "milk gang" levy on milk dealers amounts to \$1,185,000 a week, and that is only one of a thousand "rackets."

When Gutenberg ran his little press by hand, using the type setting idea that was to fight the darkness of superstition with light, he printed a simple Bible.  
One of his Bibles now becomes the property of the Congressional Library. One million five hundred thousand dollars bought Doctor Volbehr's book collection, in which the Gutenberg Bible is included. Doctor Volbehr bought the Bible from the monks of St. Blaise monastery in Austria for \$275,000.  
All that would surprise old Gutenberg if he could hear about it. But a modern printing press would surprise and interest him more.

Russia does not want silver hoarded or anything done to interfere with credit or to monopolize money. Four men convicted of hoarding coin were shot dead, which is the Soviet method of showing that it is displeased.  
If they ever have a federal reserve in Russia you may be sure that it won't push the interest rate on call money up to 20 per cent.

Iron Formed of Magnets

An ordinary piece of iron is itself nothing more nor less than millions of tiny magnets. Every atom of iron is a tiny magnet with its own north and south pole. But we don't notice it because all these tiny magnets are haphazardly put up, as it were, and neutralize each other's magnetism.

Birth of Great Industry

It might be said that the manufacture of railway locomotives in the United States had its beginning with the founding of the Baldwin Locomotive works, in Philadelphia, in 1825. Mathias Baldwin was the founder.

Trout Is Caught

Twice Within Week

Lansing—Within seven days, a 14-inch rainbow trout was caught twice, once at Port Washington, Wis., and the second time near Grand Haven, Mich.

If the fish traveled a straight line across Lake Michigan, he would have gone 87 miles during the week or an average of 12 miles a day. If he chose to follow the shore line around the southern end of the lake, he would have gone a minimum of 200 miles, or 37 miles a day.

July 14, Smith Bros., Port Washington commercial fishermen, tagged a 14-inch rainbow trout (they are called steelheads on the lakes). The same fish was caught by Swartz and Jobin in a pound net five miles north of Grand Haven July 21.

RHEUMATISM IS

PUT TO AN END BY NEW KONJOLA

Chicago Lady Is Enthusiastic Over 'What New And Different Medicine Did For Her

MRS. MARIE BASMAN

Surely one could do no wiser thing than to profit by such experiences as Mrs. Marie Basman, 740 North Lawndale Avenue, Chicago, had with Konjola. She says:

"I was troubled for two years with rheumatism in my hip. I could hardly get out of bed in the mornings. I tried a number of medicines and treatments but nothing helped me. Then I started with Konjola. That was six months ago and I took six bottles. Since then I have not had an ache or pain. If I do, I surely will take Konjola again. Some of my friends are now using Konjola and getting fine results."

Konjola is a medicine for the aged and the infant; for all the family. A complete treatment of from six to eight bottles will bring relief from even the most stubborn cases of stomach, liver, kidney and bowel disorders, and rheumatism, neuritis and nervousness.

Konjola is sold in Chelsea, Mich., at Burg's Drug Store, and by all the best druggists throughout this entire section.

Pioneer in Acids

Sulphuric acid was made in Philadelphia for the first time in America by John Harrison in 1793. He was also the first to attempt to produce nitric acid.

Cape's Change of Name

Before Capt. Bartholomew Gosnold named Cape Cod in 1602, it was known to the French as Malabarre, and the extreme point as Cap Francaise in honor of Francis I.

RIVETS MAKE THE TANK-CAR OIL-TIGHT

The TORRID ZONE STEEL FURNACE is gas-tight and dust-tight because it is riveted. WARM air, the choice of all real authorities on healthful heating, reaches perfection through the Torrid Zone. The special construction of this longer-lasting furnace insures clean, warm air, at all times free from fumes—and brighter and happier homes. For just as the tank-car is made leak-proof by hot riveting and cold-calking... so the Torrid Zone Furnace of boiler-plate steel is made gas, smoke and dust-tight. That means no gas-tainted air when the furnace is freshly fueled or banked for the night. No dust or smoke from the registers following a shake down. Even the cellar or furnace-room will be cleaner than you ever thought it could be, because of the unusually snug firing and ash doors. Every part of the Torrid Zone is as tight as a drum. Two other essentials to health and comfort—humidity and ventilation—obtainable only with warm air systems are a part of the Torrid Zone. The humidifier has twice the evaporating area inside the casing of ordinary water pans, and it is positioned for rapid evaporation. Air circulation is guaranteed when an authorized Lennox Furnace man installs according to the Standard Code. The efficiency of a Torrid Zone magnifies your coal pile. Oversized heating surface causes Torrid Zone furnaces, to produce from 10% to 20% more heat from the fuel than other furnaces, hence they will heat with less fuel than other furnaces will consume. Models for soft coal, coke, hard coal, lignite, wood, gas or oil. Come in and see why the Torrid Zone is the most desirable furnace that heating science has yet devised. Look at its sturdy locomotive grates and "lazy" shaker. Get the booklet that explains its features in detail. We will gladly furnish plans and estimates for either new or old homes or other buildings. Factory blueprints obtained for special problems. Made by the LENNOX FURNACE COMPANY, Syracuse, New York—Marshalltown, Iowa—Toronto, Canada.

## Thrashing Time

by A. Dunlap

The biggest day back on the farm  
 Was when the thrashing crew  
 Along the hillside, down the road  
 Swung boldly into view.  
 The sturdy horse-power led the way  
 With grease-smeared cog and gear,  
 The separator rocked along,  
 With wagons in the rear.  
 With shout and clatter they stalked by down  
 The boss called, "let 'er rip."  
 The driver waked the drowsy team  
 And cracked the long lashed whip.  
 The tumbling reel began to roll,  
 The separator whined,  
 And from his nozzle poured the grain,  
 And piled the straw behind.  
 At dinner time we laughed and joked  
 In wholesome, friendly style,  
 When Pansy passed the pie to Pete  
 With shy and winning smile,  
 But when the jolly crew was gone,  
 To thrash the next month's grain,  
 Somehow we felt a loneliness  
 We couldn't quite explain.

 Students of Magnetism  
 The magnetic properties of certain substances were known to the early Greeks. The earliest systematic investigations of magnets were made by Peter Peregrinus of Maricourt, a student of Roger Bacon, and in August, 1269, he wrote a letter which was the first treatise on magnetism. It was not until 1581 that Robert Norman gives a clear statement of the fundamental laws of attraction.

**GASOLINE PRICE DECREASES**

In 1929 the average wholesale price of gasoline was two per cent less than the price in 1913, according to the United States Department of Commerce.  
 A comparison with the changed prices of other commodities is significant. Since 1913 the cost of shoes has increased 147 per cent, milk, 98 per cent; bread, 66 per cent; eggs, 46 per cent. Gasoline is almost alone in showing a decrease.  
 The mechanical progress made by the industry is principally responsible for this state of affairs. Today wells are sunk to a depth undreamed of fifteen or twenty years ago. A constantly rising percentage of gasoline is being extracted from crude. Cracking, hydrogenation and other processes are playing an important part in providing the American public with the highest grade motor fuel at the lowest prices in our history.  
 There is but one fly in the gasoline ointment—rising tax rates throughout the country. Legislators have been adopting the attitude that "one cent more won't do any harm." As a result, we have taxes ranging from three cent rates and it is forecast that ten cent rates are in store for the future. In some states funds derived from gas taxes have been diverted to other uses than road work, thus making the motorist pay for something he doesn't get.  
 Unless the American public takes a definite stand in opposition to exorbitant gas taxes, the savings made possible by the oil industry's progress will all find their way into the hands of the tax collector. Belle Fourche, South Dakota, Northwest Post.  
 Sport is, as it always has been, murderous excitement.—Bernard Shaw.

A LITTLE GIRL'S ESSAY

A 6-year-old girl submitted the following composition on "People," to her teacher: "People are composed of girls and boys, also men and women. Boys are no good at all until they grow up and get married. Men who don't get married are no good, either. Boys are an awful bother. They want everything they see except soap. My ma is a woman, and my pa is a man. A woman is a grownup girl with children. My pa is such a nice man that I think he must have been a girl when he was a boy."—From Hoard's Dairyman.

LYNDON WINS BASEBALL MEET

The Lyndon 4-H Club won the county championship at the Washtenaw county fair Tuesday, successfully defeating the Lima club, 6 to 1, and the North Lake club, 6 to 1, and the team, 8 to 3. His teammates gave the credit for much of their success to Orson Beeman, who pitched all three games and also hit three home runs.

ENTERTAINS AT TEA

Mrs. Jabez Bacon entertained a number of friends Tuesday afternoon at a thimble party and tea given in honor of Mrs. John McLaren of Plymouth. Bouquets of garden flowers decorated the rooms. Mrs. Bacon and Mrs. E. B. Hammond poured.

STATE NEWS

About \$26,000 collected from Michigan farmers for corn borer eradication work on their property will be returned. Assessments for \$14,000 additional will be canceled. Under joint State and Federal legislation adopted in 1927, the farmer was required to burn or plow under his corn stubble. If he was negligent, Federal agents did the work and the State collected the cost from the farmer for the Federal Government. The government has withdrawn from the contract and the money will be returned to the taxpayers.

Grace Wells, 14-year-old Campfire girl living at Oak Park, Ferndale, saved the lives of two girls, 12 and 10 years of age when she swam to their rescue in Middle Straights Lake in State Park No. 1. The two girls were playing with a large water ball which the wind carried beyond the reach of the younger one. Her companion swam to her assistance but was unable to reach her. Grace Wells took the one to shore and supported the other in deep water until help arrived.

Discovery of 25 lakes which do not appear on any map, and several scores of uncharted rivers and streams on Isle Royale was announced by Talbert Abrams, an aviator who is surveying the island for the Government and State. The lakes, densely wooded, lie in the interior of the island. Some are nearly a mile in length. Many rivers and streams, although short, are several rods in width and rush over rocky ledges to Lake Superior, creating waterfalls and gorges of great beauty.

Michigan Lakes Draw Ten Million Visitors

A probability that close to 10,000,000 persons will visit Michigan's 65 state parks this year has been predicted by the parks division of the department of conservation. Attendance figures taken from 12 state parks in the northeast section of the lower peninsula for the season to July 15, show an increase over last year of 60 per cent.

While the parks throughout the state will not average such a high percentage of increase, there has been a noticeable increase in all other parks, according to the report. Last year 7,454,741 persons visited the state parks. The estimated ten million for this year is believed to be conservative, considering that it is slightly more than 30 per cent, or half of the increase shown by the parks in the one section of the state.

HUDSON'S 49th ANNIVERSARY SALE

Which Begins Tuesday, September 2 (Michigan State Fair, August 31 to September 6)

EVERY year in September, Hudson's—the third largest department store in America—holds a great store-wide sale. Plans are made beginning a year ahead which bring about the greatest Hudson merchandising event of the entire twelve months.

We Wish Particularly To Emphasize These Five Facts:

- Fact I This Anniversary Celebration is the most important merchandising event in the entire year at Hudson's. Fact II Every department in the Greater Hudson Store is represented—main store—basement store—the store for men—the music store. Fact III Every offering is of NEW Fall and Winter merchandise—for men, women and children—and for the home. Fact IV Every article of Anniversary merchandise is very specially priced, affording an extraordinary saving. Fact V We have taken advantage of unusual market conditions to provide most exceptional values.

WILL HISTORY REPEAT?

Some twenty-five years ago Anderson had a great base ball team. It was managed by Mike Roche and swept the country and up to Labor Day had not lost a game. Among the teams who had fallen before it was Chelsea. Chelsea at that time was red hot base ball team. A game was secured by them with Anderson to be played at the Labor Day picnic at Dexter. The Central League of which Fort Wayne, Ind. was a member, broke up about that time and several Chelsea fans, among whom were Tom Mack, D. C. McLaren and Frank Leach hired the entire Fort Wayne team to replace the Chelsea team against Anderson. Doggy Miller, old Pittsburg pitcher, was the Fort Wayne manager. The team came on the field at the last minute wearing Fort Wayne uniforms and to add a touch of comedy each sported a cheap cap given away by the Chelsea Stove Works. Then followed a great game finally won by Fort Wayne 7 to 4. The Anderson line-up was as follows: Tom Dolan, c; Bill Monks, p; Cas Culhane, 1b; Malachi Roche, 2b; Gene Berry, 3b; Andy Roche, ss; Will Roche, lf; Mike Roche, rf; John McCleary, cf; these Dolan, Monks and Malachi Roche are dead, Culhane is in Colorado and Berry is a Detroit attorney. Is this 25 year old incident about to be repeated in the Hamburg-Pinckney game Sunday?—Pinckney Dispatch.

Question And Answer Dept.

Ques.—I have been told that there is a solid gold piano in the White House. Is it true? If so, who authorized the government to use the public money for such luxuries? Ans.—We presume you refer to the piano in the East Room of the White House. This piano looks like solid gold, but it is made of the same kind of wood with which other pianos are made. It is covered with pure gold leaf and has all the appearance of being solid gold. The government did buy the instrument. It was presented by a New York firm for gift giving purposes. The piano, which cost \$15,000, is never used, and only serves as an ornament.

Ques.—Can you tell me why Europeans drink so much beer and wine? Ans.—We do not know unless it is because they are afraid of bad water.

Ques.—Can you tell me which is the largest in area—the United States or Canada? Ans.—The Dominion of Canada has a larger area than the United States proper. The area of the United States is about 3,026,700 square miles; Canada has an area of 3,722,000 square miles, or 111,000 more than the United States proper. If you take in Alaska as part of the United States, then the latter has the larger area.

Ques.—I am curious to know why stiff hats are called "dardies"? Ans.—It is not known for certain. The best authorities say it was so named because the Earl of Derby introduced it at the Derby races at Epsom in 1780. Headgear somewhat similar in style was worn by the ancient Greeks, but they were not at that time called "dardies".

Ques.—What is the best way to drive a car? Ans.—The best way is to drive as though your family was in the other car.

Ques.—Does Rhode Island have two capitals? Ans.—No. Originally, Rhode Island had as many capitals as it had towns. The general assembly met in circuit—first in one town, then in another. As time went on, however, the legislature grew in size, and the accommodations in the smaller towns became inadequate. The meetings were held in fewer and fewer towns until finally the general assembly met in only two places—Providence and Newport. For many years the state had these two capitals. After the completion of the state house at Providence in 1907, the constitution was so amended to dispense with the Newport capital, leaving the state with one capital only—Providence.

Ques.—How can I tell which is the North Star in the heavens? Is it visible from all parts of the earth? Ans.—The North Star is always visible on clear nights from any point in the Northern Hemisphere. It is never visible from the Southern Hemisphere. This is because the axis of the earth points almost directly at the North Star. It can be located readily by means of the "pointers" in the constellation known as the "dipper." The dipper consists of seven visible stars, three composing the handle and four the cup or bowl. The "pointers" are the two stars farthest from the handle and are approximately in line with the North Star.

Ques.—I want to ask you if snakes fight each other, or if any of them prey on other snakes. Ans.—As a rule, snakes do not fight each other except in protecting their young. A few of them, notably the king snake, prey on other snakes. It frequently goes out of its way to battle with and eat other species of snakes.

Ques.—What is the difference, if any, between a polecat and a skunk? Ans.—There is no difference. In the United States, "polecat" is the popular name for the common skunk. In Europe, however, "polecat" means the common fitchet weasel.

State Acquires Large Fish Breeding Ponds

Lansing—What will eventually become among the largest bass and bluegill rearing ponds in Michigan were accepted by the Conservation Commission at its August meeting when it voted to accept a deed to 84 acres of land near Hillsdale. The Hillsdale county chapter of the Trout League has raised \$4,900 for the purchase of the land and will turn the property over to the Department of Conservation which will develop and operate the ponds. About 60 of the 84 acres are suitable for ponds. The property is but a mile and a half from the city on what is known as the Emory Mills Creek Site.

Future Is Brighter for Poultry Grower

Outlook reports issued by the United States Department of Agriculture state that the future of the poultry industry is more promising than the market declines and the reports of increased hatching of chicks, indicated last spring—but that little improvement in prices are expected. Poultry owners are advised by the report that a moderate reduction in the number of layers is justifiable but that extreme reductions do not appear necessary.

MASON—A rare trout was in store for the neighbors of W. E. West of East Lansing township Friday evening. Mr. West operates a greenhouse and the well known peony gardens and he has a plant called the night-blooming cereus, a variety of a cactus plant with graceful branches upon which white blossoms of unusual beauty appear for one night only. On last Friday night the blossom opened and Mr. West called in some of the neighbors to view this unusual treat for the brief time that it lasted.

MANCHESTER—The State highway department spent many thousands of dollars in the construction of the Memorial bridge across the Raisin river in this village on M-11 and every month is looked after by men whose duty it is to keep it in proper shape. The monstrous steel beams under the roadway must be kept painted to prevent rust from attacking them, and the painters were here last Saturday doing the job. Entertainer JACKSON—Lessons in the feeding of Michigan wild game will be taught by the State Conservation Department at the Jackson County Fair, Sept. 8 to 13, it has been announced. Wild game will be given food while visitors to the exposition look on, and those interested are urged by the department to ask whatever questions they see fit. Food given to the animals will be found to be of surprising variety, department officials have announced.

25 miles northwest of Alpena,
where he had been for the past six
weeks, conducting a camp for boys.—
Leader.

TECUMSEH—J. D. Martin, veteran
Britton mail carrier, will retire about
September 1, on pension, having
rounded out 30 years' service on R. 3,
Britton. Mr. Martin entered the service
when the route was established at
the Ridgeway postoffice. Routes 1
and 2 out of Britton will be enlarged
about the last of next month and
Route 3 will be discontinued.—Herald.

TECUMSEH—The Cyclone Fence
Co., a subsidiary of the United States
Steel Co., will reopen its doors here
Monday, September 1, and by the middle
of next month will be running at
a normal capacity, with a force of 40
men and women, E. J. Nelson, superintendent,
announced Thursday.—Herald.

NORTHVILLE—For some time Mr.
Barrett and his family, who live out on
West Base road have been wondering
what kind of an animal lived over on
one corner of his farm. Many times
they saw evidences of it, so Mr. Barrett
determined to catch it, if possible.
He set a trap and was rewarded
by catching a badger of rather a
large size. He turned it over to the
Detroit zoo, it being the only one on
display in the institution.—Record.

WAYNE—August Ott, prominent
resident of Wayne, is in a critical
condition in the Grand boulevard branch
of the Grace hospital as the result of
a fall from a scaffold upon which he
was working Tuesday morning. Physicians
say he is suffering from a broken
back.

SALINE—With the dissolution of
the partnership which has operated
the Springbrook mills, south of Saline,
for the past 15 years, another
chapter is added to the history of this
old institution, which has been grinding
flour for nearly a century. Edward
Alber has purchased the interest of
Jacob L. Theurer and will continue to
operate the mill.—Observer.

MILAN—Tuesday morning, September
2, the school children of the
community will be called from their
summer vacation back to the school
books, class rooms and laboratories.
More than 500 students will enroll
this year.—Leader.

PLYMOUTH—Chief of Police Geo.
W. Springer of this place has been
honored with an appointment by the
executive committee of the Sheriffs
and Police Officers Association of America
as a vice-president and member
of the advisory board of that organization.
This is one of the greatest
law enforcement organizations in the
country, and the appointment of Chief
Springer is a high honor.—Mail.

STOCKBRIDGE—A home-coming
celebration will be held in this village
August 30-31 and September 1.

BROOKLYN—Owen Miller, who
has been at Rose Glen, N. D., for several
months, arrived home last week
and Lawrence Kiebler reached here
from the same place. The boys
started out together but became separated
on the trip. They report that
there is no work in the harvest in that
part of Dakota because there is but a
small crop. There has been no rain
there since June. Thousands of acres
will not be harvested, according to
the boys.—Exponent.

MILAN—The business outlook in
Milan took a decided change for the
better last week when the American
Furnace and Foundry Company and
the American Boiler and Foundry Co.
went back into production and more
than 100 men went back to work following
a layoff of nearly a month.
According to officials, the boiler plant
is operating on a full production
schedule on a four day a week basis.
The furnace plant is a little slower
in getting started but work is progressing
and prospects are bright.—

Remarkable Table Top
The National Library table top is
on a table made by Gordon H. Turner
when instructor of manual training,
Greenwood (Miss.) high school. It is
inlaid with 5,022 pieces of wood taken
from every state in the Union and our
major possessions. It weighs 250
pounds.

Marvelous Clock
An unusual piece of workmanship is
Bohemian's "guest clock." It required
several years of painstaking labor for
Joseph Thayer, a glass worker of that
country, to make this clock entirely
of glass, even to the tiniest screw.

TWENTY-FOUR

Thursday, August 27, 1896
The Chelsea Agricultural Society
will hold its annual meeting here on
October 7, 8 and 9.

Mrs. James Hudler died Monday
morning, August 24. She was born
in Buffalo, N. Y., and was united in
marriage with James Hudler April 18,
1855, and had been a resident of Chelsea
ever since. She is survived by
her husband and one daughter, Mrs.
Arthur E. Walker, of Detroit. The
funeral was held from the family
home Wednesday afternoon. Interment
in Oak Grove cemetery.

Alva Freer was born in Seneca, N.
Y., March 28, 1813, and died at the
home of his daughter, Mrs. J. P.
Wood, August 24. He was united in
marriage with Miss Phoebe A. Street-
er November 3, 1833, and they settled
in Lima in 1837 and became residents
of Chelsea in 1880. Mrs. Freer died
in 1893. He is survived by two
daughters, one brother and three
sisters. The funeral was held from the
home of Mr. and Mrs. J. P. Wood
Wednesday, Rev. Thos. Holmes officiating.

STATE NEWS

William H. Davis, 25 years old, was confessed to the murder of Mrs. Doris Loree, a widow, living near Carson City, for \$300. The woman was slain after she had written a \$200 check payable to "Jay Smith" and which was later cashed. The man told Sheriff Francis M. Waldo that he had \$82 due on his automobile and that the finance company was pressing him for payment. He said he went to Mrs. Loree's house, forced her to write two checks, and then shot her to prevent her stopping payment before he could obtain the money.

More than 400 relatives from 14 states and three foreign countries gather near Detroit this month for an annual reunion of the Breakstone family. The family, composed of 1,800 known members, traces its history back 200 years. The custom of annual reunions was started eight years ago through the efforts of Dr. Benjamin H. Breakstone, of Chicago, who befriended a number of poor relations. The family publishes a monthly journal, of which Rosalind Susman is Detroit editor.

After digging his grave in a lonely spot in the woods near the tent in which he had been camping at Ottawa Beach, on Lake Michigan, at Holland, John Lee Dean, 22 years old, honor student and former athlete, ended his life by shooting himself. After entering classes at the Michigan College of Mines at Houghton, he suffered from rheumatism and heart disease and was forced to abandon his studies. He was known to have been despondent over his condition.

Six lawsuits for damages totaling \$90,000 have been filed in Owosso Circuit Court by Mrs. Belle Watkins, of Ypsilanti, against the Flint-Owosso Bus line, which has headquarters at Owosso. The suits are the result of a collision between a car driven by Thomas Watkins, husband of a plaintiff, and a bus owned by the company. Watkins and one child were killed instantly and another child died four days later. Mrs. Watkins and a third child were injured.

Possibility of a gold strike near Bronson, Branch County, caused excitement among residents. Drillers for oil brought up particles of gold from a drilling at Matteson Lake. The gold ore was sent to the state chemist at Lansing for analysis. Considerable drilling has been going on in this vicinity for oil, but no wells have come in. The gold drillers said they found beneath the quicksand which has been holding up oil drilling operations.

A cut on the nose of Bernard Rawson, of Bay City, the pilot, was the only injury suffered by five persons in an airplane which caught fire while 3,000 feet in the air. Rawson landed the plane on the farm of George Hilliker in Farmington Township and he and the passengers disembarked before flames destroyed the plane. A broken gas line caused the fire. The plane was on the way from Cleveland to Bay City.

Because five departments have been eliminated from the 1930 educational program of the East Detroit public school system, two supervisors and seven teachers, who signed their 1930 contracts last spring, have been released from duty. All remaining members of the faculty have accepted a 10 per cent reduction in salary, in order that the board of education may carry out its economical program.

Burglars escaped with a large part of the stock of the Arns Brothers' clothing store, at Milford. The stolen merchandise, which included 25 suits, 15 top coats, 25 knickers, 25 hats, 50 neckties and an undetermined number of shoes, was valued at more than \$1,500. The thieves broke in through a rear window and used automobiles to haul away the clothing.

Plunging 150 feet when a scaffold along the Association of Commerce Building in Grand Rapids gave way, Charles McPheter, 50-year-old painter, was hurled to his death. Joseph E. Flonk, working with McPheter, saved himself from a similar fate when he grabbed the rope and hung on for more than 15 minutes before he was rescued by firemen.

Widening and paving of the Dixie highway two and a half miles north of the Flint city limits, continuing the widening project which was begun on North Saginaw street last year, has been started by the State Highway Department. The road will be 40 feet wide when completed. Next year the widening will be continued north from Mt. Morris to Frankenmuth Junction.

Charlotte's first airplane owner is Claude Cooper, who has purchased a Waco 90, three-passenger plane. Cooper plans to take further lessons in aviation with the view of securing a pilot's license and then operate his plane for passenger service.

Two sorority houses and a woman's dormitory at the University of Michigan, Ann Arbor, were robbed by a woman who entered the buildings on the pretext of using the washroom. The robber secured \$53, a camera and several sorority pins.

Bernard Poskey, 7-year-old son of James Poskey, of St. Charles, died at St. Mary's Hospital at Saginaw of injuries when he was run over by a tractor near his home. He fell in front of the tractor.

Application was made to the interstate commerce commission, at Washington, D. C., by the Bell Telephone company, for authority to acquire and operate the Thumb Telephone company, in Sanilac County, which has exchanges at Port Sanilac and Appleton. It is asserted by both companies that public interest will be promoted by the more adequate service which is planned in connection with the transaction, which already has been approved by the Michigan Public Utilities commission. The purchase price is to be \$4,000.

STARRBERG FOR PROSECUTOR Adv.

Trying to "beat the light" at the intersection of Michigan avenue and Washington street, Ypsilanti, cost John Kubick, Detroit, \$83 besides the damage to his own car. Kubick was arrested on a charge of reckless driving and was fined \$25 in Municipal Court. He also was required to pay damages of \$11 to Mrs. C. R. Williams and \$17 to Christ Bilakos, both of Ypsilanti for damage done to their cars when he crashed into them while attempting to get across the intersection before the amber light changed.

Four brothers of the Anderson family, born near Petrolia, Ont., met at Port Huron a short time ago for the first time in 45 years. The brothers are John of Bay City, the eldest; Andrew of Port Huron, second-eldest; Hammond H. of Chatham, Ont., who returned recently from a nine-year residence in the Trinidad Islands; and James G. of Palo Alto, Cal., who, with his wife and daughter, visited here. They had not met since they left home at an early age, after the death of their parents.

Bankers have warned businessmen that a number of forged Detroit Edison company pay checks are in circulation at Pontiac. The forgeries are not copies of the check form used by the company but a number of them have been successfully passed. The number of worthless checks issued in the city increased sharply for a few weeks, presumably because of the shutdown of automobile factories for a vacation period, with a resulting shortage of funds for many workers.

The Motor Wheel corporation of Detroit, must pay Roscoe C. Hoffman, 40 years old, \$206,747.75 for infringing his patent on disc automobile wheels. This sum represents a royalty of 15 cents on each of 1,287,808 wheels manufactured between January 1, 1922, and November 14, 1928, or a total of \$190,185.75. Together with interest of \$16,562.00 this will bring the total amount to be received by Hoffman to \$206,747.75.

The crying of a baby probably saved the lives of Mr. and Mrs. C. R. Fayling, living three and one-half miles southeast of Ottawa Lake, near Adrian. The child's cries awakened Mrs. Fayling who found the house in flames. The members of the family were forced to flee in their night clothing. The house with contents of furnishings and clothing was destroyed.

To guard against a shortage of water such as compelled restriction of its use this summer, a driller has been engaged by the town of Rochester, and new wells will be sunk this year. Villagers have been permitted to use water only one hour a day to water lawns and gardens, as the result of an alarming decrease in the reservoirs.

Like the man who held 13 spades and bid one no trump, Samuel S. Hargraves of Lansing, is lucky and unlucky at the same time. Hargraves made a hole in one—but it was the wrong hole. Playing with E. A. Tansley, at the Crystal Lake course, Hargraves teed off No. 3 but it was a slice and rolled directly into the cup on No. 1 green.

YOUR DOLLAR BUYS MORE AT A KROGER STORE

There's Money In Your Attic

What is simply rubbish to you may be something useful to someone else. Why not search through your attic or basement, and dig out the score or more of odds and ends for which you have no use?
