Sylvan Will Receive \$11,343 Primary Fund

An increase of more than \$7,000,000 in the primary school funds of the state has been reported by Webster Pearce, superintendent of public instruction. Last year \$20,038,985 was distributed among the primary school districts of Michigan. This year they will receive \$27,100,075. For each person of primary school age the districts will receive \$17.92 as compared with \$15.70 last year. The primary school fund is derived from taxes on public utility corporations.

The Sylvan clerk has received notice from the Department of Public Instruction that according to the annual reports filed in his office September, 1929, there were 633 pupils in this township for the year ending July 1, 1929. The amount that each district will receive is as follows:

No. 2, 13 pupils—\$232.96.
No. 3 fr., Sylvan and Lima, 507 pupils—\$9,085.44.
No. 4, 51 pupils—\$918.92.
No. 5 fr., Sylvan and Sharon, 14 pupils—\$250.88.
No. 6 fr., Sylvan and Grass Lake, 14 pupils—\$250.88.
No. 7, 21 pupils—\$376.32.
No. 10, 18 pupils—\$323.96.

The Sylvan treasurer will probably receive the money due some time during September. As yet no reports have been received as to the amount, if any, the library fund each district will receive. Last year no money was received from this fund, which is derived from the penal fine money.

Bloomer Girls Lose To Locals Sunday

The Chelsea Independents evidently departed from the rules and regulations of long standing in regard to courtesy toward the weaker sex, and in their game with the Jackson Bloomer girls at Taylor field last Sunday emerged victors with a score of 3 to 2.

Although the entire visiting team was not composed of ladies, the feminine part of the line-up displayed real skill along with their team mates of the opposite sex and as the score indicates the game was well played by both teams. Parker and Boyce officiated as the local battery.

The Independents journeyed to Pleasant Lake, Jackson county, on Labor Day and defeated the Schafer Dry Cleaners of Jackson, 13 to 5. Chelsea battery, Goff and Coe.

Moose Lodge of Ann Arbor will oppose the Independents at the local field next Sunday at 3 p. m.

PUBLIC SCHOOLS OPEN TUESDAY; INCREASE IN NUMBER ENROLLED

Total Of 421 Pupils Report On Opening Date; Football Schedule Is Announced

According to Supt. E. L. Clark of the Chelsea public schools, the new school year has attracted an increased number of pupils here this year, and the enrollment figures show a gain over last year.

The enrollment for this year totals 421 as compared to 410 last year, and is divided as follows: Kindergarten, 31; first grade, 28; second, 28; third, 31; fourth, 30; fifth, 32; sixth, 31; seventh, 35; eighth, 19; freshman, 35; sophomore, 46; junior, 33 and senior, 40.

Mr. Clark is very optimistic in his forecast for a very successful year with the present corps of teachers, and predicts results which may even exceed previous years, which have been very gratifying. The following scholarship records speak well for Chelsea High preparation, as they were made in different institutions: Dorothea Steiner, Frederic Steiner, Albin College; Ruth Dancer, University of Michigan; Oleta Seitz, Michigan State Normal College.

Claud Rogers also deserves meritorious mention for approaching an A record in his first semester in the University of Michigan last year. There are thirteen Chelsea High graduates in the University at present.

Football practice began in earnest on Tuesday afternoon. Twenty-five boys are out to do battle for old C. H. S. The football schedule for the season is as follows:

September 19—Alum.

October 3—Manchester, here.
October 10—Dundee, there.
October 17—Milan, here.
October 24—Roosevelt High, Ypsilanti, here.

Nottens Celebrate Silver Anniversary

Sunday, August 31, was the 25th wedding anniversary of Mr. and Mrs. Eric Notten, and in celebration of the event relatives to the number of thirty gave them a surprise at their home in Sylvan township.

After a bounteous pot luck dinner, the afternoon was spent in a social way, with a short program of music and recitations, which were much enjoyed. Two special numbers were a vocal duet by Mr. and Mrs. Henry Notten, parents of Mr. Notten, and a drum solo by the former. Included among the guests were Rev. and Mrs. Henry W. Lenz, the latter having officiated at the wedding 25 years ago, also Mr. and Mrs. Emmett H. Dancer, who attended as best man and maid of honor.

Rev. Lenz gave a fitting talk and in behalf of the company presented Mr. and Mrs. Notten with several pieces of silver. All departed, wishing their host and hostess many more years of wedded happiness. Those from away were Mr. and Mrs. Louis Notten of Jackson and Mr. and Mrs. Herman Hauer and daughter Mabel of Hastings.

Collins Boasts Catch Of Five Pound Bass

Mr. and Mrs. A. K. Collins spent Thursday and Friday with Mrs. F. B. Taylor of Jackson, a sister of Mr. Collins, at her cottage at Narrow Lake in Eaton county.

"Art" brought home an outline of a large mouth black bass, weighing a little over five pounds. Some bass, and not common these days. Mr. Collins reports that he had not caught a bass this large in the last twenty years.

Sunday School Class Entertained Friday

Mrs. Louis Eppler was hostess to the members of her Sunday school class of St. Paul's church at a party given Friday afternoon at her home on South St.

An enjoyable time was spent with games and stunts, prizes being awarded the winners, after which a group picture was taken. A delicious lunch was served, with table decorations in pink and white.

Those attending the party were Mesdames John Koch, Chas. Lambert, A. Wilmayer, W. S. Pietermier, Christina Schoettler, E. J. Rahmiller, P. H. Grabowski, Walter Beutler, P. Seitz, Jr. and L. Shaver.

Methodists Defeated By Masons, 2 to 1

The Masons defeated the Methodists last Tuesday evening in what probably will be the last game of the Twilight season, since the shortening days scarcely allow time for five or six innings. The score was 2 to 1. Richards and Davis were the Masonic battery and White and Azdel worked for the Methodists.

The game was played in six innings before the usual large crowd.

STAPISH-FULLER WEDDINGS

A beautiful wedding was solemnized Wednesday morning at St. Leo's church in Detroit, when Mary Josephine, only daughter of Mr. and Mrs. Ben Stapish of Detroit and Chelsea, became the bride of Mr. Thomas E. Fuller, son of Mr. and Mrs. William Fuller of Detroit.

Miss Eliza Riggs of Detroit, a sorority sister, was maid of honor, and "Bud" Stapish, only brother of the bride, was best man. The bride was exceptionally lovely in a gown of ivory, satin and lace, garlanded with seed pearls and with a cap of seed tulle veil was made with a cap of seed pearls and orange blossoms bordered with real lace. She carried white bride's roses and fern, tied with white baby ribbons. Miss Riggs was gown in peche satin with hat to match, and carried butterfly roses with cream satin streamers.

Rev. Fr. Wood officiated at the mass. Mr. Kennedy played the beautiful wedding march from Lohengrin as the bridal party took their places at the altar. Miss Catherine Tremper sang "Oh, Promise Me," "Ave Maria" at the offertory, and "At Dawning" as they left the church.

The ceremony was followed by a reception and breakfast at the Detroit home of the bride. Miss Stapish has been feted at several functions during the past month, receiving many beautiful gifts.

The happy couple are honeymooning at Mackinaw and motoring through northern Michigan, and will be at home to their friends after October 1, in their apartment at 111 Edison Ave., Detroit.

STATE NEWS

Applications for admission to the University of Michigan at Ann Arbor by those entering as freshmen are off more than 10 per cent in comparison with last year's figures. It was said by Ira M. Smith, registrar, a count of applications made at the time of this writing showed 1,153 on file as against 1,285 on the corresponding day in 1929, a drop of 10.27 per cent. The decrease is attributed to general conditions by Smith, and a falling off in the total enrollment is anticipated.

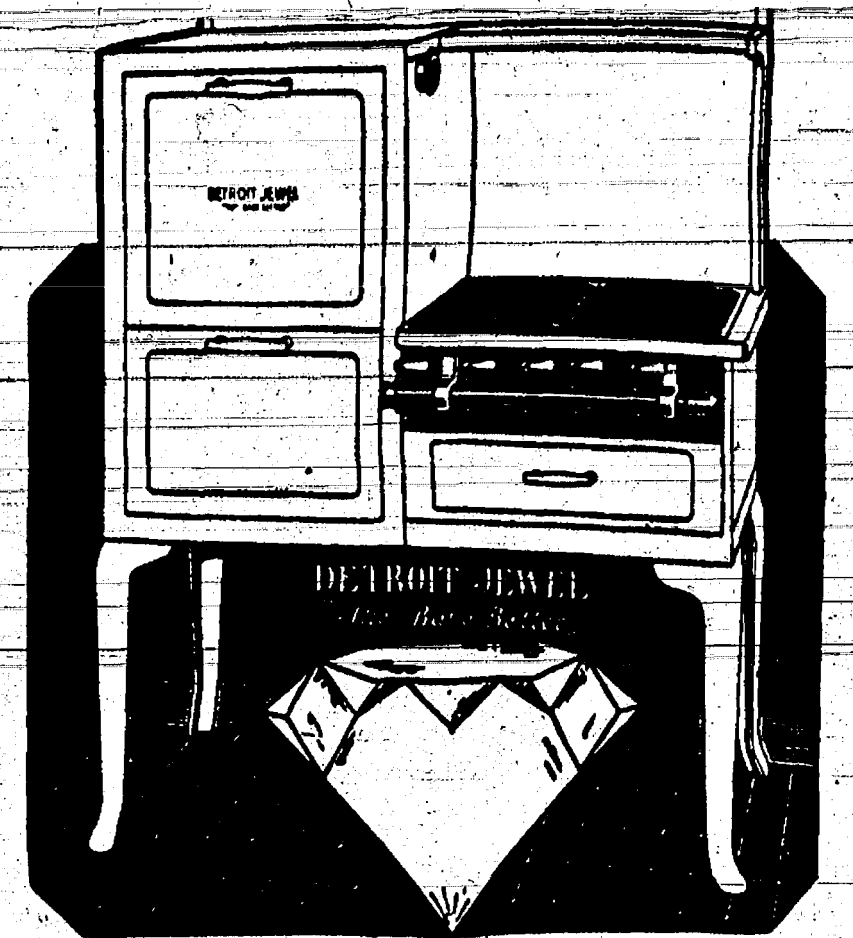

Lansing's two high schools, Central and Eastern, will play night football this year, the first in the state to employ nightcap games. Night football was approved by the board of education for a number of reasons. It will eliminate doubleheaders in midseason. One school will play Friday night and the other Saturday afternoon, alternating the next Saturday. Games which have proved financial losses will be shifted to the night side in an effort to place them on a paying basis.

The University of Michigan this fall for the first time will offer correspondence courses of study, as a part of the extension department program for 1930-31. C. A. Fisher, assistant director of the extension service, announced at Ann Arbor. Correspondence courses, modeled after the Columbia plan, are being prepared by professors as rapidly as possible, and now include modern social problems, elementary sociology and psychology, and parental education.

Morenci—Morenci schools, both high and grades, will open Monday morning, September 8, at 8:15. This is the first year in which all high school teachers have college degrees.—Observer.

Manchester—The N. Y. C. railroad has discontinued the River Raisin flag station, which was established between 50 and 60 years ago, when there was a sawmill, grist mill, saloon and store a short distance away and it was quite an accommodation to the people of that section for many years. But that section for many years. But since the mills and grocery and the saloon have been obliterated and the automobile has supplanted the rail-

road to a great extent, they removed the waiting room, often called tramp headquarters, on Friday and hereafter trains will not stop on signal.—Enterprise.

Immigration Rules

The Chinese are excluded from the United States by the Chinese exclusion act of 1882. The "gentlemen's agreement" of 1907 excluded the Japanese from immigration into the United States. Under the immigration act of 1924 Japanese are excluded by the provision under which aliens ineligible to become American citizens are not admitted except under existing treaty stipulations.

"NO MEDICINE IN THE WORLD LIKE KONJOLA"

Says Steamboat Captain, Aged 83, "Who Finds New Health in Modern Compound."

CAPTAIN A. P. GALLINO

"To me there is no medicine in the world like Konjola," said Captain A. P. Gallino, 11437 Wisconsin street, Detroit. I harbored various ills in my system for years before I found the right medicine. My digestion was poor and I gained little strength from what I ate. Blotting pains and severe headaches were the penalty I invariably paid for eating. I am 83 years of age and I felt my health falling rapidly.

"I had little hope that Konjola would help but this medicine gave me the surprise of my life. While on the second bottle my digestion began to improve and headaches disappeared. After that, improvement came rapidly until today, after taking six bottles, it seems difficult to believe that I was ever ill. Thanks to Konjola, I am still on the active list as the captain of a Great Lakes Steamboat."

There is nothing exceptional in the case of Captain Gallino. Konjola often appears at its best in ailments of the aged. It is all pure medicine and every drop works. Konjola is sold in Chelsea, Michigan at Burge's drug store and by all the best druggists in all towns throughout this entire section.—Adv.

LESS HEAT REQUIRED WHEN AIR IS MOIST

Steel-riveted and Gas-tight Lennox Torrid Zone Furnace Has Most Practical Humidifier

When air is dry, it must be held at a higher temperature for bodily comfort than when it contains a proper amount of humidity. As the heated air in most homes contains only 12% to 20% relative humidity (which is drier than the Sahara Desert) it follows that extra fuel is being burned to maintain a comfortable temperature. This extra fuel is one of the savings effected by the Lennox Torrid Zone Warm Air Furnace. Because the Torrid Zone humidifier has twice the evaporating area right inside the casing of ordinary water pans and is positioned for most efficient evaporation.

Extra fuel is also saved through the design of the Torrid Zone firepot and the oversized radiator. Combustion is more thorough and more heat is squeezed from the smoke and gases before they go up the chimney. This remarkable furnace is designed for hard or soft coal, coke, lignite, wood, gas or oil—and is built to outlast two or three ordinary furnaces. See the particular model for your home and your fuel. Made by the Lennox Furnace Company, Syracuse, N. Y.—Marshalltown, Iowa—Toronto, Canada.

"A REPUBLICAN for the UNITED STATES SENATE"

If you feel that Michigan should be represented in the United States Senate by a REAL REPUBLICAN by a man of proved ability by a man of years of experience in public service and with a proved record of accomplishment for his state then you will vote for Former Governor Chase S. Osborn.

CHASE OSBORN

CHASE S. OSBORN has a long record of public service behind him. He served Michigan as Governor in 1911 and 1912, and refused to be a candidate for a second term. As Governor, Chase Osborn gave Michigan:
The first Industrial Accident Board and the workmen's compensation and employers' liability law, which has served as a model for other states. More than \$50,000,000.00 have been paid employees under this act.
The opportunity to adopt a constitutional amendment granting the right of suffrage to women.
The presidential preference primary.
The first forward step toward prohibition, in a law which prohibited the ownership of saloons by breweries or anyone interested in the wholesale liquor traffic.
One of the first regulatory laws covering charges by railroads and express companies.
Its first forward step toward tax revision.
A reorganized Michigan national guard and took it out of politics.
Abolished scores of useless state offices; put more property on the tax rolls than any governor, before or since.
Legislation that exempted war veterans from taxation.

As Senator he will make an equally outstanding record

Letters To Standard Must Have Signatures

The Standard is in receipt of an anonymous communication protesting against the operation of an alleged gambling establishment in the village. It is not the policy of the Standard to print any letters unless they are signed. This is almost a universal rule. We do not know of any paper anywhere that pays any attention to anonymous communications. If desired, the signature may be left out when the letter is printed, but unless the signature accompanies the letter, it must find its way to the waste basket. The writers of the letter in question are invited to rewrite it and mail it, accompanied by the proper signature.

Stars in American Flag
Properly speaking, it is incorrect to claim that each star in the national flag represents some particular state. All 48 stars in the flag represent the states collectively and not individually. Some writers base the arrangement of the stars according to the dates of ratification of the Constitution or admission to the Union.

Wandering Back
by A. J. Dunlap

It was miles from our place to a neighbor;
There were days when we saw none at all—
For the horses were tired in the evening
And no telephone hung on the wall.
And the days flowed along like a river,
With a peace in their quiet and charm
That alone could be found in the country,
In the days of the pioneer farm.

When I tire of this up-to-date frenzy
With its clashing and clamorous blaze;
When I'm weary of pushing and rushing,
And of life with its windows aglare,
Then I quietly wander in fancy
Back again to the farm where I knew
The deep peace of the sunrise and sunset,
And the cornfields that glittered with dew.

Question And Answer Dept.

Ques.—Can you tell me if all of the states observe Arbor Day?

Ans.—Every state in the Union observes Arbor Day but not all on the same date. It usually occurs in April or May but some of the southern states have it earlier in the year or in the fall.

Ques.—I would like to ask if there ever was a creature that was half man and half animal, as I have sometimes seen in side shows.

Ans.—According to the Smithsonian Institution, there is no authentic record of any cross between the human race and the lower animals. Side show exhibitions of such freaks are usually takes or specimens of a very degenerate human being.

Ques.—To settle an argument, will you please tell me if John Quincy Adams was the son or grandson of President John Adams.

Ans.—John Quincy Adams, the sixth president of the United States, was the son of John Adams, the second president.

Ques.—Can animals think?

Ans.—This is a mooted question. The higher animals show considerable intelligence in certain matters, such as getting food and escaping from enemies. Modern science is inclined to think that the difference between the intelligence of human beings is one of degree and not of kind. In animals instinct plays a much larger part than it does in people.

Ques.—If the queen bee dies in a hive what becomes of the swarm? Will they die?

Ans.—When the queen-bee dies, the bees usually provide themselves with one by transforming and enlarging a worker's cell which contains an egg or a very young larva. This process of converting a working larva into a queen bee frequently occurs in several parts of the hive at the same time. If more than one queen is produced, they fight until one is killed or one leaves the hive with part of the swarm. If no queen is produced the swarm soon dwindles and dies.

Ques.—I am told that a certain species of monkeys can and do form bridges in their native state by linking themselves together and holding to each other's tails and start swinging to and fro and swing themselves from one tree to another on the opposite side of a stream. Will you tell me what species of monkeys it is that does this?

Ans.—This is probably a myth. Ques.—Were chickens wild at any time?

Ans.—The generally-accepted theory is that all fowls descended to us from a wild state. Just when they became domesticated is unknown. The time dates back to prehistoric times. Darwin believed that the wild jungle fowl of India and the Malay Peninsula are the parents of our chickens. These birds are still numerous in India and Cochinchina and are often domesticated by the natives. They cross readily with the common barnyard fowls of all kinds and produce fertile offspring. The male jungle fowl can and does crow exactly like a bantam rooster and they resemble domesticated chickens.

Ques.—I have read that Christ was born before the Christian era. How could this be? Will you please tell me the exact date in terms of our present calendar.

Ans.—You should remember that the Christian era was first figured out in about the year 532 by a monk. At that time the actual date of Mr. and Mrs. Christ's birth was a matter of speculation. Later, when the calendar took a more definite form, the birth of Christ was fixed for the twenty-fifth of December, but it was found impractical to change the date of the year, which was already well established. As a matter of fact, it is now

believed that Christ was born three or four years before the beginning of the present Christian era, and because this time was never changed, we have the anomalous fact that Christ was born about 4 B. C.

Later, when the calendar took a more definite form, the birth of Christ was fixed for the twenty-fifth of December, but it was found impractical to change the date of the year, which was already well established. As a matter of fact, it is now

ing his new farm residence presented him a chair.

Chelsea will hold the only fair in Washtenaw county this year.

Jacob B. Andres

Deputy Sheriff

who is seeking the Republican nomination as sheriff, has been identified with law enforcement activities in Ann Arbor and Washtenaw county for 10 years.

Besides six years' experience as a patrolman and sergeant on the Ann Arbor police department, Mr. Andres has served under two sheriffs. For two years he was resident under-sheriff under Sheriff Ernst M. Wurster and when there was a change in administration he was retained by the present sheriff, James W. Robison, in the capacity of resident deputy. He has held this position for the past two years.

Having been born and raised on a farm, Mr. Andres is thoroughly familiar with the problems of rural residents and, with his experience, is in a position to extend the type of service demanded by the agricultural districts.

He is 41 years old and his family consists of his wife and three children. If elected Sheriff, he will continue to live at the jail, where he will be available at all times.—Political Advertisement.
