Included in the circuit are Ann Arbor, Jackson, Albion, Chelsea, Manchester, Saline, Saline township, Dexter, Freedom and Rogers-Corner. Lansing also was represented in the conference.

The opening session was held at 9 a. m. Tuesday, Rev. C. H. Wittbracht of Saline having charge of the devotional service. Rev. W. H. Alber, pastor of St. John's church, gave the address of welcome. An important feature of the program was an address, "The Church at Work," by Rev. F. Goetsch of St. Louis, Mo.

A song service, led by Rev. P. H. Grabowski of Chelsea, opened the afternoon session, after which sectional conferences were held, with the following leaders in charge: Rev. H. Von Rague of Manchester, Mrs. Wilbur Hinderer of Chelsea, and Rev. A. P. Harst of Lansing. Mrs. F. Goetsch of St. Louis, Mo. was the principal speaker at the afternoon session.

Tuesday evening, screen pictures were given by Rev. H. A. Feierabend, a missionary to India, portraying conditions in that country.

Rev. O. Popsdorf of Saline township led the devotionals at the opening of the Wednesday forenoon session. "The Church and the Kingdom," was the topic of an address given by Rev. Theo. Eisen, of Andrews, Indiana, president of the Michigan district.

Reports of groups and committees were given, followed by election and installation of officers, as follows: President, Rev. W. H. Alber, Jackson; Vice President, Rev. P. H. Grabowski, Chelsea; Secretary, Mrs. A. Landwehr, Manchester; Treasurer, Mrs. H. Marx, Manchester.

### Supervisors Convene For October Session

The Washtenaw county board of supervisors met Monday in Ann Arbor for their annual October session. Several requests for appropriations for various institutions were placed before the board at the opening session, to be acted upon later. The report of County Clerk C. L. Pray showed that a grand total of \$23,078.70 in fees had been received during the past year.

One of the first actions taken by the board was a vote to cut their salaries from \$7 to \$6 per day. In addition to the salary cut, the morning session gave many other indications that the October meeting will be marked by an effort at rigid economy.

At the Wednesday session of the board, Miss Josephine Hoppe of Sylvan was re-elected as a school examiner to succeed herself.

### Standard Adds New Feature

As the season of many and varied social activities approaches, many of our readers will no doubt want to "brush up a bit" on the rules of etiquette and for their convenience a new feature, "Modern Etiquette," by Roberta Lee, will be published in the Standard each week, commencing with this issue.

If you care to secure the correct information as to how to make a formal introduction, when to wear hair ornaments, whether or not to wear a hat to a wedding reception, etc., read this feature, which will be found on another page.

Questions pertaining to the different rules of etiquette are asked, and, for your convenience, the answers are given in the same column.

### Chelsea Takes Second League Victory Friday

By Alvin Schiller  
Chelsea defeated Dundee, 13 to 0, in a game played there last Friday afternoon.

Dundee opened the game with a few bad breaks, which Chelsea did not fail to take advantage of and pushed the ball over for the first touchdown. The second period saw Chelsea open up on a few passing plays which, combined with line plays, netted them another touchdown. The period ended with Chelsea just a yard from the goal.

Dundee came through with some very good football in this game, not only defeating but outplaying one of the strongest teams in the league.

This week Friday Milan will come over here to play. They are considered to be as strong or probably stronger than Chelsea and from all appearances promise to put up a good fight.

## THIRTY-FOUR YEARS AGO

Thursday, October 15, 1896  
The Chelsea fair was not a financial success. The exhibits were exceptionally fine and the last two days of the fair were satisfactory.

Born, October 3, 1896, to Mr. and Mrs. L. K. Taylor of Detroit, a son, Mr. Taylor is a son of Mrs. J. C. Taylor of Chelsea.

Adolph Heller was knocked down by one of the trotters at the fair Friday while he was crossing the race track. It was a narrow escape for the boy, as the horse's hoof hit him a severe blow.

The Waterloo correspondent of the Standard says: "Now that we have a new preacher, it is hoped some of the neighborhood quarrels will cease."

Mr. and Mrs. W. J. Howlett of Lyndon are making arrangements to move to Ann Arbor. Ernest Rowe will work the farm.

The Lima Center band furnished the music for a political meeting in Dexter, Saturday night.

Mrs. John Wheelock of Lima Center is confined to her home with a broken leg, received when she fell.

A new postoffice, named Eckert, has been established in Freedom. The mail will be brought from Bridge-water station three times a week.

**HOWELL**—Despite one of the worst seasons for road building and maintenance work the Livingston County Road Commission and its efficient engineer, W. J. Slavin have worked well and painstakingly to accomplish their work. In face of the dry weather and its handicap all along the line, the seventeen miles of county road construction on the program for the year are nearly completed.

How Old Are You?

My Friends: Correct Your Eating Faults and Lose Your Fat With Kruschen Salts

Yes! I'm forty-five today—built like a race horse, my friends say—and I know I feel 10 years younger than I did three months ago—and I'd hate to tell you how much fat I lost with Kruschen.

I call Kruschen Salts the "magic salts" because when I was fat and wretched, despondent and half sick all the time—it took only one bottle that I bought for 85 cents at H. H. Penn's drug store to—live me up—put ambition and energy into me—make me feel years younger and with the help of a change in diet show me how to lose the fat I was so ashamed of.

Cut out pastries and desserts—go easy on potatoes, cream, cheese, and butter—eat lean meat, chicken, fish, vegetables and fruits and never fail to take one half teaspoonful of Kruschen Salts in a glass of hot water before breakfast every morning.

Every drug store—worthy of the name—in the World sells Kruschen Salts—an 85 cent bottle lasts 4 weeks—not much to pay for buoyant health.

Make It A Habit To Meet Your Business Friends Here

## One grand and glorious feeling!

HERE'S by far the simplest (and most effective!) home remedy for the languid, cross, damp feeling that comes after a morning's housework. Doff those sticky garments, step under a shower spray, turn on a tropic stream and behave like a dolphin at play. Lather up 'til your skin feels like a fine satin, drench yourself 'til you glow, then switch to cold! Away goes the last of the "damps"!

HOT WATER is much more than a cleansing agent. It's a tonic, a sedative and a beautifier. HOT WATER should be just as accessible to you as fresh air—ready whenever you are. You can have it that way with a Self-Action Gas Water Heater. Built like a huge thermos bottle, a Gas Heater brings an instantaneous supply the whole year 'round—for a few pennies per day per person. Phone our Water Heating Department for full information.

## Byrd Adventure Is Seen in Real Detail

Daring South Pole Flight One of Wonders of Princess True-Life Feature.

## The Daring Flight of Rear Admiral Richard E. Byrd across the South Pole is only one of the feats of daring and heroism captured by the

Paramount cameraman who brought "With Byrd at the South Pole," a thrilling picture of adventure, to the United States. The feature film, which will show at the Princess theatre, Friday and Saturday, October 17 and 18, is a continuous drama, filled with adventure, humor, thrills and romance.

Never before has such a colorful pictorial record been spread on the screen. More than 30 miles of film were required to perfect it. From the moment Rear Admiral Byrd and his intrepid band of explorers landed in the unknown region at the "bottom of the world," until they started the final trek for home, the life they lead, the sights they saw, the thrills they experienced are in this film for everybody to wonder and marvel at.

## Byrd's race to the South Pole was a race against time, the terrific cold and the appalling terrors of the Antarctic winter. For seven weeks the adventurers waited while cloud and fog blanketed the sky. Then came twenty hours of clear weather, and in this twenty-hours, Byrd, with three companions, made the daring flight across the pole and back to the comparatively safe base. They covered

a distance of 1,080 miles and, during the flight, faced dangers such as few men have lived through.

Even before this thrilling race started, the Byrd men had to win a race against the terrific cold. The plane had to be made ready. Engine oil, always removed at the end of a flight to keep it from congealing in the crankcases, had to be heated to a boiling point in one of the houses. The airplane motors, covered with thick canvas hoods, were heated by means of gasoline torches placed under them. It took two hours to bring the engines to the proper degree of heat to take the boiling oil. The temperature was 55 degrees below zero.

## When the motors were warmed, a shout was sent for the oil man.

Such incidents, exciting and real, are parts of the picture Paramount has captured, "With Byrd at the South Pole." Willard Vandervoer, Paramount cameraman with the expedition says "It was an amazing experience to live through. Now, when I see it on the screen, it is more amazing than ever."

## No Hope For Them

While yet the lamp holds out to burn,  
The vilest sinner may return;  
But vilest sinners sneak about,  
Determined still to turn lamps out.

During recent excavations at Jericho some ancient lamps were found. It isn't necessary, however, to go as far as Jericho to find lamps that should have been replaced by new ones long ago.

Do you keep extra lamps in the house? It's a good thing to do—saves having to take a lamp from one socket to put it into another.

By buying a carton of six lamps they cost you one dollar and eight cents—light up.

## Question And Answer Dept.

Ques.—Will you kindly answer if the president's wife has to pay post on her mail, or does it go free?

Ans.—There is no authority of law giving the wife of the president the use of mails free of postage. She is obliged to use stamps.

Ques.—How long are legal documents kept? Can you tell me in your question department which is the oldest one in existence?

Ans.—No legal documents are purposely destroyed. They are preserved indefinitely. The oldest one we have any record of is now in the University of California. It was on a tablet found by Prof. Lutz in Mesopotamia. It contains the verdict of a legal case rendered about 2,200 years B. C. It shows that the accused, who was a feudal, had shown insubordination to his lord's son. When he was brought before civil court it was found that the court did not have jurisdiction over a feudal subject.

Ques.—Will you be kind enough to answer in your question column what language is spoken in Brazil?

Ans.—Many languages are spoken there, but the prevailing tongue is Portuguese. Brazil was settled by the Portuguese.

Ques.—I wish to know what will kill onion breath. I am passionately fond of onions, but hate to eat them, because they are so offensive to others. Can you please tell me?

Ans.—Try a cup of strong tea without milk or sugar. We believe you will find it will help you out of your worry in this matter.

Ques.—I have been in Washington several times and I have noticed that sometimes the American flag flies over the White House, and some times it does not. Can you tell me why it should not be up all the time?

Ans.—The flag flies over the White House daily from sunrise to sunset when the President is in Washington. When he is out of the city the flag is taken down.

Ques.—Is it customary and conventional for women to go to prize fights?

Ans.—Well, we know they have bridge parties.

Ques.—To settle an argument will you please state which animal has the longest and shortest gestation period?

Ans.—The elephant is the longest with two years gestation, and the rabbit is the shortest, with 30 days.

Ques.—I am told that radio is instantaneous—that is, the instant it is broadcast in New York it may be heard in California at the same time. Is that a fact? If not, how long would it take a radio message to reach Mark?

Ans.—Radio is practically instantaneous. Radio messages travel at the rate of 186,300 miles per second. If it were possible to establish radio communication, it would take 4 minutes and 21 seconds to reach Mars. For radio to reach Alpha Centauri, a fixed star it would require 4 years, 4 months, 19 hours and 12 minutes to get there, traveling at the rate of 186,300 miles per second.

Ques.—Can you give me a sentence of about eight or ten words which takes in every letter of the English alphabet?

Ans.—There are many such sentences; the most common of which is: "The quick brown fox jumps over the lazy dog."

Ques.—I want to ask in your interesting question column which are the biggest snakes when full grown—the boa constrictors or the pythons?

Ans.—The boa constrictor rarely grows to be more than fifteen feet long, while the python of Africa and India will attain a length of thirty to thirty-five feet.

Ques.—I wish you would settle a dispute as to whether corn is the fastest growing plant known?

Ans.—Corn is not the fastest growing plant. Bamboo holds the record for quick growth. It has been known to grow two feet in 24 hours.

Ques.—I was born on October 20, 1889. Will you kindly tell me on what day of the week I was born?

Ans.—You were born on Sunday.

MILAN—Asking an injunction restraining the defendant from levying any reassessment tax on the Mills drain in Augusta township, a bill of complaint has been filed in circuit court in the case of Floyd Baker, against Clayton E. Deake, Washtenaw county drain commissioner. The plaintiffs' complaint states that those bringing suit are all taxpayers residing in Augusta township and that they believe the defendant has made a reassessment of the said district in this amount of \$880, said action being contended by the plaintiffs as unlawful and having no statutory authorization.—Leader.

## Standard Oil Starts New Ad Campaigns

Autumn campaigns to advertise premium gasoline and new motor oils have been started by the Standard Oil Company of Indiana. Large ads will be used in more than 1,550 newspapers in thirteen middle west and Rocky Mountain states in this major undertaking to assist marketing by use of newspaper space.

The advertising of gasoline will undertake to impress on the motoring public the great success the company has achieved in sales of its premium product, New Red Crown Ethyl, and will feature the endorsement the product has received also from independent dealers who are handling gasoline on a reseller basis. "Amazing Acceptance," "First in the Field," and "Evidence" are to be catchwords of the campaign.

The motor oils advertising will consist of a series of ads which will strikingly picture and explain the ability of the winter grades of the new oils to flow at freezing temperatures when other oils tested remain solid.

Spring and early summer advertising smashes, coupled with vigorous selling effort, have greatly increased popularity of the premium gasoline, Red Crown Ethyl. The new oils, Iso-Vis and Polaring, have also achieved an outstanding success on the market.

Their cars have radio receivers all tuned to the Lansing station. Tuesday evening two troopers got a call while riding between Napoleon and Brooklyn and at once stopped here to report by telephone to the Jackson department.

When sent on a trouble call if the troopers do not report within a reasonable time all the force in this part of the state can be notified by radio in a very short time.—Exponent.
