Local Youth Jailed For Attempted Theft

Raymond Jones is being detained at county jail as the result of an attempted theft Saturday night of an automobile belonging to Lawrence Wacker. Young Jones stole about \$25 from his father Saturday afternoon and was being sought in Chelsea Saturday night by Deputy Sheriff Wm. Atkinson when the attempted theft was reported by Wacker. Jones was trying to start the Wacker car, which was parked in front of A. B. Clark's store on Park street, when detected by Wacker. Jones escaped but was arrested by Deputy Atkinson soon afterward on Main street and was taken to Ann Arbor where he is awaiting sentence.

Sophomore Play Given At Chapel

Sophomores of Chelsea high school presented a play, "Sauce for the Goolinga" at Chapel, Tuesday morning, under the direction of Miss Pollock. Parts were well taken. Following is the cast of characters: Richard Taylor, Father—Willis Heydlauff.

Margaret Taylor, Mother—Verna Adams.

Robert Taylor, Son—Harold Crafts.

Elizabeth Taylor, Daughter—Jennie Scrippler.

Martha Lee, Grandmother—Anne Geddes.

James Ward, Son's Friend—Louis Bycraft.

A. Maid—Luella Huston.

This play is about a refined, cultured family by the name of Taylor whose chief concern is their two children, Robert and Elizabeth, who as college students are victims of "College Slang." To break them of the habit of poor English, we find Mr. and Mrs. Taylor are finally forced to take drastic measures on an evening when Robert is entertaining a guest from school. The result is more or less humiliating to the young people but from the parents' standpoint, the experiment is a great success.

OOSTERBAAN SPEAKS AT BANQUET HONORING CHELSEA HIGH SQUAD

One Hundred Twenty-five Attend At Fair Arranged By Local Kiwanis Club.

The football squad of Chelsea high school were guests at a banquet given by the local Kiwanis club at the public school auditorium Tuesday evening. About 125 were in attendance at the event, those present including a number of parents of members of the squad, as well as several local football enthusiasts. The banquet was served at 6:30 by Wm. Kolb, local caterer.

H. D. Witherell, vice president of the Kiwanis club, called the meeting to order, and the invocation was given by Rev. F. I. Walker. P. F. Niehaus led the group in singing at intervals during the banquet.

Following the banquet, Howard Holmes of the Kiwanis club was introduced as chairman of the program, who in turn introduced Kenneth Bench as toastmaster. The toastmaster introduced members of the 1930 team, and Donald Irwin presented the 1931 team. Interesting talks were given by Andrew Eppler, Dudley Holmes, Russell McLaughlin, and Robert Foster of the 1930 team, and Conches Bledeweg and Spaulding also gave short talks.

Mr. Dunning, of the Lincoln Consolidated school, president of the Huron Valley League, was then introduced and presented the League trophy to the local team, and Mr. Hewins, business manager of the Ypsilanti Press, presented the Ypsilanti Press trophy. Howard Holmes, Jr., captain of the team, gave a short speech of acceptance. The latter trophy will become a permanent possession of the team in the League winning first place in three major sports, including football, basketball and track. Chelsea has the honor of winning first place in football.

The program was again turned over to the chairman, Mr. Holmes, who introduced Benny Oosterbaan, assistant football coach at the U. of M. and former football, basketball and baseball star at the institution. Mr. Oosterbaan gave a very interesting talk on "The Spirit of the Team," stressing the spirit of cooperation, unselfishness, loyalty and right spirit. He gave several illustrations of his personal experiences.

The last feature of the program was presentation by Supt. E. L. Clark of gold football medals to Kenneth Beach, Donald Irwin, Dudley Holmes, Howard Holmes, Robert Foster, Albert Cooper, Jack Gilbert, Andrew Eppler and Warren Eisenbeiser, members of the squad who graduate this year. Mr. Clark also gave a talk on "Sportsmanship."

Mrs. Burkhardt and her daughter, Flora, were returning from a two weeks' visit at the Hawley home in Toledo. Miss Hawley was driving the car, which was wrecked. A peculiar incident of the accident was that three of the party were wearing glasses but none of them were broken.

To Present Handel's

"Messiah" Sunday

Dr. Earl V. Moore, Musical Director of the School of Music, Ann Arbor, will lead the entire University Choral Union and the student symphony orchestra of seventy players, in a presentation of Handel's "Messiah" at the last faculty concert preceding the holiday vacation, in Hill Auditorium, Sunday afternoon, December 14, at 4:15 o'clock. For this concert the entire May Festival stage is being constructed in order to provide facilities for seating the 350 members of the Chorus and the large student orchestra.

The solo parts will be sung by Laura Littlefield, Assistant Professor of Voice, a newcomer to the School's

faculty this season. Mrs. Littlefield is a distinguished concert artist and has won great recognition throughout the country particularly in the East, through her numerous engagements. She has sung many times with the Boston Symphony Orchestra and under other distinguished musical auspices.

Hope Bauer Eddy of Ann Arbor, former student of the School of Music, who is recognized as the possessor of a very fine contralto voice, will sing the contralto role.

Arthur Hackett, tenor, Professor of Voice in the School of Music, also a newcomer to the voice faculty this season but who is well known throughout the world of music, will sing the tenor role.

The bass role will be sung by Carl Lindgren, head of the voice department of the Michigan State Normal College, Ypsilanti.

The University Choral Union has been taught the choral parts under the leadership of Dr. Moore and is well prepared to give a fine performance. The School Orchestra is made up of a splendid group of talented young men and women, most of whom are enrolled in the School of Music, in courses leading to conductorship, etc. Altogether it is a most attractive assemblage of musicians.

The general public with the exception of small children will be admitted without charge. The public is respectfully requested, however, to come on time as the doors will be closed during numbers. On account of the large audience which is anticipated, so far as possible, the public is requested to come early in order that all may be seated on time.

Money and Guns
To Boycott Italy?
What Is Health?
The Worst Hatred

Two things are powerful in this country, money and sawed-off shotguns and other paraphernalia of the gangster.

Mr. Thaw escaped easily from the Matteawan hospital for the criminally insane some time ago. He had money.

From the same hospital recently escaped six supposed maniacs, some of them convicted murderers. Three gunmen released them, defying the state, overpowering the guards.

It is suggested that Mussolini may be compelled to take the advice of the big three concerning Italy's navy, etc., by cutting off her credit. The big three, as you know, are France, Great Britain and the United States.

If they arrange, as suggested, to refuse all loans to Italy, Mussolini might find it difficult to survive.

On the other hand, something might happen that would hurt the feelings of the big three considerably more than Mussolini's Italy has ever hurt them.

With Mussolini down, chaos, followed by anarchy and disagreeable consequences, might develop.

The big three should know that one Russia in Europe is enough at a time.

A girl from Iowa and a boy from Missouri are selected as the "healthiest boy and girl in the nation." The girl scored 99.7 out of a possible 100 points. The boy scored 98.7.

Such scoring, of course, means little. Life and health depend primarily on heart, kidneys, lungs and nerve force.

The lungs can be developed, heart and kidneys can be protected. Nervous energy can be built up somewhat, but you get most of it at birth.

Voltaire, as a baby, had fits, and if it hadn't been for a kind-hearted Catholic priest, who showed his mother how to take care of him, putting him in hot water when the fits came on, he would have died as a baby. Instead, having wonderful nervous force, he died in Paris long past eighty—after a tremendous triumph, in which one of his plays was produced. The populace took the horses from his carriage and dragged him home. He had worked furiously all his life. Health goes deeper than pink cheeks and sparkling eyes.

The worst of all hatreds is religious hatred. In one of the recently established Balkan countries four hundred students celebrate a gathering by beating with heavy sticks all the Jews they meet and smashing windows in stores owned by Jews.

A mob of 200 prevented the Catholic archbishop of Liverpool from entering Notre Dame convent to attend a prize giving. The convent windows are stoned, railings torn down and the archbishop pelted by the mob, but fortunately, he escaped serious injury.

A recent fire in a Catholic church in New York city is attributed to arson, as is another in New Jersey.

Lady Astor gives a party and invites only women, thirty-six of them, who, says she, are the thirty-six most important women in England.

And they are all workers in some field, scientists, doctors, government workers. Not one would be called by our American reporters "a society woman" or anything approaching it.

It would be interesting to print the pictures of those thirty-six women selected by Lady Astor and contrast with their faces the thirty-six most important women. If they could be identified, in the New York city's "four hundred" selected by Ward McAllister long ago.

Which set of thirty-six faces do you think would show the most intelligence?

Dr. Miller Reese Hutchison has a new invention, and Huxley, our greatest air pilot at the moment, is experimenting with it. The importance of this invention, if Doctor Hutchison's hopes are realized, cannot be exaggerated.

It will take from the fumes of gasoline the deadly quality that poisons the air in great cities, causing occasional deaths in closed garages.

Any workman fighting against improved methods in machinery or anything else fights against himself in the long run.

Similarly any individual that fights against a new idea also fights against himself.

In Britain's cotton industry, as in certain lines of work here, workers refuse to do as much or even half as much as they might do if they chose. They call this "helping the other man to get a job."

Mill owners in England offered increased pay to their workers, almost doubling wages, if the men would attend to eight looms instead of the usual four, which they could do quite well.

The men say "no." They want to do half as much as they can, so as to give twice as many men work.

That idea will keep them poor and force in machines that will do more than men ever dreamed of doing.

To fight progress is folly.

Bacteria May Give Butter Bad Flavor

Bad flavors in butter, which are sometimes called metallic, kerosene, weedy, or fishy, are not always caused by the agencies suggested by the names given to the flavors, according to members of the bacteriology department at Michigan State College.

While poorly timed utensils may re-

sult in imparting a metallic flavor to the milk products kept in them thru the formation of iron or copper lactate, it is possible to duplicate most of the bad flavors sometimes found in butter by adding bacteria to the butter or to the cream from which it is made.

The presence of bad flavors reduces the grade of the butter to a point where its value is much less than the cost of producing the cream from a minimum

from which it is made, and poor but-ter always results in dissatisfied consumers who may buy substitutes at their own experiences with a poor dairy product.

The use of properly tinned dairy utensils and the protection of cream and butter from contamination with undesirable microorganisms will reduce cases of bad flavored butter to a minimum.

Seedless Oranges
The original seedless oranges were produced in Brazil by means of budding and the orange trees of this type in the United States all descended from two imported Brazilian trees. Buds or budding sticks are taken from seedless orange trees in spring or fall and inserted in two-year-old seedling orange trees of ordinary type. When the buds send out shoots the seedlings are cut back so that only the budding portions develop.

What First Christmas

By Katherine Edman

OVER Judea the night clouds had fallen,
The wide-spreading country lay quiet and still.
And all were at rest save a few humble shepherds
Who herded their flocks on a far lonely hill.

THEN on the stillness there came strains of music,
Songs that never had fallen there before.
Over and over the glad news repeating:
"Earth can rejoice, for the long night is o'er."

MAN from his bondage of darkness and doubting
Now can be free, for a Savior is born,
God has come down from the glory of heaven,
To bless and to gladden the earth on this morn.

OVER in Bethlehem, hallowed forever
Because he has chosen the place for his birth,
There, as a baby, lies Jesus the Savior,
Lord of the heavens and Lord of the earth.

HE, who could come on the wings of the morning
In power and splendor, to palace or hall,
Has chosen the humblest and poorest of dwellings,
A stable in Bethlehem—a cold manger stall.

HE who is mighty beyond any telling,
Whose hand guides the sun and the stars on
their way,
Has come from the glory and splendor of heaven
For love of mankind on this glad Christmas day.

THRILLED by the message, the shepherds stood
watching,
Awe-stricken, speechless, they gazed at the sight,
Listening enchanted as angel songs echoed
Over the hills on that wonderful night.

HE, too, can hear the glad songs of the angels,
And feel their deep music so true and sublime,
If we open our hearts to the beautiful message,
To the joy and the peace of this glad Christmas time.

BIGGER AND BETTER

THE NEW CHEVROLET SIX

Strikingly beautiful, fleet and smart
—a masterpiece of Fisher styling

Never has the superiority of Body by Fisher been more strikingly exemplified than in the Bigger and Better Chevrolet Six! With the added advantage of a lengthened wheelbase, Fisher designers have achieved in the new Chevrolet an impressive degree of smartness, comfort and luxury.

Inside and out, scores of refinements stamp this car as a masterpiece of modern coachwork. Radiator, headlamps and tie-bar form an unusually attractive and distinctive ensemble. Mouldings sweep back in an unbroken line to blend with the smart new body contours. And new color combinations lend a new individual-

ity. Interiors, too, are exceptional. The new mohair and broadcloth upholstery is smartly tailored. Seats are wider and more luxuriously cushioned. A deeper windshield and wider windows give better vision. And beautiful new modern fittings lend a final note of charm.

Many mechanical improvements are also evident in this Bigger and Better Six. Among these are a stronger frame, easier steering, a more durable clutch, a quieter, smoother transmission, and important engine refinements.

The Bigger and Better Chevrolet Six is now on display. See it today—drive it! It is the Great American Value!

OUR NEIGHBORS

MASON—Ingham county now has direct connection with the state police at East Lansing and the city police departments of Detroit and Flint through radio connection. A receiving set was installed in the Ingham jail Wednesday. The set placed in the Sheriff's office is paid for from State funds.

PINCKNEY—An independent basketball team has been organized among former high school players here and will open the season here Dec. 11 with the Howell American Legion team as their opponents. Games are also being scheduled with Dexter, Webberville and the Blazing Arrows and Broadway Leaders of Ann Arbor.

MILAN—As in the past, the local Post of the American Legion will again this year, carry on the relief work among the poor and needy and play Santa Claus to the underprivileged children of the community. Only slight changes in the program of the past years are contemplated this year. The Auxiliary Unit of the Post is already making plans to make scores of bright red and green stockings to be filled with candies and nuts for the children of the community who otherwise would not know the meaning of the holiday spirit.

A request that the state construct a double slab superhighway on U. S. 112 Michigan Avenue, from the Wayne County line west to the City of Ypsilanti instead of relocating U. S. 12 between the two points was made to the state administrative board Monday of last week by a delegation of Ypsilanti citizens. The board took the request under advisement.

MANCHESTER—More of the

farmers in this vicinity are taking advantage of Consumers Power electric service and find that it is a great improvement. The company has experienced workmen extending the lines in every direction, except east and the Edison Company are supplying the demand in that direction.

GRASS LAKE—The eve of Dec. 24 is the date set for the observance of Christmas in the Methodist Sunday school.

NORTHVILLE—Detroit police on Monday noon of last week frustrated what promised to be a double bank hold-up in Northville. Through a tip received by William Collins, a member of the hold-up squad of the Detroit force, six men were arrested and are held pending an investigation into their activities. The gang planned to drive to Northville, park their cars in such a way that both banks could be robbed, then drive out the North road to Pontiac where they would meet again and divide the loot.

BROOKLYN—Brooklyn Boy Scouts will again distribute baskets of Christmas cheer. Contributions of groceries or cash may be left at the Rexall Store or the DuBois store and the Scouts will do their part in seeing that they are well distributed in the right places. The boys say that if anyone will turn in toys that may be slightly worn or marked they will put them in repair and pass them to children who will enjoy them.

DEXTER—Surveyors are at work on the new county road from Steinbach's corner west past the town line. It is expected that work on the road will start April 1st.

Muriel Koon Cherriman

FIX-IT and "Santa Claus" were among the names affectionately given to Ray Charlton by intimate friends, for obvious reasons. This car full of young folks on their way to a neighboring town, however, thought they had him stumped, for the car seemed hopelessly delayed in a line of vehicles buffed by a washout ahead.

"Now, Mr. Fix-It," challenged Muriel, when they found there was nothing to do but wait for the repairer to get the road passable; and another added, "Yes, Santa Claus, what are you going to do about this Christmas party? It looks as though we wouldn't get to the Merrell's until Christmas day is over."

"You folks just wait," said Ray, stepping out into the sloppy road, and disappearing behind the car at their rear.

When he returned, his trousers were covered with spruce, fir, and several red and green bundles. Picking the fir branch into the cigarette holder of the car, he produced three miniature candles which he attached to the tree and lighted. Disappearing again, he came back, chanting, "Jingle, jingle, Ho, there! Make way for Father Christmas!" Re-entering the car, he distributed his gifts.

The girls uttered surprised exclamations on receiving dainty little boxes of face powder; two of the men had packages of cigarettes; and the one who didn't smoke, a handkerchief bearing his initial—all attractively wrapped in colored paper.

"Now," announced Ray—"music and dancing, and then refreshments," with which he produced a pocket comb and piece of paper for orchestra, and made them all rise and do gymnastic exercises to timber and warm themselves. Then he passed a box of interlocking bars, sent by his California aunt, thanking his stars he had brought them along. The fun thus started kept up until the "Move on" signal really surprised them.

Once past the repaired washout and on their way, Muriel said: "Now, Santa Fix-It, tell us how you worked the magic."

"That was dead easy!" he laughed. "You can always find what you want if you look long enough. I'd noticed something green by the road, and after I'd munched along back a few rods, I found it was a little spruce tree. I couldn't pull it up, but my trusty blade covered a branch, and—there you are!"

"But the candles and the cigarettes?"

"Yes, and the powder boxes, fancy paper and all."

"I simply collected those from the cars back of us. One man was a salesman, with a case of those boxes. A woman in another car had a lot of little candles for her kid's birthday cake, and also some bright paper. The cigarettes are my own, just done up fancy-like, and the hanky is, too—it was just my good luck that the non-smoker of the bunch has an initial the same as mine. The woman with the candles let me into her car and helped me do up the packages. That's all."

"But enough," murmured Muriel, "to prove that the Christmas spirit is still alive."

Early Buyers Get

Better Ewe Types

Ewes which are to be bought for Michigan farm flocks can be selected to better advantage now than later when the supply from which choice can be made is reduced by sales, according to the animal husbandry department at Michigan State College.

The purchase of ewes from flocks near the buyers' homes is recommended.

ed as the purchaser will save shipping charges and will be able to make a closer inspection of the animals he contemplates buying. Local sheep are also adjusted to that particular locality and will not be affected by the change from one place to the other.

The buyer should be a good judge of sheep to avoid the possibility of becoming the owner of ewes which are being culled out because of age or defects.

Two or three year old ewes usually are preferable. Less trouble at lambing time will be encountered with ewes of this age. A broody individual carrying a sound udder should be selected. A firm, dense fleece attached to a pink skin is an indication of hardness as well as of ability to produce a fair crop of wool.

Club's Worthy Idea

There are four divisions of improvement activity promoted through the 4-H clubs—head, heart, hand and health. These clubs are promoted among farm boys and girls throughout the country, under supervision of the federal government and various agencies of the Department of Agriculture and the states.

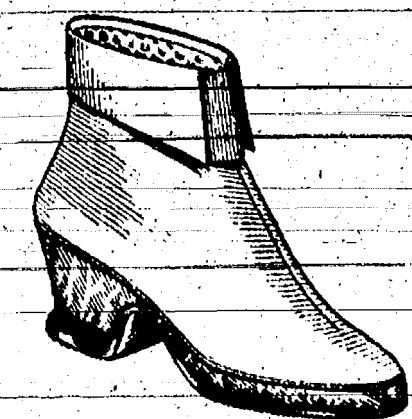

Balloons as Scarecrows

Gardeners on the outskirts of London are using balloons in place of scarecrows. The bags are inflated and attached to sticks in the ground at certain vantage points. A thieving bird, thinking the balloons are delicious " booty," peck at one. The pop-like explosion so frightens the feathered thief that it never returns.

Coal for Luck

The beggar who, when "up" at a London Police court, was found to have been carrying a piece of coal in his cap—"for luck"—is not alone in his belief in such a charm. ber. The new plan increases employ-
ment approximately 25 per cent,
former Kellogg employees and resi-

Oscoda County will have the young-
est register of deeds in Michigan after
Jan. 1, when Miss Viola Pauline Jones,
22 years old, of Reed City, takes
office. Miss Jones won over the in-
cumbent, Miss Ellen C. Anderson, in
the September primary, 1,808 to 900.
She was unopposed in the Nov. 4 elec-
tion. Miss Anderson was the first
woman in Oscoda County to hold a
county office. Miss Jones will be the
third woman to hold a county
office in Oscoda. The second is Mrs.
Edna Smith, of Ewart, elected school
commissioner in 1927.

Harold Lotridge, Owosso carpenter
and Sunday school superintendent,
paid a fine of \$50 and costs of \$3.30 in
Justice Court, for violation of the
State game laws. Lotridge took the
seal of a buck he had shot in North-
ern Michigan after getting it home,
and went back after another deer.
The seal is supposed to remain on the
deer until the carcass is disposed of.
It was Lotridge who supplied the tip
which led to the arrest of Adolph
Hotelling, of that city, the slayer of
Dorothy Schneider, of Flint, several
years ago.

More than \$13,000,000 is to be spent
by the Detroit Edison Co. for new
construction work during 1931, over
and above the huge sum regularly re-
quired for the maintenance and op-
eration of the company's present prop-
erty and equipment. Commenting on
the formal announcement made, A. T.
Marshall, vice-president and general
manager of the company, said: "This
statement speaks for itself and re-
flects our confidence in the future of
Detroit and Michigan."

For saving the life of a girl in Lake
St. Clair at New Baltimore last sum-
mer, Edward Walinski, 16-year-old
New Haven Boy Scout, has been
awarded the highest life-saving award
in scouting, a gold medal and a pro-
clamation from the National Court of
Honor. It is the first award of its
kind in Macomb County and the two-
hundred eighth in the United States.
Fewer than a dozen awards of this
kind have been made in Michigan.

The State's game and fish laws, ap-
ply to the Indians as to all other resi-
dents of the state, the Michigan Su-
preme Court decided at Lansing in
affirming the conviction of James J.
Chosa and Basil Affkins, members
of the L'Anas tribe of Chippewas. The
Indians were found guilty of illegal
fishing. Their defense was that an
old treaty with the Government gave
them the right to hunt and fish when
and where they pleased.

The quality of Michigan's pavements
during 1929 was guarded by 14,747
tests at the Michigan state highway
laboratories at the University of Mich-
igan, Professor W. J. Emmons, direc-
tor, stated at Ann Arbor. Ten years
ago only 2,102 samples were tested,
he said. The laboratory, started in
1912, has rapidly grown in importance,
until now all materials for road serv-
ices, culverts, bridges and fences are
tested at Ann Arbor.

If quantity production is the basis
upon which awards are made, Miss
Jessie Nickleson, 16-year-old daughter
of John Nickleson, of Free Soil, is
destined to become the champion can-
ner of the 4-H Club in Michigan. Dur-
ing the last year Miss Nickleson has
canned more than 600 quarts of fruits,
vegetables and meats. She has just

Two hundred dollars worth of black
fox fur was the luck of Alphaeus
Thomas, of Ironwood, when his auto-
mobile hit the animal as it tried to

Plans to send the University of
Michigan Glee Club of 35 men on a
tour of Europe, next summer, are be-
ing formulated at Ann Arbor "with the
indorsement of Dr. Alexander G.
Kutner, president of the university,
and Wilfred B. Shaw, director of
alumni relations. While the mem-
bers of the club would give several
concerts in London and in the prin-
cipal cities on the continent the tour
would be primarily of an educational
nature. Six members of the faculty
would accompany the boys and lecture
informally on the points visited.

Three years ago the Supreme Court
gave the state title to all relicted land
on the Great Lakes and the inland
owners, who had believed they had
owned these thousands of square miles
of resort property, raised an outcry
that has continued since. Recently at
Lansing, the same court reversed the
previous ruling and returned the land
to private ownership and it was the
state's turn to become embarrassed.
For Grand Haven state park is on re-
licted land. There are no "upland
owners" as back of the park are city
streets and city lots.

A receivership has ended an experi-
ment in large scale farming in Len-
awee County, conducted during the last
two years by the Farm Operating Cor-
poration, of Adrian, under the man-
agement of A. B. Van Scholk, former
Lenawee County agricultural agent.
Farm acreage was leased in Raisin
and Ogem Township and cropping
conducted in large fields under sci-
entific methods with heavy machinery.
Grains of superior grade were raised
and sold as seed at top prices, but
the returns failed to cover operating
costs.

Route 5, Mt. Clemens, and his four-
year-old son, Norman, were instantly
killed when they were struck by an
automobile driven by William Stew-
art, 35 years old, Detroit. A man
named Halmich, Wancour and his son
were standing at the rear of the Hal-
mich truck when Stewart, driving
north on the Schoenher road, crushed
Wancour and his son. Halmich was
only slightly hurt. Stewart said he
had fallen asleep while driving just
as he struck the two men and the
child.

More than 300 representatives of
Michigan sportsmen's and conserva-
tion organizations met in Lansing re-
cently to discuss proposed changes in
the State's fish and game laws and
went on record as in favor of a law
depriving any hunter of his hunting
license for a year in the event he is
found guilty of causing the death of
another hunter through careless use
of firearms. The sportsmen met with
various members of the House and
Senate. Of 16 subjects discussed, not
one was indorsed unanimously.

amalgamating the Newberry State Hos-
pital, payment by the State of money
owed county tuberculosis sanator-
iums, uniform wolf bounties in all
counties, and an act to provide more
money for advertising the Upper Pen-
insula to tourists were adopted at Mar-
quette at the fourth annual meeting
of the Upper Peninsula Supervisors'
Association. The 1931 meeting will
be held in Ironwood.

That scores of muskrats found dead
in the marshes of Monroe County
were killed by pollution of the water
was indicated in a letter received at
Monroe by Brad Shinarump, deputy
State game warden, from E. C. Orlie,
assistant professor of forest zoology
at the University of Michigan. Mr.
Orlie said the muskrats were suffering
from a disease that came from pol-
luted food and drink and that the
condition of the water was the cause.

Work of raising the present federal
building in Detroit, to make way for a
new nine-story structure on its site
will start in approximately two
months, Postmaster Charles G. Kel-
logg said, after a conference with
F. M. Williams, national postal en-
gineer. Kellogg estimated it will take
another two months to wreck the
building and said progress on the new
\$5,600,000 building should be well
under way by spring.

The Farmers and Merchants Bank
at Jasper, in Lenawee County, a pri-
vate banking institution owned by
Charles L. Robertson, has been closed
for the purpose of liquidating the
business. All depositors will be paid
in full, Mr. Robertson announced. The
cause of the closing is the desire of
Mr. Robertson to retire. Michigan law
forbids the sale of a private bank.

Beauty Never Silent
The beauty of nature, the poetry
of life, will speak to us in whatever
materialistic surroundings, even as
the bush breaks forth in blossom in
whatever dingy backyard and the
flower springs up in whatever neg-
lected grassplot. —Washington Post.

Safe Prescription.

Here's a doctor's prescription called
Thoxine that is really throat insur-
ance. Its success is due to its quick
double action. With the very first

stops the coughing. It goes direct to
the internal cause.

The remarkable thing about Thox-
ine is that while it relieves almost in-

My First Christmas Tree

Now, King and Queen,
Take notice please.
If you'd have a peaceful reign,
Be sure you pick a land like mine,
That all the world proclaims.

Not my domain under a tree
Whose boughs are a glittering cheer,
Where hope and peace and love and joy
And little cats frolic about in the toys.

This is my first Christmas tree.
And its tinsel boughs hang full
Of goodies from most every land,
And little lambs of wool.
My Grandma says "I'm King today."
Under my Christmas tree.
God send his sweetest comforts,
To Grandma and to me.

Ans.—Columbus landed in America on Oct. 12, 1492, which was on Thursday.

Ques.—Why do the wets do so much worrying about the country being dry?

Ans.—It's not that they're worrying because the present supply of water is so low.

Ques.—When did Napoleon the Great abdicate the throne of France, and why?

Ans.—Napoleon I was forced to abdicate as emperor of France in 1814 by the Allied Powers, who exiled him to Elba. After a year he escaped and returned to France to again war on the Allied Powers. After six months war he was overwhelmingly defeated at Waterloo, was captured and banished to St. Helena, where he spent the remainder of his life.

Ques.—Why did Germany war on little Belgium when they were after France, and no war was declared?

Ans.—On Aug. 2, 1914, Germany demanded free passage of its armed troops through Belgium in their march on France. Belgium refused in order to maintain their neutrality. A German invasion began on Aug. 7, and

this invasion was the equivalent to a declaration of war.

Ques.—May I ask in your question column if St. Peter was ever Pope of Rome? If so, when was it?

Ans.—St. Peter was the first Pope of Rome. His pontificate was from A. D. 30 to A. D. 67.

Ques.—Can you answer in your question department how Caesar died, and how old was he?

Ans.—Hardly. They seem to believe in "open shops."

Ques.—To settle an argument I want to ask you who commanded the Union and Confederate forces at the Battle of Gettysburg in the Civil War?

Ans.—The Union forces were commanded by General Meade, while the Confederates were under General Lee.

Ques.—Will you please tell me where George Washington was born? Also the day and date?

Ans.—George Washington was born on Saturday, Feb. 22, 1732.

Ques.—What is the difference between a parable and an allegory?

Ans.—A parable is a concrete example of a spiritual truth, while an allegory is a concrete story to illustrate abstract truths, but more extended than a parable. An allegory

gives a detailed description of one thing under the image of another.

Ques.—Will you kindly tell us in your question column the correct pronunciation of the words "algebra" and "column"?

Ans.—"Algebra" is pronounced as though it was spelled "al-jebra," with the "u" short as in "duck." "Column" is pronounced "col-um," not "kol-um," which is a common error.

Christmas Time Advice

Martha Banning Thomas

There is a custom, said the oak,
That ancient tree who seldom spoke.
"At Christmas time for men to hew
The spruce and pine and hemlock, too,
"Down to their roots with saw and shout
And drag them through the woods and out."
He paused, and rustled through his leaves
(Now old and thin) like one who grieves.
While spruce and hemlock whispered low
Among themselves—"And you must go
"Away from this familiar place
To entertain the human race."
"They'll set you up in street and store
In huts, hotels and mansions for
"The children's pleasure. They will trim
Each tiny branch, each sturdy limb.
"Instead of snow, your green will wear
Tinsel and baubles everywhere.
"Instead of stars, your eyes will see
Electric bulbs... but you must be
"Patient and strong: your boughs will sag
Under their gifts: your arms will drag.
"Down to the floor, and night and day
You'll have no rest in any way.
"You must endure the thirst for rain,
The need of night, the aching pain.
"Of loneliness," thus said the oak,
That ancient tree who seldom spoke,
"But here's one dream by which to live—
Think of the Christmas joy you'll give!"

CHRISTMAS

By EDWARD SANDFORD MARTIN
in Montreal Family Herald

THOUGH doubters' doubt and scoffers
And peace on earth seems still far off,
Though learned doctors think they know
The gospel stories are not so;
Though greedy men are greedy still
And competition chokes good-will,
While rich men sigh and poor men fret,
Dear me! we can't spare Christmas yet!
Time may do better—maybe not—
Meanwhile let's keep the day we've got!
On Bethlehem's birth and Bethlehem's star
What's our inspiration?
Where'er for us we run the line
Where human merges with divine,
We're dull indeed if we can't see
What Christmas feelings ought to be,
And dull again if we can doubt
It's worth our while to bring them out.
"Glory to God; good-will to men!"
Come! Feel it, show it, give it then!
Come to us, Christmas, good old day,
Soften us, cheer us, say your say,
To hearts which thrill, too eager, keep
In hands, while fellow-feeling sleeps.
Good Christmas, whom our children love,
We love you, too! Lift us above
Our cares, our fears, our small desires
Open our hands and stir the fires
Of helpful fellowship within us,
And back to love and kindness win us!

A MERRY CHRISTMAS

by Mary Graham Bonner

MERRY CHRISTMAS to each one
From early morn 'til set of sun,
Merry Christmas to you all,
Whether you are big or small,
Whether you are young or old,
Greetings to you often told
I must wish and wish again—
It's a happy old refrain.
May your Christmas be so jolly,
With greens and mistletoe and
holly,
With presents and a lot of cheer
And a following happy year.
Merry Christmas to each one
From early morn 'til set of sun,
Merry Christmas to you all,
Whether you are big or small.

IN MEMORIAM

In the loving memory of our dear mother and wife, Mrs. Geo. Haist, who died November 26, 1930:

We have lost our darling mother, She has bid us all adieu; She has gone to live in Heaven, And her form is lost to view.

Oh! That dear one; how we loved her, Oh! How hard to give her up; But an angel came down for her, And removed her from our flock.

Dear Mother, when the evening shades Have fallen and we are all alone, To our hearts there comes a longing, If you could only come home.

No one knows the silent heartache, Only those who lost can tell, Of the grief that's born in silence, For the one we loved so well.

Mother is not dead but sleeping, Tonight she sleeps beneath the sod; And in spirit has departed, To dwell above with God.

We miss her, Oh! so badly our hearts ache every day, And we often stop to wonder why Mother had to be taken away.

Though we feel she is happy, And we miss her from our home, Our lives have been so lonely Since our Mother died.

Oh! and oft our thoughts do wander To a grave not far away, Where we laid our dear mother, Just two weeks ago today.

Sadly missed by her husband and children.

BLESSED LITTLE CHRISTMAS TREE

MYRTLE KOON CHERRYMAN

SOME things at Christmas time are queer:

The skies are often dark as late,
The trees are bare, the hills are dead,
Yet faces are elate.

The cold comes down as though to kill,
And bodies feel the freezing storm,
Yet human hearts, amid the chill,
Were never quite so warm.

We love the tree, on summer days,
That gives a shelter from the heat
On street and lawn. We give our
praise,

And think it duly meet.

A pleasing dusk for you and me,
The ordinary trees have made,
But the blessed little Christmas tree

Gives light, as well as shade!
