Rev. F. I. Walker Goes To Flat Rock Charge

Coming as a surprise to the entire community, announcement was made during the past week that a change would be made in the pastorate of the Chelsea Methodist church, effective at once.

At a meeting of the official board of the church, held last Thursday evening, Dr. John E. Martin of Ann Arbor, District Superintendent, informed the board that Bishop Thomas Nicholson had authorized him to transfer Rev. Walker to another charge, although no information was given at that time as to where he was to be sent, or who would be sent to assume the pastorate of the local church.

On Tuesday of this week it was announced by Rev. Walker that he would be transferred to Flat Rock, a suburb of Detroit, and that Rev. Harry Felton of Flat Rock would come to Chelsea. The household effects of both families are being moved today and the pastors will occupy their new pulpits at regular services, next Sunday.

Rev. Walker has served the local church successfully for three and one-half years and he and Mrs. Walker have gained for themselves a host of friends who will regret to hear of their transfer from Chelsea.

BURGLARS ROB VOGEL & WURSTER DEPARTMENT STORE THIS MORNING

Merchandise Valued At Several Hundred Dollars Taken; Loot Includes Dresses, Overcoats, Suits, Etc.

Burglars entered the department store of Vogel & Wurster early this morning and took merchandise valued at \$800 to \$1000. Entrance to the building was gained by forcing the lock on a rear door.

Nearly all of the silk dress and kimono stock was stolen from the second floor, and about 20 pairs of shoes, 5 overcoats, suits, trousers, leather coats, the entire stock of wide sheetings and nearly all sheets and cases were included in the theft. The proprietors were unable to give an exact estimate of the amount of all goods stolen until they check their recent inventory records.

The thieves evidently made their get-away in a truck or automobile which they parked at the rear of the store as tracks in the snow indicate. In their hurry to escape with the loot a leather coat and a pair of trousers were dropped at the rear of the building.

According to Deputy Sheriff Atkinson, the burglary took place after one o'clock, as he made a trip through the alley at the rear of the store at that time. Employees at the bakery report that they saw a truck enter the alley about 4:30, which was no doubt the truck used by the thieves.

The only clue left by the burglar or burglars was a glove and a button. The sheriff's department is investigating the crime.

Frances Kantelehner 1931 Valedictorian

With a standing of 94.6 per cent for four years of high school work, Miss Frances Kantelehner, daughter of Mr. and Mrs. W. F. Kantelehner, will be valedictorian of the senior class at graduation exercises in June, according to an announcement made public by Supt. E. L. Clark this morning.

Miss Mary Jean Winans, daughter of Mr. and Mrs. E. E. Winans, will be salutatorian, with a standing of 94.1 per cent. Miss Leila Seitz, daughter of Mr. and Mrs. Adolph Seitz, is a very close third, with a standing of 94.06 per cent.

School Of Instruction Held For Fruit Growers

N. W. Laird, D. A. Riker, A. E. Winans, G. T. English, Elmer E. Smith, Albert Pfeiffer and Clarence Lehman were among those from this vicinity who attended a Fruit Growers' School of instruction and lectures on the care of orchards, held Monday at the Y. M. C. A. building, Ann Arbor. A Horticultural demonstration for this locality was held Tuesday forenoon at the home of Mr. Laird, conducted by Prof. Carinell of M. S. C. East Lansing.

CLUB MEMBERS TO MEET

Members of Poultry and Bean 4-H clubs are requested by Arthur Hagen, county club agent, to meet at the Chelsea high school at 2 o'clock Saturday afternoon. Products of the clubs, which will be exhibited at the State 4-H Club Show at East Lansing next week must be delivered here on Saturday.

MAKE LARGE SHIPMENT

The Central Fibre Products Co. of Chelsea, the first of this week shipped a full carload of wool twine to a dealer in Toledo. Two weeks ago they shipped a carload to Chicago. These two lots are the first carloads that they have sold to individual dealers since the plant was started.

SURPRISED ON BIRTHDAY

The sixty-third birthday anniversary of J. J. Bareis was the occasion of a pleasant surprise party which Mrs. Bareis gave in his honor Saturday evening at his home on Adams St. Lunch was served and the evening was spent playing euchre. Sixteen guests were present.

CELEBRATE ANNIVERSARY

Mr. and Mrs. Jacob Hummel celebrated their 44th wedding anniversary Sunday with a family dinner, at which were present Mr. and Mrs. Raymond Steele and daughters, of Detroit, and Mr. and Mrs. John Hummel and family of Chelsea.

CARD OF THANKS

We wish to thank the friends and neighbors, Rev. Henry Lenz, also Mrs. Oscar Kalmbach, Mrs. Emerson Lesner and Mrs. Walter Kalmbach, for their kind expressions of sympathy and acts of kindness in our recent bereavement.
Henry Kalmbach and family.

Red Cross Seeks Funds For Drought Sufferers

An appeal is being made by the local chapter of the American Red Cross for funds to aid the unfortunate sufferers in the drought areas of the United States. While Chelsea has no definite quota to raise, the committee is desirous of assisting in raising the Washtenaw county quota of \$1000, their share of the national drive for \$10,000,000.00 to alleviate suffering in stricken areas.

Those who heard the recent radio program, when President Hoover, Calvin Coolidge, Al Smith, Will Rogers, and even Amos 'n' Andy, appealed to the people of the nation for their support in the present crisis, will no doubt welcome the opportunity to do their bit. Intense suffering is reported in certain sections of the country, but with immediate action on the part of the more fortunate people, this suffering will be lessened greatly.

The Red Cross committee asks that contributions be taken to either of the Chelsea banks on Friday or Saturday of this week so that the fund can be sent to county headquarters without further delay.

Farmers Club Meets At N. W. Laird Home

The January meeting of the Western Washtenaw Farmers club was held at the home of Mr. and Mrs. N. W. Laird last Friday evening, with a good attendance.

Following the supper, a program was given, consisting of group singing, an interesting roll call, a reading by Mrs. A. B. Clark, "Old Time Songs," duet by Mrs. J. N. Dancer and S. P. Foster, and an explanation of the proposed County Health Unit by Supervisor Emmett Gibbs of Superior township.

The talk by Mr. Gibbs led to a heated discussion on the subject, despite the fact that, according to Mr. Gibbs, the Health Unit would be established without additional cost to the taxpayers of Washtenaw county. Opposition to inauguration of the system was decidedly in the majority. The matter will be taken up at the special session of the Board of Supervisors to be held in Ann Arbor next Monday.

Oldest Washtenaw Resident Succumbs

John Roberts, Dexter centenarian and the oldest resident of Washtenaw county, died Friday evening at his home in that village, after an illness of ten days. Mr. Roberts had attained the remarkable age of 101 years.

He was born September 25, 1829 in Cork county, Ireland, emigrating to Canada in 1841. He became a school teacher at the age of 16, remaining in Canada until coming to Washtenaw county in 1854. Since moving to Washtenaw, he had resided near Dexter.

Mr. Roberts had been married twice. He is survived by a daughter, Miss Katherine Roberts, with whom he resided, a son, James J. Roberts of Dexter, and several grandchildren.

Funeral services were held at 9 o'clock Monday morning at St. Joseph's church, Dexter. Rev. John C. Sullivan officiating. Interment was in St. Joseph's cemetery.

RECEIVE HEADSTONES

The local Post of the American Legion have received their first shipment of government headstones which they will place on graves of Civil, Spanish American and World war veterans whose graves have no markers. Legion men have made a thorough survey of the cemeteries in this vicinity and have asked for 12 headstones, all of which they expect to receive and have placed before Decoration Day.

ECONOMICS CLUB MEETS

The Lima Home Economics club held a very interesting meeting Wednesday afternoon at the home of Mrs. Jacob F. Alber, with 12 members and four visitors present. The lesson on "Planning of Meals and Making of Salads" was given by Mrs. Walter J. Beutler.

Still Gold to Be Found
Lady Shoots Lady
Wickham Report
To Detect Falsehood

There is still gold to be found, if you know where to look.

At Alamos, in the state of Sonora, where Governor Elias rules, an American, L. B. Patterson, bought an old mine from Felipe De Iza. After six months, discouraged, he sold the mine back to De Iza. The latter went to see what work Patterson had done, tapping a rock with a small hammer, uncovering a vein of gold now yielding \$2,000 a ton. But don't let that persuade you to buy stock in a gold mine. When it runs \$2,000 a ton they don't sell it.

A lady who lives in Oklahoma fired two shots into Miss Charles Curdell, aged twenty-eight, and Miss Curdell may die.

Jealousy sent the bullets on their way. Such incidents have been frequent since the day of 40,000,000 years ago, when Mrs. Big Tooth split the head of a younger cave lady trying to steal away her husband.

A jealous woman usually kills the other woman to save her husband. And that, although she doesn't know it, is done in obedience to Atavistic impulses to protect the children, who need a father.

The jealous husband often kills his wife. That is done to protect his important self-respect.

It is easier than killing the man, and he can get another wife without trouble.

Every newspaper, congressman, clergyman and at least 50,000,000 others have discussed the Wickham prohibition report. The discussion will continue, with minority members telling what they think. The fact is that the commission recommended by a majority vote, to do nothing except to spend more money on enforcement, which, according to the commission's unanimous opinion, does not enforce.

Chicago's police have a "lie meter," that, attached to the arm of a suspect under cross-examination, tells when he is lying. It works, because the human heart, not thought to lie, changes its rate and when the various processes of lying begin.

In India barbed wire natives using testimony, the wire straight away. But they twitch their big toes, and lawyers watch their feet. A well-known capitalist twitched his thumb when building at poker and lost large sums until he began holding his cards with four fingers, the thumb kept hidden.

Douglas Fairbanks has gone to India, taking letters from the Duke of Sutherland to the Maharajah of Mysore, and letters from other dukes to other maharajahs, princes and potentates, and a letter of credit, which is no particular secret, with a small red tiger from the back of a real elephant in the Mysore territory. His cameraman goes along and his director, to tell the tigers what is expected of them.

Distance lends enchantment, perhaps. It rarely creates indifference. Under the heading, "Millions Dead of Famine," you read six lines of Associated Press copy to the effect that in China's Shensi province alone 2,000,000 have died of hunger and 400,000 have been sold into slavery within a short time. Are we our brothers' keepers? Not if the brothers live 7,000 miles away.

Bishops of the English Episcopal church decide that prayer by radio is good, because it brings family prayer back into the British home. Nevertheless, prayer broadcast, instead of being addressed directly to the Almighty by the individual, seems a little too scientific.

Dr. Horrell Hart of Bryn Mawr, college, where many young women accumulate knowledge back of their high brows, tells parents that early marriages are usually failures.

Those married before twenty are ten times more apt to find in the divorce court than others. Trial marriages fail because they are experimental and secret.

They fail also, although Doctor Hart doesn't mention it, because the man in such a hurry to back respect and affection to the woman.

The great philosopher Plato would have women marry when past thirty and men past fifty. But that depends on the breed and the individual.

The mother supplies her child's mental and physical strength. She should have children when her strength of mind and body is at the maximum.

The father supplies part of the child's mental ability. He should marry later, when his brain is as he has a chance to mature fully.

Philadelphia's Liberty bell, silent for one hundred years, will issue thirteen cracked sounds, one in honor of each original state, on Washington's birthday. If Washington at the sound could rise, like Napoleon's old soldier when he heard the cannon growl, he would be interested in the forty-eight United States of 1931.

He would wonder at our calm submission to organized crime, in the gutter and higher up, but would be proud of the country's size and power.

Farmers Will Give Advice To Experts

Experts who have been advising farmers how to conduct their business will have a chance to see how closely their ideas coincide with those of the farm owners themselves when five prominent Michigan farmers who represent five different lines of farm work speak on the evening program, February 4, Farmers Week, at Michigan State College.

The men, E. P. Reynolds, Olivet, dairyman; Otto Wegner, Kila, livestock producer; George DuVall, Pennville, fruit grower; E. W. Ruehs, Cadillac, and Fritz Mantey, Fairgrove, grain and seed grower, have successfully conducted their lines of work during a period when the agricultural situation has been far from attractive, and their explanation of business methods will be one of the features of Farmers Week.

Mr. Reynolds will be at home on the platform as he was a professor at Olivet College before engaging in the dairy business. He explains his success by stating that he follows good practices. George DuVall is not pessimistic about fruit growing. He has young orchards equal in area to the bearing orchards which he owns.

E. W. Ruehs grows good crops as well as livestock on his 200 acre farm and the crops are marketed through the livestock. Mr. Wegner, president of the Michigan Cattle Feeders' Association, buys both hogs and steers to feed and grows a variety of crops for his livestock.

Mr. Mantey is one of the best known producers of certified seeds in the State and excellent crops of small grains have become an annual event on his farm near Fairgrove.

STOCKBRIDGE—The School Board has made the decision some time ago that there is to be no smoking in the high school gymnasium, the proposed "Gehring Day" program has brought to light. President Whitney has stated that the decision of the board was unanimous and without discussion.—Brief-Sun.

NOTTEN ROAD

Lawrence Riemenschneider was in Jackson, Friday, on business. While returning home, near Grass Lake, an axle broke on his car. No serious damage was done.

Mrs. Henry Gieske visited at the home of John Gieske at Manchester, on Friday.

T. G. Riemenschneider went to Jackson to meet Mrs. Riemenschneider, who was called to Crookston, Minn., by the death of her mother. She has been gone about ten days.

Fred Probert of Jackson was a caller at the Notten farm on Friday.

Mr. and Mrs. Ralph Kalmbach of Jackson visited their father, Henry Kalmbach, on Sunday.

Mr. and Mrs. Albert Schweinfurth and children visited Mrs. Schweinfurth's parents, Mr. and Mrs. Davey at Rives, on Sunday.

Frank Riggs of Detroit spent the week-end at his farm here.

Adolph and Clarence Kruse came very near to having a disastrous fire recently. As it was, some bedding caught on fire and was destroyed.

Rev. Henry Lenz has been on the sick list for a few days.

Kenneth Mohr has secured a position on the Probert farm near Jackson.

The Farmers' club, which was held at the home of Mr. and Mrs. N. W. Laird last Friday evening, was well attended. After a bounteous dinner was served, the members put on a short program and then the rest of the evening was given over to a discussion of the County Health Unit.

The discussion was led by Supervisor Gibbs of Dixboro.

Mr. and Mrs. Fred Notten attended a dinner and social gathering given by Mr. and Mrs. Geo. English at Chelsea on Thursday. After a very fine dinner was served the afternoon was spent in discussing fringe affairs and other matters pertaining to taxation.

Mr. and Mrs. E. J. Notten of Chelsea called on Mr. and Mrs. Fred Notten on Sunday.

Mr. and Mrs. E. J. Notten, Miss Lena West, Mrs. Mack and Fred Wolf of Chelsea attended services at the church here Sunday morning.

Mr. and Mrs. Floyd Schweinfurth called on relatives at Chelsea on Sunday evening.

Philip Halper of Ypsilanti called on friends here on Monday.

Mr. and Mrs. N. Alvord and Mrs. Roy Alvord were in Jackson on Monday.

THIRTY-FOUR YEARS AGO

Thursday, January 28, 1897

Commencing Sunday, the mercury has been pounding away industriously at the bottom of the thermometers. Monday morning it reached a point of about 15 degrees below zero. This morning it registered zero.

Sleigh rides and skating parties seems to be the most popular amusements of the young people at present. Menials are reported in Chelsea according to the health officer.

All of the trains on the M. C. R. R. on Monday were from one to four hours late.

A Democrat county convention will be held in Ann Arbor on Tuesday, February 11. Delegates to the state convention are to be elected and a candidate for a county school commissioner is to be placed in nomination. The union revival meetings in Chelsea are being well attended and fifty-five have made a profession to lead Christian lives.

The Republicans of Washtenaw county will hold a convention in Ann Arbor on Tuesday, February 16, for the purpose of nominating delegates to the state convention and selecting a candidate for county school commissioner.

The market for wheat, red or white, 82c; rye, 32c; oats, 15c; barley, 60c; beans, 45c; dressed hogs, \$3.50; clover seed, \$4 to \$5; eggs, 18c; butter, 11c; potatoes, 15c; apples, 40c; onions, 50c.

NEW NUTRITION FOLDER LISTS PROPER FOODS

As the first of its contributions to the efforts being made by Michigan health and education groups to protect child health against the results of depression, the Michigan Tuberculosis Association is distributing gratis throughout the state at the present time a complete nutrition folder entitled "Foods for Growing Boys and Girls."

The folder is so arranged that well balanced meals, including all the fundamentals of diet, can be arranged merely by selecting one item from each of several classes of foods. A unique feature of the folder is the fact that, although meals prepared from it are well balanced, no technical nutrition terms whatever are used.

Emphasis is placed in the booklet on inclusion of fruits, vegetables, and whole grains in the diet. These items, probably the first to be dropped from the daily menu when less money is spent for food, are nevertheless of major importance in maintaining the health of boys and girls of school age. Prepared particularly for families with children, the folder is being made available through the school systems. Housewives who wish copies and who cannot procure them locally may get them without charge by sending name and address to the Michigan Tuberculosis Association, Lansing.

Value of Conscience

He who does not respect conscience will never find happiness in his path. The belief in virtue vanishes from his heart, the source of noble actions becomes extinct in him.—Auffenberg.

Original Pullman Car
The first pullman car was built by George M. Pullman in 1865 at a cost of \$20,000. This was hurriedly completed so that it might form a part of the train that bore the body of Abraham Lincoln from Washington to Chicago, and thence to Springfield.

FORD SMOOTHNESS

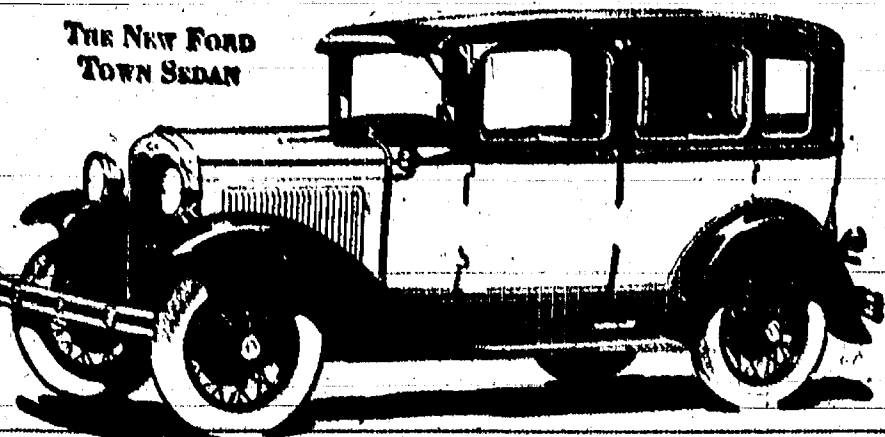

The new Ford has more than twenty ball and roller bearings

EVIDENCE of the high quality built into the new Ford is the extensive use of ball and roller bearings. There are more than twenty in all—an unusually large number. Each bearing is adequate in size and carefully selected for the work it has to do.

At some points in the Ford chassis you will find ball bearings. At others, roller bearings are used regardless of their higher cost. The deciding factor is the performance of the car.

The extensive use of ball and roller bearings in the new Ford insures smoother operation, saves gasoline, increases speed and power, gives quicker pick-up, decreases noise, and gives greater reliability and longer life to vital moving parts.

Other outstanding features that make the new Ford a value far above the price are the Triplex shatter-proof glass windshield, silent, fully enclosed four-wheel brakes, four Houdaille double-acting hydraulic shock absorbers, aluminum pistons, chrome-plated alloy valves, three-quarter floating rear axle, Rustless Steel, the extensive use of fine steel forgings, and unusual accuracy in manufacturing.

SCHOOL NOTES

Chelsea was defeated in another League battle with University High of Ann Arbor last Friday night, the game being played at Ann Arbor.

The Reserves played the first game which went along very nicely through the first half which closed with U. H. R. leading 10 to 6. This was not much of a lead and from the appearance of things in the first half it looked as though the home team might overcome this lead. But it was not long after the second half had started that we found out that the U. H. R. were playing a much different game and they soon ran the score way up, and at the same time holding Chelsea to one point. The game finally ended with U. H. R. leading 24 to 7.

The second game was another which turned out for the worst for Chelsea. The first quarter of this game was close all the way. Chelsea, getting the lead right from the start, but the U. H. boys managed to make a couple extra points before the whistle sounded to lead the first quarter 6 to 4.

The second quarter was the big scoring period of U. H. in which they walked away from Chelsea for eleven more points, at the same time holding Chelsea to the four points they had.

The third quarter was also very bad for Chelsea, in which U. H. scored seven more points to Chelsea's three, making the score 24 to 7.

After all but about four or five minutes of the last quarter were up, U. H. sent in an entire new team which proved to be a little weaker and gave Chelsea a chance to make up a few of the points they had let U. H. have, but it was too late to beat them and the final score was 29 to 18.

Chief Clearsky of the six national

Troquois Reservations in Michigan, N. Y., and Canada talked to the Chelsea high school pupils Monday afternoon. His talk was very interesting and edu-

cautional, dealing chiefly with Indian life.

One of the things Chief Clearsky tries to set right in his lectures is the wrong conception the white people have of the Indians. He travels a great share of each year, lecturing to solicit help for his people.

He had his mother with him, a very old Indian woman, dressed in Indian garb, as was her son.

Chief Clearsky belongs to the Mohawk tribe and boasts of pure blooded Iroquois lineage.

JOHN PHILIP FOSTER

John Philip Foster, former well known resident of this village, died early Tuesday morning at his home at 414 East Kingsley St., Ann Arbor.

Mr. Foster was the eldest son of Michael and Catherine Foster and was born in Chelsea, February 20, 1850. His marriage to Julia Hindelang was solemnized October 25, 1871, the first nuptial mass to be read in St. Mary's church.

For many years Mr. Foster was a contractor and builder, and the family made their home in Chelsea until 1909, when they moved to Ann Arbor. He was a member of St. Thomas church. Mrs. Foster died December 20, 1923.

Of a family of 12 children, 10 are living. They are: Mrs. F. J. McNaney, of Jackson; Mrs. F. R. Stevens, of Devils Lake, N. D.; Mrs. William F. Wheeler and Mrs. Edward Beissel, of Chelsea; Mrs. William Abrahamson, of Grand Forks, N. D.; Mrs. Bert Reiter, of Grady, N. D.; A. J. Foster, of Detroit; R. G. Bert Foster and Miss Lena J. Foster, of Ann Arbor.

Mr. Foster also is survived by one sister, Miss Evelyn Foster, of Chicago; four brothers, Edward J. and Germaine Foster, of Grass Lake, Herbert, of Detroit, and Albert E., of Owosso, 21 grandchildren and three great grandchildren.

Funeral services were held at 9 o'clock this morning in St. Thomas church, Ann Arbor, Rev. Thos. R. Carey officiating, with interment in Mt. Olivet cemetery, Chelsea.

Early Substitute for Glass

The Saxons our have had little or no glass. The Normans had none, or only very little. In the castles they built in England, their way was to fix a thin transparent skin or membrane from an animal to serve for window covering.

NORTH LAKE

Mr. and Mrs. Ralph Kinner of Detroit were guests of their grandparents, Mr. and Mrs. John Mester, over the week-end.

Mr. and Mrs. Arthur Simons and family of Grass Lake are spending a few weeks with William Noble.

Miss Mildred McDaniels of Detroit was home over the week-end.

Miss Mary Parker will entertain the members of the B. T. C. Sunday school class at her home on Friday evening, January 30. Business meeting will be followed by a program and games.

North Lake Church News

Sunday, February 1, "The Great Physician" is the title of the adult lesson. Much interest is being shown in the lessons; the attendance is increasing; new plans are in progress for the year's work.

The various classes of the school are taking turns in contributing some helpful feature each Sunday. This Sunday the members of the Young People's class will have charge.

Subjects discussed at the Sunday school board meeting held at the home of Mr. and Mrs. E. W. McDaniels were: "How can parents be led to realize the importance of religious education?" "How can Sunday school pupils be awakened to interest in church attendance?" Projects such as temperance instruction and peace movements are planned for the year.

12 M.—Sermon by Rev. Edward Hocking. Duets: William Noble and Mrs. Lois Simons.

WATERLOO

Mrs. L. L. Gorton spent Monday with her sister and brother-in-law, Mr. and Mrs. N. F. Prudden, in Chelsea. H. J. Lehmann, Mr. and Mrs. Victor E. Moeckel and daughter Leona were Sunday visitors of Mr. and Mrs. Walter Bohne in Francisco.

Mrs. L. L. Gorton entertained the U. B. Square Circle last Wednesday. Pot-luck dinner was served. The afternoon was spent in quilting and officers were elected for the ensuing year, as follows: Mrs. Elmer Bradley, president; Mrs. Victor F. Moeckel, secretary and treasurer. There were eight members present.

Miss Odema Moeckel spent Sunday with Mr. and Mrs. Ed. Cooper and family in London.

Wynman Ralph of Ann Arbor spent the week-end at their cottage at Clear Lake.

MRS. MARGARET CONWAY

Mrs. Margaret Conway, aged 80 years, passed away at her home, 112 South East Ave., Jackson, Monday morning, January 26.

She was born in Sylvan township, Washtenaw county, in 1850, the daughter of Daniel and Rose (Cole) Doran. In 1869 she was married to Martin Conway, who died many years ago.

Mrs. Conway resided in Chelsea until 1905, since which time she had made her home in Jackson.

Surviving are three daughters, Rose Conway, Mrs. Margaret Williams and Mrs. Walter Swidenski; three sons, Daniel, Harry and Garrett Conway, all of Jackson, and six grandchildren. Funeral services were held from St. Mary's church, Jackson, on Wednesday morning at 9 o'clock, with solemn high mass, Rev. Frs. Kirby, Lockwood and Rose officiating. Interment was in Mt. Olivet cemetery, Chelsea.

ENTERTAIN AT BRIDGE

Mrs. J. S. Cummings, Mrs. A. L. Steger and Mrs. R. E. Jolly entertained at a bridge supper Thursday evening at the home of the former. Pink-rosebuds centered the tables. A delicious two-course supper was served. Six tables of bridge were in play and honors were awarded Miss Margaret Miller, Mrs. L. T. Freeman, Mrs. G. W. Hays and Mrs. A. A. Palmer. Mrs. Charlotte Reuger of Ann Arbor was an out-of-town guest.

BRIDGE DINNER

Mrs. McGaffigan entertained several friends at a bridge dinner at her home on Monday evening. Bouquets of roses and sweet peas decorated the rooms. Three tables of bridge were in play and honors were awarded Mrs. J. S. Cummings and Mrs. L. P. Vogel.

NORTHVILLE—Rail service between Redford and Farmington will end February 1st. That is the verdict of the state board of administration and the Michigan state highway department. In a hearing at Lansing, held at the request of Isaac Bond, road commissioner of Oakland county, it was decided to go ahead with plans for acquiring the rail right-of-way from Eight Mile road to Farmington, tear up the rails and make a boulevard.—Record.

First Undersea Cable

The first Atlantic cable was completed in 1858, and extended from Heart's Content harbor, in Newfoundland, to Valentia, Spain.

Michigan Happenings

The uplifted white canies of blind persons, effective Feb. 1, will give them right-of-way at all Saginaw street intersections, under the terms of an amendment to the traffic ordinance approved by the city council. The only exceptions will be vehicles responding to emergency calls. This gesture means much in Saginaw, for this city has a large blind population, due to the presence here of the Michigan Employment Institution for the Blind. The amendment was passed at the request of the Saginaw Lions' club.

An explosion of hundreds of gallons of chemicals, including naphtha, in the warehouse of the Baldwin Rubber company, at Pontiac, started a fire which caused loss expected to run in excess of \$25,000, and imperiled the lives of two workmen. Thomas Walsh, one of the two men, was burned about the face and hands; the second, Carl Hardy, escaped injury. Persons living near the plant said the explosion shot flames for 100 feet into the air and blew the north end of the warehouse 30 feet away.

The State Tax Commission at Lansing has begun a survey of local taxation costs throughout Michigan and probably will have a report to make to the legislature on the subject. Melville B. McPherson, chairman of the commission and a member of the special committee of inquiry into taxation, has sent a letter to every county clerk in the state asking for a copy of his 1931 budget. If it is higher or lower than last year, an explanation is sought. Later similar letters will be sent all city clerks.

The bounty on sparrows, plus hard times, equals a bird massacre in Kent County. The county pays three cents a head for sparrows. This year \$500 was appropriated for this purpose, but Chairman Frank W. Peterson, of the finance committee of the board of supervisors announced at Grand Rapids that will not nearly cover the county's obligations to sparrow hunters. One man claim bounties for 5,000 sparrows and one township reports claims for 10,000.

Residents of Reed City have received official notice to stop throwing corn whiskey mash in the sewers. It damages the sewer pipes. In a recent edition of the Reed City Herald a notice appeared cautioning citizens to be careful on this matter. "I especially desire," the notice concludes, "that the parties making corn whiskey throw their old mash some place other than in the sewers. Signed, Ben Buerge, village marshal."

Frank E. Beard, of Port Huron, chairman of the St. Clair county road commission, announced that the state highway department will eliminate the dangerous bend at Pine River on the Gratiot turnpike. It is said that the current of Pine river at that point is causing an erosion that threatens to undermine the roadbed. This spot has been the scene of many serious automobile accidents.

When Mrs. Chester Whitford, of Sparlingville, a suburb of Port Huron, returned from a neighbor's home where she had gone to telephone a relative, she found her year-old daughter, Dolores, clothes in flames. The child died before a physician could be summoned. It is thought that the baby's clothing caught fire when two older children lighted a piece of paper at the kitchen stove.

Mrs. Kate Lorenz, 35 years old, and her daughter, 10 years old, escaped serious injury when their automobile was struck by a train at an Ann Arbor railroad crossing in Owosso and carried 60 feet. Mrs. Lorenz had stopped to await the passing of the train, when her car was struck by another from the rear, turning her car around and pushing it on to the track. The other driver fled.

It was learned at Port Huron that Miss Bess L. Hyde, English teacher in the junior high school, has won second place in the world-wide essay contest on the Kellogg peace pact. In the Normal college division. The winning essay was written by Miss Hyde while she was a student at the Michigan State Normal college a year ago.

A bill which would regulate the operation of motorboats on the inland lakes and rivers of Michigan is being drafted for introduction when the Legislature reconvenes at Lansing. It would place limitations on speed, prohibit the operation of such boats near bathers, and prescribe other regulations in the interest of safety.

The State Stream Control Commission has issued an order directing the city of Owosso to erect a sewage disposal plant and interceptor sewer before Aug. 1, 1933. It was revealed by Mayor W. A. Zegmiller. The voters defeated a \$220,000 bond issue, in December, to build the plant.

Charles Gale, chairman of the Charlevoix Association of Commerce winter sports committee, announced that the city's annual winter carnival will be held Feb. 10.

Famous for Big Trees
The national park known as "The Big Tree National Park" is Sequoia. Scores of sequoias 20 to 30 feet in diameter, thousands over 10 feet in diameter, are found there. It is in the park that the General Sherman tree, 275 feet in diameter and 275.0 feet high, is located.

Michigan Tax Rate Becomes Prohibitive

Frenzied expansion, the outgrowth of an era of prosperity and a resulting dissipation of public funds have brought about a serious crisis in Michigan taxation, declared Clarence L. Ayres, acting president of the Union League of Michigan and chairman of Governor Brucker's new council on state finances, speaking over radio station WXYZ.

Ayres said his organization was in possession of instance after instance where men were losing cottages, homes and farms because of their inability to meet the terrific burden of taxation and other items of maintenance.

"A man in Berkley," he said, "owns a house with an assessed valuation of \$2,900. In 1920 the total taxes, including special assessments, were \$228.94, or nearly 9 per cent of the assessed valuation."

"A man and his wife own a home in Lincoln Park which has an assessed valuation of \$2,500. In 1920 the total taxes, with special assessments, were \$205.09, or more than 8 1-2 per cent of the assessed valuation."

"Add to this high percentage of the value of these properties taken in taxes, the ordinary upkeep of the property and the expenses of maintaining a home. You can then readily understand why families are losing their homes and becoming in many cases charges of the state."

"There is no logical reason why there should not be standardization of plans and specifications of both school buildings and the requirements of school facilities for the different school districts of the state, to be promulgated by local school boards—whose business it would be to study local requirements, but approved or disapproved by some central division of state government—in the interest of standardization and economy."

"Something must be done to alleviate this unwarranted burden of taxation and the state government itself should take authoritative leadership in both the practice and preachment of its gospel. The present state administration, through its chief, Governor Brucker, has committed itself to a program of rigid economy and a resulting downward revision of taxes. The Union League of Michigan wishes to express itself as being heartily in accord with this published program and to express the hope that the administration will find it possible to adhere to it."

"Every student of politics and economics recognizes that our economic system is so completely interwoven today with our present system of government that if one should fail or be radically changed, the other is surely either to be revised or replaced."

"We are facing in this country today some very grave problems which are demanding early solution. We believe that extended delay in effecting a proper handling of these matters may develop into a challenge not only to the economic and industrial systems under which we have for so many years prospered, but to the very foundations of our present form of government."

"May I ask, on the other hand, what right you and I have to complain of high taxes and waste in the administration of our government when a large per cent of us do not take the trouble to vote? Are we not by our apathy and negligence making at least that much of a personal contribution to poor management in government—national, state, city, county, village and township? It is not alone necessary that the citizen exercise his prerogative to vote, but he must continue his interest and exhibit his will if the machinery of public administration is to function in accord with his desires."

"Doughnut" and "Cruller"

Years ago the difference between a doughnut and a cruller was marked. A doughnut was made of raised bread dough, to which sugar, spice and eggs were added, while the cruller was made of a mixture containing baking powder or cream of tartar and soda. Now the term doughnut is made to include both kinds of fried cakes.

Hundreds of barrels of crude oil which had flowed over the ice of the Chippewa river eight miles east of Mt. Pleasant, in the heart of the oil fields, from a break in a six-inch gravity pipe line, was fired recently endangering many oil wells. Officials of the Pure Oil Pipe Line company at Mt. Pleasant, owners of the pipe line, believe the fire was of incendiary origin. The flames spread for a half mile up the river, were checked after several hours by the use of chemicals. Some damage was done to a bridge.

Regents and administrative officials of the University of Michigan at Ann Arbor, have decided to adjust the building program of the university in such a way that there will be no increase over the expenditures authorized by the law passed in 1929. The law provided for sufficient funds to meet minimum requirements over a four-year period, including 1931. President Alexander G. Ruthven stated that the decision was based on general economic conditions and a desire to co-operate with the state government in its effort to conserve funds.

Question And Answer Dept.

Ques.—When the birds go south for the winter what is their object? Also do they raise another brood of young while there?

Ans.—Birds instinctively go south in the fall to escape the rigors of a coming winter. If birds remained in the north they would, as a rule, find it difficult to find food when the ground is covered deep with snow. They do not raise another brood in the south. However, there are few exceptions.

Ques.—Recently I received a letter from a fellow who used so many big words that I could not understand what he was trying to say. I just think he was "showing off." What should I write him?

Ans.—If you think he was not sincere write him a brief letter thus: "I suggest that you let your letters possess clarified consciousness, consistency, and coordinated cogency. Please refrain from all conglomeration, flatulent garrulity, jejune babblement and asinine affectations." He will probably take the hint and write you letters that you can understand.

Ques.—In reading ancient history I found the following abbreviations: "A. C." and "A. U. C." Will you please explain what they stand for? **Ans.**—"A. C." stands for "Ante Christum," which means "before Christ." "A. U. C." stands for "anno unibsecunda," which means "in the year of the building of the city of Rome."

Ques.—To settle an argument will you please state which will penetrate a plank farthest, a lead bullet or a wax bullet, if the same charge of powder is used?

Ans.—A wax bullet will penetrate the farthest because the wood offers a less frictional resistance to wax than it does to lead.

Ques.—I want to ask you if a policeman or any officer of the law has a legal right to enter a private home without a search warrant or any warrant for arrest?

Ans.—Not unless the officer is sure in his own mind that a crime is being committed. He cannot enter a private house without a warrant by simply taking the word of somebody.

Ques.—Are police dogs descended from the wolf? Why are they called "police dogs"?

Ans.—The proper name of the dog is "German Shepherd." During the war the word "German" was dropped, and they were called "police dogs." They were never crossed with the wolf, as many suppose but they are descended from the long-haired dogs in south Germany, which combined five or six root stocks. They were called "police dogs" because of the large number of them used in patrol duty by police forces in Germany.

Ques.—Does northern boundary line of the western part of the United States follow a straight line?

Ans.—The line between Canada and the United States from the Pacific ocean to the Lake of the Woods follows the 49th parallel. Therefore it is slightly curved.

Ques.—What causes some people to be left-handed while most people are right-handed?

Ans.—This is a question that has never been settled, as several theories have been advanced. The most accepted theory is that most primitive men held a shield over their heart in battle with other tribes to cover their heart. This necessitated fighting with the right hand by those who did so.

Ques.—Can you tell me who it was that said "if we don't hang together we will hang separately"?

Ans.—In substance this remark was made by Benjamin Franklin. When John Hancock, after signing the declaration of independence, remarked to Franklin: "We must now all hang together," Franklin retorted: "You are right, Mr. Hancock, we must all hang together, or assuredly we shall hang separately."

Ques.—How did unlawful whiskey get the name of "moonshine"?

Ans.—In the 18th century much illicit brandy was smuggled into England by night from France and Holland. Hence it was called "moonshine." Later the term was applied to illicit whiskey manufactured in Kentucky by the light of the moon only to escape detection by revenue officers.

Ques.—In order to settle an argument will you kindly state in the question column which is correct, milk cow or milk cow.

Ans.—No reputable dictionary recognizes "milk" as an adjective. It is spelled "m-i-l-k." This is technical authority, but because of general usage and clear understanding "milk" as an adjective is being recognized by good authorities. In view of this situation we would say that either one is correct—at least until one or the other has been established as an adjective.
