Local Woman Injured In Accident Saturday

Mrs. P. H. Grabowski, wife of Rev.
Grabowski, pastor of St. Paul's
church, Chelsea, John Renau, Mrs.
Archie Seyler, daughter of Mr. Renau,
and Mrs. Emil Frey, all of Ann Arbor,
were victims of a crash which oc-
curred early Saturday morning on
US-12, near Leoni, when an automo-
bile driven by Mr. Seyler, of 1044
West Liberty St., Ann Arbor, skidded
on the icy pavement and collided with
a truck driven by Wm. Sands of
Jackson.

The five occupants were en route
to Jackson when the accident occurred,
the driver claiming the ice on the
windshield prevented him from seeing
the truck as he neared the viaduct
east of Leoni.

The injured were taken to Foote
hospital, Jackson, where Mr. Renau,
76 years of age, died at 6:45 Monday
morning.

Mrs. Grabowski received a broken
arm, fractured collar bone, ribs and
pelvis, and her condition is considered
critical.

Mrs. Seyler still is at the hospital,
suffering from cuts and bruises.

Evangelist Rollings Opens Campaign Here

The Methodist church was two-
thirds filled last Sunday night for
the opening of the New Life Crusade,
which is being conducted by Evan-
gelist E. J. Rollings under the auspices
of the Washtenaw County Brother-
hood in the local church. Evangelist
Rollings comes to Washtenaw County
after a most successful series of meet-
ings in Monroe County, where hun-
dreds were converted and joined the
various churches.

In his opening sermon the evan-
gelist said: "There is nothing myster-
ious or unusual about a revival—it is
just common sense use of divinely ap-
pointed means. There are no times
and seasons with God. God is always
ready to send a revival but we are not
always ready to receive it. The his-
tory of the Christian church is the
history of revival and for the life of
me I cannot understand how anyone
professing the name of Christ can op-
pose such a movement."

"Seven out of every ten Christians
became Christians at a time of re-
vival. Martin Luther saved Europe
from spiritual death by a revival and
his followers should be the greatest
exponents of evangelism. Wesley and
Whitfield saved England from the
French revolution and the Methodist
church was born in a revival. Finney,
Edwards and Moody saved this old
land of ours from moral bankruptcy
by the revivals of their day.

"This country of ours today, in spite
of our boasted wealth, culture and
education, leads the civilized world in
crime of almost every description.
More crime in the city of Chicago than
in England, Ireland, Scotland and
Australia. A little handful of Sicil-
ians in the city of Detroit kill more
people every year than a nation of the
same people do in their own land.
What is the solution for all this—I
say a revival of the old time religion.
The revivals of the past have saved
us from moral degradation and noth-
ing can save us in this twentieth cen-
tury but an old time revival.

"You say a revival is abnormal. I
say the church is abnormal without it.
You say a revival is not permanent.
I say neither was the civil war but it
abolished slavery.

"You say by having a revival, the
churches acknowledge they have back-
slidden. Well, I say you don't give
the community any new information.
"You say you believe in letting the
preachers do it. But God's word says
some are called to be pastors and
some to be evangelists. God has spe-
cial men for special jobs."

Mr. Rollings, in addition to being
an evangelist, is a recognized author-
ity on law enforcement and crime
problems, having written and lectured
on the narcotic situation for many
years. He was formerly secretary of
The Narcotic Educational Association
and Vice President of The Michigan

Cement Plant Employee Killed This Morning

Archie Hall, an employee at the
Michigan State Cement plant, was in-
stantly killed about 5 o'clock this
morning when he was drawn into a
magnetic pulley in the coal room,
while attempting to remove a bolt
from the pulley. According to M. H.
McCalligan, superintendent of the
plant, the pulley was well protected.
Justice Howard Brooks was called
to investigate the death, and ordered
an inquest, which will be held to-
morrow. The body was brought to the
Staffan funeral home. Funeral ar-
rangements have not been completed.
Surviving Mr. Hall are the widow
and two children. They came here
about a year and a half ago from
Salem, Ill., and reside near the ce-
ment plant.

Lincoln

IF SUCCESS were easy,
the world would have
no failures. Taking Ab-
raham Lincoln as an
example, upon the occasion of
his birthday anniversary, the
Great Emancipator had many
failures to add color to his great
humanity. Lincoln failed in
business, failed in politics, and
failed in the romance of his life.
But in the end, he came out a
victor, and stood supreme and
immortal upon the tombstones
of his failures.

In these times of depression,
when even the strong-hearted
are prone to quake, this new
lesson of Lincoln should be of
great inspiration. As we err
and make mistakes, so do we
grow. A machine has none of
the frailties of the human being,
and a machine can never be
President, or a leader of hu-
manity.

The silver lining around every
failure of life is the lesson it
teaches us, and the strength it
gives for more daring effort.
Discouragement could never
have disheartened Lincoln, else
he would not have achieved the
greatest things of American
history.

We who suffer from business
depression, who often wonder if
the fog up the road bespeaks a
blind alley, should not give up
our obstinate determination to
weather the storm of what is
simply an economic cycle. To-
morrow is going to be a better
day for business and for us.

Such would have been the les-
son preached by the Emanci-
pator, and Man of Courage.

Merkels Celebrate 47th Wedding Anniversary

Mr. and Mrs. Peter Merkel enter-
tained Sunday at a family dinner,
celebrating the 47th anniversary of
their marriage. A bowl of pink roses,
flanked on either side by slender pink
tapers, and a beautifully decorated
wedding cake, bearing the words
"47th Anniversary" effectively carried
out the color scheme of pink and
white.

Sixteen guests were present, in-
cluding Mr. and Mrs. Harry H. De-
lof, daughter Virginia and son Tom-
my, and Mr. and Mrs. Harold McCar-
ty and family, of Detroit, Aloysius

Arrest Burglars Who Robbed V. & W. Store

With the arrest of a band of bur-
glars residing in Hamtramck, the
group who have participated in a long
list of store thefts during the past
few months, in eastern Michigan are
at last in the grip of the law.

The beginning of the end came last
Friday night when some of the gang
were arrested while attempting a rob-
bery at Brown City. They were tak-
en by state police at that place, and
squealed on other members of the
gang, all residing in Hamtramck. Six
of the group are under arrest, one of
whom has been sentenced to Jackson
for a term of 7 1-2 to 22 years, with
recommendation of deportation at the
completion of the sentence. Others
are awaiting trial.

Edward Vogel, D. H. Wurster and
Miss Amanda Koch were in Mt. Clem-
ens this week, where some of the
group are awaiting trial, and identi-
fied a small quantity of the merchan-
dise stolen from the firm of Vogel &
Wurster two weeks ago. They will
return to that place on Friday to tes-
tify in the trial.

One member of the gang has turned
state's witness, and is implicating the
other members in a long series of rob-
beries. Two of the band are being
tried in Sanitary county for robberies
committed there, and have confessed
to their part in the thefts.

It is also thought that more arrests
will follow.

School Officers And Patrons Will Meet

The annual meeting of the Washtenaw County Rural School Officers
and Patrons' Association will be held
on Saturday, February 21st, at the
University high school building in Ann
Arbor. An interesting program is be-
ing prepared. The morning session
begins at ten o'clock. About an hour
will be spent in a tour of the Univer-
sity high school building, and sub-
serving the work done there. A one-
act play will be given by the students
following this tour. At 11:30 the
business meeting of the organization
will be held and all members are
urged to attend. Luncheon will be
served in the cafeteria of the school.

A big feature of the meeting will
be discussion of the topic, "The Coun-
ty Unit System of School Adminis-
tration." The subject, which is of vast
interest and importance just now, will
be discussed by Professor M. L. Smith
of the Central State Teachers' Col-
lege of Mt. Pleasant, who will speak
for the system. Mr. A. D. Swopes of
Lebanon, Indiana, ex-president of the
Indiana State Teachers' Association,
and who has been instrumental in pre-
venting the adoption of the system in
his state, will present the negative
argument. Considering the impor-
tance of the subject to every tax-
payer and patron of the rural and vil-
lage districts, it is strongly urged
that all school officers, teachers, par-
ents and taxpayers make an effort to
attend this meeting.

Boy Scouts Observe Anniversary Week

In connection with the activities of
anniversary week, celebrating the
twenty-first birthday of Scouting in
America, a Ram Patrol meeting of lo-
cal Boy Scouts was held Tuesday eve-
ning, with Foster Beissel and Herbert
Wallace in charge.

Eleven scouts were in attendance
and tests were passed on first aid,
stars and signaling, after which
games were played.

Wednesday evening, a delegation
from Chelsea attended a banquet at
Masonic temple, Ann Arbor. Foster
Beissel, as representative of Troop
One, gave a report on the troop's ac-
tivities. The address of the evening
was given by Rev. Carleton Brooks
Miller, pastor of First Congregational
church, Battle Creek, while an exhibi-
tion of magic and ventriloquism by
Mr. and Mrs. Wm. Ross was a feature
of the entertainment.

Scouts attending the meeting were
John Brunner, Robert Williams, Ben-
nie Bacon, Charles and Nicholas Pan-
antes, Herbert Wallace, Eldene Haw-
ley, Dudley Foster, Tommy Walworth,
Glenwood and Philip Novess, Hubert
Ives, Thomas Alexander, Harold Al-
exander, and Foster Beissel. They
were accompanied by Mr. and Mrs. E.
G. Brunner, Mr. and Mrs. Edward
Beissel, Charles Williams, Roy Ives
and Leonard Witherell.

FRED ACHELE INJURED
Fred Achelle was painfully injured
Wednesday morning at the cement
plant when a paddle with which he
was dressing a moving belt was drawn
in. Before Mr. Achelle could throw
the switch to stop the machinery he
received head injuries which required
several stitches. He was treated at
the plant hospital, then brought to his
home here.

Mr. Young on Banks
Gandhi's Sky Writing
A Wise German
Dogs, Beef, Pork

Extremely important to American business, especially to the little man who would like to know that his savings are safe and not used by grafters in their speculations, is a suggestion by Owen D. Young. He would establish government control of commercial banks, for their regulation and the public's protection.

Mr. Young points out that this country has had 6,000 bank failures in the past ten years.

He did not say so, but everybody knows that dishonesty is back of many such failures. Mr. Young says truly: "It is a great reflection on the American people that they cannot get a banking system which will prevent such tragedies as we have witnessed."

Gandhi tells 100,000 listeners that victory for his "holy crusade" to free India is "written in the skies if we follow the path of truth and non-violence."

Few victories have been won by non-violence. In fact, no nation ever won freedom except by fighting for it.

In the opinion of at least 200,000,000 Hindus, a successful "holy crusade" would include the right to restore child marriage without restriction, the burning of widows, and a system of reverence for animal life, cows especially, that allows the miserable animals, when they get old, to die of hunger because no one has the right to kill them.

Germany possesses an appallingly wise person named Dr. Georg Joos, professor of theoretical physics at Jena.

The wave-length of a ray of light is from one twenty-five thousandths to one fifty thousandths of an inch in length. The marvelous Joos can measure the one thousandth part of that.

This enables him to prove that there is no "ether-drift" and that the speed of light is absolute.

In some mysterious way, Doctor Joos confirms Einstein's theories. Sometimes you are sorry you cannot understand all that, and sometimes you thank heaven for your ignorance.

Mohammedans are fighting Hindus in India, as usual. Mohammedans cooked some beef, which horrified the Hindus, by whom the cow and all its relations are held sacred.

War started, a village was burned, and a Sikh officer in the British service was burned alive.

Then Mohammedans threw the beef into Hindu temples. The Hindus, for revenge, threw dead dogs into the Mohammedan mosques, greatest insult you can offer a Mohammedan.

Hindus won't eat beef. Mohammedans won't eat pork. Englishmen eat both and rule Mohammedans and Hindus.

"Joe the Baker," known to his mother and early friends as Joseph, Catania, is dead. With his mouth shut tight, refusing to tell who shot him, he struggled against a flock of machine gun bullets and succumbed, eliminated because he interfered with bootlegging in the territory of "Dutch" Schultz, the "Bronx beer baron."

Thus far not one of many gangsters shot down has told police who killed him, although a majority of them knew. Perhaps they thought they would not die.

"Joe the Baker" was one of the New York gangsters that had the honor of entertaining a distinguished New York judge at a welcome home dinner.

Other cities will read with a gasp that projects for public improvements which New York now has to hand will cost more than two thousand million dollars.

Mr. Berry, comptroller, delights the hearts of capitalists, announcing the sale this year of \$282,130,000 of city bonds. On their income Uncle Sam collects no income tax.

When the big bridge over the Hudson is completed New York city will have its first above-ground connection with the rest of the American continent, and New York newspapers cannot agree on a name for the bridge. "Washington Memorial bridge" is the official name thus far.

Mr. Mason of the Post wants to call it "Palisades bridge" and Mr. Patterson, who has a newspaper, wants to call it the "Hudson bridge." A wise compromise might call it the "Edison bridge."

Edison brought light across the Hudson, from New Jersey to Manhattan, and spread it all over the world.

This writer, back in the night of time saw him putting lights in "Hurry Hill's" where John L. Sullivan fought. It would please a good many Americans to honor Edison, the greatest man this country has developed since Lincoln, and to do it while he is alive to know about it.

Stalin of Russia, who ought to know, does not agree with American shauers who predict disastrous failure for Russia's "five-year plan."

He says the plan will be completed certainly inside of four years, perhaps in three.

EVEN AN
ENGINEER

HAS TO WASH UP

YOU'D be surprised to see how quickly a fellow gets messed up when he's running a railroad. When there's a wreck on the line, for instance, you get all smeared up in no time at all. And you've simply got to keep up appearances with the family around. Mothers, especially, are very insistent about washing up.

If you have a son who has developed the habit of cleanliness, congratulate yourself, and be sure there's always a plentiful supply of hot water. There's no reason why a single "hot" faucet should ever run cold. Not when you can have a Self-Action Gas Water Heater supplying enough for all your needs for a few pennies per day. Phone and we'll give you details on how easily you can have hot water without waiting at all times.

Through February we will give a liberal allowance for your old stove toward a new efficient Gas Range.

Chelsea Michigan**Need United Effort To Aid Agriculture**

Organized groups of Michigan farmers are responsible for adding millions of dollars to the annual farm income of the State, according to J. F. Cox, dean of agriculture at Michigan State College, who says that the presence of such organizations will be one of the major factors in assisting agriculture to a better economic condition in the future.

Dean Cox pointed to the various crops and livestock associations as examples of organizations which have been successful in bringing about the adoption of better methods of production, and he cited the Grange, the Farm Bureau, and Farmers Clubs as agencies which have aided in improving economic and social conditions. The need for organized effort during the present difficult period was emphasized by Dean Cox and he pointed out that the 35 different associations meeting at the College during Farmers Week would have a leading part in securing such united effort. The local organizations now have the benefit of a national policy for the betterment of farm conditions under the direction of the Federal Farm Board, the Dean said.

Dean Cox said that livestock organization members now can finance their feeding operations if they are affiliated with the Livestock Exchange, and the Federal Farm Board has given financial assistance to fruit, potato, and grain organizations in Michigan.

MANCHESTER—A meeting of school officers and others from Bridge-water, Freedom, Sharon, and Manchester was held here one evening last week to talk over costs of maintenance of schools, particularly of rural schools. Questions were asked regarding consolidated schools and a general discussion followed, drawing out much information regarding actual cost of maintaining district schools. It is recognized that such matters are of vital interest to taxpayers, especially at the present time.**Question And Answer Dept.****Ques.**—Will you please answer in your question column what the salaries are of the different governors of the states, particularly Michigan?
Ans.—The salaries of the governors of states in the United States varies from \$8,000 a year to \$12,000. The lowest is \$8,000 in Vermont. New Hampshire and South Dakota, while the highest is \$12,000 in Illinois. The governor of Michigan gets \$5,000 a year.**Ques.**—I want to ask you if it is true that the ex-Kaiser of Germany and the members of the royal family are "broke" and get salaries from Germany?
Ans.—No. The ex-Kaiser of Germany and the members of his royal family do not get salaries from Germany, but they are far from being "broke." They own property in Germany valued at nearly \$7,000,000. The ex-Kaiser is reported to be one of the richest Germans in the world.**Ques.**—I notice that quite often matrimonial writers will use the expression "sea of matrimony." Why do they call it "sea"?
Ans.—Probably because they think that so many sink upon it. However, the expression is only "word-painting."**Ques.**—Can you answer in the question department of your paper if the Panama Canal is a paying proposition?
Ans.—As there is no interest on the entire investment the income derived from tolls, taxes, licenses, fees, fines, postal receipts, etc., annually exceeds the cost of operation by many hundred thousand dollars.**Ques.**—Why is it that a cat can see better in pitch darkness than any other animal or man? Is it because a cat's eyes shine so brightly in the dark?
Ans.—The popular belief that a cat can see better in darkness is erroneous. A cat's whiskers, or "feelers" is the means of them getting about as well in the dark. The same in their eyes does not create light. When one is plunged into total darkness the pupils of the eye adjust themselves to the condition, and after a space of time they are able to see better. An illustration of this is that when you enter a picture show you cannot see anything at first, but after being in there half an hour or so you can see all about you. This applies to a cat in the dark.**Ques.**—Why does a pound weigh less in California than it does in most of the states east of the Mississippi river?
Ans.—Because the unit "pound" is governed by gravitation. California is farther away from the center of the earth and consequently the "pull" on the pound is not so great.**Ques.**—Can you tell in your question department if Alexander the Great was buried in Greece or at Alexandria in Egypt?
Ans.—While the body of Alexander the Great was supposed to be interred at Alexandria with great pomp, there is some doubt as to the final resting place. Ptolemy, one of Alexander's favorite generals, got possession of the body and placed it temporarily at Memphis. It seems that during his life Alexander had expressed a desire to be buried in Egypt.**Ques.**—Is there anything heavier than a diamond?
Ans.—Nothing that we know of except the making of payments on one.**Ques.**—I want to ask you how large is the Dead Sea, and what kind of fish are caught in it?
Ans.—The Dead Sea is 47 miles long and ten miles wide. There is no animal life in it. The water is too salty—being about six times saltier than the water in the Atlantic ocean.**Ques.**—Is John Philip Sousa, the musician, an American? Where was he born and how old is he?
Ans.—John Philip Sousa is an American, and was born in Washington, D. C., in 1854. He is now in his 77th year.**Ques.**—Walter Bohne accompanied Mr. and Mrs. Charles Moore of Chelsea to Jackson last week, to see Milton G. Bohne who was ill. Mr. Bohne is reported improved.
Ans.—James Richards of North Francisco and Mrs. James Cadwell were guests of Mrs. Rex Dorr of Grass Lake the other day.**Ques.**—Leonard Loveland of North Francisco was a recent guest of Mrs. Nina Lehman.
Ans.—Miss Margaret Bentler spent part of last week in Jackson with her aunts, Mrs. Raymond Howell and Miss Susan Bentler. She also visited Mrs. Mabel Frary, who taught here last year.**Ques.**—Christina Hoffman, who has been caring for Mrs. Truman Lehman's household the past couple of weeks, has returned to Jackson.
Ans.—Mrs. Lulu Cadwell of Chicago visited her brother-in-law, James Cadwell and wife one day last week. She also visited neighbors and friends in Grass Lake.**Ques.**—Mr. and Mrs. Frary and daughter Helen were Sunday afternoon guests of Mr. and Mrs. John Bentler.**Ques.**—Will you please answer in your question column what the salaries are of the different governors of the states, particularly Michigan?
Ans.—The salaries of the governors of states in the United States varies from \$8,000 a year to \$12,000. The lowest is \$8,000 in Vermont. New Hampshire and South Dakota, while the highest is \$12,000 in Illinois. Mrs. Nellie Mead of Ann Arbor was with her mother, Mrs. Amelia Lewis, Monday afternoon.

A very life-like picture of Dr. J. E. Jacklin has been added to the walls of the Home. It is very fitting that his picture should adorn our walls as he has given so much of himself to permanency of the place. Our thanks go to his daughter for the gift.

Mrs. Mary Jane Hutchins passed away Friday morning, February 6, after an illness of two weeks' duration. On the 28th day of last November she celebrated her 83rd birthday.

She was born in White Pigeon, November 23, 1847. Michigan as a state was only nine months old then, and during her span of life she has always taken great interest in its growth. She was a great reader and few persons were better informed as to its position on all educational and moral questions.

In 1867 she married James Hutchins, who died in Paw Paw in 1897. Three sons survive: Rev. Almon J., pastor of the Baptist church in Concord, N. H.; Charles Wesley, of Chicago; and Paul Vincent, a lawyer, residing in Detroit. Mrs. Hutchins entered the Home on July 15, 1928.

Services were held in the auditorium Monday morning, conducted by Dr. W. J. Balmer. Interment in Paw Paw beside her late husband. Present at the services were her son Paul and two cousins from Hillsdale, Prof. Herson of the Hillsdale College, and Mrs. Banker. The son, Wesley, from Chicago, was to meet them at Paw Paw.

Mrs. Hutchins was the second oldest member of the present family.

The new Ford is an economical car to own and drive**Low first cost, low cost of operation and up-keep, and low yearly depreciation mean a distinct saving to every purchaser****THE NEW FORD** is a splendid car to own and drive because of its attractive lines and colors, safety, comfort, speed, reliability and long life.

There are, in addition, three other features of importance to every far-seeing automobile owner... low first cost, low cost of operation and up-keep, and low yearly depreciation.

During the life of the car, the day-by-day economy of owning a Ford will amount to considerably more than the saving on the first cost. You save when you buy the Ford and you save every mile you drive.

The reasons for this economy are simplicity of design, high quality of materials and care in manufacturing and assembling. Many vital parts are made to limits of one one-thousandth of an inch. Some to three ten-thousandths of an inch. Throughout, the new Ford is an outstanding example of fine craftsmanship in automobile engineering.

The more you see of the new Ford—the more you talk to Ford owners and experienced mechanics—the more certain you become of this fact... It brings you everything you want or need in a motor car at an unusually low price.

Michigan Happenings

Gasoline price wars, such as motropolitan Detroit motorists have enjoyed the past few months, seem to have to be state-wide under an amendment to the petroleum products act introduced in the house at Lansing by Representative Fred C. Holbeck of Long Lake. The amendment specifically proposes that prices through out Michigan be the same, reductions or increases to be general. "Unfair commercial discrimination between different localities for the purpose of raising competition" is prohibited by the act.

There will be no director of conservation in the upper peninsula as long as the present commission remains in office. It was established definitely when the legislature from above the Straits of Mackinac notified Director George Hogarth at Lansing that they want no such officer in spite of Governor Wilbur M. Tucker's campaign promises. The governor's principal promise to the upper peninsula during his campaign was that he would name a director to have charge of conservation work there.

An 85c bottle (lasts 4 weeks) at Peim's Drug Store or any progressive druggist in America. Money back if Kruschen doesn't convince you that it is the safest, quickest, easiest way to lose fat.

an Open-letter
to Buick owners

February 7, 1931

Dear Buick Owner:

Because of its importance, we decided to inform you now that the present line of 1931 Buick Straight Eights will not be replaced by new models this summer.

Buick, as you know, has introduced its new cars on August 1st year after year. But inasmuch as these new Straight Eight models have met with such spontaneous approval by thousands everywhere, Buick has decided to continue manufacturing the present Eights throughout the summer and coming fall.

This is mighty good news to thousands of Buick owners because they will buy new Buicks now with the knowledge that there will be no model change next summer.

They will find in these new Buicks a degree of performance that is certain to give them a genuine thrill. All have the safe, silent-shift Synchro-Mesh transmission. All have Valve-in-Head Straight Eight engines. And all have the famous insulated Bodies by Fisher.

So well has the 1931 line been received that, out of every 100 eights sold in Buick's price class, 56 are Buicks.

May we suggest that you drive the Eight as Buick Builds It? Your Buick dealer will be very glad to have you take the wheel and learn at first hand how very much Buick Straight Eight performance adds to the joy of motoring.

Very truly yours,

an Open-letter to Buick owners

February 7, 1931

Dear Buick Owner:

Because of its importance, we decided to inform you now that the present line of 1931 Buick Straight Eights will not be replaced by new models this summer.

Buick, as you know, has introduced its new cars on August 1st, year after year. But inasmuch as these new Straight Eight models have met with such spontaneous approval by thousands everywhere, Buick has decided to continue manufacturing the present Eights throughout the summer and coming fall.

This is mighty good news to thousands of Buick owners because they will buy new Buicks now with the knowledge that there will be no model change next summer.

They will find in these new Buicks a degree of performance that is certain to give them a genuine thrill. All have the safe, silent-shift Synchro-Mesh transmission. All have Valve-in-Head Straight Eight engines. And all have the famous Insulated Bodies by Fisher.

So well has the 1931 line been received that, out of every 100 eights sold in Buick's price class, 56 are Buicks.

May we suggest that you drive the Eight as Buick Builds It? Your Buick dealer will be very glad to have you take the wheel and learn at first hand how very much Buick Straight Eight performance adds to the joy of motoring.

Very truly yours,

OUR NEIGHBORS

GRASS LAKE—Grass Lake has an opportunity to obtain the county normal and if satisfactory arrangements can be made and if the proposition is acceptable to the people of this school district it will no doubt locate here. The matter was brought to the attention of the school board at a recent meeting by School Commissioner Prime. The normal would be quartered in one of the buildings now owned by the school district.—News.

HOWELL—On Wednesday and Thursday evenings, February 18 and 19, the local lodge of I. O. O. F. will present the drama "Lightning" with a complete cast of local people. The Howell Oddfellows are giving the play under the auspices of the Associated Charities of the City of Howell and the entire proceeds will be placed in the treasury of the charity organization.—Republican-Press.

NORTHVILLE—E. R. Eaton, who for the past four years has published and edited the Northville Record, has sold the paper to R. T. Baldwin, who also publishes the Jonesville Independent. The change of ownership took place February 1st.

Valentine for All the World

We can safely say that this picture has been "heartily" indorsed by the popular screen actress shown herewith.

No Change in Heart Appeal of Valentine

In days of old girls got their thrills from Valentines all fired with frills. While we go in for simpler stuff, tell 'em nothing, treat 'em rough. But we are none the less sincere; come by my Valentine, or dear!

There you have it! The Valentine greeting of 1931 and one which if seen by granddaddy would send the shivers down the poor old creature's spine. For when she was a girl maidens lisped and flattered at even the mere thought of a Valentine from the favored one—but times have changed and no more do hand some avails send their lady loves turtle doves in lacy nests of paper of crimson hearts stabbed by Cupid's arrows.

The sweet passionate symbolism and lulling rhymes of the quaint old Roman custom started for lovers centuries ago have gone into the chest of forgotten things.

Valentines today are overflowing with messages of frank brutality. They are far from sugary and their frankness and sophistication is supposed to result at least in a companionate marriage if not in a temporary affair. For instance let us compare a rhyme of the Byronic era with one of today. The earlier one went:

It love were what the rose is
And I were like the leaf
Our lives would grow together
In sad or springy weather.

Then this one:

How delicious is the winning
Of a kiss at last begun
When two mutual hearts are sighing
For the knot there's no untying.

For the boy friend who is faked by the high battleness of his favored one this is a dandy little token of affection a la 1931:

Your conceit and assurance
Hand me quite a laugh.
For your friends say you haven't
The sense of a calf.

Heaven help us. It is an age where there is no romance. Not even in a Valentine. Focus your eyes on this

verse, to be sent to a foot-talking damsel:

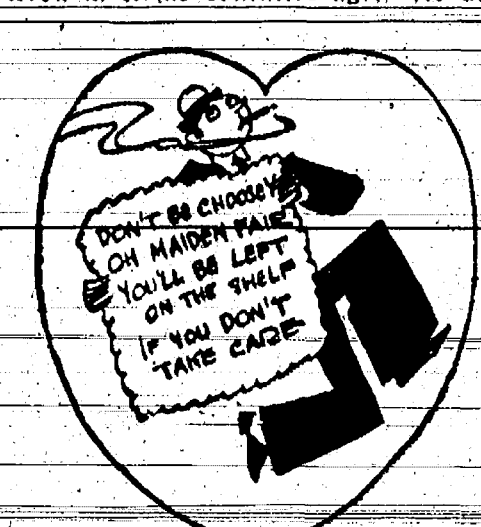

Your chatter is so endless
So witty at its best,
That I often go to talk to
Just to give myself a rest.

And one for the lady with the mesquite and shadowed eyes the son youth and suddenly changed:

With your powder and paint,
For I happen to know
That you're no plaster saint.

But if you prefer the old-fashioned Valentine, the one of soggy verse, or one of the gifts of another day, chocolate creams in square satin heart-shaped boxes, shafts of roses or clusters of violets or a bank of passionate poems, you can do it, but it will not be true, as the French would say. The swank of romance in the Twentieth century will be lacking. Cock-tail shakers, cigarette cases and lighters, pocketbook flasks are the tokens of affection and esteem for the girl friend this St. Valentine's day.

And as for old boy Valentine—here is a charming but pathetic bit of gossip we unearthed about him.—St. Valentine was no other than a hand some youth named Valentinus who lived in Rome centuries ago. He be-

longed to one of the earliest of the Christian families and was terribly ambitious in the church. There was, however, a villainous creature residing in Rome at the time, one named Governor Calpurnius, who was a pagan, and threw Valentinus into prison for his religious undertakings. The inevitable happened. Valentinus fell for the keeper's daughter. All the time he was in prison he amused himself by cutting curious designs out of paper, on some of which he wrote pious exhortations and assurances of love to the lady. The morning of the execution dawned and before Valentinus was dragged to the Flaminian way for the beheading act his parting message on a filly sheet of fancy paper to his loved one was: "Your Valentine." History tells us there is great reason for supposing that incident to be the origin of the quaint custom of observing St. Valentine's day.

Trend of Times Shown in Valentine's History

There is a fascination in following the history of any utterly useless thing. The valentine, always a cupcake, a whim, is tender, ostentatious, low or sentimental, according to the trend of the time. Its history can be briefly put down. The day was once the Roman Lupercalia, the festival at the beginning of spring, when every man had the right to express his affection and every girl as well. Each drew the name of his valentine out of an urn. Here was no disguised sentiment such as pervades the valentines popular in America, which read "To Baby," "To Mother," or "To Grandfather." Some religious houses on the continent encouraged their members to choose saints as valentines and to inscribe verses in them. The general church frowned on the deal, for moral reasons.
