State 4-H Champions Announced By Hagen

Washtenaw county ranks first in the number of state 4-H club champions, according to Arthur Hagen, County Club Agent, with five champions, and eleven receiving honorable mention. All of the champions are members of 4-H clubs in the Chelsea area, four residing in Lima and one in Sharon township.

The champions are: Loren Beutler, poultry project A; Olney Outwater, beginners' garden club; Clarence Redman, commercial garden club; Joy Dancer, 3rd year food study; and Walter Jacobs, 2nd year forestry.

Receiving honorable mention (in this vicinity): Barney Roepcke, 1st year forestry; Kenneth Outwater, junior potato; Clarence Bristol, amateur sheep management; Paul Reichert, flock project in sheep; Wilamina Roepcke, 3rd year canning.

Each state champion will receive a \$50 scholarship at Michigan State College, and with proper grades will get an additional \$45 scholarship for the second year.

Dorothea, Frederic Steiner Honored

Dorothea and Frederic Steiner, daughter and son of Mrs. E. P. Steiner, and graduates of Chelsea high school, have been extended an invitation to join the Mathematic club at Albion college, according to an article which appeared in the "Albion College Field", a student publication, on February 27. The article follows:

"The Mathematic club held their monthly meeting on Tuesday night at the Alpha Xi lodge. The names of students eligible to belong to the Mathematic club were brought up, and the following were extended the invitation to join: Dorothea Steiner, Chelsea; Frederic Steiner, Chelsea; Alma Wilkinson, Parma; Clarence Mohr, Brooklyn; Enid Downey, Highland Park; and Lucrotia Tucker, Highland Park. The members of the club were entertained with refreshments of sandwiches, cakes and cocoa were served. Virginia Bray and Pearl Yates were in charge.

Jackson - Ann Arbor Florists Meet Here

About twenty-five florists from Ann Arbor, Jackson, Hillsdale, Saline, and other towns met at the Chelsea Greenhouses for the monthly meeting of the club, on Tuesday evening.

L. J. Kempf, president of the club, was in charge of the meeting. The regular business was transacted and the remainder of the evening was spent in demonstrations.

Easter plant decorations were demonstrated, also the arrangement of baskets and bouquets. Several new ideas in this line of work were introduced and discussed. The rest of the meeting was left for general discussion and answering questions. At the close of the meeting light refreshments were served.

The object of this club is to bring more cooperation between florists of Southern Michigan.

Local Anglers Favor Abolition Of Spear

In an effort to aid the movement for abolition of the open law for spearing fish, Jacob Hummel and A. K. Collins, two of Chelsea's most enthusiastic anglers, sent the following message to the Director, Department of Conservation, at Lansing:

Chelsea, Mich., Mar. 2, 1931.
Director, Dept. of Conservation,
Lansing, Michigan.

Dear Sir:
Please see attached article on ice spearing which was cut from the Detroit News of March 1st, and which is very much to the point.

The same condition prevails on the lakes of this vicinity of which there are many, and from which many years of fishing with rod and reel convinces us the pike are surely being butchered to extinction by the spear and that it is too late even now in some of them.

As to the sport and sportsmanship, we fail to see any in the use of the weapon as required as to reach into a barrel of salt pork and grab a chunk.

The pike, when taken in a fair and sportsmanlike manner, gives fair battle and good sport, by junking the old weapon of butchery and extinction.

Respectfully,
Jacob Hummel and Art K. Collins,
"Two Old Fishers"

INJURED BY BUZZ SAW

Henry Helm, of Sylvan township, caught his left hand while buzzing wood Thursday morning on the farm of his mother, Mrs. James Helm, necessitating the amputation of the second and third fingers. He was taken to University hospital, Ann Arbor.

VILLAGE ELECTION TO BE HELD NEXT MONDAY

Two Complete Tickets in Field For Annual Election.

With the annual village election only four days away, there seems to be very little excitement among candidates whose names will appear on the ballots at the election on Monday.

However, it is expected that the remaining days of the campaign will be spent in making an effort to induce voters to go to the polls and exercise their right of franchise, with both parties seemingly confident of victory.

For the benefit of voters who have not yet given the matter of their choice serious consideration, we again print herewith a complete list of candidates on the two party tickets:

Independent Party
President—Paul C. Maroney.
Clerk—Bruce Plankell.
Treasurer—E. B. Hammond.
Trustees—A. E. Winans, Roy Harris and Claude Spiegelberg.
Assessor—A. E. Winans.

People's Party
President—Mahlon J. Dunkel.
Clerk—B. B. Turnbull.
Treasurer—M. W. McClure.
Trustees—L. P. Vogel, Jacob Hummel and J. Nelson Dancer.
Assessor—Martin Merkel.

The polls will open at 7 o'clock a. m. and will remain open until 6 o'clock p. m., Eastern Standard time. Take an interest in the affairs of your village government—no matter how you vote, go to the polls on Monday and cast your ballot!

Dandelion Greens On Menu Of Local Folks

The fact that Spring is fast approaching is becoming more realistic, if dandelion greens and galing are introduced into that joyous season which we all look forward to with a great deal of pleasant anticipation.

Mr. and Mrs. Reuben Hiebert report that they enjoyed freshly gathered dandelion greens last Thursday. The dandelions had been covered with straw, and were found to be growing nicely when the straw was raked off on Thursday.

Reports have also been received that that Mr. and Mrs. Harold Glazier, of Detroit, enjoyed a round of golf at Sylvan Estates on Sunday, and it is said the grass is about as green as it was during most of last summer! (We haven't forgotten the dry weather of last year, however.)

We are pleased to report that we have many subscribers who are lining up with us in the "heated" controversy with our Florida friends, and we print herewith a letter which we received during the week from one of our staunch supporters:

The Chelsea Standard,
Chelsea, Michigan.

Gentlemen:
I am quite surprised in the attitude that some of the "Chelsea Florida Sojourners" have taken regarding Dandelions vs. Ice. If these citizens had been more observing in the past they would have known that both extremes of weather are not unusual in Chelsea.

Almost any day in the middle of summer one can see VERN-FORD-ICE on the streets of Chelsea. Or n-ICE-THUGS at the N. W. corner of Main and Middle Sts. And even busses being HAILED at the same corner. Furthermore you can go into a lot of kitchens in Chelsea where the temperature is 75 degrees or warmer and you can feel the FRIGID-AIR. And in the gardens of the same homes you can see SNOW-IN-THE-SUMMER.

So why doubt a newspaper with a reputation like the Chelsea Standard?

Yours truly,
I. WILLIAMS.

FIRE DEPARTMENT CALLED

The Chelsea fire department was called out about 6:30 Wednesday evening when fire was discovered in a freight car which was full of haled hay and located on the M. C. siding near the buildings of the Chelsea Lumber, Grain & Coal Co. The hay had been placed in the car during the day by Jacob Bayer. The fire, of unknown origin, damaged a small quantity of the hay.

TO ATTEND CONVENTION

O. D. Luick and M. H. McGaffigan are among the delegates chosen at the Washtenaw County Republican convention held in Ann Arbor last week to attend the State convention which will be held in Kalamazoo on Friday of this week.

SELL GAS STATION

Mr. and Mrs. Wm. Wright, who for the past two years have conducted a grocery and gas station at North Lake, have sold their business to parties from Ohio.

Legion Recommends County Tax Fund

At a meeting of the local post, American Legion, held at Paul Maroney's cottage, Cavanaugh Lake on Tuesday evening, a resolution was passed recommending to the Washtenaw County Board of Supervisors that they collect a county tax which is provided for in Section 854 of the Compiled Laws of 1929.

It is said that this law makes it mandatory upon the Boards of Supervisors of each county to collect a tax net to exceed one-tenth of a mill on all taxable property in the county. The money so raised is to be paid into a special fund for the relief of honorably discharged soldiers and service men and their indigent widows and minor children.

An estimated sum of \$20,000 would be raised by such a tax. This fund would enable the ex-service men of the county to accomplish a great deal of welfare work which is now necessarily neglected, according to local Legion officers.

Truck Owners Must Have Special License

As a result of considerable argument among local truck owners on Tuesday of this week, Bert White telephoned the office of the Secretary of State, Lansing, to secure correct information as to whether it was necessary for truck owners who operate their own trucks for hire to secure chauffeur licenses. In answer to the telephone call, the following letter was received by Mr. White on Wednesday:

Department of State,
Lansing, Michigan,
March 3, 1931.

Bar A. White,
Chelsea, Michigan.

Dear Sir:

This is in reference to our telephone conversation of this date. According to the Michigan Motor Vehicle Law the term "chauffeur" shall mean any person operating a motor vehicle for hire, or as the employee of the owner thereof.

If the truck in question is being operated for hire, it is necessary that the operator of same obtain a chauffeur license.

Yours very truly,
Frank D. Fitzgerald,
Secretary of State

Jersey Cattle Club To Meet Saturday

The annual meeting of the Washtenaw County Jersey Cattle Breeders' club will be held at the Allene Hotel, Ann Arbor, on Saturday of this week. Following the banquet at noon, the business session, with election of officers, will be held.

H. E. Dennison, Field Man for the American Jersey Cattle Club, will deliver the principal address during the afternoon session. Geo. Cooper, of the Oaklands, Ann Arbor, president of the State club, and S. H. Latourette, state secretary, are expected to be present at the meeting.

Several Jersey cattle breeders of this vicinity will attend the meeting.

ENTERTAIN CAST

The local Kiwanis club entertained the cast which assisted in the presentation of "Minstrel Chukles", at their regular meeting on Monday night. Reginald Hartlake, of Ann Arbor, entertained with a varied program of instrumental music and song. The program was in charge of W. R. Daniels.

WILL DISPLAY OLD REAPER

A replica of the world's first reaper will be on display at Merkel Brothers' hardware store on Saturday, according to an announcement by that firm in the advertising columns of this issue of the Standard. A motion picture, "Romance of the Reaper," will be shown at the store at 10 a. m. and at 1:45 p. m. Free lunch will be served from 12 to 1 o'clock.

BIRTHDAY PARTY

Mrs. William Merker entertained eight children Sunday afternoon in honor of the birthdays of her granddaughters, Patricia Merker and Yvonne Merker. The afternoon was spent in playing games. Refreshments were served and a beautifully decorated birthday cake centered the table.

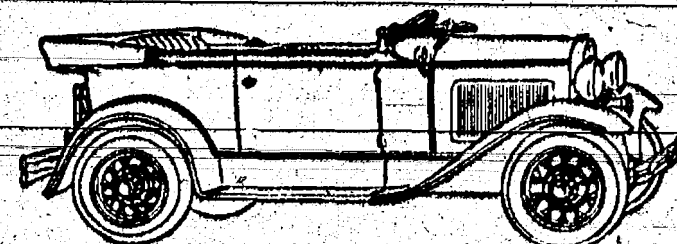

DRIVING OIL TRUCK

Arthur Wacker, who has been employed for some time by Palmer Motor Sales, has accepted a position as driver of one of the Standard Oil delivery tank trucks from the Chelsea station.

ENTERTAINS ALTAR SOCIETY

Mrs. William B. Birch was hostess to the members of St. Mary's Altar Society last Thursday evening, with four tables of "500" in play. Mrs. Earl Gilbert, of Detroit, was awarded high honors. Mrs. Joseph Helm received the house prize.

A Dangerous Embargo
Four Things You Need
A Big Copper Mine
Real Divining Rod

Los Angeles.—A gasoline price war holds public interest for the moment here. Standard Oil of California's cut of 2 cents, made to meet erratic price cutting, will be followed by deeper cuts by other companies. The oil situation is bad, and an elimination process will gradually weed out weaker or sisters. Then consumers that have been buying gas too cheap will even up matters by paying too much.

The antiquated Sherman act preventing common sense business arrangements makes conditions worse. Some American companies demand an embargo on oil from foreign countries. Powerful companies that own inexhaustible subterranean "lakes of oil" in Venezuela and elsewhere oppose the embargo.

They want to bring in their cheap foreign oil. They are protecting this country's interests, perhaps without knowing or caring. An embargo would hasten the exhaustion of American wells, putting consumers and the motor industry at the mercy of foreign well owners. What that would mean the country learned when Britain controlled rubber and regulated the price.

If you have four things, intelligence, energy, money and interest in the welfare of others, you can do good work.

Mrs. Greenway of Tucson, Ariz., has the four. She started a furniture factory, for ex-service men not sick enough for a hospital but needing recuperation in a perfect climate. That did much good. Then she built and is running a Tucson hotel, made up of separate bungalows, all furniture made by the service men, and all for sale to guests. Just at present the place is packed, but try to go there anyhow. If you go to Tucson, if you do not go you make a big mistake.

Such a woman as Mrs. Greenway finding a way to help men injured in their country's service, while she has with her profit and little thanks for herself, should be at least praised. (Mr. "Popper," Tucson's king of all nobodies, assures you that Mrs. Greenway is "an incomparable lady," putting the accent on "incomparable" on the ante-penultimate syllable, "gay.")

"She gave me," says he, "two tickets for the opera that cost at least \$5 apiece. It was called 'The Walkers,' and say, you never heard that kind of music in your life."

This endorsement of his Walkers would, gratify Wagner.

If you own copper stocks, you are engaged by proxy in an interesting, changing business and might learn about it by visiting the Cananea Copper mine, a little south of the Mexican border, near Douglas, Ariz. That mine had stock selling at \$8 a share, copper running as high as 40 per cent was found and the stock jumped to \$200 a share. Now the Anaconda Copper company owns it.

Cananea in normal times pays the Southern Pacific railroad a freight bill of \$1,000,000 a year. Mr. Weed, manager of the mine, a blue-eyed young American from the Michigan School of Mines, with his forehead leaning out above his eyes, learned the real business working in a mine after graduating. He continues learning the business by running one of the greatest mines on earth.

Altogether speculation and fruitless of fact often lead to scientific accomplishment. Chemistry is the successor to alchemy, seeking to change inferior metals to gold. And now the old divining rod, with credulity as its only asset, may be replaced by a "rod" that really locates what you seek.

A needle, called the Hotchkiss super alloy, described before the American Institute of Mining and Metallurgical Engineers, takes advantage of the fact that certain deposits distribute the earth's normal magnetic lines. In the hands of a prospector, knowing geology, that new divining rod is expected to reveal deposits of gold and other precious substances. You are not advised to invest in any such contrivance just yet, but you might speculate on this: What would be the effect on the world's gold standard nations if it became suddenly possible to multiply the gold supply by ten or a thousand at little cost?

Scientists say typhus fever is spread by fleas that bite rats, then humans. Recalling that Rocky Mountain fever spread by ticks, was conquered by "tick-take ammunition," the scientists suggest that a similar remedy for typhus may be made of the rat-bite flea. Ground up fleas as a medicine would not be pleasing.

Human beings and their governments should have the energy to eliminate rats. Then fleas could not bite them. Similarly, they should wipe out crooks, that supply the death germs of sleeping sickness to the victim fly.

Impossible? Suppose each rat contained a gold dollar and each crook a \$10 bill, how long would they last?

Turkey, seeking to uncover the facts, and also the legs of her women, starts a competition for "the most beautiful pair of legs in all Turkey."

**Question And
Answer Dept.**

Ques.—Was Philadelphia the capital of Pennsylvania at any time since the American Revolution? And how long has Harrisburg been the capital. When was Philadelphia the capital of the United States.

Ans.—The state government as instituted by Benjamin Franklin remained in force until 1776 when the province joined the other colonies in the fight for independence, and a provisional constitution was made by a convention presided over by Benjamin Franklin. In 1799 the state government was removed to Lancaster, which was the capital for thirteen years. In 1812 it was removed to Harrisburg. Philadelphia was the seat of the United States government just ten years—from 1790 to 1800, when it was removed to Washington.

Ques.—Will you please answer in your question column where Notre Dame College is located?

Ans.—Notre Dame College is located in San Jose, Cal.

Ques.—Will you please explain what "il duce" means as applied to Mussolini of Italy?

Ans.—"Il duce" is Latin, which, when translated into English means "the leader."

Ques.—What is the person's name who writes for leading daily newspapers and signs himself "M Quad"?

Ans.—"M Quad" is the pen name of C. B. Lewis.

Ques.—I would like to know when the automatic grain-binder was invented and who the inventor was?

Ans.—The automatic grain-binder was invented in 1879 by J. F. Appleby.

Ques.—Why was the 4th of March selected as the date for the inauguration of the president of the United States?

Ans.—The 4th of March for inauguration day came more by accident than design. A committee appointed by the Constitutional Convention selected the first Wednesday in March as the inauguration day for Washington's second term. That particular Wednesday happened to fall on March 4, which has been the date for each succeeding inauguration.

Ques.—What is the state motto for Minnesota?

Ans.—The state motto for Minnesota is "L'etoile du nord," meaning "The star of the North."

Ques.—Can you tell me what the difference is between cougars, panthers, mountain lions and pumas?

Ans.—There is no difference. They are simply different names for the same species of animal. This animal was given different names in different countries and sections, hence the many popular appellations for the same beast.

Ques.—I am told that Buffalo Bill's body was cremated and his ashes scattered to the four winds from a western mountain. Will you please tell me what mountain it was?

Ans.—Buffalo Bill's body was not cremated at all. In accordance with his will his body was placed in a vault cut out of solid rock on the top of Lookout Mountain, near Denver, Col. It was his wish that his body should rest in the wilds of nature, where he had passed most of his life "roughing it."

Ques.—Will you be kind enough to tell me in your question department what is meant by "mercized silk"?

Ans.—John Mercer, an Englishman, invented a process of treating cotton with chemicals that increased the color-absorbing qualities of cotton and also which gave it a silky gloss. Cotton thus treated was called "mercized silk."

Ques.—Can you tell me who wrote "The Old Arm Chair"?

Ans.—"The Old Arm Chair" was written by Eliza Cook.

Ques.—When and where was Sir Isaac Newton born?

Ans.—Sir Isaac Newton was born in Woolsthorpe, England, on Christmas day, 1642.

Great South American City Uruguay is the smallest country in South America and at the same time one of the most prosperous. Montevideo, the capital, is a fine city with some splendid buildings and boulevards. Here also are the greatest of the country's seaside resorts, Los Poeltos and Ramirez.

Knowledge and Happiness Better the pursuit of knowledge than the pursuit of happiness—particularly the knowledge of what the race is here for. That's something tangible. That is not saying happiness is not attainable—if you don't pursue it.

Japanese Sacred Flower The Japanese interpret the symbolism of the lotus as "the symbol of triumph over self; of extinction of the fires of passion; of abnegation and self-control." The flower is the token of all that is best in man and woman. It is the Buddhist emblem of death.

Make It A Habit To Meet Your Business Friends Here

**S**o very much depends on this one fearful peck of the finger. This man is NOT a polar bear. He simply CANNOT find happiness in an icy pool. "I get no pleasure whatever," he once confided to a friend, "in raising goose-pimples."

But should he find the water heated enough . . . ah, then! He'll slip into that summery sea 'til it blankets him up to the chin . . . splashing gently in a golden haze . . . drifting on drowsy waters. Truth is, he's

a bathtub dreamer—and, aren't we all?

Do you find a deceitful "hot" faucet one of life's bitterest disappointments? If so, let us demonstrate a Self-Action Gas Water Heater for you. It brings an unfailing supply—at the ideal bathing temperature—in unlimited quantities. Built like a thermos bottle, it operates itself. Costs but a few pennies a day. Come in!—we'll give you the facts.

SCHOOL NOTES

Another game for Chelsea! Even if Chelsea didn't come and support the girls at Saline, they won!

It was a mighty fast game. At the end of the first half the score was 9 and 10 in favor of Chelsea. After the half both girls' teams came back with hopes of winning. Tying at 11 and then 13, Chelsea seemed to gain on Saline for to Saline's 2 baskets Chelsea made 6—making the final score 21 to 17 in Chelsea's favor.

FARCE "CHARLEY'S AUNT"

PLAYS WUERTH THEATRE

"Charley's Aunt," the Columbia farce of Oxford University life, produced by Christie, comes Sunday to the Wuerth Theatre, Ann Arbor. It has been acclaimed by press and public wherever it has played. The reason for the enthusiastic acceptance of this farce is that it is a long succession of laughs. Four hundred and twenty-two sure fire laughs have been counted. The simple, hearty fun that follows on the wild students' trick of turning a chum into an old lady so that their sweethearts should be encouraged to visit them under "protection" convulses audiences everywhere.

Great care was lavished in bringing this play by Brandon Thomas to the screen. The role in itself was such a riot that the most outstanding comedian on the screen today had to be chosen for its portrayal. It is none other than Charlie Ruggles, who is in a class by himself so far as sophisticated comic portrayals are concerned. It is a difficult role indeed, and required unusual ability. It is the first time that a female impersonation was to be played on the talking screen.

Lulek, and Mr. and Mrs. Henry Lulek.

MRS. JOHN MCKERNAN
Mrs. Helen Tiplady McKernan, widow of the late John McKernan, passed away at 9:30 Tuesday morning, March 3 at the home of her daughter, Mrs. Harry O'Brien, Chicago.

Mrs. McKernan was born November 12, 1850 in Pluckney, the daughter of Johnson and Catherine (Lacy) Tiplady. She was married in 1877 to Mr. McKernan, and they resided on the farm in Lyndon township until 1926, when they moved to Chelsea. Mr. McKernan died May 24, 1927.

Surviving are four daughters, Mrs. O'Brien and Lucile McKernan, of Chicago; Mrs. James Ryan, of New York City, and Mrs. E. R. Sullivan, of Detroit; two sons, Eugene, of Lyndon, and Edward, of Detroit; one brother, Frank Tiplady, of Pluckney, 10 grandchildren and two great grandchildren.

Funeral services will be held at 10 o'clock Friday forenoon at St. Mary's church, Rev. Henry Van Dyke officiating, with interment in Mt. Olivet cemetery.

Marvelous Precosity
Pascal, the great French philosopher and scientist, at the age of twelve, with a few strokes and circles, discovered mathematics. At sixteen he had written the most learned treatise on conic sections known since classical times.

John and George, small sons of a Baptist minister, after listening to one of their father's sermons, decided that they must baptize their family of cats. The kittens made no objections. But when it came to the mother cat, she rebelled—and fought—and scratched—until at last John remarked: "Just sprinkle her, George, and let her go to hell."

NORTHVILLE—"A man in Massacusetts wanted a piece of furniture repaired and, looking through the office files, he uncovered an old ad dated back to 1888. He sent us the part to be repaired, addressing the parcel to the 'Michigan School Seating Co.,' which was the former name of the Globe Furniture company, and remarked on the fact that ads which ran 43 years ago are still bearing fruit.—Record.

Refusal of several property owners to sell land to the State for use as a right-of-way for high tension transmission lines of the Consumers Power Co. threatens to delay, perhaps for a year, the repaving and widening to 40 feet of the Dixie highway between Frankenthum Junction and the southern boundary of Saginaw County, a project planned for the coming summer. Grover C. Dillman, State highway commissioner, has asked the attorney general's department to institute condemnation proceedings to take the needed land.

Two bills providing for the consolidation of two or more counties or two or more townships, on petition of 5 per cent of the voters in each political unit and a majority vote in each unit, was introduced by Rep. James N. McBride, of Burton. Officers of the newly formed county or township would be appointed by the Governor from those holding corresponding offices in the old political subdivisions and they would serve until their successors were elected in the next general election.

Bones found in the ashes of a cabin near St. Ignace revealed the deaths of Isaac Payton, of St. Ignace, and Jerry Klogins, of Cross Village. Klogins and Payton were together in the home when Payton's wife left to visit friends, with whom she spent the night. When she returned home the next day she discovered the cabin had been destroyed. Searchers found the bones of two men in the ruins. The cabin was a mile and a half west of St. Ignace.

A 13-year-old boy burglar, who made the mistake of flashing a toy pistol when about to be captured was killed instantly. He was Donald Ashcroft, son of Curtis Ashcroft, of Muskegon. The boy was shot in the chest with a shotgun as he emerged, a cap pistol in hand, from a home which he had ransacked. Nels Skottee, head of the St. Ignace fire department, and active in lodge and civic circles, fired the shot after he had caught the boy prowling in a neighbor's home.

The St. James hotel in Rochester, probably the village's oldest landmark and a tavern more than 80 years ago when Rochester was an outpost in the wilderness surrounding Detroit, was gutted by fire which caused damage of between \$2,500 and \$3,000, according to Fire Chief George Axford. Although the two-story frame building was still in use as a hotel, it enjoyed its greatest prosperity more than 30 years ago when it was known as the Lamberton house.

The Detroit Broadcasting company, giving its address as the Detroit Le-lan-hotel, amended its application to the Federal Radio Commission for authority to erect a new broadcasting station, to ask for the wave length of 590 kilocycles and power of 500 watts. The 590 channel is now used in the daytime by WKZO, Warren Springs, and the nearest stations on it at night are in Nebraska. Previously the station had asked for 1,200 kilocycles with 100 watts.

One hundred recently naturalized citizens, who were graduated from the Americanization class of the Highland Park schools, were taken to Lansing in school buses recently. They were escorted by 146 friends and relatives in automobiles. The group filled the hall of the House of Representatives, where the new citizens were presented to Gov. Brucker by Mayor Shields, of Highland Park.

Charles Korski, Michael Korski and Charles Raisanen, of Muskegon, arrested by conservation officers, were convicted of having killed seven deer in the vicinity of Minersville for commercial purposes. Each was fined \$100 and costs and given 30 days in the Alger County jail in default of payment they will serve 90 days more.

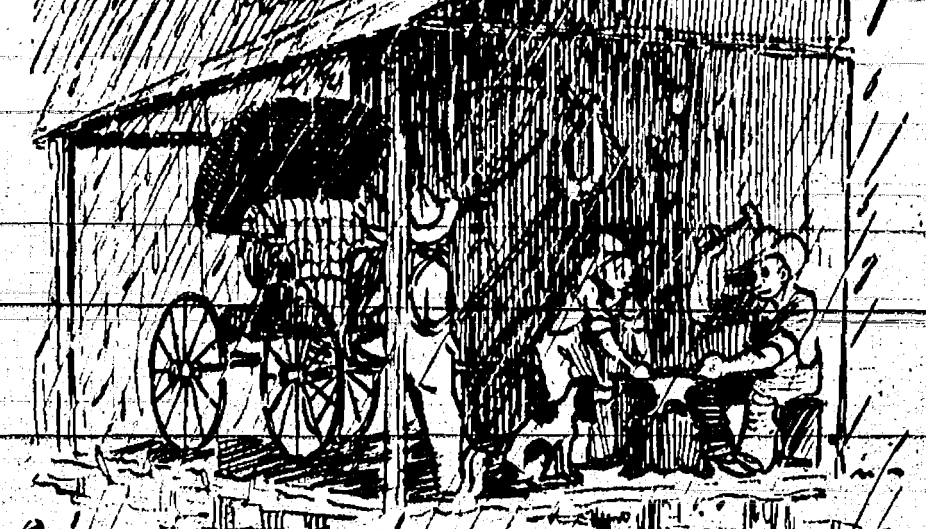

On the honor roll of stations which have remained on their assigned wavelength, deviating less than 100 cycles, are WJR and WNBC of Detroit. The report has just been made by the radio division of the department of commerce at Washington. Stations are allowed a variation of 500 cycles.

Purchase for a public park of a portion of a 700-acre tract of land Cass County known as the "Newton Woods" as the Conservation Department shall deem suitable, is provided in a bill introduced by Rep. Otis Huff, of Marcellus. The bill appropriates \$60,000 for the purpose.

While a majority of the best sugar plants in Michigan and nearby states are not expected to be operated this year, at least one Bay City unit, and possibly two others, will be manufacturing. It has been definitely determined that the West Bay City Sugar Co. unit will be operated. The company's contracts are to go to farmers March 1. W. H. Wallace, Saginaw, general manager of the Michigan Sugar Co., has announced that at least seven of the company's eight Michigan plants will be idle.

The Rainy Day

by A. J. Dunlap

Gray clouds scudding overhead,
Cattle huddling in the shed,
Horses idly eating hay—
That's the old farm's rainy day.

Just the time to tinker things:
Broken harness, hooks and springs;
Shell the feed corn, fix a bin,
Where a rat had chiseled in;
Trim a hoof, or clip a mane,
Mend a rod or patch a seine;
Build a feed box for old Nell,
While the dashing raindrops fell—
Work like that was only play,
On the old farm's rainy day.

THE OLD FARM SERIES

Michigan Happenings

In Saginaw a three-hour joy ride in a stolen automobile ended with a wreck, the injury of the two-year-old joyrider, and their apprehension by the police. While one boy was explaining to his parents how he received a nose fracture and head lacerations, and the other was describing the same fight that brought the loss of his front teeth, police arrived at their homes with the story of how the boys had taken a parked car, owned by Charles Morley, to go for a ride. The trip ended when the car struck a pole.

Sixty-two inmates of the Michigan State Prison at Jackson were given sixth-grade certificates by the State Department of Public Instruction in the first graduation exercises since the prison educational department was established a year ago. The exercises were held in the auditorium at the new prison. Dr. Paul F. Voelker, president of Battle Creek College, delivered an address. The audience was composed of inmate students. The prison school enrollment is now 1,300, including 1,000 in regular daily classes and 300 taking advanced work.

Visitors and exhibitors, who attend the All-American Aircraft show April 11 to 19 in the main hangar at Detroit City airport, will see near completion one of the country's most modern municipal airport developments. Since last year's aircraft show drew through the big hangar more than \$100,000 has been spent for major improvements. It is estimated that when all the development work now projected is completed, the city's 260-acre aeronautical plant will be worth \$10,000,000.

Heavy losses from death among loud-

ing faculty men; financial advances, including gifts totaling more than \$18,000,000, and an increase of some \$2,000,000 in the value of the educational plant, and alterations in organization marked the last school year at the University of Michigan, according to the annual report of President Alexander C. Keith, which was made public at Ann Arbor. The university's educational plant, at the end of the year, was worth \$37,245,688.

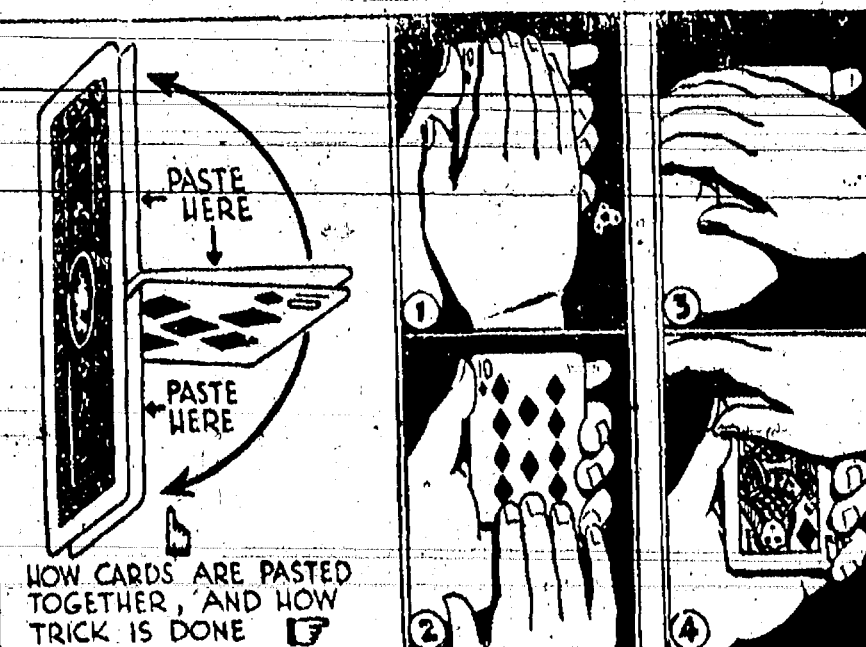

Few reports of hardship among Michigan farmers because of a shortage of water have come to the State Department of Agriculture, according to Peter Dukeshner, deputy commissioner. "The summer and fall were unusually dry," said Mr. Dukeshner, "and the rainfall and snowfall of the winter have been light; but the reports coming to us do not indicate a serious situation in this state. We do not believe conditions in Michigan will become serious unless the rainfall of the spring is less than usual."

Michigan has fewer unaturalized aliens than in 1920, in spite of an increase in the total foreign-born population of the state, according to census figures placed in the Congressional Record by Rep. Clarence J. McLeod. The foreign-born population, according to the 1930 census count, was 342,263, as compared with 228,685 in 1920. In 1930, however, 51.8 per cent of the foreign-born had sought and obtained citizenship, while in 1920 the percentage of those naturalized was 47.5.

Michigan's "sweet tooth" called for consumption of 15.24 pounds of candy for every man, woman and child in the state during 1929, according to the department of commerce at Washington, D. C. This made the state tenth in per capita consumption and 17th in total number of pounds consumed. The total amount of candy consumed in Michigan that year is shown to have been 71,529,579 pounds, an increase of 11,854,000 pounds over consumption in 1928.

TRICKS of MAGIC EXPLAINED by Will Lindhorst

HOW TO CHANGE ONE CARD INTO ANOTHER

Three cards are used in preparing for this trick. Two of the cards are folded in half, and one-half of each is pasted on the face of the third card, which remains straight. The cards are pasted so the creases meet in the center of the third card, and this leaves the other two halves standing upright with backs to each other. These are then pasted together, and you will find that by bending them in either direction you will be able to change one card into the other. When you are ready to present the trick, hold the cards in your left hand with the upright part flat, so that it appears to be one card. Then pass your right hand over it, in the manner shown in the above drawing, and release the fingers of your left hand which holds the cards flat. As the hand passes over the cards it draws the bent part down or up, according to which way it is moved, and at the same time covers the movement of the card, so that when the hand is withdrawn the card will have changed into another. It is necessary to stand away from your audience so that the creases in the cards do not show.

A message has been received from R. C. Durant, former racing driver whose \$350,000 home near Roscommon burned recently, giving assurance that he will "renew operations shortly which will add more to the community program than heretofore." The message was in reply to a telegram of regret sent him by Roscommon business men. Durant's statement was taken here to mean that the home will be rebuilt.

Capt. John H. Oles, in charge of the Port Huron Coast Guard station, has been notified that work on a new Coast Guard station on the Fort Gratiot Light House Reservation, for which Congress appropriated \$35,000, will begin in the spring. The present station is seven miles north of there on the shore of Lake Huron, where it is difficult to launch life boats in a storm.

Parole Commissioner Harold J. Waples paid his first visit to Michigan State Prison, at Jackson, joining Deputy Commissioner M. D. Kirby at hearings for 210 inmates. Paroles were recommended in 110 cases, with the stipulation that the prisoners may not be released unless they can give assurance they will have employment or maintenance outside.

Stricken by a heart attack as a skidding car threatened to crash into his automobile, Eli Ashby, route 1, Pontiac, died at the wheel. The automobile halted after jumping a curb and striking a tree. Francis Van Horn, 20 years old, was the driver of the second car. Ashby was serving on the Circuit Court jury.

Mrs. Elias Culver, 70 years old, died in a Mason hospital of burns suffered when a gas explosion blew the side from her home. Neighbors who heard the explosion broke in the locked doors, beat out the fire on Mrs. Culver's clothing and carried her out. They reported she was tied in a chair near the gas stove, all burners of which were open. Officers said a note addressed by Mrs. Culver to her husband indicated she had planned to take her life. A candle left burning in an adjoining room ignited the gas.

Original "Alarm Clock"

The story is told of Aristotle that his horse of study was so great that he devised the plan of holding in his hand while at work a ball of copper, which, if he fell asleep, would cause him by falling into a great basin.
