### St. Paul's Choir Will Give Easter Cantata

St. Paul's Choir, under the direction of Paul F. Niehaus, with Helen Lambert as accompanist, will render the Easter Cantata, "Our Risen Lord and King," by Cuthbert Harris, at St. Paul's church Sunday evening, March 29, at 7:30, to which the public is invited.

Members of the chorus are as follows: Sopranos—Oleta Seitz, Evelyn Mayer, Ruth Niehaus, Kathryn Kusterer, Anna Schneider, Verna Adams; Alto—Olga Strieter, Virginia Dabour, Amanda Koch, Mary Schneider, Lisetta Widmayer; Tenors—J. Fred Barais, Paul Harbour, Austin Faust, Donald Adam; Basses—Carl Mayer, Alfred Mayer, Paul Niehaus.

The program is as follows:  
Prelude—Selected, piano solo—Helen Lambert.  
"Sing and Rejoice", soprano solo—Ruth Niehaus. Quartette: Kathryn Kusterer, Olga Strieter, Austin Faust, Paul Niehaus, and Choir.  
"And When They Come", tenor solo—Austin Faust.  
"The Night of Sorrow"—Choir.  
"Faith's Testing", soprano solo—Ruth Niehaus.  
"Easter Dawn", bass solo—Paul Niehaus. Women's voices, men's voices, and Choir.  
"There Was a Great Earthquake", bass solo—Paul Niehaus and Choir.  
"They Have Taken Away My Lord", tenor duet—J. Fred Barais and Austin Faust, and chorus for women's voices.  
"Behold, He Is Not Here", bass solo—Paul Niehaus.  
"Christ Is Risen From The Dead", Choir.  
Offertory—"I Know That My Redeemer Liveth", contralto solo—Helen Lambert, with Oleta Seitz as accompanist.  
"Go Quickly and Tell"—Choir.  
"If a Man Die"—Chorus for men's voices.  
"Behold My Hands", soprano and tenor solos—Ruth Niehaus and J. Fred Barais.  
"We Know Thee By Thy Pierced Hands"—Choir.  
"The Redeemed of the Lord", tenor solo—J. Fred Barais.  
"Sing Ye To the Lord"—Final Chorus by the Choir.

### Special Farm Train Here On April 11

Any farmer of the county who has a problem relating to hay or pasture for 1931 will have an opportunity to discuss it with specialists from the Michigan State College when the "Emergency Pasture and Hay Train" being operated over the New York Central lines is here on April 11, from 10 a. m. to 3 p. m.

According to H. C. Rafter, head of the Farm Crops Department of the Michigan State College, those farmers that had plenty of alfalfa last year, are not suffering much for good live-stock feed this year. The specialists will emphasize the necessity of greater alfalfa acreage for permanent hay and pasture, and will recommend emergency crops for 1931 while waiting for new seedlings of alfalfa.

Mr. Rafter will be on the train while it is here and other members of the Michigan State College who will assist are Dr. C. E. Millar, and Professor G. M. Grantham of the Soils Department; Professor G. A. Brown of the Animal Husbandry Department, and J. G. Hays of the Dairy Department.

While a special group of farmers have been asked to attend and relay the information back to their neighbors in a series of community meetings, the train is open to the public. Besides a car for lectures and discussions, a car of exhibits will also be used.

### SHOW STORY OF GASOLINE

Representatives of Standard Oil Company (Indiana) were present at the Monday evening meeting of the local Kiwanis club and showed moving pictures of "The Story of Gasoline" taken by the United States Department of the Interior with the co-operation of the Standard Oil Company. The pictures were very interesting, showing the crude oil as it is taken from the earth, and all operations necessary in the refining process. M. H. McGaffigan was in charge of the program.

### TO CONFIRM CLASS

Confirmation services will be held Sunday, March 29, at Zion Lutheran church, Rogers Corners, with Rev. M. W. Brueckner in charge. The confirmands are Elmer Bristle, Elsie Loether, Wilhelmus Scott, Johanna Brueckner, Carl Heller and Virginia Scott.

### WINS EGG PRIZE

Wallace Wood, member of Sylvan 4-H club, has received word that he won second prize on one dozen brown eggs, also Reserve sweepstake ribbon, at the Michigan State Egg Show, held at the Michigan State College during Farmers' Week, the first of February.

### Good Friday Proclamation

To the citizens of Chelsea:  
I hereby call your attention to the observance of Good Friday. Good Friday properly observed does in a very special manner bring the meaning of the sacrifice of Christ definitely before us. Good Friday is the sixth day of Holy Week, and the culmination of that week as well as of the Lenten season. It is the anniversary of the death of our Lord, and is meant to emphasize the truth connected with His crucifixion. Because He, by His death, obtained for humanity the highest good, it is called Good Friday.

Therefore I, Paul C. Maroney, President of the Village of Chelsea, respectfully request that on the third day of April in the year of our Lord 1931, during the hours of twelve o'clock noon until three o'clock p. m., all the regular business activities of our city be suspended, thereby showing reverential respect to our blessed Lord, and affording opportunity to all Christian worshipers to perform their acts of devotion at the services arranged for by the several churches of Chelsea.

Respectfully,  
Paul C. Maroney, President.

### Chelsea Churches To Observe Good Friday

The Protestant churches of Chelsea will unite in a service to be held at 1:30 p. m. on Good Friday, at St. Paul's church. Following is the order of service:  
Song—Congregation.  
Prayer—Rev. Henry W. Leitz.  
Anthem—"O Heavly the Voice of Jesus"—By Ira H. Wilson—St. Paul's Choir.  
Scripture Reading—Rev. Harry Patton.  
Song—Congregation.  
Sermon—"And They Crucified Him Between Two Thieves"—Rev. Albert E. Potts.  
Anthem—"O, Come and Mourn"—By Carrie B. Adams—St. Paul's Choir.  
Lord's Prayer Benediction.  
Dismissal.  
Postlude.

### President Maroney Makes Appointments

At a special meeting of the Chelsea common council held Monday evening, President Paul C. Maroney made his appointments for the coming year as follows:  
President Pro Tem—Dr. A. A. Palmer.  
Street committee—L. B. Lawrence, A. E. Winans, Claude Spiegelberg.  
Sidewalk Committee—Roy Harris, A. G. Hindelang, Claude Spiegelberg.  
Chelsea Electric and Water Department Committee—A. G. Hindelang, Dr. A. A. Palmer, A. E. Winans.  
Finance Committee—Dr. A. A. Palmer, L. B. Lawrence, A. E. Winans.  
Fire Chief—H. F. Brooks.  
Marshal—Wm. Atkinson.  
Health Officer—Dr. Andros Gulde.

### Former Local Man Robbed In Lansing

The following item concerning the robbery of Wayne Beatty, a former Chelsea resident and a son of the late Rev. and Mrs. Beatty, is taken from the Williamson Enterprise:  
Mr. and Mrs. Wayne Beatty, former residents here, had a rather exciting experience last Saturday night. Mr. Beatty is manager of an A & P store at Lansing. Saturday night, after closing the store and upon entering their home in Chesterfield Hills, Mr. and Mrs. Beatty were met by a pair of thugs, who held them at the point of a gun, taking what money Mr. Beatty had in his pockets, and ordered them to return to the store for more money in the store. At the store the hold-up men held Mrs. Beatty while Mr. Beatty entered the store to secure the day's receipts. The thugs then drove the Beatty auto with Mr. and Mrs. Beatty into the country, where they ordered them out. The Beatty machine was later found where the thugs had abandoned it.

### ATTENDS CONVENTION

Emmanuel J. Rahmiller attended a Michigan Threshers' convention, held Thursday at Korns Hotel, Lansing. The machinery was exhibited on the grounds of the Pere Marquette Railroad.

### MARRIED IN TOLEDO

The marriage of Miss Marjorie Tompkins and Mr. Philip Stowell, both of Chelsea, took place in Toledo on Monday, March 23, 1931.

### Annual Meeting Of 4-H Club Held Here

About seventy-five were present at the annual meeting of the Lima 4-H club held Tuesday evening at the public school auditorium, including the parents of the members. A pot luck supper was served at 7 o'clock. The tables were arranged in the form of an "H", and decorated with the club colors, green and white.

The supper was followed by the business meeting, at which Walter Seitz was elected president, Harold Gross, vice president, and Leo Ziegler, secretary-treasurer.

A program, in charge of Arthur E. Hagen, county club agent, was presented as follows, with Clarence Redeman, presiding as toastmaster:  
"Why Girls Should Join the 4-H Club"—Ruth Barth.  
"Trip to the International Stock Show at Chicago"—Walter Seitz.  
Vocal Duet—"Springtime in the Rockies"—Wayne Wiseman and Edgar Orbring.  
"Duties of Parents to the Club"—Mr. Hagen.  
Music—Orbring's Orchestra.  
Playlet—"The Courtship of St. and Sally"—Virginia Finkbeiner and Glenn Wiseman.  
"The Duties of the Leaders Toward the 4-H Club"—Walter J. Beutler.

### High School Band Appears In Concert

(By Margaret Heselshwerdt)  
The Chelsea high school band made its second appearance Thursday evening, March 19, in the auditorium. A very large crowd was in attendance, and they were certainly well rewarded. The band has improved and is certainly a great credit to the school and the town. Besides the numbers played by the entire band, there were solo numbers by Duane Weiss, Fredrick Strieter, and Olan Hart. The Panarites Trio also favored with two numbers.

Much credit must be given Wesley Smith who has been using his time and talent in the interest of this band. Now is the time to boost this organization and keep on boosting. It's the Chelsea public school's band and let's make it that.

The following letter was received this week from R. A. Campbell, faculty manager of the University of Michigan band:

Director of High School Band, Chelsea, Michigan.  
Dear Sir:

On Thursday, March 26th, the University of Michigan band is giving a complimentary concert in Hill Auditorium.

The director, Mr. Falcone, and myself are very pleased to send you an invitation to be present as our guests on this evening. The concert will begin at 8 o'clock and we will be glad to have you come with your band and if agreeable to you, have them in uniform. This is going to be a very fine program and, no doubt, your boys would enjoy spending the evening with us. This invitation is also extended to anyone else who would like to come from your school and city.

Trusting that we may have the pleasure of your company, I remain,  
Very truly yours,  
R. A. Campbell.

### BIRTHDAY DINNER

Mr. and Mrs. A. R. Jones entertained at a birthday dinner at their home on Sunday, Mr. and Mrs. Emerson Lesser of Sylvan, Mr. and Mrs. Harry Serviss of Grass Lake, and Mr. and Mrs. Bha Alexander of Chelsea, celebrating the anniversaries of Mr. and Mrs. Jones and Mrs. Lesser. A decorative color scheme in yellow was carried out with a center piece of yellow daffodils, and slender yellow tapers, while a feature of the dinner was a birthday cake illuminated with tiny yellow candles.

### ATTEND BRIDGE LUNCHEON

Twenty-five Chelsea ladies were in Ann Arbor Saturday afternoon, where they attended a bridge luncheon given by Mrs. Frank Stadel at her home on East Huron street. A delicious two-course luncheon was served at one o'clock. Seven tables were in play and high honors were awarded Mrs. J. L. Fletcher and Miss Nina Crowell, and Miss Nina Belle Wurster received low honors.

### ENTERTAIN TACHEZ CLUB

Mrs. Anna Werner and Mrs. Josephine Roy entertained the Tachez club at the home of the former on Monday evening. Three tables of five hundred were in play and honors were awarded Mrs. Winifred Ulrich and Mrs. Florence O'Hara. Plenty refreshments were served.

### ENTERTAINS BOY SCOUTS

Mrs. Jabez Bacon entertained the members of the Ram Patrol Boy Scouts Wednesday evening, in honor of her grandson, Bonnie's 13th birthday. The evening was spent in playing games. Refreshments were served.

## Every User Likes the New John Deere

### THE LIGHT-DRAFT SPREADER WITH THE BEATER ON THE AXLE AND THE BOX-ROLL TURN

Because of its distinctive features which permit better work, lighter draft and easier loading, the New John Deere 3-beater, tight-bottom spreader with the beater on the axle and box-roll turn appeals to everyone who has seen it.

The low down box does away with high pitching the hard work in manure spreading.

High drive wheels, roller bearings, large non-wrapping four-bar upper beater, and fewer moving parts make it easier pulling for your horses.

The beaters are low down—manure is released close to ground for more uniform spreading—manure does not drift.

Box-Roll Turn permits short turn-arounds without tipping.

You can make a one-man lime-spreading outfit out of the New John Deere by using the low-cost lime-spreading attachment which we can furnish.

If He Returned  
Too Many Killings**Maud S. trotted a mile in a little  
over two minutes, and William H.  
Vanderbilt, who drove, was proud.  
An Englishman recently drove his  
automobile at the rate of 240 miles an  
hour, and flying machines have gone  
above 300 miles an hour.All that is amazing. But think of  
Mount Wilson astronomers, "timing"  
stars that go 1,650,000 miles in a mi-  
nute, stars distant from us 120,000,000  
light years, which means the distance  
that light could travel in 120,000,000  
years, going 186,000 miles a second.Those swiftly moving stars and  
nebulae are far bigger than our sun,  
which is a million times bigger than  
our earth.Whoever believes that a universe  
of that size and speed has been man-  
aged by chance, without direction, for  
thousands of millions of years, could  
believe anything.John D. Rockefeller, Jr., is building  
in the heart of Manhattan Island,  
which is the heart of Greater New  
York, a group of magnificent buildings  
to house a great radio theater, broad-  
casting station, offices, shops, perhaps  
a new Metropolitan Grand Opera  
house.Mr. Rockefeller's agents have just  
ordered \$10,000,000 worth of steel for  
his buildings, 125,000 tons of it. "The  
Steel" will supply it.The Rockefeller enterprise, to be  
finished in three years, will employ  
8,000 to 10,000 men at good wages.It's a good thing to have many dol-  
lars, even a billion or more, assembled  
in one collection. That makes big  
things possible, just as a collection of  
many drops of water at Niagara  
creates power.Miss Christina Plankhurst, daugh-  
ter of courageous British suffragette,  
Kathleen Plankhurst, says she will  
live to see the second coming of  
Christ. It will not mean the world's  
end, but there will be no doubt about  
it. He will not come "in poverty,  
weakness and humility, but in all his  
majesty. With demonstrations of di-  
vine power more miraculous than any  
of the miracles of modern science."First, it occurs to you that anything  
more miraculous than modern science  
would be very miraculous.Second, you feel quite sure that if  
Christ came to earth now, preaching  
as he preached 1,900 years ago, imma-  
nation authorities of the United  
States would keep him out and ad-  
vise him to go to Russia. He told the  
rich man to divide his wealth among  
those that had nothing.There is too much crime in this na-  
tion. Consider the case of New York  
city, for instance. In 1930, police  
records show 408 murders, including  
37 killed by police discharging their  
duty.Sixteen husbands killed their wives;  
15 wives killed their husbands; great  
self-control comparatively on the part  
of wives. Of those killed, 316 were  
shot, 78 were stabbed, 68 were black-  
lacked or otherwise hammered to  
death, 10 strangled, 2 burned to death,  
3 thrown from windows, 18 killed by  
gun, 2 drowned, 1 killed by acid throw-  
ing, 16 cases of infanticide."Citizenship is only the art of dis-  
cussing, as the French say, Russia work-  
ing on a five year plan begins to real-  
ize it."Bolshevism thought all the evil was  
with the employers, all high virtue  
with the workers.But at present Russia, an employer  
on a gigantic scale, faces employers'  
difficulties, and realizes that the gen-  
eral proletarian is not always 100 per cent  
perfect or devoted.Russia has been obliged to pay high-  
er wages for better work, giving up  
the theory that all men are equal,  
which they are not.By the end of the five-year pro-  
gram, which may be a success, al-  
though Wall Street has been "hold-  
ing its thumbs" hoping it wouldn't,  
Russia's rulers will know many em-  
ployers' problems.If the government succeeds in mak-  
ing an industrial nation of a collection  
of 200,000 Russian villages and 100,000,  
000 Russian farmers, Russia will grow  
significantly rich. Then the leaders  
will change their views, as they do  
everywhere else, where money flows  
in and radicalism ebbs.The misfortune of the individual,  
thanks to human nature, which is  
fundamentally good, often brings a  
blessing to others.Robert C. Fuller of Connecticut en-  
dured the agony of seeing his wife  
die of cancer. He is dead now, and  
in the Anna Fuller fund, in her mem-  
ory, leaves \$1,000,000 to fight the  
world's most dangerous disease.The money will be spent to alleviate  
cancer suffering, to study its cause  
and treatment, and wise provision to  
educate the public as to prevention  
and treatment of cancer.New York reports a new kind of  
killing. It was done by criminals  
to "shut the mouth" of a young woman  
named Georgia Gray. She is dead  
of double pneumonia, and the Anti-  
Crime society believes that the pae-  
nomic germs were administered to her  
as a method of silencing her. It was  
successful.

Miss Maritta Wolf visited relatives in Ann Arbor over the week-end.  
The Ladies Aid Society of the Sharon Community church will meet with Mrs. Albert Farley, at her home in Grass Lake, on Thursday, March 26. A pot-luck dinner will be served.

## NORTH LAKE

(Received too late for last week)

Mrs. Charles Dearing died at her home near Jackson, March 19. Mrs. Dearing was a former resident of this community and the mother of Mrs. Mary Gilbert of this place. She leaves to mourn her loss her husband, a son, Ward, her daughter, Mrs. Mary Gilbert, and several grandchildren. Besides Mr. and Mrs. A. Gilbert and family who attended the funeral on Monday from here were Mr. and Mrs. Henry Gilbert and Mr. and Mrs. Homer Stofor.  
Born, on March 4, to Mr. and Mrs. Ernest Hudson, a son.

Mr. and Mrs. E. W. McDaniels recently received a crate of Sunburst oranges from James Gilbert of River side, Cal. The oranges were purchased at the Orange Show at San Bernardino, Cal., and were of rare quality.

## Farmers Warned To Check Seed Source

A warning that Michigan farmers, seeking bargains in low priced seed, are likely to secure stocks of very low quality is being sent out by the farm crops department at Michigan State College.

Tests of four lots of so-called bargain seed, purchased recently by Michigan customers from an extensive advertiser and mail order distributor of seed for which great bargain values are claimed, shows that not one of the lots is fit for planting.

"One lot of alfalfa seed described as a 'star bargain of the first magnitude' showed under the tests here only 51 per cent germination and 12 per cent hard seed, leaving 37 per cent dead," says Prof. H. C. Rafter, head of the college crops department. "This was about what would be expected in view of large amounts of brown seed screenings which this lot contained."

"Furthermore, the seed contained well over 5,000 weed seeds per pound, including ten different species—principally foxtail and Russian thistle. The price of \$9.60 per bushel plus postage for this seed makes the actual cost of the fairly sound alfalfa seed in the lot about \$20.00 per bushel, or \$3.00 a bushel more than the price for which high quality, northern grown common may be purchased in this state."

"Other lots at hand are similarly of inferior quality, and the planting of any one of them at the usual rates would involve the distributing of 50,000 to more than 100,000 weed seeds per acre, including some of the most dangerous pests. One lot at hand is sweet clover which, if seeded at 15 pounds per acre, would distribute nearly 2,000 mustard seeds per acre—a source of trouble for years to come."

"It is much safer for farmers to buy high quality seed at the usual market prices than to gamble on mail order bargain seeds. If economy in the purchase of seed is necessary, it may be accomplished in the lowering of the rate of seeding per acre with satisfactory results and no noxious weed dangers. Reliable seed may be purchased from Michigan dealers and seed companies operating under the Michigan seed law."

## BUICK MOTOR COMPANY SPEEDS MARCH PRODUCTION

Production of the Buick Motor Company for the month of March has been stepped up eighteen per cent over the production schedule of the same month last year. In March, 1930, the factory turned out 8,696 cars while the schedule for this month calls for 10,271 units. E. T. Strong, president, announced this week.

Factory activities this month also represent an increase of 30.2 per cent over the production schedule of last month. Dealer stocks across the country are reported normal with a constantly increasing demand for new cars, a demand which is expected to result in additional production schedule increases for the month of April.

In announcing the increased production figures, Mr. Strong expressed confidence in a steady increase in business in virtually all major lines during the coming spring and summer months.

# FORD SAFETY

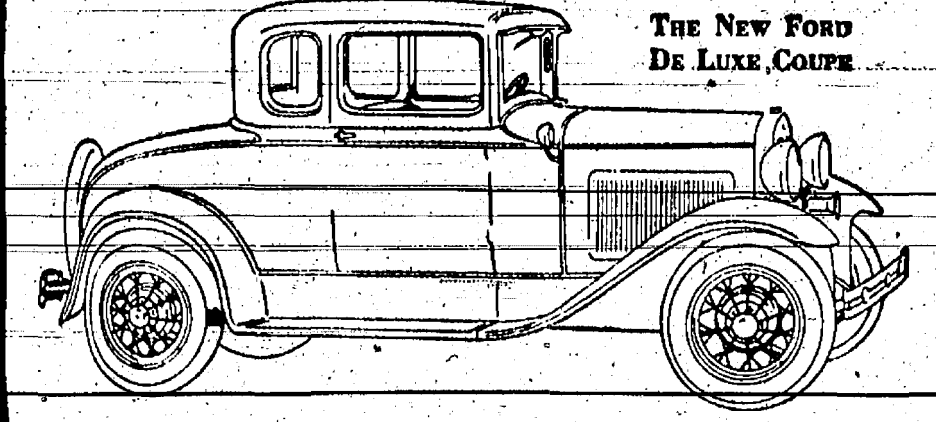

**Triplex shatter-proof glass windshield has saved many lives in collisions**

EVERY new Ford is equipped with a Triplex shatter-proof windshield. This is made so that the glass will not fly or splinter under the hardest impact. It has saved many lives and prevented injuries in many automobile collisions.

This shatter-proof glass windshield is just one of many features that make the new Ford a value far above the price. Others are the silent, fully enclosed four-wheel brakes, sturdy steel body construction, four Hou-daille double-acting hydraulic shock absorbers, more than twenty ball and roller bearings, extensive use of fine steel forgings, aluminum pistons, chrome silicon alloy valves, torque-tube drive, three-quarter floating rear axle, Rustless Steel, and unusual accuracy in manufacturing.

In addition, you save many dollars because of low first cost of the new Ford, low cost of operation and upkeep, and low yearly depreciation.

# "I Grew 323 Bu. per Acre"

ON official test, part of the crop of certified seed potatoes grown last season by Mr. H. A. Reiley, of Bellaire, Antrim Co., Mich., yielded 323 bu. per acre. The entire crop averaged 276 bu., or 130 bu. more than the local average. Mr. Reiley gives the facts in this letter:

"For the last 7 years we have been growing an average of 15 acres of certified seed potatoes each year. During that time there was only one year we did not qualify in Michigan's Three Hundred Bushel Potato Club."

"This year we used 500 lbs. of 'AA QUALITY' Fertilizer per acre and produced one of the largest crops of potatoes in this section. We had almost 40 rain during the growing season. My entire field went 276 bu. per acre, or an official test of 323 bu. per acre on two consecutive acres, again retaining my membership in Michigan's Three Hundred Bushel Club."

"We farm around 300 acres, growing potatoes as our principal cash crop, but find that it pays to use fertilizers on grain as well. Our oats this year yielded 60 bu. per acre. Even though it was very dry, we got an excellent stand of alfalfa by using 250 lbs. of 'AA QUALITY' Fertilizer per acre. Our barley yielded better than 40 bu. per acre."

"We attribute our profitable yields to adequate applications of 'AA QUALITY' Fertilizer. We have always found 'AA QUALITY' goods in excellent mechanical condition and certainly appreciate the

excellent service given by your company in this section." H. A. Reiley (Oct. 17, 1930.)

## Bigger Yields—Lower Costs

These results are not exceptional. Read the two other letters on this page, at the right. Increased yields due to superior crop-producing power of AGRICO and the other "AA QUALITY" Fertilizers conclusively prove this important fact: The better the fertilizer, the less it costs you in the long run.

There are more than fifty different plant-food sources from which the nitrogen, phosphorus and potash used in fertilizers may be derived. These materials can be selected "on price" to make a so-called "cheap" fertilizer. They can be combined solely to meet a given chemical analysis. But the farmer cannot obtain maximum crop-producing power that way.

AGRICO is made from carefully-selected plant-food materials—materials selected on the basis of how good, not how cheap. AGRICO contains extra plant-food elements which farmers themselves have found, in tests on their own farms, play a vital part in producing more vigorous plant growth and more profitable yields.

Use AGRICO this season on at least a part of your crop. Your "AA QUALITY" dealer has a brand for each crop. See him now and place your order for AGRICO. The AMERICAN AGRICULTURAL CHEMICAL CO., P. O. Box 814, Detroit, Mich.

## What Other Michigan Farmers Say:

AGRICO BEATS THEM ALL. Mr. John Meyer, Vassar, Tuscola Co., Mich., got 12 tons of sugar beets per acre last year when the average in his section was only 8 tons. He used only 150 lbs. of AGRICO per acre, although the usual fertilizer application in that section is 200 lbs. per acre. Mr. Meyer writes: "I have used your 'AA QUALITY' Fertilizer for 16 years. For the past 4 or 5 years I have used AGRICO. I find that AGRICO is a superior brand of fertilizer to have decided to use nothing else in the future. This year my crop of sugar beets averaged 12 tons per acre in spite of the very dry season. With more rain, my yield would have been from 16 to 18 tons per acre." (Oct. 10, 1930.)

20 BU. MORE PEAS PER ACRE. Mr. Martin Domke, of Heron, Alpena Co., Mich., writes: "I never used fertilizer before, but this year I decided to try AGRICO and sure got a bumper crop even if the weather was dry. I applied 300 lbs. per acre on 6 acres and threshed 33 bu. per acre. On 6 more acres I applied 166 lbs. of AGRICO per acre and got 135 bu. or 22 bu. more. Another field without fertilizer yielded only 11 bu. per acre. My peas sold for seed at \$1.50 per bu., or 25¢ extra premium, and I got a big pile of straw that makes excellent food." Martin Domke (Sept. 26, 1930.)

Mrs. Reuben Hieber, a cousin of the deceased, attended the funeral.

## STATE NEWS

To make everything peaceful for the fisherman, Rep. A. G. Bushnell, of DeWitt, introduced a bill in the House at Lansing which would prohibit the operation for pleasure of motor boats or other power boats on the inland waters, or waters connecting the Great Lakes, with the exception of Lake St. Clair, from June 1 to June 26. The operation of such boats for commercial purposes would be permitted only in 10 or more feet of water, except for necessary landings.

Because residents protested that the noise disturbed their sleep, the Monroe city commission passed an ordinance forbidding engineers and firemen on railroads or motormen on street cars from blowing a whistle within the city limits, excepting in an emergency. Five railroads and one interurban are affected by the commission's action. The ordinance provides a fine of from \$5 to \$50, or imprisonment from 3 to 30 days for violators.

Approximately 2,000 men who otherwise would have been without work have been employed during recent months in roadside improvement work, according to G. C. Dillman, state highway commissioner, at Lansing. The work has included grading and the removal of brush and weeds. Spring will find the men employed in the highway beautification program, which includes the setting out of trees and shrubbery.

Due to the success of the "Hull Pup," a small low-priced airplane, the Hull Aircraft company at Marysville, near Port Huron, has been forced to increase the number of its employees nearly 100 per cent within the last few weeks, according to a statement made by A. G. Gardner, plant superintendent. Mr. Gardner said that 60 airplanes are now under construction.

Skins of jungle animals shot by him in Africa were included in the loot reported stolen from his summer home on the Pontiac-Orion road north of Pontiac, by R. B. Harmon, Detroit sportsman. The sheriff of Oakland County is investigating. Harmon said someone had broken into the cottage and had stolen leopard and lion skin rugs and several guns.

J. P. Valle, orchardist of Romeo, predicts apple production in that vicinity will soon reach the quarter-million mark annually. Acres heretofore devoted to peach growing are being turned into apple orchards, he points out, and the cost of operating has been reduced considerably by improving spraying methods.

## ANDREW J. GREENING

Andrew J. Greening, of Lyndon township, died Friday afternoon, March 20, in Detroit, where he was spending the winter at the home of his daughter, Mrs. Daniel E. Longe.

He was the son of the late Andrew and Mary (Conlan) Greening, and was born in Lyndon township, March 21, 1855. In 1897, he was married to Miss Florence Taylor, of Logansport, Ind. For several years he was engaged in newspaper work, serving in the circulation departments of the St. Paul Dispatch and the Milwaukee Sentinel. In 1905, he returned to the family homestead in Lyndon, where he engaged in farming until 1920.

He is survived by the widow, a daughter, Mrs. Longe, of Detroit, a son, Ambrose, of Iowa; a brother, Frank Greening, of Chicago, a sister, Mrs. Daniel E. Hoey, of Dexter, and two grandchildren.

Funeral services were held at 10 o'clock Monday morning at St. Joseph's church, Dexter. Rev. John Wall of Jackson, a cousin of Mr. Greening, officiated, and interment was in St. Joseph's cemetery.

Those from this vicinity who attended the funeral were Mr. and Mrs. Bert Conlan, Mr. and Mrs. John Young, Mr. and Mrs. J. E. McKune, Mr. and Mrs. Peter Wirkner, Mr. and Mrs. Patrick Lingane, Mr. and Mrs. S. J. Weber, Mr. and Mrs. W. B. Biech, Mrs. E. H. McKernan and daughter Ruth, Mr. and Mrs. Lawrence Shannah, Mrs. Alice O'Connor, Mrs. Justin Wheeler, Mrs. C. E. Whitaker, Misses Mary and Margaret Miller and Belle Loomay, and Charles and Maggie Haggerty.

## RETURN FROM SOUTH

Ransom Armstrong and Fred Barbs, who have been spending the winter in the southern states, returned to their home here Wednesday.

## "The Criminal Code" Coming To Princess

The many crime commissions attempting to curb the present epidemic of lawlessness in the United States are attacking the problem from two distinct angles. They are first attempting to do away with vicious social conditions which establish breeding places for criminals. And they are trying to give convicts a motive for good behavior while in prison and the hope of some future happiness when they are released.

Columbia Pictures' "The Criminal Code" coming to the Princess Theatre on Tuesday and Wednesday, March 31 and April 1, presents a vivid picture of the breaking and molding of a youthful convict's soul. Love transforms a desperate, nerve-shattered boy who stares in dumb misery at his surroundings with a mind that is almost blank. He dares to hope, sees a glimmer of possible happy days to come—and from that moment is a changed man.

"The Criminal Code" is from the play of the same name which was a famous Broadway hit and prize winner. It is said to be an absorbing romance with a distinctly original plot. Walter Huston, who plays the star role, is a veteran of many movie picture successes. He is supported by Phillips Holmes, who plays the job convict, and by Constance Cummings, who is the lovely daughter of the prison warden. An imposing number of screen celebrities make up the rest of the cast. Howard Hawks, who has directed many notable screen hits, is the director of "The Criminal Code."

## Critic and Author

A critic, wrote Laidler, is never to severe when he detects the faults of an author. But he is worse than too severe when, in consequence of his detection, he presumes to place himself on a level with genius.

## SCHOOL NOTES

"Broken Cups," a clever little 3-act play, was given under the direction of Miss Holton, Friday evening, March 20.

The entire play was laid in a rather old-fashioned living room. Mr. Bumpsted is the henpecked husband who, at the urging of his sweet young daughter, Elaine, steps out to lounge after Mrs. Bumpsted, a veritable shrew, has forbade him to leave the house. Although she does feel sorry for her meek father, Elaine had plans of her own which were to clear the house, so she could meet her lover, Bill Clark.

Mr. Bumpsted returns from lodge with Sam Green. While Mr. Bumpsted is in the kitchen replenishing the fire, Rev. Stump comes to marry Elaine and Bill. When Mr. Bumpsted learns of this he is frightened at what his wife will say, but determines to see it through. The young couple are married and await Mrs. Bumpsted's homecoming.

Meanwhile, a handsome stranger has come, asking for shelter because his car has broken down. Then Mrs. Bumpsted and her daughter come home and found Elaine married without her mother's consent. Naturally, she blames Mrs. Bumpsted. Just then the stranger appears on the scene. He proves to be Chester Armstrong, old-time lover to Mrs. Bumpsted, who she has mourned over since her marriage to Mr. Bumpsted.

Chester Armstrong is revealed to be a crook, pursued by detective Quinn. Mrs. Bumpsted realizes she has been harsh on her husband, repents, and Elaine goes on her way, a happy bride.

The cast:

Mrs. Bumpsted—Anna Geddes.  
Mr. Bumpsted—Foster Jelsell.  
Elaine Bumpsted—Lorella Huston.  
Myra Bumpsted—Jennie Scripser.  
Mabel Bumpsted—Katharine Staffan.  
Bill Clark—Louis Bycraft.  
Sam Green—Duane Wiseman.  
Rev. Stump—Edward Steiner.  
Chester Armstrong—Howard Dancor.  
Quinn—Eldine Hawley.

A little specialty song and dance was given by several sophomore girls between the first and second acts.

### Three \$50 Checks Used To Pay Debts

ATLANTA, Ga.—Debts amounting to \$2400 were canceled in 60 days by three \$50 checks given the Atlanta Chamber of Commerce by the Sugar Refining Corporation of Savannah, Ga., as a debt-paying plan, it being stipulated that each recipient of the checks should use them at once to pay a creditor, the checks to be cashed by those individuals or firms holding them at the end of the specified time.

Emphasis in this experiment was placed upon prompt payment of debts as an effective method of putting money into circulation and aiding in bringing about normal business conditions.

In the two months in which they traveled from hand to hand on their debt-cancelling tour check number one wiped out \$1150, check number two \$700 and check number three \$550 indebtedness in the city of Atlanta.

The experiment is considered to have proved what it set out to prove—that prompt payment of debts is an effective way to circulate money and to aid in relieving business depression.

Wide interest has been manifested in the use of these three checks as a debt-paying plan, many letters from other cities having been received by the Atlanta Chamber of Commerce, making inquiry about it. Benjamin S. Barker, executive vice-chairman and secretary, said, "Mr. Barker further stated that after putting it to the test he recommended the plan and feels it would be particularly successful in smaller cities and towns.—Christian Science Monitor.

TECUMSEH—The 31st Michigan Volunteer Infantry, Spanish War veterans, will meet in Tecumseh in May. One company of that regiment was recruited here.

### Question And Answer Dept.

Ques.—Will you please answer in the question department of your paper that when a woman remarries is the sister of her former husband still her sister-in-law?

Ans.—No. She is not a sister-in-law to the woman her brother has married and who has died or been divorced. If the woman never remarried, it is not improper to refer to her late husband's brothers and sisters as brother-in-laws and sister-in-laws. But if she remarried, then she should speak of them as "former brother-in-laws and former sister-in-laws."

Ques.—I wish to ask you if the United States Supreme Court is now in session, what are their hours and how many does it take to make a quorum?

Ans.—The United States Supreme Court convenes on the second Monday in October of each year and meets daily except Saturdays, Sundays and holidays, until its adjournment in July for the summer vacation. A quorum must constitute six of its members, and they meet from 12 o'clock noon until 4 o'clock in the afternoon.

Ques.—Can you answer how many people are unemployed in the United States?

Ans.—There are no definite figures in this question, but it is closely estimated from the best information that there are about 3,500,000 unemployed in the United States or about 8 percent of the breadwinners.

Ques.—What should a person do to make money when times are so dull?

Ans.—Use sharp wits.

Ques.—Are all of the half-wits in asylums taken care of by the state?

Ans.—No. Many of them are in sedans, partly taken care of by the police.

Ques.—Can you tell me what is done with the lost and unclaimed parcel post mail matter?

Ans.—Lost and unclaimed parcel post matter is sold at auction once a year. Formerly the parcels were sold unopened, but now they are opened and one can see what they are buying. The articles are sold to the highest bidder.

Ques.—To settle an argument will you please state if Amos is Andy and two negro brothers?

Ans.—No. They are not negroes nor related to each other. "Amos" is Freeman F. Gorden, of Peoria, Ill., while "Andy" is Charles J. Correll of Richmond, Va.

Ques.—What are sponges made of?

Ans.—Sponges are not man-made. They are animals that approach the simple forms of life, and are usually found at the bottom of the ocean attached to boulders and other objects.

Ques.—Can you tell us in your question column what language is spoken by the Hindu people?

Ans.—There are approximately 100,000,000 Hindus divided into 147 tribes that speak different languages.

Ques.—What is the earliest history of man as given outside the Bible?

Ans.—So far as we can learn the earliest history of mankind as recorded outside the Bible was the peoples known as Samites. Northern Arabia is generally accepted as their primitive home. Issuing thence, they conquered or settled Babylonia and Egypt, and through amalgamation with the native races (of which we know very little), became the earliest Babylonians, Assyrians and Egyptians. This was about 5000 B. C.

Ques.—What does "F. and A. M." stand for as applied to the fraternal order?

Ans.—F. and A. M. means "Free and Accepted Masons."

Ques.—Will you kindly answer who Cupid was or is?

Ans.—Cupid was the Greek mythical god of love, and was the son of Venus. His father was either Jupiter, Mars or Mercury.

Ques.—I have a book in which reference is made to the "Fenian War." Can you tell me what that war was?

Ans.—In 1857 there was a political organization formed by Irishmen in New York for the purpose of promoting the forcible separation of Ireland from England. They became especially active during the Civil War when relations between Great Britain and the United States were somewhat strained. After raising large sums of money and thousands of troops they attempted to invade Canada in 1866 from three different points. They were prevented by the United States and Canadian British troops from accomplishing this purpose and this is referred to as the Fenian War.

Ques.—Where is the Materna library located?

Ans.—We do not know. We never heard of it.

## A gas range that lights automatically is now a reality

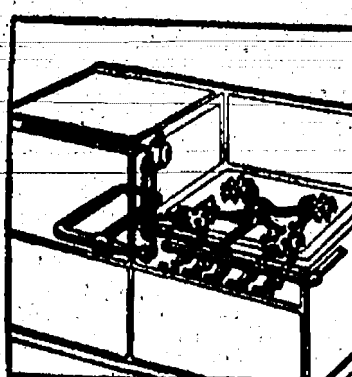

Now you can have a gas range that lights automatically.

Just turn on the gas and the range is lit! Think of it! Matches are no longer needed even to light the oven. It also lights as you turn on the gas.

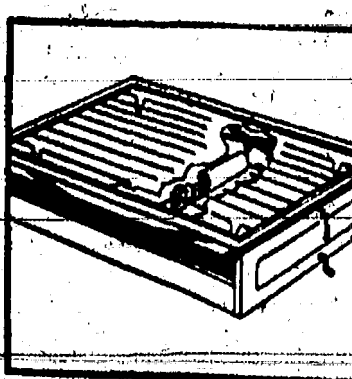

The oven is controlled automatically too. You just set the Robertshaw oven control, place the food in the oven, and forget it. No need to stand around and watch to see if it bakes right. You know before you start just what the results will be. Here is the greatest value ever offered in a gas range. It has never even been approached before.

The new Detroit Jewel is backed by ourselves and the 67-year reputation of a famous maker.

Won't you pay us the compliment of coming in today and let us demonstrate the new Detroit Jewel?

**Insta-flame Lighter**  
The greatest improvement ever made on a gas range. You just turn on the gas and the range lights as if by magic. This feature alone is sufficient reason for buying a new Detroit Jewel. Be sure to see it demonstrated.

**Mechanically Operated Drawer Type Broiler**  
Here is another new feature never before offered in a gas range. By simply turning a small handle (that never gets hot) on the outside of the broiler, you raise or lower the broiler to the exact height you want.

## Nat'l Grange Sponsors Highway Safety Move

Realizing the growing need of constructive and immediate action to avert the loss of life and property along the highways of the United States, the thousands of younger members of the National Grange during the next few months will take up the question of what the grange can do to further highway safety, according to L. J. Taber, national master, who today announced completion of plans for its annual highway safety contest, open to all members of the grange, 18 years of age or under.

"The loss of life last year, as a result of automobile accidents, reached the unprecedented and appalling total of 22,500," Mr. Taber said, "while the number of persons injured approached close to 1,000,000. To the untold suffering thus entailed must be added hundreds of millions of dollars of material property loss."

"In order to make the grange aware of what they can do toward reducing this unnecessary destruction of life and property, we have chosen as the subject for the essay 'What the Grange Can Do to Further Highway Safety'." Last year the subject referred to the individual member of the grange; this year, by a natural and progressive step, we have broadened it to include the subordinate grange. There are many opportunities for our local organizations in the field of highway safety and we expect, as a result of discussions at the meetings, that they will do much toward eliminating local hazards and improving conditions."

In addition to state awards there will be six national prizes, first national prize consisting of a trip to the National Grange sessions at Madison, Wis., next November with all expenses paid. All prizes are provided by the National Automobile Chamber of Commerce, which has cooperated with the Grange in fostering these annual contests. The second to sixth national prizes are checks for \$50, \$25, \$15, \$10 and \$5.

These six prize winners will be chosen from among the writers of the best papers submitted in each state and silver medals, awarded for the best essay in each state, and bronze medals, awarded to the writers whose papers rank second, third and fourth.

The contest in each subordinate grange is in the hands of the lecturer to whom all papers must be handed by July 4, the closing date. The best papers from the local Grange will be selected by a committee and sent to the State Master, under whose direction another committee selects the prize-winning papers for the state. The best of them is then sent to national headquarters. Essays must be kept within 800 words.

In the 1930 contest, first national prize was won by Miss Miriam Evelyn Job, 15 years old, from Connersville, Ind., who attended the sessions at Rochester, N. Y., November 11-12, 1930. Two years ago the contest was won by Miss Betty Mulligan of Berwyn, Md.

While prizes are donated by the National Automobile Chamber of Commerce, the contest is managed by the Highway Education Board of Washington, D. C. This organization for the past nine years has conducted similar contests on an even broader scale in the elementary schools throughout the United States.

## This Crop No Good On Michigan Farms

Michigan farmers who have read the glowing descriptions of Grohoma, grain sorghum, and who have contemplated planting it should also consider the possibilities of raising bananas as they are just as practical for this state as Grohoma, and are better adapted, according to test record of the U. S. Department of Agriculture.

Tests made of Grohoma by the Department show that it can not be expected to mature a grain crop north of Illinois, Missouri, or Kansas in an ordinary season and that, where the crop does mature, it does not yield as much as other sorghums nor is it any more valuable for feeding livestock.

The experiment stations of the agricultural colleges test, each year, promising new varieties of plants which can be used by farmers of the United States. The men who test these varieties are always anxious to find new plants which will outyield or have better qualities than the ones already known. Any better varieties are immediately recommended for use in the localities to which they are adapted.

**White and Black "Power"**

## Sweet Clover Hay May Be Injurious

Sweet clover, which is a valuable soil builder and an excellent feed for livestock on Michigan farms, sometimes contains a mold in the hollow stems which makes the hay an unsafe feed for cattle, according to members of the animal husbandry department at Michigan State College.

So far as known, this mold is present only in sweet clover hay which was allowed to become coarse and woody before it was cut, or in hay which was stored in a damp condition, so cases of trouble from feeding the hay to any kind of livestock except cattle has been reported and sweet clover appears to be perfectly safe, as a pasture crop for every kind of livestock.

Sweet clover has become very popular in this State and, as the mold which makes it dangerous for cattle can not be detected by examination, the animal husbandry men advise farmers who are feeding sweet clover to cattle to obtain some tame rabbits and use them to test the value of the hay. If the mold is present in the hay fed to the rabbits, it will affect them sooner than it will cattle and the feeding of the sweet clover can be discontinued before any cattle are lost.

The mold has some quality which destroys the agent which causes the blood of cattle to coagulate and animals which have been fed the moldy hay bleed to death from minor wounds or they may be killed by internal hemorrhages. The use of the rabbits to test the hay gives a sure method of determining its value and makes it safe to continue the use of this crop in Michigan.

## BROOKLYN—As a result of a recent inspection

of the Brooklyn High School by a representative of the Smith-Hughes school plan under federal authority, the Brooklyn school board has decided to make the minor changes necessary and come under the plans and benefits of the act relating to the domestic science department. Under Mrs. Grinnell this department has in two years reached a high point of popularity and efficiency. The federal requirement is a degree teacher, and after one year federal and state aid is granted to an amount of \$300 per year. Exponent.

# This Woman In 4 Weeks Lost 17 Pounds of Fat

Here's a letter written October 21, 1929, by Mrs. Fred Burdette of Lewistown, Montana, that ought to be read by every overweight woman in America.

Gentlemen: I started taking Kruschen every morning as directed as I was very much overweight and wanted to reduce.

I had tried going on a diet but would get so hungry that my diet would not last long, so I decided to give "Kruschen Salts" a fair trial. The day I started to take them I weighed 256 lbs. and at present, which has been just four weeks, I weigh 239 lbs. And I must say, I feel better in every way, besides looking much better.

May all large people, both men and women, who want to reduce in an easy way, give Kruschen Salts a fair trial. I am sure it will convince anyone.

A bottle of Kruschen Salts that lasts four weeks costs but 85c at Fenn's Drug Store or any drug store in America. Take one half teaspoon in a glass of hot water before breakfast every morning. To help reduce swiftly cut out pastry and fatty meats and go light on potatoes, butter, cream and sugar.

The Kruschen way is the safe way to reduce. Try one bottle and if not joyfully satisfied—money back. Adv.
