Community Night Held At Camp Norcom, Lima

The first community night at Camp Norcom, in Lima township, was held Friday evening with a good attendance from Chelsea and surrounding towns. Spiritual Negro singing, piano solos, readings and a kitchen symphony orchestra were features of the evening's program, after which tea was served the guests.

Camp Norcom, which is situated on the shore of Nordman Lake in Lima township, was organized three years ago. It is a camp for Negro girls, who are taught music, swimming, basket weaving, bead work, leather work and grass work.

The site for the camp was formerly a portion of the Jacob Bauer farm, and the buildings, consist of several cottages, an auditorium and an eating room. Plans are under way for the erection of other cottages across the lake, to be used for older people, and also to build the state camp at this location.

Officers of Camp Norcom, which is known as the Lucy Thurman Branch of the Y. W. C. A., Detroit, are: **Myrtle Solo**, camp director; **Alice Bacon**, nature lore; **Bernice Griffin**, athletic director; and **Esther Holt**, arts and crafts.

Visitors are welcome to attend the Sunday services, also to visit the camp any day except Saturday, and at any time except during the rest period, from two to three o'clock.

Forty Girl Scouts In Camp At Newkirk

Over forty girls, including officers, are enrolled for the first week of the girl scout camp, being conducted under the auspices of Troop 1, Ann Arbor, at Camp Newkirk, scout camp near Dexter. Girls from Ypsilanti, Howell and other Livingston and Washtenaw county towns, are enrolled, in addition to girls from Ann Arbor.

National camp officials, including Mrs. Katie Lee Johnson, chief of the camp advisory staff and Miss Melden Everett, were delighted with the prospects and plans of the camp when they made an inspection Friday afternoon.

The staff of the camp is unusually strong, including Mrs. John Shillings, directress, Mrs. H. B. White, camp mistress, Miss Helen McLane, of Ypsilanti, waterfront director, Mrs. Harley Pope, instructor, Miss Irene Schanz and Miss Mary DeLango, both trained nurses who will have charge of first aid, and two girls from the physical education department of Michigan State Normal who will direct games and activities. In addition other instructors will be in the camp for short periods to teach and assist.

The camp is an officially recognized girl scout camp, well meeting the minimum requirements as laid down by national headquarters. Work in all scout tests, as well as numerous achievement badges, will be offered, giving the girls an unusual opportunity to advance in scout rank.

Girls who are not girl scouts will be admitted to the second week of the camp, and registration should be made at once by calling 7215, Ann Arbor, Boy Scout headquarters, 324 E. Huron St. The fee is \$6.50 per week.

COUNTY BARN BURNS

Two barns, a hen house and wood shed at the Washtenaw county infirmary were completely destroyed by fire of undetermined origin which was discovered about 9:30 Saturday night. Seven hundred bushels of grain, 35 tons of hay, a bull and a number of chickens and rabbits were consumed in the flames. The loss is estimated at \$10,000, with \$7,500 insurance.

Chelsea All Stars Win League Benefit Game

That the I. O. O. F. Twilight Ball League team, winners of the 1931 series, are truly champions was demonstrated at Holmes Field Tuesday evening when they came very close to winning from the All Star team, a group of star players selected from the other three teams entered in this season's league. Tuesday's game was scheduled as a benefit game, proceeds of which go to help pay the hospital expense of Claire Rowe, whose leg was broken in a league game a few weeks ago.

The All Stars started out with a bang, two runs being marked up for them in the first inning. The Odd Fellows were prevented from scoring until the third inning, when a lively rally netted them four runs, which was their total score for the entire game. Two runs were made by the All Stars in the fifth, tying the score, and the winning run was made by them in the last inning of the seven-inning game.

Real teamwork was displayed by both teams, few errors being made by either side. Lyle Haselwerdt was on the mound for the Stars, with B. Crocker at the receiving end, and Leonard Van Gieson pitched for the Odd Fellows, Albert Alexander completing that battery. Jack Dunn of Ann Arbor presided as umpire for the event.

Jsham's Band was present at the games and rendered several selections between innings.

With a record crowd present at the game proceeds totaled \$45.85, for which members of the league extend their thanks to those who contributed so liberally.

"Benny Frey Day" To Be Held In Jackson

"Benny Frey Day" will be celebrated in Jackson on Monday, August 31, when Dan Howley's Cincinnati Reds of the National League appear in an exhibition game at the fair grounds. Frey, who is a Jackson boy and one of the best pitchers in the National League, will pitch the entire game for the Reds.

Lee Harrington, Jackson merchant, is chairman of the Frey festivities. Subscriptions are being taken by Harrington to present Frey with a token. Tickets are now on sale, and mail orders will be accepted by Harrington, at 75 cents each.

The Reds will bring their entire club to Jackson, which includes Eddie Rousch, Nick Cullop, Leo Durocher, Luke Sukeforth, Joe Stripp, Cliff Heathcote, Taylor Douthit and other stars. The game will start at 4:30 o'clock.

Benny Frey was a resident of Chelsea previous to the time the family moved to Jackson. It is expected a delegation of Chelsea baseball fans will attend the exhibition game.

Prospects Bright For Washtenaw Co. Fair

Floyd Clark, new manager of the Washtenaw County Fair, has been busy for over a week traveling about the county looking over the year's prospects which seem to be very bright for the Fair, gathering up the loose ends of the Fair work and building them into a well working machine which promises to bring the aims and expectations of the Fair Board into reality.

Booths in the Merchants Building are being released, the former four year leases having expired after last year's Fair. Concessions for refreshment stands, side-shows, and games are being contracted for rapidly. Entries in all departments are beginning to come in. Other exhibitors are urged to follow this example and get their entries in early, not only to lighten the last minute work at the Fair office, which is already in action with a full office staff, but to also make sure of having their entries accepted. Last year it became necessary to turn away many of the later entries in some departments because of lack of room in which to take care of them.

Plans are being made to rearrange the interior of the administration building a little in order to more satisfactorily take care of the crowds of exhibitors calling there for their tags, etc. Judging from remarks by former exhibitors to the effect that they have better stock this year than ever before and from the looks of the splendid and abundant crops all through the county, larger exhibits than ever are to be expected in these departments. In four departments alone—horses, cattle, sheep and swine—about \$5,500.00 are offered in premiums this year.

Certainly, it looks as if the Washtenaw County Fair is one place where there is no reason to think about that tiresome subject—depression.

KENNEDY BARN BURNS

The large barn on the Fred Kennedy farm on the Dexter road in Selo township was destroyed by fire about 9 o'clock Monday evening, together with the contents, consisting of this year's crop of hay and grain which had just been harvested by J. O. Redden, who held a five year lease on the farm. The loss, which was estimated at \$2,500, was partly covered by insurance. The Dexter fire department was called, but the barn was all ablaze when they arrived. Mr. and Mrs. Redden were residing on the Jackson road while the house on the Kennedy farm was being repaired.

ENTERTAIN FOR DAUGHTER

The home of Mr. and Mrs. Jacob Hummel was the scene of a pleasant family party Sunday, given in honor of their daughter, Sister William of Adrian, who had been their guest the past week. Covers were laid for the following guests: Sister Dominica and Sister Prudentia of St. Joseph's Academy, Adrian, Miss Carrie Rutkoski and Harry Erick, of St. Joseph, Mr. and Mrs. Joseph Denomy and family of St. Clair, Mr. and Mrs. J. B. Steele and daughters of Detroit, and Mr. and Mrs. John Hummel and children of Chelsea.

ATTEND KIWANIS EVENT

Mr. and Mrs. Verne Fordyce were guests at a reunion of Kiwanians who attended the 1928 International Kiwanis convention at Seattle in 1928, at the Mayflower Hotel, Plymouth, on Tuesday. Plymouth club members who attended that convention were hosts to the gathering, and guests to the number of sixty from various clubs of the state were present. The group were guests of the Plymouth Kiwanis club at their noonday luncheon. Golf, bridge and sightseeing was enjoyed during the afternoon, and following a banquet at 7:00 o'clock an interesting program was enjoyed.

WEEKLY NEWS BULLETIN

Frank D. Fitzgerald,
Secretary of State

Lansing, Mich., Aug. 12—Present state regulations regarding the manufacture, distribution and sale of oleomargarine and other butter substitutes will not be changed until after November, 1932.

The 1931 legislature enacted a law repealing the present statute regarding oleomargarine and prohibiting the distribution and use of colored oleo. The 1931 act also placed a license tax on the manufacture, distribution and sale of the uncolored product.

A petition calling for a referendum on the 1931 act was filed with the Department of State early in August, and a check by the department showed that there were over 50,000 signatures on the petition. As only slightly over 42,000 signatures are needed under the constitution, the 1931 oleo act cannot be made effective until after it receives a majority vote at a general state election.

The next state election will be held a year from next November and until that time, present oleo regulations will remain in force.

Over a half-million Michigan motorists will be unable to drive after November 1, unless there is a great increase in the number of applications for licenses within the next few weeks.

With about 10 weeks remaining before Nov. 1, automobile drivers are apparently planning to wait until the "last minute" before applying for the new license. Every driver whose old license was issued before Jan. 1, 1925 must obtain a new one by Nov. 1, and Department of State records indicate that 500,000 is a conservative estimate of the number who may be prevented from driving, if applications continue to be made at the present rate.

Question And Answer Dept.

Ques.—I am very much interested in your Question and Answer column, and am wondering if you will be kind enough to tell me the day of the week on which I was born, the date being Sept. 2, 1888?

Ans.—As Sept 2, 1888, was on Sunday, naturally you were born on that day of the week.

Ques.—To settle an argument will you please answer what Methyl Alcohol is?

Ans.—Methyl Alcohol is a colorless liquid obtained by the destructive distillation of wood, and which is commonly known as "wood alcohol."

Ques.—I wish to ask you who was first to discover the mainland of America—Vespucci, Cabot or Columbus? Also in what year was the mainland reached?

Ans.—In 1497 Vespucci reached the mainland of America—eighteen days before Cabot. However, Columbus was first to reach this hemisphere.

Ques.—Has Armistice Day been declared a legal holiday by all the States?

Ans.—No. Only about one-half of the States have made Armistice Day a legal holiday. But in every State in the Union, November 11, is observed each year with patriotic services in commemoration of the close of the World War and of the soldiers who fought in the war. It has become the custom for the President to issue an Armistice Day message to the country. And in Washington, solemn tribute is paid at the grave of the Unknown Soldier in Arlington Cemetery.

Ques.—Would you be so kind as to tell me whether animals think or not?

Ans.—This is a moot question among philosophers and scientists. The higher animals show considerable intelligence in certain matters, such as in getting food and escaping from enemies. Modern science is inclined to think that the difference between intelligence of human beings and animals is one of degree and not of kind. In animals instinct plays a much larger part than it does in people.

Ques.—What kind of a game is African golf?

Ans.—That is the name jokingly given to dice or "craps." It is called African golf because of its popularity among colored people.

Ques.—Grover Cleveland received in 1888 many more votes than did Benjamin Harrison, yet the latter was declared elected president. I would be pleased to know upon just what grounds this was done.

Ans.—The president of the United States is not elected directly by popular vote, but by electors who are elected by popular vote. Each state is entitled to as many electors as it has senators and representatives in congress. It is possible for a minority of the voters of the country as a whole to elect a majority of the presidential electors. In 1888 the Cleveland electors received 6,540,050 popular votes, and those for Harrison received 5,444,387, which indicates that more of the voters wanted Cleveland than Harrison. Yet Harrison got 401 electoral votes and Cleveland only 108. Just how this is possible is easily explained by supposing for example that there were at that time only two states in the Union—Georgia and New York. The Harrison electors got 40,000 voters in Georgia; the electors for Cleveland 100,000. In New York the Harrison electors got 650,000; the electors for Cleveland 685,000. This makes a total of 735,000 popular votes for Cleveland and only 690,000 for Harrison. But a candidate—except in the rare cases where the electoral vote of a state is split—gets all or none of the electoral votes of a state. Therefore Cleveland would get only the 14 electoral votes of Georgia as compared with the 45 of New York for Harrison. When the rule is applied to a large number of states the proportional difference between the electoral votes and popular votes for a candidate is easily understood.

The greatest catch of fish for this season is reported by D. R. Marford and W. J. Foor, who were at Four Mile Lake one day this week "just watching the cork bob." It is rumored that it required a farm team to draw the great number of fish they caught to their respective homes.

Food Values Wasted In Paring Potatoes

The housewife who pares potatoes before cooking them removes 20 per cent of the minerals contained by this excellent food, is the statement made by nutrition specialists at Michigan State College, who advise baking the potatoes or boiling them in their jackets.

The specialists say to start the potatoes to cooking in boiling water and to keep the water boiling. Cutting the potatoes in small pieces before cooking increases the loss of minerals. The mineral salts which are boiled out may be saved if the water in which the potatoes are cooked is used for soups or gravy.

The skins of potatoes which have been thoroughly cleaned and brushed with fat before baking can be eaten and all the minerals will be utilized by the body. Potatoes contain a liberal supply of iron and also the vitamins B and C. The alkaline salts contained in potatoes are useful in neutralizing acids.

Several nations are credited with inventing ways to cook potatoes. Spanish potatoes are prepared by frying one tablespoonful of minced onion and two tablespoonfuls each of green pepper and pimento in four tablespoonfuls of dripping until light brown. Add two cups sliced cold potato and one-half cup cold ham. Season to taste and cook until thoroughly heated.

The recipe for Dutch potatoes is to run an apple corer through thinly pared potatoes. Thread skewer lengthwise through the potatoes and bake frequently while they are cooking.

SOUTH LYON—Junior Bidwell, aged 12 years, son of Mr. and Mrs. Ralph Bidwell of East Lyon, has the distinction of having saved a man's life. Last Wednesday night, in company with his younger brother, Junior went to a gravel pit about a half mile from his home, where the two played in the shallow water of one of the pools in the pit, using an inner tube in their fun. A. Aldrich and small son of near Novi were also in the pool at the time. Many people it is said make the pool a recreation spot in warm weather. Mr. Aldrich was aware there were deep holes in the bottom of the pool, but accidentally slipped off a sand bar into one of them and being unable to swim, sank below the surface. As the lad who had accompanied his father, saw him sink he called for help, and it was then that the Bidwell boy swam to his assistance. He reached the spot none too soon for the man had gone down twice. With the support of the inner tube which the boy had taken across the pool with him, the man was helped to shore.—Herald.

The road at Milan connects with US-23 which runs to Ann Arbor, and at Oakville with the County Line road, which is being paved.—Reported.

Theoretically light has weight. Of course it is very small. An ordinary atomic lamp would have to burn about 2,000,000 years to produce one ounce of light.

Famed Auto of 1905 On Good Roads Tour

Same Driver Piloting One-Cylinder Oldsmobile Across Country

New York City. — One phase of the remarkable progress made in the country in the past quarter of a century—that of individual transportation—is being strikingly demonstrated by a convoy of automobiles which has just started from this city to retracing the route of the first continental automobile race. The first cross country automobile race in 1905 was sponsored by the representative of the federal good roads bureau. It was won by a 1905 Oldsmobile powered with a one-cylinder, seven-horse power motor. The route from New York to Portland, Ore., was traversed in 14 days, the driver, Fred Goetz, arriving at Portland at an hour before the opening of the National Good Roads Convention to which he was a delegate from Michigan.

The 1931 tour now being made by the same little Oldsmobile is a tribute to the building and extension of modern highways that have made present day motoring possible. It is endorsed by Thomas H. Henry, president of the American Automobile Association, and numerous public officials interested in highway development.

The 1905 transcontinental race was far more than a sporting contest. It was a test of the capability of the then-derived automobile. The fact that these motoring pioneers succeeded in overcoming all obstacles in crossing the country over this difficult route did much to advance the automobile in the minds of the nation. The race also demonstrated the crying need for improved highways and is credited with giving the first stimulus to road building in many states.

Conditions encountered by these early racers are unbelievable today. They traveled in seas of water and mud, with frequent poles as the only indication of where the road might be; they were forced to ford streams with water above the floor boards; rutted, baked-clay roads wore out a set of tires in 90 miles; one day they scored 64 miles in 17 1/2 hours driving for days they drove over unmarked trails and deserts—these were a few of the terrible obstacles they encountered. That they won through to the finish attested the country.

During the present tour Fred Goetz will speak before civic organizations in scores of cities and towns. He will contrast the roads of 1905 with those of 1931 and describe the benefits derived from improved highways. He will be accompanied on his tour by a convoy of Oldsmobiles which are compared to his 1905 Oldsmobile. He will forcefully depict the advantages made in motor cars as well as in highways.

Residents of that vicinity welcome the project as it has been the worst mile of road in the township, being almost impassable during the winter and spring months.

Business "Shackles"

Chains of debt are something more than a figure of speech in Abyssinia. The person who cannot or will not pay is shackled to his or her creditor and the bonds are not severed until the debt is discharged. Sometimes these business unions last for months. One who guarantees a debt sometimes suffers the same penalty, and the debtor, guarantor and creditor make a weird trio as they chink through the streets.

Club Members Get Valuable Lessons

Michigan now has 2,800 junior dairymen, members of 4-H dairy calf clubs, who have a three-year plan of work which includes the raising and care of a purebred animal from the time it is a calf until it is producing milk. The club members are supervised by state club leaders and must keep a record of the cost of growing the calf and of all expenses of producing milk during the period of lactation. The youngsters get training in judging animals through exhibiting their stock at fairs and by entering judging contests where the members compete against each other. Sam Aldrich, Ward Aldrich, and Wendell Biddle, Fairgrove, recently won a valuable purebred Holstein calf awarded by the Arby Farms as a prize in a Holstein Field Day. The Fairgrove club has won the Field Day contest twice and the Benton club in Eaton county once. Most of the county and local fairs now provide special classes in which prizes are awarded to 4-H club members, and the best of the animals from the county fair circuits are taken to the State Fair in Detroit. Occasionally, the club members exhibit in the open classes and give a good account of themselves. Dairy lessons learned in club work are valuable to the members who remain on farms.

Doctor Lurimier, government entomologist, says grasshoppers destroying crops in northwest and central states are expanding their ravages 50 miles a day by taking to their wings.

This reminds you that proud man, dressed in a little bit of authority, may some day find himself wiped out by a combination of plagues, insects destroying crops, rats and ground squirrels carrying disease, ants destroying everything in hot countries, rabbits and mosquitoes.

Proud man should devote to the task of protecting himself against such enemies some of the ingenuity that he devotes to poison gas and explosives for killing of other men.

Grasshoppers are not as foolish as men.
