Speak Nuptial Vows At Farmington Church

A quiet wedding took place at 10 o'clock Friday forenoon at Salem Evangelical church, Farmington, when Miss Louise A. Pielemeier, daughter of Mr. and Mrs. Albert J. Pielemeier, of Sylvan township, became the bride of Charles Harold Davis, son of Mrs. Lydia Davis, of Ann Arbor. The ceremony was performed in the presence of the immediate families, by Rev. Albert A. Schoen, former pastor of St. Paul's church, Chelsea.

The attendants were Miss Hedwig Schoen of Farmington, and Earl Inman of Albion. The bride wore a suit of navy blue satin crepe, with hat to match, while Miss Schoen was gowned in white.

Immediately after the ceremony, the couple left on a motor trip to northern Michigan. Both bride and groom are graduates of Chelsea high school. The former later completed a course at Michigan State Normal College and for the past two years was a teacher in the Capac school. The groom is a decorator in the University shop, Ann Arbor. Mr. and Mrs. Davis will reside at 913 West Liberty St., Ann Arbor.

Renewed Marriage Vows Exchanged
And Interesting Program Given
At Tuesday Event.

Mr. and Mrs. William S. Pielemeier celebrated their golden wedding anniversary on Tuesday by entertaining at a family party at their home on South Main street.

A large wedding cake in yellow and white formed the centerpiece for the bride's table. Mr. and Mrs. Harold Davis, whose marriage occurred during the past week, also were honor guests at the dinner, the latter being a granddaughter of Mr. and Mrs. Pielemeier.

To the strains of Lohengrin's bridal chorus, played by Paul Pielemeier, the bride and groom of fifty years took their places, and with Rev. Albert A. Schoen, of Farmington, officiating, renewed their marriage vows. Their attendants on this occasion were Mr. and Mrs. W. J. The following program was then presented:

Scouts Will Gather For Three-Day Period

According to an announcement by Scout Executive Wallace F. Watt, a three-day camp is to be held on Wednesday, Thursday and Friday, August 26, 27 and 28, at Camp Newkirk, boy scout camp near Dexter, for all scouts in Washtenaw and Livingston counties.

Although planned primarily for rural boys and boys who were attending summer school and were thus unable to attend the regular summer camp, all scouts are welcome at this short camp.

A complete program has been planned that will include all of the regular camp features, such as swimming and waterfront instruction under senior Red Cross life savers, archery and handicraft of various types, signalling, first aid, map-making, pioneering and other scouting and camping projects. This short camp will offer a fine opportunity for advancement and scouts who are desirous of advancing in rank before school opens this fall are urged to take advantage of this opportunity. The camp will close with a court of honor Friday evening.

The staff will include Wallace F. Watt, John Shilling, Robert DeLano, Robert and Richard Taseh, and other advanced scouts and leaders. The price has been set at \$1.75 for the three days and scouts are urged to notify their scoutmasters of their intention of going. Several troops are going to attend in a body.

FIRE-PROOF?

No building is fire-proof—entirely proof against fire. True, there are fire-resistant buildings. But repeated proofs show the necessity of insuring even that type—the safest type—of building.

Don't resist the prudent thought of carrying adequate insurance on fire-resistant buildings and their contents. It's better to have insurance and not need it than to need it and not have it, isn't it?

Learn what a difference six cylinders make

Step out of any other low-priced car into a Chevrolet, and learn the difference six cylinders make.

"Idle" the engine—and the whole car remains steady. Open the throttle—the power flows evenly. Accelerate—throttle down—go fifteen or fifty—and this smoothness stays with you whatever you do. It's actually built into the motor—and objectionable vibration never even starts!

Yet smoothness is only one of many six-cylinder advantages. There's greater quietness, because noisy vibration is gone. There's greater comfort, because built-in smoothness doesn't tire you out. There's greater flexibility, because the power impulses of a six overlap. And a six is much easier to handle!

If you raise the hood of a Chevrolet and watch the engine running so smoothly, you'll realize that six cylinders also mean greater dependability.

And remember when you do—that no other car is so economical to operate as the Chevrolet Six.

DEXTER—The Baptist church is planning to celebrate one hundredth anniversary of its organization, on September 13th and 14th. The centennial sermon for the occasion will be delivered by Dr. Ralph Taylor Amden, the Executive Secretary of the Baptist State Convention.—Leader.

MILAN—Farmers in the vicinity of Milan seem to be more fortunate than those in other sections of the state. With frequent rains, the vicinity around Milan is in good condition and the farmers are reaping bumper crops. Other sections to the north and west of Milan show considerable lack of rain and in many places the fields are parched and burned by the extreme heat and lack of rain. Conditions generally over the state show the locality around Milan far above the average.—Leader.

Steel Fence Posts**

RIGHT here is the place to get those Red Top Steel Fence Posts you see advertised in your farm papers.

This Red Top is a proved post—tested by farmers in thousands of fence lines. It's got a mighty good record right around here. The studded Red Top is extra strong without a weak spot in it. It has a long life. You can drive over 200 of them in a day with the One-Man Driver. The Handy Fasteners that come free with the posts are made so as to hold the wire securely, thus doing away with restapling and retensioning.

The Red Top post is guaranteed by the manufacturer to give one hundred cents on the dollar. We are authorized to make all adjustments. So we put our own personal endorsement and guarantee on every Red Top we sell.

It's just that kind of an article we like to handle in all lines, the leader in its field. One of the main points we look at in our buying is to get the makes of goods that give our customers the most value for the money. We don't expect to prosper unless you get a good big dollar's worth for every dollar you spend.

Drop in and see us when you're in town. Prices are mighty reasonable just now on fencing materials and many other special items.

Ques.—I want to ask in the question department of your paper the day and date of the battle of Bunker Hill? Also what was the "Boston tea party," and when did it occur?

Ans.—The battle of Bunker Hill was fought on Saturday, June 17, 1775. The "Boston tea party" was an incident that occurred on Dec. 16, 1773, when a band of men disguised as Indians went on board three British tea ships and emptied the tea into the bay at Boston as a measure of protest against British rule without the consent of the colonists.

Ques.—In what year was Halley's comet seen here? And when is it supposed to return?

Ans.—Halley's comet, true to prediction by astronomers, was seen here in April, 1910. It is traveling at the rate of 100 miles a second in an orbit so large that it takes seventy-six years and eight months to make the round. It will next be seen here in December, 1986.

Ques.—Are Negro Masonic lodges recognized by the white Masons?

Ans.—All colored lodges of Masons in the United States are regarded as "irregular" except one lodge in Newark, N. J. In 1871 a few negroes in Newark who had been made regular Masons in regular lodges in foreign countries where the admission of negroes was permitted, joined with a few white Masons, and obtained a charter for a lodge from the Grand Lodge of New Jersey. This lodge gradually became colored as the white members dropped out and only negroes joined it.

Ques.—Will you kindly tell me what and where is the highest building in the world?

Ans.—The Empire State Building in New York City, which was completed in May, 1931, is the highest building.

In the world. It has 70 stories, and is 286 feet higher than the Eiffel Tower in Paris.

Ques.—I wish you would explain why it is that on one side of the new dime of United States money has the "Fascist emblem" and the other side a "Roman god." Are we getting into the clutches of Europe?

Ans.—The emblem you think is the "Fascist emblem" was designed more than fifteen years ago, while the "Roman god" (Mercury) has been used for many years in beautifying books, buildings and other works of art. The designs were executed by Adolph Weinman, now sculptor of the Fine Arts Commission. It is strange how some people continue to see formations on our coinage and currency and claim it is the work of traitors. Rest assured we are not getting into the clutches of Europe.

Ques.—My mother was born on Sept. 6, 1874, and she would like to know on what day of the week that was. Will you kindly answer?

Ans.—Sept. 6, 1874, was on Sunday, which was the day of the week your mother was born.

Ques.—I was criticized for using this expression: "Will you mind me?" Will you please state what is wrong with it?

Ans.—"To mind" is to attend to a thing so it will not be forgotten. Therefore it is wrongly used in the above sentence. You should have said: "Will you obey me?"

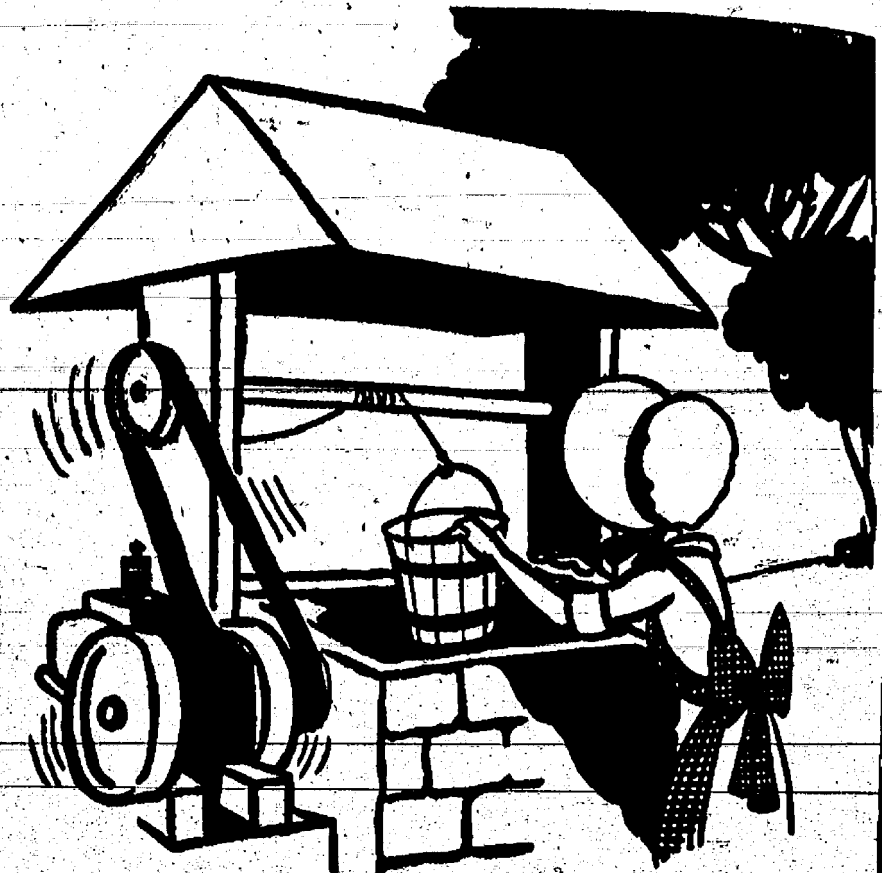

Ques.—I am writing to ask you if "Helen" is properly spelled with one "l", or should it have two? Also is it a girl's or a boy's name?

Ans.—When the name "Helen" is applied to a female it is spelled with one "l"; if applied to a male, it is spelled "H-e-l-l-e-n." In mythology "Helen" was the daughter of Jupiter, while "Hellen" was the son of Deucalion and Pyrrha.

Ques.—When taking my vacation should I take some fiction with me?

Ans.—No. Just get Mr. M. T. Nutt to write you love letters.

of a Clever Hostess

A single new dish added to my collection of recipes in a month's time used to be a bright spot amid the routine of preparing meal after meal, week after week. But with the installation of a Gas Refrigerator, my list of new and untried recipes is almost without limit! There are the fruit salads, mousses, parfaits, sherberts, frap-pes—the ice cubes, plain or colored—until now the preparation of an ingenious dessert is just one more new experience with the freezing compartment. I never need repeat a single dessert—except by popular demand!

Do you know what it costs to operate a Gas Refrigerator? Between 25 and 70 cents a week—about half of what you now pay for ice! Come in! Get the complete story of Gas Refrigeration.
