High School Band To Play At Blissfield

Chelsea's High School Band, "the pride of Chelsea," has attained such widespread popularity as a musical organization that they have been extended an invitation to give a concert on the streets of Blissfield on Friday evening of this week. The youngsters, with their director, Wesley Smith, will journey to that village and give the concert for the benefit of citizens of that place who are interested in starting a band in their school.

Out of a number of high school bands started in Michigan during the past year, Chelsea's band has the distinction of being the only one which has advanced to the point of presenting open air concerts. Credit for this splendid showing is due the individual students for their perseverance in quest of musical knowledge, and to their director, Mr. Smith, and Watson Hart for private instruction.

A special feature of the concert given by the band here Saturday night, 14-year-old Kay Havis of Peoria, Ill., who is visiting relatives here, played several piano accordion numbers. The next concert will be presented Saturday evening, September 5.

Emory Chipman of Lima has a clock that is 100 years old. The clock was bought in New York by his grandfather and has been in possession of the Chipman family during the past century. The works of the clock are constructed of wood and the wheels are as good today as when it was first started. The clock is a good timekeeper and will do service for many years to come. Mr. Chipman is also using a pair of spectacles that are 75 years old. They were made for his grandfather and the bows were evidently forged by the blacksmiths of 75 years ago.

HOWELL—Edward Hyne of Brighton claims the largest and only volunteer wheat crop in Michigan this year. Mr. Hyne harvested 426 bushels of wheat from 13 acres last year and this year the same field yielded 377 bushels of wheat without any seed being sown. The yield of 377 bushels of wheat from 13 acres is believed by Mr. Hyne to be the largest and only volunteer wheat crop in the State this year.—Republican Press.

HOWELL—No sooner had the alfalfa train rolled into Howell from Owosso-Friday morning than farmers began coming in with their samples of soil to be tested. The line did not let up until 87 progressive farmers had submitted some 450 packages of soil. The train chemists tested for both phosphorus and lime. The report was that about two and a half tons of lime was the average of lime per acre for the farms of Livingston county that needed liming, some more, some less.—Republican Press.

PINKNEY—A meeting of the Pinkney school board was held to discuss the proposition of cutting the school term from ten to nine months, in the school house last Friday evening. All members of the board were present except one. If the present term was cut to nine months the budget would be reduced \$1,000 it was shown. However, the fact that this would probably mean the dropping of the school from the university accredited list, and that the teachers have all signed contracts for ten months were also considered.—Dispatch.

4 to 1 Sales Leadership

Four people have purchased the Buick Eight to every one buyer of any other of the thirteen eights in Buick's price range during the twelve months since its introduction. This four-to-one preference—in days when America is scrutinizing values more closely than ever before—fully confirms the value leadership of The Eight as Buick Builds It. It is this outstanding value which causes 89 per cent of all Buick owners to buy Buicks again and again.

*Buick has sold four times as many eights as the next most popular eight in its field, August 1, 1930, through July, 1931, according to official figures by R. L. Polk & Company.

KROGER FOOD FOUNDATION
ESTABLISHES FELLOWSHIPS

Albert H. Morrill, President of The Kroger Grocery and Baking Co., announced today the establishment of a Fellowship in each of three famous Universities.

These Fellowships will supplement the work of The Kroger Food Foundation, according to Morrill, and bring to bear a wider range of viewpoint and experiences on its research in foods.

Fellowships have been placed in institutions in each case where outstanding achievements have already been made by members of the staff, so that the benefits are obtained from experience and technique already developed.

Through the endowment of Fellowships, the Foundation has assigned a

specific problem to each University. One will devote intensive study to experimental cookery; another will deal with child nutrition, while a third will study family budgets for different size families, particularly with a view toward developing adequate nourishment with minimum budget.

The results of this research work will be co-ordinated and dovetailed with studies carried on by the Foundation.

Makes You Lose
Unhealthy Fat

Mrs. Ethel Smith of Norwich, Conn., writes: "I lost 16 lbs. with my first bottle of Kruschen. Being on night duty it was hard to sleep days but now since I am taking Kruschen I sleep plenty, eat as usual and lose fat too."

To take off fat—take one half teaspoonful of Kruschen in a glass of hot water every morning before breakfast—an 85 cent bottle lasts 4 weeks—Get it at Burg's Drug Store or any drug store in America. If this first bottle fails to convince you this is the easiest, surest and safest way to lose fat your money gladly returned.
