Rail Road Jack Is Kiwanis Speaker

Rail Road Jack, memory expert of International fame, was the speaker at the Monday evening meeting of the Kiwanis club, a ladies' night affair, which was held at Mungers' Restaurant. Jack was very clever in his remarks and data concerning important historical characters when names were suggested to him by members of his audience.

The ten dollars which he claims to have carried with him for many years, which he offers to anyone who detects a mistake in his data, were still in his pocket at the close of his speech.

Miss Lillian Merz of Columbus, O., rendered several numbers on a piano accordion, displaying her talent as an artist of note with this instrument. Paul F. Nicholas was in charge of the program.

FAMILY PARTY

The home of Mr. and Mrs. Peter Merkel was the scene of a family party Sunday, celebrating the birthday anniversaries of Mr. Merkel and his daughter, Mrs. Harry B. Taylor. The table for the dinner was centered with a bowl of garden flowers and lighted with pink tapers, two birthday cakes forming an attractive feature. Guests at the party included Mr. and Mrs. Lee J. Merkel and daughters of Sylvan, Mr. and Mrs. Harry B. Taylor and children, Mr. and Mrs. Harold McCarty and family and Miss Alice Moore of Detroit, and Mr. and Mrs. Aloysius Merkel of Lansing.

PRISONERS REMOVED

Eighty-one prisoners were transferred from the Michigan State Cement Industry plant at Four Mile Lake to the prison at Jackson last Friday and Saturday. Eight prisoners were retained to do some work at the plant, but will be transferred to Jackson the last of this week. Thirteen free men will be retained by the state to take charge of the plant, which has been idle for some time.

STUDY CLUB MEETS

The Chelsea Club Study club was entertained Monday evening at the summer home of Mrs. Warren Daniels at Cavanaugh Lake. Mrs. Sidney Schenk was in charge of the program and her subject was "Children's Allowances." The next meeting of the club will be held on Monday evening, October 5th at the home of Mrs. A. C. Fisher on Washington street.

Rev. Fred Matthews New M. E. Minister

Beginning Sunday, October 4, Rev. Fred Matthews, of Akron, Mich., will assume the pastorate of the Chelsea Methodist church, succeeding Rev. Harry Felton who will be transferred to Romulus. Rev. Felton will assume his duties at the Romulus and Inkster churches on Sunday, September 27, but word has been received from Rev. Matthews to the effect that he will be unable to be in Chelsea this week.

Rev. Felton, who came to the Chelsea church early this year, has carried on the work of this charge very successfully. The size of Sunday morning congregations have been steadily increasing, and membership also shows an increase during the period of his pastorate. A new feature of religious work introduced by Rev. Felton is the Wednesday evening prayer meeting and exposition of the Sunday school lesson, which has proved to be very popular. The many friends of Rev. and Mrs. Felton wish for them continued success in their new field.

Local Post Active At Detroit Convention

The Chelsea Post of the American Legion was represented 100 percent at the National American Legion convention which opened in Detroit on Monday and continues through today. Several of the local men participated in the 40 and 8 parade Monday night and many were in the line of march with the Michigan division in the big parade on Tuesday.

Demonstration Will Be Held In Lyndon

County Agricultural Agent H. S. Osler announces that arrangements have been completed for a marl excavation demonstration to be held in Lyndon township at the farm of Wirt Boyce on November 2 and 3. The purpose of this demonstration is to show how a relatively inexpensive outfit can be used by farmers themselves in excavating marl with horses or tractor.

Mr. Osler says that 50 yards of marl a day can be placed in a stock pile with this outfit. 80 percent of Washtenaw land needs lime to correct soil acidity in order to grow good crops of alfalfa, sweet clover, and other legumes. A good grade of marl will answer this purpose.

There are a number of excellent marl deposits in the county that can be used to advantage by farmers who can do their own excavating at slack times during the year, says Mr. Osler, and by doing that would not be required to purchase ground limestone which would have to be transported, in some cases, to a considerable distance.

The agricultural engineering department of Michigan State College is co-operating with Mr. Osler in the demonstration, and will have a complete outfit installed at Mr. Boyce's farm during the demonstration. This outfit will be sold at cost at the end of the demonstrations to any farmer, or group of farmers who may be interested.

St. Paul's Societies Hold Joint Meeting

The Ladies' Aid Society and the Ladies' Auxiliary of St. Paul's church held a joint meeting at the church Thursday afternoon. Meeting opened with the hymn "Thy Service, Lord of Mercy," followed by Scripture reading by Mrs. Wilbur Hinderer and prayer by Mrs. Herbert Paul.

A duet, "I'll Go Where You Want Me To Go," was rendered by Mrs. J. N. Strieter and Mrs. Waldo Kusterer, with Mrs. P. H. Grabowski as accompanist.

This was followed by a song, "If You Cannot Cross the Ocean." The address of the day was given by Mrs. Edith Duffy of Detroit, state officer of the Federated Women's Union.

Mrs. Wilbur Hinderer, Mrs. Chas. Meservia and Mrs. Dale J. Claire were chosen as delegates to attend the state convention of the Women's Union, to be held in Detroit on September 24 and 25.

The meeting closed with the song "Love Thyself Last" and the Lord's Prayer.

Ice cream and wafers were served.

WEEKLY NEWS BULLETIN

Lansing, Mich.—Motorists will not be required to secure 1932 license plates until March 1, 1932.

Under an act of the last legislature the Secretary of State has authority to extend the time limit for purchasing new plates 60 days, and this extension will be made in connection with the 1932 plates, it was announced by Secretary of State Frank D. Fitzgerald.

One of the effects of this ruling is that motorists who purchase plates Sept. 1, when weight tax fees are cut in half, will be able to use the plates six months instead of four months as in previous years.

Despite the fact that there are 81,000 fewer automobiles registered in Michigan this year than last, the amount of money collected from the gasoline tax is larger than in 1930. One of the contributing causes of this increase is that many motorists who could not have purchased license plates Jan. 1 were able to keep their cars in operation for two months through the extension of the time limit.

Lansing, Mich.—The Department of State has extended the time for the exchange of old malt tax stamps for the new issue to September 30. After that date, no claims for stamp refunds will be accepted, it was announced.

"Why
My Next Car
will be
A FORD"

When you buy a Ford there are two things you never have to worry about. One is reliability. The other is long life. Here's an interesting letter from a Ford owner in North Carolina:

"My Ford was purchased May 8, 1928, and has been run 121,767 miles. It has never stopped on the road for repairs of any kind whatever except punctures.

"The brakes were relined at 101,000 miles. My gas mileage averaged 21 miles to the gallon, and on tires, 19,000 miles per tire. I travel over all kinds of road conditions—mountainous and flat.

"I consider this a wonderful record and I assure you my next car will also be a Ford."

This is just one of many tributes to the reliability and long life of the Ford. A Ford owner in Iowa tells of driving his Ford 73,000 miles in a single year. Another writes of 120,000 miles of good service.

Think ahead when you are considering the purchase of an automobile and consider what it will be like after thousands of miles of driving. Will you still be satisfied? Will you still say "it's a great car"?

If it's a Ford, you know everything will be O. K. It will be taking you there and back in good style, just as it has always done. And you will have saved many important, worthwhile dollars in cost of operation and up-keep and low yearly depreciation.

SCHOOL NOTES

Chapel period, held Tuesday, was extraordinary in that we had as a speaker Rev. Lenz of Francisco.

The Chapel period was opened with a Scripture reading and a prayer by Rev. Lenz. In keeping with the Legion convention in Detroit, war time songs were sung. Three members of the band contributed instrumental solos. Della Eschelbach and Frederick Strieter played a trombone duet, after which Olea Hart played a clarinet solo.

Rev. Lenz then gave a fine talk, the subject, "School as a Preparation for Life." He advised the students to set a high goal and then work towards it. In his talks before the student body Rev. Lenz always presents a

friendly attitude and urges us to better and higher ideals in our high school work. He also shows us what we could be if we tried.

This was his second appearance before the student body. He is exceedingly well liked by them and they hope he will favor them sometime again in the near future.

Prince Marimba of India appeared before the assembly Tuesday noon. It caused great excitement when he instructed Paul Parker to break one of the boys' watches. When we all looked at it, it was just a mess, but by the wave of his magic wand the watch was put together again and found in one of the girls' shoes who sat in the audience. It would have been just too bad for Paul if the watch couldn't have been put together again.

"Do you believe in spirits, or did it ever occur to you that you might speak to them?" Most of the answers were laughs when Prince Marimba asked this same question of the high school boys and girls, but he did think of making ice cream in a minute, and I'm sure all of those who were given cones will say it was good ice cream for none threw theirs away.

If you're bothered with being awake most of the night just ask Carl Schneider how to sleep and have happy dreams. Did you know you had more strength when you're sleeping than when you were awake, and that a needle or pin when pierced into your cheek didn't hurt?

It was worth seeing for oneself all of these things and everyone thoroughly enjoyed the entertainment.

Word has been received by L. G. Palmer, Goodyear dealer, of the award of a beautiful art photograph of the U. S. S. Akron, the world's largest airship, framed in duralumin, the material used in the framework structure of this leviathan of the air.

Mr. Palmer wins the picture, which is to be displayed in his service station window as soon as it is received, for making his sales quota in the July-August sales contest for Goodyear Dealers, known as the Dealers Annual Zeppelin Sales Race.

"I have seen pictures showing this award," Mr. Palmer said, "and it is one of the most worthwhile trophies of such a race, besides being a memento of this giant airship that will become increasingly valuable as time goes on, as an historical feature."

"I certainly am going to prize the picture a great deal."

"The sales contest was of great value in helping us get the maximum amount of business this summer, and it put Goodyear tires on the cars of many people who did not know before what our service could do for them."

Mr. Palmer has been a Goodyear dealer in this city for 17 years.

BROOKLYN—State Conservation Officer Dickenson has been at Vineyard and Wampanoag lakes during the past week spearing gar fish. During the past week nights these predatory fish lie within a few inches of the surface and are quite easily speared by

the light of a torch hanging out over the prow of the boat. Several hundred gars were taken from the two lakes, the officers being aided by local fishermen. The longest of the fish was 42 inches.—Exponent.

Question And Answer Dept.

Ques.—Why do so many Scotch people abhor the nine of diamonds in a pack of cards?

Ans.—In Scotland the nine of diamonds is popularly known as the "curse of that country." How this belief originated is unknown.

Ques.—I wish to ask in your valuable question and answer column who was the "Maid of Orleans"? A little information about her will be appreciated.

Ans.—The Maid of Orleans was Joan of Arc, a famous French heroine who was born Jan. 6, 1412. She descended from humble parents, secured a very rudimentary education, and learned to spin, sew and do household duties. At the age of 13 she showed much concern about the protracted war between France and England, and induced the French authorities to let her take an active part in the deliverance of Orleans from the English. She donned male attire, and with sword and a sacred banner, she led 10,000 men to enter Orleans which was in the hands of the English. After successive and well-directed attacks, she succeeded in forcing the English to evacuate. Numerous successes followed this brilliant victory, and then Joan wished to return to her home duties. After prolonged persuasions by the King she was induced to remain with the army. In the attack upon Paris her troops were repulsed by the English and she received a slight wound. She continued aggressive action, and on May 25, 1430, she was taken prisoner by the Burgundian forces and sold to the English. She was subjected to a prolonged and shameful trial and condemned to death as a sorceress.

The English found a pretext to treat her as a relapsed criminal and condemned her to be burned. This terrible fate she suffered May 30, 1431, at the age of 19 years. In 1455 a court constituted by Pope Calixtus III declared her innocent and pronounced her trial unjust. In French history she occupies a place of honor, and in the history of civilization she ranks as a heroine and martyr.

Ques.—Where is Lombardy and what is the nationality?

Ans.—Lombardy is a region of northern Italy occupied by the Lombards who were a branch of the Germans that resisted the Romans. It fell to Charlemagne in 774 A. D., and then passed consecutively to Germany and Spain. In 1815 it became part of Austria, but since 1859 it has belonged to Italy.

Ques.—Are there any Indians in the United States who have beards?

Ans.—Yes. The Makwas, the name of a small tribe of Indians who live upon a reservation in the vicinity of Puget Sound, have beards. This is because they are believed to be an admixture with the Russians.

Ques.—Would it be proper for a girl to call her beau names if he asks her for a kiss?

Ans.—Not exactly. You might call him an "amateur."

Ques.—Will you please be so kind as to tell me how much a cubit and a fathom are? Thank you.

Ans.—A cubit is eighteen inches, which was measured in ancient times from the tip of the middle finger to the point of the elbow. A fathom is 7 feet 3 1/2 inches.

Ques.—If you are good at answering questions will you please answer this one: According to Genesis ix, 10-11, Arphaxad, son of Shem, was born in 1153 B. C. As this was about

one year after the landing of the Ark on Mt. Ararat, and as Noah and his wife were the only survivors of the deluge, I want to know where Shem came from?

Ans.—We confess that we are not Biblical students, and would advise that you take your question to some Bible scholar.

Ques.—What was the last battle fought in the American Revolutionary War?

Ans.—The last battle of the Revolution was a skirmish near Savannah, Ga., on June 24, 1782, about eight months after Cornwallis' surrender to Washington at Yorktown.

ADDISON—The intersection of U. S. 228, and U. S. 127, north of Addison about four and a half miles, is becoming a favorite stopping place for motorists. There is one of the best artesian wells in the country, and folks in great numbers come to dampen their thirsts.—Courier.

WAYNE—Enrollment at the Wayne high school reached the five hundred mark Wednesday morning. Of this number 550 are enrolled in the high school proper and 150 in the Junior high school. This number is 75 more than the peak number attending school last year and is the high mark attained at the local school.—Review.

Add Dealers For Fish And Game Licenses

During the past month, the Department of Conservation has greatly enlarged the number of dealers who will handle the sale of fish and game licenses, and it is the belief of the department that such licenses will be more readily available to the public this year than ever before.

In the past, the State has paid to the dealers a commission ranging from 10 to twenty-five cents a license. This fee system was eliminated by the Legislature of 1931, and the Game Protection Fund will now receive the full amount of each license sale. This will result in an additional revenue of about \$60,000.00 annually available for fish and game protection and development.

The Department has experienced no difficulty in obtaining dealers to handle the sale of licenses without the former "fee." This fact is considered indicative of the growing public and private interest in fish and game conservation in Michigan.

Following is a list of Washtenaw county dealers who will sell the licenses: Ypsilanti—Alex J. Nulan; Ann Arbor—E. J. Jenkins, Phil Schumacher, Hardware, Schlenker Hdwe. Co.; George W. Lutz, George C. Fischer; Dexter—Stephens & Arksey; Whitman—E. G. Huntley; Whitaker—F. C. Garrod; Ypsilanti—Harry E. Shaefer; Chelsea—F. W. Merkel, John L. Kilmer; Milan—J. A. Geddes, Lester Sanford; Saline—Fred McHenry; Manchester—Fred Widmayer; Salem—John Herrick; Bridgewater—Bridgewater Lumber Co.; Lima—John J. Miller.

Voice of Dumb Millions

Man Is New, Says Ford

Gandhi, speaking as the voice of "dumb millions," is gentle and ingratiating.

He utters "freedom for India, but for India as a valued partner of Great Britain, not held by force, but by the silken cord of love."

Nice words, but the silken cord of love is easily snapped, and Gandhi, who, with Hindu gentleness and civility, was laying down an ultimatum for the British, well knows it. If he goes back with a British answer unsatisfactory to his followers, blood will flow, and a great deal of it.

On the other hand, if the British say to India, which is unthinkable: "Go in peace and do as you please," conditions in a month will be ten thousand times worse than they are now and still worse every month thereafter.

The mayor of one of New York's big cities, who understands criminals, says (his exact words are given): "Two coppers, young and honest, pick up a couple of criminals. The latter say: 'Boys, can we talk to you?' The young coppers ask: 'Talk about what?' 'The criminals say: 'Well, we have got \$1,000 here, \$500 apiece for each of you. Does that talk?'"

"The coppers, young and still honest, take the two criminals to court. A criminal lawyer puts up a hotter about the Constitution and the rights of his clients. They are released. The lawyer gets the thousand dollars, and the criminals, as they leave court, turn to the two policemen and say: 'You boys are suckers; you might as well have got the money as have him get it.'"

A British flyer, Lieut. J. N. Boothman, won the Schneider trophy, now permanently Great Britain's property. He averaged 340 miles an hour over a triangular course. This beats the best previous record, also British. In a magnificent performance another British flyer, Lieutenant Stannforth, set a speed record of 335.5 miles an hour, flying one lap of the course at 40.2 miles an hour.

A nation that can make such airplanes and find men to run them ought not to be discouraged about a few million pounds sterling one way or the other.

It is what men have in their brains and hearts, not the gold reserve, that makes a country.

This country, with its gold piled up, and France, too, for that matter, should remember that Alexander conquered rich Persia when all the money he got from his father was less than what he afterward spent on scientific research for Aristotle.

A number of distinguished scientists, and Henry Ford, answered Adolph S. Ochs' interesting question: "What will the next eighty years bring forth?" And the last words of Henry Ford's reply are as encouraging as anything that could be said to the human race.

"The newest thing in the world is the human being. And the greatest achievement of the last century is the man. He is to be looked for in him. Bacon said it was the human race that had been so much longer on the earth in his day than in the days of the ancients. But we, all of us, are mere children, creatures of yesterday."

Only twelve thousand years ago we lived in the late Stone age, and our greatest achievement was a flint, well sharpened, a spear, perhaps a bow and arrow, to kill the enemy. Compare that "tool" with the 150,000 horsepower steam engine that Henry Ford recently bought from Gerard Swope, president of the General Electric company.

If we have progressed from a sharpened flint to a 150,000 horsepower engine, airplane, submarine, tractor and knowledge of the atom, in 12,000 years, how far shall we go in the next 12,000,000 years?

Science assures us that the earth is already at least one billion years old, and that man can look forward to hundreds of millions of years more.

An able Boston merchant says: "The worst of our troubles are over, and our greatest remaining difficulty is the attitude of bankers and others that lend money. When they get over their fears, their damaging desire to have safes filled with ready cash, business will revive."

On the other hand, one of the ablest American bankers said: "Citizens, frightened, are injuring themselves and the country by withdrawing money and hiding it. It is not the bankers' safes that are filled with cash so much as deposit boxes, old mattresses and other hiding places."

There does exist foolish timidity among lenders, and harmful hoarding among citizens. But business is improving, the country is 100 per cent solvent, with credit unlimited, and more than five billions in gold accumulated. When the people want better things and get ready to prove that they want them, they can have them.

MICHIGAN, ANN ARBOR, ADOPTS NEW POLICY

The Michigan Theatre in Ann Arbor announces a new policy for the coming season which starts next Sunday. This policy embodies the past ideas of projecting the best talking pictures from the studios of Paramount, Metro-Goldwyn and others. In addition there are to be stage shows again which the management announces will be played whenever available. "We are going to play nothing but headliners," said the manager, "and if we cannot secure one of the big ones, then that week we will just have the screen show alone without the added stage acts. This should insure some marvelous shows for our patrons, who can always know the calibre of artists we are featuring. The new method we can eliminate any of the poorer grade of acts that were formerly necessitated to fill in vacancies caused by last minute disappointments."

The opening bill brings the famous screen comedian Harry Langdon in person, with his company of funmakers. In addition, Joan Crawford will be seen in "The Modern Age." Announced as coming featured acts are Fifi D'Orsay in person, Carl Fred and orchestra, Colby-Murray Revue, and Roy Cummings, featured stars of New York musicals.

There is to be no increase in prices at any time.

Mrs. H. G. Shutes and son Bob, who have been spending several weeks visiting relatives in Chelsea and vicinity, left Wednesday morning for their home in Colorado Springs, Colo.

Mrs. Orla Wood and son Merle, of Hart, are spending this week with her parents, Mr. and Mrs. Henry Luick. Mr. Wood will resume his work at the U. of M. as a senior medic.

This Woman Lost
64 Pounds of Fat

Mrs. H. Price of Woodside, L. I., writes: "A year ago I weighed 190 lbs. I started to take Kruschen and now I weigh 126 and never felt better in my life and what's more, I look more like 20 yrs. old than the mother of 2 children, one 19 and the other 18. Every one of my friends say it's marvelous the way I reduced."

To lose fat with speed take a half teaspoonful of Kruschen in a glass of hot water before breakfast every morning—don't miss a morning—an 85 cent bottle lasts 4 weeks—get it at Henry H. Fenn, or any drug store in America. If not joyfully satisfied after the first bottle—money back. Adv.

Mrs. Hattie Wedomeyer will leave Saturday for Fort Wayne, Ind. where she will spend several months at the home of Mr. and Mrs. Harry Schlatter. During her absence, Mr. and Mrs. H. A. Dickerson will occupy her residence at 145 Orchard St.
