Fingerlings Received For Nearby Planting

Through the efforts of A. K. Collins, secretary of the Chelsea Fishing and Fish Propagation Club, sixty cans of large mouth bass fingerlings were received here this week for planting in nearby lakes.

Thirty cans were received on Monday for planting in Sugar Loaf, Cunningham, Bruin, Johnson, Four Mile lakes and on Tuesday thirty cans were received for Blind, Mill, Cassidy, Crooked and Doyle Lakes.

Scout Officers To Hold Conference

Boy Scouts who are patrol leaders, assistant patrol leaders, scribes, senior patrol leaders or junior assistant scoutmasters in their troops will attend the annual junior officers conference on Friday of this week at Camp Newkirk, near Dexter. In accordance with a custom of several years' standing, the boys themselves will conduct all of the sessions, with only one adult speaker.

According to announcement made by Scout Executive Wallace F. Watt of the Washtenaw-Livingston Council of Boy Scouts, the scouts will arrive at the camp at 9 o'clock Friday morning, and will immediately be registered and assigned to patrols for the day's projects. Actual patrol model meetings will be conducted by trained, and experienced older boys, followed by patrol hikes to see which patrol can report the most interesting experiences and discoveries. Each patrol will be given food without cost to the boys, and will prepare the best meal possible with the materials at hand. Patrol games for fun and for teaching scoutcraft will be demonstrated by boys specially trained for this type. Various methods of coaching in the scout tests for advancement will be presented, in order to train the leaders for better work with their own local groups.

The conference will close at 5 o'clock, permitting those who have other engagements for the evening to attend to them, but provision has been made for those wishing to remain at the camp overnight. Supper and breakfast will be served and sleeping accommodations will be furnished in the main lodge and in the Exchange cabin. Each person remaining overnight should take an adequate supply of blankets.

Scoutmaster Guy Weatherman of the local scout troops is cooperating in this effort to train boy leaders, and states that a number of local boys will attend the conference.

Twelve members of the local Boy Scout troop will assist on Saturday as ushers at the Ohio State-Michigan game at Ann Arbor.

WEEKLY NEWS BULLETIN

Lansing, Mich., Oct. 14.—A saving of from \$50,000 to \$60,000 has been made by the Department of State by advertising for bids for the preparation of the 1932 motor vehicle registration lists. At the same time, the price of the lists will be reduced to purchasers from \$225 to around \$50.

As a result of competitive bidding this year, a Detroit company received the contract at a price of 98-cents a page, a much lower figure than that of previous years.

In all about 20,000 pages are involved for making 450 sets of the registration of owners of all automobiles and trucks. The saving in preparation of these lists, it is estimated, will be between \$50,000 and \$60,000 and will be reflected in the price paid by purchasers. The law requires that these lists be furnished without cost to sheriffs and police chiefs of cities of 10,000 or more population.

The Department of State has recommended to county and municipal officials that where all other factors are equal, Michigan manufacturers be given preference in the purchase of permanent election registration equipment.

Starting next spring, there will be a general reregistration all over the state. Following that, it will not be necessary for voters to register again unless they move or unless they fail to vote for two years.

TO CREATE a reserve for future spending requires vision, strength of character, and a determination to get ahead.

Question And Answer Dept.

Quos.—To settle an argument will you please answer the exact day of the week and the date that Napoleon fought the battle of Austerlitz? Also who won that battle?

Ans.—The battle of Austerlitz was fought on Monday, Dec. 2, 1805, and resulted in a decisive victory for Napoleon, although he was outnumbered by 3 to 1.

Quos.—How does it come that Magellan is credited with being the first to sail around the world when he was killed by natives in the Philippine Islands?

Ans.—While it is true that Magellan was killed by natives of the Philippines in his sail around the world, one of his vessels and part of his crew returned safely to Europe. On a former occasion he had sailed to Banda Island at a 180 degree longitude east of Greenwich, and when he was killed by natives on Macian Island he had sailed west to longitude 124 degrees east.

Quos.—I understand that you answered a question some time ago that I would like to have you answer again, as I have forgotten it. What is the meaning of "moron"?

Ans.—The word "moron" comes from the Greek word "moros", which means "foolish." It is a new word which is applied to mental defectives of a certain type—usually to persons whose intellectual development proceeds normally up to about the eighth year, after which the mental growth is arrested and rarely exceeds that of a child of 12 years.

Quos.—Can you tell me what is the origin of the word "moonshine" as applied to whisky made in violation of the law?

Ans.—It was formerly supposed that the term originated in the mountain districts of Kentucky and Tennessee, where illicit stills were common, and made by the light of the moon. This, however, appears to be erroneous, as a dictionary published in London in 1785 defines "moonshine" as "white or illicit brandy smuggled by night into England from France and Holland."

Quos.—What state in the United States is called "the mother of states"?

Ans.—This name is applied to Virginia, because so many states have been carved from her original territory. At the time of the settlement of Jamestown the name "Virginia" was applied to all that part of North America extending from coast to coast. When Sir Francis Drake circumnavigated the globe he stopped on the coast of California which he spoke of as "the back part of Virginia." At the time of the Revolutionary War six of our present states were carved from the territory that was claimed by Virginia. They were as follows: Ohio, Indiana, Illinois, Michigan, Wisconsin, and Kentucky. Therefore Virginia is called the mother of states.

Quos.—I am told that you will tell the day of the week a person was born on. Will you please tell mine? I was born on Oct. 1, 1897. What was the day, and was it a lucky day?

Ans.—As Oct. 1, 1897 was next to the last day of the week, you were born on Friday. The superstitious claim that that was an unlucky day, but do not allow yourself to be swayed by superstition.

Quos.—Why is it that so few married men read when they go to bed? I suppose you'll say "it's because they are tired."

Ans.—No, you have guessed wrong. Most married men don't read in bed because they are obliged to listen to a lecture.

Quos.—I want to ask in the question column of your paper what is the origin of using pumpkin faces at halloween time?

Ans.—The origin of halloween is lost in antiquity, but it is probably a survival of the old Roman harvest festival that usually took place on the last day of October. The druids and heathen priests would build fires at these feasts, drink, dance and make merry all night. The pumpkin lanterns are a relic of these Druid feasts. They represented the various "spirits" and "hobgoblins" associated with the early heathen celebrations.

Quos.—What is good to take for that "run-down feeling"?

Ans.—Don't take anything. Just cross the street against the red light and your troubles will come to an end.

NEW GASOLINE WILL CHANGE WITH SEASON

Chicago, Oct. 14.—The new gasoline which Standard Oil Company of Indiana is heralding in large newspaper ads in thirteen north central states will introduce motorists to the idea of a gasoline changing with the seasons. Characteristics of the gasoline, officials of the company revealed, will not be fixed permanently but will be varied on a prearranged schedule to fit the season and the locality.

In winter the gasoline will be so manufactured as to contain a high percentage of volatile elements to aid quick starting and acceleration and in summer these elements will be kept to the practicable minimum in order to prevent "vapor lock," which often interrupts the smooth flow of gasoline to engines on hot days. The summer gasoline will also have a still higher anti-knock specification, as that feature is more important in hot weather.

It is interesting to note that in calling the new product "Standard Red Crown" the company is adopting a policy of emphasizing the word "Standard" as a brand name for gasoline.

The company's present policy is to offer the improved gasoline at the same prices as were charged for the former regular-grade even though higher cost of manufacture is involved.

MANCHESTER.—Farmers are husking corn and they say that they find part of corn borers in the stalks which are badly eaten. Some farmers took great pains to clean up last fall and buried the stubble. Is this the only section where they are in evidence?—Enterprise.

CAN IMPROVE MARKET PRACTICES ON BEANS

Better sources of market information, a different grading system, and an aggressive effort to recover customers lost to producers of other districts are three of the recommendations for the betterment of market conditions for Michigan beans made by the economics department of Michigan State College.

These findings are the result of an investigation made recently by Professor W. O. Hedrick, who made study of the business methods employed by all types of Michigan bean elevators, and who states that the number of elevators in some sections in this State is too great to permit efficient marketing practices.

Farmers usually depend upon the person who buys their beans to furnish them with market information, Professor Hedrick says, and he concludes that it is not always an advantage to the farmer to depend upon such sources for market reports.

Adoption of the federal bean grades in place of the Michigan grades is recommended because these grades would be more acceptable to consumers of Michigan beans, according to the Michigan State economist. The grades in use at present are set by the jobbers who sell beans.

A complete discussion of the Michigan bean marketing system will be contained in Special Bulletin No. 217, written by Professor Hedrick, to be printed in a short time by Michigan State College.

HERE is the news you've been waiting for—hoping for—wondering whether you'd hear it this year or next. The news of a NEW GASOLINE—a BETTER GASOLINE. Mark that last phrase! That which is new is not always better. But Standard Red Crown is NEW and BETTER. We introduce it to you as the best all-purpose gasoline ever put on the market. And we've anticipated some of the questions you'll want to ask about this brilliant, sparkling, modern fuel. From now on you'll hear plenty about Standard Red Crown—plenty of praise for a fuel that gives you more for your money—easy starting—more power—more performance—more miles.

Read these questions and answers—and then drive to the nearest STANDARD RED CROWN sign—for your first filling of "The Better Gasoline"

What is Standard Red Crown, the Better Gasoline?

A gasoline in which the fractions are so adjusted to weather conditions as to give a smooth flow of power at any season of the year.

What are fractions in Gasoline?

They're the compounds taken from petroleum each of which vaporizes within definite temperature limits. The skillful merging of these fractions and adjusting the proportions to meet different weather conditions make good gasoline.

What happens if these fractions are not properly adjusted?

The engine may perform satisfactorily under one set of conditions but not all. For example, in winter good gasoline requires large amounts of light ends to give quick starting and satisfactory performance, but in summer too much of these light ends causes vapor lock troubles.

Is Standard Red Crown a natural product?

No. Nature is not concerned with producing an ideal gasoline for automobiles. It must be made by skillful men. Standard Red Crown owes much of its anti-knock value to the use of the improved cracking processes developed by the Standard Oil Company (Indiana).

How is Standard Red Crown made?

Under processes developed in the research laboratories of the Standard Oil Company (Indiana) utilizing the tremendous refining facilities of this organization.

Is Standard Red Crown a NEW Gasoline?

Yes. It has just been put on the market.

Why do you recommend it for winter driving?

Because it starts easily and accelerates smoothly and because it can be depended upon to operate smoothly in the engine and deliver a rhythmic flow of tremendous power.

Why is Standard Red Crown recommended for 1931-32 cars?

Because it is designed to respond to the delicate adjustment of the latest type engines—because it performs better in the older types—because it burns clean at any speed—because it's priced to meet current economic conditions. It gives maximum performance at a moderate price.

Where can I buy Standard Red Crown Gasoline?

Standard Red Crown is sold where the Red Crown emblem is displayed. It is priced for the average pocketbook—but gives maximum performance.

THE FORD is good-looking. It is safe. Comfortable. Speedy. Reliable. Long-lived. Economical. Everything a good car should be.

There is, too, an added something about it that brings enthusiastic comments from every one who has ever driven a Ford . . . the joy it puts in motoring.

"I have been a car owner continuously for nearly 20 years," writes a motorist connected with a leading university. "During this period I have bought eleven new automobiles. Eight of the eleven were in the middle-price field, one cost three thousand dollars, and the last is a Ford I purchased thirteen months ago.

"In the light of this experience I can say in all sincerity that I have derived more genuine satisfaction from the Ford than any car I ever owned. In

saying this, I am thinking in terms of comfort, safety, driving pleasure, ease of control and economy. My next car will also be a Ford because it will give me what I want at a price I can afford to pay."

When you get behind the wheel of the Ford and drive it yourself you will know it is a truly remarkable car at a low price. You will like it when you first buy it. You will become more and more enthusiastic the longer you drive it.

After thousands of miles of driving you will say "It's a great car." Its economy will save you many dollars.

Formulate Plans For Navy Day Observance

Plans for the observance of Navy Day and the birthday of Theodore Roosevelt on October 27th were outlined at a meeting of the executive committee for Navy Day, held Tuesday evening, October 13, at the Naval Armory, 7600 E. Jefferson Avenue, Detroit, Col. James M. "Pat" O'Day, who was again named chairman for Michigan by Walter B. Howe, national chairman, announced yesterday.

"The object of Navy Day," said Col. O'Day, "is to bring the facts about our navy and its needs to the attention of our citizens. Roosevelt's birthday is observed in connection with Navy Day because he was one of the greatest friends the navy ever had and his birthday and the date of the first bill authorizing an American navy are identical."

The Navy Day observances have now become statewide and the American Legion has also joined in the movement.

THIRTY-FOUR YEARS AGO

Thursday, October 14, 1907.
 George, son of Mr. and Mrs. W. H. Sumner, while returning home on a hunting trip Wednesday afternoon, rested the muzzle of his gun on his right foot. In some manner the gun was discharged and he had to lose the third and fourth toes amputated. Edward Shanahan has sold a piece of land in Lyndon to James Shanahan. The Women's Christian Temperance Union held a county convention in the Chelsea Congregational church on Wednesday of this week. At the annual election of officers Mrs. M. G. G. of Chelsea was chosen as treasurer. Monday night of this week, Miss Mary West of Sylvan, left the family sitting on the line. Tuesday morning she discovered that the goods had been stolen. Born on Sunday, October 3 to Mr. and Mrs. Harold Gage of Sylvan, a girl. J. P. Wood of Chelsea was elected president of the Michigan Bean Threshers' Association at their recent annual meeting. Mrs. A. S. Harlow has purchased a farm lot on East Middle street and making arrangements to build a dwelling on the property. Wm. Bouvier, while working on the residence that G. Hutzal is having built on his farm in Lima, was thrown from a ladder and had his right arm broken. Word was received here Friday that Miss May Trouton died suddenly of a stroke where she had been for several weeks. The remains were brought here Saturday and taken to the home of her parents, Mr. and Mrs. S. Trouton. The funeral was held Monday from the Baptist church.

COUNTRY MEN SEARCH FOR BETTER METHODS

Recent increases in the prices of farm products have aroused interest among country men as to how to increase the production of their crops. In Michigan, according to the country husbandry department at Michigan State College, the three essentials for good crops are: good seed, proper soil, and proper weather. These requirements can be met by the country man at only a slight increase in cost above the old methods. The result in failure. House need not be elaborate but must provide protection against weather changes, adequate ventilation and light. One hundred square feet of space will cover 350 to 400 square feet of ground. The result in failure. Laying hens should have access to a good dry mash in a self feeder at all times.

First American Iron Works

Sir Walter Raleigh, searching for gold, discovered iron ore in what now is North Carolina in 1585. The first iron works was established at Fallis, Creek, near Richmond, Va., in 1619, by the Virginia company. Indian troubles resulted in early suspension and permanent iron works were established near Lynn, Mass., in 1643. John Winthrop, son of the famous Massachusetts governor, was the builder of the works.

Miraculous Escape

Speeding 70 miles an hour a passenger train clipped off the radiator of an automobile at Charlton, England, leaving George Swift and a companion sitting in the front seat of the machine uninjured.

Salt in Commerce

The best grade of salt is procured by the evaporation method. This is because the brine is first purified before it is evaporated. It is 99.80 per cent pure. Mined salt is from 1 to 1 1/4 per cent less in sodium chloride content than salt procured by the evaporation method. Incidentally, the purest rock salt comes from Louisiana.

Duties of Statesmen

"Our Government," by Garner & Capen, says that members of the cabinet cannot at the same time be members of either house of congress. They could, however, be allowed to occupy seats for the purpose of advocating or opposing the enactment of laws affecting their department and for giving explanations to congress and defending their policies against attack. This privilege could be allowed without amending the Constitution.

RETURN TO WASHINGTON

George Knapp and Mrs. Etta Marshall of Seattle, Washington, who have been spending the last four weeks at the home of his sister, Mrs. Merchant Brooks, left today for their home. During their stay here a dinner was given in honor of Mr. Brooks' birthday and a reunion of the Knapp families was held. This was the first time in 45 years that the brothers and sisters of Mrs. Brooks had all been together at one time.

NO SCHOOL FRIDAY

The Chelsea public schools will not be in session on Friday, so that the faculty may attend a teachers' institute in Detroit.

Not Work of Shakespeare

Five plays in which Shakespeare was not sole author are: "Taming of the Shrew," "Trollius and Cressida," "Pericles," "Timon of Athens," and "Henry VIII." "Titus Andronicus" and "Henry VI" (in three parts), which are usually ascribed to him, are both plays of doubtful origin.

Stop Night Coughing

Night coughing is almost always caused by an irritated, inflamed throat; so is almost all coughing. Ordinary cough syrups do not reach these conditions, but Thoxine, a prescription exclusively for throat troubles, does. It relieves the irritation and the cough stops within 15 minutes. And Thoxine goes further too. It eliminates the internal cause which many times develops into serious illness.

A swallow of Thoxine before retiring absolutely prevents night coughing, and insures a good night's sleep. It gives the same speedy relief for sore throat too. It contains no chloroform or other harmful drugs and children like it. Relief is guaranteed within 15 minutes or money back. 35c, 60c, and \$1.00 bottles. Sold by: FENN'S DRUG STORE and all other good drug stores. Adv.

WORSHIP AS REST

"Come ye yourselves apart into a desert place, and rest awhile." What cheer these words of the Master must have brought to the apostles, tired and weary, with the rush of things. Their days had been busy and their hours filled with many things. But the time had been reached when the moving of the anxious throng no longer exhilarated, and the press of humanity did not inspire. Jesus with that insight into life which characterized him saw this. He met it with the above invitation: "Come apart and rest awhile."

The same laws of life exist today as did two thousand years ago. But the pressure upon each one of us has grown tremendously with the passing of the years. We, too, grow confused and tired with the burden of things. We take our vacation periods too seriously and they become days of pressure and hurry. The result is spiritual fatigue which cannot be cured by mountain and sea shore. Modern Christianity needs to know the refreshment of worship.

Each Sunday carefully planned services of worship will be conducted in the Methodist Episcopal church. Without is the commercial world with hurry, confusion and noise. Within there will be worship, quietness and peace. The church needs your cooperation. But much more you need the church. You need the inspiration which comes from the stillness of worship. You know that God has not taken a vacation.

This is our invitation: Come apart and rest awhile.
