Some antiseptics show tremendous germ killing power under unusual laboratory conditions. But in actual use, they may not always repeat.

So they tested MI 31 in the mouth. In two seconds MI 31 had destroyed five million germs, including those that cause sore throat and infection. In addition it neutralized every odor—even onions, and prevented the return.

Millions of people already know the value of MI 31 as a mouth wash and as a gargle. MI 31 is sold only at Retail Stores.

## Wm. Lindemann Found Shot To Death In Car

William J. Lindemann, 58 years of age, who for the past 15 months had resided on what was formerly the J. H. Boyd property, south of Chelsea, was found dead in his automobile Wednesday afternoon in Fairview cemetery, north of Ann Arbor on the Pontiac road.

Mr. Lindemann left his home about nine o'clock, ostensibly to visit a hatchery near Ypsilanti and stated to the family that he was taking someone with him.

Shortly after noon the sexton and men employed at the cemetery noticed him drive in and walk around the lot where several of his relatives are buried. Later, they left for lunch and on returning found Mr. Lindemann in the car, shot through the head, with the gun beside him.

The sheriff's department was called and are investigating the case. While circumstances indicate suicide, no motive has been found for the act.

Mr. Lindemann was born March 16, 1874 in Bergfeld, Posen, Germany. He was married in 1892 to Miss Helen Winghart and in 1908 they came to America, settling in Ann Arbor. For this union was born one daughter, Mrs. Lindemann died in 1926. In 1921 he was united in marriage to Mrs. Lucy Lindemann, and they resided in Ann Arbor until December, 1930, when they came to Chelsea.

Surviving are the widow, a daughter, Miss Lulu Lindemann, of New York City; a stepdaughter, Hilda, guards Lindemann, at home; his mother, Mrs. Mary Lindemann, two brothers, Julius and Gus; and a sister, Mrs. August Krumpel, all of Ann Arbor.

Funeral services will be held Saturday afternoon at 2 o'clock at Muehling's funeral home, Ann Arbor, Rev. H. C. Steinhorn officiating. Burial will be in Fairview cemetery.

## Canadian Journalist To Speak Here Friday

A Union Community Rally will be held at the Chelsea Methodist church Friday evening of this week, at 8:00 o'clock, when Ben Spence, Canadian Journalist, of Toronto, will speak on the subject "Canadian Liquor Control Systems."

Mr. Spence is known throughout the world as the best informed person on the liquor situation in Canada. For years he was the leader of Canadian temperance forces.

The great convention of the World League Against Alcoholism in Toronto in 1922 was a wonderful success largely because of the vision, knowledge and industry of Ben Spence. Again and again for years he has been invited to address state and national conventions of the Anti-Saloon League and the W. C. T. U. as the outstanding authority on temperance among our neighbors to the north.

Books, pamphlets and articles by Mr. Spence have been widely distributed and are the standard authority on Canadian liquor systems. These include: "Canadian Liquor System, What It Is, How It Works"; "Liquor Control in Canada"; "Quebec and the Liquor Problem"; "Government Controlled by Liquor"; and many others.

Mr. Spence possesses something more than a thorough knowledge of the subject to which he has devoted a lifetime of study. He has the rare gift of imparting his knowledge to others clearly and interestingly.

Always in intimate touch with affairs in the United States, he recently spent several years as American correspondent for the Toronto Star with headquarters in Washington, D. C. Here he was a member of the press club and also of the Senate press gallery. Thus his unusual acquaintance with modern American affairs and politics gives him exceptional ability to discuss Canadian liquor systems before American audiences. He understands not only his subject but the government, language, and customs of those to whom he speaks.

With the increasing intensity of the wet and dry fight in this country, and the liquor forces conducting a tremendous propaganda campaign for the adoption of the Canadian system as a substitute for the Eighteenth Amendment, Mr. Spence yielded to the demand for someone to tell the truth about so-called government control.

He asked to be relieved of his regular newspaper duties and is now devoting most of his time to speaking, and writing on Canadian liquor systems. His occasional addresses have created a profound impression and there is a nation-wide call for his services.

The public is invited to attend this meeting.

## President Asks Good Friday Observance

To the people of Chelsea:  
According to an ancient practice in Christian civilization, Christian people have reverently observed the anniversary of the death of our Lord, from time immemorial on the day called "Good Friday," they have reflected upon the truths connected with His death.

To make it convenient for all Christian people of Chelsea to attend their respective places of worship, and to lend encouragement to such a wholesome practice, I, Paul C. Maroney, President of the Village of Chelsea, request that on Friday, March 25th, in the year of Our Lord 1932, all commercial enterprises discontinue business from twelve o'clock noon until three o'clock.

By Order of Village President,  
Paul C. Maroney.

## Several Fires Here During Past Week

The residence of Wm. B. Bauer, on what is known as the Howard Everett farm, about seven miles southwest of Chelsea, was destroyed by fire Saturday afternoon, with all of the contents. The origin of the fire has not been determined, but it was discovered by neighbors between three and four o'clock, and had gained such headway that it was impossible for them to render any assistance. Mrs. Bauer and daughter had gone to town and Mr. Bauer was at work in the back lot when the fire occurred. The residence was built to replace one which burned a few months ago.

Fire was discovered at 8 o'clock Saturday morning at the residence of Thomas Vail on Lincoln St. The blaze started in the attic, burning the roof and the partitions of the second story, also the contents of the second floor. The loss is estimated at \$2500, fully covered by insurance. Mr. and Mrs. Vail are making arrangements to move to the McKernan home next door to their home.

WEEKLY NEWS BULLETIN

Frank D. Fitzgerald, Secretary of State

Lansing, Mich., March 16.—Investigation into the feasibility of the purchase of automobile license plates on a quarterly-payment plan is being made by executives of the Department of State.

Due to economic conditions, thousands of motorists have been unable to pay the weight tax and therefore are unable to use their cars. It is believed that if motorists were able to pay the tax in four installments, an appreciable additional number could use their cars all year round.

Between now and May 1, about 400,

2000 automobile drivers will be required to secure new drivers' licenses under the law adopted by the 1931 legislature. All who secured old licenses between Jan. 1, 1928 and Jan. 1, 1929, must secure new licenses before May 1.

Since this new law, requiring re-registration of drivers every three years, went into effect May 1, 1931, a total of 2,414 licenses have been revoked. Of this number 2,258 licenses were revoked under the mandatory provisions of the law, which do not give judges or the secretary of state any discretion in canceling the license.

THE SOD SURGEON SAYS

Finally the great weather mystery has been solved! Two weeks of March winter—the worst of the season—has explained the most freaky winter of many a year.

But the March storms have been mild compared with the storm the farm leaders are kicking up in Washington over the general sales tax.

Congress has voted to investigate the "bears" and the "bulls" and "watered stock"—in fact, almost everybody and everything except the "lambs" that just their fleeces in Wall Street.

L. K. Hadley Honored On 86th Birthday

A beautiful tribute was paid Lyman K. Hadley on Friday, March 4, when relatives and friends gathered at the Presbyterian church in Unadilla in honor of his 86th birthday.

A pot luck dinner was served in the annex, by members of the Presbyter- ian L. A. S., to about one hundred guests. There were three beautiful birthday cakes, one of which bore 86 candles and was presented by his wife. The other two were presented by Mrs. Olin Marshall and Mrs. Wm. Marshall.

The tables were beautifully decor- ated in green and white, by Mrs. Inez Hadley, Mrs. Olin Marshall, Mrs. L. K. Hadley and granddaughter, Dor- othy Hadley. Three beautiful baskets of flowers were presented by Mrs. Inez Hadley, Dorothy Hadley and Maxine Marshall. A beautiful bou- quet of sweet peas was presented by the Combs Greenhouse of Chelsea.

Guests were present from Detroit, Reading, Ann Arbor, Jackson, Stock- ington, Dexter and Gregory, among whom were three of Mr. Hadley's sis- ters, Mrs. Andrew Joyce, Mrs. Sam- uel Joyce and Mrs. Ira Backus, and his two daughters, Mrs. Pauline Clark and Mrs. Fred Hesselden.

MANCHESTER—Some of the boys, perhaps more than we know of, have built bird-houses and put them up year after year on their home grounds as the summer homes for various kinds of birds that spend the spring, summer and fall months here. We hope that every boy will see to it that the mother birds will find a suitable house placed for her when she is ready to hatch her brood and care for them, where they will not be molested by other birds. Don't paint the old bird-houses—the birds don't like that kind. —Enterprise.

MASON—Case numbers for the March term of the circuit court rose up to only 410, the smallest number in upwards of five years. The case numbers on the court calendars usu- ally run to between 400 and 500. The dismissal of a large number of cases for lack of progress is responsible for the smaller calendar this coming term. According to court rules the circuit judges have the power to dis- miss cases in which no progress has been made for a year. —News.

Economy in Cooking

Then there is the person who tells you how much it costs her to cook electrically but forgets to add that the bill in- cludes lighting, cleaning, ironing, radio, refrigeration, and so on. Or the person who says, "Oh, yes, our rent is \$70. Our grocery bill was \$40. Yes, our electric range is ter- ribly expensive to use, but really, m'dear, we could never do without it." You know the type.

There is a saving of food with the modern electric. Your roasts don't dry out. There is less food shrinkage. In the common flame heated type of oven we figure that we must put in seven and a half pounds of meat to take out a 5-pound roast. With the electric oven we put in five and one- eighth pounds of meat to have a 5-pound roast. If you throw away two pounds of meat at, say 25 cents a pound, there is half a dollar gone! Is that economy?

Oh! Dearest how we miss you,  
No one else can tell  
The circle has been broken  
That bound us firm and well,  
Our hearts are filled with sadness,  
Because your smile we miss  
But we will never forget that  
You did your mission well,  
For those you loved so well,  
May He who was your guide  
Through life be ours too,  
That when our journey here is done,  
We will meet in Heaven with you.

"Century of Progress" Capone Offers Help "Baby Bonds"

The "Century of Progress" exposition in Chicago, which you must not miss, will open on June 1, 1933. Every city, big and little, should pay the expenses of its mayor to the exposition and back, and should promise to examine the wonderful architectural development of the lake front. That lake front has an especially valuable...

Mr. Alphonse Capone, with whom the writer talked for an hour, believes that he might be of use in helping to locate the Lindbergh child if he were allowed to leave the jail, connect with his various associates, or "angles," and seek information throughout the country.

In an interview with this writer, Capone offers to put up a bond for his return, leaving his young brother in prison as a hostage, and start a hunt for the Lindbergh child, accompanied everywhere by Thomas Callaghan, a skilled man of the United States secret service.

Those hoarding money should investigate the "baby bonds" and invest in them. The bonds pay 2 per cent and the government will pay them in full at the end of a year. If you want you money you can get it back at any time on sixty days' notice. Any bank will get the bonds for you. And remember this: If those bonds were not good, the money you have hidden away would not be good either. Both get their value from Uncle Sam's promise to pay. It is a good promise.

Alfred P. Sloan, Jr., head of the big General Motors corporation, tells Sammie Crowther that our economic difficulties are partly due to a failure of financial technique to keep pace with development of machine technique. It is plain that engineering and scientific genius, speedily represented in Mr. Sloan's General Motors laboratories and engineering staff, has one of our financial power to take and foresee.

The dinosaur grew too big for its brain and died off. Even the dinosaur, that developed a subsidiary brain half way down its spine, gave way to the small, carnivorous creature that gnawed its food.

The nation seems to have outgrown its brains and the carnivorous tribe of bootleggers, gamblers, short sellers of stocks and get-rich-quick schemers are active.

"Man blindly works the will of fate." Not to wish Japan. She plans and carries out her plans.

Manchu rulers came down from Manchuria, made themselves emperors of China, making Manchuria part of the Chinese empire.

China's republic fell to the Manchurian military westerners. China allowed the Manchus to take the throne, Henry Pu-Yi, to live.

Now Japan takes Manchuria, and wisely also takes Henry Pu-Yi. She put him on the throne of his ancestors in Manchuria, while Tokyo holds a "new epoch."

"How," asks Japan, "can China or the League of Nations find any fault. The boys' family originally owned the place and he is now in possession. What more do they want? We, the Japanese, shall build up a great country there, industrially, financially, agriculturally, and let the Chinese do the work."

Arbuckle Brand, who dreamed of creating a "United States of Europe," is dead at sixty-nine. He was a French statesman and he worked for France. He did not worry about the United States, would not have sent a French soldier or a French franc to this country if it had been in fire from Alaska to Florida. He was French, worked for France, and had no thought for anything else.

The power of France, her domination in Europe, the fact that she is the greatest "gold" country in the world are due to the fact that she produces such men as Brand.

War news as usual. Japan undertook a certain job and proposed to carry it through. The League of Nations says "Please don't." Just as it said "Please don't" to Mussolini when he was engaged in compelling a substantial payment by the Greeks, without any arbitration.

Japan is sending in more men, and China, although unprepared, with the government in the North divided against that in the South, defends herself bravely.

And Russia admits bluntly that she is sending troops as close as possible to Japan's operations, to avoid any possible nonsense by Japan.

Following the disastrous fire in the Vatican library at Rome, there comes distressing news from Dublin of the destruction of 18,000 rare books in the Catholic library, one of the oldest and most valuable collections of Catholic books in the world. Some of the Celtic manuscripts, destroyed in the fire, are of value incalculable, many of them, perhaps, not yet translated. (C. 1932, by King Features Syndicate, Inc.) (WV Service)

The farmers have their ice houses filled. Those that filled last week got ice from five to six inches thick, but those waiting until this week secured much better ice—about eight or nine inches thick. Something unusual to get ice that thick at this time of the year.

Mrs. P. H. Riemenschneider entertained Sunday in honor of her grandson, Stanley Hewett's fourteenth birthday. Those present were Melbourne Hewett and Stanley Hewett, David Bennett and Wilfred Bennett of Milford, Mr. and Mrs. M. W. TECUMSEH

In a drastic effort to lower the cost of operating the Tecumseh public schools, the board of education, in regular session on Tuesday evening, slashed approximately \$8,000 from the total salaries to be paid to teachers during the year of 1932-33, voted to eliminate the office of principal of the high school and also to amend the course of study so that a full-time instructor will not be necessary for the teaching of eleventh and twelfth grade English. As the result of the board's action, the school's teaching staff next year will be made up of 21 instead of 22 instructors. Contracts to teachers will go out within the next few days in accordance with the new salary arrangement.—Herald.

64 Pounds of Fat

Mrs. H. Price of Woodside, Mich., writes: "A year ago I weighed 190 lbs. I started to take Kruschen and now I weigh 126 and never felt better in my life and what's more, look more like 20 yrs. old than the mother of 2 children, one 19 and the other 18. Every one of my friends say it's marvelous the way I reduced."

How Fast Was He Going?

A young man in Detroit was killed by hitting a telephone pole in the dark. Elger hit a horse and killed it, throwing it 20 feet. This put the car into the ditch where he ran 188 feet, wrapping off both sides of the car. Then he hit the pole and broke it, and continued for 22 feet when the car turned over. Query: How fast was he going when he hit the horse?—Night (Ontario) Daily Star.

Chamois Gloves

You are quite mistaken if you think your chamois gloves are the product of the little mountain people known as the chamois. Chamois gloves have no intention to deceive when they follow the custom of using the same chamois skin from goat, sheepskin and lamb skin of a washable sort.
