H. S. Band Concerts Start Next Wednesday

An event which is of interest to everyone in the community will take place next Wednesday evening when the Chelsea High School Band, under the direction of Wesley Smith, will make their first public concert appearance of the season.

This Band, "The Pride of Chelsea," consists of thirty-five of our own boys and girls. Under the able training and direction of Mr. Smith their progress has been rapid. They appeared in a series of open air concerts last summer, which attracted large crowds, people coming for many miles to hear this juvenile musical organization.

These concerts, which are financed by local business-men, will be presented on Wednesday nights, every two weeks, starting promptly at 8:00 o'clock. The program for next Wednesday evening will be as follows:

Activity—March—Bennett.
Our Favorite—March—Jewell.
Mister Joe—One Step—Bennett.
Ambition—Overture—Bennett.
106th Cavalry—March—Steinmetz.
In Line of March—Wells.

Dr. Fisher Will Speak At 4-H Convention

Dr. Frederick B. Fisher will give the principal address at the Washtenaw county 4-H club convention, and leaders' meeting which will be held at the Michigan Union on Wednesday, June 22. Dr. Fisher spoke to the 4-H boys and girls, and their parents, at the county summer club achievement banquet held last December at the Masonic Temple.

The annual convention of the delegates will be held from 10:00 to 12:00 a. m. when the business part of the program will be disposed of. There will also be some of the project leaders meeting with specialists from Michigan State College to talk over the problems confronting leaders in the various groups.

At noon the delegates and leaders will be guests of the Ann Arbor Rotary club. The day's activities will close with a tour of the University of Michigan campus, conducted by representatives of the University faculty.

All Washtenaw county 4-H members and friends are urged to time in on the national 4-H camp which will be held in Washington beginning next week. There will be three broadcasts over the radio; namely at 12:30 noon, Friday, June 17; at 1:00 to 1:20 p. m. on Monday, June 20; and on Tuesday, June 21. These will be music by the United States Marine band, and talks by officials of the United States Department of Agriculture, and the 4-H club members and leaders attending the camp.

Two boys and two girls from each state will be in attendance. The delegates from Michigan are: Lillian Churchill, New Era; June Hungerford, Sault Ste. Marie; Ivan Cox, Coldwater, and Francis Shell, Battle Creek.

This is the 6th annual encampment. Washtenaw county had a delegate in 1927 when Leona Gale of Superior township attended the camp. In 1928, Raymond Girbach of Saline township was Washtenaw's delegate, and in 1931 this honor was given to Katherine Outwater of Lima township.

For the first time as far back as the records show, Washtenaw county has a married man as a regular member of the 4-H club. He is Arthur Koch of Lima township. He is still of 4-H membership age, and consequently is eligible for membership.

Mr. and Mrs. Koch were outstanding club members of Calhoun county. They recently moved to this county. Three or four years ago Mrs. Laura Randall of Bridgewater township was also a member.

History of Vermont Settlement.

Cyrus Beckwith, the first white settler, brought his family from Ann Arbor and built the first log house in the Vermont settlement in 1830. In 1831 Jesse Smith selected his land and built a home. In 1832, a number of families from Addison county, Vermont, emigrated into the territory of Michigan.

In this Vermont colony were Wm. A. Davis, Truman Lawrence and Orin H. Fenn, who founded what has since been known as the Vermont settlement. Stephen J. Chase and Nathan Pierce came the same year from Ontario county, New York. Then came Daniel Fenn, Tully Fenn, Amos W. Davis, Dennis Warner, Mahlon Wines, Ira Spaulding, Sr., Ira Spaulding, Jr., Joel Boynton and William BeGole.

These people had clearings of from three to ten acres, otherwise the eastern half of the township was a wilderness. The territorial road ran through the township, passing through Sylvan Center, the same thoroughfare existing now as US-12. North and south road now running through the township from Chelsea to Manchester was also cut out in 1832-'33.

A line of stages ran through the township on the territorial road. All mail for Sylvan settlers came to Dexter and it taxed severely the pioneers' finances to raise the 25 cents necessary to pay the postage on a single letter.

The first death in the township, that of Mrs. Jesse Smith, gave occasion for the establishment of the Vermont Cemetery. At that time no ground had been set aside for burial of the dead. Aaron Lawrence donated a piece of ground for a burial place, and the body of Mrs. Smith was the first one buried there.

Later the Cemetery Association was formed for government of the grounds and additions were made to the allotment. It has since been enlarged to two acres and is the resting place of nearly all of the pioneers of Sylvan, and their descendants.

Scoreless Game Played By Legion - St. Mary's

A game which will perhaps stand as a record in the Twilight Ball League was played last Thursday evening, when the Legion and St. Mary's played a scoreless tie. Ed. Eight innings were completed.

On Monday of this week, St. Mary's defeated the Masons, 4 to 2, and on Tuesday the Legion won from the Congregationals, 9 to 4.

TONICS AND SEDATIVES
"JUST ABOUT ALL IN"

It is reported that a New York banking house received the following letter in response to its request for more collateral:

"It is impossible for me to send you a check. My present financial condition is due to the effects of federal laws, state laws, county laws, corporation laws, by-laws, brother-in-laws, mother-in-laws and outlaws that have been foisted upon an unsuspecting public. Through the various laws I have been held down, held up, walked on, sat on, flattened and squeezed until I do not know where I am, what I am, why I am.

"These laws compel me to pay a merchants' tax, capital tax, income tax, real estate tax, property tax, auto tax, gas tax, water tax, light tax, cigar tax, street tax and carpet tax.

"The government has no governed my business that I do not know who owns it. I am suspected, expected, inspected, disrespected, examined, re-examined until all I know is that I'm supplied for money for every known need, desire or hope of the human race, and because I refuse to fall and go out and beg, borrow and steal money to give away, I am cursed and discussed, boycotted, talked to, talked about, lied to, lied about, held up, held down and robbed until I am nearly ruined, so the only reason I am clinging to life is to see what the 'oil is coming next."

And this notice was posted in a country store:

"The world is coming to an end! Pay your bills now so we won't have to look all over 'ell for you."

Question And Answer Dept.

Ques.—When was the law passed that regulated nominating conventions for presidents of the United States?

Ans.—There is no law regulating national nominating conventions. They are purely the product of party custom and convenience.

Ques.—When was Halley's comet discovered? And how often does it return?

Ans.—Halley's comet was the first one to be discovered by astronomers about 240 B. C. It is seen from the earth every seventy-six and eight-tenths years.

Ques.—I am writing to ask you if Voltaire was an infidel?

Ans.—Voltaire was not an infidel in the sense you probably think. He was a deist—a man who believed in a supreme power, but rejected all other forms of religion.

Ques.—One night I saw in the sky something that looked like a rainbow. Can you tell me what that was?

Ans.—Probably it was that which is known as a moon-bow. These are very rare, because when it rains at night it is usually too cloudy for the moon to be shining.

Ques.—Will you kindly tell me how old is the Encyclopedia Britannica? That is, in what year was the publication of the first volume.

Ans.—In 1768 the first edition of the Encyclopedia Britannica was published, and George Washington was one of the first purchasers of one of the editions.

Ques.—I have always been curious to know why the people of Japan are called Nipponese. Can you answer in your question department?

Ans.—"Nippon" is the name by which the people of Japan are known to the inhabitants. They never use the term "Japanese."

Ques.—Has the state of Vermont ever gone Democratic in a presidential election?

Ans.—No. Vermont has been carried by every Republican nominee for president of the United States since the organization of the Republican party.

Ques.—May I ask you if any of the twelve apostles died a violent death or did they all die of old age?

Ans.—Not very much is known about the fate of the twelve apostles, but according to traditions all except one had a violent death, and that was John, who died a natural death, a very old man.

Ques.—I am just a high school girl, but my sister gave me an awful "calling down" because I entered her room without knocking on the door. Isn't that silly or was she right?

Ans.—Your sister was absolutely right in her contention. If a member of a family has gone to his or her room and closed the door, the room should not be entered by anyone without knocking or calling and receiving an invitation to enter. To do otherwise is an unpardonable invasion of privacy.

Ques.—Why are doves regarded as the symbol of peace?

Ans.—The gall-bladder is a sac in which bile is secreted by the liver until required for use in the digestive processes. Since the bile is a bitter fluid the gall is popularly regarded as the seat of bitterness and bad temperament. And as doves do not have this bile, combined with its inoffensive nature, the ancients adopted it as the symbol of meekness and the emblem of peace.

Ques.—I wish to ask in your paper if coke is mined in the United States anywhere?

Ans.—Coke is not mined. It is made by heating. Coke is the carbonaceous material left after the gaseous and aqueous fluids and the bituminous elements in coal have been driven off by heat in closed chambers.

Ques.—Is there any part of the world where people eat human flesh? If so, where is it?

Ans.—Yes. In New Guinea and central Africa there are a few tribes that still practice cannibalism. There is none in any other part of the world.

MASON—Out of 100 two-year-old spruce seedlings planted by the board of education on the school grounds this year, 28 have been stolen. It was reported to the board Monday evening. The school board offers a reward for evidence leading to the arrest and conviction of the culprits. The seedlings were in a landscape planting on the west and south banks of the school property. The purpose of the planting was to beautify the grounds and to form a windbreak for the playground. The 28 trees were pulled up by their roots and carried away.—News.

"CARS ARE LIKE HUMANS" says this Nurse

Miss Lane learns from Mrs. Chester Orchard, nurse of Peoria, Ill., that cars, as well as humans, need good care. The Orchard have driven a Ford Model A 30,280 miles.

An Interview by**MARGARET LANE**

Reporter, London Daily Express and International News Service

ANY NURSE will tell you the same. A clean system spells a clean bill of health. And that goes for cars, as well.

Ask Mrs. Chester Orchard of 716 West Maywood, Peoria, Illinois. She's both a nurse and a motorist, and she sees to the clean running of her car the same way she keeps a trained eye on the health of her baby daughter.

"I don't know much about a car's insides," she admitted.

"but there is one sure way to make it run smooth and give no trouble. My husband put me up to it. He insisted I use Iso-Vis and he was right."

We drove fast and smooth from her suburban home the odd mile to the hospital. "What's wrong with that?" she smiled, flicking off the ignition, "sounds pretty good, doesn't it?"

"Well, I suppose I take good care of her. I have her overhauled as conscientiously as I

take my baby to the doctor, but there's never been an ounce of engine trouble."

Mrs. Orchard's 30,280 trouble-free miles prove again what Iso-Vis has demonstrated in laboratory tests and in A.A.A. tests on the Indianapolis Speedway—Positive Lubrication Protection. Iso-Vis (a Standard Oil product) will not thin out from dilution. See the Ball and Bottle Test at Standard Oil stations and dealers.

Selenine also is refined by our new process giving an efficiency which is exceeded only by Iso-Vis. The price is 25¢ a quart.
