## Local Young Couple Speak Nuptial Vows

St. Mary's church was the setting for the wedding of Miss Agnes Margaret Young, daughter of Mr. and Mrs. John Young of Lyndon township, and Norbert Leo Merkel, son of Mr. and Mrs. Martin Merkel of Chelsea, which was solemnized at 7 o'clock Saturday morning.

Rev. Father Henry Van Dyke read the marriage service and during the ceremony "O Promise Me" was sung by Mrs. J. Vincent Burg. The bride, who was given in marriage by her father, was attended by her sister, Miss Gertrude Young, while Thomas Young, brother of the bride, performed the duties of best man.

The bride was gown in a smart fur trimmed suit in beet-root shade, with matching hat, and carried a bouquet of Johanna Hill roses. The maid of honor wore a brown suit and hat and carried Tullman roses.

Following the ceremony, a wedding breakfast was served at the home of Mr. and Mrs. F. W. Merkel for the bride and groom. Mr. and Mrs. Merkel left for a motor trip to Montreal and Ste. Anne de Beupre, and on their return they will make their home in the Bagge apartments, 309 South Main St.

Mrs. Merkel is a graduate of St. Joseph's Academy, Adrian, and Michigan State Normal College, Ypsilanti, and has been a teacher in the rural schools in this vicinity. Mr. Merkel is associated with his brother, F. W. Merkel, in the hardware business on South Main St.

A prenuptial personal shower was given last week Wednesday evening at the home of Mrs. F. W. Merkel, with Miss Gertrude Young as hostess, and many beautiful gifts were presented to the bride-to-be. Games furnished the diversion for a pleasant evening. Mrs. B. E. Crocker received high honors in bridge, Miss Agnes Young second, and Miss Mary Ertle was the winner in buncos. At the close of the game, a two-course lunch was served, with covers for sixteen.

## Reception For Faculty Held Last Thursday

An enjoyable event of the past week was the reception given last Thursday evening at the Congregational church for the members of the faculty of the Chelsea public school. The affair was sponsored by the Brotherhood of the church, and a delicious pot-luck supper was served at 6:30 by officers of the Ladies' Guild. About 150 were in attendance.

The evening's program opened with community singing led by Rev. A. E. Potts, following which he gave the address of welcome, and Superintendent E. Y. Poore graciously responded. Guests at the reception included Mr. Morris, superintendent of schools at Stockbridge, Mrs. Morris, and Miss Russaf, of the school of education, Northwestern University. Features of the program were a reading from "Penrod and Sam" by Miss Russaf, and a group of songs, with guitar accompaniment, by Mr. Morris, which were much appreciated.

## S. S. OFFICERS MEET

## NEW FEDERAL HIGHWAY CHELSEA TO MASON WILL BE CONSTRUCTED

That a Federal Aid highway will be constructed north of Chelsea, to Mason, in the near future is virtually assured, according to information advanced by officials of the State Highway Department at Lansing.

As the result of efforts put forth by the local Kiwanis club during the past few years, hopes for the ultimate achievement of this project were brought much nearer to realization last Thursday when Grover C. Dillman, State Highway Commissioner, in company with three members of his department, met a committee from the Kiwanis club and County Engineer Townsend, and proposed routes for this new highway were carefully traversed. Mr. Dillman informed the committee that the federal government had authorized a federal project from Chelsea to Mason and that the only obstacle now in the way is the selection of a routing that will be acceptable to the national highway department.

Three routes for this highway are now under consideration: From Chelsea via M-92 to Lyndon Center, north through Collins Plains to Gregory; from Chelsea via M-92 and North Lake road, joining first road west of North Lake, through Unadilla and Gregory; from Chelsea via M-92 and North Lake road, past west end of North Lake, through Unadilla.

Although Mr. Dillman stated that he would cooperate with the local committee in their desire to have the eastern of these three routes, he said that would be a matter which would depend upon the cost of construction and the okay of the federal department. Work on the road will no doubt be started as soon as the course is agreed upon, which will no doubt be in the near future.

The Kiwanis committee has been working faithfully in the matter, realizing the great need for an improved highway to the north. They have made numerous trips to Lansing to consult with the State department, and this cheerful news is the result of their efforts. Members of the committee are P. G. Schaible, A. G. Hindelang, M. H. McGaffigan, Frank E. Storms, J. L. Fletcher and L. G. Palmer.

## Guest Night Will Be Feature At Princess

Next Wednesday and Thursday evenings will be "Guest Nights" at the Princess Theatre. J. E. Weber, proprietor of the theatre, is offering a special inducement which will no doubt attract capacity crowds each night. Presentation of a coupon which appears in the Princess advertisement in this issue of The Standard, and 25c, entitles two persons to attend the show. This offer is equivalent to a 50 per cent reduction in price for these two nights.

Mr. Weber is offering as the entertainment attraction for these dates one of the greatest shows of the season—Fannie Hurst's "Back Street," featuring Irene Dunne and John Boles. The regular schedule of the Princess does not include shows on Thursday evening, but due to the enormity of this production and the special price of admission, the show has been booked for the two evenings.

## ARLENE LOUNSBERRY WEDS

## Boundaries Of School Districts Are Changed

A joint meeting of the township boards of Sylvan and Lyndon, consisting of Supervisor T. H. Bihmiller, Clerk Geo. S. Davis, Justices H. F. Brooks and Walter Riemschnelder, of Sylvan, and Supervisor James Howlett, Clerk Dennis Guinan, Justices Theo. Mohrlock and John Mester, of Lyndon, met at 7 o'clock Monday evening in the Sylvan town hall.

The meeting was called to act on a petition of Ransom Armstrong and other freeholders asking that certain parcels of land situated on Sections 8 and 9, Sylvan, which is in fractional school district No. 14, Lyndon, be set over into school district No. 2, Sylvan. The two town boards and the school officers of both districts, after discussing the proposition, decided to set over the following lands:

All of the W<sup>1</sup>/<sub>2</sub>, SW <sup>1</sup>/<sub>4</sub>, Section 9, and all of that part of E<sup>1</sup>/<sub>2</sub>, SE<sup>1</sup>/<sub>4</sub>, Section 8, which lies north of the Cavanaugh Lake and Chelsea road, and east of Cavanaugh Lake and south of the Rapp road, to be transferred from 8-fr. Sylvan and Lyndon, and be annexed to school district No. 2, Sylvan.

Before the action was taken, nine pupils whose parents resided on the property set over had to walk 3-1/2 miles to the school known as the Howe school. With the change in the boundary lines of the two districts the pupils have but 1-1/4 miles to walk to the school in district No. 2, Sylvan.

Lansing, Mich., Sept. 28.—The 1932 corporation privilege tax, thus far collected, amounts to \$5,202,501. This represents the tax paid by 13,057 corporations.

At the same time last year, 14,482 corporations had paid a privilege tax amounting to \$6,495,836.

Analysis of the comparative statements shows that for the number of corporations reporting, the average amount of individual tax remains about equal, but that 1,425 corporations less have made reports this year.

Many corporations have been granted extensions, permissible under the law, while many more companies have allowed their corporate powers to lapse temporarily and have announced that they intend paying the tax and delinquency penalties later in the year.

## OUR NEIGHBORS

SALEM.—George Roberts, recently had a well drilled by a Northville party at the rear of his home and water was found at a depth of 107 feet. The same party drilled a well for Vern Kahler and struck water at a depth of a little over 50 feet. Both homes are situated on the same side of Six-Mile road and only about three squares apart.

MILFORD.—John Canfield, son of Wm. Canfield, living north of New Hudson, has completed harvesting a variety test plot as part of his Smith-Hughes project. Two varieties, the Irish Cabbler and Russet Rural, were planted in alternate rows on April 29 and dug on August 20th. The object of the test was to determine which variety produced the greater yield and the better quality when dug. The yields graded and weighed, the Cabbler produced a total yield of 142 bushels per acre compared with 77 bushels for the Russet Rural, being soft and immature. Mr. Canfield expressed the opinion that most potato growers would do better by planting an early variety for the early market and a late or main crop variety for the fall and winter market since the Russet Rural requires a much longer period to reach maturity. —Times.

GRASS LAKE.—Mrs. Henry Butterfield brought to The News office Thursday morning a sample of produce grown in the family garden in Grass Lake. Included were several varieties of tomatoes, among them being grape tomatoes, the fruit of which is no larger than a grape. Sweet potatoes are also grown, the same being from seed which has been in the family since Mrs. Butterfield was a little girl. The sweet potato seed originally came from California. —News.

TECUMSEH.—A coroner's jury, inquiring into the deaths of A. R. Joseph and Miss Frances Bronson, Tuesday returned a verdict that they came to their deaths "by reasons of burns received by the explosion of the escape of the gas being unknown." The two persons were fatally burned September 12 when gas escaped from a heating system in the Conlin restaurant at Tipton. —Herald.

MASON.—Last winter many of the unemployed of the city were made self-supporting through arrangement where men cut wood for groceries. The city contracted with farmers for the cutting of woodlots. Mason men were given a share of the wood and the balance was turned in to the city in trade for groceries. The arrangement proved practical and will be continued if the city can move up wards of 400 cords of dry wood now on hand. If the wood is not sold the city will not be able to finance for wood cutting this winter, M. M. Bowers, city street commissioner, reports. The price set on the wood is \$1.75 per cord delivered in load lots. A single cord sells at \$2.00. —News.

MILAN.—Thieves entered the office of the Milan Creamery either late Sunday night or early Monday morning and walked away with about \$200. No trace of the robbers has been found and no suspects arrested. The money was taken from the safe, the door of which was opened by means of the combination. —Leader.

PINCKNEY.—About 100 members of the Eastern Star Chapters from Howell, Fowlerville, Brighton and Pinckney attended the county convention and school of instruction held at the Pinckney Masonic temple Tuesday evening. The day's program started at 2:00 p. m. and ended at 10:30 p. m. The school of instruction was in charge of the associate grand master of the grand chapter G. B. S. of Michigan. —Dispatch.

SALINE.—Barney's Garage, west of Saline, was entered by burglars Friday night and a radio, cigars, cigarettes and candy taken. —Observer.

DUNDEE.—The Monroe county board of road commissioners has had men removing political advertising signs from poles and trees on the right of way of trunk line highways in the county by order of the state highway department. A state law prohibits the placing of political advertising signs on poles and trees on trunk line highways. It is also against the state law to place political advertising in the windows and windshields of automobiles. —Reporter.

Meek Without Oxygen

Examination of the ultra-violet rays present in full moonlight has proved that the surface atmosphere of the moon is without oxygen. If the man in the rocket is on his way—good night.

## Hoover Is Needed, Declares Sec. Hyde

Concrete, definite proof that President Hoover has fostered legislation that has provided more than one billion two hundred million dollars for farm relief—far more than has been used for relief of railroads, banks and corporations—was produced by Secretary of Agriculture Arthur M. Hyde in speaking in Grand Rapids recently. Hyde was also accorded huge ovations in Cadillac and Flint.

"Herbert Hoover knows as well as you do that what the farmer needs above all is a market which will take his products at a price high enough to return the cost of production plus a profit," Secretary Hyde said, in disavowing Democratic claims.

"We frequently hear the charge that the Hoover administration has millions of money to lend to banks and railroads and corporations but nothing for the farmer."

"On the contrary, I say the Hoover administration, through federal agencies, has lent more money to farmers than the reconstruction finance corporation has lent (up to Sept. 10) to all the banks and all the railroads and all corporations in America put together. The difference between the charge and my statement is that I can prove mine."

While in Michigan Secretary Hyde was the guest of former Gov. Fred W. Green and was introduced to the audience in Cadillac by the former chief executive.

### RED CROSS CALLS FOR VOLUNTEERS TO PREPARE GARMENTS FOR RELIEF

The Red Cross serves in times of peace as well as war, and to many this peace-time program is unknown. This work consists of preparing garments for use in drouth areas, flood areas and in times of emergencies. It includes hospital garments, children's clothing, layettes, hospital bags and knitted goods. Materials for these garments, patterns and directions are furnished and any group, organization, or club interested is urged to participate in this service.

To those whose interest has heretofore ended with a membership at the time of the Roll Call, a special appeal is made urging you to take an interest in the country's needs.

While it is not possible at this time to estimate the total production needs for the fiscal year ending June 30, 1933, letters being received indicate that the need for garments and comfort items will be urgent.

Washtenaw County Chapter of the American Red Cross has been asked to take a quota. In order to do this the production chairman must have cooperation. Anyone interested is requested to communicate with either Mrs. Lois Cone Brady, Ann Arbor, Executive Chairman, or with Production Chairman, Mrs. Everett DeRyke, Milan, Mich.

Church Societies, Sewing Circles, Sunday School Classes and all service organizations are urged to aid in this project, in order to put Washtenaw county on the map as vitally interested in Red Cross activities.

**BROOKLYN**—Petty thieves at some time Saturday night entered Dr. F. H. Austin's dental office. They found a change box containing about \$4 and took a supply of gold leaf and old gold crowns. Apparently the same outfit twisted the locks from two gasoline pumps at the Lane service station and helped themselves to a tankful of gasoline.—Exponent.

## Question And Answer Dept.

Ques.—Is it true that there was once negroes who owned slaves?

Ans.—Yes. In the Gulf states before the Civil War there were a few negroes who owned slaves. Most of these colored owners of negro slaves were slave owners for purposes of philanthropy. They bought their wives, fathers and children in order to buy them out of slavery.

Ques.—I want to ask in your question column why certain cities or towns in Canada are sometimes spelled "St. John," "St. Johns" and "St. John's"? Which is right?

Ans.—All three are right. However, all are not in Canada. A small town in the province of Quebec is "St. John," "St. John's" is a city in the province of New Brunswick. "St. John's" is the capital of Newfoundland, which is not a part of Canada.

Ques.—Will you kindly give me the following information through your questions and answers? On what day of the week did May 17, 1856, fall? Also what day of the week did Sept. 26, 1857, fall? And on what date was March 6, 1887? Thank you.

Ans.—May 17, 1856, was on Saturday; Sept. 26, 1857, was on Saturday; and March 6, 1887, was on Sunday.

Ques.—Who is the publisher of the New York Times, and how is his name pronounced?

Ans.—Adolph S. Ochs is the publisher of the New York Times, and his name is pronounced to rhyme with the word "oaks."

Ques.—To settle a dispute, I am writing to ask if there is any point in America where the Atlantic and Pacific oceans can be seen at the same time?

Ans.—Yes. From the summit of an active volcano named Mt. Irazu, which is 11,200 feet above sea level, both the Atlantic and Pacific oceans may be seen at the same time on a clear day.

Ques.—What are the names of the three states of the Union that grow the most wheat?

Ans.—The three leading wheat growing states of the United States are Kansas, Minnesota and South Dakota in the order named.

Ques.—Why was Ananias branded as a liar? Was he one of the Apostles of Christ?

Ans.—Ananias was not an Apostle, but was one of the followers, and was a member of the first Christian community at Jerusalem. According to Acts 10, he and his wife Sapphira sold a possession and conspired together to keep back a part of the price instead of contributing it all to the common fund. For their falsehood and hypocrisy both of them were miraculously punished by Peter with sudden death.

Ques.—I want to ask in your question department if there is any place in the Bible where it says that it is shameful for a man to have long hair?

Ans.—We find that in I Corinthians 11:14, 15 it says: "Doth not even nature itself teach you, that if a man have long hair, it is a shame unto him?"

Ques.—When did the people of this country begin to use bathtubs?

Ans.—In 1820 Eli Whitney, the inventor of the cotton gin, imported the first bathtub from Europe. The first American-made bathtub was installed by Adam Thompson, a grain and cotton merchant of Cincinnati, Ohio.

Ques.—I am told that it rains inside the Goodyear-Zeppelin building at Akron, Ohio, when there is no sign of rain outside. Is that a "fairy tale"?

Ans.—It is an actual fact. The Goodyear-Zeppelin dock is the largest building in the world without center supports. The roof covers over eight and one-half acres of floor. In this mammoth building there are 45,000,000 cubic feet of space. A sudden change of temperatures causes clouds to form and rain inside the building. The rain is caused by condensation of moisture when warm air strikes the inner side of the roof.

### MASON MAN CONVICTED OF VIOLATING GUN PERMIT LAW

A state law adopted in 1931 which established a severe penalty for violation of the Michigan gun permit law has been initiated for the first time with a result that Burtie Dillbeck, Mason, is serving a term of 30 days in the Ingham county jail.

The law requires a minimum penalty of 30 days in jail or a fine of \$150 for anyone convicted of using a permit granted to carry a gun during the closed season in a game area, to violate the game laws.

Dillbeck was convicted of killing a pheasant during the closed season while he was carrying a gun by right of the gun permit issued by the Department of Conservation. Judge Leonard Carr of the Ingham County Circuit Court imposed the jail sentence without giving Dillbeck an opportunity of paying the fine. Dillbeck was arrested by Conservation Officer G. L. Murphy of Mason.

## DID IT EVER HAPPEN TO YOU?

Eighteen states and six provinces of Canada have protected their citizens against the reckless driver who repeatedly causes damage on the highway. Michigan needs such a safety responsibility law accorded by the American Automobile Association—a law that will permit only one negligent conviction against a driver before requiring him to file a bond or insurance certificate of his financial responsibility. Michigan has no law to prevent numerous recurrences of the above illustrated situation.

**Digger Indians**  
White pioneers gave the name "Digger" to Indians. It does not designate members of one particular tribe, but all of those Pacific coast Indians who use roots extensively for food, and who are hence "diggers." They include tribes from Arizona to Idaho and California to British Columbia, speaking widely different languages, but the name has been applied especially to the Bannock, Plute and other Shoshonean tribes.

This fingerprinting of children will have one good result—it will enable exasperated mothers to trace the real culprit in the jam closet.—Boston Evening Transcript.

**May and Marriage**  
The superstition that the month of May is unlucky for marriages is a survival of Roman custom which made the month of May the occasion of the Lemuria, the festival of the unhappy dead.

**Dress in Quaint Attire**  
People of southern Brittany, France, in hardy old-fashioned dress, strongly steeped in tradition, still retain their quaint, yet picturesque costumes of ancient times and are deeply devoted to their festivals of the saints, or "pardons."

**Historical Document**  
The Ruodlieb is a romance in Latin verse by an unknown German poet who flourished about 1030. He was almost certainly a monk of the Bavarian abbey of Tegernsee. The poem is one of the earliest German romances of knightly adventure, and its picture of feudal manners gives it value as an historical document.

**Sec. Mills Attacks  
"Loose Claims"**

Detroit, Sept. 20.—Secretary of the Treasury Ogden L. Mills, speaking before the Republican state convention today, launched a terrific attack upon the "Democratic candidate for President, Franklin D. Roosevelt. Mr. Mills' speech was regarded by party leaders, both national and state, as one of the most important in the present campaign.

Mr. Mills accused the New York governor of making loose, unfounded charges against the Reconstruction Finance Corporation in the assertion that it was designed to aid only banks, railroads and insurance companies. The contrary is true, Secretary Mills said, as records show that "A great majority of banks that have borrowed from the corporation are located in small towns. Specifically on August 31, seventy per cent of the banks to which loans had been authorized were in towns of less than 5,000 population."

"It was through no accident that after many months of unrelenting storm breaks have begun to appear in the dark clouds," he said, "we have financial difficulties. We have sustained terrific shocks, but under wise and resourceful leadership our resources have been mobilized as to bring us through safely. President Hoover has earned the right to complete the task of reconstruction."

Cong. Joseph L. Hooper characterized President Hoover as "the one great constructive engineer" in his keynote speech while Governor William B. Brucker detailed the many economies that have been put into practice in Michigan and national government.

Later in the day the convention will name the Republican candidates for secretary of state, state treasurer, attorney general and auditor general.

SEVERAL thousand feeble old men, remnants of the Grand Army of the Republic, gathered for their sixty-sixth annual encampment in Springfield, Ill., the city in which the organization was born. They had their usual business sessions; but much of their time was spent in visiting the tomb of Lincoln, their adored war commander, and other places connected with the life of the martyred President, and in attending services in the old prison Camp Butler, now a national cemetery.

**PROGRESSIVE** miners of America, the new organization that is fighting the wage settlement in Illinois effected with the old union, was not having much success in keeping the workers from returning to the pits in Taylorville. The insurgents were blamed for two bombings, one of which partly wrecked a newspaper plant. Two companies of state troops were sent there and restored order. In some places the mine operators did yield to the demands of the new union for pay higher than the adopted scale.

**JUST** as Bolivia and Paraguay are squabbling over the Gran Chaco, so Colombia and Peru are on the verge of war over the possession of the Amazon river port of Leticia and some surrounding territory ceded by Colombia to Peru in 1922. The Bogota government has refused to accept a Peruvian proposal for settlement of the controversy, and the people of both nations are seemingly eager for war and are raising big funds for the purchase of armaments. Both Bolivia and Paraguay have been making offers to cause hostilities pending negotiations, but apparently neither feels it can trust the other to act in good faith. Meanwhile the fighting between their border forces, especially at Fort Boqueron, was continued, the Paraguayans claiming the advantage.

**"CHANDU" NOW SEEN**

Adapting "Chandu the Magician" to the screen from a popular series of radio broadcasts proved to be a graphic demonstration of the greater powers of the motion picture camera over the spoken word.  
Whereas much of the nightly fifteen minutes of the radio time was given over to describing the setting of the day's drama, the screen version gets its action in and dash of the camera eye, and with far more real fun and effectiveness. Thus, in the Fox feature film, coming to the Majestic, Ann Arbor, 4 days starting Saturday, October 1st, the radio episode is presented in a more intense dramatic form that is said to be thrilling entertainment.  
"Chandu," he of the hypnotic eyes and command of Egyptian wizardry, the beloved "Cack Frank" of the story's portrayer, Edmund Lowe, who once before, in "The Spider," gave a splendid performance as a magician.  
Princess Nadji, Chandu's beloved, is played by Irene Ware, New York "Varieties" beauty who makes her screen debut in the picture. Roxor, whose diabolical scheme to destroy the world motivates the plot, is enacted by Bela Lugosi, whose lead in "Dracula" earned him the title of "King of All Screen Monsters."

## News Review of Current Events the World Over

**Wisconsin Republicans Deal Blow to the La Follette Regime—Farmers' Strike Takes New Turn—Germany Out of Disarmament Parley.**

By EDWARD W. PICKARD

W. J. Kohler

IN ONE of the most hotly contested primaries that Wisconsin ever has had, the conservative Republicans dealt the La Follette dynasty a severe blow. Philip La Follette, brother of the senator, was a candidate for re-nomination as governor, but was soundly beaten by Walter J. Kohler, former governor, whom La Follette defeated two years ago. Many of the counties Philip carried then turned him down this time, and he has been defeated in both agricultural and industrial sections of the state.

Emphasizing their change of heart, the Republican electors also voted for the retirement of United States Senator John J. Blaine, one of the staunchest of the "progressives" in the upper house. He was beaten by John B. Chapple, a young editor of Ashland who made a fierce campaign. Incomplete returns indicated the entire conservative state ticket had been carried to victory by Kohler and Chapple.

Kohler, a wealthy manufacturer whose home and large factories are in a village that bears his name, never held public office until he was elected governor in 1923. His supporters this year were known as "hatched men" for their slogan was "Cut Costs With Kohler," and the high cost of state government and high taxes were the issues emphasized. Kohler called for a \$10,000,000 reduction in taxes, and set forth as his doctrine that factories mean jobs, and that to build up private incomes by keeping the taxing system from draining industries out of the state is more fundamental than to increase income taxes. These arguments proved especially effective with the factory voters in Milwaukee county, Racine and other industrial regions.

This was the first time that a La Follette had been voted down since 1892, when the late Senator Robert M. La Follette was beaten in a congressional race. An interesting feature of this year's campaign was the presence of Burton K. Wheeler, Democratic senator from Montana, who made speeches trying to persuade the Democrats of Wisconsin to J. B. Chapple into the Republican primary and vote for Blaine and La Follette. The state Democratic leaders built recent Wheeler's action and evidently it had little if any effect.

Kohler's majority was in the neighborhood of 100,000. Chapple had a slender majority—about 20,000—for the vote for Blaine was heavy in the industrial centers.

The Democrats at this writing appear to have nominated Mayor A. G. Schmeckelmeier of Madison for governor over Leo P. Fox and William R. Hibbin. For senator P. Ryan Duffy of Fond du Lac was unopposed.

**REPUBLICAN NATIONAL CHAIR**—Republican Senator Chamberlain announced that President Hoover's first campaign speech would be made in Des Moines, Iowa, on October 4. He will make no address on the journey from Washington and back in the heart of the agricultural region, where the farmers have been on strike against low prices. Mr. Hoover intends to expatiate on his program for relief of the farmer in reply to the recent address by his rival, Franklin D. Roosevelt. The speech in Des Moines will be broadcast over all nationwide radio hook-ups.

**THOSE** farmers of the Middle West have entered on a new phase of their "hollidays" strike which promises to be more effective than the movement that aimed to keep all farm produce from the cities and was marred by frequent violent deeds. The plan now evolved by their leaders contemplates the withholding from market of all grain and other non-perishable products, but the farmers are forbidden to picket the highways or block them in any way. Nearly two million farmers were asked to join in this nonviolence movement.

Agriculturists in Minnesota, North Dakota, Oklahoma, Nebraska and Iowa, the "strike" leaders said, had given assurances they would participate. They added that farmers in Ohio, Wisconsin, South Dakota, Kansas and Illinois had "shown interest" in the movement.

**SEVERAL** important meetings were held in Washington during the week, among them being those of the National Municipal league and the national conference on government. Addressing the former, Simon H. Strawn, former chairman of the United States Chamber of Commerce, declared that taxes must be reduced because the nation has reached the end of its

financial rope. In the sixteen years from 1916 to 1932, he said, the cost of all government increased by 400 per cent, while at the same time the national income had increased by only 148 per cent. In 1930, he said, income taxes amounted to \$2,411,000,000; in 1931 they dropped to \$1,800,000,000; and in 1932 they hit a new low of \$1,067,000,000.

Commenting on the "sunk the rich" policy noted in congress at the last session, Mr. Strawn declared it "hopelessly fallacious" and that there are few rich "to sink" and because those who still retain a part of their fortunes will invest in tax exempt securities, thereby defeating the very purpose of the legislation aimed at the wealthy class.

To the conference on government Gordon I. Hostetter, director of the Chicago Employers' association, said that the racket, originally thought of as a temporary form of graft or extortion, has grown through alliances of business groups, union heads, politicians, and criminals until it annually costs the nation an "incalculable sum."

In Chicago alone, said Mr. Hostetter, racketeering costs more than \$15,000,000 a year. Add to this the amount spent by the city to deal with racketeering, he said, and the total cost of Chicago's rackets equals the annual cost of the municipal government.

**WHEN** the disarmament conference resumed its sittings in Geneva the Germans were not in official attendance because their demand for equality of armament had been rejected by France. But they found they were facing also the united opposition of Great Britain and the United States, if not other of the great powers.

The British foreign office memorandum said the German demand was at least as "thoroughly" since "attention and energy should be directed to economic rehabilitation of the world," and that any Germany was not entitled to arrogate the part of the Treaty of Versailles that limits her armament even if the other nations should fail to disarm or reduce their armaments.

This view of the question apparently was pleasing to the United States government, and Ambassador Walter R. Edge and Senator David A. Reed of Pennsylvania, at a luncheon given by Mr. Herriot in Paris, told the premier that was the view of the American people. Their government, they said, stands for progressive disarmament and the sanctity of treaties.

Mr. Herriot said before the foreign affairs commission of the chamber of deputies a full statement of his policy in this matter and defended it earnestly. He gave the commission certain details which had come into his possession regarding the alleged illicit manufacture of arms in Germany. The German press insisted that their government must not weaken, asserting that Great Britain had deceived Germany and that the British note treated Germany in intolerable fashion. Some papers declared Germany must withdraw from the League of Nations.

**MAHATMA GANDHI**, after a hearty meal of fruit and milk, began his protest fast, which he said he would keep up until he died of starvation unless the British government altered the terms of its settlement of the communal elections problem. The mahatma was still in Yerwada jail at Poona. The government said he was free to leave the prison, but he refused to go out of his cell unless he was forcibly removed.

So many friends and well wishers called at the jail that the aged leader was made ill from excitement, and therefore visitors were excluded for the present. He received hundreds of telegrams and letters begging him not to undertake the death fast. To correspondents the mahatma said he counted his life as of no consequence, adding:

"Like the prophet of Islam and like Jesus, I, on a humbler scale, have undertaken a struggle for justice, as my fast continues my humanity will rise to the heavens of God Almighty."

"My fast is not for sympathy. After the first few days the desire for food will vanish and I shall begin to brood. All my interest will be withdrawn from estrogals, and I shall become one with the cause."

"He assured, however, that I shall make a superhuman effort to retain my grip on life. I am anxious as any body to continue to live. There is nothing like water for prolonging life and I shall purify it whenever I require it, and hope to carry on until the Hindu conscience awakens."

**SENATOR JAMES J. DAVIS** of Pennsylvania went on trial in New York on two federal indictments charging conspiracy, the prosecution alleging he was responsible for two lotteries totaling \$3,000,000 conducted by the Loyal Order of Moose, of which the senator is the director general. It was charged that Davis personally profited from these lotteries, which were ostensibly for charitable purposes. Assistant

Sen. Davis United States Attorney Treadwell told the jury that checks totaling \$175,000 from the proceeds of the drives went to pay off a note which was Mr. Davis' personal obligation, to his personal checking account, to a corporation controlled by him, and to an account from which he drew the profits of the organization department of the Moose.

In 1931 the lottery was more discreetly handled, Mr. Treadwell continued, and the drawing took place on the steamship Priessels, outside the twelve mile limit, after which all records were thrown overboard.

Counsel for the defense contended all the transactions were innocent.

Early government witnesses included various officials of the Moose called to prove the domination of Davis in the order and the claim that he was cognizant of everything that was done in connection with its finances.

**THREE** California citizens have undertaken to block the loan of \$40,000,000 by the Reconstruction Finance corporation for the construction of an aqueduct from Boulder Dam to Los Angeles. The loan has been authorized by the corporation, but the suit filed by the District of Columbia Supreme court seeks to enjoin it, attacking the legality of the decision by which the corporation proposes to purchase two \$20,000,000 lots of the \$220,000,000 worth of water district bonds.

The corporation also heard opposition to the Los Angeles application for a loan of \$12,000,000 for the construction of a power line from Boulder Dam to the coast, and to the proposed loan of \$10,000,000 for a bridge across Chesapeake bay on the ground that this would mean the use of federal funds to finance a project to compete with going privately owned ferry lines.

**CHICAGO** is jubilant for the Cubs are now the champion team of the National league. The opening of the world's series with the New York Yankees, who won the American league pennant, was set for September 28. In New York, the games in Chicago will begin the following Saturday.
