## Light Rates Reduced, Effective At Once

At the regular meeting of the Chelsea common council held Monday evening, action was taken to reduce the electric rates in Chelsea, effective at once.

The new rates are as follows:  
First 15 KW hours at 10c (formerly 20 KW hours at 10c).  
Next 35 KW hours at 5c (formerly 80 KW hours at 5c).  
Next 50 KW hours at 4c (no change).  
Balance at 2 1/2c (no change).  
Recommendations for the reduction came from P. M. Boehm, superintendent of the electric and water plant, and the E. L. & W. W. Dept. council committee, consisting of B. B. Turnbull, J. W. Schenk and Wm. Fahrner. The reduction was planned to aid those who use the smaller quantities of electricity, and it is the hope of the present administration that a general reduction will be possible in the near future.

## Red Cross To Benefit By Basketball Games

On next Tuesday evening, Feb. 28, at the Chelsea High gymnasium, the teams of the Tri-County basketball league will clash. There will be three fast and thrilling contests as the teams participating are all evenly matched.

The first game will start at 7:15 with Grass Lake battling Lenawee county's entry, Clinton. The second contest will be played an hour later between Manchester and Clinton. Chelsea and Brooklyn will play the final game and this should be a real battle, as Brooklyn will try to avenge a defeat handed them earlier in the season by the Chelsea team in a very close game.

The team, managed by Lloyd Lantis and playing under the name of Lantis Ice Co., is composed of Donald Adams, Wilbur Howe, Raymond Dancer, Arnold Fahrner, Warren Alexander, Leo Tuttle and Edwin Hulce. All the proceeds from these games will be given to the Red Cross. Spend a quarter and get a real evening of entertainment. Let's see you all there next Tuesday evening, Feb. 28, at 7:00 o'clock. Tickets will be on sale immediately—so see three fast games of clean basketball and help our Red Cross.

## GOVERNOR'S PROCLAMATION

Whereas, the Legislature of the State of Michigan by Senate concurrent resolution No. 28 has declared an emergency to exist involving the banking and credit structure of the State of Michigan, and has requested that the Governor of the State proclaim such extensions of the bank holiday heretofore proclaimed as may in his opinion be necessary, and has further requested that if, in his opinion it is advisable, the Governor may restrict and prescribe the conditions under which deposits, either savings, commercial or reserves of other banks, may be released from banks and trust companies, and if advisable may vary the restrictions as to such classes of deposits.

Now, therefore, I, William A. Comstock, Governor of the State of Michigan, hereby proclaim that all banks, trust companies and other financial institutions conducting a banking or trust business within the State of Michigan prior to said holiday, shall be opened for the transaction of business at the regular opening hour on the morning of Thursday, Feb. 23, 1933; provided, however, that such business shall be limited to the following functions:

1—Reserve deposits shall be available to depositing banks and may be drawn without creating a preference.  
2—Payments to depositors in either commercial or savings departments shall be limited in amount to the proportion the total individual deposit bears to the cash on hand, available reserves in banks and United States Government bonds in each such department. Such payments shall only be allowed for necessary purposes such as payrolls, bank transit items created on and after Feb. 23, 1933, necessary living expenses, tax payments, or other obligations to the State of Michigan and subdivisions thereof, or to the Federal Government, drafts with bill of lading attached, R. P. C. money on deposits for welfare purposes, and such other purposes necessary for the ordinary conduct of business, providing always that no depositor shall be preferred against any other depositor.

3—Banking institutions may take new deposits, but such deposits shall be treated as trust deposits, and there shall be opened in each such institution a trust deposit department. Such deposits shall be payable on demand without interest and held solely for the repayment of such depositors.

4—Banks and trust companies acting in a fiduciary capacity may perform their duties and discharge their obligations in such capacity, provided that in the exercise of such fiduciary functions debtor and creditor relationships shall not be involved.  
5—Such modifications in the foregoing limitations as may be necessary in extraordinary cases may be allowed with the consent of the State banking commissioner, provided, however, that no depositor shall be preferred against any other depositor.

The bank holiday heretofore proclaimed by me shall continue in effect subject to the foregoing limitations until otherwise ordered by me.

Dated Feb. 21, 1933.

Signed: WILLIAM A. COMSTOCK,  
Governor of Michigan.

## Nuptial Vows Spoken at St. Mary's Ceremony

At a pretty wedding solemnized Saturday morning, Feb. 18, at St. Mary's church, Miss Marie Guinan, daughter of Mrs. Luke Guinan of Lyndon township became the bride of Elmer Phelps of Stockbridge. The nuptial mass was read by Rev. Henry Van Dyke. During the ceremony Miss Irene Tussee of Detroit sang "On This Day a Beautiful Mother" and also rendered "Ave Maria" during the offertory.

Miss Guinan was attractively gowned in a rust colored suit of wool with pink trimmings and accessories of brown. With this she wore a corsage of talisman roses. The bride was attended by Miss Loretta Sullivan of Detroit, who wore a suit of green with fox collar and a corsage of roses and violets. Her accessories were green. L. J. Guinan, brother of the bride, performed the duties of best man.

Following the ceremony about 40 immediate relatives assembled for a wedding breakfast at the home of the bride's mother. The table was centered with a pink and white wedding cake with a miniature bride and groom, flanked by silver candlesticks with pink tapers. Pink and white smydragons formed attractive decorations.

On their return from a short wedding trip Mr. and Mrs. Phelps will reside on the Phelps farm near Stockbridge. Mrs. Phelps is a graduate of St. Mary's school and the Michigan State Normal college and for several years has been a successful teacher in the rural schools of this vicinity. ## Ypsilanti Junior Choir To Present Program

The program to be given at the First Methodist Church, Sunday night, will be of unusual interest to the people of Chelsea. "An Evening With Immortal Hymns" under the direction of Rexford Keller, minister of music of the First Methodist Church of Ypsilanti, has been planned. Through hymn interpretations, stories related to the writing of hymns, anthems based on hymn-texts and the hymn tunes, and organ numbers, Mr. Keller will bring to us hidden beauty and new meaning from the hymn book. Assisting Mr. Keller in the presentation of the program will be a double quartet and the Junior choir of the Ypsilanti Methodist Church.

Mr. Keller is a graduate of the University of Michigan where he majored in pipe organ under Professor Palmer Christian. He has been minister of music at the First Methodist Church, Ypsilanti, for the past four years where he devotes full time to the musical activities of the church and community.

The program presented Sunday evening will include the following musical numbers: "While by My Sheep" (Jungst, a seventeenth century hymn); "To God on High Be Thanks and Praise"; "Declarus"; "Children's Song of Praise"; "Barnaby"; "Netherland's Hymn"; "Kronson"; "Beautiful Savior"; "Christiansen"; organ numbers, written on hymn-tunes, and congregational hymns.

Bert Taylor is confined to his home by illness. Roy Ives is taking his place on the mail route.

NEW TAX GROWSMoore Delinquent Tax Bill Branded

(By Elton R. Eaton)

Lansing, Feb. 22.—There will be no sales tax bill enacted by the present session of the state legislature. There will be no income tax bill passed, not unless the administration is able to convert some of its own aggressive leaders to a belief that Michigan should have an additional tax income.

It has just become known that there is a senate group of which Senator Francis Kulp, Democrat, of Battle Creek, apparently seems to be the leader, determined to stop any taxation legislation of any kind.

Senator Kulp is outspoken in his determination to see to it that no new tax revenues are passed on to the people of Michigan.

"Why should the people who last year paid into the state treasury nearly \$125,000,000 be required to pay more? How can they pay it even if we do pass new tax laws? And I tell you here there will be no new tax bills passed by this senate if I can stop it. I am not alone in this stand," stated Senator Kulp this week.

"Not only will we oppose any new tax plan but I am inclined to believe that some of the present taxes and licenses should be reduced. The automobile weight tax is too high. The gas tax is too high. Every tax we have got is too high. How do we know isn't that sufficient proof of the fact that the man who doesn't pay his

taxes and licenses are too high? Yes, I realize that Governor Comstock would like to see a sales tax law passed, but I cannot and will not support any legislation of any kind that provides an additional cent of new taxes in any form. I will support every bit of legislation that comes through that tends to reduce taxation," added Senator Kulp. Senator Kulp represents the Calhoun-Branch district, being the first Democratic senator elected from that part of the state in nearly a generation.

Right on top of the determined stand taken by Senator Kulp against the Governor's sales and income tax proposals, comes a declaration from Representative Vernon J. Brown that he will fight to the last ditch the bill hurried through the senate by Senator Moore of Pontiac that provides for the payment of delinquent taxes and special assessments over a period of years.

"Moore is in the legislature representing a group of Detroit and Oakland county real estate speculators who have benefited more than any one else in the world through the sale of real estate. These speculators platted off thousands and thousands of acres of land. They sold it to the working man, to those that wanted to create homes for their families. These buyers, no longer able to keep up payments on the land, have turned it back to the real estate operators, who made a nice profit on their first transaction," states Representative Brown.

"Now that they have repossessed this land from the little fellows who paid all they had into these lots, they have had the senate pass a bill to provide for the payment of delinquent taxes on these lots in the years to come. All they want to do is hold these lots until times get better and they do not want to pay any taxes on them, but they want to pass that tax on to the fellow who when times get better buys these lots again. Then these same real estate speculators will make another nice big profit," declares Representative Brown.

"But what about the man who has paid his taxes? This Moore bill has no regard for the millions he has made to meet his obligations to the state. No, the man who has paid his taxes is given no consideration whatever," he said.

"However, the Moore bill does take good care of the tax title shark and it clarifies the non-tax payers. It enables the land speculators to make another fortune all over again from the same lots they have repossessed."

"We are going to fight that bill in gas tax is too high. Every tax we have got is too high. How do we know isn't that sufficient proof of the fact that the man who doesn't pay his

taxes," stated Representative Brown. The Moore bill provides for the payment of delinquent taxes over a period of years, beginning with 1935. It also provides that no interest shall be charged on back taxes when they are re-assessed.

Michigan banking circles are recovering from the shock they received last week when Governor Comstock at the behest of the Union-Guardian officials of Detroit declared an eight-day banking holiday in Michigan. Out-state resentment of the banking proclamation of the Governor has considerably dwindled. Bankers have been to Lansing to see their representatives and senators or they have written in an effort to find out just why it was that the order was of such a sweeping nature. Many of the banks remained open anyway. Governor Comstock has explained that the action was taken to prevent what he feared would have been the collapse of not only the Guardian banks, but many others as well. Such a conservative state as Michigan saw no reason to get excited over the affair and its banking business will go on as usual, predict Lansing officials under the safeguards now being perfected.

Present prospects are that the state owned cement plant at Chelsea will not be sold or junked by the state before 1935 as provided in a bill passed by the state legislature two years ago. Representative DeLano of Kalamazoo county has introduced a concurrent resolution in the legislature asking for an inquiry into the present status of the cement plant with the idea of again placing it in operation for the manufacture of cement for state highway purposes. Representative DeLano charges that since the bill was passed to abolish the state owned cement plant, that cement companies in Michigan have greatly increased the prices of their product. In fact Secretary B. J. Abbott of the administrative board has rejected all cement bids lately because he declares they were too high. It will be recalled that it was differences between former Governor Groesbeck and the cement industry of the state over the prices for cement that led to the establishment and operation of the cement plant during his administration and at a time when the state was starting on its big concrete road building program. It was during the administration of Governor Green when agitation was started to do away with the cement plant, but the bill was not passed until the Brucker administration.

Payless pay days are near at hand for the employees of Michigan. Governor Comstock from a hurried inquiry into conditions, regards the situation of the state finances of such a serious nature that he has called the various department heads in and has told them to cut the salaries and expenses to the very limit. Not only must they cut expenses, but they must cut down the number of employees in their departments. Not until they began to realize the fact that payless pay days might continue for some time has the army of salaried state employees fully realized the seriousness of the plight of Michigan.

The U. S. postoffice department in Lansing has held that a state of Michigan check issued since the banking holiday was proclaimed is worthless. When one was presented at the postoffice the other day for postage, it was refused. The amount of the check was only \$200.

From all figures available that State Treasurer Fry can secure, the deficit of the state of Michigan up to the present time of the fiscal year which ends June 30, is seven and a quarter million dollars. Before the fiscal year ends it will be millions more. Governor Comstock and his aides are trying to figure out ways to take care of this record deficit that his administration inherited.

## WEEKLY NEWS BULLETIN

Frank D. Fitzgerald  
Secretary of State

Lansing, Feb. 22.—The proposal of Secretary of State Frank D. Fitzgerald to allow continued use of automobiles until August 1 upon payment of one-half of the motor vehicle weight tax, seems likely to be enacted into law before March 1.

Because of the fact that hundreds of thousands of motorists would otherwise be deprived of the use of their cars March 1, Mr. Fitzgerald proposed that motorists be allowed to pay one-half of the weight tax. In return the motorists are to be provided with some suitable identification device which will be used in conjunction with the 1932 license. Cars thus equipped could be used until August 1, when the second half of the weight tax will be collected and 1933 license plates issued.

A bill providing for changes in the motor vehicle weight tax was introduced in the senate by Senator Herbert P. Orr of Caro. The senate committee which had the bill under consideration, returned the measure to the floor of the senate last Friday without amendment and the members of both senate and house of representatives have indicated that party lines are to be forgotten in an effort to assist motorists. Barring unforeseen legislative delays, the measure should become a law next Saturday or Monday, Feb. 27.

Under the present statute, 1932 license plates cannot be used legally after March 1, but in event the Orr bill is not enacted into law by that date, the legislature will be asked to pass a resolution providing for the continued use of 1932 plates until the bill is passed and the Department of State is able to distribute the identification devices. Another advantage of the bill is that if motorists are allowed to use their cars, the state will receive the revenue from the gasoline tax which otherwise would be lost.

That a legal way for the consolidation of townships is possible, is shown by records of the Department of State. Under old laws giving boards of supervisors power to order annexation of territory, Washtenaw township in Goshic county has just absorbed Carlson township in the same county, thus eliminating one complete set of township officers. Carlson township had a population of 167 persons of which 25 were resident freeholders.

## Chelsea Defeats Stockbridge 42-15

On Tuesday evening, Feb. 14, Chelsea High defeated Stockbridge, 42 to 15. Chelsea was the master of the game at all times. During the first half Chelsea outscored Stockbridge 20 to 5. The Chelsea team scored at most at will. Stockbridge secured only one basket in the first half.

Shortly after the second half opened the Chelsea second team took the floor. The Stockbridge team then began to score on numerous fouls called against Chelsea. The main offender was Howe who was ejected on personal fouls. Near the end of the game the first team again took the floor and started to pile up more points.

The best players for Chelsea were C. Panarites, Novess and Hawley, who scored 29 points. The Stockbridge team was greatly outclassed throughout the game.

## Lincoln Swamps Chelsea 47 to 22

Chelsea lost two games last Friday evening to Lincoln High. The reserves were greatly outclassed by Lincoln. The final score was 47 to 22.

Chelsea failed to work the ball in close for good shots. Lincoln had several men who played very good games. The best players for Chelsea were Howe and Rank, who scored three points apiece.

The Chelsea first team was unable to stop Jones, the six-foot four center. Jones scored 17 points for Lincoln and gained many tip-offs for his team. During the first half Chelsea kept within six points of their opponents.

At the start of the second half Jones began to use his height to great advantage. Bobitz also made a good many points. Novess was the best man for Chelsea, with 11 points.

## Assembly Held Friday

Last Friday the Juniors had charge of the assembly period. The period began by the reading of a selection from the Bible. Then Supt. Poore made a few comments on the past week and a few announcements.

Following this Mr. Cross, instructor in mathematics, was called on to talk with a very interesting and particularly suited to the audience. Mr. Cross stressed the point of the good sportsmanship that should be shown by spectators at any sporting event. He pointed out how a game might easily be won or lost if the spectators "boomed" the officials, thus causing their own team to be penalized.

Our cheer leader was then called on for a few yells to get us pepped up for the game to take place that night between Chelsea High and Lincoln.

We finished with a few rounds of song led by Miss Hazard.

## Ye Ol' Snooper's Scoop

Well, I see where our boys lost 46 to 21, and did you get a glimpse at the six-foot-four center? Hutzel sure played like an infant beside that.

But, nevertheless, they played an interesting game and need praise for their well sportsmanship.

Our Student Congress has formed a Judicial Department and is now acting upon its lawbreakers. The punishment is decided by members of the Judicial Department, composed of three faculty members and six students. Watch for the progress.

As you all have heard, there is to be a faculty play the 23rd and 24th of this month. Do come and see "What Happened to Jones." Co-operate with the Seniors. They need your support. Let me see you all there.

Ye Ol' Snooper.

## Editorial

"Prune the branches but don't cut down the tree" is a maxim never better applied than in illustration of the present situation confronting the public schools of Michigan.

Never was there a better time to institute needed reform, say the state's leading educators. The present system of financing public education in Michigan needs a general re-shaping. With property tax supplying 73 per cent of the total revenue for public schools during the past 10 years, and school tax rates for this purpose varying greatly, the present method of supporting education is in many respects a rambling growth, molded through the years purely to provide for the demands of the moment.

The present need for economy is a force which educators hope will help them to overcome the traditionalism which heretofore has hindered them in their efforts to eliminate the overlapping of organizations, the duplication of equipment and personnel, and inefficient teaching. These are the decayed branches of the educational tree which the public is urged to prune.

Concretely, they point out the need for an augmented Primary Fund, from general sources, to insure a low local property tax levy and at the same time more nearly equalize educational opportunity and costs throughout the state.

In years such as the present there always will be found the counsel of hysteria and despair, which, beguiling the necessary nourishment at the roots, would pettishly cut down the fruitful growth of years.

Such imprudent counsel finds no response among those who have at heart the well-being of the younger generation. Present-day conditions demand present-day schools. Boys and girls turned out of school today with no meager education as that supplied by the average schools of a generation or two ago, would find little opportunity awaiting them for profitable employment in even the most humming of industrial years.

Competition with those better prepared would leave them far in the rear in the field of opportunities. Education, intelligently directed, with its academic, vocational, and health training, is an essential of the day. Severe curtailment already has been made in public school services. Building activities are at a standstill. Teachers' salaries have been materially reduced throughout the state and in many districts have been lowered to a point that endangers the standards of competency, experience, and efficiency. Expenditures for educational supplies and the essential materials for instruction are rapidly becoming inadequate to meet absolute necessities. Some items of operating costs, such as insurance, lighting, heating and water supply, have in many instances been reduced to an upstate minimum. Even if schools were closed entirely there still would be many of these maintenance and upkeep costs.

Public school education may be confidently expected to live within its income, but this support will of necessity have to be in keeping with the responsibilities to which education has fallen heir. No out-moded and weakened system can supply the exacting demands of the day. The full growth with well-considered, expert pruning is needed.

Although postponed temporarily, the Michigan Citizens' Conference on the Crisis in Education will be called at Lansing sometime in the near future. The Conference was originally scheduled for Wednesday, Feb. 15, under the sponsorship of 18 state-wide organizations. After conferring with representatives of these groups, President Otto W. Haisley of the Michigan Education Association announced their unanimous opinion that the Conference should be postponed because of the acute financial emergency caused by the unexpected bank holiday, which had become known to the public hardly 24 hours previous to the date set for the Conference.

Although postponement of the Conference was announced by press, radio and other means of communication, a group of approximately 400 failed to receive the notice. A meeting was arranged for Wednesday afternoon, at which President Otto W. Haisley formally discussed the present educational situation in Michigan. The group adopted a resolution approving in principle the plan of the Governor for furnishing the required financial support for the public schools of Michigan.

## 8th Graders Defeat St. Mary's In Fast Game

On Monday night of this week our "all-star" eighth grade team met the "all-star" St. Mary's team at the Chelsea public gymnasium. Were you there, Shaulie? If you weren't, you missed some real basketball playing. We can plainly see that this young team will soon take the place of the "all-star" varsity team. This team has the "go-gettun" material. When they boys get out onto the floor they want to get all they can in a short time. They have the old fighting spirit.

The St. Mary's boys have the same spirit as our boys. They believe in catching points coming and going. You will agree with me that this was a good game because the teams were evenly matched.

The star players for Chelsea High were Phillip Novess and "Red" Fausser. In the last half Meyers came back and he was made a star left guard. Phillip Novess was high point man and he was in the limelight in this game. We can credit every boy for his good work and sportsmanship.

The score at the half was, Chelsea 7, St. Mary's 4. When the game ended the score was, Chelsea 12, St. Mary's 6.

The line-up follows:  
 Chelsea St. Mary's  
 Fausser C Koebbe  
 D. Oesterle RF Birch  
 G. Goodell LF Wheeler  
 P. Novess PG Kirk  
 Meyers LG Cook  
 Substitutes: Chelsea—Byerstaff, Tisch  
 McBride, Richards and J. Eniser  
 St. Mary's: No substitutes.

## What (the Student) Congress Is Doing

Last Tuesday a meeting was called of the members of the Faculty and the Student Congress. Rapid progress was made immediately towards forming the different departments required in most any government.

A body of laws was introduced for the entire student body, made by Congress and teachers.

A committee of six was appointed by the President to form a constitution. Members of this committee are: Miss Hazard, Mr. Thompson, Miss Dettling, Mr. Hinderer, Miss Moeckel and Mr. Foster.

A temporary committee was also appointed by the President to serve as the Judicial Department until a constitution be written. This committee has members as follows: Miss Barbas, Miss Hazard, Mr. Cross, Miss Widmayer, Miss Huss, Miss Irwin, chairman; Mr. Rank, Miss Hindelang and Miss Williams.

Complaints and charges against students have been brought to this body by various students and faculty members. The several offenders have been given sentences, some more severe than others, depending on the offense.

We are earnest in the hope that Chelsea High School will soon be leading other schools in a democratic form of government.

Mrs. William Fox returned home last Thursday after a visit to the home of her daughter, Mrs. Joseph Cannon of Detroit.

Mr. and Mrs. Cecil Murphy and son of Detroit spent Saturday and Sunday at the home of the former's parents, Mr. and Mrs. Thomas Murphy. Mr. A. Brown is spending some time with his father, Robert Brown.

Edward Mestor and family spent Sunday in Detroit. There is a good thickness of ice on the surrounding lakes and farmers in this vicinity are busily engaged in storing their ice houses with ice for the summer months.

Leonard Orloff and family were Sunday visitors in Detroit. It appears that spring is just around the corner. There are many spring song-birds here and robins have been observed on several occasions.

**Heirlooms**  
As used today, the word "heirloom" applies to any bit of personal property handed down in a family for generations. In English and Scotch law the term was applied to any chattel which by will or law descended to the heir with the land. An owner of such an heirloom could not convey it away from the estate, for at his death it went to the heir.

## Question And Answer Dept.

Ques.—Will you kindly tell me how the sign about the groundhog and the weather came to be used?

Ans.—The old saying about groundhog day and the weather is a survival of an old superstition that started in central Europe several hundred years ago. There was an old German tradition that on Candlemas day (Feb. 2) the badger, which hibernates in winter, comes out of his hole for the first time during his winter's sleep. If he sees his shadow he immediately returns to his den and resumes his sleep for another six weeks—meaning that six more weeks of wintry, equally weather will follow. However, this is only superstition and totally without foundation. The saying was applied to the American groundhog because of the close resemblance of the American groundhog or woodchuck to the European badger.

Ques.—Did the United States government ever borrow money from any European government? Also was there ever a time when United States government bonds were not acceptable in Europe?

Ans.—The last time that the United States borrowed money from any European country was in 1783, when this country borrowed money from France. The Continental Congress borrowed money from private bankers in Holland, but none from the Holland government. During the Civil War an effort was made to sell United States bonds in Europe, but distrust of the financial credit of the United States was so strong in Europe that agents could find no sale for Federal bonds in either London or Paris, while Confederate bonds were quoted at nearly par in gold.

Ques.—I wish to ask in your good question column why electric light must be in a vacuum to give out light?

Ans.—If the filament of an electric light bulb were lighted in air it would oxidize and burn up. When a bulb becomes cracked in any manner that it will admit air, that instant the bulb will "burn out."

Ques.—I wish to ask you what is your final authority on answering questions?

Ans.—We wish to advise you there isn't no such animal as final authority. There are many good encyclopedias, such as the Britannica, the International, the Americana, Nelson's and others, but none are infallible. When we cannot find answers in any of these we go elsewhere. If it concerns medicine we consult a physician; with spiritual questions we see the minister; with foolish questions we would think of you; with love queries we consult our own minds, and so on. Now what do you want to know?

Ques.—To settle an argument will you please state in your question department whether or not Alexander Dumas was part negro?

Ans.—Alexander Dumas, the author, was what is known as a quadroon—that is, one-fourth negro. His father was the son of a French nobleman, and his mother was a full-blooded Santo Domingo negress.

Ques.—If a person marries in a state that does not grant divorces, and separates from her husband, can she remarry in another state without a divorce?

Ans.—No. Before she can marry in any other state she must first get a divorce from the state in which she wishes to remarry, or else some other state.

Ques.—I would like to ask you how diamonds are judged—that is, what kind are the most valuable?

Ans.—The best diamonds are colorless; they are perfectly clear, and these are known as "first water diamonds." All other diamonds not quite so valuable have a more or less divided tint—green, orange, red, yellow and blue.

Ques.—When and where was Jefferson Davis executed at the close of the Civil War?

Ans.—Jefferson Davis was never executed nor even tried. After his capture by Federal troops at Irwinville, Ga., he was imprisoned for two years at Ft. Monroe. He was indicted by the grand jury for treason, but was never brought to trial. After two years of bickering on the part of government and court he was released on bail and Horace Greeley was one of his sureties. Davis was included in the General Amnesty Act of Congress passed in 1868.

**MASON.**—C. H. Bramble, master of the Michigan State Grange, attacked the proposed sales tax levy in an address before the Mason Kiwanis club Monday night. He said his organization and other organized groups of farmers in the state are unalterably opposed to any tax plan unless the revenue be used to reduce property levies below the 15-mill limitation. He characterized the sales tax plan as an evasion of the 15-mill constitutional limitation and said that 15 mills will yield enough revenue to run all the taxing units in the state if a 20 per cent reduction in governmental costs is made. The sales tax is a levy which exempts the rich and taxes the poor, Mr. Bramble said.—Ingham County News.

**SHADOWS**  
A little bird flew by my window,

But the beauty of his shadow,  
Sent a thrill of joy within.

How we wish some birdlike shadow,  
Hovered near your window, too;  
That the incense of his presence,  
Be to you like evening dew.

Yet we cannot but remember,  
Through life's shadow, toil and pain,  
We could never have the shadow,  
If we did not have the rain.

## Seek Curtailment of Library Service

The following communication was received by the Chelsea Public Library on February 16, 1933. Through The Chelsea Standard, we, the library staff, are endeavoring to bring the notice to the public hoping to enlist their support and co-operation in helping to defeat the House Bills Nos. seven and six, as mentioned in this letter.

As a parenthetical suggestion we might add that during the past year the state has loaned the local library 552 books which had we been obliged to pay for under these House Bills, would have amounted to considerable expenditure.

Resolutions drawn up by the legislative committee on State Libraries have been signed by the Chelsea Library committee and forwarded to the State Capitol at Lansing.

May we ask for your co-operation. February 7, 1933.  
Librarian, Public Library, Chelsea, Michigan.

**"Dear Madam:**  
"A widespread curtailment of library service within the state is now under consideration at Lansing. Traveling libraries sent out by the State Library have in the past gone into every county in Michigan. House Bills No. seven and No. 8, recently introduced in the legislature, propose to make this State Library service self-sustaining. In other words all loans of this nature, whether to established libraries, to communities without libraries, to clubs or schools, must be placed on a fee basis or the service be discontinued.

"On the basis of last year's lending (1,300 libraries) were sent out at a total cost, which includes book purchase and all overhead, of about \$6,000 each community enjoying this book service would be called on to pay from \$2.50 to \$20 for each traveling library received. Estimated charges vary with the number of books loaned.

"The effect of such a system of charges is difficult to forecast. Certain it is, however, that public services of an educational character, even one so all-important as the public schools, could not be carried on even in prosperous times if it were to be maintained by fees rather than collections made through the organized channels of government. Can the traveling library book service, which was of unquestioned importance during good times and is increasingly so in these times of unrest, be an exception? Definitely we feel the establishment of such a fee system would mean a virtual stoppage of this service throughout the state.

"The Michigan Library Association, therefore, through its appointed representatives, has ordered this matter brought to the attention of all libraries within the state. United action, at once, is needed if these measures are to be forestalled. May I suggest that you bring this to the attention of your board of directors so they may, if they deem it advisable, pass a resolution similar in import to the one attached and forward copies of it to each member of the House Committee on the State Library. The names of all members of the committee are appended to the resolution. Mail may be directed to them at the State Capitol, Lansing.

"May I ask further that you, in co-operation with all newspapers of your region, bring it to the attention of the electorate with the suggestion that letters on the subject be forwarded at once to your local representative and senator.

"Prompt action is important, so we hope that you will get in touch with your library board, or school board if a school district library, and the newspaper today.

Sincerely yours,  
Ralph A. Uroling,  
Chairman, Legislative Sub-Committee on the State Library.

Approved by:  
Nancy B. Thomas, President,  
Michigan Library Association.  
Carleton B. Joeckel, Chairman,  
Legislative Committee,  
Michigan Library Association.
