## Wallace Bears Win In Gold B. B. Tournament

Those who were in the vast gathering at the public school gym last Thursday evening, were favored with some of the most spectacular basketball ever witnessed on local courts. In the first game of the evening, the Wallace Bears overcame an early lead of the State Street Rangers and emerged victorious, 18-11. The Trojans, tournament favorites, were the next to take the floor for their battle with Napoleon. This was a hard fought game, but the Trojans, seizing an early lead which could not be overcome, finished on the long end of a 24-19 count.

At 10:00 o'clock the championship game was called. From the first whistle it was evident that it would be a battle such as is only seen when players of the same town clash. The Bears jumped into a nearly lead of 8-2. But the Trojans fighting furiously managed to close the gap and the half found them leading 10-10.

The last half found both teams exhibiting a brand of basketball that kept the crowd constantly on its feet.

The Bears were connecting with their shots and with four minutes to go were enjoying a seven point lead. The Trojans came back strong, scoring eight points in the last minutes. Mean while the Bears counted three times which enabled them to eke out a victory by the narrow margin of two points, 34-32.

Thus the first Gold Basketball tournament passed into history, but the memory still lingers as evidenced by the discussion of local fans during the last few days.

Gold basketballs were received by Wallace, Howe, L. Foster, B. Crocker, Fahner, Hulce, Heimendinger. Silver basketballs went to Rossbach, Foster, Swickewath, Lixey, Kern, Adams, Lyons, Dvorak and Hoffman.

The Wallace Bears have entered a tournament to be held at Michigan Center next week, with practically the same line-up used in the recent tournament.

## Ball League Will Meet Monday To Reorganize

With the approach of the season for warmer weather, agitation for the revival of the Twilight Ball League is being heard from players and fans who have enjoyed this sport in Chelsea for the past few years.

A meeting for the purpose of perfecting a new organization for the 1933 season will be held at Kolb's hall on Monday evening, April 3, at 7:30.

Current gossip among prospective players reveals that many favor the organization of an Industrial League to replace the league, which has always been composed of church and fraternal teams. The advisability of such a change will be discussed at the meeting Monday evening, and with such a radical change under consideration it is requested that everyone who has been interested in the league as it has been conducted or anyone interested in the new proposal be present to take part in the discussion and decision.

For the past two years M. W. McClure has served as president of the league and P. F. Niehaus has held the position of secretary-treasurer.

## Arthur Hagen Resigns As County Club Agent

Arthur E. Hagen, of Ann Arbor, who for more than six years has held the position of Boys' and Girls' Club Agent in Washtenaw county, announced his resignation from that position this week, effective April 1st. He will become associated with the Safford Valley Farms, near Saline.

Boys and girls of the county, as well as others who have had the pleasure of coming in contact with Mr. Hagen in club work will regret the fact that he is resigning his position. He has been very active and has shown a keen interest in all club activities in the county. Many new clubs have been organized under his leadership and many boys and girls have benefited as the result of his untiring efforts in their behalf.

According to H. S. Oster, county agricultural agent, a meeting has been called for today to decide the club policies to be followed.

## Be On Your Guard

Don't be taken unawares by that great destructive monster, Laziness, who has often raised havoc with many a careless student. Even at this very moment you may be slowly slipping into his lurking grasp, which kidnaps your thoughts from your studies and diverts them to less strenuous pastimes.

But these fleeting pastimes are not to be had without the usual sacrifice. The ransom is demanded in the form of academic failure, which in some cases causes the victim to wrench himself free from the clutches of this heartless demon. Most cases, however, do not secure their freedom even after this great sacrificial requirement is fulfilled, but the victims are forced to pay with a hopelessly ruined life.

Protect yourself now from this enemy of success by forming the habit of arming yourself with his foremost constructive opponent, Work, thereby building a solid foundation upon which a future life can be safely molded. —Dovebliss Prism, Toledo, Ohio.

## Be Yourself!

Success literature abounds in advice to the young man or woman who leaves school in June and goes out to seek his or her first job. There are students who go through four years of successive business training and barely manage to get by.

When seeking a job, don't put on a false front for the occasion. It will only lessen your chance. The experienced business man can readily discern beyond the front and find what he is searching for.

Be yourself! That is what the business employer desires. How much can you expect from a beginner? Show your true qualities and you stand a better showing. Be yourself! —"Orange and Black," Belleville.

## Hither and Yon

Belleville, Mich.—"The Orange and Black" has an idea. Yes, sir—they have a special issue every year. The sophomores edit this special issue of the paper every March. They collect material and help the staff to get it in on time. Thanks for the idea, "Orange and Black."—Chelsea has some mighty fine sophomores and we'll let them give our journalism club some competition.

A Thought

Life is a battle for all of us. He who goes into that battle giving a smile for every frown, a cheer word for every cross one, a heart for every kick, a hand to the unfortunate, is a soldier assured of honor at the hand of the Great Unknown.

Miss Cash (in French class)—"Howard, is it you that is pitching those things around the room?" Howard—"Well, not that I know of."

## Are You Interested?

Are you aware that the most interesting school newspaper is the one in which the greatest number of pupils are represented as contributors?

Whether or not you have "made the team" in athletics, dramatics, music, or stamp-collecting, you should expect a place on the "Seepless" team as a contributor if not as a member of the staff. To win a place on this team through your ability to write well should be an enviable distinction.

We, the charter members of the "Seepless" staff, have suddenly become conscious of the fact that the majority of us are seniors, who must relinquish our active membership in June. We realize that unless your interest in your high school publication is obtained, the future of "Seepless" is at stake.

Therefore, a committee of four of our members has been appointed by our editor to draw up a constitution in which they will endeavor to establish requirements for membership and traditions to be upheld by the future members of our contributors to "Seepless." We hope to publish this constitution in our next issue. Watch for it!

How will contributors and members of the staff make the team? They will become contributors by writing for readers instead of merely writing compositions. Understanding the needs of their publication and the interests of their schoolmates, and ever on the alert for good material, they will try to produce stories, articles, editorials, book reviews, short plays, poems, and jokes that will appeal to the editor and advisor as being something that you people will enjoy reading.

They will regard writing for the "Seepless" as an interesting competition. When their offerings are not accepted, they will not become discouraged. They will succeed, if they will only continue to try. From those who "make the team" as contributors, members of the next staff will be chosen.

An idea that we hope to carry out has been suggested to us by another school paper. It is a plan by which we may be able to determine who our loyal supporters and would-be journalists are. This plan, also, will be disclosed in next week's issue of the "Seepless." WATCH FOR IT!

Let our cry be "Vive le 'Seepless'!"

## Elementary News

Fourth Grade—

The new captain in arithmetic last week was Ruth Yettah. Lois Palmer also held high score.

Karl Myer's team won again. His strongest player this week being Ethel Harte.

Our arithmetic troubles have nearly vanished under our new game study.

In art we have been arranging house furniture plans for the house which we built last week. Each one has made the plans for a living room, dining room, kitchen, bedroom and bath room.

Miss Wilson judged our work Friday and gave us many helpful suggestions.

In geography we are making relief maps. You should see them.

Sixth Grade—

The sixth grade recently read "The Sandpiper" by Gail Thaxter. The poem inspired them to write the birds' reply to the little girl. The following are examples of the verses submitted:

We flitted on this beach all day  
Now come with me my way to play.  
You spread your arms, and I my wings  
And we shall fly to higher things.  
—Winifred Palmer.

THE SANDPIPER'S REPLY  
Talk to me my little maid,  
I can't understand a word you say.  
Why can't you fly like me?  
Away over the deep blue sea.

I fly up so high  
In the beautiful sky.  
But you can only run  
And play about the sun.

I'd like to play all day with you  
We could have such lots of fun.  
If you could fly, as I can run,  
Away, above the beautiful sun.  
—Gertrude Hale.

THE SANDPIPER'S REPLY  
Said a sandpiper up so high  
I cannot see the reason why.  
You don't fly instead of run  
Tip about the beautiful sun.

I would like to play all day  
With you along the bay,  
If you could only fly like me  
Up in that beautiful tree.

I glide across the water's blue  
Why shouldn't you do it, too?  
Yet I cannot understand why  
Why you always stay on land.  
—Barbara Schroeder.

## Library News

Since the beginning of this semester the library club has become a definite part of the program for the group of girls taking active part. A definite aim has been established and it has been carefully organized under the direction of our librarian, Miss Ruth Dancer. Units of work are assigned each week and when completed are discussed in the weekly class meeting.

A few of the important units to be covered this semester are as follows: "The Development of Mother Goose"; a careful survey of Folk Tales; modern fairy tales, myths, fables, etc.; a consideration of poetry for children including lists of the best poems and a brief study of children's poets; a historical summary of children's literature; a study of bibliographies of children's literature, divided as to grades, etc. Gardner and Ramsey's "Literature for Children" is being used as a basis for discussion of these units.

In addition to this part of the program the girls in the club are meeting daily various groups of children from the kindergarten, first and second grades for a story-telling period. Each week the girls in charge consult with the teachers so that the stories are being correlated with the work of the grades. Careful supervision is given during the story-telling periods.

This project has proved of great value, both to the girls who are completing the units and the children with whom they work.

The girls in charge of the literature period for the kindergarten are Johanna Bruckner and Gladys Ruelmini; those in charge of the first grade, Margaret Markel and Mildred Pumpkins; and those in charge of the second grade, Margaret Goetz and Kathryn Ashfal.

STATE PAY JUMPS  
AS TAXPAYERS FAIL

Representative Brown Keeps Up Battle On Salary Grabbers

By Elton R. Eaton

Lansing, Mich.—Public pay roll leeches are frothing at the mouth and damning Representative Vernon J. Brown of Mason for again having delved into the state finances and revealing how the new "economy" administration has turned thumbs down on "economy."

The center of greatest disturbance over the revelations of the Mason newspaper-publisher is the attorney general's office, where its payroll has since the first of the year jumped to its highest figure in the state's history.

It was Representative Brown, a Republican who a year ago made a lot of other Republicans peevish because he had the audacity to point out that state salaries and expenses were much higher than they should be in times like these.

When these Republicans returned to their rose-covered cottages among the hills of rural Michigan Representative Brown didn't take his weather eye off the state payroll as a lot of the new-born Democratic benefactors hoped he would do. Not for a minute did his vigil relax.

Now Attorney General Patrick O'Brien, son of the far northern climate who deserted to reside in Michigan's metropolis, is raving at the audacity of a mere representative to call attention to the over-burdened payroll of his office.

Representative Brown the other day pointed out the fact that under the last two weeks of the administration of Attorney General Paul Voorhies, the taxpayers of Michigan paid to the attorney general's department a total of only \$3,800.96 for the salaries of the entire force.

He compared this figure with Attorney General O'Brien's (economy) payroll for the first two weeks of March of \$5,280.04, an increase of \$1,479.08. If this same payroll is maintained during the entire year, the attorney general's department will cost the taxpayers of Michigan this year a total of \$35,281.92 more than it did last year.

"That's pretty good for these economy boys," cynically declared Mr. Brown.

"Why, they have got so many people working in the attorney general's office that they have had to work out a sort of a relay plan for the boys to sit down, not being enough room in the department for desks and chairs for all of them."

That isn't all Mr. Brown has found out about this new economy theory.

During the early part of the session Representative Brown and Representative Hartman introduced a bill taking the salary of the commissioner of agriculture out of the appropriation for that department. Former Commissioner Powell's salary was fixed by law at \$5,000 but when taxpayers began to use turnips and cordwood for money, Mr. Powell reduced his salary to \$4,000 per year.

Then Mr. Samuel Metzger of Greenville arrived in Lansing along about January first with these other economy dignitaries. Newspaper readers were informed that he had taken the job that had been held by Mr. Powell. Nobody cared anything specially about that but there was some loud talking when they discovered that Mr. Metzger's economy salary had gone back to the \$5,000 figure of prosperity days.

Then along came this house bill with no salary in it for the commissioner, which meant that the legislature could fix the salary at any time they wanted to and at any figure. The bill finally landed in the senate and when it came before that thoughtful body from the committee where it

had been reposing, a salary clause of \$3500 had been inserted in the bill. The bill has been sent back to the house for approval with this change in it but Representative Brown and some of the other legislators say the salary clause is going out, no matter what happens.

"The commissioner cut the pay of inspectors in his department from \$1600 a year to \$1200 a year. He expects them to support their families on \$25 per week and live on the road too, but he doesn't want his income disturbed. Well, we're going to disturb it a bit," stated one representative.

At last the farmers of Michigan are in for some consideration at the hands of the state legislature. Representative Donald Sias has introduced a resolution calling for an investigation into the exorbitant prices charged for farm machinery in this state. Not only has he asked for this investigation but he would have the state take steps to find out if it would not be an advisable thing for Michigan to manufacture farm implements. His resolution has created more interest among rural members than any other similar measure presented so far this session and unless interested lobbyists are able to kill it off, there is every reason to believe that the question will provide one of the outstanding inquiries of recent years. Representative Sias points out that while prices of farm products have been tumbling for a number of years past, the prices of all farm implements remains the same as during the hey-days of prosperity. His resolution will doubtless come in for early consideration.

Members of the house have received a bill introduced by both a Republican and Democrat which calls for some sort of regulation of the bus and truck problem of the state. While railroads are taxed and regulated by both the state and federal governments, buses and trucks so far have escaped with but minor consideration on the part of law makers. This is due, it is pointed out to the fact that the bus and trucking business is a comparatively new industry. Supporters of the bill as presented last week declare that the trucking business on the highways is not so new but what it has practically wrecked the railroad business—wrecked it because of the fact the railroads operate over their own right of ways while every man who drives an automobile or buys a gallon of gasoline helps to pay for the right of way for trucks and buses. The bill is one of the longest ever presented to the legislature.

Now that the state banking legislation is out of the way, the bill introduced a short time ago by Senator Orr which will place Michigan insurance companies on the same footing with out-state companies will doubtless find ready passage in both the house and senate. While it is not generally known, Michigan insurance companies have been forced to carry a much greater burden than companies located in other states, but licensed to do business in Michigan. The insurance department looks upon Senator Orr's bill as one of the most important so far presented during the present session. Members of both houses have expressed approval of the measure.

Governor Comstock's many proposals for changes in the state constitution are not finding ready approval in the legislature. The governor declared in his first message that he regarded as essential many important changes in the basic law of the state. He said in his message that he thought the constitution should be amended to permit the reduction of taxation levied upon personal property and other amendments to clarify the real estate taxation limitation.

amendment adopted last fall. There will be nothing like these suggestions presented at the spring election.

Possibility that the investigation of bank receiverships and fees paid to attorneys acting for receivers may extend to all parts of the state where there has been a closed bank is seen in the action of the attorney general in securing all available data he can on this subject. It was the demand of Senator Joseph Foster of Lansing that led to what he termed the "receivership racket." It has been revealed in one Detroit case where a concern has been in receivership for over three years that the receiver and attorneys have been paid a total of \$67,554.67 and so far not a cent has gone to the creditors. In some of the smaller receiverships out in the state it is pointed out that receivers and attorneys have taken exceptionally large amounts in proportion to the business they have handled.

Representative Clyde Stout of Ionia would have the counties pay many of the expenses now met by the state, among them being the transportation of people by the counties to various state institutions. He has introduced a bill to this effect.

IF I COULD WRITE A POEM?

If I could write a poem,  
A poem I could show  
To those I love around me,  
Or to those who come and go.  
Would it be one of nonsense,  
Abstruse, or one of wit,  
Or, like some radio broadcasts,  
Put on to make a hit.

I like a little merriment,  
To drive away dull care,  
To celebrate a birthday, or  
A picnic to share;  
But life is such a seriousness  
To all who give it thought,  
The suffering need, the squalor,  
That blazon sin hath wrought.

If I could write a poem—say,  
One that I might show,  
To those I love around me,  
Or to those who come and go.

I'd magnify the beauty of  
A pure and spotless life;  
A Saviour's loving power to heal,  
A mispent—wounded life.  
—Arthur Carlton.

Electric Cooking Cost!

Now no one can tell you what it will cost you a month to use an electric range any more than he could guess what your grocery bill would be. But we do know that the average family will use from 100 to 125 kwh.

Of course you can waste electricity just as you can waste any other kind of fuel. And we usually find that the woman who wastes electricity would waste gas, coal, oil, wood—or cobs if she didn't have to carry them herself.

However, taking statistics from a bulletin issued by the United States Bureau of Labor, an electric range at the average rate per kwh. would cost the average family \$49 a year, which is \$10.93 less than the average family's cooking fuel costs!

**Michigan Department of State WEEKLY NEWS BULLETIN**

Frank D. Fitzgerald Secretary of State

**Lausling, Mich.**—For the first time in the history of the state, Michigan voters will cast ballots on April 8 which will determine whether the state ratifies the Twenty-first amendment to the federal constitution and

repeals the Eighteenth amendment.

On all previous questions of ratification of federal constitutional amendments, action has been taken by the state legislature.

When the Twenty-first proposed amendment was submitted to the states by Congress, it was specified that ratification or rejection be by conventions elected for that purpose alone.

Several weeks ago a bill providing for the election of delegates on April 3, was introduced in the legislature by Senator Adolph Heidkamp of Lake Linden. This bill was passed.

Heidkamp act provides that one delegate to the ratification-convention be elected from each district which elects a member of the House of Representatives. To make sure that voters have an opportunity of clearly expressing their views, the Heidkamp act required county officials to nominate two delegates for each district.

One of the delegates is pledged to vote for ratification of the new amendment. The other delegate is pledged to vote against ratification.

Under this system, voters have an opportunity of expressing their views as the convention to be held in Lansing April 10, will vote in accordance with the results of the election.

Whether Michigan will ratify or reject the proposed amendment, can be determined as soon as the ballots are counted April 8.

Under the law, the ratification ballot will be separate from the ballots containing the names of candidates for state and local offices.
