Two Weddings Mark Week's Social Events

A pretty wedding was solemnized Saturday evening, September 9, at the home of Mr. and Mrs. Herman W. Hayes in Sykan township, uniting in marriage their daughter, Mildred Loraine, and Elden W. Weinberg, son of Mr. and Mrs. Elmer J. Weinberg of Sykan.

Before an altar of gladioli, asters and boltonia against a background of evergreens and ferns, the ceremony was performed at five o'clock by Rev. P. H. Grabowski. The wedding march from Lohengrin was played by Mrs. Lawrence Wacker. Miss Gertrude Weinberg, sister of the groom, was maid of honor, while the groom was attended by his brother, Jay Weinberg.

The bride chose for her wedding a gown of eggshell velvet, and she carried a bouquet of Johanna Hill roses. Miss Weinberg was attired in hyacinth blue silk and her bouquet consisted of Briarcliff roses. A buffet lunch was served following the ceremony.

The bride is a graduate of Chelsea high school and Jackson Business University and is a member of the Jackson chapter of Alpha Iota Sorority. The groom also is a graduate of Chelsea high school.

Mr. and Mrs. Weinberg left Saturday night for Chicago to attend the Century of Progress, and will be at home to their friends in Chelsea after October 15.

Guests at the wedding included Mr. and Mrs. E. J. Weinberg and daughters, Gertrude and Leona; Velt-Bahn-miller, Mr. and Mrs. Jay E. Weinberg, Mr. and Mrs. T. H. Bahnmiller, Mrs. E. H. Hulce, Rev. and Mrs. P. H. Grabowski, Jack Weber and Robert Foster of Chelsea, Mrs. L. C. Hayes, Mrs. Agatha Kirk and Mrs. Matilda Kuchon of Manchester, Mr. and Mrs. William Hayes of Grass Lake, Mr. and Mrs. Eric Matten and Mrs. Ricka Widmayer of Sykan, and Mrs. Georgia Ganzhorn and Mrs. Florence Lyon of Ann Arbor, Mr. and Mrs. Lawrence Wacker of Chelsea.

Only immediate relatives and a few close friends were present Saturday evening when Miss Betty Jane Casteline, daughter of Mr. and Mrs. C. L. Casteline of Hartford City, Ind., became the bride of Donald James Dancer of Chelsea.

Rev. Henry W. Lenz of Salem, Mo., church performed the ceremony at 8 o'clock at the home of the groom's parents, Mr. and Mrs. Emmett H. Dancer in Lima township, at whose wedding he officiated 28 years ago.

The house was given a festive air with mingled blooms of summer flowers. Ribbons of green and white formed an aisle from the stairway to an arch banked with ferns and flanked by white tapers in silver holders. The bridal chorus from Lohengrin was played by Miss Joy H. Dancer, sister of the groom.

The bride was charming in a model of azure blue satin with fitted bodice and flared skirt. Her tulle veil having a border of lace was caught at the back of her tulle cap, which was outlined with lace motifs. She carried a shower bouquet of bridal roses, swansonia, scabiosa and baby breath. Miss Nadene Dancer, as maid of honor, was attired in yellow dotted net over yellow silk. The long skirt was marked with deep flounces edged with tiny ruffles. Her bouquet was composed of talisman roses, blue delphinium and gypsophila. Howard Dancer attended his brother as best man. Little Anne Lambertson, cousin of the groom, carried the ring in the heart of a lily.

A wedding supper followed the ceremony. Centering the ceiling was a silver wedding bell, while green tapers and bride and groom place cards, furnished the table appointments. Featuring the bridal table was a beautiful three-tiered wedding cake dotted with crystal balls. Around the base of the cake were 75 small white candles, and it was surmounted with a basket of daisies and a tiny wedding bell.

The bride is a graduate of Hartford City high school, and attended a nurses' training school in Chicago before coming to Chelsea two years ago. The groom, a graduate of Chelsea high school, has for six years been employed as clerk at the local postoffice.

Mr. and Mrs. Dancer left Sunday on a motor trip to Niagara Falls, Watkins Glen and other eastern points. On their return they will make their home in the Schenk apartments, 208 South St.

Out of town guests at the wedding were the bride's mother, Mrs. C. L. Casteline of Hartford City, Ind., Mrs. Albert Tefft of Denver, Colo., and Miss Anna May Beuter of Jackson.

ENTERTAINS AT BRIDGE

Miss Dora Chandler was hostess Friday, September 1 to two tables of bridge at her summer home at Cavanaugh Lake. Delicious refreshments were served by the hostess. High honors were awarded Mrs. Paul Eisele and second honors to Audrey Foster.

Chelsea Public School Opened Last Monday With 439 Students

The Chelsea public schools opened Monday afternoon, at 1:15, for enrollment, classification and assignment of classes. The enrollment of 439 pupils is as follows:

Kindergarten	27
First grade	29
Second grade	33
Third grade	24
Fourth grade	25
Fifth grade	26
Sixth grade	34
Seventh grade	38
Eighth grade	28
Ninth grade	42
Tenth grade	51
Eleventh grade	48
Twelfth grade	30
Post graduates	6

After enrollment the upper six grades ran through seven minute classes and on Tuesday an entire day of school was held.

First football practice was held Monday afternoon, under the direction of Coach Spaulding. Tuesday noon a football meeting was held and it now looks as if there will be 27 to 30 boys out in suits every night. The first game is with Saline at Saline on September 22. That leaves only about seven hours of practice and the boys have to get to work at once in order to get ready for the first game.

The Journalism club, under Miss Barry, will have school notes ready for next week's paper.

Chelsea Asks For Road Improvement

A delegation of eleven local men, headed by Supervisor Theo. H. Bahnmiller, met with the County Road Commission last Friday in Ann Arbor in an effort to secure a portion of the Federal funds allocated to this county for highway work. The projects asked for in Chelsea are the paving of West Middle street and North Main street, with a new bridge across Mill Creek at the north edge of the village. Of the \$190,000.00 which comes to Washtenaw county it is estimated that Chelsea's portion will be approximately \$17,000.00.

An effort is being made to bring State Highway Commissioner Van Wagoner to the county within the next few days, when delegations from Chelsea and other villages in the county will attend a meeting in Ann Arbor and some opinion will be received in the matter.

Apple Thieves Are Taken Into Custody

Eight Lincoln Park men were taken into custody Sunday morning by Detectives Thomas Knight, George Atkinson and Alex Schlupe when they were caught in the act of taking apples from the orchard of John Sullivan in Lyndon township. The men had a truck and trailer partly filled with apples when they were ordered from the trees.

Several bushels of apples were taken from this same orchard last Thursday and it is believed they were taken by the same men.

The leader of the group, John Pace, has been arrested several times as a labor agitator and his companions gave their names as John Voden, Roy Cripe, Henry Lucas, Sam Nicita, Carl Antdensen, A. R. Swope and Alex Lang. They were tried Tuesday afternoon before Justice Jay H. Payne. Pace was fined \$50 and \$25 costs or 90 days in jail and the others \$10 or 10 days in jail.

ENTERTAIN POMONA GRANGE

The North Sylvan Grange entertained the members of Pomona Grange Tuesday evening at the Methodist church, with an attendance of 85.

A business meeting was held at 5 o'clock and Mr. and Mrs. R. T. Brown of Ann Arbor were elected delegates to the State Grange to be held in Alma on Tuesday, October 31.

A pot luck dinner was served at 6 o'clock. At the evening session, a memorial program was given for departed members of Pomona Grange. This consisted of recitations and readings and was in charge of Rev. H. W. Lenz.

The next Pomona meeting will be held at Stony Creek the second Tuesday in November.

GIRL SCOUT NEWS

The Girl Scouts will meet on Tuesday evening, September 19, at 7:00 o'clock at the high school gym. Everyone is requested to be present so that final arrangements can be made for the tenderfoot test. Bring your rope.

ST. MARY SCHOOL OPENS

St. Mary Parochial school opened Monday for registration, and 125 pupils were enrolled. The regular classes started Tuesday morning.

V. J. Brown To Speak At Kiwanis Meeting

State Representative Vernon J. Brown of Mason will speak at a joint meeting of the Ann Arbor and Chelsea Kiwanis clubs at Sylvan Estates next Monday evening. Mr. Brown, whose articles on state governmental affairs have been read by thousands

VERNON J. BROWN

of readers of The Standard and more than 120 other Michigan newspapers during the past two years, will speak on the subject about which he so ably writes.

Although his affiliations are with the Republican party, Mr. Brown insists that state affairs should be governed efficiently and he has attacked Republican as well as the present Democratic administration. His talk Monday evening will deal with the past administrations as well as the present one. He is not merely a critic but points out the accomplishments of public officials, and gives them the credit they deserve.

The meeting will be open to the public and anyone may secure reservations from P. E. Niehaus, secretary of the local Kiwanis club, any time up to and including Saturday of this week.

Jobs For Thousands Result of NRA Drive

Washington—Cross-section reports to NRA headquarters reveal the extent to which the Blue Eagle drive is actually putting men and women back to work. Incomplete reports from State and regional committees show that considerably more than 12,000,000 workers are now under NRA codes, apart from those of about 3,000,000 employers who are operating under the President's emergency unemployment agreement pending completion of codes for their respective industries.

One of the first complete reports was from Ashland, Ky., the home of Henry Clay, where 2,076 men and women were added to pay rolls. Typical results from widely scattered points, showing the fidelity of employers to the recovery program, are as follows:

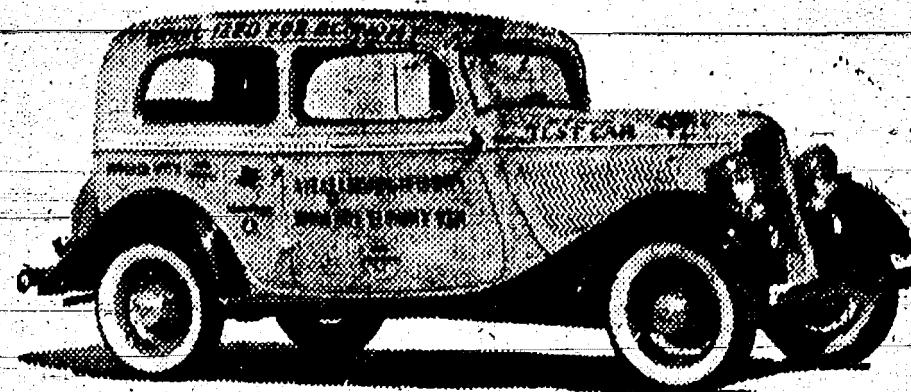

One hundred and twenty-three firms in Evansville, Ind., added 1,472 employees, with 700 more due to be taken on before October 1. Galveston, Tex., increased its weekly payroll \$13,500 by adding 636. Three thousand new jobs were created and filled immediately as a result of the drive in Fort Worth, Tex., and the city's weekly payroll increased by \$2,000,000. A chain of grocery stores in Brooklyn increased their employees 13 percent and their payroll 10 percent. Eight hundred and twenty-two persons were reemployed at Corpus Christi, Tex. In Harrisburg, Pa., 1,445 workers were reemployed with payroll increase of \$127,284.

The NRA committee in Indianapolis reported their check-up revealed 21,000 persons reemployed, of which 5,884 went back to work for eight large companies, with increase of \$113,891 to weekly payrolls. A Bartlesville, Okla., oil company added 3,000 men in their service stations in 30 states, "with more to follow soon." Warren, Ohio, added 1,331 employees, with payroll increase of \$109,000. Fort Dodge, Iowa, put on 456, with addition to payroll of \$398,000 per year. The payroll of Butler, Pa., was increased \$259,000 per month. Minneapolis, Norwich, Conn., and many cities and towns in scores of states made similar reports. Incomplete reports indicate that many thousands are being put back to work in Chicago, Cleveland, Los Angeles, Denver, and other large centers.

Nearly 6,000,000 workers will be affected by the completion of the retailers' code and hundreds of thousands of others by the codes of the coal, construction, boot and shoe, and other large industries, in addition to the codes of several hundred smaller industries still in process of formulation.

1933Make Plans for Wheat
Production Control

About 125 farmers at a meeting in the circuit court room, Ann Arbor, Friday night received final instructions before launching the wheat production control campaign for Washtenaw county. The purpose of the Act and methods of its administration were further explained by County Agent Oster, and cards for obtaining the wheat and crops census were distributed to different township and school district men who will make a survey of each school district of the county and obtain the names of the farmers who desire to cooperate in the movement.

When these names have been received in the extension office application-blanks will be sent to those desiring to cooperate and so signifying that desire on the census cards.

A large number of questions that were puzzling the farmers who are to make this survey were discussed and explained. The following are some of the pointed statements made by Mr. Oster in discussing the administration of the Wheat Adjustment Act.

1. The responsibility of the success or failure of the movement is entirely in the hands of the wheat growers.

2. The plan is purely voluntary. No one is compelled to do anything he does not want to do.

3. The federal administration has provided a method of procedure. The rules of the game have been explained at 30 county meetings. Opportunity has been given for asking questions regarding the national and world economies of wheat and how the Act is to be administered. The public press has rendered valuable service in publishing correct information about the Act. No plan will work if it is not tried.

4. The Agricultural Adjustment Act and the National Recovery Act are companion Acts. Both are a part of the national recovery program. Neither movement, alone, will ever pull the country out of the hole.

5. Inform your neighbor wheat farmers that if they will use as much energy in cooperating in administering the Act as some of them are apparently doing to evade its purpose, there will be no question of its success.

6. We have about one-half a wheat

crop this year. Prices have risen only 10 cents. How can you figure that a 15 percent reduction in acreage if every wheat farmer cooperates will bring \$1.25 wheat next year?

7. We are just as liable to have an average crop, or about the average, next year, as a poor crop two years in succession. Production under such a program is only a gamble.

8. Our export sales next year will be limited according to the recent agreement of the four big wheat exporting nations at the recent London Wheat conference. Where are we going to sell our carry-over or surplus?

9. As it is, a farmer may decide, with the best will in the world, to add to his wheat, corn or cotton acreage, and do so, but the point now is that he is not adding simply to his own acreage—he is adding to the wheat, corn or cotton acreage of the United States.

Following is a list of farmers in nearby townships who are taking the wheat census in the different township and school districts of the county. Farmers desiring to sign and receive the cash benefit payment for reducing his wheat acreage, should get in touch with his township or school district committeeman and give him the information for his census card.

MORENCI—The most spectacular fire that has been seen in Morenci for many years occurred yesterday afternoon when the three buildings of the American Brick & Tile Co., just west of the village, owned by B. A. Claypool, were completely destroyed, with a loss estimated at \$10,000.

The buildings burned were the engine room, the making room and the large steam drying sheds. These buildings were partly wood and partly brick. The drying shed was a large wooden structure with the brick drying ovens inside. Observer.

BROOKLYN—Twelve thoroughbred heifers, bought from Hughie Long's farm in Louisiana have been brought to the Neuhauser Poultry Farm at Napoleon. Passers by the farm note the fine young animals with approval and comment that they do not seem to have any of the noted King Fish's disposition. J. E. T. Nicks, resident farm manager also brings attention to the fine Jersey herd bull, and says that the farm has lately added the raising of pigs, making the fine 365 acre place a stock farm as well as a big poultry farm. Exponent.

STRANGULATION

Like an octopus, special taxes upon the motorist and the automobile industry have so enveloped us that they threaten to strangle the very life blood of Michigan's principal industry. The Automobile Club of Michigan is marshalling forces throughout the state to fight unfair automobile taxation. Despite fewer cars and less driving this year, motorists of Michigan will pay the greatest amount of taxes in their history. Even if driving does not increase, and if registrations continue at their present low figure, there will be another increase in 1934.

Keep Lambs Gaining
To Get Best Prices

Market-topping lambs are the ones that carry to market their original fat and that is most easily retained by animals which have been weaned and fed rations which will keep them continuously gaining, according to the animal husbandry department at Michigan State College.

Lambs weaned at 3 1/2 months and self fed oats on second growth alfalfa pasture gained rapidly enough to earn their owner, Charles Covell, M.D., the title of champion Michigan flockmaster. Barley is substituted for oats, by Mr. Covell, after the lambs have become accustomed to the grain.

The belief that lambs lose flesh when first weaned is not discredited by the experience of Michigan sheepmen who have provided good feed for the lambs at the weaning period. William Beaver, Harrisville, determined the gains in weight of a lot of weaned lambs running on alfalfa and getting a half pound per day of an oat and barley mixture. The 68 lambs gained an average of 5.8 lbs. in the week following weaning.

Lambs that were fed grain in creeps in the spring usually will feed readily in self feeders after weaning, but those not accustomed to grain feeding can be taught by leaving a eye with them until they become used to the grain ration.

Lambs should not be turned on alfalfa unless they have had a full feed before going on this pasture. Bloating is caused by hungry animals over eating.

Sudan Grass Safer
When Grain Is Fed

Grains, even in small amounts, fed daily to cattle will reduce the slight danger of poisoning from Sudan grass pasture, according to animal nutrition specialists at Michigan State College.

There have been reports of cattle poisoned by eating frosted Sudan grass but efforts made at the College to cause any injurious effects with the grass have failed. Cattle never before turned on this grass and permitted to eat their fill of frosted plants showed no ill effects.

The high value of the grass for pasture has earned it the recommendation of the College crops department and it has been widely planted in the State. College men who specialize in animal nutrition believe the danger from poisoning is very small but they recommend the feeding of grain to reduce the hazard.

Sudan grass is now somewhat in the position that alfalfa occupied when there was serious debate whether it could be safely used for pasture. Many cattle were killed by bloat when turned on alfalfa but it was found that the pasture was perfectly safe if they were full fed before being turned on alfalfa and then kept on this pasture continuously.

Michigan farmers need Sudan grass as a pasture plant and stories of poisoning should not be accepted as a reason for condemning the plant until its great merits have been compared with the small chance of its injuring any stock.

MASON—Nineteen test shafts have been drilled by the Reading Coal company of Detroit on the farms of E. F. Maclelland and A. C. Smith two miles of Mason in Alhiedon township within the past 10 days. County News.

A GOLDEN RULE
I sometimes put my thoughts in verse
And try to have them rhyme;
I'm really not expert at this,
For poetry's not my line.
But after all, if I can get
Attention in this way,
And rivet down a truth I find
That comes no other way.
I'll try and do the best I can—
Orthography may fail,
But truth, though on the scaffold now,
Will harbor with full sail.
All things whatever you would wish
That man should do to you,
Your prayerful best endeavor make
To do by others too.
If you dispense the vinegar,
The wormwood and the gall,
The seed you sow will be the crop
You'd gather in the Fall.
And brother, sister, jot this down—
Down in your heart to stay:
Just as thy day, thy strength shall be
We hear the Master say.
—Arthur Carlton, M. E. Home.

Question And Answer Dept.

Ques.—Quite often I have scraps of fish left over from a meal, and would appreciate being informed by you just how I can use them?
Ans.—We are not chefs, but we might suggest that you put the scraps in a shallow dish, take them outside and then begin calling: "Kitty, kitty, kitty!"

Ques.—What do the letters "NIRA" on the emblem now being used by merchants and manufacturers, stand for?
Ans.—These are the initials of the world's "National Industrial Recovery Act."

Ques.—I am told that a rattlesnake has no teeth. If that is a fact, how can they bite?
Ans.—It is true that a rattlesnake has no teeth. But the rattler has a sharp fang located inside the mouth and on the upper jaw. When their heads are raised to a vertical position, it brings the fangs to a horizontal position. It is then that they strike, which is commonly, but erroneously, called "bite." A rattlesnake is harmless until it prepares for the "strike," by coiling, unless, however, you are within two or three inches of the reptile. In that event it can strike without coiling.

Ques.—I wish to ask in your question column if the Boston Tea Party (when the Patriots dumped a cargo of tea in the ocean) occurred after or before the Declaration of Independence?
Ans.—This so-called Boston Tea Party was held on the night of Dec. 16, 1773, nearly two and one-half years before the Declaration of Independence.

Ques.—What is the most expensive perfume, and what is it made of?
Ans.—Attar, commonly known as Attar of Roses. This is a rare perfume obtained by distilling the petals of several species of roses. It is produced chiefly in India, Bulgaria, Persia and Turkey. About 40,000 roses are required to yield one ounce of Attar, which is so fragrant that the use of one drop is often sufficient to make a gallon of good cologne.

Ques.—How many hairs are there on the human head?
Ans.—This varies with the different races of people, as also the color of the hair. Black hair will average about 40,000, light brown and auburn (red) about 50,000, while golden hair will average 60,000 to 65,000.

Ques.—What makes the sound in a sea-shell like the roar of a distant sea?
Ans.—The smooth walls of the inside of the shell cause a great many small echoes. When you hold the shell to your ears, sounds from the street, room and everywhere get into it through the crack between the shell and your ear. These echo around inside and make a sort of a rumble or hissing.

Ques.—How far away is the nearest fixed star which we can see? Also does it have a name?
Ans.—The nearest fixed star is named Alpha. It is twenty-six trillion miles away from the earth—about 300,000 times farther away than the earth is from the sun.

Ques.—Where will the next big World's Fair be held—that is, will it be in this country or in a foreign country?
Ans.—Any city in any country may decide to stage an exposition at any time, inviting the nations of the world to participate, and such an exposition would be popularly known as a "World's Fair." There is no established institution of World's Fairs. Chicago staged it this year because of its 100th anniversary and named it the "Century of Progress."

Ques.—Will you please tell me what religious denomination predominates in the Holy Land? Are they Jews or Christians?
Ans.—The Moslems predominate in Palestine, with approximately 750,000; the Jews are second, with about 175,000; and the Christians are third with about 8,000.

Ques.—If you can answer all questions, we would like for you to tell us why a chimney smokes?
Ans.—We presume it's because it can't chew!

OUR NEIGHBORS

MANCHESTER.—Mat D. Blosser, editor of the Manchester Enterprise for 67 years, celebrated his 87th birthday on Sunday. The first copy of the paper was printed on a Washington hand press.—Enterprise.

HOWELL.—Monday, about 11:30, the fire department was called to help put out a brush fire on Oakwood subdivision north of Thompson's Lake. The firemen found the fire surrounding the club house with the flames already approaching the porch. The fire company drafted four extra men and cottagers and neighbors to the number of 25 or 30 helped fight the flames. During the four hours fight the chemical tanks were emptied ten or twelve times. The engine came in to the nearest hydrant to reload twice. That was quicker than to carry water in pails from the lake. When the fire was finally brought under control about four o'clock it was estimated that from 500 to 1,000 acres had been burned over. Fortunately, no buildings were destroyed.—Republican-Press.

"Proud and glad to do our part"

WITH President Roosevelt's acceptance of the NRA Automobile Code, Chevrolet, the world's largest builder of motor cars, officially begins operations in accordance with the administration's recovery program.

Although the official code was signed only a few days ago, it will be of interest to Chevrolet's many friends to learn that the Chevrolet Motor Company started to carry out the spirit of today's recovery program over three years ago!

At that time, we put into operation a "share-the-work" plan, whereby our workmen cooperated in spreading the work to give more men jobs. By means of this plan, as well as by regulating hours of work per week to meet retail demand, and by building up parts stocks in lean seasons, it was possible to carry 33,000 men on our payroll through the depression. For eleven months of each year since 1929, we have kept our employment within 10 per cent of this average. We are justly proud of that record. We are also proud to say that Chevrolet workmen did not, at any time during the depression, become a burden on public welfare departments.

On August 1st of this year, Chevrolet announced a blanket wage increase as well as the adoption of a 7½-hour, 5-day week and the employment of 12,000 additional men. This wage increase was the second in the last 4 months, Chevrolet having been among the first to put a blanket wage increase into effect.

We feel that the President's recovery program deserves the whole-hearted support of every citizen and manufacturer in America. It is a bold, swift, courageous plan to start the ball rolling toward economic recovery. Its sincerity is unquestioned. Its objectives are admirable. And the direct, forceful steps the President and his associates are taking to make it a success, should stir the pride and admiration of every American.

We are proud and glad to do our part. And we are deeply grateful to the American people for the patronage that has enabled us to anticipate the present recovery program and to play our part today. After all, the immense number of men employed by Chevrolet is a direct result of the continued preference America has shown for Chevrolet.

Farmers Exchange Your Wheat For Flour

Under the terms of the new law assessing a processing tax of 30c per bu. on each bu. of wheat ground, a farmer producing his own wheat is exempt from this tax on flour made from wheat of the SAME TYPE RAISED.

Where all soft wheat flour is taken in exchange for soft wheat there is no tax whatever.

Where a hard wheat flour or a blended flour is taken in exchange there is an exemption on the amount of soft wheat flour in the blend.

Exemption from this tax can only be obtained AT A MILL. At no other place can you obtain your exemption.

We are exchanging flour for wheat on the following schedule. Where hard wheat is used in the blend we absorb the tax in the amount of flour given in exchange.

ACME FLOUR—For finest bread baking—26 lbs. per bu. of wheat.

PIONEERS FLOUR—The best all purpose flour—28 lbs. per bu. of wheat.

PHOENIX FLOUR—The best for pastry baking—32 lbs. per bu. of wheat.

SYNOPSIS

CHAPTER I.—With his yacht, the Intruder, practically abandoned by its crew, Eric, a lone, unassuming, quiet man, with his mother, his daughter, and his young son, sailed into the Bay of Alaska, to search for the missing ship. He was a man of many talents, a man of many secrets, a man of many sorrows.

CHAPTER II.—Eric is seeking out the Intruder, a ship of which he has heard much. He is a man of many talents, a man of many secrets, a man of many sorrows. He is a man of many talents, a man of many secrets, a man of many sorrows.

CHAPTER III.—The Intruder is discovered. Eric is a man of many talents, a man of many secrets, a man of many sorrows. He is a man of many talents, a man of many secrets, a man of many sorrows.

CHAPTER IV.—Eric is a man of many talents, a man of many secrets, a man of many sorrows. He is a man of many talents, a man of many secrets, a man of many sorrows.

Early "News" Conveyors
Among the ancients, according to H. Samuel 1810 and Bether 8:10, news was conveyed by runners or by mounted posts. The earliest mention of carrier pigeons is in the "Metamorphoses" of Ovid, where a pigeon, stained purple, is represented as bringing notice of the victory of Theseus in the Olympic games.

Soybean Japanese Food
The Japanese seldom partake of a single meal without consuming the soybean in one form or another. In Manchuria, the great soybean-granary of the world, the seed in its various forms constitutes a staple article of food in the diet of the millions of inhabitants of that great country.

NOTICE OF MORTGAGE SALE

Default having been made, for more than thirty days, in the terms and conditions of a mortgage made by Grace M. Gibson, of Ann Arbor, Michigan, party of the first part, to Mabel A. Stoll, of Ann Arbor, Michigan, party of the second part, mortgage, dated June 1, 1932, and recorded June 1, 1932, in the Office of the Register of Deeds for Washtenaw County, Michigan, in Liber 105 of Mortgages on page 548, and,

Whereas, said mortgage provides among other things, that in the event of default being made in the payment of the interest or principal, or any part thereof, on any day whereon the same was made payable as provided for in said mortgage, and should the same remain unpaid and in arrears for the space of thirty days, that then and from thenceforth after the lapse of said thirty days that the said principal sum remaining unpaid with all accrued interest thereon shall be due at the option of the mortgagee, become due and payable immediately thereafter, and, whereas, the mortgagee has elected to declare and does hereby declare the balance due upon said mortgage, both principal and interest, immediately due and payable, and, whereas, on which mortgage there is claimed to be due and payable at the time of this notice, the sum of (\$3,450.63) Three Thousand Four Hundred Fifty Nine and 63/100 Dollars for principal and interest, and a further sum of (\$105.46) One Hundred Five and 46/100 Dollars for taxes, making a total amount due on said mortgage of Three Thousand Five Hundred Fifty Five and 109/100 (\$3,660.09) Dollars; together with an attorney fee of thirty-five (\$35.00) Dollars, as provided for in said mortgage, and no suit or proceedings at law having been instituted to recover the money secured by said mortgage, or any part thereof,

Now, therefore, by virtue of the power of sale contained in said mortgage, and the statute in such case made and provided, notice is hereby given that on the Saturday, the 28th day of October, A. D. 1933, at 10 o'clock in the forenoon, Eastern Standard Time, said mortgage will be foreclosed by a sale at public auction to the highest bidder, at the southerly or Huron Street door of entrance to the Court House in the City of Ann Arbor, Michigan, (that being the place where the Circuit Court for Washtenaw County is held) the premises described in said mortgage, or so much thereof as may be necessary to pay the amount due on said mortgage, with interest at the rate of six per cent per annum, taxes, and all legal costs incident to these proceedings, together with an attorney fee of thirty-five dollars as provided therein, the said premises being described in said mortgage as follows:

The land and property situate and being in the City of Ann Arbor, Washtenaw County, Michigan, and more particularly described as the east 36.18 feet of lots Eighty and Eighty-One of White's Addition to the City of Ann Arbor, according to the recorded plat thereof.

Countless Hidden Mysteries

Some people are inclined to think that in this scientific age we have discovered everything worth discovering, whereas the reverse is true; there is no end to the hidden mysteries of Nature.

Invention of Toothbrush

Grew Out of Famous Riot

The invention of the toothbrush grew out of the famous Gordon riots of 1780, according to the International Nickel Company Bulletin.

William Addis, the inventor, who was being sought as an alleged participant in the riots, hid in the home of a leather tanner, where he amused himself by carving bone, at that time a fashionable art.

The cleaning of teeth was then a crude operation, the process being carried out by a single twig which was shaped like a chisel, and rubbed over the teeth with an upward-down motion. This method is used even now in Mohammedan countries where nimosa or quasha twigs are habitually employed for this purpose.

Addis wanted something better, so he bored a hole in a piece of bone, cut some hairs from the tail of the nearest cow hide, thrust these into the holes, and thus became the maker of the first toothbrush.

Toothbrush handles are generally made from celluloid, the article says, and some 20 operations are required to produce the modern product. The bristles are mainly obtained from Siberian pigs, the most valuable type of bristle being obtained from wild pigs, whose hair is both long and stiff.

Oldest of British Yews

Holds Record in Europe

The oldest of all British yews must surely be the honary relic that still flourishes in a much attenuated form at Fortingly, in Perthshire, Pennant, writing in 1772, stated its girth to be 56 feet, and Dr. Canadale, writing in the early part of last century, pronounced it to be the "oldest authentic specimen of vegetation in Europe," and estimated its age at from twenty-five to thirty centuries. This tree has gotten beyond the stage of mere hollowiness, and most of the outside shell has disappeared, only two portions of it, at about opposite sides of the tree, remaining. These are now so far apart as to look like separate trees, with strange flattened trunks, the inner portions of which have no bark. These remains grow quite vigorously, and as the tree is scheduled as a national monument, it may exist for further centuries. London Times

McIntee School Notes

Monday, Sept. 11 our school opened with nine pupils, two of which are in the second grade, two in the third, two in the fourth, two in the sixth and one in the seventh. Mrs. Veva Kalmbach is the teacher.

When we came to school we found the school board had added new benches to the windows, had repaired the stove and had had the school house well cleaned and the lawn mowed.

On our first day of school we organized a civics health club and the following officers were elected: President, Mary Ulrich; vice-president, Luella Beeman; secretary and treasurer, Duane Rowe. We decided to make this our biggest and best year even if we are few in numbers.

The McIntee school joined the Safety Patrol sponsored by the American Automobile Association of Detroit, Mich. We earned a banner from it last year.

Our school voted to join the Junior Red Cross, Monday.

Monday we were delighted to receive through the Junior Red Cross a book of hand work from the Bakuro school, Takasaka City, Japan. Fine paintings and a Japanese teaspoon were included. This was sent to us in exchange for our book which was mailed about two years ago. We were also fortunate enough to receive a smaller book from Natick, Victoria, Australia about four years ago. Both books will be on exhibit at the McIntee school.

India's Insect Soldiers
Fight With Their Noses
New species of insect soldiers from India that fight with their "noses" have been described from the collections of the Smithsonian Institution by a termitologist of the bureau of entomology.

Most of the termite families produce a special soldier class, the members of which differ radically in structure from their nest mates and have no other function except fighting.

In some of the species found by Dr. Snyder these fighters have a protrusion on the front of the head which looks like a long nose but which actually is developed from a primitive third eye and from which a sticky acid is exuded. In rare instances it may be thrown for a short distance an inch or less.

These soldiers, belonging to the highly specialized genus of Nasutitermes, fight battles to the death with warlike ants which invade their nests and which, although the appearance is very similar, are not even remotely related to them.

In these battles the termite soldier runs with his nose-like organ the so-called "proboscis" of the ant, the narrowest part of its body, smothering it with the liquid. The ant is rendered helpless.

This liquid is a powerful acid, but is not the well known formic acid exuded by ants. It is possessed, in a modified form, only by the soldier caste.

All Exhibitions Do Not
Receive Noisy Cheering
Crowds do not loudly cheer a fine exhibition of intellectual power, but that may be merely because those who can appreciate intellectual power are not vocally demonstrative, observed a columnist in the St. Louis Globe-Democrat.

The gratification of the perceptive and reasoning faculties is an inner emotion. If we can call it "emotion." The studious and thoughtful mind works silently. When moved, it more often expresses itself with the pen, and finds no outlet in loud shouts. Excitement it may have, but repressed.

There is a cleft between the higher thoughts that stimulate and the roaring ones that agitate the feelings. We yell when our hearts are stirred and make no demonstration when a conviction of spiritual force is conveyed to the brain. One must not think that because there are no whoops by the "assuage" it is certain that the individual members who completely comprehend are rarer.
