### Annual Meeting Held By Tower Creamery Co.

At the first annual meeting of The Tower Creamery Co., held Tuesday night in the offices of the company, Chas. W. MacKinnon of Chelsea, Louis Alther of Sharon, Gail Clements of Mackinac, L. P. Vogel of Chelsea and W. J. Corbin of Dundee were elected to serve as the board of directors of the company.

Following the election of directors officers were named as follows: President—Chas. W. MacKinnon. Vice-Pres.—Louis Alther. Secretary—Gail Clements. Treasurer—L. P. Vogel.

Mr. MacKinnon reported to the stockholders present that affairs of the company are progressing very nicely and that the daily receipts of milk now totals about 20,000-pounds. They have 196 milk patrons and 120 cream patrons with new accounts coming in almost daily.

Although the market conditions at the present time are rather unsettled the company has found ready sale for their products, according to Mr. MacKinnon. Products which are shipped include sweet cream, condensed milk, butter and cottage cheese. The company enjoys a ready market because of the superior products which they manufacture.

The company opened for business on July 31 of this year.

### Industry Advised To Offer Good Goods With Fair Prices

Washington— "Economic recovery has not just started, but is well under way," National Recovery Administration Hugh S. Johnson informed leading manufacturers and advertisers in urging their cooperation in the national "Now is the Time to Buy" campaign which got under way October 9. Data gathered from employment records, production figures, and payroll totals showing a definite and sustained upward trend are given as convincing evidence that now actually is "the time to buy."

General Johnson stated that there has been a well-defined tendency on the part of a great many people to do without things, even in cases where they could afford to buy. The habit of expecting no change in conditions, so long continued, has grown on the public in practically every section. He supports his suggestion with strong evidence of a new era of economic security. In citing "a few characteristic items, he calls attention to the fact that factory employment is up 24 percent, industrial production 71 percent, business failures have decreased 47 percent, farm prices up 33 percent. Payrolls increased 40 percent in August, employments—22 percent. Steel, the great basic industry whose production is one of the surest business barometers, showed output 245 percent higher in August 1933 than August 1932.

"In view of these developments," said General Johnson, "we believe the opportune moment is at hand for American industry to bend every effort toward increased sales. To do that we believe two courses are essential: Give the public attractive, durable, up-to-date merchandise, fairly priced, and aggressively promote your products to the public. American industry must help the public to find the goods it needs. The American public looks to advertising for news of good merchandise and good values. Millions have been restored to payrolls and this huge new purchasing power creates new demands. Restoration of confidence should be quickened by showing the consumer that he can save money by buying now."

There has been formulated a plan of advertising dealing with specific key commodities. Portfolios containing factual informative messages to the public, prepared by advertising experts who donated their services to the NRA, have been distributed to manufacturers and advertisers.

### Local Business Men Buck National Drive

That local business men are backing the National Recovery Drive which features "Now is the Time to Buy" campaign is evidenced by the advertisements carried in this issue of The Standard.

Many of the local merchants are offering special values as an inducement for the public to purchase their fall and winter needs now and at the same time aid the National Administration in their efforts to bring national business improvement.

Increased purchasing of merchandise means added employment and added employment further increases purchasing power, so if the entire nation backs the Administration's efforts to the best of their ability, a real benefit for everyone will ultimately be the result.

Due to the increased cost of production resulting from the shorter hours and increased wage scales under NRA, prices have steadily increased during the past few months. Further increase in prices will no doubt take place during the winter months, thus the slogan "Buy Now and Save" has a real meaning at this time.

Read the advertisements in this issue which offer quality merchandise at fair prices and spend to the full extent of your ability!

### Board of Supervisors Hold Annual Meeting

The Washtenaw County Board of Supervisors convened this week at County building for the annual October meeting.

Welfare relief problems were discussed and the matter of using a portion of the weight tax money for work relief was referred to the road committee, who will give a report later.

The question of giving aid to people in the county who are residents of other counties, also will be given further consideration.

Yearly reports given by the various county officers were referred to a committee for inspection. The estimated budget of salaries for the road commission was referred to the finance committee.

Tribute was paid to Dr. E. C. Ganzhorn, county physician, for his aid in the reduction of hospital expenses during the year.

On Friday of this week, the board of supervisors will make a tour of the county roads, arriving in Chelsea for dinner, which will be served by the Priscilla Alden Chapter of the Congregational church.

### Railroad Jack Found Dead at Coldwater

Harry Cooper, better known as "Railroad Jack" was found dead Friday morning at the rear of an oil station on US-12 near Coldwater. His death is believed to have been caused by heart trouble.

Born near Oshkosh, Wis., 60 years ago, he graduated from Oshkosh high school, and attended Rush Medical College in Chicago. In 1898 he began his career as a history expert, possessing a wonderful memory for dates and events.

With his red vehicle with white lettering he had visited nearly every city and hamlet in the state, addressing numerous gatherings, and had appeared before University, grade and high school classes. On his occasional visits to Chelsea he was always welcomed as a speaker at the public and parochial schools.

Two years ago he decided to make Ann Arbor his home, and was returning to that city from Chicago when he died.

Carrying out a wish revealed by his friends that Rev. Thomas R. Carey, pastor of St. Thomas church might "take care of him" after he was gone, the priest was notified and the body was brought to the Staffan funeral home, Ann Arbor. Father Carey, an old time friend of Railroad Jack, made arrangements for burial in the new section of St. Thomas cemetery at his own expense. The burial took place at 2:30 Tuesday afternoon.

### CELEBRATE 45th ANNIVERSARY

Prudden and wife of Rosalia, Ohio. Autumn flowers decorated the table which was covered with a large wedding cake. Covers were laid for ten, the guests including Mr. and Mrs. Prudden and son Jack of Fostoria, J. Austin Palmer of Detroit and Miss Nell Gibson of Esberry, Mo.

## 24 YEARS AGO

Thursday, October 14, 1909

Meddies R. B. Waltrous and G. W. Palmer are in Saginaw this week attending the Grand Chapter of the O. E. S.

The farmers who raised sugar beets in this vicinity have commenced loading them at the Michigan Central station for shipment to the factories. F. C. Mapes has purchased the laundry business of Mr. Hague in Stockbridge and will continue it with the Chelsea Steam Laundry and the work of both establishments will be done here.

Dr. and Mrs. W. J. Stapish of Anderson, Ind., who have been spending some time at the home of Mrs. Clara Stapish, left Wednesday for Spokane, Wash., where they will make their future home.

Peter Kalmbach, who has been a resident of Sylvan since 1880, died at his home on Wednesday evening, October 13, 1909.

A number of Scotch lace makers were in Chelsea on Friday, but

some of the members of the gang were wanted in Jackson for selling their goods on misrepresentations, they did not succeed in working their scheme here to any great extent. Marshall Hepburn rounded up the party for the Jackson officers, who came here for them.

The first snow storm of the season reached this vicinity during the night of October 11. On Tuesday morning in many sections of the state enough snow had fallen to make sleighing. In Lyndon and at North Lake, from one-half to one inch of snow is reported, but so far as Chelsea was concerned, there were no visible signs of a snowfall.

John G. Adron has opened a meat market in the McKune building on East Middle street.

## 34 YEARS AGO

Thursday, October 12, 1899

The township of Sylvan, Lima, Lyndon and Sharon will hold a Sunday school convention in the Congregational church on Sunday afternoon.

Tracey L. Towner, secretary of the superintendents of the poor, has just completed his annual report to the board of supervisors of Washtenaw County. Care of tramps and other outsiders cost the taxpayers \$1,020.17. Total number of inmates of the county house, 76, with an average of 42 all the time.

Mrs. Nancy Fish died at the home of her son, Charles Fish of Sharon, Thursday, October 5, 1899.

Rev. Keelberg, pastor of St. Paul's Evangelical church has moved to this place from Dexter.

B. B. Turnbull of this place was elected vice president of the class of '01 of the Detroit College of Law, Monday evening.

It costs a pretty penny to run a first-class football team. Manager Baird estimates that it cost \$5,000 a month, or \$166.66 per day to run the University of Michigan's squad last year.

Married, on Wednesday, October 11, Miss Carrie McClaik of Ingham and R. J. Howlett of Chelsea. Miss McClaik was preceptress of the Chelsea high school for a number of years.

Jacob Lukic of Lima received a broken collar bone on Sunday when he was thrown from his carriage when his horse shied.

Married, at the residence of the bride's parents, Mr. and Mrs. James Rowe, on Wednesday evening, October 11, 1899, Miss Mattie Rowe to John O'Donnell of Jackson.

Michigan  
Department of State

WEEKLY NEWS BULLETIN

Frank D. Fitzgerald  
Secretary of State

Lansing, Mich., Oct. 11.—The steady decrease in the number of automobiles in use in Michigan since 1929, bears out the contention of Secretary of State Frank D. Fitzgerald that the cost of license plates should be reduced drastically.

On Oct. 1, 1933 there were 67,807 fewer cars and trucks on Michigan highways than in 1932 and 269,326 less than in 1929. Many of these cars are not being operated because the owners are unable to purchase license plates. This is shown by the half-price permits which allowed 1932 plates to be used until Aug. 1. Of the 415,496 motorists who purchased half-price permits, only 343,140, as near as can be ascertained, have been able to purchase 1933 plates.

Revenue from the sale of plates also is decreasing. For the first 10 months of 1933, automobile license revenues amounted to \$17,369,262. This is a decrease of \$1,282,896 for the same period last year and \$4,077,119 less than for the first 10 months of 1932.

The financial responsibility law, which becomes effective next Tuesday, should be studied carefully by every motorist. The act, besides providing that motorists involved in accidents be able to pay damages, also makes it compulsory upon the Department of State to suspend all licenses and registrations upon conviction of any of the six major offenses in the motor vehicle operators' license law.

Even though an automobile owner has satisfied the financial requirements of the act, he might still be prohibited from driving because of the mandatory revocation of his license.

Few persons have any accurate idea of the number of different makes of automobiles and trucks that have been manufactured since the automobile was invented. The average guess is 125. Files of the Department of State contain the names of 870 different varieties of automobiles and trucks. These files constitute a permanent record of every motor vehicle licensed to operate in Michigan.

On October 27, 31 of the 270 laws passed by the 1933 legislature will become effective. The remainder became effective as soon as signed by the governor.

MASON—Welfare labor may be given employment on the Portage river drain, one of the largest drainage projects in this section of the state. The Portage river drain extends into Bunkerhill and Stockbridge townships in Ingham county. The drainage area also includes Jackson and Washtenaw counties. —County News.

PLYMOUTH—If increased payrolls and addition of night shifts mean an increase in business Plymouth merchants have much to look forward to in the next few months. Orders pouring into the Daisy Manufacturing plant necessitated the addition of a night shift and Daisy officials are busy figuring how to accommodate the many workers that are now employed. The present employment record again brings the number of employees to the peak of Daisy production during the last 30 years.—Mail.

## OUR NEIGHBORS

PARMA—Parma's only licensed beer retailing establishment burns to the ground and the next day the village treasurer receives a voucher for the town's share of the beer license fee. That's a coincidence occurring here last week. Exposure of a gasoline stove Friday morning set fire to the cafe owned by Dan Schaffer. With the ruins still smoking the State Liquor Control Commission sent Treasurer Helen Bailey a check for \$47.50, which represents 95 per cent of the fee paid by Mr. Schaffer to handle beer here. No other local place has been licensed to handle liquor in Parma.—News.

HOWELL—According to information received here Saturday, the Federal Emergency Relief Association co-operating with the Agricultural Adjustment Administration has apportioned 500 pounds of pork to Livingston County. This amount is based upon relief demands for the months of April, May and June. This pork is salt cured, cut in three to six pound pieces, wrapped and packed in 100 pound crates.—Republican-Press.

TECUMSEH—St. Peter's Episcopal church, the oldest Episcopal church west of the Allegheny mountains, will celebrate its centennial beginning Sunday, concluding the celebration with a community banquet at the Tecumseh high school gymnasium Tuesday evening. Dozens of dignitaries of the church, including the Right Rev. Herman Page, D. D., bishop of Michigan, and former rectors of the church, will take part in the services.—Herald.

WAYNE—While tobacco growers throughout the country are generally complaining about sparse crops this year, what is described as a bumper crop has just been harvested at Eloise. It has the distinction of not only being a bumper crop, but also of being the first tobacco ever grown in Michigan on a large scale. Planting of the tobacco was undertaken distinctly as an experiment this summer. The excellent crop that has resulted is taken as proof that the Michigan soil and climate is ideal for the tobacco plant. John Miller, head gardener, has reported that the yield has been about 1,000 pounds per acre, or 10,000 pounds for the entire planting. The total cost, which includes an initial outlay of \$600 for equipment that will last for years, came to less than \$900. This same amount of tobacco, but of a greatly inferior grade, would cost \$3,200 on the market.—County Review.

Question And Answer Dept.

Ques.—What should I take for a cold?  
Ans.—A dollar would be fine. In fact, we would be glad to give it away.  
Ques.—A friend of mine called me "Mrs. Malaprop." I was too proud to ask her what she meant. I wonder if you can tell me?  
Ans.—Probably you were making blunders in the use of words. "Mrs. Malaprop" was a character in Sheridan's "The Rivals," noted for her continued blundering in the mis-use of words.  
Ques.—I wish to ask in your question department what causes heat lightning frequently seen in the summer time. Also why is there no thunder following it, as is the case with other lightning?  
Ans.—So-called "heat lightning" is produced by the upper strata of clouds reflecting some distant lightning. The distant lightning is too far away to be heard, and the "heat lightning" you see near the horizon usually at twilight is only reflection, like a mirror reflecting light. Thunder, you will understand, cannot be reflected.  
Ques.—Is the original copy of the Declaration of Independence kept in the Library of Congress? Can it be seen there by the public?  
Ans.—The original copy is not in the Library of Congress. Nobody knows what became of it. It seems to have "disappeared" mysteriously, and historians have searched for it in vain. It is thought the printer destroyed it after setting the type and the proofs were corrected by the committee. If it should ever be found, no doubt it would be one of the most priceless manuscripts in the world.  
Ques.—In sketches over the radio in which there are several characters, are these characters all taken by different people?  
Ans.—Not always. In some cases the various parts are taken by one person who so successfully changes his voice as to make it sound like several persons were in the sketch. Phil Cook is classed as the greatest change-of-voice artist in the world. If he had a cold, he could take the various parts in a way that indicated all the characters had a cold—and do it perfectly.  
Ques.—May I ask you when was money first used?  
Ans.—Money, as we know it, originated about 800 B. C. Money, you may remember, is only a medium of exchange or barter. The different commodities had to have a standard of value. Hence gold and silver answered all the requirements, and gradually traders began quoting their prices in amounts of these metals as well as copper and bronze—and sometimes iron. Weighing became a nuisance, and authorities placed their official stamp upon the metals as a guarantee that they were worth a certain amount. Hence we got coin (money), as money or a medium of exchange.  
Ques.—When did paper-making first begin in this country?  
Ans.—The first paper mill of record that was built in this country was established at Germantown, Pa., in 1690.  
Ques.—Will you please answer in your good paper if there is any school in the United States where girls get military training?  
Ans.—Military training for girls is made compulsory at the Ogontz School for Girls near Philadelphia. There are a few other schools where this feature is optional, but not put in practice.

**Native Lambs Best In State Feed Lots**  
Native Michigan medium wool lambs proved to be as good winter feeding lots as western lambs in trials carried on through four years by the animal husbandry department at Michigan State College.  
Native, fine wool lambs did not feed as well as the native, medium wool lamb or the western lamb. A lower first cost for the Michigan stock made it more profitable for feeding than the animals brought from western ranges. The slower gains made by the fine wool lambs is sometimes more than compensated by the value of their fleece if they are clipped before marketing.  
Feeders who are willing to treat the flock for parasites and who can market their lambs in small lots as they reach a marketable finish probably can make more profit from feeding native lambs than from western.  
The addition of silage to ration of shelled corn and alfalfa hay reduced the cost per hundredweight of gain in the College trials. Adding linseed cake to the corn, hay, silage ration, increased the rate of gains made by the lambs and gave them a higher finish. The appetite of the animals fed linseed cake was better than those not getting it. Forty-two pounds of linseed cake replaced 55 pounds corn, 11 pounds silage, and 51 pounds of hay in each 100 pounds of gain.  
Feeding oats was much more satisfactory when a protein supplement was added. Twenty-five pounds of linseed cake saved 70 pounds of oats, 22 pounds of corn, silage, and 34

pounds of hay for every 100 pounds of gain when the grain mixture was 14 parts oats to one part linseed cake.

## Chelsea Eleven Are Victorious Again

Once again Chelsea High came out on top of the battle, this time it being with St. John's of Jackson. The final score of the game was Chelsea 20, St. John's 6. Chelsea opened up at the beginning of the game and scored the first touchdown in the first few minutes of play. St. John's appeared to be completely bullied by the running and aerial attack used by Chelsea High. Chelsea's passes were working and a great deal of territory was gained as the result.

Chelsea outplayed St. John's in almost every angle of play. The first touchdown was made by Harold West on an off-tackle play. Meanwhile, the ball was advanced to this valuable position by a pass from Novoss to Wal-face. The second touchdown for Chelsea was made by Nick Panaritis on a reverse lateral on the left side of the line. The last touchdown was made in the last few seconds of play by Harold West when he intercepted a pass on St. John's 13 yard line. Capt. Novoss did some excellent passing in the game, and the other players made it possible to gain ground and points by their fine cooperation and team work. There was some of the best blocking in this game that I have seen Chelsea High do in a long time.

## Can You Take It?

Well, well, students, how do you like to see your name in the second item? And how are you going to take it? Or can't you take it?

Here are some suggestions for reading this razz edition. First, well take a person when he sees his friend's name in the paper. He laughs and laughs.

"Boy, that's good. Wait 'til Bill sees that. Serves him right though. He always thinks he's just it." And so through each item until he comes to the last joke where he sees his own name. Then the scene changes. "Well, who wrote that? Wait until I find out who put that in. Ill do 'em."

Now, dear children who have been razzed, possibly you think that is the best re-taction to this column—to laugh at your friend's predicament, but snik when your own name appears. However, this might interest you—your name wouldn't have appeared if the staff hadn't believed that you were a good sport and could "take it with a grin."

## Ladnacs

What's this I hear about bicycle riding Thursday night? I think it was a big success. At least I gather that by the way the riders looked Friday morning.

We wonder why Duane Winans is not seen on West Middle street any more?

Who were the two good looking fellows who came from North Lake Friday to take three Junior girls home?

Quite a few of the Chelsea High students attended the football game at Milan. Especially prominent was an innocent Junior boy, so-called flake, who was seen there with a blond or Junior girl.

Pete Allhouse has been going to Ann Arbor lately. I wonder what the attraction is. Eldine Hawley, one of our post graduate boys, has either fallen or is falling for a jolly Senior girl. Now children, please cut your age. Our friend "Happy" attention is drawn to Madison street now. Where will it be next? Boys, you better get busy.

As I glanced around the football game I saw one of our brunette Junior girls standing beside a tall dark boy, who, calm in a green Chevrolet and is quite a stranger here.

Mildred N. has required some boy's ring after the week-end. Now I wonder where it could be?

## The Humor Box

There will be a box placed in the Library into which we would like to have placed the "alips" that the teachers or the students make. So, every time you hear something funny write it on a slip of paper, sign your name to it and place it in the humor box. Who knows, it may appear in the school column of the Chelsea Standard.

## Tiny Colleges

**Kindergarten**  
The small children are carrying on a farm project. In their sand table, a small farm, constructed of the sand and large floor blocks, has been built by the little folks. They are happy over the fact that they have now balls and modeling clay, and have had a fine attendance in school.

**First Grade**  
Barbara Eaton brought two goldfish to school. Last Monday was Doll Day for the girls. There were large dolls and small dolls, each with a clean face, combed hair, and a pretty little dress on.

They have a new supply of alphabet cards now, which seems to be a great attraction, and receive much attention. Mrs. Dancy has received many beautiful roses (red, yellow and white) from her little pupil friends.

Also the little first grade folks had a "Pet Day." A gun and kitten were the most outstanding pets.

**Third Grade**  
The third grade are making a wig-wag about. They are making it out of sugar sacks, which they pretend are buffalo skins. Dickie Kern and Bob Stricker cut the poles for it.

For the costume, barly sacks are used. They are made by the girls. They also are putting feathers in the headresses. Each person has chosen an Indian name. Miss Yager's name is Nokomis. Next week they are to decide into tribes.

**Fourth Grade**  
In History we have been studying Greek heroes. We dramatized the story of Alexander the Great, and Procopius his horse.

We have the real picture of the tomb of Alexander the Great, brought from across the sea.

A new pupil, Chris Joseph from Ohio, has entered the class.

They are studying Columbus and his voyages. Also, they study the ships and songs of that time.

The fifth grade find it very interesting to write stories from pictures.

## Fad In - Fad Out

Let's see what we can see as we glance around the school. "Jumpers" still play an important part in the girls' wardrobe.

Hair ribbons seem to have gone out—wonder what's the matter?

Oh yes, sport shoes of all colors can be seen flying around the Campus at Chelsea.

Swagger suits seem to be quite the fad by the way it looks. White, gray and blue seem to be the colors.

The summer anklets which have been worn seem to be fading away.

Sweaters and skirts apparently are quite the rage at the present. A certain girl is right in style—better hurry and get yours!

Everyone seems to have acquired a natural curl for her hair during the summer vacation. Well, that helps the beauty parlor trade.

## A Strange Animal

Jimmie had a habit of stretching his imagination when telling anything. And, after his mother had talked to him about it several times, he began to watch her when he had something to tell. One evening a friend from the city came and during the conversation inquired of Jimmie:

"And have you a dog—my little man?"

"Oh yes, I gotta dog," replied Jimmie. "I gotta big dog. I guess I got about the biggest dog in this town."

"That's good," said the visitor. "I like big dogs."

"Well, I guess mine's big enough," replied Jimmie. "He's nine feet tall—an 'an' he's six feet wide—an' an' (thor) Jimmie caught his mother's eye) an' he's four inches long."

Signed—"Hot Dog"

## The Tables Turn On The Faculty

Last Thursday evening the tables turned on our faculty when as guests of the Child Study Club, which entertained them at the home of Mrs. A. K. Richards, they became students in school instead of instructors. From what I could gather they certainly had a very enjoyable time doing it.

The details of the entertainment were quite perfect in that the evening was a day spent in a country one-room school house. When the teachers entered they were met by a typical old-fashioned school marm with horn-rimmed glasses and all the life details which we connect with the school marm of our imagination. A

member, a girl of sweet sixteen, in calico and pigtail seated them and began the evening. We heard that Johnny Cross was late and the marm saw that he was rightfully punished. Intelligence tests were given our beloved faculty so they had a taste of what we did a year ago. Perhaps now they can appreciate our feelings. Bridge served as the seat work of our students and they even had a recess, during which one of the girls brought in the old fashioned water bucket and tin cup. Individual lunches were served in lunch pails which contained very delightful refreshments indeed. So with more bridge their evening was brought to a close. Many of us wish that school was partially like that which our faculty attended.

**Sophomore Girl Wins Prize**  
Miss Lorinda Beutler was awarded the prize of one dollar by the Journalism Club for suggesting the popular and appropriate name of "THE HI-LIGHT" for this corner of The Chelsea Standard which is dedicated to High School news. And so this week you may observe that we have discarded the name of "SLEEPLESS" for our brand new and sparkling name. Don't forget to look for THE HI-LIGHT after this when you scan the weekly news.

Miss Beutler is to be complimented for her originality and good judgment.

We might add that one name that ran THE HI-LIGHT a close second was THE SCHOOL BUGLE suggested by Miss Mildred Beeman. Since the judges could not decide between the two names, the student body was permitted to make its choice by vote.

Judges for this contest which extended from Oct. 3 to 7 were Miss Barras, Miss Hazard, Marjorie Sott, Arlene Satterthwaite, and Mr. Thompson.

## Tennis Court

Come on you tennis fans and get your rackets out ready to play. I suppose you all know there has been a tennis court built on the school grounds. This tennis court is open to the townspeople as well as the school children.

Now I suppose you would like to know how this tennis court was made. In the making of this court the ground was scraped and rolled so as to make a level surface. It was then given a coat of tarvia. Then several loads of gravel were drawn and put over the tarvia. This was leveled off and coated with tarvia. Quarter-inch stones were sprinkled on top of that, and this was sprayed with larvia and sand spread. The court was left to harden ten or more days before it was ready for use. The court is 78 ft. by 36 ft. There has been a net ordered, and we expect to be able to play on the court by Friday.

We hope that adults as well as school children will help keep the court attractive and in good condition.

## Just a Few Questions

What's this I see in sports? Yo-Yo! Are they going to become the rage? Only a few students have brought them to school as yet. Are the rest going to follow suit?

Has collecting bugs, leaves, flowers and weeds become a game or something? We've been wondering if anyone could answer this question. We've seen many students running after bugs, flies and caterpillars until it's aroused our insatiable curiosity—what's the idea?

What's the attraction on Park St. Is the shoe business picking up? It ought to be as we've noticed there is an increase in traffic along that street.

I noticed a few girls in a conversation on the street. As I passed them the words "basketball," "practice," and "pretty soon" came to my ears. Can you tell me—are the girls going to start basketball practice pretty soon? Was that the subject of their conversation?
