Loeffler being defeated by only five votes by Clarence Bahnmiller for the office of village clerk. Wm. G. Dairymen of State Discuss Code Changes

Men representing Henry A. Wallace, U. S. Secretary of Agriculture, held hearings March 5, 6, 7 and 8 in Pontiac to get facts pertinent to the formulation of a new code for the sale of milk in the Detroit area.

Farmers and their representatives gave evidence of the factors influencing the costs of producing milk and also gave estimates of what those costs were. During the presentation of these cost figures, A. C. Baltzer, dairy specialist from Michigan State College, was asked by the federal men to present any evidence in his possession on the cost of milk production.

Mr. Baltzer told the committee that 65 dairymen in Michigan had cooperated with the farm management department of the College in securing the actual costs of producing milk from the 1,000 cows owned by those men. This study showed that the cost of producing the milk on the 65 farms was \$1.70 per hundredweight.

These cost figures are not made up by the College. They are the actual amounts of money expended in producing the milk, plus a computed amount for home feed, labor, and any other items for which money was not paid out of pocket. Labor was figured at 20 cents per hour and the feed was valued at the prevailing market prices of March 1, 1934.

The hearing at Pontiac, presumably precedes the formulation of a new code to replace the one under which milk is now being sold in Detroit. Under the old code prices were set for milk from the producer and to the consumer. The new code is expected to set prices only to milk bought from farmers and the distributors will determine the price to consumers. City milk buyers will be protected by the Milk Industry Board which checks price rates in all the cities and seeks reasons for prices that appear to be out of line with those prevailing in other places.

Evidence presented at the Pontiac hearing showed that increases which put milk prices above the consumers' ability to pay would defeat the purposes of the code, which is to increase prices paid to farmers. Unsold milk means a surplus which reduces the price paid for the portion which is sold. Employment conditions and wages have not yet improved to the point where the working man can spend his money without seeking the greatest possible amount for his dollar.

Public School CWA Project Is Nearing Final Completion

A local CWA project which should meet with the approval of the entire community is the work which has been done on the public school buildings, which is now nearing completion.

On the interior, the grade building, which houses the kindergarten and the first five grades, has all appearances of a new structure. All old plaster was removed and has been replaced with new rough finish sand plaster. Window casings were all removed, re-finished and re-insulated to insure greater warmth. New light wiring and new fixtures have been installed throughout the building.

New hardwood floors have replaced the old ones and they are finished with Dura-seal and coated with wax, which assures permanency in finish with an application of Dura-seal protective finish annually. New baseboards and moulding have been installed, and radiators in all rooms have received a fresh coat of paint.

In the fourth and fifth grade rooms partitions which were placed there many years ago have been removed, which adds a great deal more room and makes the rooms more pleasant.

In the hallways, the old wainscoting has been removed and the wall space is replaced with plaster. Heretofore, children's coats have been placed on hooks in the wainscoting, but under the new arrangement it is planned by the Board of Education to install lockers for the use of children.

All stairways in both the grade and high school buildings have been replaced with new ones, which is also a real improvement.

No improvements have been made in the basement of the grade building but it is planned by the Board of Education to make an effort to secure improvements in that part of the building through the work relief program which will be started by the federal government to replace the CWA.

In the high school building, refinishing has been done in the boys' and girls' toilet rooms and shower and locker rooms; also in the corridors and laboratory rooms. Eight new flights of stairs were installed in this building and minor decorations were made in other parts of the building.

The total cost of the entire project will approximate \$3,500.00. Cost to the district will be only about \$500.00. At the peak of employment, 45 men were working, and the weekly payroll has varied from \$475 to \$750 a week. The work was started about January 1st and has been under the supervision of Geo. W. Walworth.

The finishing work will be practically completed in the grade building this week and the five lower grades which have been carrying on their work in the high school building and in the auditorium, will be in their regular rooms next week. The kindergarten classes, which have been dismissed since the work was started, will resume their sessions when the building is ready for occupancy.

It is planned by the Board of Education and Supt. Bleeker to invite the public to inspect the buildings at an "open house," the date of which will be announced in the near future. Tentative plans call for the dismissal of all lower grades some Friday afternoon, and to have them in session in the evening so the public may visit the building and see the school in their regular activities.

State Health Dept. Investigates Fever

Local residents are unduly alarmed about the current outbreak of scarlet fever in Chelsea, according to Dr. C. D. Barrett, Director of the Bureau of Communicable Diseases, State Health Department, who was in Chelsea Wednesday afternoon to investigate the local epidemic.

According to Dr. Barrett, the Chelsea situation is no different than that existing in a great many Michigan communities. He stated that the disease is of mild form with few exceptions. Although he does not advise closing of schools or churches, he stated that he would advise parents to keep small children not of school age from large gatherings.

The contention of Dr. Barrett and Dr. Jennings, eminent physician of the Detroit health department, who was contacted by local authorities, is that children who are in school can be better observed by nurses who make regular examinations than they would be if they were outside the school.

According to these health authorities, one of the best preventatives is to wash the hands often and thoroughly. The germ cannot be carried on clothing.

Spread of the disease has been brought about in many cases by those who have the disease and have not been observed and quarantined, according to Dr. Barrett, and he urged parents to report any disease which might turn out to be scarlet fever.

OUR NEIGHBORS

HOWELL—Sometime Friday night thieves broke into the Howell high school and stole 12 typewriters and 8 band instruments, representing a total value of approximately \$1250.—Republican-Press.

NORTHVILLE—Ray Baker returned last Monday from another trip to Muscle Shoals, Alabama. "There is plenty of construction going on down there," says Mr. Baker. Approximately 1500 men are working on the Joe Wheeler dam, which is being built as a part of the TVA development project. This dam will aid in the supplying of power to the Tennessee Valley territory and will serve as a flood-control. "The government expects to employ 4,000 men in this district, on this work during the coming months," he states.—Record.

CHARLOTTE—Harry Benson, of the Eaton Coal Mining Company, states that his company has been drilling for coal on the old DeGra farm north of Charlotte and has struck a good bed of coal and will sink a shaft some time in April. They will do strictly shaft mining and will hire about 30 or 40 experienced miners. The company already has several mines between Jackson and Springport and has reopened the old Jackson mine. Another mine has been sunk near Springport and they expect to mine coal from there the last of this week.—Republican-Tribune.

PARMA—Representing the 155 youthful petitioners on the liquor subject, Lawrence Bailey, Parma high school senior, appeared before the village council Monday evening to make a verbal plea that no licenses for the sale of alcoholic beverages in the village be granted.—News.

BROOKLYN—Kevin fishermen reported the best luck at Evans lake the past week. Right after someone discovered that the croppies were biting there was almost a stampede to the lake. Fishermen keeping the lake busy all day and some nights. Using

small minnows for bait not only did they take out a lot of croppies but many pound perch or better, were caught.—Exponent.

MASON—February temperatures of from 15 to 20 degrees below zero are proving costly to the maintenance funds of the state and county. The pavement on US 127 and US 16 is heaving in many places because of the frost level going down to 40 inches. The rains and warm weather of Saturday and Sunday caused many stretches of county roads to break through. The lack of snow and the frigid weather of February sent the frost line down farther than it has gone for 20 years. The wet weather made the Mason-Danville trunk line treacherous. Last summer it was given a treatment of clay and calcium chloride by the state highway department as an experimental process. On Sunday and Monday the road was dangerously slippery.—County News.

...for a few dollars more a month!

The 2-Door Sedan—List Price at Pontiac, Michigan, \$729

The whole ideal of American life is built around the philosophy that tomorrow must be better than today!

Day after day, we hear people say—"I'm so glad I decided to purchase a Pontiac Right! It is such a satisfaction to feel that we have something more than mere transportation."

This extra measure of satisfaction, of course, is strictly a plus value when you buy a new Pontiac Straight Eight.

For, purely on the basis of what the car itself provides—it is the most logical car in America for anyone to buy.

First of all, Pontiac is a big car—with a wheelbase of 117 inches—and big, roomy bodies by Fisher.

It is powered by the great Pontiac "Speedway Eight" engine—one of the finest motors in use today.

It rides, with its new "Knee-Action" wheels, with amazing comfort on any road.

And, finally, it is one of the two most beautiful cars in America today—absolutely regardless of cost.

Certainly, it's a pleasure to own the new Pontiac. For it is unmistakable that the man who drives a Pontiac has gone out of the mass group into the class group.

And yet—it costs practically nothing to take this step. When bought on time payment, the difference between the cheapest cars and the Pontiac is frequently not more than a few dollars a month.

Come in for a demonstration of the new Pontiac. Let us show you how easy it is to step up to "Straight Eight" ownership!

Question And Answer Dept.

Correction—In a recent answer to a question asking the religion of Germany's Hitler, we stated that he professed no religion. We since have been informed that he pledges allegiance to the Catholic faith, and we have also been authentically informed that the Catholic Church in this country does not feel proud of this fact and is not boasting of this sworn allegiance by Mr. Hitler.

Ques.—How many Presidents have been assassinated? And can you tell me the names of the slayers?

Ans.—Three Presidents have been assassinated. Abraham Lincoln was shot by Wilkes Booth, a famous actor; James A. Garfield was shot by Charles Guiteau, an anarchist, and William McKinley was shot by Leon Czolgoz, also an anarchist.

Ques.—How old is the Prince of Wales?

Ans.—The Prince of Wales is in his 40th year, being born June 23, 1894.

Ques.—To settle an argument, will you please answer if the hands on dummy clocks were set at 8:18 because that was the time Lincoln was shot?

Ans.—The reason for hands being set at "18" on dummy clocks is that it is the most symmetrical position for them. The assassination of Lincoln has nothing to do with it. He was shot about 10 o'clock, and not at 8:18.

Ques.—Will you please tell me in your question department which is the best radio?

Ans.—It is not ethical to answer this question, as it would be advertising. Almost all makes will give you satisfaction.

Ques.—What is the age of President Roosevelt?

Ans.—President Roosevelt was 62 years old on Jan. 30, 1934.

Ques.—Why is Friday an unlucky day? Also why is the number "13" unlucky?

Ans.—"Unlucky", as applied to Friday and the number "13" is a myth. Any ill-luck associated with them is a matter of coincidence. Only superstitious people give credence to the idea that they are unlucky.

Ques.—I am curious to know which was the 13th state that voted on the repeal of the 18th Amendment, as it was said that the Repealers would begin to go down with the 13th—the unlucky number for them. Also, which was the first state to vote, and which was the last?

Ans.—New Hampshire was the 13th state to vote and join the Repeal parade. Michigan was the first and Kentucky was the 36th and last.

Ques.—I am told that the mottoes of Pennsylvania and Illinois are exactly alike, word for word. If that is true, is there any reason for it?

Ans.—The motto of the State of Illinois is not the same as that of the Commonwealth of Pennsylvania. Illinois' motto is "State Sovereignty, National Union," while that of Pennsylvania is "Virtue, Liberty and Independence."

Ques.—I would like to ask you if this sentence is correct: "I wrote to a friend of mine?"

Ans.—The expression is permissible. However, the word "wrote" is not elegant in this sense. It is low and illiterate. You should say "I have written to a friend of mine."

Ques.—Can you tell me what causes cross-eyes?

Ans.—There are four muscles which move the eyeball around so that a person can see in different directions—one above the eye, one below and one on each side. Sometimes one or two of these muscles pull a little stronger than the others, or a little weaker than the others. When this happens, then the common term "cross-eye" is the result.

Going Places

Buick is going places this year. The public recognizes in Buick a new kind of motoring, finer as well as different—with all the unfailing dependability and performance for which Buick is noted. Without question, this finer motoring begins with the gliding ride as only Buick gives it. Safety and convenience and ease, in the form of Buick's new center point steering, its new vacuum

power brakes and its new automatic starting, go hand in hand with the alluring beauty of Buick's new styling in the symmetrical windstream manner. The dominating feature of Buick ownership is satisfaction, gratifying and enduring. The buyer knows that Buick owners regard their cars with something like the affection they give to a friend. Don't you want to own the car which will be a true friend as long as you have it?

WHICH?

We're thinking, which would be of grace,
A postal card or a letter,
A postal card? That's very nice,
But this we think is better,
A postal card is like a kiss,
A smack and all is over;
Letters are like a loving kiss
Among perfumes of clover.

The postal card is quickly written,
A letter takes more thought;
Beside, a postal card can't express
A "most sincerely" thought.

For instance—
Should you choose to write
The mother you so love,
A postal card would not express
Nor deep affection prove.

So, correspond just as you choose,
By phone, or card—but better,
If you sincerely love her dear,
Bequeath a good long letter.

Interclass Basketball Title Won By Juniors

The Interclass basketball games were held at Chelsea High on Wednesday, Thursday and Friday of last week.

The winner was the Junior class, who last year as Sophs won the same honor. The Junior class had easy going until Friday evening when the Seniors gave them a real battle.

On Wednesday evening the Juniors shut out the Freshmen, 31 to 0 and the Seniors defeated the Sophomores 26 to 8. These games were well played and the Sophs were without the services of several of their players.

On Thursday evening the Seniors and Juniors again were victorious. The Seniors defeated the Freshmen 20 to 6 and the Juniors won from the Sophs 20 to 5. The crowd was larger than that of the previous evening and the spirit of rivalry was more intense.

Friday night and the Juniors and Seniors fighting for the championship with Sophomores and Freshmen fighting for third place. The Frosh led the Sophomores 3 to 2 at the half but the Sophomores put on pressure and won, 6 to 3, over the often defeated Frosh.

The Juniors and Seniors then took the floor and the crowd began to yell and they continued to yell until the game was over. The game was close at all times and at one time of the game the Seniors were leading by one point but a three basket rally put the game on ice for the Juniors. Final score, Juniors 15 and Seniors 11, and that was a game!

Station C-R-A-Z-Y

Yes, it's station C-R-A-Z-Y again on the air.

Miss Cash to Latin class: "And now if you will all open your appendix we will begin a synopsis of the verb 'to be'."

Someone asked—Was it you?
"Are California oranges grown in Florida?"

"What is the color of red mercury?"

"Is Australia south of the South Pole?"

"My head is new," said a proud Freshman. "Yes we know that you've never used it."

"It's funny I can't make a back-kick with the words of one of our smart-looking Seniors."

"Nothing funny about that," answered Chas. P. "Have you forgotten you're not a Junior?"

When it's winter in Alaska, I'll be a seeing you!

Once again I say I love you, You say that you do too, When it's winter in Alaska, I'll be coming to you.

First Grade

Weaving mats of all colors is what these children have been doing. Miss Rajah demonstrated "Tow to Read" in Miss Brown's room. The children enjoyed it.

Third Grade

Cotton is what this grade is interested in now. They have been studying about it and writing stories. They have collected cotton materials and made gingham dogs and calico cats to go with polar "Duck" by Eugene Field.

Estelle Seitz brought them some cotton, which came from California. Miss Yager is reading "Johnny Bear" to them, and they surely enjoy it.

Fifth Grade

The Fifth Grade are very happy to hear that they will soon be back in their old room again.

There were only fifteen out of twenty-three in school Friday.

Lois Palmer is not pretending a trip to Florida, but really went there last week.

A number of boys in the class are making an oil field on the sand table, because they are studying about oil.

The Fifth Grade are having a little play, and are thinking about asking the Third Grade over; but they don't know when it will be.

Here are some interesting poems that some fifth graders have written:

Trees

Trees are pretty in summer and spring.

In the big oak tree I have my swing; Some birds come there to build their nest.

But I think the humming bird's really the best.

—Helen Miller.

Trees

"Please tell me, trees, Is it fun in the breeze,

When the wind is in the air?"

"Did you say please? Yes, it's fun in the breeze, When the wind is playing fair."

—Margaret Harper.

The Trees

Little trees and big trees standing all around,

You are always happy, never, never frown;

You always stand so straight and tall though the wind is snappy,

Oh! standing like a statue, Waving all the day,

Waving all the day.

—Doris Ashfal.

The Trees in Summer and Winter

The sky up above, Is always full of love;

But the trees down below Are always full of snow.

In the winter when it blows, You would think the trees would show

Their best clothes, But no.

In summer when the grass is green, It always does seem

That the trees are all a gleam When the sun has so many beams.

—Dorothy Oesterle.

Appreciation

Through this means we wish to express our appreciation to the mothers of the Seniors for their services which they so willingly rendered in helping us to put on the Republican banquet. Thanks to you, mothers!

—The Seniors.

STOP GETTING UP NIGHTS
Lax the Bladder With Juniper Oil.
Buchu, etc.

Flush out the impurities and excess acids that cause irritation, burning and frequent desire. Juniper oil is pleasant to take in the form of BUCHU-KETS, the bladder laxative, also containing Buchu leaves, etc. Works on the bladder similar to castor oil, on the bowels. Get a 25c box from any drug store. After four days if not relieved of "getting up nights" go back and get your money. If you are bothered with backache or leg pains caused from bladder disorders, you are bound to feel better after this flushing and you get your regular sleep. Guaranteed by John V. Burg, Druggist.
