## St. Paul's Retain Lead In Twilight League

A real entertainment was provided for Chelsea baseball fans Tuesday evening when the management of the Twilight Ball League planned a program of music as well as a game between the two leading teams of the league.

Under the leadership of Wesley C. Smith, the Chelsea High School Band presented a concert at Holmes field before the game was called. When the participating teams, St. Paul's and Congregational, were lined up ready to play, J. E. McKune, village president, tossed several balls, with Dr. L. J. Paul, president of the league at the receiving end. Being somewhat inexperienced as a catcher, Doc was unable to reach the first ball delivered by the local official. However, after that first wide-sweeping curve, Mr. Mac put the balls right over the heart of the plate and Doc did a good job of stopping them. The last ball pitched by President McKune, which was a perfect strike, was sent for a trip over the big oak tree in center field by Glenwood Novess, first batter for the St. Paul's team.

Tuesday's game was a poppy one, and the invincible St. Paul's team retained their leadership of the league, winning by the score of 6 to 4. A free will offering was taken at this game, which amounted to more than ten dollars. According to league officials, this will almost take care of the expenses which have been incurred by the league to date.

## Cavanaugh Lake Road Will Be Improved

Information has been received here to the effect that the County Road Commission has included in their program for this summer the improvement of the Cavanaugh Lake road from Chelsea to the Jackson county line.

The road will be scarified and then coated with applications of clay, gravel, silt and chloride. This is a new method of road improvement which has been successfully tried in other counties. It makes a hard surfaced highway which needs scraping only after rains, and is dustless.

Although the life of such a road-bed is rather indefinite, it is stated that it makes a splendid base for blacktop, which will no doubt be applied to the Cavanaugh Lake road when it is deemed necessary. It is planned to start work on this project within the next few weeks.

## NOTICE

Because of the Decoration Day holiday falling on Wednesday of next week, The Standard will be published early on Friday morning instead of Thursday morning. Copy must be in our office before noon on Thursday, and we will appreciate having as much of the copy as possible, both advertising and news, on Tuesday.

## Saturday Is Poppy Day In Chelsea

The annual poppy sale will take place next Saturday, May 26. The official poppies to be sold, paper replicas of the wild poppies of France and Flanders have been made by disabled World War Veterans in the U. S. Veterans' hospital at Battle Creek.

The work has been given to these disabled men who receive no disability compensation and whose families are in great need, and the money paid for shaping the little flowers has meant food, shelter, clothing and fuel for the veterans' families during the winter and spring.

This year the sale will be carried out by the Chelsea Sea Scouts, under the direction of the local American Legion Post. From the proceeds of the sale, three cents a poppy is paid to the Joint Poppy Committee of the American Legion and Auxiliary of Michigan; the Sea Scouts will receive a percentage for selling the poppies and the balance will be divided equally between the Chelsea Legion Post and the Chelsea Auxiliary to enable both these organizations to continue their relief activities.

Poppies glowing on every coat on Poppy Day will show that we still remember and honor the supreme sacrifice our war dead made for America.

**MEMORIAL**

He went away one day,  
He went away, said "Good-bye Pa",  
That's what he used to call me when  
a boy  
Before he learned the words of "Ship  
Ahoy".  
I'll do my best, said he,  
So Ma and I bade him good-bye.

He went to sea.  
Four years in cold Alaska  
For Uncle Sam, on Gunboat Pinta,  
Without disaster, he served his time.  
Then through the war with Spain  
With Captain Clark on Oregon,  
The bulldog of the Maine, he sailed  
again.

Oh, memorable are those days  
He spent upon the sea to me,  
At close of war came home,  
We're glad to clasp his hand,

But Mother,  
His Mother,  
Had departed to a fairer land.  
His face was bronzed by  
Tropic sun and storm,  
And somewhat changed  
The color of his skin,  
But not his heart.

Toward the sunset  
Once again he set his mark,  
With wife and daughter here,  
Spent years of happy hours.

\*\*\*\*\*  
Beside the sea so much beloved by  
him,  
There was laid to rest our Sailor boy;  
Where flowers ever bloom above his  
grave.

Tokens of love we gave and hold for  
him  
Till we shall meet again.  
—Arthur Carlton.

**Question And Answer Dept.**

Ques.—What is the population of Warm Springs, Ga., where President Roosevelt founded his institution for crippled children?

Ans.—The population of Warm Springs, Ga., according to the 1930 United States census, is 400.

Ques.—While I take much interest in your Question and Answer department, I have never yet asked you a question. I hope you will answer this one to settle a friendly discussion: What is the longest railroad tunnel in the United States, and also if it is the longest one in the world?

Ans.—We are pleased to answer that the longest railroad tunnel in the United States is the Cascade, which is nine and one-half miles long. The Simplon tunnel which connects Switzerland and Italy is the longest tunnel in the world. This tunnel is exactly 12 miles, 458 yards long.

Ques.—Is the Canadian parliament similar to the United States congress? What is the salary of the governor-general and the premier of Canada?

Ans.—The Canadian parliament consists of 98 members and 200 members of the House of Commons, there being one representative for every 36,000 population. The governor-general, who is appointed by Great Britain, gets a salary of \$50,000, and the prime minister receives \$15,000 a year.

Ques.—I would like to ask you when was photography by wireless invented, and who was the inventor?

Ans.—Wireless photography was invented in 1924 by the Radio Corporation of America.

Ques.—To settle an argument will you please answer if there were ever more than one chief justice of the United States Supreme Court appointed from Ohio?

Ans.—Yes. Salmon P. Chase, appointed in 1864; M. R. Waite, appointed in 1874; William Howard Taft, appointed in 1921.

Ques.—While attending the Century of Progress in Chicago last year I noticed in particular there was never any coal deliveries or freight shipments of any kind from any of the business houses in the Loop district of that city. Can you explain this?

Ans.—Underlying nearly all the streets in the central business section of Chicago are sixty miles of tunnels connecting freight terminals of the railroads and business houses. The tunnels are provided with narrow-gauge railroads equipped with electric locomotives and steel cars. These are used in transporting goods to and from railroad freight yards and in carrying coal to business houses. Very little coal or freight is moved on the surface within this area.

Ques.—What was the name of the horse that won the American Derby in Chicago in 1926? Was the purse the largest ever won in a single race?

Ans.—In the American Derby in Chicago in 1926 the winner was Boot to Boot, winning \$89,000 in that race. In 1923-4-5-6 and 7 the Grand Prix de Paris in France yielded the winners in each of those years purses exceeding \$100,000 in each race.

Ques.—Does Canada observe Thanksgiving Day at the same time it is proclaimed in the United States—the last Thursday in November?

Ans.—No. The Canadian Thanksgiving Day is usually the last Monday in October.

Ques.—I want to ask you to answer this: If Elizabeth got a new Jersey what would Della wear?

Ans.—We don't know. You might ask Mary Land.

The late freeze also was costly to nursery owners. Arthur W. Jewett estimates that he lost more than \$500 by the freeze. The long siege of cold weather during the winter also killed many plants and shrubs at the Jewett nurseries. For several years Mr. Jewett has been one of the largest producers of pansy plants in the state. This year the pansy business will be light as thousands of them were killed during the winter.—County News.

Lansing, Mich.—Failure to secure a new driver's license when the old one, issued in 1931, expired, is placing many Michigan motorists under the financial responsibility law.

The law, adopted by the 1933 legislature, provides that motorists who do not have proper driving licenses are subject to the provisions of the law. Since May 1 an increasing number of drivers have been certified to the Department of State as violating this provision of the law. Once this certification is made, the department is required to cancel the right to use all automobiles owned by the individual until after the Department is furnished proof of financial ability to meet future accident claims.

Over 700,000 drivers' licenses will expire before Jan. 1, 1935.

A complicated ballot may be presented to Michigan voters on Nov. 6. Already the department has been notified that six or seven proposed constitutional amendments may be submitted to the people at that time. These amendments deal with consolidation of local governmental units, reduction in gasoline taxes, changes in the board of liquor control and other governmental subjects. In addition the legislature has ordered a referendum vote on the question of increasing the jurisdiction of Justices of the Peace from \$300 to \$1000.

Under the law, all initiated constitutional amendments must be filed with the Department of State by July 6. In order to place a proposal on the ballot petitions bearing at least 161,627 signatures must be submitted.

8 SHORT MINUTES TO DRAIN AND REFILL WITH ISO-VIS D Anti-Sludge Motor Oil

IT'S PAST TIME TO SEND SLUDGE, the OIL-EATER, ON HIS WAY!

Continuing to Drive With Winter Oil Costs You Money Daily

It's high time you changed to a heavier motor oil—as an economy move! Lighter oils are subject to faster and faster consumption as the mercury continues to rise. Besides, if you have been using ordinary oil the chances are that there is trouble-making sludge in your crankcase right now.

You know how the ugly mess called Sludge fouls the oil filter and lines—makes piston rings stick and causes costly pumping of oil—slows down valve action, bringing wasteful loss of gasoline power.

So get rid of sludge, once and for all, by having your crankcase drained at a Standard Oil station—then refill with ISO-VIS "D", the anti-sludge motor oil. You'll have an economical, sludge-less summer and a clean, lively, efficient engine.

ISO-VIS "D" . . . . . 25c qt.

## Island of Yap Once Used

**Aragonite for Currency**

Some years ago, says Stone and Webster Bulletin, the people on the island of Yap had a credit system based upon aragonite, a kind of limestone not found locally but transported with great labor from a distant island. Units of aragonite, known as fel, were left on deposit and seldom moved even though the ownership of the units might change.

The importance of a claim on these deposits was illustrated when the Germans, upon taking over the island in 1880, ordered the people to put the roads in good repair. Nothing was done. The Germans then had a black cross painted on each of the aragonite units as a sign that the deposits were claimed by the government as a fine for disobedience. The people quickly put the roads in splendid shape; the Germans removed the crosses and the deposits were unencumbered.

On the return voyage from one mining expedition a storm came up and the raft carrying the aragonite had to be cut adrift. The precious mass sank, but the miners did not lose a fortune. They traded on the aragonite deposited at the bottom of the sea just as if it had been "in the bank."

The diameter of the fel varied from 6 inches to 12 feet and the value was in proportion to the size. A 3-foot fel in normal times represented the commodity equivalent of either 1,000 coco-nuts or a 100-pound pig.

Under foreign influence the people of Yap replaced aragonite with gold as a credit base, and the fel became merely ornamental.

## Griffon Dog's Whiskers

**Bring Him "Monkey" Name**

Compliments are apparently not in order, when, in one breath, we hear that the grotesque, spindly little Griffon dog with his large black eyes and peculiar fringed beard, has a quasi-human expression—then, in the same breath we learn that his is termed a "monkey face," says a writer in the Los Angeles Times.

Unlike the "fathomless pool-like" eyes of most toy breeds, the eyes of the Griffon are heightened in their ever-changing quaint expression by his long eyelashes and black eyebrows.

The inquiring perky alertness with which he cocks his rather round oversized head accentuates his intelligence.

Born in litters as high as nine in number, the puppies weigh about four ounces—usually dark brindle, which later turns to the desired shade of red. Those born red are likely to be too light in color when the dog is grown.

The red wire-haired Griffon Brussels, known as the Brussels Griffon, is popular in America. His smooth-coated brother, the Griffon Brabant, is identical in all points except his coat. Absence of whiskers, however, gives him the appearance of being long-nosed. The third group, known as the Griffon Belges, is of usual coloring marked with black or white. Of these, the black and tan is the favorite and approved combination.

The red pin-wire hair covering the body and legs of the adult Brussels Griffon is, in length, like that of a wire-haired terrier.

## Taking Over the Mail

On July 2, 1774, William Goddard published in his Maryland Journal the first announcement of a plan for a "constitutional" postal system in opposition to that of the British government, to which he objected as an unlawful method of taxation and because mail carried by the crown post riders was frequently subject to espionage.

Goddard had toured New York and New England seeking support for his scheme, which everywhere aroused enthusiasm. The project was undertaken as a private venture and soon "constitutional" post routes were in operation between Portsmouth, N. H., and Williamsburgh, Va. By means of Goddard's post, committees of correspondence in the 13 colonies enabled the American patriots to co-operate in their fight for freedom.—Telephone Almanac.

## Ducks Are Vegetarians

All wild ducks are at least 90 per cent vegetarians in their food habits, according to the United States bureau of biological survey. When ducks dive, scientists of the bureau declare, they are almost always going after root-stalks and the tubers of aquatic plants, or seeds that have sunk to the bottom. The animal food that wild ducks do consume consists of worms, insects, snails and crayfish—very seldom fish.

## Prairie Dogs

The name "prairie dog" is given to two species of small rodents neither of which is related to the dog. It was suggested by the supposed resemblance of the prairie dog's cry to the bark of a puppy. It is more like a guinea pig. It lives on buffalo grass, constructs extensive burrows in which it ranges, averages about a foot in length, has a tail about four inches long, and is of reddish-brown color varied with gray.

## "Lis Pendens"

"Lis pendens" means in regard to real estate, and according to Black's law dictionary is as follows: "A suit pending; that legal process, in a suit regarding land, which amounts to legal notice to all the world that there is a dispute as to the title. In equity the filing of the bill and serving a subpoena creates a lis pendens, except where statutes require some record."

## METHODIST HOME

May 17, 1934 was a beautiful morning. Sunshine and flowers predominated. 28 small tables and 2 large ones were beautifully prepared and decorated for our guests. Tulips were the flower of the day. Why this preparation?

The many friends of Dr. and Mrs. Balmer were meeting in a farewell gathering "to honor those to whom honor was due" in the beautiful rendering of work performed by them in the Home as Superintendent and Matron. Dr. E. Dimond, president of the Board, spoke highly of what had been accomplished by them throughout the seven years of their work here.

He then called on Dr. Balmer to tell us of his work. In his remarks, Dr. Balmer in a very unassuming manner brought to our minds the advancement that had been made by God's help, and how the Heavenly Father had always stood by us, so that all demands upon us had been met to date. Cost of current expenses about \$100 per day. Endowment now about \$300,000. Contributions from the churches cover about one-third of current expenses, when in full. The amounts paid by the members on admission are kept in a reserve account. Only the interest is used.

As each member passes on, the amount contributed is added to the endowment so it keeps growing from year to year. Dr. Balmer then spoke highly of the Board, especially of the efficiency and efficiency of our beloved Dr. E. Jacklin, our executive secretary. Mrs. Balmer then spoke of her work in the Home, and it was unnecessary, for the many who from time to time have visited could not but see the changed conditions.

The clockwork of serving the lunch

proved her ability to plan for and provide for, all emergencies.

Dr. Peter Stair of Ann Arbor and Dr. John Martin of Port Huron playfully responded to their call by simply rising to their feet, but being told of our expectancy of hearing them, responded briefly.

Dr. Martin said that Port Huron was standing with open arms to receive back those whom they so much appreciated.

We were pleased to have with us Dr. A. Halmhuber, our District Supt. Among our guests was also the Hon. Junius Beal of Ann Arbor. Rev. Bert Ede of Salem, President of Epworth League work of the District, spoke to us of the young folks' work and of the work they are doing for us.

We were glad to hear Mr. York's voice again, speaking highly of Dr. and Mrs. Balmer, and also of what Dr. Jacklin had meant in the years of his work for the Home.

They will still be with us until August 1.

Dr. Harvey Pearce of Detroit, who conducted our singing, announced as his last number, "Blest Be the Tie That Binds." The last stanza closes fittingly our report:

"When we asunder part, It gives us inward pain, But we shall still be joined in heart, And hope to meet again."

## KEEP YOUR HUSBAND

contented at home

Kelvinator will help

Men, we've noticed, are pretty particular when it comes to anything about the house that they want to use. There's the matter of refrigeration—running short of ice cubes at just the wrong time—or of there being insufficient food for a "snack" when the "boys" drop in. You won't have those troubles with the 20th Anniversary Kelvinator because there is large food storage capacity and, when it comes to ice cube production, it is the most efficient that you've ever seen. And these are only two of its fine qualities. We suggest that you come in and let us demonstrate. It's easily the finest electric refrigerator on the market to-day. (K-10054)
