Local Attorney Gets Federal Appointment

John P. Kousch, local attorney, has been appointed Project Attorney in connection with the Waterloo playground development. Notice to this effect was received by Mr. Kousch on Tuesday, the appointment coming by wire from Tilford E. Dudley, Washington, D. C., chief of the legal division of the federal land program.

Full details of his new duties are not known by Mr. Kousch at the present time, but it will be legal work in connection with the development program in Washtenaw and Jackson counties. Mr. Kousch will maintain his local office and will have an office in Ann Arbor, and will no doubt be required to spend a portion of his time in Jackson.

Mr. Kousch is a graduate of the University of Michigan Law School, Class of 1923, and has practiced law in Chelsea, his home town, since that time. He is associated with John Kalmbach, who was forced to retire about a year ago because of ill health.

Local Youth Injured By Hit and Run Motorist

Vincent Swickard and Stephen Clark were struck by a hit-and-run motorist while roller skating on US-12 near the Cooper farm about 10 o'clock Tuesday night. Vincent suffered a compound fracture of his right leg below the knee and was taken to St. Joseph's hospital in Ann Arbor. Stephen was not seriously injured.

Following the accident the young men were unable to receive help from passing motorists who did not realize that there had been an accident, and about twenty minutes passed before help arrived. A local resident who did not stop when signalled by the youths, reported the incident to Wm. Atkinson and the matter was investigated, a local physician and ambulance called and Vincent was rushed to an Ann Arbor hospital.

La Rue Shaver Buys Fisher Shoe Store

Announcement is made by La Rue Shaver that he has purchased the stock and equipment of the Fisher Shoe Store, taking possession today. Mr. Shaver will sell the same popular line of merchandise that has been carried in this store.

The Shaver name is not new in this line of business in Chelsea, as Mr. Shaver's father, the late Milo A. Shaver, conducted a shoe repair and harness shop here for many years. It was in the shop of his father that La Rue obtained a practical knowledge of the business.

Lafayette Britton of Jackson has been employed by Mr. Shaver to take care of the repair end of the business. Mr. Britton has had many years' experience in this line of work.

Legion Will Present Tim Doolittle's Band

As a result of the efforts of the local American Legion post, a popular program will be presented at the public school auditorium on Friday evening, May 3, when Tim Doolittle and his Pine Center Gang, WJR radio artists, will appear in a floor show and dance program. Both modern and old-time dances will be featured. Special features will be the world's largest and smallest harmonicas, Dottie, the Pine Center Sweetheart, Bill Hurley, Michigan's famous caller. Detailed announcement of the program will be made at a later date.

BASKETBALL A-LA DONKEY

This is something just a bit new and different, coming here Friday and Saturday, March 29 and 30.

If you can imagine such a thing, we are going to have a basketball game with the players riding donkeys. Of course there are rules going with the game.

This game has met with the greatest success throughout the state and why not? Can you imagine the players riding around on donkeys?

Don't forget the dates—Thrills and Laughs!

Two games between the Chelsea High Faculty and Business Men, on FRIDAY and SATURDAY, March 29 and 30, at 8:00 o'clock p. m. For benefit of Athletic Association. Admission 15c and 25c.

TAX COLLECTION GOOD

Ed. Kousch, Sylvan township treasurer, reports that when he settled with the county treasurer on Tuesday he had collected 86 1/2 per cent of the taxes in the township this year. This compares with 83 per cent collection last year, and is above the collection in many townships of the county.

BAKE SALE

The Methodist Sunday school will hold a bake sale at the Chelsea Hardware Co. on Saturday, March 30, at 2:00 o'clock.

Grading-Drainage Work Started On US-12 Re-Location

Unemployment in Chelsea is again on the decrease as the result of the hiring of men by contractors who have started work on the grading and drainage for the new US-12 superhighway. About 20 local laborers have been employed this week by E. B. Schwaderer of Cass City, who has the contract for 3.6 miles of grading and drainage structure from the Wm. Rosevear farm, one-half mile east of Sylvan Center, to the Jackson county line.

Grading equipment for the work arrived here via Michigan Central last week and has been unloaded and moved to the starting point of the project where activities have started. It is expected that an additional 30 men will be employed by Mr. Schwaderer next week, including truck drivers. At the peak employment period about 80 local men will be at work for this contractor.

Employment will be for 30 hours each week, three days of 10 hours, and two shifts will be used to make a 60-hour work week. The contract calls for completion not later than September 1.

The route for re-location of US-12 intersects the present highway just west of the Rosevear house, will go under the Michigan Central railroad near the Oscar Kalmbach farm, and will pass just north of Salem M. E. church. The highway will skirt the Waterloo playground project, which will make this federal park easily accessible to the thousands who will be attracted to this part of the state by the recreational advantages of the park.

Contracts have been awarded for approximately 14 miles of grading and drainage work on the new US-12 highway, starting at Jackson. No provision has been made to extend construction work east of the Sylvan intersection this year.

This new road is to be laid out for modern speed and heavy traffic, with super-elevation on curves, and long easy grades. Approximately 1,000,000 cubic yards of earth are to be removed this year. It is expected that a total of 800 men will be employed on the contracts which have been let.

Annual Report Issued By Chelsea Library

On March 1, 1935, there were more than 500 people borrowing books from the Chelsea Public Library. Since October 1, 1934 a record has been made of new patrons and the towns or townships from which these patrons come. Of the 342 so registered, 288 are from Sylvan township, 35 are from Lima, 10 from Lyndon, 5 from Dexter, 3 each from Freedom and Sharon, and one each from Grass Lake, Manchester and Stockbridge.

During the past year the library has loaned 8,916 books to these patrons. This number is less than were loaned the year before, because of the ten cent annual fee for borrowers, which was in effect until November 10, 1934. The total number of books loaned since the library opened its doors February 27, 1932 is 28,344.

Since the 10c fee was given up the circulation is three times as great as it had been while the 10c fee was in effect. During the year the library has been open for business 155 periods of two hours each. Two members of the Child Study Club have given their time each period, three times every week, so that the library work might go on. All of this time given is voluntary. Besides the women who do the actual work of loaning and taking in of books, there is a group of three who have given their time at unstated periods to prepare new books for the shelves. There are two who type all the cards for the card catalogue. The total time of all these women has been estimated at more than 400 hours.

Patrons and friends have donated 182 books during the year, not all of which have been suitable for circulation. The library has purchased 150 books, which is a very inadequate number when 8,916 books are being loaned. The total number of books on the shelves is 1546.

The complete financial statement for the year March 1, 1934 to March 1, 1935 is as follows:

Receipts—

Cooking School Will Be Held Next Week

There are two sure signs of Spring—the robins and housecleaning. A third sign is the Washtenaw Gas Company Demonstration which will be held Thursday and Friday, March 28 and 29, from 2:30 to 4:00 p. m. at the Chelsea public school auditorium.

Everyone interested in cookery is invited to attend. There will be new and distinctive ideas for your entertaining and new ideas for serving economical—everyday—food. Now that food prices have risen so decidedly it will be necessary to be watchful that menus do not omit any foods essential to health.

There will be suggestions for springtime salads, attractive but healthful, economical desserts, and new cookies to fill the ever-present cookie jars. Meat cookery will be explained and there will also be a discussion of baking problems due to the type of material in the baking dish used.

If you have any cookery problems, bring your questions with you. This is your school and questions will be gladly answered.

Will Push Federal Housing Project Here

Harry M. Steffey, field representative of the Federal Housing Administration, was in Chelsea on Tuesday, making a survey and laying preliminary plans for a drive in an effort to convince local home owners that they should take advantage of provisions of this government project and repair their homes.

It is planned to make a house-to-house canvass, using FERA workers, which will be done without cost to the village. A local committee will be named to work with Mr. Steffey and it is believed many jobs can be provided for unemployed carpenters and other building trades workers.

Bleeker Retained As Superintendent

Announcement is made by the local Board of Education that they have entered into contract with H. L. Bleeker as superintendent of the Chelsea public schools for another year. Mr. Bleeker has held this position for the past two years.

The matter of employing teachers for next year has not been discussed and the matter will not be taken up before the next regular meeting of the Board, which is scheduled to be held on Tuesday evening, April 4.

Cohan, adapted from the book of the same title by Earl Derr Biggers, author of the famous Charlie Chan stories, on Thursday and Friday evenings, April 4 and 5. METHODIST HOME

Sunday, St. Patrick's Day, was Dr. Leeson's birthday. When Dr. Leeson came to the breakfast table he found at his place birthday cards, a beautiful plant, candy, etc. Dr. Leeson appeared with green necktie and many of the Home family were showing a bit of green in their make-up. At dinner there was green in the table decorations. The following menu was served: Potatoes, apple sauce, cut green beans, Lima Jello salad, whole wheat rolls, fruit cake, birthday sponge cake, green icing, tea, milk and coffee. At the close of dinner Mrs. Edwin N. Brown gave an original poem which was dedicated to Dr. Leeson with much acclaim. Dr. Leeson gave a nice talk, with thanks, and appreciation. The poem:

A Birthday Tribute to Dr. Leeson
Not alone for good St. Patrick,
Nor his natal day, I ween,
Are we atin' baked perates,
An' a wearin' o' the green.

For while Patrick gets the credit
For his good an' mighty deeds,
O'm-proclaimin' some-one nearer
Who our love an' duty needs.

He was born, like good St. Patrick,
On St. Patrick's natal day,
Tho' some years slipped in-a-tween
Them centuries slipped away.

An' he grew to manhood strivin'
For the good that he could do,
An' he preached, like good St. Patrick
To the good an' haythen, too.

An' while Patrick driv the serpents
From the shores of Emerald Isle,
So this-ither fought with Satan
To deprive him of his wile.

Now, while Patrick's been in glory
For a thousand years an' more,
Yet this-ither mon is livin'
With us here, within our door.

So to him that's celebratin'
On this day his birthday season,
We sing hail and happy greetin's
To our friend, good Dr. Leeson.

—By Mrs. Edwin N. Brown.

MASON, "No sale" is what the cash register at the postoffice discloses as the result of the national Baby Bonds drive. While the bonds have found ready sale all through the nation and have sold readily in neighboring cities, Mason investors do not seem to be interested in bonds. The fact that all three Mason banks continued business through the banking holiday of 1932, and that no depositors in the Mason banks have lost a penny have probably convinced Mason investors that savings accounts are as good investments as are bonds.

To Whom God Would Make Known
What Is The Riddle of the Glory of
This Mystery, Which Is
CHRIST-IN-YOU
Col. 1:27
By Arthur Carlton

My spirit is a part of His,
O mystery of mysteries;
He speaks to me, I understand,
And yet, I wonder how I can
He comforts me, how do I know?
Why, just because He tells me so.
A thrill of rapture so divine,
To know I'm His, and He is mine.
Once I embraced a stubborn heart,
My life was bitter, all was dark;
At length, when counting all things
lost,
I heard His voice, I saw His cross,
I followed on to know the Lord,
I sensed His love, believed His word;
He speaks to me, I understand,
And yet, I wonder how I can
I cannot tell—I do not know.
The music of yon heavenly choir;
The Glory songs I'm singing here
So often thrill with Holy fire.
I'll sing with praise, I sing and pray
In Jesus name, and well I may,
Perhaps these songs I sing this hour
I'll sing up there with greater power.

The Message Must Go Through

Crews of men, along a gale-blasted road in Michigan, toiled in drifted snow, battling against a lashing wind. All about them broken poles—casualties of the storm—lay sprawled on the ground amid tangled copper wires. And every wire was heavily burdened with the telephone's arch-enemy—sleet.

At the first warning of this enemy, mobilization begins. Word is flashed through every department. All hold themselves in readiness. Repair trucks, fully manned, rush to the damaged area and the telephone storm troops go into action.

During such emergencies there can be no waiting for good weather; there can be no thought of cost or comfort in the work of restoring service promptly. The messages of Michigan subscribers must go through!

But it is not only in emergencies that the work of safeguarding the service is carried on. It is a year-round job. Millions of

dollars are spent annually for new and improved equipment. Day by day rigid inspection and maintenance go forward.

Outdoors, patrolmen examine every foot of Michigan's aerial cable once a year. All long distance cable is tested regularly with the galvanometer, an instrument which can instantly detect a flaw and, even on a cable miles in length, locate that flaw almost to the foot.

Indoors, constant tests are made of all the intricate machinery of the modern central office. And the search for improvement moves steadily on, an endless search for equipment that shall be still more sturdy, still more efficient.

Neither trouble nor expense can be considered in the task of keeping open Michigan's copper lanes of speech; for today, as in the past, the guiding principle is the tradition which demands—fair or stormy, day or night—that the message must go through.

EDITED BY THE PUPILS OF THE CHELSEA PUBLIC SCHOOLS

Abilities Demonstrated

It seems that we have among us some promising playwrights and dramatists. Such abilities were shown by members of Miss Fowler's American Literature classes last week.

The classes were divided into committees, each of which was to write and dramatize a scene from American life during the Colonial period.

Some subjects that were used were: The scene of the rescue of John Smith by Pocahontas; the Courtship of Miles Standish; the ride of Paul Revere; and Sarah Kimble Knight's journey through the colonies.

Aunt Bella

Dear Readers:

As I was glancing over the newspaper last week I noticed my name, so I hurriedly read the article. It said: "Could you tell me what happened to Aunt Bella?" My dear children and friends I never knew you missed me so. I had been on a vacation in the mountains but after I read that I packed my belongings and hurried home to find a stack of letters waiting to be answered.

Aunt Bella

Dear Intelligent Aunt Bella: My boy friend once said to me: "You've got affectionate eyes, baby." What did he mean?—Pondering.

Dear Pondering: He meant your eyes are always looking at each other. Aunt (Right off the bat) Bella.

Dear Aunt Bella: When a person says to me "How do you feel?" I never know what to answer, because when you answer "just fine" it isn't clever enough. What would you say?—Heppibah.

Dear Heppibah: Just say "I can't kick, I got a sore foot," or "Just like a stove, grate." Aunt (Next Question) Bella.

Dear Aunt Bella: When a person goes out with a boy and he orders a drink, what kind should the girl order?—Worried Drinker.

Dear Worried Drinker: Order a "Scotch" drink, a glass of water with a nickel in it.—Aunt Bella.

To the Juniors

With Apologies to Longfellow

Between the Sophomore and Senior, In the prime of his school career, Comes the time in the life of the student, That is known as his Junior year.

You can hear in classrooms around you, The tramping of many feet; And the clatter, when doors are thrown open, Of voices determined and sweet.

You can see, anytime when the day-light, Descending the broad hall stairs, Forms tall and forms short, stout or slender, Some with dark, some with golden hair.

A whisper, and then a silence, You can tell by their studious eyes, They are studying and working together, To win some alluring prize.

A sudden rush from the classroom, A quick step march through the hall; Through every door in the building They come to the glass bell's call.

They hurry into their places, They scramble after a chair; If you try to pass, they surround you, They seem to be everywhere.

They almost devour every lesson, Their brains to such altitudes climb, That we think of old Socrates, Plato, And the wise men of every time!

Do you think, O you grave, reverend Seniors, Because you have grown so tall, Such a wonderful class as the Juniors Is not more than a match for you all?

We have all the wisdom of ages, And we never will leave it behind, But we'll look it away forever, In the storehouse of our mind.

—Ruth Marie Warner.

Spring Is Here

Well it is beginning to look like spring around the school house these days. The smaller boys have got out their marbles while the older ones have got out their baseballs. You might even find a couple of tennis rackets in the lockers if you explored them.

Last Wednesday night Mr. Johnson started baseball practice in the gym. He called out for catchers and pitchers but a few of the others eager to get started came out too. On Thursday the infielders and outfielders came out. Friday was such a nice day that Mr. Johnson took the boys out to the field for practice. There we had our first batting practice and let me tell you those boys can hit.

There are about sixty players out for baseball so Mr. Johnson has a good squad to pick his team from. Let's hope the boys have a successful season this year.

EDITORIAL

The fine weather that fell upon Chelsea during the past few days reminds us that spring is not far away. Soon the early spring flowers will be in bloom, the trees will get their new coat of leaves, and the grass will regain its green color. Indeed, beauty will surround us in all its glory.

But nature cannot maintain its beauty or glory alone. It must have help from us. We have the upper hand, and no matter how Mother Nature tries to give us a beautiful scenery, she cannot succeed without our co-operation.

Don't you see what I mean? For example, let us take the grass. Its fresh, green color and its velvet-like appearance are among spring's best features.

But is all grass given a chance to look like this? No. Due to the careless ways of some of us, lawns are made to lose their loveliness. No matter how hard Mother Nature works, if we walk on lawns and leave imprints in the ground, we rob grass of its ability to grow and be beautiful.

So let us this spring, co-operate with our best friend, Mother Nature, in helping her carry on her work of making our world a more pleasant place in which to live. We can do this only by walking on sidewalks provided for that purpose, and by keeping off the grass.

You better watch out, Leona. Janet Dancer and Bob Niehaus conversing after school in the study hall.

Marie H. and Linnie conversing by the water fountain, at the head of the east flight of stairs in the northeast corner.

Marie H. and Morrie Lyons conversing anytime during the passing of classes out by the locker warning—to country friends.

Luelle and Geraldine discussing week-end incidents. Oh well, let by gone be by gone.

Someone looking for Marie W. to play the piano on Tuesday's and Thursday's so we can all dance in the gym.

Elementary News

First Grade

We are arranging the houses in Linville like streets. Gertrude and Barbara drew the sidewalks and roads with chalk. Our second Linville news came out Friday. The funnies were drawn by Thora Hill and Francis Hale.

Jane Downer told a story about the Sunshine Lady. Miss Yager wrote it to put in the paper. The advertisements were for Carlson's Five and Ten Cent Stores and Hill's Barber Shop. Barbara had a notice about her church. Church services will start at 12 o'clock.

Second Grade

Flo Ann Longworth has been exposed to measles, and is staying out of school. Naida Olson has to stay home since her brother has scarlet fever, and we miss her very much.

Dorothy Meltzer brought a coconut. Spring is coming. We have pussy-willows, lilacs, and fruit branches developing here in the school room.

We have three gold fish again.

Fourth Grade

The following people visited our room recently: Louis Policht, Barbara Buehler, Donna Lee Chapman, Miss Zoe Herman, Miss Birdella Breitenwischer, Mrs. Mildred Robinson and Miss Cora Haas.

Our turtle killed our three gold fish. We are hoping we can get some more fish.

We are making window boxes and filling them with spring wild flowers. We have a violet, spring beauty and some hepatica plants. We also have some moss which will be interesting to watch.

Our bird chart is growing. We have seen thirteen different kinds of birds.

We are making a new citizenship chart. It is a vase filled with flowers. Each flower is a point which we must work hard to improve upon.

We have had some drills and contests in Arithmetic. The people have been divided into four groups: Elms, Maples, Oaks, and Pines. The Maples have won three contests and the Pines and Oaks have won one. We have some new charts for these drills.

Douglas brought some artificial flowers for us to enjoy.

K. R. Platt brought us a big bouquet of pussy willows.

We have had several new articles added to our Holland shelf: A windmill, cradle and wooden shoe.

Doris Parsons brought us a periwinkle or myrtle plant which we are hoping will blossom.

Some of our twigs have leaves and our forsythia was all in blossom when we returned today.

Mrs. Dancer gave us some more geography pictures. We have been studying Switzerland and have some good pictures showing life in that country.

"The Ants" read a story in our new Study-Readers about Mr. Gay's lion farm in California and today Dick Schenk brought us a picture of that farm.

We have added two new license plates to our chart.

We have noticed on our temperature chart the highest temperature was 86 degrees, on Friday, and the lowest we have recorded is 8 degrees.

Fifth Grade

This week we have had the best attendance since the first week of school. Those who have been absent tardy or absent this week were Pearl Alexander, Lillian Allhouse, Virginia Barr, Lawrence Dietle, Charles Downer, Marian Elsie, Robert Fisher, Edwin Gaunt, Garmely Holbrook, Gerald Hoover, Donald Knoll, Charles Lane, Roberta Lindsey, Jean Meservy, Jack Miller, Margaret Reel, Winfield Schunk, Richard Schmidt, Bessie Shinnaberry, Margaret Slane, Leonard Spiegelberg, Elva Fish and Richard Kinsey.

Lillian Allhouse will be our black-board artist next month.

Joanne Meservy gave us a report on David Copperfield, which was very interesting.

The Girls' and Boys' Council had enough money in their treasury to buy material to re-finish the piano. Leonard Spiegelberg did the work and the piano looks like new now—thanks to Leonard.

Lawrence Dietle will direct our chorus in two-part songs this week. Mrs. Dietle visited us on Monday.

Sixth Grade

We have elected new officers again. President—Helen Miller. Vice President—Barbara Carpenter. Secretary and Treasurer—Betty Fletcher.

We have a new map of the world for our lessons.

Betty Platt has completed reading an unabridged copy of David Copperfield. She read the entire book with in less than two weeks. She cut out and pasted on her book report, the pictures of many of the characters.

The Chatterbox

Maury Howe says he always catches cold when he doesn't wear his red hat.

There seems to be a new fall now. Its wearing smocks. The girls are running around in blue, green, red and yellow ones.

This column is made up of a few

things you said and did that we have seen and heard.

Pete's new nickname is Pat. Maury Lyons was overheard saying to Seitz: "Say what am I doing in three different tones." Whereby Seitz did and Maury replied, "Making a fool of yourself."

LET ME CALL YOU LIZZIE

(Sung to the tune of "Let Me Call You Sweetheart")

Let me call you Lizzie, I'm in debt for you.
Let me hear you rattle, Like most all folks do.
Keep your headlights glowing, And your tail light too.
Let me call you Lizzie, I'm in debt for you.

Large Crowd Attends Father-Son Banquet

The Father and Son banquet given at the Congregational church on Friday evening was a delightful occasion. About 110 fathers and sons were in attendance. The invocation was given by Rev. F. D. Mumby of the Methodist church. Supt. H. L. Blecker presided as toastmaster and the following program was given:

OUR NEIGHBORS

SALINE—High water. Saturday and Sunday played havoc with the dam being constructed at the Ford project. Observer.

MANCHESTER—The great amount of snow and ice that has melted up in the hills and run down the Raisin river has flowed over the dams in this village without causing any alarm as has sometimes been the case in years past. Fully over half of the upper pond is now free of ice. Enterprise.

JACKSON—On December 3 of last year, Edward Verchereau, aged 25, of 143 Henrietta street, got a job in a factory. The work was steady and over a three-month period he earned \$198. Last week he was hailed into municipal court, where he was convicted of bad citizenship and civic dishonor. The reason was that during the three months he has had a job he continued to ask and receive welfare aid. He got money for food and clothing and he got coal. Detected by welfare investigators, he was arrested. Admitting his guilt, he paid court costs and made restitution of \$6.35 for the latest ton of coal he had received. Welfare officials are to be congratulated on making an example of Edward Verchereau. And Verchereau stands convicted of conduct of the meanest sort, that of biting the hand that fed him. Evening Star.

34 YEARS AGO

Thursday, March 21, 1901

E. E. Rowe has purchased the John Cassidy farm.

Miss Lydia Heller of Lima and Albert Schenk of Freedom were married on Wednesday, March 13, 1901.

Died, on Tuesday, March 19, 1901, at her home in Unadilla, Mrs. Anna Gibney.

Died, on Saturday, March 16, 1901, at the home of her grandson, Fred Sager, Mrs. Katherine Sager.

Fire broke out in the drying room of the Chelsea Steam Laundry about 8 o'clock last night and before it was extinguished considerable damage had been done, both by fire and water.

The pile of wood in front of Hoag & Holmes', Saturday morning, was the center of attraction until R. A. Snyder's sharp ax, assisted by H. M. Twamley's ax and H. L. Woods' wheelbarrow had succeeded in removing it from sight. Considerable sport was gotten out of the affair but it will probably be some time before anyone around here makes any rash promises in regard to the election of certain candidates.

Amendment Will Be Submitted To Voters

There will be submitted to the electors, at the Biennial Spring Election to be held on Monday, April 1, 1935, the following proposed amendment to the Constitution of this State:

"Amendment with reference to the determination of the votes and contested elections by the Board of State Canvassers."

Amending Section 4 of Article XVI of the Constitution:

Sec. 4. In all cases of tie vote or contested election for any state office, except a member of the legislature, any recount or other determination thereof may be conducted by the board of state canvassers under such laws as the legislature may prescribe.

The section of the Constitution which would be altered or abrogated in the event of the adoption of this proposed amendment is as follows:

Sec. 4. In case two or more persons have an equal and the highest number of votes for any office, as canvassed by the board of state canvassers, the legislature in joint convention shall choose one of said persons to fill such office. When the determination of the board of state canvassers is contested the legislature in joint convention shall decide which person is elected.

Under the present Constitution, recounts in contests for state offices are conducted by the legislature. This amendment, if adopted, will permit the board of state canvassers to conduct any recount in all cases of tie vote or contested election for any state office, except a member of the legislature.

The word "Dutch" has been official-

Annual Report Issued By Chelsea Library

(Continued from First Page)
24 women. Their ability to keep the library open and growing is limited by that fact. One small group of

women are trying to run a Public Library with insufficient funds. There is no question that the Library is needed. The fact that nearly 9000 books are loaned annually is proof of that. The only unsolicited money ever given to the Library during its three years' existence was \$15, given

last year by the local American Legion Post.

The Library is governed by a Board of five members of the Child Study Club. These five women decide on all rules, regulations and policies undertaken by the Library. In July, 1933, several members went to the Village Council and asked for financial assistance. At that time they were told that the Council could do very little for the library as no provision had been made to cover such an appropriation, but that they might make us a gift of \$50, which they did later on. Meanwhile the Council told these women that if they would come back in May, 1934 and if the same men were still on the Council, they would make provision to give the library a substantial amount. Several members of the Club did go back in May, 1934. The Council heard their plea, and promised them a substantial amount. But in July, 1934 when the Library Chairman inquired what the Library was to get, she was told no provision for the library had been made. Not until another request was made in October, 1934 was the library given the \$50 noted in the receipts.

On March 5, 1935 the Library Board sent letters to the two candidates for Village President and to the six candidates for Village Trustees asking them: "If an appropriation is considered in the Council this year for this

work, would you vote favorably on it?" The responses to these eight letters were verbal with one exception. The Chairman of the Library Board reported faithfully and carefully what each said in answer to the letters, to the Child Study Club. As each of the eight candidates agreed that the Village should help the library substantially, no recommendations were made at that time or at any time, but the choice of candidates was left to the intelligence and personal desire of the Club members.

It would be a pity to have to give up so fine a project, used by so many of this community, for lack of financial support. Your interest is earnestly solicited.

Respectfully submitted,
Jean L. Eaton,
Chairman, Library Board.

LINER COLUMN

MR. FARMER—FERTILIZER made by the best known methods and from the best possible selection of raw materials available. Over fifty years of experience, study and experimentation has enabled Red Star Fertilizers to establish unequalled records in crop yields and crop quality. You should know too that Red Star is manufactured in such a way that it has no harmful after-effect in the soil. Most fertilizer is applied in a relatively small area of the soil surface and is usually close to the tender shoots and roots of plants. If such fertilizer leaves an acid residue, there will likely be injury to the plants. Red Star Fertilizers leave nothing that will cause such an acid effect. Red Star has always been and will continue to be manufactured to produce best results at the lowest cost and no higher goal can be attained or even imagined. Always on hand.
