Civic Activities Are
Increasing Under FHA

Detroit, May 1—Civic activities in the promotion of modernization and home building throughout the state of Michigan, induced by the Federal Housing Administration, have risen to a very high level, according to Raymond M. Foley, State Director. He announced today that 443 communities had selected local chairmen for this purpose. Local community committees are established on a civic basis through the interest aroused in Boards of Commerce, business groups, and the building trades in general. As a result of these activities, reports are being received from many towns in Michigan on the sharp upturn in building trades and employment. The community groups select their own chairmen.

In some instances there appears to be misunderstanding of the functions and responsibilities of the local Better Housing Committees, Mr. Foley said. "They are not official representatives of the Federal Housing Administration. They are local civic unpaid groups donating their services in co-operation with the Federal Housing Administration's efforts. They are furnished with plans, printed material and assistance from the state Federal Housing Administration office to carry on their campaign. This explanation appears necessary because in a few cases the committees have mistakenly advertised themselves as local branches of the Federal Housing Administration."

"We have been fortunate in being given the active and enthusiastic co-operation of a very large number of public-spirited citizens in almost every community of this state. They are carrying on this civic enterprise as a means of promoting business and employment in their towns. In most instances they have succeeded in raising local funds to finance the incidental costs. The Federal Housing Administration does not furnish these funds in any community."

"One of the major activities sponsored by these volunteer chairmen and committees is the obtaining of a house-to-house canvass to determine the extent of modernization of property needed in the community. These canvasses are FERA projects in almost all instances. The canvassers are furnished by FERA under the usual rules and practices of that organization. These canvasses have been given special approval because through them a great deal of employment on private payrolls is created, with a consequent lessening of the load on the welfare rolls. In a few instances, local communities have arranged their own canvasses through volunteer help without calling upon the FERA. In no instances are the canvassers selected or paid by the Federal Housing Administration and in no instances are any members of the local committees paid with government funds."

In a number of counties, the county director of the FERA is serving on an unpaid basis as county chairman of the Better Housing Committee in order to have more direct contact with the community canvasses made through the FERA, Foley announced. "Through the activities of the Federal Housing Administration and the volunteer efforts of several thousand persons who are donating their services in their community committees, a very large volume of modernization is developing throughout the state," Foley stated. "At the same time, much new construction of residences and refinancing of existing mortgage indebtedness is developing under Title II of the National Housing Act."

The State Director pointed out that the local committees do not have any authority to pass upon the eligibility of a borrower under the Federal Housing loan plans, either for modernization loans, which are made up on the basis of character, nor for mortgage loans under the insured mortgage plan.

Gerald Metzger,
News Reporter.Safety Campaign Is
Set for May 12 to 18

The opening wedge in a state-wide safety campaign was begun this week when plans were instituted for a Safety Education Week, proclaimed by Governor Frank D. Fitzgerald in Lansing, and followed by simultaneous announcements by the state Safety and Traffic Directors Association and the Automobile Club of Michigan of a series of campaigns that will include almost every section of the state.

The announcements from the Safety and Traffic Directors Association came from East Lansing, where the group was in session, and the Automobile Club's program was outlined at a meeting in Detroit by W. F. V. Neumann, safety and traffic chairman.

Safety Education Week is scheduled from May 12 to 18, inclusive, and is intended as the beginning of a series of safety measures to be carried on throughout the state during the remainder of 1935. All state, county and city officials and safety institutions have been called upon to exert every influence to cut down Michigan's appalling traffic death rate. Last year 943 persons were killed in traffic accidents and in excess of 10,000 were injured.

The following cities have already announced elaborate programs for the period of May 12 through 18: when Safety Education Week will be in progress: Adrian, Ann Arbor, Battle Creek, Bay City, Detroit, Jackson, Kalamazoo, Lansing, Monroe, Niles, Port Huron, Saginaw, and Wyandotte, Albion, Benton Harbor, Coldwater,

Grand Rapids, Mt. Clemens, Pontiac, Sturgis and Ypsilanti have made tentative plans for similar programs.

Safety Education Week 1935

The increasing number of deaths and injuries resulting from automobile accidents gives cause for grave concern. Nine hundred forty-three persons met untimely deaths—ten thousand more were injured, in a state-wide series of traffic mishaps during 1934. These accidents are man-made. They are the result of lax vigilance on the part of motorists or pedestrians, or both. All the engineering genius in the world cannot build a foolproof highway. The problem is one of dealing with human nature.

We must do everything in our power to stop this rising toll of deaths in the State of Michigan.

In the name of humanity, and as Governor of the State of Michigan, I hereby proclaim the period from May 12th to 18th, inclusive, as Safety Education Week, to be devoted to a state-wide program of highway safety education, with every interested agency in Michigan devoting its greatest efforts and resources to the end that greater vigilance on the streets and highways of this state will become a part of the lives of all good citizens.

I suggest that mayors, village presidents, chairmen of county boards of supervisors and other public officials likewise call the attention of the people to this observance, so that it will be general throughout the State.

Given under my hand and the Great Seal of the State of Michigan, this twenty-third day of April, in the year of our Lord one thousand nine hundred and thirty-five, and of the Commonwealth, the ninety-ninth.

(Signed)

Frank D. Fitzgerald,
Governor.

The fire was discovered shortly after three in the morning, but the flames quickly spread through the old frame building and the building and contents were burned to the ground. The school was said to have been one of the oldest in Monroe county and was located about two miles south of Oakville. The cause of the fire is being investigated by the sheriff's department. The loss is estimated at about twelve hundred dollars. Thirteen pupils attended the school. —Leader.

Ask Farmers To Vote On Wheat Contracts

Michigan wheat growers and producers of that grain in the rest of the states will determine between now and May 25 whether the benefit payment plan for the control of wheat production shall be continued after this year, according to George E. Farrell, chief of the wheat section.

All wheat contracts between the farmers and the secretary of agriculture expire at the close of the 1935 crop year. New contracts will not be offered unless a majority of the wheat growers of the United States vote favorably in the referendum which will be conducted. Both contract and non-contract signers will be given the chance to express their opinion of the plan.

Local meetings will be held in Michigan at which farmers on the local control boards will discuss the results secured with the contracts in the past two years and what may be expected in the event the plan is continued or if it is abandoned. Notice will be sent to all contract holders of the time and place of meetings and any wheat growers are invited to attend.

Total payments to Michigan farmers on wheat contracts under the plan in effect the past two years were \$1,280,779 up to Jan. 31, 1935. The second payment on the 1935 crop will be made when proof of compliance is possible. This money went to farmers in 73 Michigan counties, the largest county payment being \$116,887.91, to Eaton county growers and the smallest amount, \$168.45, to farmers in Kalkaska county.

The election to be conducted will permit every wheat grower to register his opinion of the plan in such a way that no one will know how he votes. The farmer should listen to the arguments for and against the plan and then vote his honest convictions. An unfavorable vote will end the benefit payment plan of wheat adjustment at the end of this crop year. A favorable vote will be accepted by Secretary Henry A. Wallace as the request of wheat growers for benefit payment contracts to cover the 1936 and later wheat crops.

NORTHVILLE—Surveyors staked out the preliminary lay-out of the new Ford plant here Thursday, arriving less than a day after Henry Ford had made a selection of the site. This tentative layout shows that the new building will be about 50 feet east of the present factory, and that its dimensions will be 200 feet by 100 feet. Mr. Ford and his engineers are expected to return within the next few days to inspect and approve the lay-out. —Record.

Question And Answer Dept.

Ques.—Will you please print in your question and answer department the countries which are members of the League of Nations?

Ans.—The following countries are members of the League of Nations: Great Britain, France, Italy, Russia, Spain, Sweden, Denmark, Norway, Finland, Serbia, Roumania, Switzerland, Portugal, Austria, Brazil, Belgium, Holland, Liberia. A majority represented forms a quorum. A few that had signed the "dotted line" have withdrawn.

Ques.—Will you please tell me if a chicken can chew its food? Also isn't it injurious for them to swallow without chewing?

Ans.—A chicken cannot chew its food because it has no teeth. Chickens swallow all their food whole, and if a morsel of food is too large to swallow, it will snap it around on the ground in an effort to break it up into fragments small enough to swallow. They have been known to choke to death in attempting to swallow something too large for them.

Ques.—How and when did Alabama vote on the repeal of the old Eighteenth Amendment?

Ans.—Alabama voted on repeal on August 1, 1933. The vote was for repeal by an overwhelming majority—nearly 3 to 1.

Ques.—In the game of contract bridge does the ace, king or queen of a suit have a value of three tricks? If not, why not?

Ans.—The ace, king and queen of a suit has a trick value of 2½. This is reckoned by the law of averages, because they will not always go around three times without being trumped by the adversary.

Ques.—To settle a dispute will you kindly answer whether the Battle of Waterloo was fought on Saturday or Sunday?

Ans.—It was Napoleon's original intention to open hostilities against the British on Saturday night. But heavy rains that day and night delayed the action. At daylight on Sun-

day morning he opened the battle as the aggressor. He maintained an all-day savage attack and seemed on the verge of another brilliant victory when Wellington, in command of the British, saw Blucher, his German ally, coming to his assistance with 60,000 fresh troops and turned certain victory into an ignominious rout for Napoleon.

Ques.—Will you please answer two questions for me in your good paper? Which is the largest planet in the solar system, and how large is it? How long does it take the largest planet to revolve around the sun?

Ans.—Jupiter is the largest planet in the solar system. It is 269,100 miles in circumference and it circles the sun once in every 11 8-4 years. Notwithstanding the foregoing, Pluto may be the largest planet in the solar system. Little is known of it except that it is four billion six hundred million miles distant from the sun and requires nearly four hundred years to go around the sun.

Ques.—What are the four largest cities of the world?

Ans.—The four largest cities of the world according to the 1930 census are as follows: London, 8,202,818; New York, 6,981,915; Tokyo (Japan) 5,312,000; Chicago, 4,609,240.

Ques.—Why is corn bread called "Johnny cake?"

Ans.—The Shawnee Indians, who lived in Maryland, Virginia, Pennsylvania and Ohio, would grind cornmeal as fine as the means at command would permit. This was mixed with water and baked on a flat stone which had been previously heated in a fire. The early hunters and trappers in this vicinity followed the example of the Indians in baking the cornmeal mixture, which they named "Shawnee" cakes, after the tribe. After a lapse of many years, "Shawnee cake" was corrupted by those who did not know its origin into "Johnny cake", and the name has survived, and "Shawnee cake" has become obsolete from disuse.

Meaning of Name "Sandusky"
The name "Sandusky" comes from the Wyandotte language and signifies "water within water pools" or a water course wherein water stands in pools.

"Dad, I passed my last exam today!"

ACROSS plains and mountain ranges, hurdling rivers and towns, a human voice speeds along a wire. And so incredibly swift is its flight that even while the words are still sounding in a far-distant room, the voice is flowing into a Michigan home, a welcome guest—and a familiar one.

From a miracle, long-distance communication by telephone has developed into an integral part of every-day American life.

It is the quickest way to relieve anxiety; it is an unequalled means of sending congratulations or condolences; it can reunite scattered members of a family; it can bring together friends who have been parted by the intervening miles.

There is no way of estimating the human value of this modern necessity; for there is no way of measuring the joy and

reassurance and satisfaction which—by the mere lifting of a receiver—can be derived from the sound of a well-remembered voice.

It is a tribute to modern telephone service that such long-distance communication by word of mouth is no longer considered something at which to marvel. In a few short years the miracle has become a commonplace. It is now accepted as a matter of course even by those whose memories go back to a day in which long-distance conversation was utterly unknown.

One of the functions of the Michigan Bell Telephone Company is to supply this modern necessity to the people of Michigan; and to supply it at the lowest rates that will adequately provide for the maintenance and improvement of the service.

Rev. Brown Speaks At Farmers' Club Meeting

The Western Washtenaw Farmers' club met Friday evening in the basement of the Congregational church. Following the supper at 7:00 o'clock, a program was given, consisting of group singing led by Theo. Riemschneider, president of the club, invocation by Rev. H. A. Leeson, a humorous reading by F. E. Storms, and an address by State Representative V. J. Brown of Mason.

Mr. Brown stated that it is essential that sanity be injected into governmental policies of the state and nation—that the same amount of government must be given at considerable less expense to taxpayers. The speaker said the sales tax is one of the most equitable taxes ever imposed in the state, and opposed exemptions of foodstuffs as has been recommended by the administration. He also spoke in favor of a graduated state income tax, imposed according to the ability of the individual to pay. He spoke in opposition to the present tax delinquency bill which is before the legislature and prophesied its defeat. He contends that the cancellation of back taxes would be an injustice to those who have made sacrifices during the past few years to pay their honest tax obligations, thus keeping the necessary functions of government in operation, while others who could afford to pay have refused to do so, awaiting an opportunity to have their tax indebtedness reduced or cancelled entirely.

The speaker stated that the public indebtedness in Michigan increased from \$50,000,000 in 1918 to \$218,000,000 in 1932, and that of the total income of \$2,000,000,000 of Michigan citizens in 1931, \$285,000,000 went for operation of governmental functions.

He spoke in favor of the Thatcher-Sias school aid law and predicted that eventually the full burden of operating school systems in the state would be paid from state funds, to be raised from indirect taxation. He favors abolition of all property tax and stated that intangible as well as tangible effects must be placed in the taxation column.

Mr. Brown also spoke in favor of unemployment insurance, but said that instead of glorifying only the people who have reached the age of 70 the plan must be devised so as to aid the employable man of 45 who in many cases is cast aside by the present industrial system. His needs, in the opinion of the speaker, are greater than the man who has reached the mature age of 70.

In closing, Mr. Brown advocated sweeping changes in the banking and securities laws of the state, laxity of which cost investors in many cases their entire life savings.

On Friday we took our village, Linville, outdoors and Miss Yager took pictures of it. We then took our buildings home.

We had housecleaning in first grade Friday morning. Our cupboards were cleaned. We washed and ironed and some of the boys cleaned the lawn.

Second Grade

Those who have been neither absent nor tardy during the past six weeks are: Kathleen Fiske, Eva Geddes, Marjorie Gilson, Ruth Paul, Ruth Ann Schenk, Bobby Schenk and Philip Tompkins.

Spring flowers which the boys and girls found in the woods Sunday fill our room with their fragrance.

We are beginning the review of our number work.

Philip Vogel made an airplane that can fly. He made it of balsam wood, wire, and tissue paper. He cemented it together. We watched him fly it.

Doris Collins has been drawing many pretty pictures of birds, flowers, butterflies, bird houses and gardens. She has enlarged many scenes taken from her tablets. She plans on making an art book with these very fine drawings.

We enjoyed the book "Pinocchio's Visit To America." Miss Bollore is now reading Honey Bees and Fairy Dust. Eleanor Harper brought us the April copy of the Geographic magazine. This magazine has some very fine pictures of bees and their ways of living.

Jean Ray visited us last Tuesday. She was Doris Collins' guest.

The following have been neither absent nor tardy during the last six weeks of school: James Barkley, Margaret Knapp, Dorothy Knickerbocker, Luther Kusterer, Edith McDonald, Clayton Myers, Doris Parsons, Daniel Scripper, Russell Scripper, Irvin Slane, and Wilma Spiegelberg.

Clayton Myers' row is ahead in the self control auto race.

This morning when we returned to school we found that our cecropia moth had emerged from its cocoon. It is a beautiful large moth. It has six legs, two antennae. The wings are black, brown and yellow with spots of white and red. The outside of the wings is a grayish white. We are going to make a cyanide jar and mount as many specimens of butterflies, bugs, insects and moths as we can.

Luther brought us a big bouquet of marsh marigolds.

Twelve people have been selected to make a scene of the Belgian Congo in the sand table.

Dolores brought us a bouquet of hepaticas. She got them in a woods near Sugar Loaf Lake.

The fourth grade's cecropia butterfly interests us very much.

Ballots were cast for the May Queen on Monday. Virginia Barry received the highest number of votes. She will choose her own maid of honor and other attendants. The following qualities are considered when choosing the queen: Courtesy, thoughtfulness of others, and good citizenship in general.

The origin of the May Pole Dance dates back to early Roman history when the Roman girls danced around a living tree with streamers of real flowers woven together. This was part of their festival to celebrate the coming of spring and the banishment of winter. It was given in honor of Flora, the goddess of flowers and was the beginning of the modern May Day festival with its May Pole dance.

In Geography each one has received their special assignment for the study of South America. We have already found many physical similarities to North America, the study of which we have just finished. We are also making a physical map of South America similar to the one we have just finished of North America.

Caesar Says

Greetings—I am back to bring to you a few laughs. I've found out what makes people laugh. It's a relieving of mental tension brought on by an incident which the mind cannot follow as—

At a play a lady once asked a friend of mine to sit down in front and he's been a cripple ever since. He wasn't built that way.

Miss Fowlkes—Have you read (red) 'Freckles'?

K. Conlan—No, mine are brown.

Mother—Why didn't you yawn when he stayed too long?

Bored—I did but all he said is 'What beautiful teeth you have.'

A policeman making his rounds found a citizen in the horse tank waving a handkerchief saying 'Save the women and children first—I can swim.'

Hints to motorists:

Go slow and fare well—go fast and farewell.

Does Dud go in swimming?

Yes, we all have to go in to swim.

Where have I seen your face before?

Right where it is now.

—To those people who think their face is their fortune, remember the richest are not always the happiest.

Adois.

Senior Spring Frolic

No hum—was what everyone was saying Saturday morning after a most successful time the evening before. Friday night seemed to be a regular fashion show for what the well-dressed girl and boy will wear for spring. Light suits and white shoes were noticeable on the boys and swaggy suits and frilly dresses were worn by the female element.

Roy Matthews and his orchestra were really "going to town" (to use a slang expression) not to mention the girl singer who, by the way, seemed rather in demand after intermission.

If any scandal was said about the various high school students, I'm afraid it would spoil the good time that was had by all. I might say that Grass Lake seemed much in evidence and livened up the party. Our teachers, too, were most highly entertained by strangers in Chelsea. However, embarrassing none, I might say "Hats off to the Seniors! We knew they'd make it a success!"

Defeat Lincoln

The Chelsea high school baseball team opened the home season by defeating Lincoln Consolidated of Ypsilanti, 1 to 0, on Friday. This game contained everything one could ask for in the way of pitching, hitting and sparkling fielding plays. Dick Barton, local ace and Bobey of the visitors, hooked up in a mound duel which was nip and tuck all the way, only to be decided by a home run from the bat of the hard hitting Junior Seitz in the second inning. Both pitchers were stingy with the hits, Barton allowing but 3, while the Chelsea boys collected 4 off the deliveries of Bobey. The Chelsea boys getting hits were Allshouse, D. Kennedy, Hart and Seitz.

Great fielding plays were turned in by both teams and especially brilliant were those made by Harvey, C. Panarites and Allshouse, cutting off possible base hits and scoring opportunities for the visitors.

The Chelsea team journeys to Saline for another league game on Friday and then play two league games at home next week, meeting Dundee on Tuesday and Belleville on Friday.

Ancient Rome's Marriage Ceremony

"Social Life at Rome in the Age of Rome" says: "The sacramental ceremony called confarreatio (because of sacred cake, made of the old Italian grain called far and offered to Jupiter Farreus) was partaken of by bride and groom in the presence of the Pontifex Maximus, the Flamen Dialis and ten other witnesses. At such ceremony the altiplex had, of course, been taken and apparently a victim was also slain and probably offered to (twice) the sky, of which was stretched over two seats (celae) on which the bride and bridegroom had to sit."

Potticott Lane

Potticott Lane, London, was so named in the seventeenth century when a colony of French weavers was established there. Before that time it was known as Hog Lane. From about 1800 it has been known as Middlesex street. It extended north from High street, Whitechapel, to Whitegate street, Highbury. For many years it has been a Jewish quarter, and is known chiefly as a second-hand clothing market. -Literary Digest.

The Man Who Fell Through the Earth

JOHN O'CONNOR, a gauger, going to his place of employment, was seen crossing London bridge one morning, but after that disappeared as completely as though he had fallen through the earth.

What added to the mystery was the fact that O'Connor was very well known along the London docks. He was an expert in his line and never without a job. That such a man could drop out of sight without leaving a single trace behind him seemed to be incredible. Yet the records of the police department show that thousands of men and women disappear every year and are never heard of afterward.

The authorities in the course of their investigation made a tour of all the hospitals and morgues, but without success. The case became famous, and it was generally referred to as the mystery of the man who fell through the earth. Inspector Fox was designated by Scotland Yard to follow up the investigation, and he plunged into it with a great deal of enthusiasm. His colleagues taunted him with the hopelessness of the quest, saying that nothing would ever come of it, but Fox was not discouraged in the least. He determined to use his brains as well as his feet.

But, after reviewing the whole affair in his mind, he put to himself this query: "Who was the woman in the case?" Then he proceeded to answer it by personal investigations along this line. He learned that in his younger days O'Connor was looked upon as a good "catch" among the ladies. In the course of his inquiries, the detective found that O'Connor had been smitten with a pretty Swiss girl named Rania.

She had once been in the service of the Duchess of Sutherland and thought well of herself. O'Connor paid her constant attention and eventually asked her to marry him. She did not positively refuse him, but postponed a definite answer. In the meanwhile O'Connor discovered that she was also receiving attentions from Samuel Manning, an employee of the Great Western railway. This rivalry continued for quite a while and between the two men pretty Marie managed to have a pleasant time.

Eventually, however, the girl married Manning. O'Connor was disappointed, but he took his defeat very philosophically. He was a good-natured man, with a happy disposition, and he continued his friendship with Mr. and Mrs. Manning. At this stage of the investigation Detective Fox made an important discovery. It was that on the August evening of the day he disappeared O'Connor had made an engagement to take dinner with the Mannings at their home in Minerva place, Brompton.

Two of his friends met him as he was crossing London bridge on his way to keep his appointment. They never afterward saw him alive. The next move of the detective was to interview Mrs. Manning. She expressed surprise when told of the disappearance of the gauger, but was quite willing to tell all she knew. She said he had called at their house on the evening in question, had dined with them and left early.

County Delinquency To Be Discussed Friday

Pray, Circuit Judge George W. Sample, chair county officers, and the members of President Ruthven's Treatment-Planning Committee in Ann Arbor have called to meet at the Court House at 1:30 p. m. May 3. One of the interesting subjects to be brought before the conference is the survey of conditions in Washtenaw villages recently completed by Harry Meyerling, research assistant in sociology at the University, who has been interviewing village leaders for the last six months.

Former State Senator Herbert P. Orr of Carleton, now a member of the State Crime Commission, Warden John Ryan of the Federal Prison at Milan, and Prof. Lowell J. Carr, director of the Michigan Juvenile Delinquency Information Service at the University, will be the speakers at the opening session of the conference in the circuit courtroom. Judge Pray will preside.

Invitations have been sent to all rural teachers to school executives throughout the county, to village presidents and city mayors, to chiefs of police, all supervisors, to presidents of service clubs, P. T. A. organizations and other civic bodies and to editors, ministers and other community leaders in Ann Arbor, Ypsilanti, Chelsea, Dexter, Milan, Manchester, Saline, Salem and Whitmore Lake. The committee on arrangements has been unable to obtain a complete list of the presidents of women's clubs and granges in the county and has appealed in the newspapers to extend the invitation on its behalf. Officials of any organization interested in the welfare of boys and girls are included in a blanket invitation to attend.

OUR 3rd Anniversary Sale

ALL OF Our Prices Include the 3% Sales Tax

The Red & White Stores of South Central Michigan are celebrating their 3rd Anniversary. On this occasion we wish to extend our sincere thanks to the people of the different localities who have made it possible for us to give employment to so many local people, who assist in up-building the communities in which they live. By patronizing a real home-owned store, you really "do your part."

The Red & White Stores are all members of an international organization of independently-owned stores, banded together, by mutual consent, to give you, Mrs. Housewife, quality merchandise at reasonable prices. Naturally, the thousands of Red & White Stores in the United States and Canada enjoy a tremendous buying power and their savings are passed on to you. Our buyers have planned this 3rd Anniversary sale for months—so now for the next six days be sure and get your share of these extra values at your nearest Red & White Store!
