Back to its mansion call the fleeting breath?
Can honor's voice provoke the silent dust
Or flattery soothe the dull, cold ear of death?—Gray
No, no act of the living can call back those who have passed to the Great Beyond. But by a reverent care of their mortal remains we can show our respect for their memory, and alleviate the grief of those who remain. Such is the aim of this organization.

West Middle Street Will Be Stabilized

Arrangements were made by the common council at their meeting Monday evening to let the contract for stabilizing West Middle street to the Washtenaw County Road Commission. Kenneth Hallenbeck, manager, and J. P. Huber, maintenance superintendent, represented the road commission at the council meeting. The stabilizing will consist of a 4-inch surfacing of gravel, calcium chloride, clay and salt. The road commission representatives, as well as contractors who have been here to inspect the street, state that such a surfacing is necessary before permanent blacktop could be applied. This stabilizing will make a good dustless roadbed until such time as the village can apply the permanent surfacing.

The work will be started as soon as possible, but the exact time is indefinite as the road commission has many construction projects for this summer. The work will be paid for with weight and gas tax funds which will be related to the village from the state treasury, and will be done without any tax increase for this purpose. It is estimated by the road commission that it will take them about ten days to complete the stabilizing and the work will be done at their cost, which will no doubt be quite a saving to the village.

Acting on the recommendation of President Harris the council voted to reduce the electric rates, effective as of May 15. The reduction will be a saving to those who use more than 50 KW hours. The schedule of rates is now as follows:

First 15 KW hours 10c—No change.
Next 35 KW hours 5c—No change.
All over 50 KW hours 2 1/2c. The rate has been 2 1/2c for all over 100 KW hours, and from 50 to 100 KW hours the rate has been 4c.

Another important item of business at the Monday meeting was the authorization by the council for the president to have the flagpole moved from the center of the intersection of Main and Middle streets. The matter of a new location has not been decided upon but it is planned to move the pole in the near future.

President Harris appointed Dorr Rogers as a member of the Board of Review. Conrad Lehman had been appointed to this board but is a member of the township board and cannot act on both bodies. The president and clerk were authorized to sign as village representatives, the petitions which are being circulated in an effort to keep the US-12 highway in its present location.

Legion Makes Plans for Decoration Day

At a meeting of the American Legion held Thursday evening, Ed. Miller, Commander, appointed committees to make arrangements for the proper observance of Decoration Day. The committees are as follows: Program—Chester Miller, A. L. Brock, John O'Hara and C. O. Bahnmiller. Decorations—Wm. Kolb, Wilbur Riemenschneider and Wilbur Hinderer. Flag—Paul G. Maroney.

Marshal of the Day—Faye Palmer. The customary practice of holding memorial services at 10 o'clock in the morning will be followed this year, the program to be rendered in the public school auditorium. There will be a parade of school children and patriotic organizations as usual, with services to follow at the cemetery.

A good speaker will be obtained for the occasion, and the program in detail will be published at a later date. The annual Poppy Sale will be conducted by the Legion on the Saturday before Decoration Day. Girl Scouts will sell the poppies.

Local Students Win In District Contest

Eileen Adam won first place with her declamation "Acres of Diamonds", and Estelle Setz won third place with her original oration, "Peace With Honor", at the district contest held Friday, May 3 at Homer.

The school was presented with a beautiful banner by the University of Michigan for winning in the declamation division. Contestants were present from Litchfield, Camden, Quincy and Chelsea.

Eileen Adam was coached by Roberta Fowkes and Estelle Setz by Miss Barrus. This contest closes the season in declamation and oration contests, and the Chelsea coaches and contestants are to be congratulated on the very fine results.

Miss Adam and Miss Setz gave their productions at the Kiwanis club meeting Monday evening.

Property Owners Respond to Better Housing Program

Check lists showing that hundreds of home owners in Chelsea and vicinity plan to make some improvements to their property this year have been turned over to the local Better Housing Program committee by the five canvassers who have been covering the territory during the past few weeks.

Improvements listed on the cards range from interior and exterior painting, roofing, etc. to extensive modernization of homes which has been long neglected but is now possible through the liberal loan plan of the Federal Housing Administration. Most of the work will be started in the near future and it is expected that every local building tradesman will be employed as the result of this activity sponsored by the federal government.

The Federal Housing Administration, in its rules and regulations covering the making of loans, will not require collateral, except in cases where the State law demands mortgages as security for loans. This is true of some building and loan associations and savings banks, but the great majority of loans to be made under this plan will be in the form of character loans, based solely on the reputation of the borrower and his ability to repay. Endorsers and co-signers will not be required.

James A. Moffett, Housing Administrator, has emphasized that while the Administration is anxious to receive the heartiest cooperation from property owners and the public, no modernization loans that are not fully justified on the grounds of sound judgment are desired. He stated clearly that pressure will not be put on property owners to borrow just to make this program a success; that his administration's one aim is to make property improvement loans available to the owner who is in a position to repay the loan and whose property may be made more efficient through modernization.

Property owners may apply for improvement loans ranging from \$100 to \$2,000, and for a term of as much as three years. The total charge for a loan, including interest, fees, etc., will not exceed an amount equivalent to \$5 per \$100 of the original face amount of a one year note, deductible in advance. The Chelsea State Bank is prepared to give full information, without obligation, as well as to receive applications. The applicant does not have to be a depositor in the institution to receive a loan.

Stockyards Meeting Will Be Held Friday

A meeting of local business men and farmers from the surrounding territory will be held Friday evening at 8:00 o'clock in the Kiwanis club rooms, at which time the matter of organizing a livestock auction sales company and the construction of stockyards in Chelsea will be definitely decided.

W. D. Skran, manager of the Owosso stockyards, and others interested in the proposition will attend this meeting, to explain the proposition thoroughly and outline plans for the organization. It is hoped that every business man in the village, as well as every farmer interested in receiving higher prices for his livestock, will be present at this meeting.

In a communication received recently from the secretary of the Owosso Chamber of Commerce it is stated that from the first 52 sales held in that city, \$650,000.00 was paid to farmers for their livestock. In practically all cases higher prices received were higher than quotations on the Detroit market.

A livestock auction sales company was organized in Breckenridge recently and the first sale was held last week. More than 800 head of livestock was sold at that sale.

If a decision is reached to organize a company here and sufficient capital is raised construction will be started at an early date and sales will be held within the next few weeks.

Mr. and Mrs. P. Palmer Observe Golden Wedg

With the beautiful Sylvan Estates Country Club for its attractive setting, a dinner was served to fifty-three guests Sunday, May 5, celebrating the fiftieth wedding anniversary of Mr. and Mrs. Perry Palmer of Clear Lake. The decorations were gold-candles and favors, with jonquils and yellow snapdragons. A three-tiered wedding cake, surmounted by a miniature bride and groom, was cut by the bride at the close of the dinner, and served to the diners. Food was blessed by George Whitaker of Gregory, a cousin of the bride. Mrs. A. A. Palmer sang two spring songs. She was accompanied by Mrs. G. W. Walworth.

Several telegrams were presented by Dr. Faye Palmer of Chelsea, nephew of the groom, with other interesting remarks and reminiscences. Remarks also were made by Frank Taylor of Tawas City, father-in-law of G. W. Prescott, Tawas City, who with Mrs. Prescott, was also present. Mr. Taylor was a guest at the wedding fifty years ago.

There were many lovely gifts, flowers, potted plants and greeting cards. A purple-and-gold-bound memory book, containing recent snapshots of the bride and groom, and signatures of all the guests, was presented by Glenn Stephens of Detroit, nephew of the bride.

After the dinner other friends and neighbors came in. Followed shining hours with tea and talk, reviving dear memories of other days, renewing and cementing more closely the ties of families and friends. A glorious day! May the glow of it diffuse its blessing over the days to come to the happy participants.

Guests were present from Detroit, Ann Arbor, Howell, Munith, Jackson, Gregory, Tawas City, Chelsea, Waterloo and Clear Lake. Among them were eight who attended the wedding fifty years ago.

The occasion, planned and arranged by the nephews and nieces of the bride and groom, was a complete surprise to Mr. and Mrs. Palmer, who were enticed to Sylvan Estates, not without difficulty, where the assembled guests were awaiting them.

Mr. and Mrs. Palmer recently returned from California where they spent the winter.

Mr. Palmer was for forty-three years associated with the M. C. Railroad Company as an engineer out of Detroit. The last six years of his service he was on the Twilight Limited. Mr. Palmer was retired on his seventieth birthday, June 22, 1932.

Will Discuss Hunting At Conservation Meet

Some discussion of next fall's possibilities in duck-shooting may develop at the meeting of the Washtenaw County Conservation Association which is to be held in the town hall here on the evening of Tuesday, May 14.

C. D. Platt, Federal representative in charge of the Waterloo Recreational Project is to be the speaker, and will explain the plan and present state of the government development to the Washtenaw sportsmen, and to members of the Jackson County Conservation League, which has been invited to participate in the meeting.

Scientists and sportsmen who have recently been in the Waterloo area report that the rains of the past few weeks have refilled many ponds and marshes which have been dry for several seasons, and that mallards, teal and other species of "native ducks" are nesting in the Waterloo district in large numbers.

It has been pointed out by local sportsmen that much of the best duck ground in Washtenaw and Jackson counties lies in the Waterloo area, and that while all this region will be a game sanctuary next fall, an increase in the number of "nesters" will mean improved duck shooting in the territory adjoining that which has been included in the Federal holdings.

500 ATTEND DANCE

Tim Doolittle and his Pine Center Gang, under the auspices of the Herbert J. McKune Post of the American Legion, entertained one of the largest dance crowds ever assembled in Chelsea, last Friday evening at the public school auditorium. Approximately five hundred dancers and spectators enjoyed the entertainment as furnished by "Tim." Due to the varied selections and the fact that old time as well as modern music was included in the program, all who attended report a most enjoyable evening. This was Tim's first appearance locally and the affair was a huge success financially to the local Legion Post, who wish to extend their appreciation to the public for their support in this event.

Article Tells Success of Elmer L. Hammond

Chelsea friends of Elmer L. Hammond will be interested in an article published in "The Mississippian", official publication of the University of Mississippi, telling of the progress of the School of Pharmacy of the University under Mr. Hammond, Dean of the school. Mr. Hammond is the son of Mr. and Mrs. F. A. Hammond of Chelsea. The article follows:

The Ole Miss school of Pharmacy is headed by a man of whom every Mississippian can be justly proud, Elmer L. Hammond, who since September 1929 has served as Dean of the school.

Dean Hammond was born in Chicago in 1895 and attended the public schools of that city until his parents moved to Michigan when he was nine years of age. He received his high school education at the Chelsea, Mich. high school and was a student at the University of Michigan School of Pharmacy intermittently during the years from 1914 to 1921.

When his work at the University was interrupted by the World War, he volunteered for service as an aerial photographer and was later assigned on special duty with the Medical Corps.

After the war he returned to the University of Michigan and was graduated in June 1921, when he received the degrees of Pharmaceutical Chemist and Bachelor of Science in Pharmacy. The following September he assumed his duties as an instructor in Pharmacy at West Virginia University. By carrying on graduate work in pharmacy both at West Virginia University and the University of Michigan summer sessions, he completed the work and was awarded the degree of Master of Science by the Graduate School of the University of Michigan in 1923. He did advanced work in Food and Drug Analysis, the subject of his research was "Determination of Tannins in Fluid-Extracts and Tinctures." Since that time he has done further graduate study at the University of Chicago during the summers of 1927 and 1929 at the University of Wisconsin in 1930.

In June 1928 he resigned his position at West Virginia to succeed Professor Henry Minor Faser, who resigned after having served as dean of the Ole Miss School of Pharmacy since its establishment in 1908. After one year as acting dean, Professor Hammond was made dean on September 1, 1929 and since that time has served efficiently in that capacity.

As might be expected, Dean Hammond is a champion of education in its various phases, but more particularly with reference to its effect upon the future of the pharmaceutical profession and pharmacists generally. He is a member of the Syllabus Committee of the American Association of Colleges of Pharmacy and has been instrumental in the mapping out the new four-year curriculum recently made effective in all accredited colleges of pharmacy. He also served as chairman of the Conference of Teachers of Pharmacy at the joint meeting of the American and Canadian Pharmaceutical Associations in Toronto in 1932.

New Loan Plan Will Benefit Farm Homes

"Our farmers and people living in the smallest communities will benefit as much as the city dweller from the Better Housing Program," was the comment today of Theo. H. Bahnmiller, chairman of the local campaign committee, in stressing the wide scope of Title I of the National Housing Act.

"We have learned through the United States Department of Agriculture," he said, "that out of every 100 farmhouses, probably 50 are under the desired standard of livability; that 15 need new foundations; 15 to 20, new roofs; 10 to 15, new floors; 10, new walls; and a large number lack running water and bath facilities."

"This modernization program offers the farmer the same means of bringing his property up to modern standards—also, of improving his barns and other buildings—as is given the city home owner."

"Under this plan, the money for such improvements is available through a local approved financial institution as a character loan, payable by farming-income seasons over a period of 3, and in certain cases 5, years. The borrower is fully protected from excessive financing charges."

"Here is a brief outline of the procedure:

"1. A modernization loan is solely for the purpose of repairing, altering, or improving the farm-home, barn, silo, shop, store, or other building (with deepening or digging wells permissible in drought-stricken States). Diversion of this money to any other purpose is prohibited."

"2. The loan cannot be for less than \$100 or for more than \$2,000. In addition, the borrower must have a regular source of income equal to at least five times the annual payments."

"3. The loans can be made for a term up to 3 years (5 years in special cases), but may be paid in full earlier than the maturity date if the borrower desires."

"4. Maximum charges, including interest and all fees, cannot exceed an amount equivalent to 5% discount per year per \$100 original face amount of the note."

"5. The property owner files a property owner's credit statement with the bank, showing his financial condition, sources and amount of income and other information necessary to determine his ability to repay the loan."

"If the bank considers the improvements advisable, and the property owner able to meet the payments when due, it can advance the money on the personal note of the property owner. No endorsers or co-signers are required, and no mortgage or collateral security is necessary, unless State laws or bank officials demand it."

OUR NEIGHBORS

PLYMOUTH—Construction of a 29 foot black top paving from the city limits on Penniman avenue to the Washtenaw county line has been started by the county and will probably be completed within a month. The Washtenaw county road commission has advised The Plymouth Mail that it is their hope and plan to continue the same type of paving on the Territorial road next year from the Washtenaw county line to the Whitmore lake road. The thoroughfare in Washtenaw county this year will be treated with calcium chloride.—Mail.

SOUTH LYON—L. I. Birkelbaw experienced a tremendously exciting episode Monday morning—he isn't particularly desirous of having the act repeated either (it's too racking on one's nerves). He had driven to the vicinity of the stockyards to get a quantity of steel hoops which had been used a few years ago on the vats at the pickle plant stationed there. He was dragging the hoops back of his car, to take them to his machine shop. As he drove over the Pere Marquette crossing near the yards, the hoops caught on the tracks. Mr. Birkelbaw stopped his car and as he got out observed with no little dismay the approach of the Pere Marquette fast passenger train from Detroit, which was rounding the bend just east of the depot, and which does not stop at the local station. The hoops were directly in its path, which fact caused the excited man to dash down the track endeavoring to signal the train as he went. Luckily the locomotive was not traveling at high speed when it crashed over the hoops, else there's the possibility this story might have been different. As it was, nothing serious happened, and Mr. Birkelbaw continued on to his machine shop with the hoops—twisted into all sorts of shapes and figures—after they had been extricated from beneath the engine.—Herald.

DEXTER—On May 5, the family of Mrs. Albetine Elsen will observe her 90th birthday. Those who are expected to participate in the celebration at the home of Rev. and Mrs. A. A. Schoen are: Rev. Theo. Elsen and family of Niles, Paul of Elmhurst college, Agnes of Chagrin Falls, Ohio, and Ruth of Detroit; Mr. and Mrs. Adolph Elsen, Robert and Marguerite, and Rev. and Mrs. J. Lee of Detroit; also Hedwig Schoen of Detroit. Mrs. Elsen was a former Chelsea resident.

HOLLY—It is also pointed out that plans are under way to make Holly a petunia town, as was voted at the Flower Show last year. Thousands of the plants will soon be available for those who wish to set them out and look after their growth.—Herald.

Rural Music Program Rehearsals Are Held

Rehearsals of the children connected with the county-wide musical program for rural schools in Washtenaw County, including Saline village, were held at University high school in Ann Arbor, Saline high school and Chelsea high school, recently. Over 600 children were in attendance. This is the third year for the music work being sponsored by the Music Department of Michigan State College under the direction of Miss Mary Ann Collinge, music instructor from Michigan State College, East Lansing.

A three fold program is being used in the interest of cultivating music appreciation, participation in songs, and folk dancing among the rural children of Washtenaw county. Miss Collinge has spent three days of each month during the school year giving instructions to the teachers of the county, who, in turn, have taught their children.

Approximately 2000 children from all grades have derived benefit from this program as they have learned the Virginia Reel, folk dance, and songs made up of art songs and folk songs of the Scotch, Irish and Finnish. The children have also been given the opportunity of better music appreciation by studying famous classical selections by great composers. Such instruction teaches the child to understand the finest things in music and opens the way to the cultural things of life.

Intensive drilling and much hard work on the part of the teachers of the county, together with the excellent cooperation of everyone, has brought unusually good results.

The climax of the year's work will be the Washtenaw County Rural School Music Festival, Wednesday evening, May 22, at the Hill Auditorium, Ann Arbor. This festival will be the event in which 700 children will

sing the songs they have learned during the year and 200 children, including a special group from Saline, will dance the Virginia Reel in colonial costumes. The evening's program will also include a brief address and selections by the Civic Orchestra of Ann Arbor. There is no admission charge for the festival and the public is invited to attend.

TO TOWN is just a jaunt instead of a journey

WHEN you own a Ford V-8, the doctor or dentist or classroom, once removed by hours of travel, is only a few minutes away for your children. The stores and shops and churches are only a few minutes down the road for your wife. And the implement store, the local grain dealer, the shipping pens for your stock, are only a few minutes away for you!

The Ford has played a great part in loosening the bonds which once tied families to the farm. It was the first automobile the farmer could afford to buy and run. Fifteen million Model T's founded a tradition of economy and dependability which won the esteem of millions of farmers. The Model A carried that tradition to a higher plane of perfection. And in the Ford V-8 for 1935, Ford value reaches the highest point in more than thirty years of constant improvement.

The new Ford V-8 is a car which will take you anywhere, any time—economically, comfortably, safely. Your dealer will gladly show and demonstrate the many features responsible for its great riding ease, durability, and economy.

THIS WAY LIES DISASTER . . .

Excessive Federal restrictions, unregulated competition, the depression, have had their way with America's railroads.

Today the public views the plight of the lines with awakening understanding and broadening concern, and there is growing alarm that close by may be stalking the ominous specter of government ownership.

Disastrous as would be federal usurpation of rail control, might it not be the signal for that final economic calamity—the socialization of all industries?

Under present policies and conditions could government have done better with the railroads than has private management? Could government, in the future, do as well?

Memories of America's War-Era rail management are too fresh, too painful, the strangely similar results of like policies in other countries are too current, too repugnant to blind the thinking to government ownership's deficiencies and undesirabilities.

Simple sanity in transportation policies will solve the railroads' problems, while their seizure will only breach the walls which guard private industrial initiative against all-engulfing socialization.

Michigan's delegation in Congress should so be advised.

Remember, the Agriculture Department through the F. F. A. is ready and willing to serve you. If we don't know, we do know where to find out. After all, that is most essential, isn't it?

Opening Ball Game Won By Sea Scouts

The Twilight League ball club opened its season Tuesday evening when the Sea Scouts encountered Spaulding Chevrolet.

The Scouts had a one point margin over the Chevys when the game was called on account of darkness. Score 6 to 5.

This game was played at Staffan field because of the wet condition of the Wilkinson lot. The Staffan field will be used until the other field is in good condition.

Though the crowd was small, it was enthusiastic, and future games should attract many local fans who have forsaken, apparently, their former evening pastime.

The Scouts grabbed their lead in the third inning when Conk drove through shortstop with the bases loaded, and lives, next up, doubled to left field.

The inning netted four runs. Wilbur Riemenschneider made the first score of the season, and Schiller the first one of the year for the Chevys.

Battery for Sea Scouts: Conk and E. Miller; for Chevys: Azdell, Schiller and Hart.

Petitions Circulated By Chelsea Scouts

Chelsea Sea Scouts are busy circulating petitions asking the State Highway Commissioner to reconsider the matter of the relocation of US-12 past Chelsea.

It is planned to continue the new highway from the point four miles west of Chelsea where it intersects the old US-12 road, to Ann Arbor this season and tentative surveys will take the highway south of the present road.

Everyone interested in keeping the highway in its present location should make it their business to sign a petition. The petitions will be presented to Mr. Van Wagoner by a local delegation as soon as a sufficient number of names can be obtained to carry some weight. It is hoped that more than 2000 signatures can be secured.

The petitions read as follows: To The Honorable Murray D. Van Wagoner, State Highway Commissioner:

We the undersigned citizens of Chelsea, Michigan, and vicinity, understand that plans are under consideration to change the location of U. S. highway number twelve to a point south of its present right of way and,

Whereas, Chelsea, by reason of its network of highways is the natural gateway to the lake region included in the new Federal Park to traffic from Detroit and the east side of the state, and

Whereas, the Village of Chelsea and vicinity have been seriously injured by the removal of the State Cement Plant and now be further damaged by the removal of the road further to the south of the Village,

We therefore respectfully petition you to keep such part of the highway as touches the outskirts of Chelsea on the present right of way and to effect a junction with route ninety-two at its present location at the south end of Main Street.

Elementary News

Second Grade

We are making May baskets.
In Spelling we have started our review.
There are suspicious cases of perhaps measles in the second grade.

Third Grade

Miss Balfore received many lovely May baskets. An orchid basket from Eleanor Harper, a blue and white one from Elaine Schmidt and a pink and white from Doris Collins.

The following fourteen people were neither absent nor tardy the last six-week term: Elaine Schmidt, Barbara White, Ruth Slane, Mildred Slane, Ruth and Walter Osterle, Virginia Miller, Betty Hollerman, Joyce Foster, Mary Jean, Jane and Carlton Chiswell and Eugene Aldrich. Dick Ebor and Reynolds Walz are out with the measles.

We have a news committee. This committee works for one week with our Editor-in-Chief, Mary Chiswell.

Carlton Chiswell brought us a turtle. After looking through many books we learned it was a spotted turtle. We named it Spotty.

Fourth Grade

We are planning a visiting day for our mothers. We are also preparing a short program including Robert Louis Stevenson's poems and appropriate poems for Mother's Day.

Dorothy Knickerbocker and Raymond Radcliff brought us some bouquets of spring flowers. We are pressing a specimen of each kind brought for our flower collection.

We appointed a committee to clean our room. We put up new window curtains and spring decorations. Dick Kern cleaned our aquarium.

The committee working on the sand table are completing a pleasing scene of the Belgian Congo. They have houses, natives, trees, bridges and many other interesting things.

In our reading we are working hard to learn to follow directions. We made flowers one day, safety pictures another and a window box another day.

We wrote letters to Helen last Thursday.

Helen Grabowski and K. R. Platt are absent with contagious diseases. We hope they are better and will be with us again soon.

Margaret Knapp, Luther Kusterer, Edwina Schanz and Robert Strieter have earned reading certificates.

We are still working on our bird books and bird chart. Felix wrote this rhyme about a blue bird:

The blue bird is a fine old fellow,
Blue, black, brown and yellow.
I like the blue bird so happy and gay,
He seems to like to watch me play.

Fifth Grade

By Edwin Gaunt

In Arithmetic we are beginning our review. Fractions has been our most important and interesting subject this year.

The May Queen's throne is nearly completed. The Queen has chosen Jeanne Meserova as her maid of honor and June Crawford as flower girl.

We have had three birthday surprise parties after school this week. On Tuesday, in honor of Margaret Reed and on Thursday in honor of Beatie Shinnaberry and on Friday night in honor of Marian Elsie. In each case the mothers of these girls have brought fine refreshments for the whole grade. The girls and boys wish to thank Mrs. Reed, Mrs. Shinnaberry and Mrs. Elsie.

Sixth Grade

By Margaret Harper

We have some cherry blossoms out in the room.
Clarence Foster is quarantined with the measles. We hope he will be back soon.

Junior Miller and Helen Miller had birthdays May fifth.

We are watching some frog eggs hatch.

Virgil Scripser brought a cocoon. The moth has not emerged.
Our reporter, Donald Walz, is absent this week.

From some cocoons three cecropia moths emerged. There were two males and one female. The female is laying eggs. In nature study we have been studying about the moths. We have learned how to kill and pin them. Three of us have had the experience of killing the males with ether. Miss

Canfield has the complete life history of the cecropia moth, from the eggs to the moth.

Those who have been neither tardy nor absent the last six weeks are: Theodore Combs, Ralph Dingle, George Knickerbocker, Bernice McBrice, Junior Miller, Virgil Scripser, Ruth Yettah.

Ans.—"Nazi" is correctly pronounced as though it were spelled "Not-zy", with accent on the first syllable.

Ques.—What kind of a snake is a viper?

Ans.—There are several species of the viper. They differ slightly in color. Various Uses for Raising Seed; Oil is in Demand

The magazine Food Industries says the by-product of seeded raisins is sprayed back on the skins in the form of a fine oil. This prevents the seeded raisins from sticking together or to their packages, and enhances their appearance.

From 2,000 to 4,000 tons of raisin seeds are accumulated annually from the 200,000 tons of raisins sold each year in the United States. When the seeds are extracted from the raisins, some of the pulp, or meat of the fruit, naturally clings to them. From this, by diverse means, comes:

12 to 14 per cent of grape sugar.
Alcohol from that.
191-proof brandy and sweet wines from the latter.
15 per cent of oil from the seeds after they are crushed, dried and cured.

Raisin oil is also used as a salad oil (it blends readily with olive oil) for frying doughnuts and potato chips because of its non-greasy flavor; in the paint industry, particularly on canvas for awnings and airplane wings, because of its slow-drying and high-spreading qualities and, finally, in lubricants.

To top everything off, the residue from the crushing process is utilized in stock feed, as a fertilizer and as a fuel.

Cape Briton's History is of Interest to Canadians

Cape Briton has a history as colorful as that of any part of Canada. A great part of the population claims descent from the hardy Scottish pioneers who came out to make homes for themselves in this sea-girt island towards the beginning of the late century, says the Montreal Herald.

As early as 1715, when the Treaty of Utrecht gave Newfoundland definitely to England, one and French settlers coming from there to Cape Briton. The romantic story of the efforts of France to hold the place called by them Ile Royale—and of their building the great Dunkirk of America—Louisbourg—is unique in the history of French colonization.

At the time of the fall of Canada the island was an important subject of debate in the settling of peace terms, for France was loath to give it up. The Treaty of Paris finally ceded Cape Briton to the British.

Officers and soldiers who had fought in the war were given grants of land as a reward for their services, but Cape Briton was considered too valuable an asset to be disposed of at once.

Do Not Forget Famous Dates

Far be it from the Uruguayans to forget their famous dates in history. They may forget the particulars of what occurred, but forget the date—never. A daily lesson is taught to both grown-up and children alike—and to statisticians—for many of the most important thoroughfares are named to commemorate dates of significance in Uruguay's history. The most important of these is the Avenida 18 de Julio, or 18th day of July avenue, so named in honor of that day in 1830 when the constitution of the country became law. Two others of importance are Calle 25 de Mayo and Calle 25 de Agosto, or 25th of May and 25th of August streets, the former named to honor the independence of the colonies of the River Plate, obtained from Spain in 1810, the latter being the day in 1825 when the independence of the republic itself was proclaimed.—Washington Star.

Ancient Rome's Marriage Ceremony

"Social Life at Rome in the Age of Xero" says: The sacramental ceremony called confarreatio (because of a sacred cake made of the old Italian grain called far and offered to Jupiter Farreus) was partaken of by bride and groom in the presence of the Pontifex Maximus, the Flamen Dialis and ten other witnesses. At such a ceremony the altiplex had, of course, been taken and apparently a victim was also slain and probably offered to Ceres, the skin of which was stretched over two seats (sella) on which the bride and bridegroom had to sit.

At the "Flea Market," on the outskirts of Paris, where stolen goods are sold to be the rule rather than the exception in most of the booths, if an object can be proved as being the property of any one person, he or she can claim it legally, and the storekeeper, regardless of how it may have come into his hands, must forfeit it.
