### "In Memory of" -

This Memorial Day again brings every one an occasion for remembering loved ones and for honoring those who made sacrifices for the benefit of our country. Custom again decrees the placing of flowers upon graves and recalls the duty of suitably marking each hero's resting place. On this day, which has been dedicated to the departed, we join our neighbors and friends in paying respects to those who have passed into the great beyond.

## What a Difference the NORGE Makes!

THE ROLLATOR COMPRESSOR -  
Revolutionary Cold-Making Mechanism  
Five Points of Superiority

Any electric refrigerator mechanism consists of a compressor or pump. The Norge Rollator pumps with slow, smooth, easy, rolling power instead of the hurried back-and-forth action of the ordinary refrigerator mechanism. There are several well-defined advantages in the Rollator mechanism. First, the Rollator Compressor has reserve power to make surplus cold—more cold than you'll ever need. Second, it uses less current, because of its easier, smoother operation. Third, it revolves slowly, smoothly in a permanent bath of oil, insuring long life of the mechanism. Fourth, the simple Norge Rollator Compressor consists of only three moving parts—roller, blade and shaft. Fifth, the Rollator cold-making Compressor actually improves with use. It wears in, not out.

## Petitions Go To Van Wagoner Next Week

The official protest of the residents of Chelsea against the re-routing of US-12 past the village will be registered with Murray D. Van Wagoner next week Wednesday when a local delegation will present to the State Highway Commissioner petitions bearing more than 1000 signatures asking that the new super highway follow the present route.

Members of the committee which will make the trip to Lansing are: Geo. W. Beckwith, Jas. Park, H. D. Witherell, C. Lehman and P. F. Niehaus. They will endeavor in their contact with Mr. Van Wagoner to point out the benefits which would come to the village if the highway follows the present route, and the damage which would be experienced if the highway is routed two miles south of the village, where tentative surveys have been made.

Local Sea Scouts have secured the names on the petitions during the past few weeks, and the organization will be rewarded for their efforts through contributions by business men and others interested in making an effort to keep the highway in its present location.

## OUR WONDERFUL CAR

By Arthur Carlton

Have you seen the new car that's on exhibition?

It's a great little car of today. Of its marvelous birth, its genuine worth,

I think I have something to say. No doubt it is nice, and if I have the price

I suppose I will drive one away. But I have a car of a different ignition,

Of different battery, too. It picks up its speed whenever you need

More power, to carry you through. It has gone over mountains; it has traversed the vale,

Thru slough, thru jungle, and mire, Thru heat, thru cold, thru snowdrift

and rain. Yet never has known to misfire. The modern inventors have tried to improve,

They have caused only friction and loss. The prints were perfect when first they were drawn,

The patterns all stamped at the Cross. This car has a name, a wonderful name,

Its record has ever been true. The promise is made, the price has been paid,

And there's one assembled for you. No doubt but your heart will spring with a start

When you hear of this great proclamation. But yet it is true; it is assembled for you,

And its name is the Car of Salvation.

MANCHESTER—Rev. Fr. Pfeffer, pastor of St. Mary's missions again has workmen at work at the Irish Hills church, completing the concrete sculpturing which, when completed will be the most attractive place in this part of the country. Enterprise.

that will grow with the years

savings account may not cost as much as some other gifts you might give—you can start one with a dollar—yet the value of that initial act of thrift is immeasurable in dollars and cents.

Young people find it easy to save—if someone starts them, takes the first step. ## MEMORIAL DAY 1935

Seventy-seven years ago our country began the formal observance of an occasion devoted to the memory of its heroic dead, who laid down their lives that the priceless privileges of free Government might be established and perpetuated for the citizenship of the Republic.

A growing zeal should mark the annual observance of this day, because of the additional sacrifices that have been made since then, and because from the ever-deepening wells of memory, arise those proud ideals which keep alight the fires of patriotism and form the very foundation upon which our future as a people must rest. "Lest God of Hosts be with us yet, lest we forget, lest we forget."

It is most fitting that our observance of Memorial Day should have come to include in its bestowal of flowers and tears, the sacred ashes of all our loved ones who have passed from earth to the beautiful realm where God reigns in infinite love and understanding. They, too, in the homes and the quiet pursuits of peace, have earned the undying gratitude of our nation.

Therefore, by virtue of the authority vested in me as Governor, I hereby proclaim Thursday, May 30, Memorial Day, and request its traditional observance by the people of the commonwealth.

Frank D. Fitzgerald,  
Governor.

## 24 YEARS AGO

Thursday, June 1, 1911

Bert M. Snyder, a former Chelsea boy, will graduate this week from the U. S. Naval Academy at Annapolis.

Jacob Hummel is having extensive repairs made to his residence on North Main street.

Ives Brothers have purchased the milk route of Geo. Ward. They have also added a bottling machine to their equipment.

Miss Marie Hindelang has accepted a position as teacher of Latin and Music in the Clinton high school for next year.

John Bush is having a barn erected on his premises on North Main St.

Jacob Alber, who entered his trotting horse in the races held at Ann Arbor on Tuesday afternoon, captured the first money, consisting of a purse of \$100.00.

For 15 or 20 minutes Wednesday morning Chelsea was in darkness. A black cloud overhung the village and the rain which followed lasted for nearly two hours, breaking the drought. The county north of here was visited with a severe wind, hail and rain storm, but no serious damage seems to have been done.

## 34 YEARS AGO

Thursday, May 30, 1901

Mrs. J. Kline of Sharon died at her home on Sunday, May 20, 1901.

Milo Updike is now sole proprietor of the Chelsea House, having purchased the interest of E. G. Hoag.

The Macabees of this place visited D. W. Maroney Saturday evening and helped him celebrate the 70th anniversary of his birth. They presented him with a fine chair as a memento of the occasion.

Married, on Tuesday, May 21, 1901 at Battle Creek, Miss Katherine Goetz and Will W. Corwin, both of this place.

Just 40 years ago last Friday the first train was run into Chelsea over the Michigan Central from Detroit. The conductor of that train Henry A. Tillotson, is still living and resides in Marshall.

The Memorial services were held at the Methodist church on Sunday. Rev. J. I. Nickerson gave the sermon.

## OUR NEIGHBORS

BROOKLYN—Mrs. Leona King and Mr. Lewis Emmer, two highly regarded Brooklyns, were united in marriage on Saturday afternoon at six o'clock at the Emmer home on North Main street. They were attended by the former's son, Merl King and Miss Marian Haynes, the ceremony being performed by the Rev. Richard Baker. After an informal dinner and entertainment at Jackson the party returned to find the Emmer home in possession of a group of friends who remained for a pleasant interval of congratulations and best wishes. —Exponent. Mr. Emmer was a former Chelsea resident.

SALINE—Quite a transformation is being made in the scenery at the Homy Ford project, which includes remodeling the old Klein mill to fit the needs of a modern plant to convert soy beans into oil, meal and other products. Since the removal of the machinery used to manufacture flour to Tecumseh, the building has been

raised in preparation for the laying of a new foundation, excavating has been done to make a place for the turbine and a sluiceway. Sixty-four men are constantly employed on the project, and it will be some months before the finishing touches are applied. Another attractive feature of the landscape is the plot on the south side of the highway that is being devoted to community gardening by the employees.—Observer.

STOCKBRIDGE—Commencement exercises will be held on Thursday evening, June 6. There are 32 in the graduating class. The honors of the class are divided again this year, the valedictory going to Maurice McCroory, son of Mr. and Mrs. LeRoy McCroory, and the salutatory being evenly divided between Jane Hall, daughter of Mr. and Mrs. Sumner Hall, and Woodrow Arts, son of Mr. and Mrs. William Arts.—Brief-Sun.

WILLIAMSTON—No one was injured and property damage was limited to glass breakage in various

buildings in the vicinity, estimated at \$500.00, when an attempted bombing was foiled by the driver of a truck which was parked on west Grand River Avenue near the Ford Garage here, Thursday night. The driver, William Smith, 38, of Grand Rapids, probably saved his own life and prevented possible injury to other persons and damage to his truck and other property when he picked up the bomb and threw it into the middle of the street, where it exploded. The explosion shattered scores of windows and endangered the lives of residents. The blast was heard for more than a mile.—Enterprise.

You SEE what goes into your crankcase  
Iso-Via "D" is dispensed from clean, clear glass bottles.

You see that you get full ACCURATE MEASURE  
Each bottle of Iso-Via "D" is clearly marked at the full quart level, carefully tested according to government standards.

You get the ORIGINAL ANTI-SLUDGE motor oil  
This is the famous anti-sludge motor oil first introduced two years ago by Standard. Entirely overhead distilled, and treated by the Chlorine Extraction and Process Deterging process. Prevents piston rings and valves from sticking, oil lines and filters from fouling. A straight mineral oil that fully protects new-type high-speed bearing metals.

You get FASTER SERVICE  
It is the quickest method yet devised for changing oil. Each quart is ready to pour into your crankcase immediately—no delay, no waste.

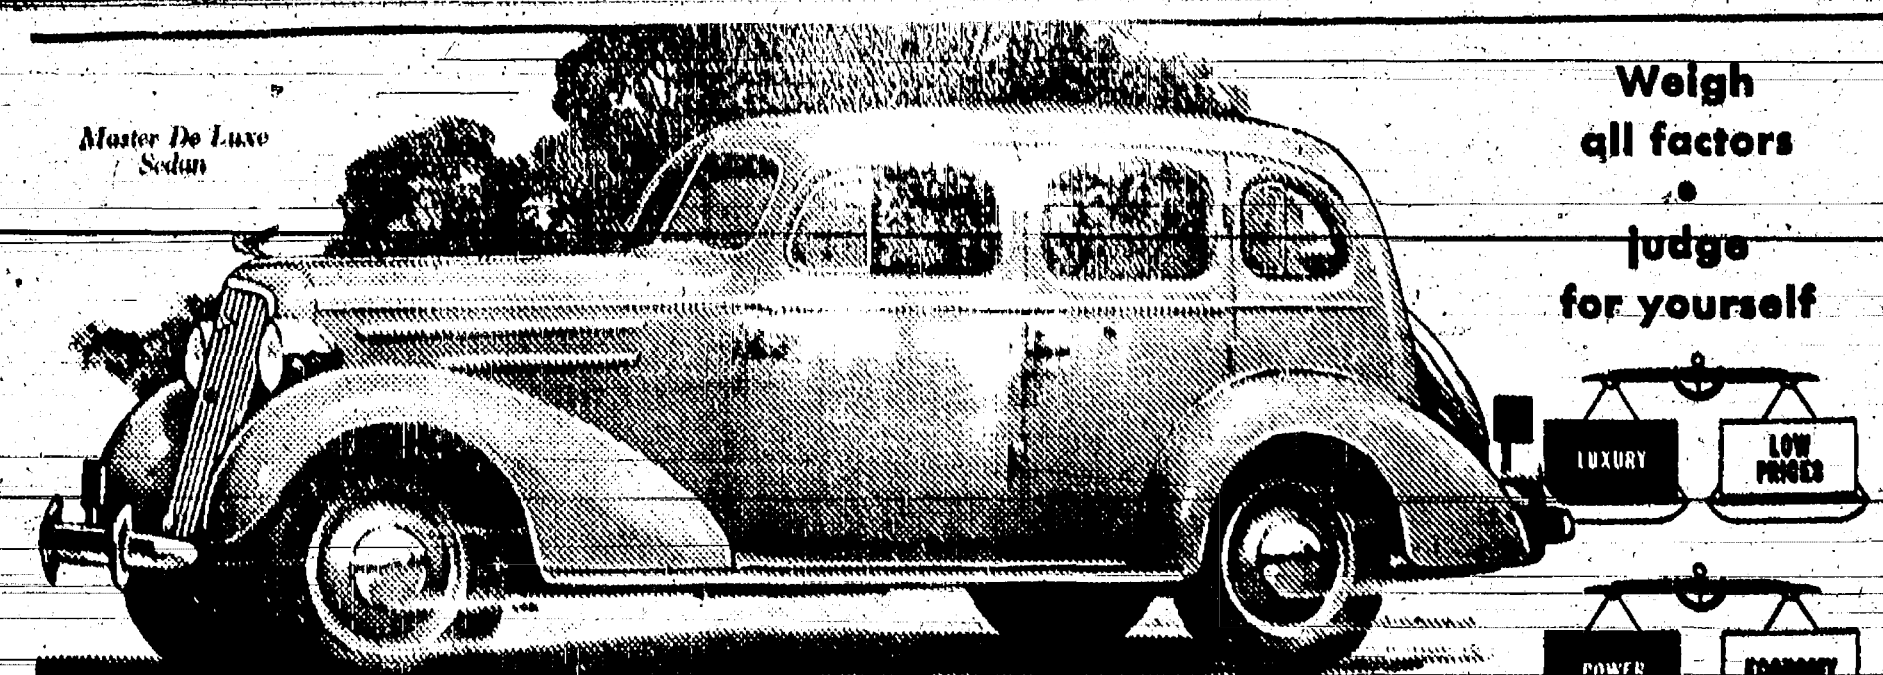

You pay for NOTHING EXTRA  
You don't buy the bottle—there's no charge for the "package" when you get Iso-Via "D". Every penny goes for the oil itself.

You get the RIGHT GRADE  
Each bottle of Iso-Via "D" is plainly labeled with the exact S.A.E. grade of oil it contains. The serviceman can advise which grade will give your particular car the most economical, safe lubrication.

The band will present the "Review" in the larger cities of the state this year under the auspices of the Disabled American Veterans organization, and the women of the Chelsea Auxiliary feel proud that circumstances connected with its appearance before starting on a state-wide tour allow them to bring the band to Chelsea at this time.

On the wheat referendum vote for the continuation of a wheat adjustment program for the years 1935-1936, the wheat growers voted 6 to 1 for the AAA crop control program, and Department of Agriculture officials are drafting new four-year contracts to replace the present ones which were signed in 1933 and expired this year. The four-year contract will be the longest term for which the farmers have been asked to sign up. The contracts provide that any farmer may terminate his agreement with the AAA at the end of the second year, and the Secretary of Agriculture may terminate the contracts at the end of any year. The contract provides the AAA cannot ask a farmer to curtail his wheat crop by more than 80 per cent in any one year. Benefit payments will be calculated each year on the basis of wheat price in relation to farm equality.

Subject of a Lecture of World-wide Interest  
By JUDGE RUTHERFORD  
Sunday, June 2

3 P. M., E. S. T., WJR, Detroit, direct from the WASHINGTON AUDITORIUM, Washington, D. C. over a coast-to-coast network of stations

The peoples of all nations are in great distress because of the complete failure of their governments to bring about peace, prosperity, contentment and happiness. War equipment, needless extravagance and graft consume the people's substance; their burdens increase, and their cries for relief seem in vain. What will the end be? What the result? Is there hope for a good government? JUDGE RUTHERFORD will submit the true and Bible answers that will give you hope!

Hear him in person at Washington  
By radio and public-address systems the lecture will be heard throughout "Christendom"

## No Hit Game

Dick Barton, one of Chelsea's sensational pitchers this year, finished the season with a remarkable pitching feat—a no hit game. He struck out eighteen of the twenty-seven men who faced him. Six of these extra men were on bases on balls—Chelsea came to bat in the first inning to score 10 runs off Layher and Clarke, the two Saline pitchers. Clarke finished the game for Saline but he could not stop the Chelsea sluggers so they collected 16 hits.

Since this was the final game of the season Mr. Johnson gave all of his Seniors a chance to play. There will be eleven seniors, who are ball players, will graduate this year.

Pete Allhouse did the heavy hitting, with four doubles out of five trips to the plate.

## Elementary News

**Third Grade**  
Last Friday was a very exciting day for us. We had a baseball game in the morning and went to Tiger Bill's circus in the afternoon. The New York Yankees won the baseball game. The score was 12 to 8. Ten home runs were hit during the nine innings. The battery for the Detroit Tigers was not very strong.  
Miss Boileau received the following letter from Raymond Parsons. The letter is printed just as was written by Raymond:  
Chelsea, Mich., May 22, 1935.  
Dear Miss Boileau:  
I will write you a few lines and let you know that I am feeling good. I wish I were back in school with you all. I am tired of staying out of school. I had a motor boat to help "pass" the time away. I ran it in a "ban".  
Your friend,  
Raymond.  
Four people are absent this Monday. We hope Elaine Schmidt doesn't have the measles.

**Fourth Grade**  
Raymond Radcliff and Margaret Knapp have recovered from measles and are back with us again. Walter Boone and Rowena Frymuth are the only people in our room who are absent.  
Irvin Slane, Luther Kusterer, Earl Holbrook and Bobby Strieter played ball with a team from the Catholic school. The score was 18-17 in our favor.  
Raymond Radcliff brought us two bouquets of tulips or large flowering wake robins.  
Luther Kusterer and Irvin Slane have finished their Arithmetic work books.  
Mrs. Fletcher gave us a beautiful bowl of tulips. We enjoyed them very much. Thank you, Mrs. Fletcher.  
For morning inspection last week we had birds to color. Those having perfect inspection were Clayton Myers, Dick Schenk, Edith McDonald, Luther Kusterer, James Collings, Robert Strieter, Dora Parsons and Dorothy Knickerbocker.  
Clayton Myers' row is ahead in the Self Control Auto Race.  
We have put up new pictures on our bulletin board and on our other board we have put up pictures of paper tearing which we made in Art class.  
We have completed our Geography book and work book and are now learning the states and their capitals.

**Fifth Grade**  
Everybody is ready for tests which begin Monday, June 3.  
We enjoyed seeing the little folks from the kindergarten and first grade wind the May pole in our room on Monday morning. We think they enjoyed it too by the looks of their happy faces.  
Gerald Hoover gave us a surprise party after school on his birthday, with a nice treat for all of us.  
We can hardly believe school is nearly over. Some are glad and some are sad.  
Mr. Brown, former superintendent of schools in Dayton, Ohio visited our room for some time on Monday. We enjoyed his visit very much and we hope he will come again.

**AT LAST—GOSSIP!**  
By all appearances playing hide and go seek or tripping the night fantastic on Riker's lawn, attracts Tisch very much—or isn't it the games, alone?  
The majority of Sophomore boys find the Palmer abode a place of very much interest.  
Jane and Nickie aren't such pale. Why? It's the question all are asking.  
Jean Lapp has Chelsea's baseball pitcher pretty well in tow. Here's to you, Jean!

Ruth Marie and Morrie Lyons are once more paired up. What is this, a game, Zilpha?  
Janet and Bob are still going strong.  
If it weren't for Tom Kinsey would George Woods step in and take his place, escorting LaTua around?  
The Senior boys have dropped the habit of taking girls out, so it seems and to think the Juniors and Sophomores go tearing round almost every night. Can the Seniors be getting old?

The students have been clamouring for another gossip column. Here it is—and if anyone is shocked because his or her name is included with the above don't be a poor sport. Someone has to be gossiped about or there would be no column.

**HOW TO KEEP FROM GROWING OLD**  
Always drive fast out of alleys.  
Always race with locomotives to the crossings. Engineers like it; it breaks the monotony of jobs.  
Always pass the car ahead on curves or turns. Don't use your horn!

Last week we learned the New England States.  
Miss Canfield let us watch her latest cecropia dry and unfold its wings.  
Miss Kern told us about the blue heron she saw last week near the river in Manchester.  
The iris plant that Rowena brought some time ago now has a pretty yellow blossom.

it may unnerve the other fellow and cause him to turn out too far.  
Always demand half the road, the middle half. Insist upon your rights.  
Always speed; it shows people you are a person of pep, even though an amateur driver.  
Never stop, look or listen at railroad crossings as it consumes time.  
Drive confidently, just as though there were not 25 million cars in service.  
Always lock your brakes when skidding; it makes the job more artistic.  
Always pass cars on hills; it shows you have more power, and you can turn out if you meet a car at the top.  
In sloppy weather, drive close to pedestrians. Dry-cleaners appreciate it.  
Never look around you when you're back up; there is never anything behind you.

**DID YOU KNOW?**  
Chester spends all his spare time writing notes. Can some one tell me whom they are to?  
Dave and Angeline are seen in John's regularly. Dear me!  
Muriel says she's going steady now. Can you believe it?  
Nick's interested in Sauer Kraut.  
Helen was mad at Wayne last week after the game. What for?  
Lawrence Tisch likes the district around the school lately.  
He-man Saltz is escorting Leona to the reception.  
Bob N. says violets are all right (the flowers, he means).  
May baskets have been hung on a certain girl by the R. U. R. tracks.  
Who's been doing it?

Lynn wishes to inform everyone that he had a nice time at the Stockbridge J-Hop. So what?  
Walter B. told me Shirley was a nice name. He's interested in Stockbridge too. What's all the attraction over there?

**Hockey an Old Game**  
The game of ice hockey probably dates from the eighteenth century. In the mid-Victorian age the players, four or five a side, used curved hockey sticks and a bung. From stick and bung the game evolved to bandy, or hockey stick and ball, usually the lacrosse ball of solid rubber, mainly through the agency of the Rugby Football Union, the brothers, Zebbi, rivals of the famous Virginia Water club founded in 1873 by T. Blackett. In 1881 the bandy association was formed and the game fairly established as a national pastime.

## Ironrite

**Different from Any Other Ironer**

When you examine the Ironrite, you'll notice many important differences between it and other ironers. (1) It has a double open-end ironing roll, ironing shoe and feed-board, so that tubular garments, like dresses, can be ironed at either end—the only practical way of ironing wearing apparel.

(2) Garments are fed into the machine over a stationary shoe and feed board—not over a revolving roll. (3) The ironing shoe has a point at each end, like that of a flat-iron, making it easy to iron folds, pleats and ruffles. Being made of cast-iron, the shoe maintains an even heat. No hot spots. (4) The ironing shoe is underneath the roll, so that as the heat rises, it is utilized in the ironing—making the Ironrite unusually economical to operate.

(5) The ironing roll revolves downward, carrying away the steam at the back of the roll so that it cannot rise in the operator's face. (6) The feed board is at the natural height of the operator's arms—2½ inches lower than the average roll-type ironer—eliminating arm fatigue. (7) It has a porcelain top, which closes down, converting it into a beautiful piece of furniture—an ornament to any kitchen.

Come in and see it demonstrated. You'll say it's the handiest and most practical ironer that you have ever seen.

**Twilight League News**  
The first bad light on this year's Twilight League was cast Thursday evening by Mayer Electric when that team was defeated by the Congregationals, 6 to 2.

For five innings both sides played good ball. Both had 2 hits and 2 runs. The Congregationals made their tallies in the first, and the Electrics scored once in the first and once in the third to tie the score. But in the sixth inning the entire aspect of the game was changed. The Congregationals scored 3 runs through a walk, an error and two hits, leaving Munro on base with one man out. At this moment, someone on the Mayer team decided, unmeritoriously, that the only way to save the game was to prolong the game until darkness would rob the Electrics of their last bat, and thus make the game invalid and unofficial. But Munro somehow heard the wily plot and forced himself out. Posthumus fanned intentionally, to end the inning, after Smith circled the bases on what might have been a single had his opponents attempted to put him out.

The Congregationals team which looked so good on Thursday evening failed to play up to standard, and were badly beaten on Friday evening by St. Paul's in a postponed game. The score was 11 to 1.

For two innings both sides went scoreless. Even at the end of the third, St. Paul's were only one run ahead. But in the fourth and fifth frames the Lutherans piled up 9 runs, due to their hard-hitting infield, as against none by the Congregationals.

**Buttons on Men's Coat Cuffs**  
One of the versions of the origin of the buttons on the cuffs or men's coats is that they come from an old necessity when the sleeves were shaped, of allowing a man the possibility of unbuttoning the sleeve and rolling it back in order to wash his hands.
