Delegation Receives No Encouragement

Very little encouragement was given by Murray D. Van Wagoner, State Highway Commissioner, to the local delegation which visited him at his office in Lansing on Wednesday relative to keeping the new US-12 super highway in the present location past Chelsea.

Petitions bearing more than 800 names of local residents requesting that the present route be followed were presented to the commissioner, but he stated that it is the purpose of both the Federal and State highway departments to construct through thoroughfares as straight as possible in order to eliminate traffic hazards. This course is being done without any consideration being given to towns which might benefit if the highways were routed near or through the municipalities.

According to Mr. Van Wagoner, construction of the new highway past Chelsea will be left until last of the new construction work between Ann Arbor and Jackson, which may not be built for two or three years. He made no definite statement concerning the route which he favors, but inferred that it would be south of the present highway.

The only encouragement received by the committee was the statement by the commissioner that he believes the new Montreal-Chicago highway which is being planned will come through or near Chelsea from the northeast. However, the chances of construction of this highway in the near future are very remote as no definite plans have been made.

Members of the delegation visiting Mr. Van Wagoner were Theo. Bahnmiller, Ernest Adams, Geo. Beckwith, H. D. Witherell, Conrad Lehman, Jas. Park, Wm. Kolb and P. F. Niehaus.

Farband Camp Opens for 10-Week Period

The Farband Camp, formerly Unser Camp, on Long Lake opened its seventh season here on Sunday, June 23. There are only about 20 children present now, but in a short time there will be about 100 children and 25 adult occupants, who will remain during the 10-week season. It is a membership camp, with its foundation in Detroit, but is open to all Hebrews of both sexes, young and old.

The purposes of the camp are many: to get the children out of the city and into the fresh air and sunshine; to instruct them in swimming, baseball, basketball, dancing and academics; to build them up physically; and to enjoy themselves in general.

The camp has grown steadily, both as to membership and facilities, and has been improved each year. Its facilities now comprise seven buildings, including a store, dining room, dance hall, and bungalows for the boys and girls.

Park Officials Say Government Will Not Condemn Land

According to C. D. Platt, project manager of the Waterloo Federal Park development, unfounded rumors have been circulated among the farmers whose land is situated in the project territory, the tale being spread that the Federal government contemplates condemnation proceedings in order to acquire all the farms in the area, making a solid tract of land for the park. In a statement issued yesterday, Mr. Platt said that this story is an absolute untruth, and that it had never been the intention of the Federal park administration to acquire a solid block of land for the park, and for the game management division of the project it is more desirable that the wooded areas be interspersed with crop land. It is expected the Conservation Department will work with farmers in the area to obtain satisfactory game management plans, according to Mr. Platt.

Plans for the park development are progressing satisfactorily in this locality. H. A. Lamley, camp works superintendent, has a force of eight surveyors making contour maps of the area surrounding Mill lake, taking in the CCC camps, proposed trails, picnic areas, etc. The surveyors are provided through the office of the county relief administration, and their work for the present will include a map of about one square mile in the vicinity of Mill lake.

Although Mr. Lamley has marked the location for the proposed CCC camp buildings at the north end of Mill lake, the plans have not been approved by army officers, which will be necessary before construction work can be commenced. It is expected that a contingent of CCC youths will arrive within the next few weeks and they will be quartered in tents until buildings to house them are completed.

Recruiting of the youths was started on June 15 and they will spend some time at Camp Custer before being sent to the various camps throughout the state.

According to Mr. Platt the CCC boys will have no part in the work of constructing the buildings, but that local skilled and unskilled labor will be employed. The work will be in charge of an army construction engineer.

Several checks are now arriving each week for payment to the farmers whose property is being purchased by the government.

Grimwade & Hall To Open Store in Hudson

Announcement is made by Grimwade & Hall, owners of the local Red & White store, that they will open a new Red & White store in Hudson on Friday of this week. Mr. and Mrs. Grimwade and son will move to Hudson in the near future.

Grimwade & Hall have operated the local Red & White store since November, 1933, and have enjoyed generous patronage from the residents of the community. The Red & White stores are independently owned, having the advantage of the purchasing power of a great international organization.

Wm. Wheeler, Jr., who operates a meat market in the local Grimwade & Hall store, will also establish a market in the Hudson store, with R. B. Dexter, formerly of Chelsea, in charge.

Mr. Hall will be in charge of the local store and will be assisted by John Dvorak and Chas. Mallott.

A Reduction In Gas Rates

For Automatic Water Heating and ---or Gas Refrigeration

(Please read this announcement carefully. It is important)

Washtenaw Gas Company has adopted a new rate schedule for customers using gas for automatic water heating and---or gas refrigeration.

The new rate is an optional rate for Domestic Customers only.

Heretofore the average domestic customer paid \$1.30 per thousand cubic feet for gas used for water heating and---or gas refrigeration.

Under the new optional rate the cost of gas for these services is reduced from \$1.30 to 70c per thousand cubic feet. This is a reduction of more than 46%.

This voluntary reduction is made at this time despite rising commodity prices, including increases in the cost of those items which affect the cost of manufacturing gas.

To be eligible for the new optional rate a customer must fulfill the following requirements:

1. The customer must be a domestic customer. This does not include hotels, boarding houses, restaurants, or other commercial or industrial establishments.
2. The customers must use some type of automatic gas-water heater and---or a gas refrigerator, in addition to the use of gas for cooking.

gas refrigerator, in addition to the use of gas for cooking.

3. The customer must apply for the new optional rate. Application blanks are available at the gas company's office. The new optional rate will be applied on all bills rendered after July 1st, 1935, only to such customers who have signed applications on file.

The gas company has no complete record of customers' appliances and it cannot automatically apply the new optional rate to all who are eligible for it.

The new gas rate is not retroactive and customers are urged to file their applications promptly.

The new optional rate brings the cost of automatic gas water heating and gas refrigeration down to a level where every customer can afford these convenient necessities.

In voluntarily reducing its rate, the company hopes to make these services so attractive due to their reasonable cost, that an increase in the volume of new business acquired will more than offset the loss incurred because of the rate reduction.

Isaiah—Chapter Forty-two,
Is a Special Delivery Message To You
A bruised reed shall he not break—
And the smoking flax shall he not quench.
He shall bring forth judgment into truth.
He shall not fail nor be discouraged,
Till he have set judgment in the earth.
The Lord have called thee in righteousness,
And will hold thine hand, and will keep thee.

Fear not O weary child of years,
I understand your grief and fears,
Be faithful for a few more years,
And I will take you home my plan,
Believe me—Trust me, For I am
Working out my Father's plan for
your eternal joy.
The way is rough, I understand,
Trust me, I'll hold and clasp your hand
Cities, St. Catharines and Toronto in
I am Jesus.

"My Maryland" Will Open On Saturday

Detroit—Opera Under the Stars in
holding over the musical show "Rose
Marie" for a second week automati-
cally moves the dates of the other
productions to a week later.

"My Maryland" was scheduled to
open last Saturday, but now it will
open this coming Saturday, June 29.
This is a very appropriate time in one
respect as this show is definitely of a
patriotic nature and July 4th, Inde-
pendence Day, comes on Thursday of
this production's week engagement.

"My Maryland" is a stirring and
romantic story of Civil War days
dealing with the incident of Barbara
Fritchie waving the Union Flag in
the faces of the Confederate troops.
Romberg is responsible for the lovely
melodies in this show, and the music
ranks along with that of his older
compositions, "Student Prince" and
"Blossom Time" for its beauty.

Helen Ford and Bartlett Simons
will be seen for the first time together
playing the romantic leads of Barbara
Fritchie and Captain Trumbull. Leon-
ard Ceeley will play the heavy role of
Jack Hogg. Nancy Wadford of stage
and screen fame, will be seen for the
first time, in the role of Sue Royce.
Other leading roles will be played by
Gracie Worth, Mary Rix, Hope Em-
erson, Robert Betts, Robert Long,
Frank Gaby, Joseph Lortora, Bette
Davis and Edith King.

"My Maryland" is truly an Ameri-
can opera with much of its music
based on old American folk songs, its
stirring song "Your Land and My
Land" has served to incite many a
patriotic gathering. There are few
scenes on the stage today as thrilling
as that when the troops swing across
the stage singing this number on their
way to battle.

There are many romantic melodies
set against the colorful background
and costumes of Maryland in the Six-
ties. Among the songs are "Silver
Moon", "Strolling With the One I
Love" and "Mother". Sigmund Rom-
berg and Dorothy Donnelly, who cre-
ated "The Student Prince", are re-
sponsible for the lyrics and book of
this lovely musical gem.

Only Way To Test Alfalfa Seed Crop

East Lansing—The correct test to
determine whether alfalfa should be
cut for hay or left for seed is the
number of seed pods formed before
the plants reach the full bloom stage,
according to the farm crops depart-
ment at Michigan State College.

The department receives hundreds
of inquiries each year asking for some
method to tell whether the alfalfa
will yield a profitable seed crop. The
formation of seed pods is the only re-
liable indicator, and leaving the plants
until the pods form detracts from the
value of the crop for hay. However,
it is more valuable for hay even at
that stage than for seed unless pods
are numerous.

First cuttings held for seed are not
harvested until August so there is lit-
tle chance of securing a second cut-
ting of hay. If the first growth is cut
for hay, there is still time for the
growth of a seed crop in favorable
seasons. Growers in the northern
part of the State have not been very
successful in securing seed crops from
the second cutting but the plan suc-
ceeds in lower Michigan.

Profitable crops of seed apparently
are greatly influenced by weather
conditions, and unless a farmer has
plenty of hay, it usually is not good
business to sacrifice a sure supply of
forage for the chance of securing a
greater profit from a seed crop.

Some Michigan farmers have been
uniformly successful in securing seed
crops year after year. One of the
best records of continuous high seed
yields has been made by an Upper
Peninsula grower. Other successful
seed crops have been harvested in all
sections of the Lower Peninsula.

F. U. MEETING WELL ATTENDED

A meeting of the Sylvan and Lima
Farmers' Union Local No. 254 was
held at Lima town hall Monday eve-
ning, June 24. About 50 members
were present. The oil proposition was
debated and 12 delegates chosen to
attend a county meeting at Salen at
which time a county unit will be or-
ganized and further arrangements on
the oil deal made. After the county
meeting another meeting of the Syl-
van and Lima Local No. 254 will be
held in the near future when the final
set-up on the oil deal will be com-
pleted. Other activities are under
way, which will be announced later.

Question And Answer Dept.

Ques.—Outside of salt making food
more palatable, is it necessary in
food?

Ans.—Yes, it is. The liquid part of
the blood contains about an ounce of
salt; and so do all the secretions from
the body, like tears and perspiration.
Salt is being continually lost from the
body, and enough salt to make up
this loss must be supplied regularly
with the food.

Ques.—Can you tell me why a ship
made completely of iron and steel
doesn't sink?

Ans.—This is because the ship is
hollow. It is really the air inside
which floats and holds up the ship.
The iron and steel hull merely keeps
the water from coming in and driving
out the air.

Ques.—Will you be kind enough to
explain to me what X-Rays are?
Thank you.

Ans.—The X-Rays are a kind of
light waves the wave length of which
is very short. Some of the rays of
X-rays are so short that there are
over two trillion of them to the inch.
Others are longer, the longest being
about fifteen million to the inch.

Ques.—What are synthetic dia-
monds?

Ans.—Synthetic diamonds are small
imitation diamonds made by dissolv-
ing carbon in melted iron and allow-
ing it to crystallize as the melted
iron cools very slowly and under pres-
sure. No one has succeeded in mak-
ing large "diamonds" by this method.

Ques.—Can you tell me in your
question column why the stars come
to be placed in constellations like the
Dipper, Great Bear, etc., and who
gave them these names?

Ans.—It was the ancient Babylon-
ian astronomers who gave the constel-
lation of stars their names. They did
so as a convenient way of referring
to certain stars. Later on this sys-
tem was borrowed by the Persian and
Arabian astronomers, and through
them they were handed down to mod-
ern astronomers.

Ques.—Can you tell me if the in-
side of the earth is composed of mol-
ten metal or lava?

Ans.—It is not, although it is in-
tensely hot—much hotter than a
smelting furnace. This extreme heat
is kept from melting by the tremen-
dous pressure of the miles of rock
above.

Ques.—Is man descended from the
monkey?

Ans.—No. However they are re-
lated, as both descended from the
same ancestral stock, according to
scientists. They say that the human
branch and the monkey branch of this
common ancestral stock separated
many millions of years ago. It is not
scientific to say that man descended
from the monkeys.

Ques.—Will you please be kind
enough to answer, if you can, what
causes the static in my radio?

Ans.—This is caused by electric
disturbances in the earth or in the
air, but just what kind they are is
not as yet known. An electric dis-
turbance will set up ether waves. A
flash of lightning or a motor running
on the same current will cause a dis-
turbance. Sometimes when there is
no visible thunderstorm the ether is
full of mixed up waves like those
started by thunderstorms. These
make the crackling and buzzing
noises.

Ques.—How can a person tell the
age of trees?

Ans.—This is done by counting the
number of rings in the trunk. Al-
most all trees grow one ring each
year.

Ques.—I am curious to know if the
calendar ever repeats itself for the en-
tire year? Can you answer that,
please?

Ans.—Yes. The calendar for the
entire year repeats itself every 1,400
years. In other words the next time
we have a calendar for the full year
the same as 1935 will be in the year
3335.

Ques.—Is it true that the Century
plant blooms only once in every hun-
dred years?

Ans.—No. They bloom much more
frequently than that, although it
sometimes happens that 25 or 30
years may pass between two bloom-
ings.

Rent Chairs in London Parks

For nearly a century an English
family has held the right to rent chairs
in the public parks of London. Al-
though there are a certain number of
free seats, this family owns 150,000
chairs, placed in the better locations.
The tickets, which are good for one
day, sell for four cents and entitle the
owner to move from chair to chair and
from park to park as he pleases.—Col-

Will Test Tractors Farmers Have Built

East Lansing—The searchlight of
public opinion will be used to deter-
mine the truth of the proverb, "Ne-
cessity is the mother of invention,"
when visitors at Farmers Day, Fri-
day, July 26, will inspect at Michigan
State College tractors invented by
Michigan farmers.

These tractors have been made from
automobile and tractor parts and in-
clude some innovations unknown to
commercial manufacturers. The ma-
chines will engage in a plowing con-
test in the forenoon, and five prizes
will be awarded for excellence of ma-
chine design and operation.

Farmers who have built tractors or
who have improved upon commercial
designs should write to E. C. Sauve,
agricultural engineering department,
Michigan State College if they wish
to enter their machines in the Farm-
ers Day contest. Those machines
which appear to have the greatest
promise of practicability will be ac-
cepted for entry. The field available
for the contest is not large enough to
permit the operation of more than 15
tractors in the time allowed.

Manufacturers of several different
types of tractors will also engage
their machines in a plowing and a
seed bed fitting contest before noon.
Demonstrations will also be given of
the utility of high road speeds for
tractors, the machines being fitted
with rubber tires.

The College agricultural engineer-
ing department will exhibit a two-
wheeled tractor and a new tractor cul-
tivar which the members of the de-
partment have developed in the past
two years. These machines have been
thoroughly tested and appear to be
valuable additions to the farmer's line
of equipment.

The Farmers Day program will in-
clude inspection of experimental work
with crops and livestock in the morn-
ing and music and speaking after
lunch. All members of the family
will find entertainment and worth-
while information among the day's
events.

This rate, the same as the one in 1934, will raise \$18,200.02 for village operating expenses during the coming year, which amount is about \$175 less than was raised in 1934. The council's budget this year is as follows: General fund, \$11,503.50; sinking fund, \$958.33; highway fund, \$2,875.87; cemetery fund, \$308.82.

Trojans Win First Series In Play-off

The championship game between the Trojans and Mayer Electric on Friday evening was played in real championship style on both sides. The final score of 2 to 0 gave first-series victory to the Trojans and pushed the Electrics into second place.

Lixey pitched for the Trojans and allowed only one hit; only five more Electrics got on base in the entire game. Lixey struck out five men. Stanley, for Mayer Electric, pitched an even better game. Only four Trojans got on base, three of them on hits. He fanned twelve Trojans in the seven innings.

This was the first game of the year in which neither side committed an error—really quite an achievement.

The Trojans scored both their runs in the first frame when Winans walked, and scored when Lixey grounded down first base line for a scratch hit because no player covered first base. Lixey later scored on a wild pitch.

The 6th inning scoring threat inaugurated by the Electrics was nipped by Winans when he made the finest catch of the season. With two out in the sixth, N. Mayer walked, and stole second. Pete Crocker was at bat, and Pete proved himself a good hitter in the pinches. This, perhaps, was the reason why Winans, midst shouts of "can't get it," huddled the spectators on third base line, threw his stretched-out body at Crocker's foul pop-fly, and caught it just before he sprawled headlong in the grass, retiring the side.

The Twilight League is fast developing from infancy to maturity so far as adeptness of the players is concerned, according to the play in several of the last few games. The teams are playing good baseball, in other words.

For instance, on Thursday evening the Congregationals and St. Pauls played a seven inning 1 to 1 tie in which Postmus and G. Novess, for the Congregationals and St. Pauls respectively, engaged in a very fine pitching duel. There were but three hits off Postmus, and four off Novess. Besides the hits, Postmus walked three men, and Novess two, so that the total number of men to reach first base was scant indeed. And along with this fine pitching was equally fine fielding—each team made only one error.

The Lutherans scored their run in the fourth inning, when G. Novess doubled to left field, was declared safe on third after much arguing, and scored when Hawley unexpectedly came through with a clean single to left center field.

The Congregationals failed to score until their sixth time at bat, when R. Munro singled to right field, and scored on Baxter's clean hit over second base.

Of course darkness arrested the game at the end of seven innings.

Apparently hits are not what win Twilight League ball games, for on Monday evening the Trojans touched Gilbert, pitcher for the Sea Scouts, for seven hits, and the Scouts failed to get a single hit off Lixey. Yet the Trojans were defeated 4 to 3.

The Scouts scored two runs in the second inning on an error, a walk, a double steal and two wild pitches. They tallied twice more in the sixth on a walk, an error and a wild throw over third base.

The Trojans came to bat in the seventh three runs behind, and proceeded to rally in the following manner: Lyons singled; Kern singled; Allen on first by fielder's choice, scoring Lyons; Canine singled, scoring Kern—2 runs in, and nobody out. But then the Scouts settled down, and tagged Allen out at the plate, after Winans had popped out, and ended the game by catching Lixey's pop fly to short-stop.

On Tuesday evening, St. Pauls defeated Spaulding Chevrolet by score of 6 to 3. G. Novess pitched St. Pauls to victory by allowing only one hit—a two bagger which scored two runs in the Chevs' first time at bat. The Lutherans banged the ball with ease, receiving nine hits in their six times at bat.

The Lutherans, having scored but once in the first and once in the third, were trailing the Chevs until the fifth inning, when D. Adam singled, scoring Schneider, who had been hit by the pitcher, and Elsemann, who got on by an error. A walk and three successive hits by St. Pauls' heavy end netted them two more runs in the sixth, to clinch the game.

Schedule
Thursday, June 27—Mayer Electric vs. Congregationals.
Friday, June 28—Spaulding Chevrolet vs. Sea Scouts (the game to be replayed).
Monday, July 1—St. Paul vs. Trojans.
Tuesday, July 2—Sea Scouts vs. Congregationals.
