## Girl and Boy Scouts Hold Get-Together

About 80 Boy and Girl Scouts gathered Thursday evening, November 7 in the high school gym for a Community Get-Together. The Girl Scouts, acting as hostesses, presented their formal opening under the direction of their Lieutenant, Mrs. John Fletcher. Games, relay races and contests were hilariously received, with Albert Johnson directing.

Refreshments were served during the evening, Mrs. D. Downer assisting Mrs. Fletcher and the Girl Scouts. M. R. Longworth took charge of the formal closing, both Girl and Boy Scouts participating. Both Scouts and leaders voted the party a decided success and they hope to have more such fine Get-Togethers.

The Girl Scouts announce a cookie sale to start Monday, November 18. Cookies may be ordered from Mrs. John Fletcher. The money will be applied on the purchase of uniforms. They also wish to announce that Thursday, November 14 marks the beginning of their handwork project. The Girl Scouts wish they they might get the community as enthusiastic over their project "Every Girl Scout in Chelsea in uniform" as they are.

## Red & White Observes Second Anniversary

Announcement is made in a full page advertisement on the back page of this issue of the Second Anniversary Sale of the Red & White Store, Grinwade & Hall, proprietors. Many attractive prices and special inducements are offered in this two-day sale, on Friday and Saturday of this week.

The local Red & White store was started by the present management two years ago and they have enjoyed a liberal patronage from the people of the community.

## 80 COUPLES ATTEND DANCE

The Armistice dance, sponsored by Herbert J. McKune Post, The American Legion, which was held at the public school gymnasium Monday evening, proved a most enjoyable affair, although on account of the inclement weather, the attendance was not as large as was anticipated. About 80 couples were present, and the program consisted of popular and old time dances. Excellent music for the occasion was furnished by Gloster Current's Eleven Nightingales Radio and Dance Band of Detroit.

## ANNUAL LEGION PARTY

The annual American Legion party, formerly sponsored by the Firemen, will be held at the old Firemen hall on Monday evening, November 25. Everyone, both men and ladies, welcome to this party.

## Annual 4-H Exhibit Will Be Held at Town Hall on November 30

The annual 4-H club show will be held at Sylvan town hall on Saturday, November 30, when clubs from this area will exhibit livestock, poultry, farm products, canned goods, etc. from the individual and group projects members of the 4-H clubs are carrying on. As in the past, the show is being sponsored by the Chelsea Kiwanis club.

At a meeting of the 4-H club leaders, Kiwanis agriculture committee and representatives from the county agent's office, held Monday evening at Sylvan Estates details of the show were discussed and according to plans outlined the coming show and exhibit will be by far the best of its kind ever held here by the clubs.

An attractive premium list will be a special inducement to 4-H club members who have livestock or other products of the farm to exhibit. There will be several judging contests in the various departments of the show and suitable prizes will be given the winners.

Canned goods, farm produce and poultry exhibits will be placed in the town hall, and it is planned to use the village buildings at the rear of the hall for the livestock entries.

On Monday evening, December 2, the annual 4-H club banquet, also sponsored by the Kiwanis club, will be held at the public school auditorium. The dinner is a cooperative affair, with the Kiwanis club furnishing the meat, ice cream and coffee. Parents of the 4-H club members are invited, and in past years the attendance has been near the two hundred mark. Following the banquet a short program will be given, and awards will be made to club members for work they have accomplished in their projects during the years they have been 4-H club members.

## Writer and Traveler Addresses Kiwanians

Philip Adler, traveler and feature writer, addressed the local Kiwanis club at their regular meeting at Sylvan Estates on Monday evening. In addition to the Kiwanians about 20 guests were present for the dinner and program.

The major portion of Mr. Adler's address dealt with conditions in Russia, where he recently spent several months, traveling more than 15,000 miles and studying conditions from an economic, industrial and social viewpoint. He also told of his experiences in other parts of the world where he spent some time.

Mr. Adler was born in Russia, and educated in the United States at the University of Wisconsin where he was graduated with high academic honors. He came to the United States when he was fifteen years of age. He served with the A. E. F. in France, and he has been on the Detroit News staff for about 13 years.

He speaks, reads and writes eight languages and was sent by the News to Russia in 1922, and again last year, at which time he also traveled in Japan, China and other countries of the Far East. He is one of the very few reporters ever invited to interview the Emperor of Manchuko.

Mr. Adler is one of the outstanding critics and writers on international affairs in the country. Senator Vandenberg, on the floor of the senate, passed a resolution thanking Mr. Adler for his unusual work in reporting Russian conditions. The resolution is on record in the congressional library and states that Mr. Adler has given the people of Michigan the best and most impartial picture of what is going on in Russia that the senator has seen.

## Local Legion Post Is Honored by State Dept.

Herbert J. McKune Post No. 81, American Legion, is rapidly becoming one of the outstanding posts of the Michigan Department of the Legion. Every State or District convention finds Chelsea post being mentioned for further honors.

At the mid-winter Post Officers' conference held in Jackson last week Chelsea post was given a citation for meritorious services in Americanism and the bulletins from the State Department offices show Chelsea leading the Second District in membership and being one of the ten posts in the State to have a 1935 paid up membership equal to their 1934 enrollment. Chelsea went over the top before the 30th of October and has already reached its membership quota set by the State Department.

At their last regular meeting Comrade Clare Fenn was presented with a gold Post Commander membership emblem bearing the 40 and 8 insignia. Comrade Fenn was one of the post's first commanders and to him is due much of the earlier honors won by the Chelsea post.

Wilbur Riemenschneider, the post athletic officer, is making a survey of suitable sites for a skating rink for the winter and favorable action at the next meeting will insure the children of Chelsea real enjoyment this winter. Plans have been started to make this year's children's Christmas party under chairman Sidney Schenk, a bigger and better affair than ever before.

"White Desert" of New Mexico  
Among the world's least-known places is the great "white desert" of New Mexico, whose plant life is described in the Journal of Ecology by F. W. Emerson of New Mexico Normal university. It is an area of 250 square miles, covered with drifting crystals of snow-white gypsum. The gypsum crystals collect in dunes, so that the scene is like that of a vast extent of drifted snow. The radiation effect is blinding. In this almost moistureless waste the writer found 62 varieties of plants.The "Die-Hards"  
The term "die-hards" was used in England long before it was in America. It applies to the members of any party who stick to their long-held theories, regardless of the changes that time or a newly awakened conscience may bring.

## A YOUNG PIONEER

When several hundred families were sent to Alaska from the Middle West to settle the Matanuska Valley, the Red Cross sent a nurse, Madeleine de Foras, to remain with them for a year to help protect their health. Among the first friends she made were the little pioneer, Arthur Hock, 4 years old, and "Prince," the pup who went with his young master to Alaska.

RED CROSS REPORTS  
BUSY YEAR AIDING  
DISASTER VICTIMSTornadoes, Fires, Hurricanes,  
Floods, Epidemics, Make  
Record of Year

The American Red Cross assisted sufferers in more disasters throughout the United States during the year ending June 30, 1935, than through any similar period in the peace-time history of the organization. Admiral Cary T. Grayson, chairman, revealed recently in commenting on the annual report which has just been released.

"The 123 domestic disasters in which the Red Cross extended aid during the fiscal year exceeded by 50 per cent the average over the past few years," Admiral Grayson said. "Not only was the period heavy in the number of disasters, but the geographical distribution was wide, with 37 States and 23 counties affected."

"Through these disasters and times of community distress, the Red Cross assisted 110,000 persons," the Admiral disclosed.

Spectacular service was rendered in many disasters because of the uniqueness of the problems and the far-reaching points affected. The work of the National organization covered in the report carries stories of the Morro Castle burning; the trench-mouth epidemic in the beautiful San Luis Valley of Colorado; the great fight over a wide front in the mid-west dust bowl against respiratory diseases; floods, hurricanes, and tornadoes in many sections of the United States.

In addition to the disasters taking place within the continental limits of this country, Admiral Grayson pointed out that work had been made necessary by disasters in Hawaii, Puerto Rico, and the Philippines, where 26 disasters were recorded in that archipelago. The American Society also assisted the Red Cross of two foreign countries in caring for victims of floods and earthquakes.

The variation of types of disasters called for expert council on matters relating to health and nutrition as well as epidemic prevention. Last year's work proved the value of the structure and administration of the Red Cross disaster relief, the Admiral said, the very frequency of occurrence and the variety of types constituting a severe test of the organization chartered by Congress to handle this type of National relief.

Expenditures of the Red Cross for relief of persons stricken by disasters within the continental United States amounted to \$484,418. In addition, \$75,000 was sent to the Philippines to assist them in three major relief operations necessitated by typhoons, \$5,000 went to victims of the Indian earthquake, and \$5,000 to Poland for victims of severe floods. A number of smaller foreign emergencies called for sums totaling \$2,500.

The months of February, March, April, May and June were heaviest for tornado disasters. Floods occurred throughout the year. Serious fires calling for Red Cross assistance took place during July and December. A devastating explosion took place in Tennessee during April. Most of the hurricanes struck States along the east coast during the fall and early winter.

"All of this assistance to persons in distress," Admiral Grayson pointed out, "was only possible through generous contributions made by citizens in all sections of the country."

Most of this support of the disaster relief service comes from the annual Roll Call held each year from Armistice Day to Thanksgiving Day.

On Tuesday evening the Pilgrim Fellowship of the Congregational church met at the home of Jane and Frederick Belser. "World Peace" made up the topic of discussion for the evening. After the meeting refreshments were served. Twenty-six members were present.

Roasting the Thanksgiving Turkey

FIRST, select a plump, well-fattened turkey. Either a young or an old turkey can be made excellent eating, but you must know which you have, for it makes a difference in the way you cook it. Allow from one-half to three-quarters of a pound in the weight of the turkey as you buy it for each person to be served—remembering that in the larger kinds you will get more meat in that proportion to bone. With a 15-pound turkey, for instance, you can get 20 very generous servings.

The dealer will usually draw the turkey for you, but certain things have to be looked out for at home. Out of the oil can, take out the windpipe and lungs; pull out any pin feathers and wings off hairs. Do this quickly so as not to darken or scorch the skin. Wipe the body evenly with a soft cloth wrung out of cold water. Scrub the outside with a wet cloth and scrub or corn meal inside off quickly and wipe the bird dry inside and outside. Never let a turkey or any other poultry soak in water. You lose flavor and food value.

Rub the inside with salt before putting in the stuffing. Slip a crusty slice of a loaf of bread into the opening near the tail to hold in the stuffing, tuck the legs under the band of skin left for that purpose; and saw up the slit with soft white twine. After stuffing and trussing the turkey, rub the outside all over with butter, salt and pepper and pat on flour. Lay a piece of turkey fat over the breast. Place on a rack in an open-roasting pan. Do not put any water into the pan. Water in a roasting pan makes steam, and steam around a roasting turkey or any tender meat draws out the juices.

Have the oven hot (about 450° F.) when you put the turkey in. Brown it lightly for half an hour in this hot oven and after the first 15 minutes turn the bird with the breast down so it will brown all over. Then reduce the oven heat to very moderate (325° F.). To cool the oven down quickly leave the door open a few minutes. Turn the bird from time to time, basting it with turkey fat and butter.

If the turkey is young, continue the roasting at this moderate temperature with no lid on the pan until the bird is done. Baste with pan drippings about every half hour. In turning, be careful not to break the skin. A young 10-12 pound turkey will need about three hours in the oven.

For a turkey a year or more old, after browning in the hot oven, put the cover on the roaster, and continue the cooking in the moderate oven (about 325° F.). You will probably need to allow 4 1/2 hours for a 15-pound bird a year or more old.

To test the "doneness" run a steel skewer or a cooking fork into the thigh next to the breast. If the juice does not show a red tinge, the turkey is done. Make gravy with the giblets and drippings.

The bureau of home economics, United States Department of Agriculture, which gives the foregoing suggestions, also supplies this recipe for a savory stuffing, and one for giblet gravy. For stuffing:  
3 quarts dry bread 1 pint chopped  
1 cup fat, butter 2 eggs, salt  
and turkey fat 1 to 2 tsp. savory  
seasoning  
1 small onion, chopped  
1/2 cup chopped parsley  
In the melted fat cook the onion, parsley and celery for a few minutes. Add the bread crumbs and seasonings and stir all together until the mixture is thoroughly heated. Fill the hot stuffing lightly into the turkey, but do not pack.

Giblet gravy: Simmer the giblets (liver, gizzard and heart) and the neck in one quart of water for about an hour. Drain the giblets and chop them fine, saving the broth. If there is too much fat on the drippings in the roaster, skim off some of the excess fat and leave about one-half cup. Into these pan drippings stir six level tablespoons of flour. Then gradually add the cool broth from the giblets and enough more cold water to make a thin smooth gravy. Cook for 5 minutes, add the chopped giblets and season to taste with salt and pepper.

The Towar Creamery at Chelsea seems to be in a flourishing condition and G. W. Towar, who was in town Monday says its permanency is assured.

We understand that over \$1000 was distributed among Chelsea farmers for October milk, the price being close to 21 cents per pound for butter.

In view of the fact that the price of dairy butter on Chelsea market has been but 14 to 17 cents for October, it would seem as though all of our farmers would be crowding in to this 21 cent market.

The ladies of the Baptist church held their annual fair on Wednesday afternoon and evening. A turkey and chicken supper for 25 cents was served.

## OUR NEIGHBORS

MARION—Workmen are raising the Swartout hospital and expect to have the Ash street site cleared within two weeks. The 15-bed hospital and medical building was started in July of 1934 and was almost completed by William H. Swartout when the financial situation became acute and work was halted. The steam plant, rough plumbing and electric wiring had been completed. It was believed that funds for completion of the hospital could be raised. But financial backing was not forthcoming and Mr. Swartout was forced to abandon the project. Lacking but a few thousand dollars and a few weeks time for completion, the building operations were halted. The weather then went to work and as the months passed the building began to crumble. Moisture and hard freezes did great damage.

PLYMOUTH—Many reports have been received during the past few days of big flights of geese to the southland. Linus Galpin, who has a farm west of the city, last Saturday saw three big flocks flying south. One flock was of perfectly white geese, the first Mr. Galpin said he had noticed in many years. He was trimming trees in his orchard as the flock flew over, rather close to the ground. He estimated that there must have been more than five hundred geese in the flock. This is the second flock of white geese that has been noticed flying south during the past two or three weeks. Mail.

BROOKLYN—J. C. Covert, 94 years old, took his first airplane ride the other day. He flew from Chicago to Ft. Worth, Texas. On his arrival in Ft. Worth he stated that he votes for Pittman coaches instead of airplanes. —Exponent.

PINECKNEY—Last Wednesday the new Plymouth sedan, belonging to Mrs. Christine Howlett was reported stolen from in front of the Howlett

hardware store at Gregory where it had been parked Tuesday night. It was recovered in Pineckney Wednesday where it developed that Harold Cone, a Gregory youth, had taken it Tuesday night, loaded it up with Pineckney boys and gone to the Brighton motion picture show. On account of the fog he had not returned to Gregory with the car but spent the night with friends here. As the car was not hurt we understand the Howlett family does not desire to take any action against the youth and he will probably be released to Fred Teeple, county probation officer. —Dispatch.

## R. C. CAMPAIGNS TO PREVENT ACCIDENTS

Program Inaugurated in Local Chapters to Cut Down Farm and Home Accidents

The American Red Cross has launched a nation-wide campaign to eliminate hazards in the home and on the farm that now take an annual toll of nearly 55,000 lives, according to a recent statement by James L. Fieser, vice chairman in charge of domestic operations.

"Every Red Cross chapter is being asked to play a part in this campaign," Mr. Fieser said. "Hazards in the various communities will be pointed out. The children in our schools throughout the country will be given a list of the home hazards and asked to enroll parents or relatives in the fight against them."

Nearly five million men, women, and children were temporarily disabled in the homes of America last year by accidents, officials of the National Safety Council have revealed. Most of the accidents in which persons were killed and injured could have been prevented, according to this safety agency, the chief alone largely motivating the Red Cross drive for accident elimination.

Active cooperation of social, civic, educational, veterans', and other groups has been secured. Red Cross inspection forms or home check lists will be distributed to homes where there are no children with the help of these organizations.

Due to immobility and lack of compensation coverage, little or no

Pioneering has been done in the field of farm safety, the Red Cross states. However, more people were accidentally killed in agricultural pursuits last year than in any other occupation, making the need for safety education and farm home inspection apparent.

Other agencies now active in the new prevention field point to the fact that, because of its nearly 15,000 chapters and branches, the Red Cross has a unique opportunity to successfully promote a project of this nature.

Home accidents injure many more than do automobile accidents; they kill nearly as many, claiming an average of about 50 lives daily. In 1934, of 14,000 deaths, for the practical minded, home accidents cost more than \$1,000 per minute.

Accidents of all types are Public Enemy No. 4. Only three diseases cause as many deaths each year, heart disease, cancer, and cerebral hemorrhage.

"The home is not the place of safety. It is commonly supposed to be," said Mr. Fieser in commenting on the new Red Cross service to the community. "The Red Cross, as a part of its chartered obligation to prevent death and alleviate suffering, is conducting this humanitarian program to cut down the mounting toll of avoidable personal injury and death in the homes of the country."

The annual Red Cross roll call, running from Armistice Day to Thanksgiving Day, is one of the means of backing such a campaign. All citizens of the United States are offered the opportunity to join and assist in the work of the organization.

Use of Double Negative

In Anglo-Saxon, Greek, French and some other languages, the double negative sets only as a negative intensifier. In modern English it destroys the force of the negation; in other words, two negatives make an affirmative.

Birds Know Their Own Eggs  
Home birds recognize eggs that are not their own placed in their nests or laid there by other birds and they will push them out or destroy them rather than sit on them.

"WE SERVE MICHIGAN"

## The First 8 Pennies

THE TAX Collector, not the railroad, gets the first 8 cents of each \$1.00 you pay for rail freight or fare.

AND, COULD you trace them, about 40 of the remaining 82 cents also ultimately become taxes—local, state and federal—taxes paid by those who supply the railroad with fuel, materials and labor and to whom the railroad pays bond interest and stock dividends (if any) and by those who supply the suppliers of the railroad, etc., etc.

THE RAILROAD pays the highest rate of tax of any agency of transportation. In return it asks nothing in the form of right-of-way publicly supplied and maintained, nor other kind of subsidy. It stands on its own feet—an institution privately maintained and privately operated, yet functioning in the public interest.

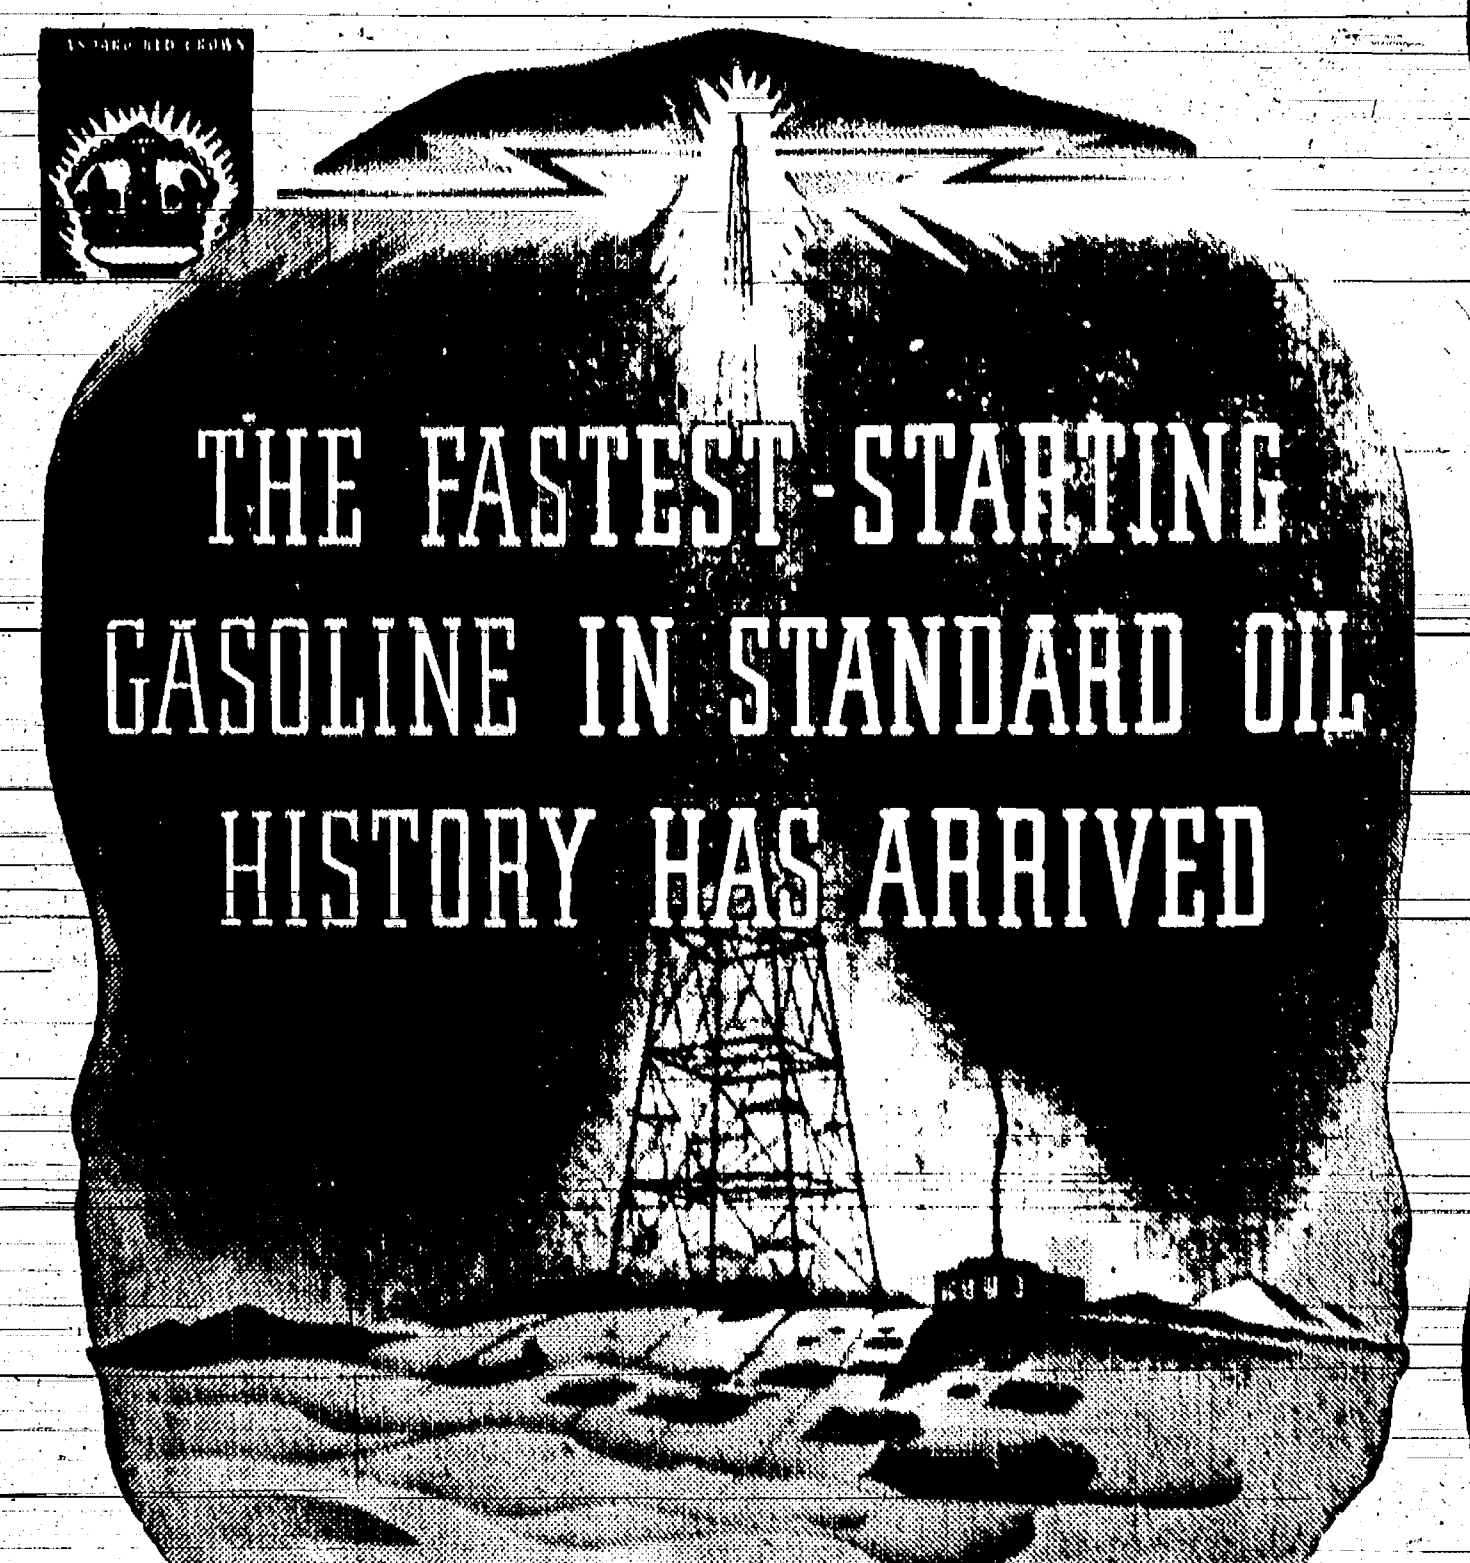

THUS WHEN you ship and travel by rail you ease your own tax burden by lending support to the one form of transportation that supports itself and gives most to the support of government.

AND THE freight fee or the fare you pay is the final payment. No "hidden cost" looms later in your tax bill to plague and penalize you for the so-called saving which some subsidized transit agency held out for your patronage.

GIVING BUSINESS to the trucks means giving it to a tax-consumer whose operations only add to our taxes and living costs.

SHIP AND travel by rail and the first 8 cents of your freight or fare dollar will always come back to you as a discount in your tax bill.

35% QUICKER WARM-UP WITH NEW STANDARD RED CROWN

SOME surprising new discoveries have been made recently about what it takes to start a cold automobile engine—start it and warm it up to full, smooth drive-away power faster.

For many years Standard's research staff has been at work on this problem. Not satisfied with laboratory experiment alone, they have conducted thousands of road tests—in all sorts of temperatures—using all sorts of gasoline formulas.

And now they come forward with a motor fuel that is different, in many respects, from any that ever went into a gasoline tank before—a motor fuel which embodies all these newly discovered principles—which really is quick starting without the drawbacks that so often go with that quality.

This new Standard Red Crown starts at the first flash of the spark. But on top of that it has fully 35% faster warm-up speed in zero temperatures. Actually it will get your car started and under way as quickly and easily in mid-winter as in mid-summer.

You'll be free from vapor lock. You'll get better winter mileage. Try it!

One suggestion: Because this new Double-Quick gasoline does turn on full power in a cold engine so quickly, the use of a light grade of winter motor oil is desirable to assure instant, active lubrication of all moving parts. See "Vis" "D"—10-W or 20-W—is a perfect running name for the new Standard Red Crown.

## Chelsea Wins

Chelsea won its fourth football game, this season, last Friday at Manchester, 20 to 13. There were many spectacular plays, both by Chelsea and Manchester.

Chelsea kicked off for Manchester. M. Brueckner took the ball out of the air and ran up the field 20 yards before he was tackled. Novess ran through the scrumming line for 20 yards, then went back to kick and got a good one for 50 yards. Widmayer of Manchester returned the ball around Chelsea's end for a gain of 2 yards. Wolfe lateraled a pass and Mollisch ran down the field for a 40 yard gain and a first down. Chelsea got the ball when Manchester failed to make a first down. M. Brueckner made two consecutive plunges for 8 yards. Novess went through the line for 4 yards and a first down. Hart came in for Strickland who started in the line-up as full back. M. Brueckner went through the line two more times for a gain of 8 yards. Hart got through the line for 4 yards but failed to make a first down so he punted on the last down. The ball bounced out of Widmayer's hands and after an argument the umpire said Widmayer recovered the ball. A Chelsea man pounced upon it, but it was completed a long pass. Then they crossed the line for a touchdown. The ball was snapped back to Mollisch but he fumbled the ball and the Chelsea ends could down the ball. After a few minutes the game ended with Manchester leading 7 to 0.

In the second quarter M. Brueckner kicked a centered ball and Widmayer recovered. Widmayer punted and Mollisch came up with the ball. Widmayer gained another 15 yards, then went around end and over the line for a second touchdown. A pass was incomplete for the point after. The second quarter was over before either Chelsea or Manchester could get very close to the goal.

The third quarter turned out differently for Chelsea. Manchester kicked off and Novess received for Chelsea, returning the ball 10 yards before he was finally downed. Hart gained 7 yards on a plunge. M. Brueckner rushed a tackle and made 4 yards and a first down. Hart got by for another 15 yards. Then M. Brueckner went around right end and made a touchdown. M. Brueckner made the point after by place kick.

Wolfe made a long attempt for a touchdown but was brought down on the 10 yard line after running 50 yards. Chelsea held Manchester for a gain in four downs so the ball went to Chelsea. Lyons gained 3 yards. M. Brueckner gained 11 yards, then the quarter ended with Chelsea's ball on Manchester's 15 yard line. A fake plunge brought the ball a foot from the goal. On the next play M. Brueckner went over the top of the players and gained only inches. But on the next attempt he got over for a touchdown. The point after was made by M. Brueckner. Later Hart recovered a fumble by a Manchester player. M. Brueckner made a touchdown on another rush. The game was soon over with Chelsea's ball resting on Manchester's 40 yard line.

This was Chelsea's last football game this season and also the last one for the Senior players of the year of 1935.

## Ideal Escorts

Following is a list of certain girls' opinion of their ideal escort:

1. He must be taller than I, a good dancer, athlete, witty, and a good kisser.
2. My ideal escort would not necessarily have to be handsome, but he must be popular, clever, amusing, and well-groomed in looks as well as in dress.
3. I like the cave-man type, and I can't tell me that most girls like, too. I don't mean that I want a cave-man to be rude and boorish, however.
4. I hate boys who come to my house every night, and sit around and wait for me to entertain them. I don't want this once in a while, but it does seem pretty tiresome.
5. My perfect escort must have all the above, must be a smooth dancer, must have plenty of money. He must have a dandruff.
6. My idea of an ideal escort is one who knows what the proper thing to do is and when to do it. I like a boy who possesses personality, poise, and a sense of humor. Good looks count but it's not the only thing.
7. Another girl says "If I could go with a boy who is witty, unscrupulous, and well-dressed I would be perfectly satisfied."
8. My date must be sober enough to take me home. I don't roll the dice and then to drop him on his head and then go home myself.
9. My favorite escort must have a lot of money (I'm against habitual gamblers), he must be slightly taller than I, and possess a good disposition and a clean mind. P. S. I absolutely essential! He must know when to leave my house without being asked.
10. An ideal companion would: Behave himself in public. Not be boring or conspicuous. Be considerate, and not talk about himself continually. Not laugh about a secret of another person present.

## Editorial

By Mary Gilbert  
Knowledge is worth a great deal to us. At the present I am afraid we don't stop to realize this fact. It's later on, however, that we realize how important a part knowledge plays in our lives. We have received our report cards once this year and although there were some very excellent ones, there were a few that were quite disappointing. Students—let's try very hard and see if we can't improve these marks and not be like some whom I have heard say: "Oh, I don't care if I am not on the honor roll. It doesn't mean anything to me." This honor roll does mean something. It proves that the students whose names are recorded have tried and succeeded in their daily efforts and it is rewarding them in this way.

This does not mean that those who have failed must keep on doing so, but it is simply an incentive for them to work a little harder so that our honor list can contain the entire enrollment of our school.

At present the honor list is our reward for striving for knowledge. Later in life is when we really start to reap the benefit from our former efforts.

## Playlet

Scene: Study hall of any school in which the teacher has left temporarily. Characters: A study hall full of people who for the present are not educationally inclined. The following excerpts are taken from the conversation of the study hall:

"Hey Charlie, what do we have for Chemistry?"

"Pass this to Riker, hurry up."

"Get to work, Streamline."

"Hey you guys, shut up will you? I can't get my work done."

"Aw gosh, I can't get my history. If she asks me I'll tell her I worked all hour."

"Have any of you guys heard this one?" (One boy ambles nonchalantly toward the pencil sharpener and all the rest, with the exception of the few, engage in conversation, stop energetically in rhythm, and thus bring down upon their heads the usual scolding from the teacher temporarily in charge. As the instructor turns, simultaneously all heads are buried in their books. After the teacher has resumed her work, a dozen self-made aeroplanes sail into the air. The first ball rings.

"Gosh this hour went in a hurry. I better do my Algebra and English."

(Pages are turned feverishly in a last attempt to acquire knowledge and as the second bell rings the teacher remarks with a sigh of relief: "What a noisy bunch of students.")

## At Ten

Every morning at ten or a little later, you can easily hear one student say to another: "I'm hungry, aren't you?" Almost invariably the answer is yes. So, when school began on Friday-morning at eight o'clock, and many students were deprived of that 8:10 breakfast, the Seniors hurried to the rescue (about the fourth week) and solved the hunger problem by selling sandwiches and candy shortly after ten o'clock. Wasn't it interesting to see that hungry look appear on so many persons' faces about five minutes to ten, and around ten minutes after ten to see them hurry to the lower hall and part with a nickel for a tasty sandwich or a few pennies for some delicious fudge? The Seniors hope you really enjoyed this and thank you for your cooperation in making the selling worth while to them.

## Caesar Says

Greetings to you. Let us honor the Kiwanis Minstrel Show by this joke: Mose: How far can you all go in that now car?  
Rastus: Ah can mak' two miles a minute 'ceptin' for one thing.  
Mose: What's that?  
Rastus: The time am too short an the distance am too long.

For Miss Fowlkes and her Latin class take this:  
Ed Schenk: What's that word across the top of the door mean?  
George Prinsing: Exit? Why that means—well, it tells you where to go out.  
Ed: What does that word 'aerobato' mean across the curtain?  
George: Don't show your ignorance. That's Latin for 'welcome'.

Well, so it goes, and me with it—So long!

## The First Walls

Walls did not come into existence in a haphazard manner. In ancient times they had a definite function to perform, and they were all outwardly intended to be the most of the thing. Their chief consisted of tripping the streets at night, keeping low and order, and proclaiming the time at certain intervals. Later they developed into wind instruments, players and until one hundred years ago had an official standing. In London, it was the custom for swains to engage waits to serenade their lady-loves at night, on payment of a fee, but eventually they complained of loss of sleep and the practice was abolished. At one time the custom was so established that there was, at wayside in one street or another from 1 to 4 a. m.—The Bells Magazine.

## Spunge Iran

Spunge Iran is iron directly produced from the ore in an electric furnace, rather than indirectly produced by first smelting in a blast furnace and remelting.

## Home of Jersey Cow on English Channel Island

Jersey, long island of the Jersey cow, is a small island located in the English Channel just off the coast of France. The land slopes from an elevation of 400 feet on the north to sea level on the south. The climate is mild throughout the year and cattle are housed only a few days. Land holdings are small, agriculture intensive, and cows spend their days rather closely confined. As a result the island cow is docile, delicate in form and substance, with slight muscle development and a bit thin at the heart, but uniform and beautiful. Bulls are more sturdy and aggressive.

The Jersey, with the Guernsey, is supposed to have originated from crosses of cattle common to Normandy and Brittany in France. The probable date of origin as a breed is not definitely known, but Jerseys have been maintained pure since 1780, when an enactment prohibited importation of this cattle for anything but slaughter purposes. Jerseys were first imported into the United States in 1850, their color varied widely—from yellow to silver fawn, squirrel gray or perhaps black. While markings are commonly found with these colors. No pure white cattle, brown and brindled marks are permissible. India generally are darker than cows. Excepting the Kerry cattle, the Jersey is the smallest of the dairy breeds. Cows ordinarily weigh from 800 to 900 pounds, and bulls average 1,500 pounds. American-bred cows within greater body weight, perhaps averaging 1,000 pounds, in comparison the Jersey is lean and highly muscular. This head is rather short and fine featured, broad between the eyes, with some dish in the face. Horns of the males are short and strong, while those of the females are somewhat smaller, perhaps longer and more curved, in color white or amber with darker or black tips. Jerseys are bred primarily for butter production.
