Sterling Michigan Corporation Scene of Much Activity

A visit to the "L" factory building, recently purchased by the Sterling Michigan Corporation, reveals a scene of seething activity. Fifteen men are now on the payroll of the company, and are engaged in various activities of placing the plant in readiness for operation.

Twelve carloads of machinery and equipment have arrived and the first floor of the building is well covered with large textile-machines which will be used in the manufacture of insulation material for automobile bodies. The machines will not be placed until the elevator in the building is rebuilt so some of them can be moved to the second floor where part of the manufacturing will be done.

A partition is being built in the southeast corner of the building to enclose the office, which will be 18x36 feet. A room with the same dimensions is being partitioned off for the machine shop.

Electric wiring will be installed by Consumers Power Company in the near future as power for operation of the plant will be purchased direct from that company. Sufficient wiring has been done to furnish lights temporarily.

The contract for a heating plant will be let soon, and will be the latest type steam-heating system. Some of the pipes now in the building will be used. The sprinkler system now in the building will be overhauled and some of these pipes can be used.

Raw materials used by the company in the manufacture of their insulation product consists of cotton, wool, jute and asphalt, and large stocks which will be carried will necessitate the use of part of the second floor and all the third floor for storage purposes.

David Otis, who has been associated with the company at Waltham, Mass. has moved to Chelsea and is superintending the repair work and installation of equipment. It is planned to have the plant ready for operation in March, with an initial force of about 60 men.

Chelsea Hi Wins First

B. B. Game of Season

The Chelsea high school cagers defeated Jackson Tech at Jackson on Tuesday night, by the score of 17-14, for their first victory of the season. The high point man for Chelsea was Foster, with ten points; for Jackson Tech, Best, with six points. The score at the half was 7-1 in favor of Jackson.

The Reserves lost in an overtime game, 14-12. With a few seconds to play Koebe shot and the ball perched on the metal between the basket and the backboard. This basket was not allowed. High point man for Chelsea, Koebe; for Jackson Tech, Ruede.

In the third quarter of the Varsity game Chelsea's basket broke and after that Foster scored the baskets which put the local boys in the lead.

VISITS NORGE PLANT

Lloyd Heydlauff, local dealer in Norge products, left Detroit last Wednesday evening on a special train for Muskegon, where he spent Thursday on a tour of the Norge refrigerator and washer plant. 8000 dealers were in attendance from this area; which includes Ohio, Indiana, Illinois and Michigan. Returning to Detroit on Friday, they were taken through the roller and stove plant, also attending a business session at the Masonic temple, which included an advance showing of Norge products for 1936—refrigerators, stoves, ironers, washers, etc. In the last five years Norge has become one of the leaders in home appliances.

PAST CHIEFS CLUB MEETS
Mrs. May Luick was hostess to the Past Chiefs club last week Wednesday afternoon at a 1:30 luncheon, with Mrs. Agnes Mayer assisting. Officers elected for the year 1936 are: President—Stella McManus. Vice-Pres.—May Luick. Sec'y Treas.—Margaret Dietle. Cards furnished amusement after the business meeting.

ADDRESSES KIWANIS
Rev. H. A. Leeson, superintendent of the M. E. Home, addressed the Kiwanis club at their Monday evening meeting. Rev. Leeson related some very interesting incidents regarding his experiences while occupying pastorates in the Upper Peninsula. He became a very enthusiastic fisherman while in the northern country, and told some "big" fish stories.

HONORED ON BIRTHDAY
About 35 neighbors and friends of Clarence Koenigter assembled Sunday evening at his home near Rogers Corners, as a surprise in honor of his 37th birthday anniversary. In games played during the evening, Eileen Koenigter and Ralph Frey won the first prizes, Mildred Frey and Rev. M. W. Duerksen the consolation. Several gifts were presented Mr. Koenigter and the guests served a pot luck lunch.

Bonus Application Forms Here Today

Word has been received by the local Post of The American Legion that the necessary blank forms, on which application is to be made for payment in bonds on the Adjusted Compensation Certificates held by World War veterans are in the mails and the forms should be in the hands of the Post officials this afternoon.

Paul C. Maroney, Service Officer of the local Legion Post has been appointed by the Post Commander to take charge of filling out the applications and any ex-service man eligible for the so-called bonus should contact him for further information.

Veterans are informed that they must bring with them their discharge papers, also their Adjusted Compensation Certificate or in case a loan has been obtained on their bonus, it will be necessary to bring in the pink slip issued to them at the time the loan was made.

Scout Week To Mark Beginning of 27th Year

Boy Scout Week will be celebrated all over America February 7th to 13th—closing the Silver Jubilee celebration and launching Scouting's 27th year. Scout Week will be celebrated in all troops and cub packs in Washenaw and Livingston Councils by the receiving of several new boys into Scouting and Cubbing membership.

Any boy of 9, 10 or 11 who desires to enroll as a Cub and boys of 12 years of age and over who wish to become Scouts are asked to get in touch with the local Cubmaster or Scoutmaster or to send their names to Scout Executive Walter MacPeck, 324 East Huron St., Ann Arbor.

Additional groups are being organized to serve those boys for whom there are no troops. Other boys may become members of Home Patrols or Lone Scouts.

Motor Law Book Is Ready for Public

The 1936 edition of the state's motor vehicle laws is now available for free distribution from the office of the Secretary of State at Lansing. Only 85 copies of this book will be mailed out without the necessity of a written request to the department, these advance copies going to the prosecuting attorneys of the counties of the state. On request, however, a copy of this book will be mailed, postage paid, to anyone.

For the first time, provisions of two other related laws are included in the compilation of motor vehicle legislation. The other laws included are the Financial Responsibility act, and the Public Carriers' act.

CAVANAUGH LAKE GRANGE

The Ladies Aid Society of Salem M. E. church and Cavanaugh Lake Grange will hold a joint meeting at the home of Mr. and Mrs. Edwin Schenk on Jackson road, near Notten road, on Wednesday, February 5. A pot luck dinner will be served at 12 o'clock noon. Program: Song—by L. A. S. and Grange—America.

Roll call—Miscellaneous. Solo—Theo. Riemenschneider. Reading—Mrs. P. H. Riemenschneider.

Piano solo—Mrs. Philip Broesamle. "Abraham Lincoln"—Ransom Armstrong. Song—Star Spangled Banner.

ENTERTAIN LEGIONNAIRES

Members of the American Legion Auxiliary, were hostesses to the American Legion at a pot luck dinner and dance last Thursday evening at the Legion hall. About 60 members were in attendance. The tables were attractively decorated with bands of red, white and blue and fancy gumdrop trees placed at intervals. Community singing was led by Mrs. John O'Hara, and dancing and cards furnished the diversion. Committees in charge were: Mrs. Elmer Mayer, refreshments; Mrs. Wilbur Hinderer, entertainment; Mrs. A. L. Brock, decoration.

INSURANCE CO. ELECTS

At a meeting of the directors of the Northwestern Washtenaw Farmers Mutual Fire Insurance Co. held Tuesday afternoon at the home of Guy A. Barton in Lyndon township, Alvin D. Baldwin was re-elected president for the coming year, and Mr. Barton, secretary-treasurer.

CELEBRATE 56th ANNIVERSARY
Mr. and Mrs. Adolph Gross and family, Mr. and Mrs. Clarence Eschelbach and son, and Mr. and Mrs. Leigh Luick and family were Sunday dinner guests of their parents, Mr. and Mrs. G. F. Gross, in honor of their 56th wedding anniversary.

OLD TIME DANCE
Saturday, February 1, over Alber's plumbing shop. Ladies free. Gents 35c. 4-piece orchestra. A good time guaranteed to all. Come and get acquainted. 9 to 1. Adv.

Plan Recreational Site For Chelsea In Waterloo Park

In order that the village of Chelsea may fully participate in the pleasures to be derived from the facilities of the Waterloo Park Project, an effort will be made to create sufficient interest here to secure a recreational site for exclusive use by the people of this community.

Initial action in this matter has been taken by the Kiwanis club and a committee from this organization conferred with C. D. Platt, project manager, Monday evening to discuss plans whereby such a project could be realized. An effort will be made to enlist the support of other local organizations and to submit a definite request to park authorities for their consideration.

Mr. Platt's suggestion is that representative organizations of the community study the layout of the project territory and select a site which will be easily accessible to local residents. It is believed that a site with log cabin, fresh water supply, proper sanitation facilities and picnic table could be obtained at a nominal rental, with improvement of the site, upkeep and supervision being taken care of by the federal park authorities.

If such an arrangement would materialize, the site could be used at intervals by Boy Scouts, Girl Scouts, Sea Scouts, underprivileged children, and for the many recreational activities which might be desired. It would, of course, be planned so the site would be near a good beach.

Park officials are encouraging hikes by youngsters, and grownups as well, into the territory comprising the Waterloo project, realizing that many people of the community have yet to see the beauties of the country lying within a few miles of Chelsea. It is this natural beauty which prompted action by the federal government in selecting this locality for the park, and it is hoped that the village as a whole will take some action whereby they will derive some of the benefits from the recreational facilities which will be provided.

Child Study Club Sponsors Lecture

On Thursday evening, February 13, at 8 o'clock, in the public school auditorium, there will be a free lecture sponsored by the Child Study club, through the cooperation of the county nurse, Miss Pearl Halst.

The speaker, Miss Hutzet, is sent out by the state board of health, and she will take as her subject, "The Art of Living". This will be an address on Health Education in relation to the social group, and the development of the individual, with special emphasis on the social, mental and physical aspects.

The state board of health, through the local club, is urging all parents to attend this lecture, as it feels that the lecture will be intensely interesting and of great benefit to all. Don't forget the time and place—high school auditorium, Thursday evening, February 13. No charge. Please watch for further announcements.

REAL WINTER WEATHER HERE

Since last Wednesday afternoon the residents of Chelsea and vicinity have been experiencing real winter weather. Temperatures were zero, sub-zero and a few degrees above zero until Monday when the weather moderated somewhat. The high wind on Wednesday drifted the north and south roads. Several of the roads were not opened until Sunday. Road crews worked day and night but the crust which formed on the snow made it extremely hard to clear the roads and several plows were broken. Several motorists abandoned their cars in the middle of the road or managed to drive into a farm yard.

STUDY CLUB MEETS

A meeting of the Child Study club was held Tuesday evening at the home of Mrs. H. L. Blecker. A duet, "The Minuet," by Mozart, was pleasingly rendered by Peggy Blecker and Eunice Hart, with Barbara Blecker as accompanist. After the business session, a paper, "The Youth on the New Highway," was given by Mrs. Sidney Schenk, followed by roll call and a discussion, to which 20 members responded. The hostess served refreshments.

The next meeting will be a "Stunt Night," on February 11, with Mrs. Faye Palmer as hostess.

24 YEARS AGO

Thursday, February 1, 1912

Mrs. Katherine Barbara Schettler, a resident at Rogers' Corners for 63 years, died on Monday, January 29, 1912.

Rev. Charles J. Dole of Castalia, Ohio has accepted the pastorate of the Congregational church of this place and will begin his work here next Sunday.

Richard W. Hall died at his home on East street on Thursday, January 25, 1912.

The Misses Lizzie and Nellie Maroney are visiting relatives in Temple, Texas.

J. N. Dancer and John Kalmbach have purchased Ford roadsters, which they received on Wednesday.

Hummel & Fahrner have sold their stock of goods to F. H. Belser.

R. L. Davidson has sold his farm to Albert Hinderer. Mr. Hinderer will continue to reside on the Geo. Boyd farm in Lima and will rent the farm he purchased.

Many sleighride parties are being held. On Friday evening a sleigh load went to the home of Mr. and Mrs. E. J. Cooke of North Lake.

Saturday, a group surprised Mr. and Mrs. J. P. Miller of Sylvan and on Tuesday two sleigh loads went to the home of Mr. and Mrs. Ed. Weiss.

34 YEARS AGO

Thursday, January 30, 1902

Mrs. Jane Prudden died at the home of her son, William Denman, on Sunday, January 26, 1902.

Miss Minnie Belle Beaman and William M. Zick were married at the home of the bride's parents on Jefferson street on Thursday evening, January 23.

Howard Brooks is making preparations to erect a brick residence on West Middle street.

The briefest January thaw in this latitude on record occurred on Sunday between the hours of 9 a. m. and 6 p. m.

Miss Lena Foster won \$2 in the Canadian population guessing contest conducted by the Press Publishing Co. of Detroit. Miss Lois Smith of Ann

Arbor won \$2,500, guessing within two of the correct number. R. M. Hoppe also cleared up \$3 in the contest.

Oscar Eaton, one of the pioneer residents of Lima township, died at his home on Wednesday morning, January 22, 1902.

Married, in Dexter, on Wednesday, January 29, 1902 at the home of the bride's parents, Mr. and Mrs. Zerah Burr, Miss Marie Lavey and Henry Steinbach, a former well known Chelsea resident.

Health Items

Keeping Well

Practically every one at some time has heard the remark, "Lock the barn before the horse is stolen". In other words do something before trouble begins. To an Osteopathic Physician it may mean to make an effort to keep well—not to wait until you are ill before you do anything about it. It is much more pleasant and incidentally costs less, to keep well. It is also the intelligent thing to do.

Many diseases give us warning that they are present before there are any definite symptoms. As an example, a simple cold will give us warning by a feeling of tightness between the shoulders or a feeling of stiffness in the nose. We may experience an ache at some point but many times the aches are absent in the beginning of a simple cold. Influenza of course will announce itself with aches and pain throughout the body. Pneumonia says "hello" with sudden chills and perspiration.

The point to remember is this—a good, brisk Osteopathic spinal treatment will in the great majority of cases put a stop to the disease—if the treatment is taken when the first symptoms arrive. The patient is ill—no doubt about that, but the length of time spent in bed will be considerably less than if the patient waits until the diseases gets a strong "hold".

Don't take a chance with a cold!

Any reader desiring information regarding Osteopathy may obtain such information by writing to Osteopathic Items, P. O. Box 331, Chelsea, Mich.

Question And Answer Dept.

Ques.—Can a citizen of the United States lose his citizenship—that is, can he nullify it and return to his native land?

Ans.—A citizen of the United States remains a citizen here until he swears allegiance to his native land or any other nation. This automatically nullifies his citizenship in the United States. If he wanted to return here again and become a citizen he would have to wait five years before taking steps to be naturalized again.

Ques.—Does the River Nile flow through Ethiopia? And what body of water does it empty into? Also, does it flow north or south?

Ans.—The Nile does not touch Ethiopia. It rises in the southern part of the Sudan and flows northward, emptying into the Mediterranean Sea, forming a delta at Alexandria and Port Said, Egypt.

Ques.—I was born on June 18, 1913, and have been told that it was an unlucky day. Can you tell me if it was or not?

Ans.—If you are at all superstitious no doubt you will think you were born on an unlucky day, as June 18, 1913, occurred on Friday. However, the "unlucky" aspect is only a myth and should not give you any concern.

Ques.—Why don't the Ethiopian soldiers wear shoes?

Ans.—The Ethiopian soldiers do not wear shoes because it is not necessary. They live in a very hot climate, the year round, and their feet are calloused and tough like that of an elephant's hide. It is very rarely they hurt or cut their feet—even on broken glass or on the sharp edges of stones and lava.

Ques.—Why does an egg get hard when it is boiled while most things get softer?

Ans.—An egg is made up of a substance called albumin. Heat changes this substance altogether; makes it into a new substance which is harder and more solid. The heat causes a rearrangement of the molecules inside the albumin. In other foods the molecular rearrangements produced by heat are not the same as in albumin, so the same effect does not occur. In this case, then, they get softer—not harder.

Ques.—Why do apples and potatoes turn to a dark color after they have been cut?

Ans.—Apples and potatoes contain a certain amount of a certain chemical compound which is colorless while it is beneath the skin of these edibles. But when they are cut or the skin removed this chemical combines—very rapidly with the oxygen of the air as soon as it comes in contact with it. The result of this combination is another compound which just happens to be brown in color. Therefore, a cut apple or potato will get darker unless they are kept away from oxygen by being submerged in water or possibly some other means.

Ques.—What makes canned fruit spoil if they are not properly sealed?

Ans.—Nearly all spoiling of canned food is due to germs which get in and grow there like the bacteria which makes milk sour. These germs need air to grow. If canned foods are tightly sealed and no air can get in the germs cannot multiply or grow.

Ques.—I would like to know what causes a person to be absent-minded?

Ans.—This is because the subconscious mind has temporary full charge of the person. While the conscious mind is not asleep, it might as well be. The unconscious mind is not very efficient or careful, and often cause a person to do many odd, curious and absurd things, simply because he is so intent on some mental problem that the conscious mind cannot notice anything else.

Ques.—I am told that when an object gets nearer the exact center of the earth it gets lighter. Then what would a hundred-pound ball weigh right at the exact center? Would it weigh nothing?

Ans.—It would have some weight at the exact center, but very little. The earth itself would cease to exert any gravitation; but there would be a slight attraction of gravity from the sun, the moon and other heavenly bodies.

Ques.—What is the proper temperature for a room used as a study room?

Ans.—Experiments have shown that the air temperature of a study room for the white race is best for brain work at about 65 degrees. This applies, of course, to the average person; individuals vary a good deal.

Take Ourselves in Hand
Morbid sensitiveness requires heroic treatment. A sufferer who wishes to overcome it must take himself in hand as determined as he would if he wished to get control of a quick temper, or to rid himself of a habit of lying, or stealing, or any other defect which prevented his being a whole man.Ingredients of Paint
Paint is a mixture of solid particles (called the pigment) and a liquid (called the vehicle) which dries solid when spread out in thin layers, protecting and decorating the surface to which it clings.

Nature Printing

A scholar fingered old books on the table of a second-hand book shop frequently comes on a volume of poetry or a Victorian novel with a flower or leaf pressed among the pages. Sometimes the form of the dried plant has been transferred in a brown stain to one page, says the New York Sun. To a botanist such a stain would be likely to recall certain volumes of "nature printing" used in the eighteenth century, in which accurate records of leaves and whole plants were made by a kind of transfer process no longer generally practiced.

Prominent Landmark in Cairo

One of the landmarks of Cairo, Egypt, is the Mohammed Ali mosque which surmounts the citadel. The citadel was built in 1176, chiefly of stones taken from the smaller pyramids of Gizeh. The mosque was started in 1827 by Mohammed Ali, great grandfather of King Fuad of Egypt, and completed about 20 years later. Its slender minarets and graceful design form one of the most beautiful works of Arabian art extant.

Ignorance of Monarchs

Ignorance of monarchs furnishes some of the bright spots in history. Says Raymond Forer, Trenton, N. J., in Collier's Weekly, Jan. 1835, "Czar Nicholas I of Russia, smarting under a heavy defeat by the British army in the Crimean war, issued a decree that all state papers thereafter were to be prepared in the Russian and American languages—no longer in Russian and English."

The Silver Lining

Get into the habit of looking for the silver lining of the cloud, and when you have found it, continue to look at it, rather than at the leaden gray in the middle. It will help you over many hard places.

SLATS' DIARY

Sunday—At 8 S. this a. m. a mishap who has been to Afrikey was a giving are class a taw & she sed that Afrikey is well named the dark kontinent & that many of the peepul there ware next to nothing. Jake nudged me & I lost last out when he sed its a good thing it is a dark kontinent then.

Monday—Mr. Reddykash the banker sed to the editor of the noose paper where Pa works at that his wife Mistress Reddykash didnt just get him when he sed his 5-passenger car will carrie 8 pasengers if they no each another well enuff.

Tuesday—The teacher of my rm. at skool lores the grades for each & evry blot on exam papers & so when Blis-

tenses Pa ast why such a big 1 on his papers Blisters replide & sed he had 8 littel ones & made them all into 1 big one so's to get a good grade.

Wednesday—Ma seamed to get about 1/2 sore when Pa told a story about a man comin out of a delirium & asken was he in Heaven & his better 1/2 sed no John you are still with me. I dont see as no xcephens cood be taking to that. do you?

Thursday—That dame Jane is all ways giving me a pane in the neck. This p. m. she sed to me she sed that she knows how many quartz of water runs down the Misalpe river evry our of the day. How many then I sed & she sed 4 to the galon, I presoom she thot it smart the way she laft.

Friday—A burgular—bugeled Joe Hixes house last nite & stold \$650. Jot put it in the noosepaper this evening that he wood keep no cash on hand item on his books here after & all the next 1 will get will be practis.

Saturday—It seams that Pa cant

get nothing in his bed the way it is. Are new herd gurl is purty pritty & this a. m. at breakfast when Ma sed to him hunney she has burnt & roocened the bakon & aigs cant you do with your serial & a cupple kises, Pa sed shure where is she at now? Was that dum? Mebbly, & mebbly not.

Ford

ANNOUNCES \$25-A-MONTH

TIME PAYMENTS

AND A

NEW UCC 6% FINANCE PLAN

Any New Ford V-8 Car

Can Now Be Purchased for \$25 a Month

with Usual Low Down-Payment

THIS \$25-a-month time-payment plan enables you to buy a New Ford V-8 car through your Ford dealer on new low monthly terms.

After the usual low down-payment is made, \$25 a month is all you have to pay for any type of new car, including insurance and financing.

Your cost for this extension of credit is only 1/2 of 1% a month on your original unpaid balance and insurance. This plan reduces financing charges for twelve months to 6%. For example, if you owe a balance of \$400 for your

car and insurance, you pay \$24 for the year of credit; if the balance is \$200 you pay \$12. Your credit cost for one year is the original unpaid balance multiplied by 6%.

UCC plans provide you with insurance protection at regular conference rates. You have not only fire and theft insurance, but \$50 deductible collision, and protection against other accidental physical damage to your car.

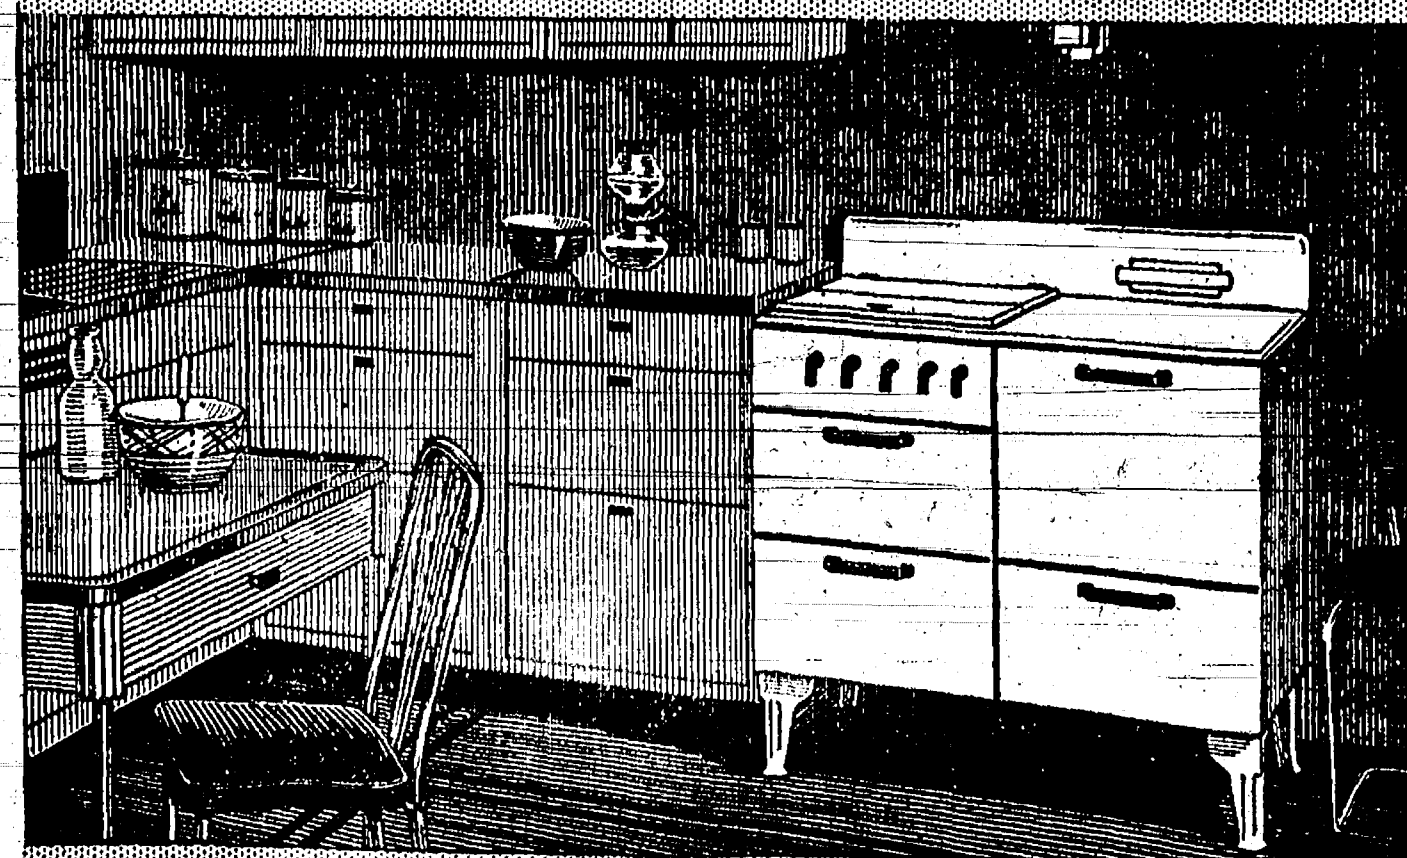

The Universal Credit Company has made these plans available through all Ford dealers in the United States.

Wouldn't you like to have
... a kitchen LIKE THIS?

YOU CAN...start with this

Magic Chef Gas Range

LOOK FOR THE RED WHEEL
WHEN YOU BUY A MAGIC CHEFMagic Chef
Gas Ranges

From

\$32 up

WASHTENAW GAS CO.

211 East Huron St.

ANN ARBOR

Start at the heart of the kitchen—with its most important appliance—then modernize step by step. Begin at once to enjoy easier free-from-worry cookery. This modern Magic Chef Gas Range has automatic features, new conveniences every woman wants—Automatic Top Lighter, Folding Cooking Top Cover, Magic Chef heat-spreading, non-clogging Top Burners, Sanitary High Burner Tray, Grid-type, improved Smokeless Broiler, Red Wheel automatic Oven Regulator. Many others, too. Be sure to see it.

HOWELL—Friday evening 450 Hardlanders assembled in the school building for a community celebration of the last payment on the district school bonds. The issue was sold and authorized in 1921 in the amount of \$85,000 for the construction of the

school building. The bonds called for 6 per cent interest, and during the period of time the district has paid out \$86,840.00 in interest charges, making the total cost \$101,840.00. — Republican-Press.

Your Pots and Pans Will Reflect Your Smiling Face

To have beautiful hands is a woman's delight, and electric cookery banishes the principal household task that causes rough, reddened hands—the constant scouring of pots and pans. Electric heat is just as clean and pure as sunshine and leaves no sooty, grimy deposit on utensils.

Old-fashioned flame cooking requires much air for fuel combustion and fuel ovens must have large quantities of air which pass off, carrying the fume-laden, grease-freighted air that is deposited on your walls and draperies, with an ultimate heavy cost for re-decorating. On an Electric Range, the heating element takes no air and is completely enclosed in the oven, so that nothing is carried off. Not only is your home kept clean; the range itself has no stopped up, greasy burners. It is as easy to keep spotless as a china dish!

Electric Cookery Is Clean

Directors

Propose Experimental Plans for Hunting

With a view toward assisting in the solution of farmer-hunter problems and farm-game management in southern Michigan, the Department of Conservation is asking farmers and sportsmen to consider an experimental plan of cooperative management tentatively planned for this year.

Questionnaires are going to scores of individuals in various parts of southern Michigan listing the suggested specifications of this plan and requesting that the individual or group register their approval of the plan and make suggestions for its improvement.

The Game Division of the Department realizes that hunting conditions in the farm-game areas of southern Michigan have been somewhat unsatisfactory during the past several years. The growing number of hunters, increase of leisure time, better means of travel, resentment of many farmers whose property has been injured by vandalism, the difficulty of maintaining an adequate supply of game birds and animals under increased drainage, agricultural development and industry—all have intensified this problem.

Yielding to requests of many individuals the Game Division recently recommended a plan under which the Department of Conservation would cooperate in managing game-cover supplies on areas regulated under farmer-hunter agreements.

The specifications prepared, which would limit the Department's entry and participation in any such program of cooperative management, are contained in the outline being sent to interested persons register approval of the plan, it will be put into effect on an experimental basis for the current year.

The following specifications, prepared by the Game Division were adopted by the State Conservation Commission at its January meeting.

1. Each project must contain not less than 2,500 acres of farm-game land of which at least 75 per cent is in the association.

2. Hunting on the project is to be organized and regulated similarly to the Williamson Plan.

3. Landowners or lessees agree that no direct charge for the hunting privilege is to be collected.

4. Landowners or lessees agree to allow licensed, small-game hunters access to the project as determined by the association and its members and not to retain the hunting privilege for any club or organizations.

5. Each landowner or lessee agrees to the following game management practices:

A. To refrain from unnecessary burning of swales, brush and other suitable wildlife cover and from unnecessary trimming of fence rows and roadside cover.

B. To give reasonable assistance to the Department in obtaining such information as to the number of game animals killed on the project, number of hunters, etc.

C. To permit employees of the Department access to the land at all times for censusing game abundance, checking hunters, etc.

D. To give reasonable cooperation in game law observance and enforcement.

6. Optional game management practices: By cooperation of sportsmen, farmers and other interested parties, arrangements must be made to carry out at least one of the following projects on at least 90 per cent of the farms:

A. Put in a small food patch or allow a strip of corn or grain to remain standing close to a swale, woodlot brush or pasture or marsh.

B. Put out winter feed adjacent to winter cover.

C. Plant a permanent shrub or vine cover along some swale, fence row or on wasteland.

D. Maintain a permanent nesting or winter cover.

E. Use a flushing bar on mowing machine.

7. On or before June 15 the secretary of the game management organization desiring to enter into such an agreement shall file a written request for cooperation with the Department and for technical assistance and signs.

The Secretary shall also submit with such request a copy of the by-laws, a plat showing the land included in the club, a list of names and addresses of the members a statement that each farmer-member has agreed to all of the required game management practices and that at least 90 per cent of the farmers on the project have agreed to undertake at least one of the optional practices.

The Department agrees:

1. To furnish technical assistance and advice in formulating game management plans for the area.

2. To cooperate in game-law enforcement.

3. To furnish signs for reasonable posting of exterior boundaries and roads on project area, provided final inspection shows the specifications and requirements have been carried out in good faith.

4. To furnish a sign for each farm which indicates the nature of the game management practices being carried out on such projects.

5. In case the organization violates this agreement or any individual charges for hunting privileges, the Department of Conservation reserves the right to cancel this agreement and remove the signs.

CHRISTMAS CARDS—AGAIN?

I had almost a hundred cards at Christmas time last year. And every one was filled with hope, and wishes of good cheer.

On front page of my diary, I've jotted them all down. Their city, street and number, yes their crossroad, state and town.

"Why do you do this?" a friend asked me.

This friend, her name was there; "Why?" I replied, "It seems so sweet to mention them in prayer."

O don't you know all on this list. Have sorrow and have care, And when I talk with Jesus, I just mention them in prayer.

I cannot take them one by one, At least, not always so, But lay my hand upon the list, And lift them up, you know.

My Saviour knows them all by name, Their sorrows and their grief, This is my prayer, Dear Lord, you know, Please send each one relief.

He knows, my Saviour knows them all, They sometimes pray for me, And through their sympathizing prayer, I have a victory.

—Arthur Carlton.

Few Roses Are Fragrant
Of the 7,000-odd varieties of roses, not more than 30 are fragrant and only three contain enough oil to warrant their use in the making of attar of roses, a perfume that has at times been worth its weight in gold.—Mrs. L. L. Thomas, Portland, Ore., in Collier's Weekly.

Wild Iceland Horses
The United States is not the only country which can boast of wild horses. There are many of them on the island of Iceland. Formerly they were shipped to England for use in the mines, but that market is closed since mining machinery was adopted, so they now run wild and continue to multiply.—Washington Post.

OUR NEIGHBORS

BROOKLYN—Members of the Brooklyn fire company have tried several times to make an ice pond at Brooklyn athletic field for the benefit of the school youngsters. Each time until Tuesday the water has seeped away on account of lack of frost in the ground to form a foundation. The snow was again shoveled aside Tuesday with the aid of trucks and the engine was brought to again flood the ground with a foundation coating. If this holds and freezes a surface coating will later be applied and a safe sliding and skating place afforded.—Exponent.

TECUMSEH—Oil experts predicted today that the well on the R. J. Carberry farm, three and a half miles northeast of Britton, would be a commercial producer, after 900 feet of oil had risen in the pipe which now has been sunk to a depth of 2450 feet. The drilling is being done by the Sonoco-Vacuum Oil Company. The oil, according to reports, is a much finer grade than that found in the central part of the state and has a 41 gravity test. It is believed that more wells will be drilled soon in the vicinity of the McCabery wells. The Roe No. 1 well, three miles north of Deerfield, now has reached depth of 680 feet.—Herald.

JACKSON—It takes all kinds of people to make a world, otherwise it is difficult to explain why the receiver for the Union & Peoples National Bank (the late Union & Peoples National Bank, we should say) must bend the knee and supplicate the rightful owners to come, please, and get more than three million dollars that he has for them. In fact, Mr. Rossman, the receiver, has had the money ready since last September and, to be exact, there is \$3,883,421 of it, accumulating nothing but dust. Now three million bucks is a lot of money today, if we can just quit remembering how we used to sneer at such a sum. A fellow could do lots of things with three million dollars. Pro rata it over the city and there would even be a \$60

hand-out per person, or easily enough to pay the bill after inviting the neighbors in for pork.—Evening Star.

MILAN—The Milan Water Department last Friday night were authorized to purchase five thousand dollars worth of outstanding bonds, issued by that department some time ago. The bonds will fall due in 1937, '38 and '39 and are quoted on the bond market at a premium. The holders of the bonds are anxious to sell and the department was given the authority by the village council to purchase the bonds to save the interest charges. The bonds were a part of a water extension issue made several years ago and are a part of the \$8,000 indebtedness still outstanding against the village government. This represents the only indebtedness of the entire community. All former paving, sidewalks and sewer bonds were liquidated some time ago. The bonds bear four and one half per cent interest and are considered a very good investment by bond purchasers.—Leader.

Lapps—Originated in Asia
The Lapps are generally conceded to be a mongoloid people who originated in northeastern Asia, not far from Lake Balkal. They probably followed the edge of the inland ice as it advanced northward, at the end of the latest ice age, and wandered westward across the steppes of Asia to the Arctic regions of northern Europe. At one time they spread southward down the Scandinavian peninsula; but, persecuted by stronger tribes, they retreated to the frozen tundras of the Arctic, where most of them have remained ever since.

Where Mahogany Comes From
Real mahogany comes from one family of trees of which varieties are found both in Latin America and on the west coast of Africa. About a third of the mahogany imported from Latin America is the true Swietenia, which was introduced to fame when Sir Walter Raleigh brought to Queen Elizabeth a mahogany table on his return from Trinidad in 1595.

NOTICE, LYNDON TAXPAYERS
I will be at Chelsea State Bank every Saturday afternoon, starting January 4, to collect Lyndon township taxes.
MARY L. BOYCE,
Treasurer.

NOTICE, LIMA TAXPAYERS
I will be at the Chelsea State Bank every Saturday afternoon until further notice, to collect Lima township taxes.
FRED KOCH,
Township Treasurer.

**NOW THAT IT COSTS LESS TO BUY
A CAR "ON TIME"**

Use These Savings to help you get the kind of car you've always wanted

ALL of the mystery and a lot of the expense have gone out of time payments with the new GMAC 6% Time Payment Plan.

It's simple as A-B-C. Delivered price, less trade-in, plus insurance, plus 6%—that's about all there is to it. And it not only saves brain-racking—it saves money.

One result is that you can buy a Buick for little if any more than you're used to paying for a car in the lowest-priced class. Two or three dollars more per week puts a big car at your doorstep—may be less, if you're used to "dressing up" low-priced cars to make them stand out from the crowd.

Why don't you let us show you what your money will buy under this improved plan—and with Buick's new low prices? There's no obligation at all in a demonstration—we get as much fun out of watching your eyes pop as you get out of Buick's thrilling ride. And how are you ever going to know whether you can afford a Buick unless you let us show you in dollars-and-cents terms?

YOU CAN AFFORD THE NEW BUICK \$765 to \$1045 are the list prices at Flint, Mich., subject to change without notice. Standard and special accessories groups on all models at extra cost. All Buick prices include safety glass throughout as standard equipment. Convenient new GMAC 6% TIME PAYMENT PLAN.

**EVER STEP FROM
10 TO 60**

in less than 21 seconds? That's the kind of hair-trigger getaway you get, when you need it, in the Buick Special Series 40. All the speed a sensible driver could ask for—and hydraulic brakes to keep your stopping line straight and smooth. Not come around—take a demonstration—see for yourself why Buick's the buy.

PERSONALS

Elmer E. Wiggins was a Detroit visitor on Friday.

Gilbert Main of Sylva is a patient at South Side hospital.

Mr. and Mrs. Rex Richards were in Detroit Monday on business.

Miss Miriam Erskine of Ann Arbor was a week-end guest of Mr. and Mrs. Sam Craig.

Dr. and Mrs. A. L. Steger left on Sunday for Florida, where they will spend a month's vacation.

Mr. and Mrs. Harold Guentzel were in Jackson recently to see her brother, Theodore Wedemeyer, who is ill.

Mr. and Mrs. A. G. Clark of Ann Arbor were guests at the home of Mr. and Mrs. A. B. Clark on Sunday.

Mr. and Mrs. D. J. Claire spent Sunday in Jackson at the home of Mr. and Mrs. Otto Nill.

Miss Ruth Dancer of Wayne spent the week-end at the home of her parents, Mr. and Mrs. E. R. Dancer.

Miss Mildred Goodell of Detroit spent Sunday with her parents, Mr. and Mrs. George Goodell.

Mr. and Mrs. Jerry Dixon of Munith were entertained Sunday at the home of Mr. and Mrs. Ray Hotchkiss.

Mr. and Mrs. Ernest Schuler of Ann Arbor spent Sunday at the home of their aunt, Mrs. Lewis Eppler.

Mr. and Mrs. Ralph Forner of Ypsilanti spent Friday with his parents, Mr. and Mrs. John Forner.

Mr. and Mrs. Howard Park of Ann Arbor spent the week-end at the home of her parents, Mr. and Mrs. E. E. Wiggins.

Mr. and Mrs. Frank Tibb and family of Manchester were guests at the home of Mr. and Mrs. Wilbur Hinger on Sunday.

Mr. and Mrs. Deane Rogers and Paul Rogers of Detroit were week-end guests at the home of their parents, Mr. and Mrs. D. L. Rogers.

Lawrence Wines of Wolverine, Miss Marjorie Marquam of Olivet and Mrs. Louise Wines of Detroit spent the week-end at the George Chapman home.

Miss Jean Dancer, who has been employed as a stenographer in the office of the Washtenaw County Welfare Relief, has accepted a position in the office of the Staebler Garage in Ann Arbor and will assume her duties the first of February.

Dr. Roland Kalmbach and son of Lansing, Mr. and Mrs. Carl Rutan of Jackson, Mrs. H. W. Freeman and son of Ann Arbor and Mr. and Mrs. Leonard Kalmbach of Ft. Wayne, Ind. spent Sunday with their parents, Mr. and Mrs. John Kalmbach.

Dr. and Mrs. Samuel Schultz and Dr. and Mrs. N. E. Phelps of Coldwater and Dr. H. Bacon of Detroit were in Chelsea on Sunday to see their father, Jabez Bacon, who is seriously ill at his home on East Middle street.

Mrs. Fred Dewey of Detroit spent Monday at the Bacon home.

LIMA

Mrs. R. B. Waltrous is a patient at St. Joseph hospital, Ann Arbor.

Mrs. John Schanz and daughter spent Saturday evening at the home of Mr. and Mrs. Frank Grieb.

Mr. and Mrs. Reuben Brieb spent Sunday at the home of Mr. and Mrs. Albert Koch.

Mrs. Otto Lucht is a patient at the Mellus hospital, Brighton.

Mrs. John Schanz and daughter spent Monday evening at the home of Mr. and Mrs. Albert Koch.

Mr. and Mrs. Walter Clinton of Detroit spent a few days last week with Mr. and Mrs. C. J. Clinton and son.

Mr. and Mrs. Fred Koch and sons spent Saturday evening with Mr. and Mrs. Walter Trinkle and family.

Mr. and Mrs. C. J. Clinton and son called on Mr. and Mrs. Walter Trinkle and family on Monday afternoon.

Mr. and Mrs. Reuben Grieb and sons spent some time Sunday with Mr. and Mrs. Albert Koch.

Mr. and Mrs. Albert Koch spent Saturday evening at Ann Arbor.

HENRY J. LEHMAN

Henry J. Lehman, lifelong resident of Washtenaw county, died Friday morning, January 24, at the home of his daughter, Mrs. Victor Moeckel, in Waterloo. He was born June 14, 1864 near Portage Lake, Dexter township, the son of John and Eva Marie (Hesse) Lehman, and was married to Emma Muebach, who died 16 years ago.

He is survived by six sons and four daughters: Clarence, Hazen, William Henry, Truman, Lehman and Mrs. Walter Bohne of Francisco; John Lehman and Mrs. Moeckel of Waterloo; Emory Lehman of Munith; Mrs. Ray Whipple of Chelsea and Mrs. Arthur Wahl of Sharon township; two brothers, Matthew of Stockbridge, and Conrad of Chelsea; a sister, Mrs. Ida Barth of Ann Arbor; twenty grandchildren and a great-grandchild.

Funeral services were held Monday afternoon at 1 p. m. at the residence of Mr. and Mrs. Moeckel, and at 2 o'clock at Salem Methodist church, near Francisco. Rev. Henry W. Lenz officiated and interment was in Salem cemetery.

CELEBRATES BIRTHDAY

Barbara Luick entertained several of her schoolmates at her home in Lima on Monday afternoon to celebrate her sixth birthday. The afternoon was spent in playing games. A delicious lunch was served. The table was centered with a birthday cake decorated with six yellow candles. Barbara received several nice gifts. The guests were Ruth Gracey, Joan Pierce, Pauline Schiller, Margaret and Richard Hieber.

Man Outnumbered

Males total of somewhat less than two billion individuals in the world are duplicated in numbers by the lower forms of life found in any small pond or few feet of soil.

Chew Dynamite

One of the world's most powerful explosives, nitrate, is used as chewing gum by feminine workers in cordite factories.

JERUSALEM SCHOOL NEWS

The school month of January closed for the Jerusalem school Friday, January 24. The per cent of attendance for January was 93.7.

We have a new pupil in our school. It is Ronald Gentner.

The following pupils have been neither absent nor tardy during January: Clara, Doris and Robert Trinkle, Billy Stierle, Ariene and Wilma Koengeter, Joyce Hoffman, and Junior Barth.

Miss Haas visited our school this month.

The president of our Civic Health club for January is Marian Schiller, and secretary is Ariene Koengeter.

We have learned all of our songs and dances for the music festival. We are trying to get our music scrapbook started.

We have been illustrating health rules in our art work. The posters are very attractive. Some children have drawn and painted winter scenes in art.

In one part of our sand box we have a safety rule illustrated while in the other part we are illustrating Lincoln stories.

We have added another picture, "The Blue Boy" to our picture study book.

The third grade have completed their Geography booklets "Around the World", which consist of pictures and stories. They are now reading in another Geography book.

We are watching our Arithmetic charts quite closely. The Beginners also have a chart to watch now.

All the children in school have had their second eye test and have their height taken again and recorded.

Every Geography class has pictures up of the country they are studying.

One thing we have done for our nature study in connection with Language is writing stories on the winter care of birds and we also have this illustrated in a colorful poster.

Nearly every pupil has a good collection of "A" papers which they have hung up on the wall.

The beginners are getting along quite well in their work. They are anxious to complete their book so they can start new ones. They have a good start in word study and number work.

Latin Mottos Are Used

by Twenty-Two States

There are 22 states with Latin mottos, which, according to the Detroit News, are as follows: Arizona, "Ditat Deus" (God enriches); Arkansas, "Benevolus populus" (The people rule); Colorado, "Nil sine numine" (Nothing without the deity); Connecticut, "Qui transtulit sustinet" (He who transplanted continues to sustain); Idaho, "Esto perpetua" (Mayest thou endure forever); Kansas, "Ad Astra per Aspera" (To the stars through difficulties); Maine, "Dirigo" (I direct); Maryland, "Sento bonae voluntatis tuam coronasti nos" (With the shield of thy goodwill thou hast covered us); Massachusetts, "Ense petit placidam sub libertate quietem" (With the sword she seeks peace under liberty); Michigan, "Si quaeris peninsulam amoenam circumspice" (If you seek a pleasant peninsula look around you); also "Tuebor" (I will defend); Mississippi, "Virtute et armis" (By valor and arms); Missouri, "Salus populi suprema lex esto" (Let the welfare of the people be the supreme law); New Mexico, "Crescit eundo" (It grows as it goes); New York, "Excelsior" (Higher); North Carolina, "Esse quum videri" (To be rather than to seem); Ohio's former motto was "Imperium in Imperio" (An empire within an empire); Oklahoma, "Labor omnia vincit" (Labor conquers all things); Oregon, "Alis volat propriis" (She flies with her own wings); South Carolina, "Animus obliquoque parati" (Ready in soul and resource); "Dum spiro spero" (While I breathe I hope); Virginia, "Sic semper tyrannis" (Thus ever to tyrants); West Virginia, "Montani semper liberi" (Mountainers are always freemen); Wyoming, "Cedant arma togae" (Let arms yield to the gown).

Liberia's Constitution

Copies That of the U. S.

Liberia is a republic, one of the three independent negro nations of the world. It had its origins in the efforts of several American and European colonization societies to establish a homeland for liberated slaves.

The first settlement was planted in 1822, and in 1847 the land grants which had been acquired from native chiefs by the colonization societies were constituted as the republic of Liberia. The United States was rather tardy in giving recognition to the new nation, observing a writer in the Cleveland Plain Dealer, but it has since several times made the rest of the world understand that it is interested in keeping Liberia independent, or the republic would probably have been swallowed up long since by one of the European powers.

The constitution and government of Liberia are modeled upon those of the United States. There is a congress made up of a senate and a house of representatives, and the executive authority is vested in a president and a cabinet of six. Electors must be of negro blood and owners of land. All of the officers of government are negroes, largely the descendants of American negroes. The official language of the government is English, but only about 50,000 of the population of 1,500,000 or more is considered civilized. The first half dozen presidents of Liberia were all of American birth.

World's Most Dangerous Road

The world's most dangerous road is the Karakorum route over the Himalaya mountains between Chinese Turkestan and India. It reaches 18,000 feet in height, says Collier's Weekly, and for long distances is very rocky and only a foot or two in width. However, caravans travel it regularly despite the fact that on each trip they lose about 40 per cent of their animals, most of which are killed by falling over cliffs.

NOTTEN ROAD

The Ladies' Aid and the Grange will meet at the home of Mr. and Mrs. Edwin Schenk on Wednesday, February 6. Pot luck dinner at noon.

Howard Boyce and children visited Mrs. Tena Riemenschneider on Sunday.

Penrose Weinhold of near Portage Lake visited Mr. and Mrs. Max Hoppe on Sunday.

Herbert Kilmer of Jackson visited his father, Lewis Kilmer, on Sunday. Herman Sager of Grass Lake was a caller at the home of Mr. and Mrs. Fred Notten, Saturday.

Our north and south roads look more like canals than roads, the snow being piled up on each side four and five feet.

Rev. Henry Lenz held communion services here Sunday. Owing to the cold weather and the condition of the roads there was a small attendance.

Mrs. Clifford Heydlauff and son Gerald of Jackson spent a few days with Mr. and Mrs. Geo. Heydlauff.

Master Gene DeVeane of Grass Lake spent over Sunday with his friend, Master Burleigh Rowe, at the Whitaker home.

Herbert Sager was in Ann Arbor on Sunday, where he visited relatives.

Mr. and Mrs. Emerson Cesser, who have been spending some time in California, returned home Saturday. Not a very good time to land in snow drifts and zero weather after spending two months in the land of sunshine and flowers.

District of Columbia's

Leap Year Law Is Broad

Leap year is an institution established by law in the District of Columbia, one of the oldest sections of the District code being devoted to the method to be employed in determining which are leap years "in all times coming."

It is set forth in the code that the several years of our Lord, one thousand eight hundred, one thousand nine hundred, two thousand one hundred, two thousand two hundred, two thousand three hundred, or any other hundredth years of our Lord, shall happen in time to come, except only every fourth hundredth year of our Lord, whereof the year of our Lord two thousand shall be the first, shall not be esteemed or taken to be bissextile or leap years, but shall be taken to be common years, consisting of three hundred and sixty-five days and no more; and that the years of our Lord two thousand, two thousand four hundred, two thousand eight hundred, and every fourth hundred year of our Lord, from the said year of our Lord two thousand, inclusive, and also all other years of our Lord, which by the Julian calendar are esteemed to be bissextile or leap years, shall for the future, and in all times to come, be esteemed and taken to be bissextile or leap years consisting of 366 days, in the same sort, and manner as was used under the Julian calendar.—Washington Star.

Afghan Hound Extremely Speedy; Ancient Breed

Far back in the history of Afghan hounds the natives of that country developed an exceedingly efficient hunting dog. This was before Christ and the exact date is lost in antiquity. But the breed has persisted through the ages and comes down to us known as the Afghan hound, says a writer in the Detroit News.

It is rarely seen in this country yet there are a few owners and breeders, most confined to eastern United States. The dogs are shaggy-coated, fine muscled animals weighing about sixty pounds. They are extremely speedy and quick when running. Their courage can be judged when it is known that they were considered the best breed of dogs to run and attack jackals and leopards. They stand about twenty-seven inches high at the fore shoulders and are not unlike a collie in appearance but with a more lithe body.

Afghan hounds are shy and are not given to making friends quickly but once they become attached to their master they become the personification of faithfulness and loyalty.

Properties of Dyes

The layman usually thinks of dyes as substances that have color. This concept is not quite correct, says Thomas M. Hock in the Chicago Tribune. It is essential that a dye have two other properties: it must attach itself to the fabric to which it is applied, and it must stay there to a reasonable degree in spite of washing and exposure to weather. It just happens that heretofore the only property that we desired to attach to fabrics was that of color.

There is a certain coal tar dye long known to the textile industry as mar tin yellow. It had been observed that moths steered clear of woolen goods dyed with this particular dye. Unfortunately, no other worthwhile dye could be found which possessed this property.

World's Most Dangerous Road

The world's most dangerous road is the Karakorum route over the Himalaya mountains between Chinese Turkestan and India. It reaches 18,000 feet in height, says Collier's Weekly, and for long distances is very rocky and only a foot or two in width. However, caravans travel it regularly despite the fact that on each trip they lose about 40 per cent of their animals, most of which are killed by falling over cliffs.

Cataract
Cataract is not a film over the eye. It is a pigment which gradually gets into the lens of the eye. Accompanied with the gradual hardening and scellity of advanced age, pigmentation of the lens of the eye makes it opaque.

Chinese Youngsters
In China youngsters are measured and paid for when traveling by the foot. No charge is made for those under two and one-half feet. Those who measure four feet four inches pay half fare.

VOGEL & WURSTER

NORTH FRANCISCO

Mr. and Mrs. Ralph Loveland and three children of Monroe spent Sunday with his parents, Mr. and Mrs. Leonard Loveland.

Mr. and Mrs. Herbert Harvey spent Tuesday at the home of the former's sister, Mrs. Anna Main, near Rives.

Philip Feuser called at the Loveland home Saturday evening.

Mr. and Mrs. Clarence Wahl and family spent Sunday at the home of Mrs. Wahl's parents near Grass Lake.

Jas. Richards and M. Reed called at the home of Mr. and Mrs. Erie Nottan on Monday evening.

Gilbert Main is a patient at the South Side hospital, Chelsea, for eye treatment.

Mrs. James Richards is on the sick list.

Mr. and Mrs. Harley Loveland and family, Mr. and Mrs. Glenn Rentschler and Mr. and Mrs. Dillman Wahl were Sunday evening callers at the home of Mr. and Mrs. Leonard Loveland.

On account of the very cold weather and drifted roads school in this district was suspended for several days.

Snow plows and men have been working night and day to open the roads for traffic and did a fine job.

Mrs. Harold Wahl is spending a few days with her parents in Sharon.

This neighborhood was shocked by the news of the sudden death of Henry Lehman Friday morning.

SOUTH WATERLOO

Miss Electa Harr spent Monday afternoon with Mrs. Gottlieb Rothman.

Mr. and Mrs. Joseph Seigrist and family visited Mr. and Mrs. Clair Seigrist on Sunday afternoon.

Mr. and Mrs. H. S. Rothman were Sunday dinner guests of Mr. and Mrs. Archie Coe and family of Grass Lake.

Mrs. Lillian Seigrist entertained the West Waterloo Home Economics club on Wednesday.

Mr. and Mrs. G. E. Moeckel were Jackson visitors Tuesday.

John Prentice was a Sunday dinner guest of G. E. Moeckel and family.

ENTERTAINS P. N. G. CLUB

The Past Noble Grands club held an afternoon party on Thursday at the home of Mrs. Anna McDonald. Mrs. Mary Schneider won high honors in cootie. Mrs. Gladys Breitenwischer winning the guessing game. The mystery prize was received by Mrs. Lena Jones. The hostess served refreshments.

On Friday evening the members entertained their husbands at the home of Mrs. Cora Schmidt. Euchre furnished diversion for the evening, with Mrs. Ross Munro and Lawrence McDonald holding high score. Mrs. Lena Jones and Oscar Schneider low. Mrs. Schmidt was the winner in rum. Light refreshments were served at the close of the evening.

Princess Theatre

First Show 7:15 - Second 9:00

FRIDAY and SATURDAY
JANUARY 31, FEBRUARY 1
Marx Brothers in a big comedy,
"A Night at the Opera"

SUNDAY and MONDAY

Roger Pryor and Lella Hyams in
"\$1000 a Minute"

HOSTESS TO S. A. CLUB

The S. A. club were guests of Mrs. Agnes Merkel on Saturday afternoon. Luncheon at 1:30 was followed by playing of bridge. Miss Lucille Haselwerdt won high score, and Mrs. Georgia Munro, second.

HOSTESS TO U. K. CLUB

Mrs. Elmer Weinberg was hostess to the U. K. club on Wednesday afternoon of last week. Mrs. Charles Mohrlock was high in euchre. Mrs. John Forner winning second. A delicious lunch was served.

CARD OF THANKS

We wish to thank our friends and neighbors who were so kind to us during the sickness and death of our mother, also Rev. Longfield for his comforting words.

George and Arthur Stoffer,
Mr. and Mrs. Homer Stoffer,
Mr. and Mrs. Harry Stoffer,
Mr. and Mrs. Kenneth Platt,
Mr. and Mrs. Harley Nichols,
Mr. and Mrs. Louis Staph.

INSTALL OFFICERS

The regular meeting of the Pythian Sisters was held Tuesday evening, January 28. A pot-luck dinner was served, followed by the installation of officers. Mrs. Isa Guerin, on behalf of the Temple, presented the Most Excellent Chief, Mrs. May Buick, and the installing officer, Mrs. Neva Prudden, with gifts. The Grand Manager, Mrs. Evelyn Smith, and the Grand Senior, Mrs. Myrtle Schleferstein, were presented with bouquets.

ANSWER FOUR CALLS

Four calls were answered by the local fire department the last of the week. On Thursday afternoon they were called to extinguish a blaze at the home of Miss Alma Pierce on Pierce St., where sparks from the chimney set fire to the roof, burning a small hole. Early Friday morning an overheated furnace at the home of Ernest Fitzmaier on Grant St. was followed shortly afterward by the burning out of a chimney at the Maurice Hoffman residence, Lincoln St. An automobile which caught fire in the garage at the Speer residence, Orchard St., was responsible for the last call Saturday morning. No serious damage resulted from any of the fires.

NORTH LAKE

Mr. and Mrs. Chris. Fitzsimmons have moved to the house they have been remodeling on the Hudson place.

Mr. and Mrs. W. R. Mayer, Rev. Victor Longfield, Mrs. Landon, Mrs. E. W. McDaniels and Charles McDaniels were guests of Mr. and Mrs. P. E. Noah on Sunday.

Misses Mary and Gladys Hinchey and Wilfred Limble were guests of Mr. and Mrs. John Hinchey on Sunday.

Miss Irene Stoffer was home Thursday to attend the funeral of her grandmother.

Lyle Engle has started a watch and clock repair shop in Dexter.

Delicate Boilers

Though at sea it is "water, water everywhere," that water is of no more use for the ship's tubular boilers than for human consumption. In fact, humans may drink with impunity water which will destroy a naval boiler. The modern tube boiler requires distilled water, just as a motor car does. Too much air produces rust, the least salt causes overheating and distortion, whilst any tint of oil causes erosion of the turbine blades. But, whilst boilers can be kept clean and efficient, the ship's bottom is necessarily exposed to sea-water and sea-life. An item of at least 150,000 appears annually in having bottoms for the removal of barnacles in dry-dock, and it has been estimated that rust destroys 20,000,000 tons of iron and steel every year.—The Bilt Magazine.

PERSONALS

Mrs. Roland Waltrous, who is a patient at St. Joseph's Mercy hospital in Ann Arbor, is slowly improving.

Mr. and Mrs. William Fischer and son of Ann Arbor were Sunday guests of Mr. and Mrs. Reuben Lesser.

Miss Helen Baxter and Miss Mary Louise Butler of Detroit spent Sunday with the former's parents, Mr. and Mrs. M. J. Baxter.

Mr. and Mrs. Max Cominsky and Lewis Marofsky of Detroit spent Sunday with the latter's parents, Mr. and Mrs. A. Marofsky.

Mr. and Mrs. Haze Bennett and Bert Young of Detroit spent Sunday at the home of Mr. and Mrs. David Alber.

Miss Levene Spicer attended a birthday dinner on Saturday at the home of her niece, Mrs. Charles Austin of Brighton.

Mr. and Mrs. Harold Whipple and children of Ann Arbor were Sunday guests of her mother, Mrs. Albert Nicolai.

Mr. and Mrs. Ivan Baldwin of Stockbridge spent Sunday evening at the home of his parents, Mr. and Mrs. A. D. Baldwin.

Mr. and Mrs. Claydon Artz of Detroit spent the week-end at the home of her parents, Mr. and Mrs. David Alber.

Mrs. Mary Fitzsimons and Mrs. Chas. Vannatta of Dexter called on Mrs. Margaret Murray, Saturday afternoon.

Mr. and Mrs. Harold Elsemann of Rogers Corners are the parents of a daughter, Helen Martha, born Monday, January 27, at Chelsea Private hospital.

Dr. E. J. Blackmore of Battle Creek spent the week-end at the home of Mr. and Mrs. William Luick. He was accompanied home by Mrs. Blackmore and daughter, who spent the past two weeks with her parents.

LAFAYETTE GRANGE

On Thursday Eve please be our guest. So if you come you'll meet the rest. Now follow instructions in this rhyme. Please note the hour, the place, the time.

From joining us let nothing bar,
Your absence will our pleasure mar;
A welcome waits you very sure,
And here you'll find our signature—

Lafayette Grange,
Community Hall, Lima Center,
7 p. m., January 30,
Pot luck dinner.

CARD OF THANKS

We wish in this way to express our sincere thanks to the friends and neighbors for the kindness shown us in our recent bereavement, Rev. Van Havel for his comforting words, Mrs. Kitley and Mrs. Van Havel for their singing, and for the beautiful floral offerings.

Mrs. Minnie Stanfield,
Mr. and Mrs. William Barker and family,
Mr. and Mrs. Norman Hudson and family,
Mr. and Mrs. Frank Adams,
and Irene Stanfield.

Armies That Crossed the Alps

The Alpine system covers nearly the whole of Switzerland, a great part of Northern Italy, several departments of France and a large part of Austria. The historical passages of the Alps have been those by Alexander the Great, Julius Caesar, to attack the Helvetians; Hannibal, Napoleon, who crossed the Alps into Russia, only to find that the retreating Russians had left Moscow in ruins. The greater part of the French army died in recrossing the Alps into France.

Islands of Fiji Archipelago

There are 250 islands in the Fiji archipelago, the most important of the Polynesian group, the principal one being Viti Levu, which is 98 miles long and nearly 70 miles across. All the larger islands of the group are volcanic, with hills or mountains rising to a height of from 3,000 to 1,000 feet, rich in the most luxuriant tropical vegetation, and with rivers everywhere.

Origins of Lighthouses

The earliest lighthouses of which records exist were the towers built by the Libyans and Cushites in Lower Egypt, beacon fires being maintained in some of them by priests. Desches, a Greek poet (660 B. C.), mentions a lighthouse at Sigeum, now Cape Inch-el-earl, in the Troad, which appears to have been the first light regularly maintained for mariners. The famous Pharos of Alexandria was regarded as one of the wonders of the world. The tower is stated to have been 600 feet in height. It was destroyed by earthquake in the Thirteenth century, but remains are said to have been visible as late as 1850. The name Pharos became the general term for all lighthouses, and the term pharology has been used for the science of lighthouse construction.

Carbon Monoxide

Carbon monoxide is composed of 12 parts, by weight, of carbon to 16 of oxygen. It is a colorless, odorless gas, a product of the incomplete combustion of carbon, is an abundant constituent of water gas, and burns with a pale blue flame, forming carbon dioxide. It is very poisonous, since it combines with the hemoglobin of the blood, expelling oxygen, and its presence in the exhaust gases from internal combustion engines, in the gases from the detonation of explosives and so on, has caused many fatalities. Carbon monoxide is slightly lighter than air, 28 grams equaling in volume 20 grams of air. Carbon monoxide in a room will diffuse with the air until the percentage of one equals the percentage of the other.

Easy Going Chimpanzees

Life for the chimpanzee in his native wild state is too easy for him to make it necessary for him to exercise his rather superior intellectual equipment. The apes find food and water in great abundance. Their diet agrees with them perfectly. An occasional cold and possibly some skin trouble seems to be the sum of their ailments. Even the play of the wild chimpanzee does not include the ingenious "monkey-shines" so characteristic of the animal in captivity. In the bush, this activity is mostly running, jumping, play-fighting and similar exercise.

Migrant Shrike

Unlike the shy Cowbird, the Migrant Shrike is frank in his ways. He will catch a large beetle, grasshopper, field mouse, or even a small songbird, and hang it on a sharp thorn of a haw or other thorn tree where the world may see his cruelty. His habit of hanging up his prey has won him the common name of Butcher Bird.

METHODIST HOME

Mr. and Mrs. John Van Eitten of Ypsilanti were Sunday guests of Mrs. Frances Robtoy.

Mr. and Mrs. H. R. Earl and daughter Florence had a pleasant visit on Thursday with their aunt, Mrs. Emma Rows.

Miss Ella Bidwell sustained a heart attack Sunday evening, which gave some alarm for a time to her friends about the Home, but she rallied unexpectedly well from the attack, and is now believed to be safely convalescing.

Some temporary excitement was caused on Friday morning by an electric fan in one of the rooms which burst into flames, and which but for the quick attention of the nurse and others might easily have caused much damage. The incident has resulted in banning the use of such equipment in the future in the interest of safety to the Home.

Dr. and Mrs. Leeson spent Sunday evening and Monday in Detroit with friends and in attendance at Homecoming services at East Grand Boulevard church.

Dr. Leeson addressed the Chelsea Kiwanis club on Monday evening.

Tuesday morning, Mrs. Leeson developed an unexpected and rather acute attack of lumbago which confines her temporarily to her home.

ENTERTAINS TACHEZ

The Tachez club was entertained at the home of Mrs. John O'Hara on Monday evening. Three tables of 500 were in play and prizes were awarded to Mrs. Herbert Roy and Mrs. August Dorer. Refreshments were served.

ENTERTAIN FREER P. T. A.

The Freer P. T. A. was entertained Friday evening at the home of Mr. and Mrs. Frank Dow. Mr. Gates, of the supper was served, with covers for 25.

"Circus of Science" to Tour America

Artist's conception, drawn from photographs, of the General Motors Parade of Progress on the road. The traveling "world's fair on wheels" will bring to American communities the contributions of industry to human welfare. The giant streamlined buses are joined together in a location to form continuous exhibition halls, and are built as large as practicable for present-day roads. When under way, with the vehicles spaced 200 feet apart for safety, the caravan is two miles long.

The Hi-Light

EDITED BY THE PUPILS OF THE CHELSEA PUBLIC SCHOOLS

Debate News

Chelsea high school finished its debate season on Friday, January 24th. The Chelsea team debated Milan, there. It was a very close debate as both teams were evenly matched. The loss of this debate prevents Chelsea from entering the elimination series. Milan upheld the affirmative side of the question while the negative side was supported by Eileen Adam, Harrie Bleeker and Jean Bleeker.

Lose Overtime Game

The Chelsea Varsity lost another game last Friday, 25-27. This time the victor was Roosevelt High. The final which followed the Chelsea five throughout the season could not be shaken off last Friday. Chelsea led the Roosevelt quintet at the half, 11-9, and at the end of the third quarter, 19-9; but in the fourth quarter, the Roosevelt squad tied the score. The high point man for Chelsea was M. Lyons, with 17 points; for Roosevelt, Johnson, with 14 points. In the overtime, two baskets were made from the center of the floor by a Roosevelt player, and one basket was made by M. Lyons.

The Chelsea Reserves won, 14-8. The victories of the Reserves have been a great deal more frequent than those of the Varsity so far this season. The score at the half was 5-4 in favor of Roosevelt. The high point man for Chelsea was Meyers, with six points. The high point man for Roosevelt was Renton, with four points. But failed to get going last week, but redeemed himself by making six points in the few minutes he was in the game.

Both games were very exciting, and everyone went home with a very sore throat or unable to talk at all. Tomorrow night the three teams of Chelsea will play Clinton High at Clinton. Let's turn out and support Chelsea!

The Chelsea Varsity played Jackson Tech last Tuesday. The scores are to be found on another page of this edition.

Birthplaces!

Perhaps you will find it interesting to note the various out-of-town and other places some of our students were born:

George Goodell—Cassopolis, Mich.
Lucille Hoover—Paulding, Ohio.
Hazel Hale—Kennesaw, Indiana.
Lowell Scripper—Plainfield, Mich.
Walter Ottomano—Hamburg, Mich.
Clarence Ottomano—Hamburg, Mich.
Adolph Duerr—Wurttemberg, Germany.
Margaret Boehm—Grace City, N. Dakota.
La Rue Wolf—Archbold, Ohio.
Leontine Malott—Rokoma, Ohio.
Marceline Leitch—Ontonagon, Mich.
Edward White—Pontiac, Mich.
Gertrude Hale—Royalton, Ken.
Marie States—Dirigo, Kentucky.
Robert Rossbach—Lemay, N. D.
Ruby May—Toledo, Ohio.
George Wise—Toledo, Ohio.
Stuart Dingle—Cleveland, Ohio.
Jean Dancer—Cleveland, Ohio.
Jean Bleeker—Stephen, Minn.
Harrie Bleeker—Stephen, Minn.
Many students were born in Jackson, Ann Arbor, Detroit and Ypsilanti.

Calendar of Events

January 31—Basketball (girls and boys' games) there.
January 31—Senior Dance.
February 6—Basketball, P. F. A. teams, Dundee here.
February 7—Basketball, boys, Lincoln there.
February 17—Faculty play.
February 18—Faculty play.
February 21—Senior dance.
February 21—Basketball game at Tecumseh.

Editorial

One of the American classics that is almost extinct, together with ragged underwear and the rocking chair, is the covered bridge. Though almost unknown in this vicinity, in some communities they have been as prominent a feature of the countryside as the windmills or barns until recent years. Why a roof and sides on a bridge was needed is somewhat of a mystery. One theory holds that one superstructure was needed to protect the flooring from the elements. Another explanation is that the horse of yore, more accustomed to fords than to bridges, was terrified when forced to cross a span high above the water, and that the covered bridge was developed as a concession to his temperament.

Or the old timer may tell you, with a wink, that horse and buggy swains needed some place to "spark the girls." Well, the cover on the bridge has no longer necessary for the first two purposes, and for the last, boys and girls manage, somehow, so the picturesque covered bridge has become just another American classic.

Library Restocked

The students of Chelsea High are very grateful for the new books in the school library. The rush to take them out is quite enough evidence of this fact. There is little wonder since there are so many fine books in the collection, both fiction and reference. The new books are:

Adventures in Friendship—Grayson.
Master Skylark—Bennett.
Men of Iron—Pyle.
Dr. Jekyll and Mr. Hyde—Stevenson.

Plays—Galsworthy.
Les Miserables—Hugo.
My Antonia—Cather.
The World I Live In—Keller.
Ships—Van Loon.

Bismark—Ludwig.
Boy's Life of Mark Twain—Paine.
Represented Plays—Barrie.
Jane Eyre—Brent.
Mistake Hunters—De Kruij.
Kim—Kipling.

The Black Arrow—Stevenson.
The Haunted Bookshop—Morley.
The Hawks of North America—May.

The Sea Wolf—London.
The Crisis—Churchill.
The Casting Away of Mrs. Leeks and Mrs. Alesha—Stockton.
The Good Companions—Priestly.
The Four Million—O. Henry.
Westward Ho—Kingsley.

The Talisman—Scott.
Seventeen—Tarkington.
So Big—Ferber.
Prester John—Buchan.
Captain Blood—Sabatini.

Kathleen—Morley.
Mince Pie—Morley.
Messer Marco Polo—Byrne.
Kidnapped—Stevenson.
Napoleon—Ludwig.
With the Eagles—Anderson.

Paul Bunyan—Stevens.
Jeremy—Walpole.
The Return of the Native—Hardy.
The Red Badge of Courage—Crane.
Love of Life and Other Stories—London.

Eminent Victorians—Strachey.
Old Judge Priest—Cobb.
Counterfeit—Kallet.
Literary Lapses—Leacock.

Senior Dance

"What are you doing Friday night? Oh yes, of course, you are coming to the Big Senior Dance!" This is the first of a series of Senior dances in 1936. Surely they are going to be just as good, yes, if not better as those previous. Come and bring your best girl friend and dance to Red Park's music—January 31st.

Farm Youth To Meet

The Mid-Winter Conference sponsored by the vocational agriculture teachers of Washtenaw county is to be held at the Belleville high school on Sunday, February 2 at 2:30 o'clock. Parents and all farm youth are invited to attend as the meeting was proposed in order to interest farm youth and all parents in vocational agriculture. All the chapters in Washtenaw county will be fully represented. The program is to consist of music by the Belleville high school and group singing led by Mr. Nicholas of Chelsea.

Caesar Says

Wife—I bought a set of Shakespeare today.
Husband—I thought you said we had enough China in the house.
Somebody talked cold turkey to Edwin and froze his ear.

She—What's the difference between dancing and jumping?
He—I dunno.
She—I thought so.

Lady—Are your eggs fresh?
Maury—Ma'am, the hen doesn't realize I've got them yet.

Hart—Are you dining anywhere tonight?
Estelle (hopefully)—No, I'm not.
Hart—My, you'll be hungry in the morning.

"Jean seems to prefer football players."
"Yeah, she likes to be the center of the huddle."

A sharp nose indicates curiosity—a flattened nose often indicates too much curiosity.

Elementary News

Kindergarten

This week we are going to study a new instrument in our Rhythm Band. The side walls have been put on our grocery store and we are ready to cut the windows in.

We are learning some new songs. We learned one about a grey squirrel. Because it was so cold many of us were absent and still others had colds. Since it has been too cold to play outside, we have learned new games to play inside.

First Grade

Our engine is finished. It is numbered 384. We will make the tender this week.

We are making train notebooks. Miss Yagor gives us train pictures. We can read the stories about these pictures.

Thelma brought a big train picture. Second Grade

In spite of such cold weather our attendance has been almost perfect. Second grade boys and girls are Eskimos and know how to enjoy cold weather.

Jane Downer had a birthday on Saturday so we celebrated on Friday and wished her many more happy times. She is just seven years old.

We have brought many pictures of the late King George and have found out that the English have some strange customs.

We are getting along with our number work just splendidly. The most of us are getting "A" in our work. Shirley Platt was absent several days on account of her grandmother's death. We are so glad to have her back.

Fourth Grade

We have been waiting for nearly a month for our Red Cross pins. We received them today.

Elaine's mother, Mrs. Norman Schmidt, visited us last Friday. She was especially interested in our "Busy Bees Health Club."

We have made a pretty snowflake border for above our blackboard. Esther and Elaine made us a pretty poster. It is a winter scene.

We have taken the snow men from our windows, washed the windows and are making bowls of daffodils to replace the snow men.

We have "My Weekly Reader", a newspaper which we ourselves can read. We read it during our reading class. In our last paper was a story about Capt. Stevens and Capt. Anderson and their flight to the stratosphere. Eleanor Harper brought some National Geographic magazines showing pictures and telling of their balloon trip. On Wednesday Margaret Harper, Eleanor's sister, gave a very good report and answered some of our questions. Thank you, Margaret.

Doris Collins keeps us supplied with interesting snow scenes. We are glad Eva Harris is back because she has been out for three weeks. Some of our other friends who have been absent because of illness have returned. We have five absent this morning.

Eugene Aldrich is cleaning our aquarium. The following pupils have been neither absent nor tardy during the last six weeks: Eugene Aldrich, Carlton Christwell, Jane Christwell, Jean Christwell, Mary Christwell, Doris Collins, Raymond Parsons, Louis Policht, Elaine Schmidt, Reynolds Wals, and Barbara White.

Fifth Grade

We have combined Music, History and English this week in the study of

Oberon; the opera by Weber, several parts of which we have already dramatized. We hope to put it all together in a single dramatization this week. We have noticed that those who did best in their semester tests are those who have been present every day and have shown extra interest in their work. That naturally follows.

We are now ready to begin our big relief map of the United States, showing all the natural divisions. This is done with paper mache which we "manufacture" ourselves.

The work will be assigned in groups, each with a leader, the leaders being those who have done the most satisfactory work in Geography thus far.

We have shown much improvement in Arithmetic during the past few weeks with much extra work outside of school and in, we will be able to finish our course as outlined in our curriculum.

Sixth Grade

On our room Bird Chart we have some more names, the robin, the male and the female, and Cardinal. Winfield Schenk has a bird's feeding station in his back yard. Several birds have come there, including the Cardinal. Thursday night after school Miss Canfield and a few children saw a nuthatch. It came right up to the feeding tray on the outside window sill.

Edwin Gaunt and Donald Knoll brought some very nice books to school for our library. Thank you, boys. The sixth grade are working on the multiplication of fractions.

In History the sixth grade are studying a new chapter, the title is "How men learned to fly."

The "A" class in geography are studying Asia. We found that one-half of the people of the world live in Asia, and one-third of these people live crowded in India and China around the mountain valleys.

Mrs. Steiner loaned us her book called "The Growth of Industrial Art." It shows the growth of transportation on land, water and air. Thank you, Mrs. Steiner.

English Mayor's Cottage Is Relic of Mighty Past

If cottages could talk, what tales the Lord Mayor's cottage, at Barton Mills, England, would have to tell, notes a writer in the Washington Post.

There would be stories of Viking raids in Anglo Saxon days, of the invasion of William the Conqueror, the signing of the Magna Charta and the pomp and pageantry of Medieval England. Its history is British history.

The date of the cottage is not known. But certain it is that the Vikings figured in its construction. The lower beams are fashioned of chestnut, which was used in the Tenth century before oak became popular.

The upper beams came from Viking ships, wrecked in the wash of the sea nearby. The shape of the gables like vessels can still be seen in the larger beams.

It antedates arrival of the Normans in 1066. It got its name from Sir Henry de Barton, who lived at Barton Mills and was Lord Mayor of London in the fifteenth century.

There are eight rooms in the ancient cottage. In the hall may be seen the trunk of a small tree. The main beams, built by the Vikings, are still in the structure.

Blackbird Composer

Mair's power of creating music is challenged, declares Prof. Edward Engel, of Potsdam, by only one other living creature in the world—the blackbird. This bold assertion may arouse those who believe the canary or nightingale to be supreme amongst bird musicians. But, whereas these birds pour forth their hereditary songs without blemish, the blackbird, the professor affirms, creates music of its own.

improvising "strophes" on the spot. A tireless inventor of new harmony, the bird also has the true artist's hatred of repetition. When inspired, it sings from 300 to 500 different phrases in a single day.—Tit-Bits Magazine.

Astec Images Like Egyptian

When Cortez and his band of Spanish conquerors came to Mexico early in the sixteenth century they met with stout resistance from the Aztecs, highly civilized Indians. As the Spaniards despoiled the Aztec temples, pressing the natives into slavery, they discovered many carvings of images and figures, indicating the existence of a well-organized religion. From a study of the idols and the decorations on the walls of the temples archeologists have noted Egyptian similarities. The Aztec religion was one of many gods, being in that respect like the pagan belief of ancient Greece and Rome.

The Column of July

The Column of July is a fluted column of bronze on the place de la Bastille in Paris, dedicated on July 28, 1830. "French citizens who fought for the defense of the public liberties on the memorable days of the 27th, 28th and 29th of July, 1830."

The column rests on a round base of white marble. Four bands encircle it, bearing the names of the 415 who fell in the revolution and whose remains, together with those of the victims of the revolution of 1848, are contained in the vaults underneath.

Immensity of Brazil

Brazil measures 8,296,819 square miles, exceeding the size of the United States by more than 2,000,000 square miles.

News Review of Current Events the World Over

Edward VIII Becomes Ruler of the British Empire; Substitute for Unconstitutional AAA Rejected by Senate Subcommittee.

By EDWARD W. PICKARD

(Women Newspaper Union)

GEORGE V, King of Great Britain and emperor of India, died in Sandringham house, peacefully and painlessly, in his seventy-first year, immediately on his passing, his eldest son, Edward Albert, who had been prince of Wales, succeeded to the throne, which by British law, is never vacant. Next morning the state council, consisting of the queen and her four sons, which had been created by a decree which

George signed a few hours before his death, proclaimed the accession of the new ruler as Edward VIII. His first official act was to notify the lord-mayor of London of his father's demise.

King George, who had been on the throne almost twenty-five years, was the best loved and most democratic of the world's monarchs, always just, solicitous for the welfare of his subjects, and living a simple and almost faultless domestic and official life. The new king, a confirmed bachelor, knows his vast empire intimately, having visited practically every part of it, some regions many times. Decidedly different from his father in his tastes and ways of life, he is still, as the prince of Wales, has been a great favorite of the people, and in recent years, realizing that he would soon have to mount the throne, he stepped down and took an increasing interest in the affairs of the empire. He is especially liked by the laboring classes, in whose welfare he often has shown deep sympathy.

That he never married has been a disappointment to the British people. Now for the first time, since the reign of William IV, there is no prince of Wales. Next in the line of succession is the king's brother, the duke of York, and second comes the duke's little daughter, Princess Elizabeth. There will be six months or more of official mourning for George's death, and Edward VIII will not be crowned for about one year.

The body of the dead ruler was removed from Sandringham house to the little church of St. Mary Magdalen in Sandringham. Thence it was taken to Westminster abbey, there to lie in state. Interment is to be in the Albert Memorial chapel at Windsor, beside the tombs of George's father and mother.

THE New Deal's substitute for the unconstitutional AAA, a bill empowering the secretary of agriculture to pay farmers who co-operate voluntarily in a program of soil conservation, was introduced in congress by Senator John B. Bankhead, Democrat, and Representative Marvin Jones, Democrat, Texas. The bill was referred to a senate subcommittee. The members of the subcommittee doubted the constitutionality of the new measure.

Wallace, directed Secretary of Agriculture Wallace to write a new bill. The bill rejected by the committee stated as its purposes:

1. Preservation and improvement of soil fertility.

2. Promotion of the economic use of land.

3. Elimination of exploitation and unprofitable use of national soil resources.

4. Provision for and maintenance of a continuous and stable supply of agricultural commodities adequate to meet domestic and foreign consumer requirements at prices fair to both producers and consumers.

5. Re-establishment and maintenance of farm purchasing power.

Secretary Wallace was requested to write a new act that would provide a plan of co-operation with each of the 48 states, and set up a permanent program on AAA policies. Chairman Smith, Democrat, said, saying he spoke for the committee. Smith explained:

"We said in effect to Secretary Wallace, 'Make it constitutional, because we have the responsibility to pass it.'"

THE compromise bill providing payment of the soldier bonus, whipped through congress by crushing majority, was passed on to the President, who is expected to veto it.

Congressional action on the measure was completed when the House voted 340 to 70 to accept the senate substitute for the bill it had previously passed. The senate vote was 74 to 16. Leaders of both houses claim they have sufficient votes to override a veto.

The original House bill did not provide a method for paying the cost of the bonus, which is estimated at \$2,837,000,000. The senate suggested the issuance of the \$20 "baby bonds" which will bear interest at 3 per cent annually until 1945 if the veteran elects to hold on to them.

Each veteran with service from 1916 value of his adjusted compensation certificate in 1935 bonds with a government check for odd amounts in

interest owed by veterans upon loans unpaid on their certificates is canceled, but there will be no refund of interest paid upon such loans.

THE present federal relief program, depending principally on work relief, CCC and public works, is alone costing approximately as much as the fourfold program which went before and which embraced these three items plus direct relief which has now been returned to the states, according to a study of the relief problem and the government finances by Kendall K. Hoyt in the Analyst.

For immediate purposes, at least, there is no prospect of much reduction in the rate of federal expenditure, according to Mr. Hoyt. In order to prevent the states from trooping back for more relief funds the government must keep its pledge to employ the arbitrary three and one-half millions of persons which have been carried since last November principally under WPA and CCC. In dollar terms this means that, according to budget estimates, the outlay for recovery and relief for the fiscal year ending June 30, 1936, will be almost the same as that for the preceding fiscal year, namely, three billions in round numbers, or an average of 250 millions per month.

It is within expectancy, therefore, that costs to the country will reach a new high unless economic conditions improve more rapidly than can now be foreseen.

APPARENTLY "authentic" administration sources are credited, according to Democrats in congress, with a report that Jesse Jones, RFC chairman, may become secretary of the treasury. It was said that Henry Morgenthau, present secretary of the treasury, may be made confidential adviser to the President.

One congressman, who keeps abreast of developments in government financial circles, said he was reasonably sure the change already has received some consideration from President Roosevelt. Another added that it was "a 100-to-1 shot that it is under consideration."

The reports were discounted to some extent, however, by the fact that the President has just renominated Jones for two more years as chairman of the Reconstruction Finance corporation.

One Democratic representative argued that on the basis of his past record Jones could carry into the treasury the respect and confidence of both big business and "the man in the street." He described the RFC chairman as sufficiently liberal to command the support of liberal elements and yet not leaning so far in that direction as to alarm conservatives.

PREMIER NESSIM PASHA, weary of his job since the anti-British riots started November 13, has handed the resignation of his cabinet to King King I. The resignation was accepted.

Nessim found it exhausting to keep an equilibrium between the conflicting forces of the throne, the British residence, the nationalists and their compatriots. But the final blow dealt him by the British government at London, was the thing—voted ultimatum—to Egyptian Nationalism, in the form of verbal instructions for negotiations for an Anglo-Egyptian treaty. The thing in Egyptian pride was in the warning that if the present negotiations fail, the British consider their hands will be free and will revise their Egyptian policy.

FACTORY sales of automobiles manufactured in the United States rose to 447,804 in December, bringing the year's total to 4,003,481. The Department of Commerce reports. The total compares with 2,733,111 in 1934. At the same time the department reported an increase of \$7,483,914 in exports of automotive products during the month of November from the preceding month. November auto exports reached a valuation of \$22,403,722. This is the peak figure for any corresponding month since 1929, when the export total amounted to \$27,129,083.

AFTER several months of government stability Premier Pierre Laval has handed to Albert Lebrun, president of France, the resignation of the entire cabinet. Leaders expressed fear of a financial crisis.

The radical Socialists, Minister of State Edouard Herriot, Minister of Commerce George Bonnet, Minister of Morcelle Marine William Bertrand, and Minister of Interior Joseph Pagnoux, composed a letter of resignation condemning the domestic and foreign policy of Laval. Their colleagues, Minister of Finance Marcel Renier and Minister of Penitence Manpol, refused to sign, declaring they would resign only with the cabinet as a whole. The Nationalist Minister of State Louis Marin, also dissented from the resignation.

Laval, informed of what was going on, handed the president the resignation of the entire cabinet.

HUEY LONG'S lieutenant, following the victory of their primary state in Louisiana, declared that the late senator's fight on the Roosevelt administration would be pushed, with the share-the-wealth program as the spearhead of attack. Returns on the primary indicate a majority of more than 100,000 for senator, governor and other state officers. Nominations is equivalent to election.

ALL the world rejoiced over the news that Lincoln Ellsworth, noted explorer, and his pilot, Herbert Hollick-Kenyon, had been found safe and well in Little America and were on board the rescue ship Discovery which was sent jointly by the British and Australian governments. The two men had been missing since November 28 when they started on a bold airplane flight across the Antarctic continent. In this they succeeded, but they ran out of fuel and were forced to land at the bay of Whaley. They had a considerable supply of provisions, but this was almost exhausted when they were found. No word had come from them because their radio transmitter was disabled.

RECENT League of Nations developments have gone heavily against Italy's aspirations for African conquest. Of four major actions taken by the assembled powers, led again by Anthony Eden of Great Britain, two definitely were antagonistic to Italy, one was a draw and one was somewhat in the League's state's favor. They were:

1. The League council decided to move toward an embargo against Italy. A committee of experts was appointed to ascertain if all sanctions could be made effective.

2. Britain announced a military alliance with France, Greece, Turkey and Yugoslavia and these nations pledged aid should Italy attack Britain because of sanctions. Rumania and Czechoslovakia promptly joined this group, making seven nations pledged to combined action against Italy should war come over efforts to stop the Italian-Ethiopian conflict.

3. The League declined to send a neutral investigating body to Ethiopia, which Ethiopia asked and to which Italy consented.

4. The League conciliation committee published a report that no new peace proposals are possible at the present time, and that the League should pursue a policy of watchful waiting.

SUMMARILY overruling the government's petition for a rehearing of the Louisiana rice millers' cases, involving the refund of some 200 million dollars in processing taxes held in escrow, the United States Supreme court issued its mandate ordering the return of the funds to the taxpayers.

The court also issued its mandate in the Hoosier mill cases, in which the Agricultural Adjustment act was held unconstitutional and thereby closed the door to petitions for a rehearing in that case. In a third action the court ordered arguments on February 4 on the New Deal's motion to dismiss a suit brought by the state of Georgia to test the constitutionality of the Bankhead compulsory cotton control act.

The expected decision in the TVA case was not handed down.

UNDERSECRETARY of the Treasury Thomas Jefferson Coolidge resigned his position suddenly and unexpectedly, because he did not agree with all the policies of the administration. At the same time Assistant Secretary Lawrence W. Roberts resigned. President Roosevelt accepted both resignations. It was understood there was no connection between the two withdrawals. Mr. Roberts had been expected for some time to quit his post.

In his treasury position Mr. Coolidge, long a New England banker, has been in charge of such government financial affairs as the huge borrowings of money to meet heavy government expenditures. He was understood to be in accord with most Roosevelt policies but felt he was unable to give his full support to the general New Deal program.

INTRODUCED in the house by Chairman Rayburn of the interstate commerce committee is a bill for the purpose of increasing the powers of the federal trade commission to prevent unfair and deceptive trade practices. It proposed these four major changes in the present law:

1. Declares "deceptive acts and practices" unlawful in addition to the "unfair methods of competition" now specified.

2. Includes "trusts" in the scope of the law along with corporations.

3. Gives the Circuit Court of Appeals power to restrain practices involved in a commission proceeding pending final court decision.

4. Limits to 60 days from the date of a commission order the time in which application may be made to the Circuit court for review of the order.

CONGRESSMAN CANNERY of Massachusetts, chairman of the house labor committee, says that body has approved a bill designed to impose the 80-hour week on industry operating in interstate commerce, and that he hopes it will have the support of the President. The measure would license all interstate business and withhold it unless from firms which work employees more than 80 hours a week, fail to provide a wage sufficient to maintain a decent and comfortable standard of living, deny workers the right to join unions or bargain collectively, or employ persons under sixteen years of age.

MORTGAGE SALE

THOUGH the rainy season that will check his campaign is fast approaching, Mussolini continued to send fresh troops by the thousands to Ethiopia. It was estimated that Italian East African forces already numbered more than 250,000, and there were reports that 100,000 more would be sent in the near future.

SECRETARY OF LABOR. *Pratt* is the last year much of benefit for American workmen. In her annual report she cited these five great advancements for labor:

1. Unemployment compensation, accomplished through the social security act.
2. Old-age security, brought about also by the social security act.
3. Establishment of boards for settling in-

4. Greater co-operation between the state and the federal department, through regional conferences.

5. Development of the United States employment service.

Even the large number of strikes during 1935 could be viewed with some satisfaction by her, for she said they were "due in part to the natural exaltation of labor to share in the same fruits of business improvement."

— HIS message to congress submitted his approved budget for the 1957 fiscal year, beginning July 1 next. President Roosevelt followed the traditional system of accounting—his administration has always employed—of books for regular expenditures and income and another set for emergency spending and appropriations. He asserted that receipts from all sources the next fiscal year will aggregate \$5,584,000,000. Expenditures for all regular government departments and agencies are estimated at \$5,549,000,000, the "regular" budget will be in balance with a surplus of \$35,000,000.

But the message went on to say, after explaining that the regular

That figure of \$1,108,000,000 represents the President's estimate of unpaid balances on July 1 from \$1,840,000,000 and previous emergency appropriations.—It does not take into account probable new appropriations for similar purposes yet to be determined.

February 4.

Caribbean Islands Have

Realistic Pirate Tales

All the islands of the Caribbean have
"pirate appeal," but St. Thomas is par-
ticularly fortunate in its possession of
the castle of the dread Bluebeard,
writes a correspondent in the Chicago
Daily News. There are many local
tales concerning the Bluebeard legend,
most of them differing somewhat from
the story of our childhood, but close
enough to general outline to prove
that the pirate who lived in this cas-
tle on St. Thomas must have been a
fierce and indeed, and apparently
murdered a fair quota of hapless mil-
lions.

On St. Thomas, too, is Blackbeard's
tower, the remains of the hangout of
Blackbeard Teach, who was an at-
tentive terror of the seas, ranking al-
most with Captain Kidd and Henry
Morgan. As a little pleasantries once he
had 15 men rowed out to a desolate
rock not far from St. Thomas and
left them there to starve. They were
rescued by a rival pirate and the in-
cident would have been forgotten if the
name of the rock hadn't happened to
be "Dead Man's Chest." From that
incident came the famous pirate theme
song—"Fifteen men on a dead man's
chest—Yo-ho-ho and a bottle of rum!"

Helium First Discovered

on Sun; on Earth Later

Fantastic though it may seem, heli-
um first was discovered on the sun,
approximately 95,000,000 miles from
the earth, before anyone found that
it also existed on our own globe. To
this fact it owes its name, derived from
"helios," the Greek word for sun. Its
existence on the sun was betrayed in
1808 when scientists found a brilliant
yellow line in the sun's spec-
trum, the ribbon of different colors
that is formed when sunlight is passed
through a prism and split into its
various wave lengths. This light was
characteristic of no element known on
earth at that time.

Helium was not found on earth until
27 years later, in 1868, and even in
the early days of the World War it
was a rare substance, obtainable only
in small quantities at the prohibitive
cost of about \$2,500 per cubic foot.
Faced with the imperative need for a
non-burning gas for airships, however,
the government began experiments
with extraction of helium from nat-
ural gas. This led to establishment
of the United States bureau of mines
helium plant at Amarillo, Texas.

Tribute to a Dog

On a tombstone in Hillgrove cem-
eteries, at Mansfield, Ohio, is an ep-
itaph reading: "SIS—ever faithful dog
that guarded me in life still guards my
grave." The story behind this, ac-
cording to the Dayton News, is that
Fred Fox, buried there, many years
ago, was a prosperous farmer of the
neighborhood who left his home at
night one night accompanied by his
small bulldog. He failed to return
the next day and when a search was
started they found the dog barking
furiously along the horseback trail.
Following the animal, they finally
found the body of Fox in a shallow
creek where he had fallen from his
horse after suffering a stroke. He
had drowned and the dog had stood
guard over his body until attracted by
the calls of the searchers, whom he led
to the scene of the accident.

Channel Islands

The Channel Islands of Britain, only
75 square miles in area, have a long
and glorious history behind them.
From the most ancient days the law
allows a citizen to shoot for help
against an alleged aggressor and his-
tory records how in the year 1067 the
baron of William the Conqueror was
delayed thus by an humble citizen
whose home had been wrecked by the
king without compensation. More than
400 years later, in the year 1518, some
one who objected to a telephone pole
being planted near his gate, went into
the street, called for help according to
old usage and custom, and the tele-
phone people had to stop work until
the matter was adjusted.

Try Standard Liners for Results—38c

Rise of Brigham Young

Brigham Young was born at Witting-
ham, Vt. June, 1801, and died at Salt
Lake City, August, 1877. His early life
was spent in New York state where
he became a carpenter and glazier.
In 1820 he obtained from the brother
of Joseph Smith a copy of the Book
of Mormon. He was converted and
baptized April, 1822, and at once be-
came active in the work of the new
sect, being made first an elder and
then an apostle in 1835. Later he was
made president of the council and still
later the supreme head. He led the
pilgrims from Missouri to Illinois and
later led the trek which resulted in the
founding of Salt Lake City. He be-
lieved in and practiced polygamy.
Polygamy is no longer a practice of
the Mormon church and its members
are prohibited from it by church orders.

Smart Dogs

In Chicago two scientists made an
intelligence test of a dog, using a de-
vice called psycho-galvanometer. It
proved, they said, that the dog had as
much sense as a twelve-year-old child.
That will be no startling announce-
ment to dog lovers. Most of them
will declare the machine ought to have
shown that the dog has more sense
than most human beings of any age.
A better comparative demonstration
would prove that (1) a dog will not eat
when he is not hungry. (2) A dog
will relax and rest when he has noth-
ing to do. (3) A dog is true to his in-
stincts and profits by his experiences;
he doesn't do a thing that got him
into trouble the first time. In most of
these tests the average human being
would make a poor showing.—Detroit
News.

History of Taxation

Taxation has had a long history and
the meaning of taxation has undergone
shifts as taxation itself has changed.
Tribute in Greece and Rome was an
exactation laid by the conqueror upon
the defeated and was one of the chief
sources of supporting both Greece and
Rome. Cicero in one of his writings
spoke of taxation with horror as some-
thing that might take place in Rome
if things kept on going from bad to
worse. But tribute in one form or an-
other lingered on until in the modern
state it gradually middle way for tax-
ation of free people imposed upon them-
selves to carry on public activities.
Careful study of taxation shows grad-
ual evolution through the centuries
from the idea of tribute into the idea
of taxation.

Caribou Disappears

The woodland caribou, once fairly
plentiful in Maine and the Maritime
provinces, probably has disappeared
entirely from the Pine Tree state and
has become exceedingly rare in the
forests of Nova Scotia and New Brun-
swick. It still is found on the Gaspé
peninsula and in the province of Que-
bec some large herds are found in the
more remote forest regions north of
the Gulf of St. Lawrence.

Wise Men Liked Dogs

The dog always has been a favorite
animal with the scholarly scribes. Of
them all, Xenophon, the historian, ex-
hibited the greatest knowledge of his
subject for the period in which he
lived, about 400 years B. C. Others of
ancient times who contributed to can-
ine literature were: Aristotle, Theo-
phrastus, Plutarch, Aelian, Julius Af-
ricanus, Aelian, Pliny, Ctesias, Lucian,
Dionysius, Oppian, Varro, Vergil, Grattus
Kallianus, Xenophon and Pliny the
Elder.

Months Have Wrong Names

Before the time of Julius Caesar the
olden Romans counted the year as
starting in March and that made Sep-
tember the seventh month. Later the
first month was made January, but the
old name of September was kept. Oc-
tober, November and December (mean-
ing eighth, ninth and tenth), says a
writer in the Detroit News, are other
months which we may say have the
wrong names.

Public LeaderAll on Account of a Bunch
of Keys

WHEN the list of the victims of
the Lake Shore railroad wreck,
near Ashtabula, Ohio, on December
31, 1876, was published the name of
John Weyler was near the head of the
list.

Many of the bodies were so charred
and mutilated that it was impossible
to recognize them, and the identifica-
tion was made through articles of
clothing and jewelry found near the
dead men and women.

Weyler was an old soldier who had
been unable to work for some time
because of physical infirmities.

His family was poor and the fact
that he was unable to help them de-
pressed him very much.

He mourned over the fact that he
was a hindrance rather than a help
and more than once expressed the
wish that his wife and children might
be rid of such a burden.

It was known that he intended go-
ing on this particular train, although
his family were unaware of his des-
tination.

A reputable Rochester physician tes-
tified that he had met Weyler on the
train that morning.

In addition to this a bunch of keys
belonging to the man was found at the
scene of the wreck. Mrs. Weyler
identified them as having belonged to
her husband.

If further proof were needed it was
furnished when it was found that one
of the keys fitted the front door of his
house, another opened a chest in his
room and the third one proved to be
the key with which he was in the
habit of winding the kitchen clock ev-
ery night.

Naturally a suit for damages was
instituted against the railroad.
The funds to go to the widow were
kind friends of the family who felt
that the poor woman deserved dam-
ages of some kind.

Naturally, also, there was some
question regarding the identification
of the body.
This, however, gave promise of be-
ing a long-drawn-out controversy, and
officials of the corporation offered to
settle the claim of the widow for
\$4,000.

Her lawyers advised her to stick out
for \$5,000 on the ground that the
amount was small enough for the loss
of a husband.

She followed their advice and this
caused the railroad officials to make a
second and more thorough investiga-
tion.

There was nothing new to be
gleaned from the scene of the wreck,
so the detectives who were put on the
case began to interview anyone who
might have been acquainted with Mr.
Weyler.

One of these was General Martindale,
under whom the old soldier had
served during the war.
The officer said that he had not seen
Weyler for more than a year, but that
the last time he met him the old man
had expressed a wish to go into a
soldier's home, where he would no
longer be a care upon the members
of his family, who were having a
hard struggle to exist.

Thereupon General Martindale had
given him a letter authorizing his ad-
mission into a soldier's home in Wis-
consin.

There was no time limit to the or-
der.
With this as a clue the investiga-
tors went to Wisconsin.

They located the home and found
there an old man who answered the
description of John Weyler.

He was in a sort of dazed condition,
but it was found from the records that
he had arrived there on the last day
of the year—the very day of the train
wreck—and had been admitted into
the institution.

When questioned he said he had a
wife and children in Rochester.

The man was John Weyler.
The mystery of the keys that fitted
the front door, the chest and the clock,
were easily explained.

Weyler said he had lost his keys in
the street only a few days before, and
they must have been picked up by
the man who was killed on the train.

He said that he had boarded the
train himself, but had left it at Buf-
falo, and had made the rest of his
journey the best he knew how.

This was a great mystery cleared
up, and in its clearing it was brought
out that the wife and the other wit-
nesses had testified in the best of good
faith.
They honestly believed that he had
been killed in the wreck, and the truth
might never have been disclosed if it
had not been for the interview with
General Martindale and his recollection
of the fact that he had given the
letter to John Weyler.

Arts and Sciences

According to Jevons, a science
teaches us to know and an art to do.
Astronomy, for instance, is the foun-
dation of the art of navigation; chem-
istry is the basis of many useful arts.
The arts are distinguished as fine arts
and useful arts, the former including
painting, sculpture, music, poetry,
architecture; the latter (useful arts)
including the trades. The sciences
have been variously classified. The
principal ones are physics, chemistry,
astronomy, meteorology, mathematics,
geography, geology, ethnology, anthro-
pology, archaeology, biology and medi-
cine.

LINER COLUMN

WANTED—Girl for housework. Home
nights. State wages expected. Re-
ply Box 29, Chelsea Standard. -26

FOR SALE—Three sows with pigs.
Others to follow soon. Harold H.
Every, on Riggs farm. -27

WANTED—A man who is acquainted
with farmers of this territory and
who can sell farm machinery. An-
swer in own handwriting, giving
age, experience and present occu-
pation. Send reply to Box 17, care
of Chelsea Standard. -28

LOST—On West Middle street, auto-
mobile mat. Finder please notify
Clyde Main, phone 191-F4. -28

DANCE in Arbeiter Hall, Manchester,
Friday evening, January 31st. Good
music. -26

The saxophone was invented by An-
toine Joseph Sax (1814-1894). A Bel-
gian who discovered a new principle
in the manufacture of wind instru-
ments. -26

ORDINANCE NO. 61

AN ORDINANCE, granting per-
mission to the Consumers Power
Company, its successors and as-
signs, to set poles and maintain
wires for the transmission of
power along certain streets in the
Village of Chelsea.

The Village of Chelsea Ordains:
Section 1. That consent and per-
mission are hereby granted to Con-
sumers Power Company, its successors
and assigns, to set poles and thereon
to string wires for the transmission of
electricity, from the intersection of
East Street and Van Buren Street
thence north along East Street to
North Street.

Section 2. In constructing and re-
pairing said line along such street, all
poles or apparatus that may interfere
with the rights of others or the pub-
lic use of said streets by the Village
shall be set in such places as the Com-
mon Council shall designate. Said
Consumers Power Company shall have
the right to reasonably trim trees un-
der the supervision of the street com-
missioner. The Common Council re-
serves the right to order said Com-
pany to change the location of any
pole or poles along said street when-
ever it shall deem it proper to do so,
and the said Company, upon receipt
of such order shall, within a reason-
able time, make such change as is re-
quired.

Section 3. In constructing said line,
said Company shall not unreasonably
obstruct said streets and shall hold
and save the Village harmless from
damages resulting from the use of
said streets for the transmission of
power.

Section 4. This ordinance shall take
effect and be in full force from and
after its publication.

Approved, January 20th, 1936.
ROY HARRIS,
Village President
JAMES MUNRO,
Village Clerk.

Ford Builds 'High Wheeler' for Difficult Roads

A FORD V-8 "HIGH WHEELER" for use in rural districts where exceptional road clearance is needed is now being produced by the Ford Motor Company. The car is equipped with 13-inch steel spoke wheels and 6.00 by 18 4-ply tires, instead of the 16-inch drawn steel wheels and 6.00 by 16 tires which are standard on the 1936 model. The additional road clearance enables the "high wheeler" to negotiate roads with deep ruts and trails with high poles, such as stones and stumps. The view at right shows the standard wheel in front, with the new "high wheel" behind.
