Millers Hold Meeting In Chelsea Saturday

The Michigan Group, District No. 6, of the National Organization of Operative Millers, held a meeting Saturday afternoon at Kolb's hall. The business meeting was called to order at 3 o'clock by Chairman Fisher, Supt. of the Commercial Milling Co., Detroit. A paper, "The Mill Executive's Dream," was read by Perry Hayden of Tecumseh. This paper was very interesting and was written to bring a closer relationship between the mill owner and the operative miller. This was followed by a round table discussion on the different things pertaining to milling—wheat blends, flour blends and the cost of packing flour.

Election of officers resulted as follows:

Chairman—Harvey Smith of Mt. Pleasant.
Vice Chairman—Harry Foltz of Chelsea.

Secretary—Geo. Goodell, Chelsea. The next meeting will be held at Postum Cereal Co., Battle Creek, on September 12, 1936.

The ladies were entertained at a matinee at the Princess Theatre in the afternoon, after which tea was served at the home of Mrs. H. S. Holmes, with Mrs. B. A. Kemmerling pouring. A bowl of white roses centered the table, flanked by green tapers in silver holders.

At 6:30 the entire group, numbering 65, were guests of the Chelsea Milling Co. at a dinner served in the hall. At the close of the banquet, Howard S. Holmes of the local company was given a rousing cheer.

Companies represented at the meeting were:

Voigt Milling Co., Grand Rapids; Hayden Milling Co., Tecumseh; Commercial Milling Co., Detroit; A. H. Randall Milling Co., Tekonsha; David Stott Mills, Detroit.

Amendt Milling Co., Monroe; King Milling Co., Lowell; Postum Cereal Co., Battle Creek; Knappen Company, Augusta; Harris Milling Co., Mt. Pleasant.

Stock and Sons, Hillsdale; Colby Milling Company, Dowagiac; Chelsea Milling Co., Chelsea.

Local Hotel Will Be Opened In Near Future

Remodeling of the Crescent Hotel property on North Main street has been started, preparatory to the opening of the hotel in the near future. H. S. Holmes, owner of the property, has a force of men at work moving the heating plant and changing the plumbing in the basement.

A partition will be taken out of the basement, and an extension of 12 feet built at the back of the building, to make room for the installation of three bowling alleys which will be installed as soon as the basement remodeling is completed. In addition to making room for the alleys there will be ample space for spectators' seats back of the bowlers. There will also be a public room in the basement, where the bowlers may change their clothes, and it is possible that refreshments will be served there.

Mr. and Mrs. Harold Guentel will operate the hotel and alleys, and it is hoped to have the lobby and rooms completely renovated and redecorated ready for occupancy within two weeks. It is expected that it will require at least a month to have the bowling alleys ready for use.

The hotel will be fitted for first-class accommodations, and its opening will be a boost for Chelsea.

Dr. A. L. Brock Moves to N. Main Location

Dr. A. L. Brock moved his dental equipment Saturday to his new location on North Main St., in the building which he recently purchased of Leon Kampf. It will be a welcome sight to Chelsea to have the building occupied that has been so long vacant. Dr. Brock has a modern dental office, consisting of waiting room, operating room, hallway and lavatory. It is finished in grade ivory, with white ceiling and ivory wainscoting. Black and white inlaid linoleum covers the operating room and hallway, while the waiting room is carpeted. New light fixtures have been installed. The office was opened for business today.

SERVICE WELL ATTENDED

The Lenten service held last evening in the Methodist church was well attended. Rev. P. H. Grabowski delivered the sermon.

Next week the Union service will be held in the Congregational church. A male chorus will furnish the music. Rev. C. F. Wolf will preside and Rev. Henry W. Lenz will preach the sermon, "The Sublime Renunciation."

Large Crowd Attends Centennial Exhibition

Hundreds of people attended the night school session and Michigan Centennial Exhibition at Chelsea public school last Friday night. All grades, from the first to twelfth, were in session from 7:00 to 8:30 and each room was visited by parents and friends interested in the methods used in conducting the school.

Exhibited in the hall and other parts of the high school building were many historic items arranged in cases and on tables. This display, collected by pupils and teachers of the school, included the following:

Last wolf shot in Washtenaw county 1907.

Lawyer less than 250 years old.

Unfinished quilt begun over 100 years ago (applique work).

Old costumes, especially hats worn by men and women during Civil War period.

Old newspapers dating back to 1864.

Neatly arranged collection of Indian relics.

Land grants made under provisions of Ordinance of 1787 for Northwest Territory.

Old pictures of Chelsea and illustrated atlas of Washtenaw county, published in 1874.

Items made by pupils:

Fine historical map of Michigan in yellow and blue.

Following the school session a program was given in the school auditorium. H. L. Turner of Michigan State Normal College, Ypsilanti, and H. A. Perry of Lansing, State Centennial Program Director, were the principal speakers. Many interesting numbers were presented by high school students. DEAD BIRDS WANTED

Several bodies of our useful birds have been found here this week. Research workers are seeking to discover the causes of the death of our birds. Special concern is about the game birds.

I would like all dead birds which have not been killed by people. Please bring them as soon as found so that I may keep them frozen until I can take them to Ann Arbor.

Alice Canfield, Sixth Grade Teacher.

Attacks Evil

It is part of the very essence of Christianity not to let evil alone but to attack it.

OUR WONDERFUL CAR

Have you seen the new car that's on exhibition?

It's a great little car of today; Of its marvelous birth, its genuine worth,

I think I have something to say— No-doubt it is nice, and if I had the price

I suppose I will drive one away.

But I have a car of a different ignition,

Of a different battery, too; It picks up its speed when ever you need

More power to carry you through. It has gone over mountain, it has traversed the vale,

Thru slough, thru jungle, and mire, Thru heat, thru cold, thru snowdrift

and rain, Yet never was known to misfire.

When modern inventors have tried to improve,

They have caused only friction and loss,

The prints were perfect when first they were drawn.

The patterns are stamped at the cross. This car has a name, a wonderful name,

Its record has ever been true, The promise is made, the price has been paid,

And there's one assembled for you. No doubt—but your heart will spring with a start

When you hear of this great proclamation,

But yet it is true, it is assembled for you.

And its name is the Car of Salvation.

—Arthur Carlton.

McLAREN SCHOOL NEWS

We have some new pupils. Their names are Ruth, Paul, Jean, Leroy and Mark Bauer. Ruth is in the fifth grade, Paul in the fourth grade, Jean in the third grade, Leroy in the second grade, and Mark is in the kindergarten.

Our percentage for this month is sixty-six and two-thirds. Many were absent because we were snowbound.

Jane and Lois Ann Schlosser moved to the Jerusalem school district.

We hear that Lois Fortman is going to move. We are sorry Lois is going.

We hope that Lois Fortman, Lois and Jane Schlosser will like their new school.

We hope the Bauer children like our school.

The fourth grade has finished the Netherlands.

February 29th, in the morning, we had to entertain. We all had to sing songs or do something that we could.

SAVAGE SCHOOL NEWS

Our beginners, Paul Bollinger, Richard Butcher and Thomas Franklin, have completed their three books which are required for the Beginner class and are now ready for first grade work. They are going to read several extra primers so that they will have an extremely large background for their next grade's work.

Paul Bollinger has completed the following readers: Field Martin Primer, We Three, and Peter and Peggy. Richard Butcher has read Field Martin Primer, Peter and Peggy, and Betty and Jack. Thomas Franklin's list includes Field Martin Primer, Peter and Peggy, and the Elson Reader. Besides becoming good readers, the Beginners are also spending some time with number work, and identification of letters.

Our fourth graders are making an Arctic region unit. They have illustrated the Eskimos, people, dogs, and sleighs by colorful cut-out figures. The snow and ice is also artistically illustrated. The students make units and booklets for each section of their Geography textbook.

Edward Visel, our eighth grader, did well on his second series of county examinations, maintaining his "B" average.

We have all been working especially hard on our Arithmetic work. Each child has a graph on which his progress is kept. Miss Gale gives us time drills twice a week and we record our score. So far, Richard Verner and Phyllis Weber have made the most gain since the first of the school year.

Mary Kathryn Weber is the new president of our Civic Health club. We have divided the students into two groups for the Health race, each side attempting to make their ice cream cone melt the quickest.

Mary Kathryn Weber has read the most books thus far. We keep a record of the books read by each student's name and represented by tiny colored booklets, including the title and author.

With the approach of Spring, we have been learning about common birds, and other nature facts. We have a bird chart on which we keep the student's name, and the bird which he sees. Also in our "nature corner" we have the pictures of our most common birds and a collection of Spring signs.

—Mary Kathryn Weber.

How Many Friends Have You?

IT HAS been said that the number of friends you have depends almost wholly upon you; for friendship is like many other precious possessions in that it does not thrive on neglect.

Most expressions of friendship, in this modern age, involve the use of the telephone. Direct, personal, inexpensive, it has come to be the recognized means of arranging nearly all informal social gatherings.

It has greatly simplified the rôle of the hostess, relieving her of bothersome complications once inseparable from entertaining. By telephone the woman of today can obtain acceptances or regrets without delay; she can make a last-minute addition to her guests, can quickly summon a fourth for bridge.

Modern telephone service is a special boon to those who have been parted by distance. It gives them, despite their separation, the opportunity for "voice reunions"—for a kind of personal contact which only the telephone can provide. Over it they can send greetings of the season, condolences, congratulations—all the various remembrances that arise from genuine friendship—and prove that absence need not necessarily mean forgetfulness.

Quick, dependable, the telephone service provided by this Company has won a definite part in the social life of the people of Michigan, and daily fulfills an important function in the many occasions which both promote and preserve the treasure of friendship.

OUR NEIGHBORS

PINKNEY—Friday noon, the one-story office building of Dr. C. L. Sigler on Main Street in this village was discovered to be on fire. The fire engine made the run to the fire in good time and after a couple of hours' hard work the blaze was extinguished.—Dispatch.

GRASS LAKE—Every candidate on the Young Men's ticket was elected by good majorities at the village election Monday, only one candidate on the Corporation ticket being elected, Stanley E. Cooper, who was unopposed for assessor. The new officers are: President, Nelson Wing; clerk, Helen McCull; re-elected; treasurer, Mrs. Ada DeVerna; trustees, Lawrence Snyder, Carl Cooper and George Wolfe. Opponents to the Young Men's ticket had declared that a number of major improvements would be undertaken by the village if the ticket was elected.—News.

MILAN—A big Belgian police dog, stranded on an island covered with ice out in the Milan park led to a lot of excitement last Thursday morning. No one seems to know how the dog became stranded or how long he had been marooned on the ice, but some one called the attention of Willis Cullen to the plight of the animal on the island back of the pump house. Lawrence Ward, equipped with a pair of hip boots, waded out to the island, breaking the ice as he went, the cold

water almost splashing over the top of the footwear at times. He reached the dog after a short struggle in the icy stream. The big police dog needed a bit of coaxing to leave the island, but finally after persuasion, he plunged into the cold water and with the aid of Ward swam to safety on the main land. The bath in the icy water was followed by a warm bath administered by Lawrence Ward, and this was followed by a warm dinner. The dog left for his home without disclosing his identity.—Leader.

DISPLAYS OLD LETTERS

Schefel, then a resident of this vicinity, who was serving in the Union army in Kentucky. The letter, written in the German language, is well preserved and tells many interesting incidents about the war. Another letter which Mr. Elsemann has is one of the first messages his mother received from Germany, sent soon after her arrival in this country in 1866. This letter is also well preserved.

Speed accelerated to meet to-days demands

Electricity in itself is the fastest thing in the world and travels at the rate of 186,000 miles a second. It has taken years of research by engineering science to release this magic speed for cooking purposes.

The modern electric element brings glowing, intense heat into direct contact with the cooking utensils, with an absolute minimum of lost heat. There is no waiting with the improved high speed units which almost instantly respond to a turn of the control switch.

Today's Electric Range, like the automobile, has been accelerated to meet present-day requirements. This year's automobile has stream lines for wind resistance and the modern Electric Range has automatic control for drudgery resistance - - it is the modern woman's demand for more speed in her kitchen.

WHEN BETTER AUTOMOBILES ARE

BUILT, BUICK WILL BUILD THEM

\$765* at the factory is the lowest list price ever put on a Buick.

But this \$765* buys the most efficient type of straight-eight engine in the world—the Buick valve-in-head straight-eight.

This \$765* buys the safety of tip-toe hydraulic brakes combined with the overhead protection of the solid steel "Turret Top."

This \$765* buys Knee-Action, plus weight-balanced springing, plus freedom from backlash and vibration through torque-tube drive.

This \$765* buys acceleration from 10 to 60 in 20.7 seconds, thrifty gas mileage, and a lightness of handling that's the answer to a woman driver's prayer.

And this \$765* buys a car engineered in Buick's own matchless manner, which means not only smoothness and steadiness and road-hugging evenness at every speed—but the sort of tough-fibred stamina that makes cobwebs grow in the repair shops!

A car like this at a price like this is news worth knowing any day in the week—but for the real surprise let us show you how it figures out in weekly payments.

The new GMAC 6% Time Payment Plan cuts the cost of buying a car on time. Why not use these savings to get the kind of car you've always wanted?

After leaving Chelsea March 5 at 8 o'clock a. m. we reached St. Louis before dark, next day drove to Tulsa, Okla.; then to Fort Worth, Texas. Preparation for Childbirth

In the preparation for childbirth there is nothing equal to Osteopathy. Through Osteopathic treatment the circulation is kept good, all the functions of the organs are kept active and general health is maintained.

Thousands of women who have been attended by Osteopathic Physicians during childbirth can testify that Osteopathy is an inestimable boon. It lessens the pain, the duration is shortened and the likelihood of accidents are reduced.

The structural derangements that often cause trouble for the near-grown girl are often the underlying cause for the disturbances during childbirth. It may require the additional strain of childbirth to bring out the hidden weakness.

The following has been taken from the Osteopathic Magazine for February, 1936:

"The A. T. Still Research Institute recently conducted a survey into the death rates of mothers and infants under Osteopathic care. The survey covered 14,000 cases of all types—home, hospital, private and clinic, city and rural, operative, 'poor risks' and normal.

The survey showed that out of every 1,000 mothers in childbirth, 2.2 died and out of every 1,000 infants 3.0 died. Comparable statistics, compiled by the United States Department of Labor, shows that under general medical care 6.8 mothers out of every 1,000 die and that 45 infants out of every 1,000 die. Thus Osteopathic care during pregnancy and childbirth cuts the national death rate to less than one-third and the infant death rate to less than one-half of that under ordinary care."

Any reader desiring information regarding Osteopathy may obtain such information, without obligation, by writing to Osteopathic Items, P. O. Box 331, Chelsea, Mich.

Centennial Program HONOR ROLL

A program celebrating the Michigan Centennial was held at the high school gymnasium Friday evening at 8:30 o'clock, with a large number attending. Angelina Burg, as master of ceremonies, gave the introductory speech entitled "Romance in Michigan." Virginia Gilbert briefly sketched the history of Michigan; Moritz Brueckner that of Washtenaw county, and Virginia Cooper unfolded the early history of Detroit. Wilhelmina Goetschling described Detroit's present aspect, and was followed by Jeanette Cook's recitation of the first version of our state song, "Michigan, My Michigan."

Interspersed through these speeches were three University of Michigan songs rendered by an octet composed of Harrie Blecker, Maurice Lyons, Jane Belser, Angelina Burg, La Rue Wolf, Jean Blecker, "Oz" Hart and Lawrence Tisch.

The seventh and eighth grade girls, led by Miss Lucile Boomgard, also gave three numbers. Henry A. Perry, State Program Director of the Centennial, favored the audience with a brief talk in which he stressed the superiority of good-will and cooperation over mere money.

The speaker of the evening was H. L. Turner, head of the teachers' training department at Michigan State Normal. His interesting and instructive address on "Differences Between the School of Today and the School of Yesterday" showed the sharp contrast between the methods of instruction used in public schools now and a generation ago, and gave the pupils of Chelsea schools occasion to appreciate the superior opportunities offered the student of today.

Juniors 11, Sophomores 30.
Koebe led the scoring for the Sophomores with 12 points, while Birch and Prudden led the scoring for the Juniors, with three points.

Freshmen 3, Seniors 34.
Lyons led the scoring for the Seniors, with 11 points. Foster and Hart were close seconds with 10 and 9 points respectively. Fletcher was high point man for the Freshmen, with two points. Score at half, 25-0, in favor of Seniors.

Resume of Tuesday's Games
Juniors 15, Seniors 23.
Hart topped the scoring for the Seniors, with seven points, while Birch amassed a total number of 4 points for the Juniors. The Juniors led the half, 10-5.

Freshmen 9, Sophomores 24.
Wheeler made 8 points for the Sophomores and Alber made five points for the Freshmen. Each led their respective teams. Score at half, 12-6.

Resume of Wednesday's Games
Juniors 13, Freshmen 18.
Prudden led the scoring for the Juniors, with 6 points, while Dingle led the Freshmen with 6 points. Score at half, 8-11.

Seniors 17, Sophomores 15.
Lyons led the basketball shooting and sinking with 8 points, while for the Sophomores Koebe held the scoring honors with 7 points. The last minute rally of the Sophomores failed to overcome the lead of the Seniors. A close contest between Sophomores and Seniors shows us the good prospects for Chelsea High basketball teams in the future.

Ag. Exhibit a Success

The agriculture exhibit arranged by the F. F. A. and agriculture classes for the Michigan Centennial Exhibition met with favorable comments from those who attended the exhibit.

The unique qualities of the exhibit caught the eyes of people. The fact that everything was real, on a miniature scale, and lifelike brought forth many comments. The exhibit consisted of a display in methods and style of farming now and 100 years ago.

Thanks for helping to arrange this exhibit goes to Mr. Lyons, the members of the F. F. A., to the students of the agriculture classes, and to everyone whose cooperation made it a success.

Entertains Club

The Speech club was delightfully entertained by Mrs. Miriam Moore of Ann Arbor, Wednesday, March 12. Mrs. Moore read a number of poems written by Don Handing about Hawaii. By these poems and her knowledge of Hawaii, Mrs. Moore took the Speech class on a trip of fancy to Hawaii.

After the program Mrs. Moore answered the questions of the students about Hawaii. At the close of the discussion all were ready to leave on the first boat for Hawaii.

Fifth Grade

The president of the Girls' and Boys' Council called a special meeting on Wednesday to discuss baseball and choose the members of the baseball nine. The result was as follows, voting by ballot: Catcher, Earl Holbrook; pitcher, James Collings; first baseman, Luther Kustner; second baseman, Robert Strieter; shortstop, Richard Kern; third base, Iven Slane; right fielder, Russell Scripper; center fielder, William Melmery; left fielder, James Barkley; captain, Robert Strieter; substitutes, Raymond Radcliff and Stanley Policht; coach, Mrs. Steiner; asst. coach, Richard Schenk.

The girls and boys surprised Miss Boomgard when she came for music Friday, with an apple roll and she was surprised too when the avalanche of apples came rolling down the aisles.

Mrs. Ezra Tisch and Miss Lillie Wackenhut visited us on Wednesday.

Our map of Michigan is finished. The work was done by Luther Kustner and Robert Strieter, and we are very proud of it.

102 visitors registered in our room on Friday and many others observed who did not register. We were so glad to have our fathers and mothers visit us.

Sixth Grade
Marvin Wolf saw a part albino robin in on Wednesday, March 11. The robin had a white head and white shoulders. This robin was seen in Chelsea last year.

Our bulletin board which was arranged by Robert Fisher and Winfield Schenk, looks very nice. It is about birds.

For Friday night we had a display of soap carvings arranged. We owe the good work to Marian Elise, Winfield Schenk, Charles Lane, Junior Miller, and Leonard Spiegelberg.

Charles Lane has put a new disk on our bird clock.

Winfield has brought a large box to school which has many wires on it. He believes it to be a harpsicord.

We elected new officers. They are as follows: President, Fairbelle Stanley; vice president, Garmely Holbrook; secretary, Margaret Reed; treasurer, Gerald Hoover.

Lawrence Djetle drew a picture on the board. The title is "Help the Birds."

June Crawford and Pearl Alexander dusted the room very nicely Friday noon.

We are glad that the parents could come and visit us on Friday night.

Leonard Spiegelberg brought a bird house to school. Leonard nailed it on the tree. Friday morning we missed it. Miss Boomgard is teaching us a new spring song.

Social, Sociable
The nouns social and sociable, each meaning "a social gathering," are distinctly Americanisms. Of the two, sociable seems to have been the earlier form, and has been in use for more than a century. Both terms are in good usage in the United States; though until recently, sociable enjoyed a preference. Usage appears to be veering toward social.—Literary Digest.

The St. Lawrence River
The St. Lawrence river actually rises at the source of the St. Louis river, near the headwaters of the Mississippi in Minnesota, flows into Lake Superior, then through the other Great Lakes and empties itself into the Gulf of St. Lawrence, at Cape Gaspé, Province of Quebec. Of course, technically speaking, the St. Lawrence is only that part of the river which flows from Lake Ontario to Cape Gaspé, 770 miles.

Lenten Prize Ring Rule
Under the London prize ring rules a round ended as soon as a man was knocked down or slipped; thus a round might last a few seconds or many minutes.

Question And Answer Dept.

Ques.—Can you tell me about sapphires, where they are found and what is their true color?

Ans.—Sapphires are loosely allied to the ruby; they are gems of essentially the same mineral. However, they differ chiefly in color. The sapphire varies in color from pale blue to deep indigo. When treated to high temperatures it loses its color but does not regain its luster upon cooling as does the ruby. Sapphire deposits are chiefly found in Ceylon, Siam, Madagascar and Australia. They have been found in very small quantities in the United States.

Ques.—How is the glue on postage stamps made? And what is it made of?

Ans.—The adhesive matter on postage stamps is made from the roots of cassava plant grown in Java. The roots are thoroughly washed and then ground to a pulp. They are then dehydrated and ground into a white starchy flour. With this, is mixed 40 parts of water to 60 parts of the cassava flour. It is then heated to 140 degrees. Thus it will keep indefinitely, and the sugar content prevents it from deteriorating.

Ques.—Will you kindly answer when the Lusitania was sunk and how? Where did it happen, and were any Americans aboard?

Ans.—The Lusitania, a Cunard liner, was sunk by a German submarine off the southeast coast of Ireland on May 7, 1915. There were 124 Americans lost, and the remainder of the 1,958 of the ship's passengers were nearly all British and were lost when the liner was torpedoed.

Ques.—Does the United States own "Little America" by reason of Admiral Byrd's discovery? Why was it necessary for him to make a second expedition to that vast frozen region?

Ans.—The United States claims ownership of "Little America" by virtue of Admiral Byrd's planting the Stars and Stripes at that point. It was not necessary for Byrd to make a second trip, but he did so for further exploration, much of which had to be done by airplane, in order to secure additional information concerning his discovery. His love for adventure was also a contributing cause for the second expedition.

Ques.—Where is Lithuania, and what kind of government do they have? What is the population of the nation?

Ans.—Lithuania is a republic. It is located in the northeastern part of Europe. It is bounded by Latvia, Russia, Poland, East Prussia and the Baltic Sea. The population of that country is 2,480,000, and the national language is Lithuanian.

Ques.—How many Presidents of the United States were college graduates? Were any of the Presidents ever a minister of the Gospel before becoming President?

Ans.—There were 21 Presidents of the United States who were graduates of colleges or universities. No minister of the Gospel was ever elected or nominated for election as President of the United States.

Ques.—Why does rainy weather or the approach of rain cause a person's corns to hurt? We hear people say, "It's going to rain; my corns are hurting."

Ans.—That is just a myth or a coincidence. Rainy weather or a damp atmosphere causes leather to shrink. This sometimes causes corns to hurt a little more than they do in dry weather.

Ques.—I would like to ask you if the theater building in which Lincoln was shot is still in existence?

Ans.—Yes. The old Ford theater, scene of the assassination of President Lincoln, is still standing on Tenth street, N. W., between E. and F. streets, in Washington, D. C. Recently it was thoroughly renovated and converted into a Lincoln museum.

Ques.—Why is the sky blue instead of being some other color?

Ans.—The particles of dust in the upper atmosphere reflect only the blue waves of light. That is the reason the sky is always blue.

Ques.—When they talk in terms of billions, can you imagine a billion dollars?

Ans.—Sure. We can imagine a billion dollars a whole lot easier than we can actually get hold of a single dollar.

Cave of Mummies Discovered
In limestone caves of the coastal mountains of New Guinea rows of mummies of men, their chins on their hands, their elbows on their knees, have been discovered. They are believed to be 1,000 years old. The caves are near the strip of coast administered by the Australian government. Almost at the time of the discovery a party of explorers stumbled on a valley populated by a hitherto unknown—pastoral people who had dwelt there when the mummies were living men. Until the mummies were found there was no evidence that New Guinea tribes preserved their dead.

Another Monkey
Langurs are long-tailed leaf-eating monkeys widely distributed over south-east Asia.
