Faculty Complete for Chelsea Public School

Supt. H. L. Bleecker announces that the teaching staff of the public school has been completed, the seventh grade vacancy to be filled by Miss Dorothy Hannigan of Grand Haven. Miss Hannigan is a graduate of Alma college. The names of all other members of the faculty were published last week.

School will start next Monday, and all new students, those who did not register last spring, are requested to report at the superintendent's office today or tomorrow for enrollment and classification. All students will report at the school next Monday at one o'clock for enrollment and assignment to classes. The morning will be devoted to teachers' meetings.

High school students desiring to rent lockers are asked to do so on Thursday, Friday or Saturday of this week.

Local Credit Bureau Is Being Organized

The Chelsea Credit Bureau is being organized by James Hendley, local attorney, through the cooperation and assistance of local business men who are interested in this project.

This organization has as its primary purpose the establishment of credit ratings and a collection bureau. It is definitely local in character, serving Chelsea alone, and including only the local trading area.

It is hoped this service will be available within the next week. All local business and professional men are invited to join and may have further information by calling Mr. Hendley's office.

The drought and heat wave in Chelsea was broken on Tuesday morning by the heaviest rainfall since the 4th of July. There was a severe electrical storm between eight and nine o'clock, accompanied by heavy rainfall. The steeple of St. Paul's church was struck by lightning and the residence of Mr. and Mrs. John Eder was also struck. No fire resulted at either place and the damage was confined to shingles which were torn from the roofs. This is the third time the Eder residence has been struck by lightning.

It had not been occupied for eight years.

Second Tax Payment Urged by Governor

Governor Frank D. Fitzgerald has issued a statement reminding taxpayers that they must act at once if they wish to take advantage of the savings offered by the 10-year installment plan of paying delinquent taxes. "September 1 is the deadline," the governor declared. "Those who paid their first installment last year, and those who wish to come under the plan by making two payments at once, will find it to their advantage. I am sure, to visit their county treasurer."

Last year, the governor recalled, taxpayers' offices were jammed during the closing days, causing much inconvenience and delay. To avoid this, he urged that payments be made as early as possible.

While the state is standing the expenses of the tax-collection drive, Governor Fitzgerald declared it was acting merely as a collection agent. Ninety per cent of the delinquent taxes collected remain in the local community where they originate. They are used for the support of city, township, school district, or county government.

"The state is deeply interested," he explained, "for the reason that a self-supporting local government is the best kind of government. It is managed by its own people. It is not subject to evils of remote control. Likewise, when a local community handles its own affairs, it does not become an additional financial burden to the state. The local unit of government, the state, and the people in general profit when taxes are paid."

It was Governor Fitzgerald who championed the advertising campaign for tax collection last year which resulted in the payment of \$15,000,000 in first installments, of which \$13,000,000 went directly for the upkeep of local governments.

First Primary Money to Come in September

State Superintendent of Public Instruction, Dr. Eugene B. Elliott, announced Saturday the first installment of primary school interest money this year will amount to \$10,266,669, which is \$276,620 less than last year's installment. The second installment will also be proportionately lower. It will provide an average of \$1.19 for each census child, compared with last year's \$7.93.

The State Legislature provided for a total distribution of \$37,400,000, including the Primary School-Interest Fund to the 6700 school districts of the state for this year. This is an increase of \$1,360,000 over last year. With the shrinkage in the primary interest fund, it will be necessary to appropriate over twenty-three million dollars from the State General Fund, which derives its revenue largely from the sales tax.

Dr. Elliott said the first installment of Primary School Interest Fund would come early in September.

MRS. ARCHIE B. CLARK

Mrs. Archie B. Clark died early Monday morning, August 24, at her home, 170 Park St. She had been ill for several months.

Formerly Emily Bronson, she was born October 8, 1877 in Plymouth, the daughter of A. G. L. Bronson and Lydia (Chase) Bronson. February 16, 1897 she was united in marriage to Mr. Clark and for seven years they resided on a farm in Lyndon township, coming to Chelsea in 1904.

Mrs. Clark was a member of the Methodist Episcopal church and the Women's Relief Corps.

She is survived by the husband, a daughter, Mrs. Jessie M. Schenk of Chelsea; a son, A. Gilbert Clark of Ann Arbor; two sisters, Mrs. Cora Whitaker of Anderson, Ind., and Mrs. Roy Warner of Salem; a brother, E. Gilbert Bronson of Ann Arbor, and five grandchildren.

Funeral services were held Wednesday afternoon at 2 o'clock at the Methodist church, with Rev. F. D. Mumby officiating. Burial took place in Oak Grove cemetery.

ENTERTAIN CLASS OF '97

Mrs. Otto Luick and Miss Minnie Schumacher entertained the members of the class of '97 of the Chelsea high school on Wednesday evening at the former's home in honor of Mrs. Dorsey Hoppe of Seattle, Wash. Garden flowers decorated the rooms. The evening was spent in visiting and reminiscing, and dainty refreshments were served by the hostesses. Mrs. Hoppe was presented with a gift. The guests were Mrs. A. D. Miles of Ann Arbor, Mrs. Henry Schneider and Mrs. Elvira Clark-Visel. As a pleasant surprise Mrs. Visel presented each person present with a bouquet of garden flowers.

CELEBRATE 51ST ANNIVERSARY

Mr. and Mrs. Orion J. Walworth celebrated their 51st wedding anniversary on Sunday, when a pot luck family dinner was served at the home of Mr. and Mrs. George W. Walworth. The guests included Mr. and Mrs. George S. Bacon and family of Fort Wayne, Ind.

Will Wreck House On Local P. O. Site

R. S. Spence, representing Spence Bros., of Saginaw, general contractors on the new Chelsea post office construction project, arrived in Chelsea on Wednesday to supervise wrecking of the house on the site at the corner of South Main and South streets.

It is planned to start wrecking of the house today or tomorrow. Some of the materials will be sold and the firm will use some in their construction work.

Excavation for the basement of the post office building will be started in two or three weeks, and construction work will be started at the same time, according to Mr. Spence. There will be a basement under one-half of the building.

According to Mr. Spence, local labor will be used if it is available. Five or six men will be employed for the wrecking operation and the force will be increased when construction work starts.

A total of 270 days are allowed under terms of the contract for completion of the new structure, and Mr. Spence states that the building will be ready for occupancy next spring.

Brucker Will Speak In Chelsea On Tuesday

Brucker, candidate for the senatorial nomination on the Republican ticket, will speak in Chelsea on Tuesday afternoon, September 1, at 1:45 o'clock. Mr. Brucker will make a tour of the county on that day, with the speaking schedule as follows:

Dexter—1:00 o'clock.
Chelsea—1:45 o'clock.
Manchester—2:45 o'clock.
Bridgewater—3:15 o'clock.
Saline—3:45 o'clock.
Milan—4:30 o'clock.

At 6 o'clock a dinner is being planned at the Masonic Temple in Ypsilanti, with a meeting open to the public at 7 o'clock. At 8:15 o'clock an Ann Arbor meeting will be held.

REAL FISHERMEN!

Mr. and Mrs. D. J. Claire have proved the fact that they are real fishermen. They spent last week at Batchawana Bay, on the north shore of Lake Superior at the camp of Harvey Wilson, Mr. Claire's cousin, and they came home Monday with eleven lake trout ranging in weight from three to eight pounds (Dale admits that Mrs. Claire caught most of the fish). They caught these fish where the water is about 200 feet in depth, and used from 300 to 800 feet of line. Mr. Claire presented the publisher of The Standard with one of the trout weighing about six pounds and we agree that the Claires know where to go to get good fish.

CAVANAUGH LAKE GRANGE

Cavanaugh Lake Grange will meet at the home of Mr. and Mrs. G. Henry Allmendinger at Crooked Lake for their regular monthly meeting on Tuesday, September 1. Program:

Talk by Dr. W. G. Richert of the U. of M.
Closing song by the Grange.

A MORNING WITH THE MAPLES AFTER THE RAIN

I was forced to smile this morning As I watched the leafy trees, While zephyrs played among them And kissed their sparkling leaves. Each had a smile of gladness, Their voices few may hear, While bowing to each other In courtesies of cheer.

A shower had washed their faces, Until they fairly shined, And deepening all their graces I owned—shamed me of mine; But still I laughed outrightly For the lesson taught to me, Through perfumed zephyr courtesies. Of leafy maple trees after a July shower.

Can Soups Now for Easy Winter Meals

Recommendation that housewives with extra garden produce will find it worthwhile to can soup mixtures for use when fresh vegetables are not easily available is made by the home economics extension department at Michigan State College.

It is often a convenience to put up soup mixtures when other canning is being done. Good soup vegetables include tomatoes, corn, lima beans, okra, carrots, turnips, celery, onions, pilonates and red and green peppers.

One of the combinations that are popular can include equal portions of lima beans, corn and tomatoes.

Processing under pressure has become the recommended practice for canned soup made in home kitchens. Studies also have been made so that the process can result in the best possible flavor in the products.

For putting up vegetable soup mixtures the home economics staff suggests the following procedure: Wash and trim the vegetables. They should be cut into small pieces or cubes to get the flavor into the soup and permit better processing.

Bring the soup to the boiling point and pack the vegetables hot with sufficient liquid to cover and prevent too dense a pack. A steam pressure cooker should be operated at 10 pounds pressure or 240 degrees Fahrenheit through the time recommended. For pint glass jars, 60 minutes of processing is necessary. Quart jars need 70 minutes; No. 2 cans require 60 minutes and No. 8 cans 65 minutes, according to the bureau of home economics of the United States Department of Agriculture.

200 Years to Build Cathedral

The Cathedral of Florence, Italy, founded in 1296, was under construction about 200 years.

Question And Answer Dept.

Ques.—How much cash does the United States take from a prize won in a foreign country?

Ans.—Nothing. Prizes, trophies, etc., awarded United States citizens by a foreign country are not subject to import duties. A reciprocal treaty to this effect exists among most nations of the world. Prizes, etc., are accompanied by port clearance papers.

Ques.—Are there any birds that can fly backward?

Ans.—Yes. The humming bird can fly backward just as well as it can fly forward. They can fly in any direction and they suckle the nectar from flowers and blossoms while on the wing. In fact they seldom light except at their nesting places.

Ques.—Does the heat get greater—that is, hotter, as we descend into the earth?

Ans.—Yes, it does, so far as man has yet been able to go, which is nearly one and one-half miles. The temperature at that depth into the earth is about 170 degrees above zero.

Ques.—Is Father Charles E. Coughlin's National Union for Social Justice a political organization that will take part in State or municipal politics?

Ans.—The National Union for Social Justice is neither political nor religious. Its members pledge themselves only to support candidates for Congress who are wholly or at least in part in sympathy with the sixteen cardinal points of their organization, no matter whether the candidates are Democrats, Republicans or adherents of any other political party.

Ques.—In a baseball game a batter hits a foul. The ball rolls close to the line toward first base. The batter started running madly to first. The umpire had called "foul". The batter accidentally kicked the ball which bounded toward the pitcher who picked it up and tossed it to first. As the ball was fielded in "fair" territory wasn't he out at first?

Ans.—No, he was not out at first, nor out at all. When the umpire called "foul" the ball is not in play until the batter returns to the batter's box and the ball returned to the pitcher.

Ques.—What is the meaning of the word "putsch"? The word is not in my dictionary.

Ans.—"Putsch" is a German word derived from the Swiss dialect. The word is pronounced "poosh" and means "a petty rebellion or a popular uprising."

Ques.—What causes the odd shape of niggertoes, which have three sides—two flat and one slightly oval?

Ans.—"Niggertoes", more properly called Brazil, get their shape from the fact that from eighteen to twenty-four of the nuts grow in a globular fruit very much like the sections of an orange grows on the inside of the orange peeling.

Ques.—Why are certain kinds of insects called "snake feeders"? Do they feed snakes?

Ans.—"Snake feeders" is a misnomer for "dragon fly." The dragon fly is perfectly harmless and is helpful to man. It catches and feeds on flies, gnats and mosquitoes while on the wing. It does not feed snakes, as many people seem to think.

Ques.—Do sharks have pilot fish to guide them when they are following a ship?

MUST REPORT WINE-MAKING

Cleveland, O.—A warning that it is illegal to make wine for home consumption without informing the federal government that such wine is to be made has been issued here by Fred W. Beltz, Supervisor of the Michigan-Alcohol Tax Unit of the United States Treasury Department.

Beltz pointed out that while it is possible for the head of a family to manufacture up to 200 gallons of wine a year for the use of himself and his family, he must notify the tax unit at least five days before beginning such manufacture.

"Under federal statutes," Beltz said, "any wine produced without sanction of the federal authorities who are charged with the enforcement of the United States internal revenue laws is illegally produced and is subject to seizure."

"All persons in the states of Ohio and Michigan interested in the production of wines, either for home consumption or for sale may obtain full instructions and the necessary forms for complying with the federal laws by addressing a letter or postcard of inquiry to the District Supervisor, Alcohol Tax Unit, Bureau of Internal Revenue, Standard Building, Cleveland, Ohio."

**Speed Plans for
Knox Visit to Alma**

Col. Frank Knox, Chicago publisher and Republican party nominee for vice president, is to return to the scene of his college-day activities in Alma to give an address Labor Day at Bahke Field that will be the feature of a big state-wide Republican rally. Incidentally the event will be a homecoming for residents of Alma and vicinity. Other central Michigan counties are cooperating heartily in plans for the assemblage.

The Young Men's Republican club of Gratiot county, which has been active in efforts to assure a visit of Col. Knox to his Alma Mater as the main drawing card for the biggest political rally to be held in central Michigan in years, was notified that the date was set for Labor Day, September 7.

Officials and prominent Republican party leaders from all parts of Michigan will contribute to the rally program.

Colonel Knox will come to Alma to visit familiar scenes. An alumnus of the class of 1898 of Alma College, he was one of the organizers of the first football team of Alma College and an athlete of outstanding ability. He is at present one of the trustees of the college. That he will be accorded a rousing welcome here is an assured fact.

Incidentally the college has given evidence of the cordial welcome it will extend to Col. Knox, by arranging a homecoming in observance of the return of the vice presidential candidate to his Alma Mater.

Miller Duncel, state senator from Three Rivers, who is representing the Republican state central committee in general arrangements, is in Alma co-operating with members of the local committee. Writers of newspapers from several of the larger cities of the state are visiting Alma to gather material for advance stories concerning the big event, indicating state-wide interest in the plans.

The plan is to stage the rally and homecoming, which is under the auspices of the Young Men's Republican club of Gratiot county, at Bahke field. Through cooperation of the Republican National committee it is expected the address of Colonel Knox will be broadcast over the country through a nation-wide radio hookup.

Committees of the Gratiot organization will be sent out to other counties in the state to contribute to the interest and will urge representation in the activities of the big day on the part of service clubs of the cities, and other civic organizations.

State Flag of Ohio

The flag of Ohio is the only pennant-shaped flag among all the state flags. The law making it the official ensign of the " Buckeye State " was adopted in 1902. The outer quarter of the field is swallow-tailed, the field itself consisting of five stripes—three red and two white—red at the bottom and top. At the staff end of the field is a triangular blue canton with the base resting on the staff and the apex reaching half way across the field. On this canton is a large circular "O" in white, inside of which is a red disk. Seventeen stars, representing all of the states at the time of Ohio's entrance into the Union, appear grouped around the circular "O." All of these stars are five-pointed.

Thrifty Miner

Remarkable procedure was followed by a Johannesburg gold miner, according to a writer in the Montreal Herald. He took a bath every night, collected the sediment and put it in a tank. After doing this for 20 years, he "panned" the sediment and found it contained about 20 ounces of gold, worth nearly \$500. It was decided to be "lost property," which was divided equally among the mines where the man had worked, a "reward" of 10 per cent being given to the ingenious and perseverant miner.

Find Grim Relics

All the skeletons are those of men of unusual physique. They were found near the site of a church that was destroyed in 1481. Tradition told the story of the beheadings when the Red Rose party conquered Stamford. The heads were all found in a single grave.

Our National Tree

The national tree of the United States is the sequoia. The only place in the world in which it grows is California, and there only in certain restricted regions. It was selected as national tree in a popular contest held in 1913 in which 3,000,000 women and children voted. Second choice in the contest was the elm and the third choice fell to the lily. The sequoia is not only the national tree, but the largest, and probably the oldest tree in the world is of this species. This is General Sherman, thought to be between four and five thousand years old. It is 273 feet high and 30 feet in diameter at the thickest point. It stands in Sequoia National park.

Kept Macaroni a Secret

Naples was the center of macaroni manufacture for so many years that the Pomigliano road leading into it was broken to bits by the continuous procession of wagons and trucks hauling in hard wheat and flour, says the European Cookbook for American Homes. The process for making macaroni was kept secret until the fourteenth century, when a Frenchman got hold of it and took it back to France with him.

Porce Rocker

The huge rock, Porco Rocker, is known like a giant battleship moored to the Gulf of St. Lawrence, and looms up fearfully from the angry waters of the coast of Cape Peninsula, with its castle Bonaventure Island in the distance. This island was once the haunt of a privateer captain and is now a bird sanctuary, where many thousands of gulls, white gannets and swallows find a refuge.

Hog Calling Contest Conditions

Perhaps the most humorous aspect of the Michigan State Fair is the hog calling contest which will be held in the grove on September 11th, at 2:30 P. M.

Fifteen farmers will be awarded to the three highest scoring contestants as follows: \$7.50 to first, \$5.00 to second, \$2.50 to third.

All Eligible

We know no East, no West. Any farmer in the wide world is eligible. No entrance required. The following percentage will prevail:

1. Volume, loudness or carrying capacity of voice—30 points. Volume is necessary to reach the ears of the hogs, especially if they are in the back eighty, and the wind is blowing from the wrong direction. It also enables the neighbors to know one is at home and "doing the chores."

2. Variety, 20 points. A varied appeal is always more effective than a monotonous, uninteresting call. Variety in calling might be correlated with a variety of feelings.

Charm Counts

3. Charm or appeal to the hog, 20 points. The hog caller's voice must have the ring of sincerity and honesty. It must carry conviction to the porkers or the calling is not a success. Truth will out.

4. Originality, 10 points. The hog should be able to distinguish its master's call from those of the neighbors.

5. Clearness, or musical quality, 10 points. Happiness aids digestion and hogs enjoy music. A clear musical call will bring them in happy and light-footed to eat with more enjoyment and more profit. Slogging school lessons thus are not wasted.

6. Appearance and facial expression of caller in action, 10 points. Facial expression and general appearance of caller are the surest ways of judging the extent of the effort.

Same for Husbands

Practically the same conditions which govern the hog calling contest will prevail in husband calling contest.

Charity Overdoes

The Jainas, a religious sect numbering in all India, about one and a quarter million, had their origin in the Fifth century B. C. The great distinction between its members and the Hindus seems to lie in regard for animals, says Katherine Mayo in "The Face of Mother India." A poor Jain with infested clothes will carefully transfer his tenants from the cloth to better purture on his bare flesh, she declares.

Years Soften Sorrow
The sure years reveal the deep remedial force that underlies all sorrowful facts. Crushing losses, which at the time seemed nothing but privation, later assume a different aspect. The breaking up of an occupation or a home allows the formation of others more friendly to the true growth of character, constrains the reception of new influences; hitherto untasted; and he or she who would have remained a sunny garden-flower with no room for its roots, and too much sunshine for its head, by the falling of the walls and the neglect of the garden, is made a banyan of the forest, yielding shade and fruit to wide neighborhoods of men.—Emerson.

"Insects are as a group the most dangerous of all small living things. They are, in fact, man's chief competitors for the supremacy of the earth," according to entomologists.

Explains Lightning

Why certain trees are more apt to be struck by lightning is explained by Dr. W. J. Humphreys in the Kansas City Star. "In general, the trees most likely to be struck are those that have either an extensive root system like the locust, or deep tap-roots like the pine, and this for the very obvious reason that they are the best grounded and therefore, on the whole, offer the least electrical resistance."
