Work Progresses On Legion Camp Building

Work on the American Legion Scout camp building at Cavanaugh Lake has been progressing rapidly during the past two weeks, according to the report given by members of the local Legion Post.

The basement has been excavated and with labor furnished entirely by the Legion men the footings for the walls have been poured of concrete. At present the basement wall is well under construction and the site is seldom without a group of workers of one detail or another.

Through the courtesy of H. E. Foster, local plumber and well driver, assisted by Floyd Rowe and Julius Eisele, two members of the Legion, a well has been put down which has been found to be one of the flowing type. The men of the Legion consider themselves exceptionally fortunate in this respect as the well is ideal for a Scout camp. The fact that there will be a continuous flow of water will eliminate the necessity of supplying ice with which to cool food for the Scouts who may occupy the camp another year.

At a meeting of the building committee of the project on Tuesday evening plans were made to attempt to get the building roofed before winter sets in. Lack of funds is the only drawback in rushing the project to completion this fall. Contributions of cash and various donations of materials continue to be made to the organization for which the Legion is exceptionally grateful. Especially do the men wish to convey their thanks to Mr. Foster for his generous assistance and also the Abbott Gasoline Co. of Ann Arbor who donated all surplus building material from the construction of the attractive new filling station on South Main street.

Partridges Released On Waterloo Project

Ninety-four Hungarian partridges from the state game farm near Mason have been released in the Waterloo project tract in Jackson and Washtenaw counties, which is being developed as a recreational area by the National Park Service. The birds were released by game men of the department of conservation.

Hungarian partridges have become established in a few of the southern counties, notably Lenawee and Monroe counties. It is hoped that by stocking areas near the edge of their present natural range the spread of the birds into more territory in southern Michigan may be accelerated.

Experimental plantings have been made at various points in the state in past years with indifferent success. Some have disappeared completely. Others have managed to survive in small numbers.

H. D. Ruhl, in charge of the game division, is of the opinion that repeated plantings in several selected areas will have more chance of establishing the birds successfully than scattering them over wide areas. The game division plans to go ahead with the propagation of the "Hunkies" at the game farm, he said, in order to carry out an intensive planting campaign the next few years. In this way, Ruhl believes, it can be determined definitely whether the birds can successfully establish themselves over a large area in Michigan.

Primary Election To Be Held Tuesday

Voters of Michigan will go to the polls next Tuesday to participate in the primary election which will name candidates to appear on the ballots at the general election in November.

Although there are some incumbents in county offices whose positions are uncontested there are others who are fighting for the nomination so that they may become candidates for re-election. Nominations for congress and senate are apparently the most hotly contested on both the Democratic and Republican tickets, as well as the gubernatorial race on the Democratic ticket where a real fight is being waged by the two candidates.

Voters of all political parties are urged to take advantage of the opportunity to make a choice of candidates at the primary election next Tuesday, as some really important questions are to be decided at the November election and now is the time to choose proper candidates for that election.

Sylvan township polls will open at 7:00 o'clock a. m. and will remain open until 8:00 o'clock p. m.

Public School News

Hello, folks. Sorry that the High-light cannot be submitted for your approval and degradation this week, but in the hurry of the first days of school, Journalism was lost in the rush. By now we have organized but too late to have a full three columns. Several news items will be listed here now.

Miss Marjorie Allen, of the English department, has been suggested as a possible supervisor of the Journalism club.

Class Election Results

Senior Class Officers:
Marian Ashfal re-elected president; George Prinzing, vice-president; Harley Prudden, secretary; Paul Fleisner, treasurer. Miss Gibson, class adviser.

Junior Class:

Ruth Riemenschneider, president; H. C. Gage, vice-president; Margaret Lehman, treasurer; Chet Kennedy, secretary. Miss Florence Nelson was selected as class adviser.

Sophomore Class:

President, Howard Haselwerdt; vice-president, Pap Palmer; treasurer, Duane Rowe; secretary, Vic Hindelang. Miss Jane Fauver was chosen class adviser.

Freshman Class:

Due to lack of organization (doesn't it always happen?) the Freshies haven't held regular election yet but will hold elections on Thursday. However, Mr. Wallis was chosen class adviser and Peggy Blecker was chosen as temporary chairman.

Football!

After five nights of practice, the Chelsea football squad has narrowed down in number. Several new helmets have been purchased and the fellows are rip-roaring to go. Practice scrimmages will be held during the first part of this week with a regular scrimmage of some length between picked squads. The exact sides will be decided this week by scrimmage. The loss of two backfield members by graduation put the C. H. S. coaches on the spot. A coach doesn't say hokus pokus and have a couple of Bill Shakespeares. Still, several linemen are leaving to try for the vacant backfield positions. Their departure might weaken the line but the backfield must be filled.

On Friday at 4:00 o'clock let's see all you football fans out there at the field to judge for yourselves the chances of Chelsea this year. After all, no one can accurately judge the destiny of the team but if grit and fight have anything to do with victory, we're going to town! No admission will be charged Friday.

ST. MARY'S SCHOOL OPENS

St. Mary's Parochial school opened Tuesday morning, September 8, with High Mass in honor of the Nativity of the Blessed Virgin Mary.

The enrollment has been increased to 80 pupils. Several pupils have already made arrangements to take in the special music class.

Members of the faculty are as follows:
First, second and third grades—Sister Bertha Marie.

Fourth, fifth and sixth grades—Sister Daniel Marie.

Seventh and eighth grades—Sister Mary Cleus.

INSTALL FILING SYSTEM

Under the supervision of James J. Munro, village clerk, all records of the village have been assembled and filed in a new filing system which has been installed by the village. This work has been done by Wilhelm Gottschling, as a NYA project, the federal government paying all expenses with the exception of materials used. The new filing system provides for immediate access to all records of the village, and will also be used for all future filing by the village clerk.

Teachers Asked To Help Control Disease

With school bells again ringing throughout the state, Dr. G. C. Simons, state health commissioner, has asked for the cooperation of teachers in the control of common communicable diseases in the Michigan schools. "The opening of schools in September with the consequent grouping of large numbers of children is always the signal for a decided increase in the prevalence of the common communicable diseases," the commissioner explained.

"An interested and informed teacher working in close cooperation with health officers and parents can do much to solve the difficult problem of communicable disease control in the school," Dr. Simons said. "Technical knowledge is not required, for that is the province of the health officer and physician. The teacher's part is to be constantly on the alert to detect anything out of the ordinary in the health of her pupils so that she may bring it promptly to the attention of the health officer or the public health nurse."

"Communicable diseases in the school are spread usually by cases before a diagnosis is made or by mild cases which do not come to the attention of the physician. The period of communicability for these diseases varies considerably, but for most of them the greatest danger to others is during the first symptoms. For this reason, an early recognition of the possibility of a child's having a communicable disease is important. The exclusion from school should not await a diagnosis, for by that time it may be too late to prevent its spread. Teachers should report all suspicious cases at once to the parents and to the local health officer."

An information pamphlet for teachers on such diseases as chickenpox, diphtheria, measles, mumps, scarlet fever, smallpox, whooping cough, and skin infections has been prepared by the Michigan Department of Health and may be secured free of charge upon request.

Record Tax Receipts Reported by Treasurer

Three hundred fifty-two tax receipts, totaling \$11,424.19, were written "over the counter" at the County Treasurer's office on the last day for which payments could be made without penalty on the ten year moratorium plan provided for 1932 and prior years' taxes.

Checks amounting to \$17,103.08 accumulated through the mail during the day, Mr. Crittenden says. Receipts for these payments, it is hoped, will be written by the end of the week.

This is the largest number of receipts "over the counter" in any one day in the history of the treasurer's office. Much credit, Mr. Crittenden says, is due the public for their promptness in making payments, thus avoiding the long wait in line during the last few days.

Payments of 1932 and prior years tax may still be made on the moratorium plan but with the added penalty of 4 per cent per month from September 1st.

CRASH KILLS MOTORISTS

In a collision of two automobiles early Sunday morning just west of Ann Arbor, the drivers of the machines, Floyd L. Hadley, 20 years old, of Ann Arbor, and Joseph Jettze, 43, of Detroit, were instantly killed. Mrs. Jettze died Sunday afternoon at University hospital, where she was taken after the accident. Ruth Jettze, 12, who was asleep in the rear seat of the Jettze car, escaped without injury. Both cars were wrecked.

Hadley was the son of Mr. and Mrs. Lee Hadley of Ann Arbor, and for several months had been employed as a mechanic at the Huron Motor Sales. He was born in Unadilla December 27, 1915. Mrs. George Bauer of Lyndon is a sister of Mr. Hadley.

Funeral services were held Tuesday afternoon at the Staffan funeral home, Ann Arbor, with burial in Arborecrest cemetery.

RATES AGAIN REDUCED**

Walter S. Gifford, president of the American Telephone & Telegraph Company, has made the following statement concerning the September long distance telephone rate reductions:

"The reduction in long distance rates which, on the basis of present business is expected to save the public \$7,350,000 annually, is another step in a definite program for better and cheaper long distance telephone service which we have been working on for years. Only some ten years

ago it was necessary to hang up the telephone after placing a call and have the operator call you back later after a delay of five or ten minutes or more, and the cost of a day station-to-station call from New York City to San Francisco, for instance, was \$16.50. Today, nearly all long distance calls are put through without the person calling hanging up the telephone, and the cost of a telephone call on a week day from New York City to San Francisco is now \$7.50, less than half what it was, and is only \$4.50 on Sundays and after 7 p. m. In fact, it now costs only \$5 on Sundays and after 7 p. m. to make the long distance call possible within the United States, from East Port, Maine, to Bay, California—2,947 airline miles. Along with these improvements and economies, there has been marked improvement in the quality and transmission, the conversation being clearer and freer from noises and interruptions.

"Many things have contributed to the success of this program of better and cheaper long distance service—research and development applied to physical equipment; improved operating technique; earnings that permitted construction of adequate facilities, and above all, the incentive for accomplishment which is the ideal of the thousands of telephone men and women who have each contributed their part to this progress. Obviously, the goal is not yet reached, and we shall continue with every expectation that long distance rates may in time be further reduced, and that whatever shortcomings there may be in the service today will be eliminated so far as humanly possible."

24 YEARS AGO

Thursday, September 12, 1912

The Bell Telephone Co. presented the Chelsea public schools with a new flag pole to replace the old one on the roof of the building which has rotted. The new pole will be set in the school yard.

F. C. Klingler's slaughter house on McKinley street burned to the ground on Tuesday evening. The loss is \$1,500 with about \$500 insurance.

R. B. Waltrous captured a badger on his farm last Friday morning.

Wm. Doll has purchased the cottage office building on the Wm. Bacon-Holmes Co. and is having it moved to his North street property and will convert it into a dwelling.

George Washington, who has been in the plumbing business here for the last two years, has moved to Buffalo, N. Y.

A barn belonging to John Katz of Sharon was destroyed by fire on Monday afternoon.

The total enrollment of the public school is 410. The largest attendance is in the kindergarten primary department, where the enrollment is 154.

There are 62 non-residents attending the high school and 12 in the grades.

34 YEARS AGO

Thursday, September 11, 1902

George W. Turnbull died on Saturday, September 6, 1902.

Olive Chapter, O. E. S., elected the following officers at the annual meeting last evening: W. M., Mrs. R. B. Waltrous; W. P., C. W. Maroney; A. M., Mrs. S. G. Bush; secretary, Mrs. C. W. Maroney; treasurer, Mrs. G. H. Mitchell; conductress, Mrs. W. Campbell; associate conductress, Miss Idaline Webb.

The kiln at the apple evaporator, run by Geo. Rentschler at Waterloo, burned on Wednesday morning, and on Sunday evening August Koels's barn burned.

The peach crop in the vicinity of North Lake is a heavy one and the fruit of an exceptionally fine quality. There are 428 children of school age in this district, No. 3 fr. Sylvan and Lima. Of these 208 are boys and 220 are girls.

A story of peculiar natural phenomenon comes from Unadilla. Since the heavy rains of last spring and summer a piece of marshy ground several rods square has broken loose from the west shore of Bass Lake and drifted across the east side. Gene A. Hartstuf, who owns the east side, says it has every appearance of becoming part of his real estate unless the party who claims to own it proves the property and tows it back across the lake.

Exhibit Stradivari's Belongings
After Antonio Stradivari's death, one of his sons sold all of his effects for a trifling sum to the Marchese Costo di Salubem, a nobleman living in the little Piedmontese town and a great admirer of the violin maker. Years later, Luigi Fiorini, also an Italian violin maker, who had gained great fame and made a fortune in Germany, bought many of the possessions from an heir of the Marchese. Wishing to pay homage to the city that had given Stradivari to the world, he donated the entire collection to Cremona, and today it forms the basis of the permanent collection.**Panama Clouds Tricky**
Panama clouds may be tricky. The rainfall of 140 inches a year on the Caribbean side of the Republic is more than double that on the Pacific side, a feature of trade wind phenomena.**Swimming English Channel**
The English channel is only about twenty-one miles wide at its narrowest point, but the cold water, strong tides and general roughness make swimming difficult.**Question And Answer Dept.****Ques.**—To settle a dispute will you kindly answer this question: In a baseball game the batter hits a sharp grounder right at the pitcher. The ball hit the pitcher in the chest and caromed off and hit the batter who was running to first base, and the batter reached first safely. Is the batter out, or how is the play scored?
Ans.—Ordinarily any batter is out when hit by a batted ball, but in this case it is different. It ceases to be a "batted ball" the instant a fielder has had a chance to field it without interference from the batter. Therefore he is not out. The batter is given a "hit," or the fielder is charged with an error, as the case may appear to the score keeper.**Ques.**—Can the President of the United States declare war?
Ans.—The President cannot declare war directly. He may recommend it to Congress, which body usually makes the declaration on such a recommendation. The power to declare war lies solely with Congress.**Ques.**—What college is the largest in the world in point of enrollment?
Ans.—Columbia College in New York has held this distinction for many years. Each year it is a few hundred ahead of its nearest competitor. In 1935 Columbia had 81,433 students, while New York University, the nearest competitor, had 29,104 students.**Ques.**—Is there such a country as Transjordan? If so, where is it located?
Ans.—Yes. Transjordan is in western Asia, bounded by Palestine, Egypt, Arabia, Iraq and Syria. It is a mandate state under the mandate of the British Empire.**Ques.**—In the various sound effects over the radio how do they produce the sound of eggs frying?
Ans.—The sound of eggs frying over the radio is made by crackling cellophane in the hands.**Ques.**—I read in a magazine that man lives a good deal longer now than he did a hundred years ago. Is that a fact? If it is, how come?
Ans.—Probably. Maybe he has to live longer in order to get his taxes paid.**Ques.**—Is there any fast way to shell peas without a machine?
Ans.—Yes. Place the peas (pods and all) in boiling water. When the peas are cooked, the pods will rise to the top while the peas will remain at the bottom.**Ques.**—Can you tell me what the difference is between a cur and a mongrel?
Ans.—A cur is an inferior breed of dog. Mongrel is used in a broader sense, being applicable to other animals, plants and various things of mixed origin, character or kind.**Ques.**—I wish to ask you what the value of the British crown is as compared with United States money?
Ans.—The British crown is a silver coin which is the equivalent of the United States silver dollar. It is a five-shilling piece, but is called a crown.**Ques.**—Is it true that monkeys swing across streams from trees by clinging to the tails of each other to form a swing?
Ans.—No. Sometimes we read about such stunts in fiction, but it is a myth, born of the imagination.**Ques.**—What is the correct pronunciation of "rodeo"?
Ans.—"Rodeo" is a Spanish word, and the proper Spanish pronunciation is ro-da-o, with accent on the second syllable and the "a" sounded long, as in "ate".**Ques.**—Can you tell me whether Lily Pons is a Jewess? Also how high can she sing?
Ans.—Lily Pons is a French girl, born in Cannes, France. She can sing high F—one octave above the staff—which has never been equalled, so far as available records show.**Ques.**—When was it discovered that sap taken from maple trees could be made into maple sirup?
Ans.—This is not known. When this hemisphere was discovered, the white men found the Indians making this sirup from the maple tree sap.**Shakespeare Garden**
References to the following flowers and shrubs are made in Shakespeare's plays: Primrose, cowslip, oxlip, daffodil, daisies, violet, lady-smock, cuckoo-bud, anemone, harebell, columbine, broom, rose, lily, crown-imperial, fern, carnation, marigold, larkspur, pansy, poppy, crow-flowers, long-purple, crocus, pomegranate, myrtle, rosemary, lavender, mints, marjoram and thyme.**Waffle Irons of Many Types**
Waffle irons of Colonial days took various forms. In the "Colonial Kitchen" in the Baltimore Museum of Art, a composite representation of the kitchens of New England and the South, there are at least five different kinds of these early waffle irons.**METHODIST HOME**

(Last week's items)

Last Friday the Misses McCowan had as callers, Mr. and Mrs. Will Ingersoll of Chicago and Mrs. C. A. Slayton of Tecumseh. On Sunday their guests were Mr. and Mrs. Floyd Elliott and their son George, from Tecumseh.

Mrs. Turnbull greatly enjoyed a call on Monday from her friend, Mrs. Fee of Farmington.

Mrs. MacGregor is away at her brother's home, near Romeo.

Miss Alice Hunt of River Forest, Illinois is visiting her father and being eyes for him.

On Friday morning Dr. and Mrs. M. A. Prudden and their son Jack from Fostoria, Ohio called on Mrs. Monroe; and Mrs. Nettie Schaefer of Chelsea spent the afternoon with her.

Mrs. Gowling also had callers on Friday, Harry Kerkup and Miss Gertrude Fuller, both of Hudson.

On Wednesday afternoon Miss Martha Leeman of Sharon visited her sister, Miss Emma Leeman.

On Sunday, Mrs. Danson was doubly blessed. In the morning her grandson, Harold Danson, with his wife and daughter Marilyn, came from Fostoria bringing a delicious dinner all ready to serve. In the afternoon she was made happy by a call from Mr. and Mrs. Frank Harlow of Pontiac who also came laden with good things to eat.

Mrs. Boyle has returned from a four weeks' visit in Detroit.

Miss Smith is at home again after a week's absence, and now the trays will have flowers once more. Miss Smith visited in Ypsilanti and the surrounding country and attended the Woolen Mill reunion at Prospect Park.

Mrs. Elliott has returned after being away for four weeks. The time was spent with relatives in Whitaker, Milan, Dundee, Erie and Ann Arbor. While in Ann Arbor she attended a church wedding and found the touch of society life quite interesting.

Mrs. Draper is at home again after visiting friends in Detroit, Oxford and Lapeer. It is remarkable how happy our people look when they come back from their trips—they come like birds to their nests.

The Spits Dog

The Spits dog, named for the Arctic islands of Spitzbergen, is a descendant of the part-wolf ancestors of chows and samoyeds. Like them it pulled sleds in the frozen north. The breed later became popular in Europe. Various shepherd breeds, and the schipperke and the pomeranian, were developed from it.

The enclosed verse from the soul of a man who was strong and influential in his day, J. G. HOLLAND, has been precious to me since I first saw it many years ago, and I know that it will find a response in your soul, for I believe that you are one of the men whom he longed for. May Our Heavenly Father continue to guide and uphold and strengthen you in the prayer of an Old Friend.

God give us men! A time like this demands
Strong minds, great hearts, true faith and ready hands;
Men whom the lust of office does not kill;
Men whom the spoils of office cannot buy;
Men who possess opinions and a will;
Men who can stand before a demagogue
And damn his treacherous flatteries without winking;
Tall men, sun crowned, who live above the fog
In public duty and in private thinking.

MASON—A net profit of approximately \$1800 was confidently estimated by Jess N. Baker, treasurer of the Ingham county fair association, Thursday morning. A few bills are yet outstanding. The largest single source of revenue was from admissions at the gates, this item alone totaling \$2,868.66, or nearly one-half of all receipts.—County News.

BROOKLYN—H. P. Vischer, who came from Toledo six years ago to purchase and develop the old Boyd Parker place on the shores of Lime Lake on Prospect Hill, has done more than improve it as a summer home for the Vischer family. He has lately taken up the raising of turkeys as a profitable hobby and is fattening them by a new deal and in a big way. He is raising no less than 1700 of the birds "on wire", the new method. The tops, sides and floors of the pens are all of wire, the floor being of finer mesh than the sides. Semi-circular feeding troughs are equally available to the birds. They do not have to roam and hunt and scratch. All they have to do is to "come and get it" and they seem to do very well indeed in growth and appearance. The turkeys get daily inspection as well as regular feed. They are in a place that is safe, sanitary and continually clean.—Exponent.

DUNDEE—While the eastern half of the county suffered considerable damage from Friday night's severe wind and electrical storm, the fury of the blast seemed to have been concentrated in the state park area. Several hundred trees, large and small, were splintered off or overturned by the wind, and limbs were blown down. The beach recently cleaned by WPA workers, was littered with debris from the storm. Several large poplars were broken off and many small trees overturned.—Reporter.

TECUMSEH—Jack Larsen, who accompanied a group of 47 Jackson Boy Scouts on a trip to New Mexico, arrived home Sunday. The group witnessed a ceremony dance in full regalia by the Indians of the Taos pueblo, the largest inhabited Indian pueblo in the United States; visited the home of Kit Carson; explored a petrified forest; attended a Navajo "Sing" and saw a dance, a three day ceremony which ended with horse races and Indian games, visited prehistoric Indian ruins; made a trip to Mesa Verde, the National park cliff dwellings; also visited several canyons and did some mountain climbing.—Herald.

HOWELL—Wheat growing on the farm of W. F. Alexander, Rush township farmer, was served on the table ten hours later. Alexander cut and threshed the grain with a combine during the morning and ground some into flour during the afternoon. Mrs. Alexander made muffins with the flour for the evening meal.—Republican-Press.

HOLLY—One of the rawest pieces of thieving in a season when many raw ones are reported took place one night last week at the home of the Misses Irwin on North St. About a week before they lost a quantity of green corn, the thief taking it away in a wheelbarrow, so preparations were made for his second visit by stretching chicken wire across the place he must enter, and running a fish line a number of times across the path. He returned as expected last week with the wheelbarrow, removed the chicken wire and fish line, stole another load of corn—and put the wire and line back exactly as he found them.—Herald.

I WONDER WHAT JESUS WILL SAY

When I enter the portals of Heaven
With hope, fruition fulfilled.
When those gone before come to greet me,
When with unfettered glory I'm filled,
When one who outshines all the others
In love's crystal light leads the way
And I stand before Christ the Redeemer,
I wonder what Jesus will say.
Will He reach out both hands to receive me,
Will there be a bright smile on His face?
Will the word "Inasmuch" thrill my spirit
With the rapture that fills all the place?
Will He say your mansion is ready,
I've prepared it especially for you,
Enter in, enter in to my glory,
Because my dear child you've been true.
He has promised all this my dear brother,
All this, my dear sister, and more,
He is pulling today at your heart strings,
Today He knocks at your door.
He brings you the blessed assurance
If your heart is with him in accord,
You'll some day receive the glad summons,
Enter into the joy of your Lord.
—Arthur Carlton.

Dame Durden

Dame Durden was the notable housewife of a famous old English song. She kept, so the ballad says, five serving girls to carry the milking pails, and five serving men to use the spade and flail. The careful and conscientious Esther Summerston in Dickens' "Black House" is nicknamed "Dame Durden."

Orange Traced to India

California and Florida may be rivals for first honors in the production of oranges, but it was in India that the orange originated and it is to the Chinese we owe the development of the sweet edible orange.

"The Universal Car"

ONE NAME comes quickly to mind when you think of "The Universal Car." The description is distinctively Ford. No other car is used by so many millions of men and women in every part of the world. Everywhere it is the symbol of faithful service.

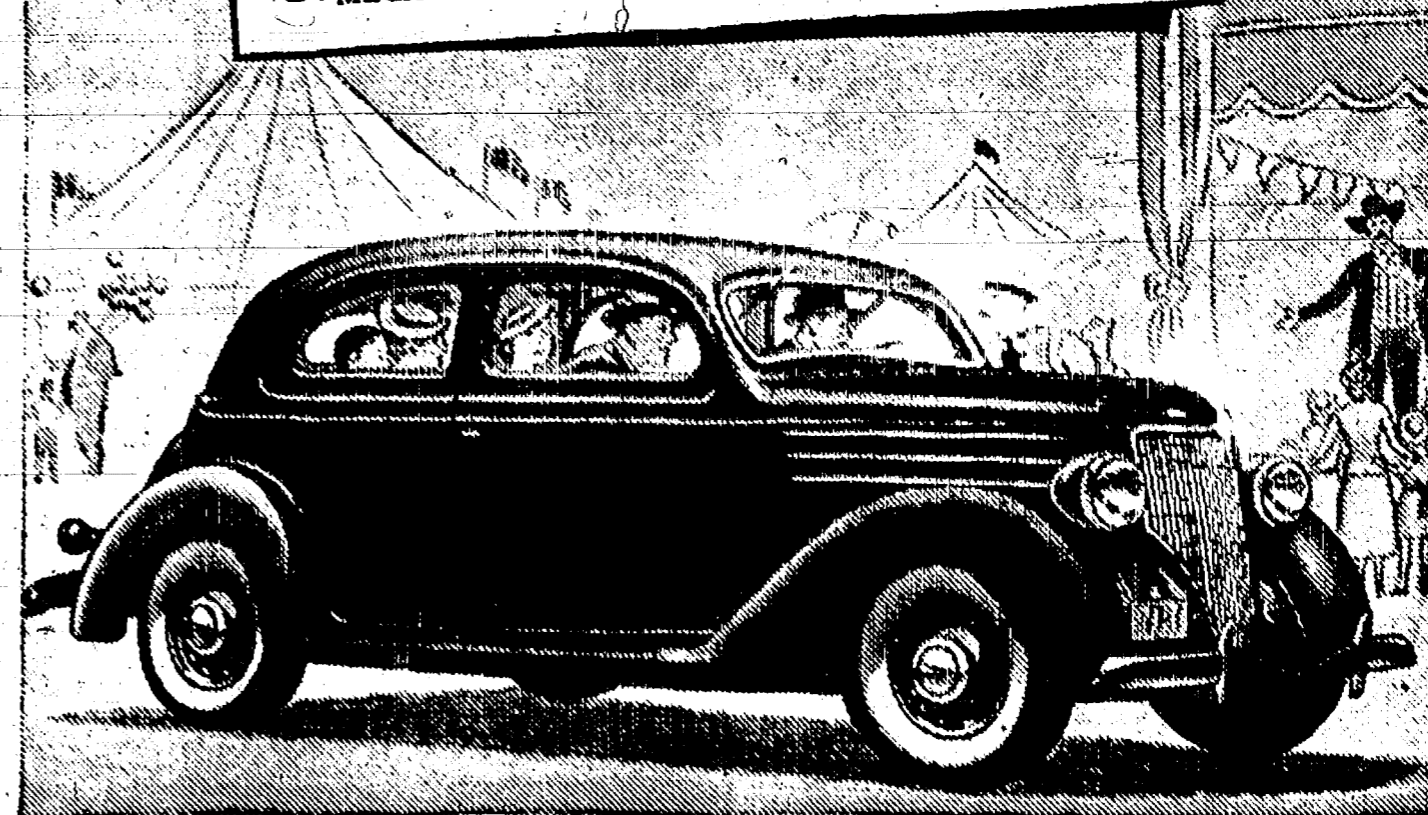

That has always been a Ford fundamental. Something new is constantly being added in the way of extra value. Each year the Ford has widened its appeal by increasing its usefulness to motorists.

Today's Ford V-8 is more than ever "The Universal Car" because it encircles the needs of more people than any other Ford ever built. It reaches out and up into new fields because it has everything you need in a modern automobile.

The Ford V-8 combines fine-car performance, comfort, safety and beauty with low first cost and low cost of operation and up-keep. It depreciates slowly because it is made to last. There is no other car like it.

Only the Ford V-8 Gives You These Fine-car Features
