Conservation Officers Will Protect Game

Lansing, Mich.—Special details of conservation officers attached to district headquarters posts in the north are to be brought into southern Michigan to give added protection to game during the upland hunting season which opens in the lower peninsula on Thursday, October 15.

Conservation authorities here estimated that approximately 250,000 hunters will take the field on opening day and that this vast number of sportsmen will create serious shooting hazards. The department issued a request to all hunters to be particularly careful in the use of firearms.

Three of the most common violations on opening day, says H. R. Sayre, chief of law enforcement, involve the shooting of protected pheasants, exceeding the bag limit on pheasants, and dressing out game in the field.

The last-named violation, if the game happens to be pheasants, removes the sex identity and subjects the hunter to arrest by conservation officers. Sayre advises hunters to wait until they get home to pluck the feathers from their pheasants.

"We have made special efforts during the past two years to suppress the shooting of hen pheasants," Sayre stated. "We will do so again this season. The hen pheasant is protected at all times by law."

Beginning on Thursday, October 15 the open seasons on small game in the lower peninsula, dates inclusive, are as follows:

Male pheasants—Oct. 15 to Oct. 28.
Ruffed grouse—Oct. 15 to Oct. 28.
Fox squirrels—Oct. 15 to Oct. 24.
Woodcock—Oct. 15 to Oct. 28.

Prairie chickens north of north line of township 16 only—Oct. 15 to Oct. 28.

Sharp-tailed grouse north of north line of township 16 only—Oct. 15 to Oct. 28.

Rabbits from Oct. 15 to Jan. 1 in the area south of north line of township 16 and east of Saginaw bay, including the "Thumb"; and from Oct. 15 to Jan. 31 in the area north of north line of Township 16 and west of Saginaw Bay.

Townline 16 is described as the south boundaries of Mason, Lake, Oscoda, Clare, Gladwin counties projected through Bay county to Saginaw bay.

The open hunting season on ducks, geese and brant, coot, jacksnipe rails and gallinules which opens on Oct. 10 continues to and including Nov. 8 throughout the state.

The Amendments

There will be submitted to the electors, at the General Election to be held on Tuesday, November 8, 1936, four proposed amendments to the Constitution of this State. In order that readers of The Standard may become acquainted with the proposals one amendment will be published each week.

(Proposal No. 1)

Amendment to permit firearms and other dangerous weapons seized outside dwellings, outbuildings and lands closely adjacent thereto, to be introduced as evidence in any criminal proceeding.

Amending Section 10 of Article II of the State Constitution:

Sec. 10. The person, houses, papers and possessions of every person shall be secure from unreasonable searches and seizures. No warrant to search any place or to seize any person or things shall issue without describing them, nor without probable cause, supported by oath or affirmation: Provided, however, That the provisions of this section shall not be construed to bar from evidence in any court of criminal jurisdiction, or in any criminal proceeding held before any magistrate or justice of the peace, any firearm, rifle, pistol, revolver, automatic pistol, machine gun, bomb, bomb shell, explosive, blackjack, slungshot, billy, metallic knuckles, gas-ejecting device, or any other dangerous weapon or thing, seized by any peace officer outside the curtilage of any dwelling house in this state.

The section of the constitution which would be altered or abrogated in the event of this proposed amendment now stands as follows:

Sec. 10. The person, houses, papers and possessions of every person shall be secure from unreasonable searches and seizures. No warrant to search any place or to seize any person or things shall issue without describing them, or without probable cause, supported by oath or affirmation.

This amendment, if adopted, will permit the introduction as evidence in any criminal proceeding of firearms and any other dangerous weapons seized by peace officers outside the limits of land occupied by a dwelling.

It is stated that owing to the wet weather considerable of the corn in the shock is beginning to mold. With the beans the farmers have had bad luck from start to finish. At the first of the season it was a difficult matter to get them in owing to so much rain, but later they promised a good crop. This is all spoiled now, owing to the long continued rain and the price of beans is soaring higher each day. The farmer who has his last year's crop of beans on hand is considered a lucky man.

SAVAGE SCHOOL NEWS
Our school started September 8th. We have eight students this year. Raymond Radcliff is a new member of our Fifth grade class, having moved into the district from Chelsea.
The school has completed a Citizenship Airplane Race poster. This poster has six airplanes of varying sizes—each one having the name of a characteristic which good citizens possess.
We have a reading chart on which we keep a record of books read. Other charts which we have in our room are a "good work" chart and an inspection graph.
Aita Young and Frederick Weber are our Beginners. They know over fifty flash cards and are reading from their primers.
The Fifth graders are making a Geography booklet. New York is the first state which they have studied about.
Extra activities consist of a leaf collection which is being made. Each child reads descriptions of the leaf and the type of tree it grows on. A few minutes each morning is spent on songs or favorite stories.
We appreciate the many improvements being made in our school this year—mainly the painting of the

school, a new porch, new school-ground equipment and improvement being made with the well.
Visitors during September were Mrs. Robinson, Marion Gale and Betty Pooler.
September 28th we had popcorn and candy in celebration of Richard Butcher's birthday which occurred on September 27th.

Chelsea Wins

The Chelsea eleven marched to victory over Saline by the score of 6-0 (Grove scoring) at Holmes field on Friday. Although Saline threatened to score several times during the game, the drive they possessed was not ample to crash through the Chelsea defense. Almost all of Saline's plays were played off a reverse on the right side of the line. Saline, however, outplayed the Chelsea boosters by averaging 35 yards to Chelsea's average of 22 yards. Prudden, L.H. and Bycraft, L.E. were forced to leave the game because of injuries. However, these injuries are not serious. The Saline squad had only one substitution during the entire game and he only remained in the game for several minutes. Grove made the lone touchdown.

Tomorrow is the toughest game of the season, if what we have heard is correct. Our team plays at Dundee. Then, if ever, a rooting, yelling bunch of enthusiastic supporters were needed, the time has arrived. Let's all turn out and support the team!

Foreign Correspondence

This past week a chance to secure addresses of boys and girls in foreign countries was given to all the students of Chelsea high school who were interested in foreign correspondence. More than twenty-five students have made use of this chance to widen their circle of friends and increase their information about Europe, Africa, Asia, South America, or Australia. All these people will write to us in English, and we hope to receive many interesting letters from these new friends of ours.

Editorial

Just how much do you high school students know about "the world of politics?" There might be a dozen people in the school who know what's what in that particular field. I don't believe there are more.

Why not try reading the front page of the daily newspaper as thoroughly as the back page? Another way of getting information is to listen to the radio. With so many political speakers on the air, there is no excuse for not knowing something about the political parties and the candidates. It won't hurt to miss a few of the comedians and listen to a political talk instead.

After all, you are the future business man and woman. The candidate who is elected in November will have a lot to do with your future position.

In a few years it will be your duty to vote. There will be no better opportunity for learning the ways of a political party than is offered right now.

If you are planning a political career, prepare now. Study the several leaders. Look up their records. Who knows? A future president may be among you now.

Senior Bake Sale

Instead of doing your usual Saturday baking why not save yourself of the hard work and purchase home-made bread, cakes, pies, doughnuts, and other baked goods the Seniors will be selling in the Chelsea Hardware store this Sat., Oct. 10? But remember, if you wish to have a large choice, you better arrive when it begins, at 2:00 o'clock, or at least not much later!

Cheering a Big Factor

When some of the football players were asked the question, "When a large crowd is present at a football game does it affect your playing," the answers were quite similar so it is not necessary to print all of them. Here are a few—Chas. Bycraft says: When the students are cheering it makes a big difference—one feels the support and consequently can play a better game. There should be more cheering during every time out and between the quarters. Fritz Belsler: It is not the number present that makes a player play a better game, it's the cheering—the noise they make. Chas. Bahmiller: When they cheer it does make a fellow play better and fight harder.

Dave Strieter—It makes some difference if the fans don't criticize the players.

Rolly Spaulding: It helps a lot when fans cheer when a play is close to the line—you can't disappoint them by not making a touchdown.

"Onie" Niehaus: I don't even hear the cheering.

Capt. George Prinzling: If they would cheer more I believe we could play better. Judging from what these players say, we need cheering to help the team. So, when you go to a game don't just watch it, help the players to win by rooting for them.

Plan Mock Election

The Senior Government class has decided to conduct on November 4th a mock presidential election. In order to make the election more realistic campaign speeches are to be given. The person to represent the three main candidates, Roosevelt, Landon and Lemke, were decided by ballot in Government class.

Paul Pilemeier, who will support Roosevelt, will speak October 15 and will be followed in succession by Eileen Adam, representative of Landon, on October 22nd, and a final speech will be given October 29th by Harrie-Bleeker, Jr., campaigner for Lemke.

The candidates choose their own campaign managers: Marion Ashraf, as Democratic, Ruth Ann Umstead as Republican, and George Prinzling, as Farm-Labor. Sample ballots have been ordered by Mr. Bleeker, so that students

through the ninth to twelfth grades may vote.

Registration will take place next week and the students will go to the polls on November 4th.

The entire campaign is being held under the able direction of Miss Jane Fayver.

Rules for Faculty

Instructor must come into room unostentatiously, tip-toeing to avoid disturbing any students engrossed in their immediate occupations. He must nod a cheery "Good morning!" whether it is or not.

He shall never rap for attention nor raise his voice to more than a modulated tone.

He shall be granted unlimited absences from class and shall make extensive use of them.

Should he have occasion to ask a question of a drowsy pupil, he shall whisper in the sleeper's ear, being careful not to cause an irritating disturbance.

He shall take no notice of absence from class.

He shall require not even a mild nudge at a choice selection from his inexhaustible supply of "cheatnuts."

He shall lay especial emphasis on hints to answer to exams.

No class period shall require more than fifteen minutes of studious labor.

He shall flunk no athlete, nay, not even a student.

He shall take no heed of whispered conversations between members of his classes.

Elementary News

Kindergarten

Joyce Crawford has moved away. We are going to miss Joyce.

Mrs. Merrill came and took our pictures last week. She took one of all the boys and girls and one of Miss Boomgaard alone. Jane Merrill has been bringing us lovely fall leaves.

We have learned to know the oak tree, maple tree, poplar tree and the catalpa tree. She also brought us a catalpa bean.

First Grade

Allen Ray brought his banty rooster to school and his name is Jerry.

We are going to draw a picture of it and are going to write a story about it. We put ink on his feet and took his footprints. A kitten, that we named "Tiger," visited our room all week. We watched him take a bath. Some of us brought some milk for him.

Warren Aldrich's brother brought a carrier pigeon to school.

Our furniture is newly upholstered and looks very modernistic. Miss Bollore received a box of cacti. We finished the book about the weather. We found that there was dry, wet, and warm weather. Our book showed us pictures of rain, sunshine, wind and clouds. It was a very interesting book. Janice brought some caterpillars in a box with some leaves. We watch them eat and grow.

Second Grade

This week we have started our Elson Book Two. We like it so much. The first story is about a dog, Dandy. He could answer the telephone. He was clever. We have new Work Books too and they are just fine.

On Tuesday, Eunice Lehman came to us from the Riemenschneider school in Sylvania. We number 25 now. Frances Hale brought a pigeon to school. It seems very tame. Perhaps it has been someone's pet.

Douglas Hoppe has been sick and out of school. We are glad to have him back.

Wednesday, Dale Thomas registered in Second Grade. He came from Benton Harbor. Now we are 26. October is bringing us most beautiful leaves. Bobby Daniels found some especially lovely ones that Jack Frost had painted.

Thelma's mother, Mrs. Hill, called on us Thursday afternoon. We are always glad to show our mothers what we are doing.

Third Grade

The third grade visited the library down town on Wednesday. We took home many interesting books. Thursday we told about what we had read. We like our books very much. We plan to visit the library often.

We decided that we would do our best to make October enjoyable. Our room was divided into three committees: a story committee, a poem committee, and a decoration committee. These people will bring us good stories for October: Doris Nagy, Barbara Eaton, Anne Lambertson, Robert Faber, Jean Eisenbeler, Shirley Platt, Myra Townsend, Charles Slane, Leroy May and Thora Hill. Our poem committee is made up of the following children: Bobby Robbins, Eldore Carlson, Clara Miller, Arthur Paul, Edwin Lantis, Shirley Schenk, Phyllis Buger and Audrey White. Our decoration committee will put up pretty pictures and string waxed leaves to hang in the room. Fred Stafford, Robert Breitenwischer, Edward Koch, Betty Whipple, Marion Dietle, Laverne Holbrook, Jane Downer, Jack Chriwell, George Slane and John Wals will be the main helpers for making our room look well.

Fourth Grade

We have had many bouquets of flowers. Ileen Loeffler brought some pretty gladioli yesterday.

Jimmy Gaken brought a toad to school last week. We kept it for a few days and learned some interesting things about it.

We were very pleased to find some plants in our room Monday morning. We thank Mr. Gontner for bringing

them. We'll try to take good care of them.

Flo-Ann Longworth had the highest score in spelling for the last month.

The following pupils still have 100 per cent on the Conduct Chart: Roselee Burger, Eva Geddes, Marjorie Gilson, Ileen Loeffler and Naida Olson.

We have made a cover for our Story Book in which we are going to list all the books we have read.

For health inspection this week we have been checking on brushing our teeth and neatness of our hair. Marjorie Umstead checked for the first two weeks and Marjorie Gilson checked this week.

Jimmy Gaken and Robert Noves were chairman for the Amateur Hour this week.

Fifth Grade

William Langowski will have charge of building our window boxes this year. Dorothy Knickerbocker built one window box and here the plants are growing nicely.

Eleanor Harper received a letter from Doris Ann Richards who was a class member and who now lives in Seattle, Washington. During Language period Thursday everyone wrote her a letter.

Joseph Hale and Eugene Aldrich brought their pet pigeons to school Wednesday. We named Joseph's "Joe" and Eugene's name was Jerry.

In Art we have been studying the oak, the maple, the beech trees with especial attention to their leaf colorings.

In Geography we have been studying the Middle Atlantic States which includes Harrisburg, Pennsylvania, and Robert Eaton told us an interesting story about three of his ancestors who came over with William Penn, settled at what is now Harrisburg, named the town, then when the Revolutionary war broke out, believing they should be loyal to their King, they left Pennsylvania and moved to Nova Scotia where they made their permanent home.

We have had everybody here every day this week and no one tardy. Here is hoping we shall have many more such records.

Everyone takes part in the Amateur Hour on Friday. The program is in charge of Robert Eaton and Philip Vogel and we have found we have some real talent. Carlton Christwell we find is a real whistler, while Walter Oesterle and Felix Holbrook are more than ordinary imitators, while we have some fine soloists too. Clifford Myers can clog too, while many others can do fine rhythm work.

Sixth Grade

Mr. Bleeker let the Sixth Grade boys have a new ball. The old one was quite worn out.

We have a new girl in our room. Her name is Evelyn Lehman. She has been doing very good work so far.

We have started our history books. They are very interesting. Some have different pictures in the frontispiece of the book. The pictures are of Pounding Out Iron, Columbus Landing in Cuba, Napoleon and his Tall Soldiers, and Two of the First Steamboats.

Charles Mohrlock gave the Sixth Grade many slips of foliage plants. They are very pretty slips. We hope they will grow into nice plants.

We have some new reading work books. We like them very much.

We have been learning the difference between a dictionary and an encyclopedia.

We noticed that one of our larva that was quite hidden had turned into a chrysalid.

The fourth grade brought us in some birds to look at.

Margaret Knapp waxed some pretty leaves and put them on the bulletin board among the picture of birds.

Friday mornings we have to come to school at 8:00, and we get out at 2:30 in the afternoon, so if any one wants to go to the football game they may. We are the only elementary grade allowed to do this because we are in the high school building.

We dug up the crysaled from the tomato worms Friday, before we went home. Miss Canfield asked the other grades to come in and see them. They did. One of the larva hasn't fully turned into a chrysalid yet. It was still green and had not turned brown yet. We put the crysaled back in the dirt again to protect it from the cold weather.

The 4th grade and 5th grade had an amateur hour. They invited the 6th grade to it. We liked it very much.

Miss Canfield gave us the privilege to take home library books over week-ends and nights to read.

Miss Boomgaard asked Donna Mae to wax some leaves for her room.

The 4th, 5th and 6th grades have been singing together. We enjoy it very much.

Seventh Grade

We are all glad when Mr. Bleeker comes in and tells us school begins at 8:00 o'clock on Friday mornings.

We have a new conduct chart and the ones that have gold stars have 100 per cent.

We elected new officers for our room. They are as follows: President, Charles Lane; vice-pres., Jeanne Meservia, and secretary, Marian Eisen.

We are very sorry that June Crawford is going to move to the country and go to school there.

Our history was due Monday and we all worked hard to receive a passing mark.

Edwin Gaunt brought a historical map of Michigan.

MASON—There is very little dust in Ingham county. Records kept by Clare Raymond at the city disposal plant show that 6.49 inches of rain fell during September. That's a lot of water. Normal rainfall for September is 2.91 inches. This past month the rainfall was more than double the normal. It was the rainiest September since 1896 when 6.73 inches of rain came. The past month was the second wettest September in Ingham county since records were first kept. That was in 1863. Back in 1888 there were some real rains, though. In June of 1888 the rainfall amounted to 11.35 inches. In July of the same year another 11.27 inches came.—County News.

Washington, a Dog Lover

George Washington pioneered the breeding of the American foxhound. Washington, who was an ardent fox hunter, imported from the kennels of the Marquis de Lafayette, in France, a number of French hounds. He crossed these with his own English hounds and established the first strain of the American foxhound. The French dogs crossed the Atlantic in 1783, in the care of John Quincy Adams, who later became President of the United States. Like his predecessors and successors, Adams, too, was a dog enthusiast.

ATTENDS HUDSON PREVIEW
A. R. Jones, dealer of Hudson and Terraplane automobiles in this vicinity, has just returned from a visit to the factory at Detroit, where he attended a series of sales meetings and viewed the 1937 models which are soon to make their appearance.

"I went to Detroit expecting a real treat and I was not disappointed," states Mr. Jones. "It will not be long before I am in a position to disclose these completely new cars to the people of this vicinity. The 1937 Hudsons and Terraplanes will score an even greater success than did the models of 1936—and the latter set a seven year record for sales for our company."

"All of the details that the public is demanding in cars are to be found in them. They are larger, lower, wider, more powerful, better performing and yet, in spite of this, more economical. How this has been accomplished, I know will be of intense interest to those who follow automobiles, when we are at liberty to disclose the details. From an appearance standpoint Hudson has scored another big hit for the coming year. Also, there are many items of convenience and luxury to be found in these cars which ordinarily would not be expected at any where near the price."
