Democratic Rally In Ann Arbor on Friday

Frank Murphy, Governor-General of the Philippines and candidate for governor of Michigan will address a Democratic rally at the Whitney Theatre, Ann Arbor, on Friday evening of this week, at 8:00 o'clock.

Preceding the address by Mr. Murphy, a torchlight parade will be held. Several hundred young Democrats will participate in the parade, and it is expected the Ann Arbor American Legion Drum and Bugle Corps will be a special feature. All Democratic candidates for office will be represented in the procession.

The tentative line of march for the parade will be from State street west on Liberty to Main, and north on Main street to the Whitney, arriving there at 8:00 o'clock.

The Democratic county committee extends an invitation to everyone to attend this big rally on Friday.

The Amendments

Following is the fourth and last of the amendments to the Constitution of the State of Michigan which will be submitted to voters at the general election next Tuesday:

(Proposal No. 4)

An amendment prohibiting, after December 31, 1937, all real and personal property taxes, except to meet existing indebtedness, prohibiting new license taxes upon the ownership, possession or use of real and personal property; permitting the taxation of income from property uniformly with other income; and providing that the moneys from income taxes shall be distributed among local units of government within the State in a manner later to be provided by law.

Amending Section 3 of Article X of the State Constitution:

Sec. 3. No tax shall, from and after December 31, 1937, be assessed or levied by the state or by, for the benefit of any county, township, school district, city, village or other political subdivision of the state upon real property or tangible or intangible personal property, except for the payment of interest upon and principal of obligations heretofore incurred; nor shall any privilege, license or occupational tax, other than those now provided by law, be hereafter assessed or levied upon the ownership, possession or use of real property or tangible or intangible personal property. Income from real and personal property may be taxed uniformly with income from other sources. The proceeds of all taxes upon incomes shall be distributed to the several counties, townships, school districts, cities, villages and other political subdivisions of the state, as may be provided by law.

The section of the constitution which would be altered or abrogated in the event of this proposed amendment now stands as follows:

Sec. 3. The legislature shall provide by law a uniform rule of taxation, except on property paying specific taxes, and taxes shall be levied on such property as shall be prescribed by law. Provided, That the legislature shall provide by law a uniform rule of taxation for such property as shall be assessed by a state board of assessors, and the rate of taxation on such property shall be the rate which the state board of assessors shall ascertain and determine to be the average rate levied upon other property upon which ad valorem taxes are assessed for state, county, township, school and municipal purposes.

This amendment, if adopted, provides that no tax shall be levied on real and personal property, tangible or intangible, by the State, or any other political subdivision of government in the State after December 31, 1937, except where necessary for the payment of interest and principal of present indebtedness. It also will prevent the levying of any privilege, license or occupational tax other than those now existing. The legislature, if this amendment is adopted, may provide a uniform rate of taxation on income from real and personal property as well as from other sources. It also provides that in the event of the adoption of a law taxing incomes, the proceeds must be distributed among the various local governments of the State.

Big Democrat Rally Held Here Saturday

A parade and musical concert by the Chelsea Band opened a spirited Democratic Rally on Saturday, October 24 at the Sylvan town hall, where several hundred gathered to hear addresses on the local and national campaign, while a public address system reached several hundred more on the streets who were within hearing range of the microphone.

Preliminary talks were given by all candidates seeking Washtenaw county offices. The principal speakers of the evening were Mrs. June Fickie, Assistant Director of the Women's Division of the Democratic National Committee, and Joan P. Kirk, Ypsilanti attorney, who devoted their talks to national issues.

ON DISPLAY at all Buick Showrooms

**FOUR WONDROUS NEW REASONS WHY:
"It's Buick again!"**

SENSATIONAL is the fervor with which the American public has taken to its heart the brilliant motor cars offered by Buick this year.

Indeed, the sweeping success of the 1936 Buick program flatly challenged us and our great parent General Motors to a momentous decision.

Should we continue this amazingly popular line of cars into next year, perhaps the prudent thing to do—or should we dare broad improvement upon their spectacular excellence?

We felt there was only one right answer to that question, the bold and progressive answer—and that's why insiders now forecasting 1937 are already saying: "It's Buick again!"

That's why on top of \$15,000,000 recently spent re-tooling and re-equipping Buick's great plant, we appropriated and are now spending \$14,500,000 more.

That's why every car in the 1937 Buick line—the SPECIAL, the CENTURY, the ROADMASTER and the LIMITED—is a triumph visibly and intrinsically outshining anything we have ever done.

Each has more beauty for dazzling style, more power for breath-taking action, more room for full-family comfort, more downright "road-command" for safety and pleasure.

See them—then you'll know why Buick's soaring sales curve is headed for yet loftier altitudes next year.

YOU'VE GOT WHAT IT TAKES!

You can afford the new Buick. It's easy to buy and thrifty to own. With all its quality, its phenomenal performance and stunning style, prices start as low as \$765.

General Motors is only your friend. Safety glass included. Accrue in cash. Price subject to change without notice.

Chelsea Loses to Milan

On Friday, the Chelsea eleven was defeated by the Milan squad by the bare margin of a touchdown, the final score being 12-6. In the last minutes of play, Chelsea made a drive which fell short. After making three first downs and advancing to Milan's 20 yard marker, Chelsea missed its next first down by a few inches. Consequently, Milan took the ball on their own 20 yard line and punted the ball out of danger.

During the last quarter, Chelsea held possession of the ball almost entirely, Milan having the ball in her hands only three times the entire quarter. Grove made the lone touchdown for Chelsea, scoring this in the opening quarter. Chelsea outplayed the Milan squad as far as first downs were concerned.

However, the game is decided by the total score and not by the number of first downs, etc. Tomorrow, we play our last Huron League game with Tecumseh, at Tecumseh.

Although the C. H. S. gridgers have only won two league games this season, we have not been outclassed, but instead either had bad breaks or played under bad weather conditions. However, the squad hopes to win the rest of the games with Tecumseh and Manchester, which would make her record four wins and four lost. Let's hope she fulfills her wish!

Consider Invitations

Last Tuesday morning the Seniors did not attend classes. Why? Well as you know, Seniors have important business to attend to and they also have high hopes of graduating in the spring. Thus they went into a conference about commencement invitations.

Mr. Larreyberry of the Larreyberry Co. and a representative of the Wayne Bros. Co. showed their collection of invitations to the Seniors.

Both collections were commented on. However, the Seniors have not yet selected their invitations.

Can You Imagine

George Goodell being serious? Muriel Martin not powdering her nose? Bud Myers not grinning? Marian Ashfal not having R. Q. around her desk?

Eileen Adam being pious? Ruth Umstead not blushing? Charles Byersart dancing? Wilma Runciman without a boyfriend?

Clara Schank without her lipstick? Mark McKernan without his car? Doris Rogers ever being self-conscious?

Harley Prudden getting his Physics assignment? Renice Howe studying for a test? Ruth Spooner laughing in school?

Elsa Bareis not saying "I wonder what I rot on my test?" Harold Grove without his Plymouth?

Virginia Liebeck losing her temper? Monica McKernan giving an oration?

Harrie Bleecker not arguing? Grace Kiss talking in class?

Ralph Quillen without Adolph? Emma Jane not giggling?

Paul Pielemeier without an armful of books?

Don'ts for Students

Don't push or crowd in locker rooms.

Don't talk when the teacher's back is turned.

Don't forget to say "pardon me" when you accidentally collide with someone.

Don't go down the steps sixty miles an hour.

Don't carry on conversation with your neighbor during class.

Don't forget, boys, to let the lady pass in front of you. She has the "right of way."

Don't laugh at someone else's mistakes.

Don't consider yourself above your fellow-men.

—Courtesy Drive

Editorial

According to some of the students of this school, Courtesy seems to be old fashioned—a thing of the past. When a student is jostled from one class to another from 8:30 to 8:30, is there any wonder there are so many frowns and scowls? It wouldn't take much time or effort to make a brief apology for bumping a person down the steps. It would, at least, make the injured one feel somewhat better. It shouldn't be necessary for a teacher to ask for the attention of the class more than once. Even adding more than once wouldn't be so bad if she could be assured of getting it, then, but some students want to see just how much a teacher can stand. Is that Courtesy?

Ask yourselves what is wrong when scenes such as these occur every day in practically every class. Can't this be changed? Your attempt to remedy this discourteousness will encourage others to do the same. A "Courtesy Drive" is something this school needs very badly. Let's have some cooperation!

Junior Class Rings

Last Tuesday morning the entire Junior class, "gladly" assembled together to choose their class rings.

A representative from Wayne Bros. showed us a variety of rings of which three were picked out for the entire group to vote on.

Mr. Larreyberry also brought his collection for us to see. The whole class had an opportunity to choose one out of his variety. Then the final voting was yet to come. Don't you think the agents must have been excited those last few seconds?

With a big majority we voted for Mr. Larreyberry's ring. I think we really got the best looking ring in the bunch. It does not have the numbers side by side but one on each side with modernistic line between them. Think of this—we have a choice of black onyx or gold satin top for the back-

ground. We were also guaranteed a "snoozy" C for the emblem which has "Chelsea" engraved straight across at the bottom.

F. F. A. News

Elementary News

First Grade

Painting frieze of Main street in readiness for building our post office. Halloween party Friday afternoon. We will play games, have, stories, and food. Big parade, coming in costume.

Monday, we had a birthday party for Douglas Vogel, who was 7 years old. We had little cakes, wrapped in Halloween napkins.

Second Grade

We have another addition to our group—Doris Ahling. She comes from Jackson county, and makes our number 27.

Miss Miller, a second grade teacher at Bad Axe, visited our school on Friday. We were glad to show her the work we were doing.

Frances Hale brought us a magic flower garden. It is growing nicely and we are looking for a surprise. The Indians had many strange beliefs. We are learning about some of their customs. What they ate, how they built their houses and brought up the children.

Helen Vail had a birthday on Tuesday, October 20. She was 7 years old. We wished her many happy birthdays.

On Thursday afternoon there was a matinee for the operetta. Most of us attended. Did we like it? We all wanted to go again.

Fourth Grade

In Arithmetic we are having a race in addition. The girls are one point ahead of the boys. We are learning a Number Song which will help us with our multiplication.

Jolly Peter Pumpkin now makes a

border across the top of our blackboard. Our original black cats might scare somebody, they are so queer. Naida O. brought in a hornet's nest last week.

Ruth P. brought a tiny turtle. Our health chart is being checked by Donna B. this week. Many of us need a special reminder.

Fifth Grade

Ether Riemenschneider gave us a report on Kirsten Plagstad, the Norwegian prima donna, who sang in Ann Arbor on Monday evening, October 19, and Walter Osterle brought us a picture of the rest of the artists who will take part in Choral Union concerts this year.

Nearly every one has decided for whom they shall vote on Nov. 3 and Robert Eaton brought us an instruction ballot which he will explain to us. We will make our own ballots, similar to these.

Mary Woods showed us a periwinkle shell and told us about how they gathered them on the beach and ate them—the periwinkles inside. If you don't know about them, ask Mary. We thought she was playing a joke on us at first but not so. Mary says "they are good." The poor little periwinkles!

The Girls' and Boys' Council will choose a chairman for room decoration committee for Halloween. She will select her helpers.

Miss Martha Miller, principal in Bad Axe elementary school, observed our work all Friday afternoon. We enjoyed her visit very much, and during conversation period she told us how Bad Axe was named, which briefly is this: An Indian found an ax imbedded in one of their beautiful trees on the trail. He pulled it out angrily, threw it down and exclaimed: "Bad Axe!" This was overheard by a white friend who later suggested that the settlement which sprung up there should be called Bad Axe, as it is still called today.

Sixth Grade

The Sixth Grade sold \$30.05 worth of tickets for the Operetta. The sixth grade beat the seventh grade by about \$10.00, so the seventh grade will have to give the sixth grade a party. Rowena F., Evelyn L., Bobby S. and Luther K. are the ones who sold ten tickets and received free ones. Miss Boomgaard wishes to thank us and is proud of us. There was a matinee Thursday afternoon, and we could go to see the operetta for 10c. Half of

us went to see the matinee. It was very good. It lasted two hours. Donald Knoll broke his arm. He thinks he will be back Monday.

Marg Knapp has been out because of tonsillitis. Some of the people haven't joined the bird club yet. We hope they can join soon.

We are studying about the British Isles in Geography. We have some maps to color. We have colored the British possessions. Some children spoiled their maps and have had to buy new ones.

There is a new atlas in our room. It cost \$4.00. We use it in geography. The ones who have clean hands may use it. It was written by a man named Goode. Mr. Bleecker says we may keep it in our room. Thank you, Mr. Bleecker.

We are almost through with "White Patch." It is very interesting.

Seventh Grade

We are planning a Halloween party for tomorrow, Oct. 30. Charles Lane is in charge of the games. Virginia Barr is in charge of the refreshments.

We had a visitor on Friday, October 23. His name is Bernath McBride.

Operetta Was Success

That the liberal claims made for the Chelsea Hi Operetta were amply fulfilled was demonstrated by the unrestrained enthusiasm of the large audience, which registered complete satisfaction and approval of the entire show, from the well designed scenery and costumes to the vigor and vitality of the music, from the spirited acting of the cast to the finished vocalizing and dancing of the quintet.

Students of Chelsea high school and members of the chorus wish to thank Miss Boomgaard, her assistant, Miss Gibson, the cast, La Rue Wolf, who so graciously consented to aid Miss Boomgaard in accompanying the stage hands, and all the others who helped to make "In Arcady" a signal success.

Started Shoe-Throwing

The origin of the practice of throwing old shoes at bridal couples was the ancients' habit of transferring shoes to bind a bargain.

Another oil well which promises to eclipse any previous find in this section was struck last Monday on what is known as the old Newman farm in Howell township. The well is located about 1/2 mile east of the Sharp well No. 1. It is claimed the vein tapped is from 4 to 6 feet in thickness and is almost entirely free from gas. The oil was discovered at a depth of 161 feet. Howell township is bound to be found one of the richest oil fields in the country. It has been reported to us by people who claimed to know, that oil in paying quantities actually exists under certain portions of the village of Howell as well as in the township.—Livingston Herald.

HALLOWEEN FROLIC
More fun! The Juniors of the M. E. Sunday school turned out in a high percentage on Monday night in the church basement to enjoy their annual Halloween Frolic.

You should have seen the humped-up monkey, the Spanish Senoritas, spooks and hootiannys with spiked tails, the pompous master of ceremonies who joined the grand promenade and sent the groups scurrying to join the games.

Then like magic, he drew from the tall hat, real brown doughnuts and quarts of quenching elder (Sh! Mr. and Mrs. Laird donated the sparkling beverage from their icy storage.)

How's that for good neighbors? The minutes reeked with noise and pastime and too soon the wary goblins crept silently away and left the cave in darkness.

Instructions Listed for "Splitting" Ballots

For the benefit of those voters who believe that partisan politics have or should have no bearing on the qualifications of candidates for local offices, the following brief resume of the election law and the regulations of the Secretary of State pertaining to split ballots has been prepared.

The statute regarding voting reads in part as follows:

(1) If the elector desires to vote a straight ticket he may make a cross (X) in the circle under the name of his party at the head of the ballot. Nothing further need be done.

(2) Where only one candidate is to be elected to an office and the elector desires to vote for a candidate not on his party ticket, he should make a cross in the circle under the name of his party, and also make a cross in the square before the name of the candidate for whom he desires to vote on the other ticket.

In such case it shall not be necessary to strike off the name of the candidate on his party ticket. If the elector votes for more than one candidate, for the same office where only one candidate is to be elected to said office, said ballot shall not be counted for either of such candidates, but shall be as to them null and void.

(3) When two or more candidates are to be elected to the same or like office, such as circuit court commissioners, etc., and the voter desires to vote for a candidate or candidates not on his party ticket for such office, he must mark a cross in the circle under his party name, and mark a cross in the square before the name or names of the candidate or candidates for whom he desires to vote on the other ticket or tickets, and also erase an equal number of names of the candidates for such office on his party ticket; but if such elector shall not cross off the names of an equal number of candidates for such office on his party ticket he shall be deemed to have crossed off the name of each candidate for such office which is printed on his party ballot opposite the name of the candidate on some other party ticket in front of which name he has made a cross (X).

From the statute and regulations, it appears that it is not necessary to cross off the name of the candidate on your party ticket in case of a split ballot but it is permissible and does not invalidate the ballot if the name is crossed off.

Voters should also bear in mind that the proper mark to make is an X with the intersection of its cross lines inside the proper circle or square as the case may be. A "check mark", the lines of which do not cross is not proper.

STUDY CLUB MEETS
The Child Study club met Tuesday evening at the home of Mrs. M. H. McGaffigan, with 18 members and one guest present. Following a short business meeting, Mrs. A. A. Palmer introduced the speaker of the evening, Mrs. Allen Nicholson, from Merrill Palmer school, Detroit, who chose as her subject "Enrichment of the Home Through Outside Interests."

Questions and discussion followed this most interesting address. The hostess served dainty refreshments. The next meeting of the club will be held November 10 at the home of Mrs. Geo. W. Walworth. The program will be convention discussion.

Little Resemble Aurochs
Many Spanish domestic cattle bear a marked resemblance to the aurochs which formerly lived on the Spanish peninsula, as attested by the numerous drawings of them on the walls of caves. Perhaps the ancestral traits are best preserved in the Spanish fighting bulls. Between 8000 and 10,000 of them are required annually. They live in open meadows; as did the aurochs.

Last Saturday the Epworth Leagues of the Ann Arbor District held their annual Booth Festival here. 250 of the Leaguers and their friends were present. Miss Martha Earles of Adrian, the 3rd vice-president of the District League, had charge of the program and all the arrangements and was a marvel of pleasing efficiency. The booths were lavishly filled and attractively decorated.

There were generous supplies of vegetables and fruits, both canned and fresh, jams, jellies, pickles, relishes, eggs, nuts, popcorn and about every kind of eatable which could be thought of. The Home family are deeply appreciative of the kindness of the young people who found it "more blessed to give than to receive" if the happy faces and merry laughter was any true indication.

On Saturday, Mrs. Filer received several callers from her home town, Hudson, among them being three ministers. No wonder she is good!

Mrs. Tasker has a new General Electric radio, and is prepared to meet political problems with wisdom.

On Sunday, Mrs. Sanford and Miss Knaggs were pleasantly surprised by the coming of some old and dear friends from Lansing, Mrs. Minnie Gibson, Miss Nellie Burdick, Miss Etta Wilbur and Miss Cobbs. They brought a delicious lunch which was served in the library and shared by all. The party took Mrs. Lansing home with them.

Mrs. Girardin came home on Sunday, after a five weeks absence.

Miss Smith left last Wednesday to visit in Dearborn and Ypsilanti, but was glad to return on Monday. She said she wanted warmer clothing.

Beware of Hatred
Honest indignation which the cause of right demands, can thunder with power and strike with lightning effect. But there is such a thing as allowing this strong moral force to get mastery over the soul that should control it. The old Romans had many terse, pithy sayings that embodied the strong, "good sense" that led them to the heights of earthly power. One of them was: "Resist beginnings." You cannot curb the power of the river, so choke its source. You cannot arrest the fury of the conflagration, so put out the spark. It is almost impossible to check hatreds that have been allowed free course, so never let them begin.

Pelicans Fish in Flocks
One of the strangest things about pelicans is the way they fish. They always do this in large flocks. If on a bay, they form a wide half-circle and paddle toward shore, catching all the fish that happen to be in the circle. On narrow rivers and canals they divide into two bands. Each band forms a half-circle stretching across the river and the two flocks swim toward each other, scooping up fish with their huge bills in the same manner men do with nets.

WINTER ARRIVES!

The spring-like weather we have been having the past few weeks caught a severe cold early Monday morning and when the residents of Chelsea and vicinity awakened they found the roofs white with snow, with the thermometer in the low thirties where it stayed all day Monday. On Tuesday morning the thermometers registered in the low twenties.

There had been no killing frost until Monday. Flowers were blooming in the gardens, potato tops were green, and some spirea bushes, violets and other spring flowers were in bloom.

BRIGHTON—Monday morning about four o'clock the Brighton Garage, of which Mayor Pitkin is the proprietor, was broken into and burglarized apparently by professionals in that line. The burglars practically cleaned out Mr. Pitkin's stock of guns, taking forty of them in all, having a total valuation of about \$2500. Some of the guns were exceptionally valuable ones.—Argus.

SOUTH LYON—Farmers around New Hudson and Milford are a little wary of the antics of the huntsman. Saturday there were many strangers roaming the fields throughout that locality. The farmers, believing their unwelcome visitors were hunters or nut gatherers trespassing on forbidden ground, had summoned Deputy Sheriff E. J. McKinley. He received a number of such calls from varied sections of that locality, the majority of them Saturday afternoon. Investigation led to the discovery that the men were mushroom hunters who were finding an enormous crop. The deputy sheriff says he never before saw so many mushrooms and estimates there must have been altogether at least 20 bushels. Men gathering them were mostly of the foreign-type, presumably from the city.—Herald.

LYNDON CENTER SCHOOL NEWS

The eighth grade has been studying about Nature Study. We have completed a study of flowers, ferns, mushrooms, vines, trees, weeds and leaves. We have made a weed poster and a vine poster: also other booklets of weeds, leaves and flowers. We have studied about bees, garden insects and ants. We collected some butterflies and grasshoppers. We have a net which we catch them in. Some harmful insects are the tomato worm, cut worm, potato beetle, cucumber beetle. They are harmful to the garden. Some insect friends of the garden are the lady beetle and the honey bee. Some household insects which are harmful are mosquitos and flies. We have found the study of Nature Study very interesting.

We have made a reading improvement chart, which is to put the names of books on which we have read. We are sending to the Michigan State Lending Library for books. We are going to receive nearly fifty books. We are very glad that we are going to receive so many nice books. Some of us have read six or seven books this school year.

We also have a first aid kit. One of us brought a shelf to put things on. We all brought something for it. We have alcohol, cotton, bandages, and other items in it.

—Reported by Anna Campbell.

We have decided to have a Halloween program. We are going to have a play in the afternoon. The name of it is "The Magic Kettle." The characters are Melissa Balmer, Gypsy, Anna Campbell, Dame Gretchen, Virginia Barton, Witch, and Sonny Krokowiak as Nikki. We are going to have a marshmallow roast for our mothers and children. It is going to be at the school house in the afternoon.

We joined the music festival again this year. It is directed by Miss Mary Ann Collinge. We have learned only one song and two dances. The name of the song is "Our Land." The name of our dances are Oxendun, and I See You. The Oxendun is a mock fight. We all like them very much. We are all trying hard to be in the festival this year.

Melvin Stoffer was absent and Sonny Krokowiak and Robert Kresko were tardy. This gives us a high attendance average for the month of September. We hope to keep this up.

We have made seven black cats for a spelling contest. We made them for the second, third, fifth, seventh and eighth grades. For every word we miss we punch a hole in them. The one that gets the least is the winner of this contest.

—Reported by Virginia Barton.

This year Miss Haist asked all schools to make a Health Scrapbook. We have started ours. The first section is about teeth. We have stories about teeth, massaging gums, pictures of perfect teeth, also of decayed and crooked teeth, and other things.

We began a study of alcohol last week. We are learning why alcohol is harmful to our bodies. We learned that it is the opposite in nearly every way of water, which is necessary for us to live. We find it interesting.

—Reported by Harold Balmer.

One day when I was coming to school I saw a bag of cement. I knew we needed cement. I thought it would be wise to hurry to school and tell the other boys and girls of the cement. I thought that it was going to rain later in the day. When I got there the other children were wondering what they would do for cement. I came in and told them of the surprise. In the next minute we were going down the road loaded with two

dish pans one small box and two shovels. If anyone had seen us they would have thought it was a circus. We are glad the man lost it. Now we can make our teeter totters.

We appreciate our new seats. They are very nice. We are glad the district has enough money to buy them for us. The tops lift up. We are also glad Mr. Barton painted the schoolhouse. It is much lighter and it is easier to study by a good light.

The first teachers' meeting is to be held in our school house this year on Nov. 21. Without our new things we would not have had it.

—Reported by Melissa Balmer.

CHEVROLET COMING NOV. 7

Chevrolet dealer employees through-
out the United States will celebrate
the public announcement of Chev-
rolet's new 1937 models with several
thousand "Chevrolet—Breakfasts",
held simultaneously from coast to
coast on the morning of Nov. 7, when
the new cars make their formal bow.
W. E. Holler, vice president and gen-
eral sales manager of Chevrolet, an-
nounced the breakfast program this
week, explaining that it celebrated
this year's all-time sales record and
the outlook for new records in 1937.

More than 50,000 employees will sit
down to the breakfast, Mr. Holler
said. Immediately following the
event, showrooms will be thrown open
for the first public inspection of the
new models, which are being kept a
closely-guarded secret up to the an-
nouncement date.

"In spite of the fact that the new
cars have not yet been shown, thou-
sands of the new Chevrolets have been
ordered for immediate delivery," said
Mr. Holler. "It is doubtful if any in-
dustrial organization ever received a
more eloquent endorsement than that
which thousands of men and women
have given Chevrolet this year, by
placing their orders for the new mod-
els before anything at all was
known of them except that they were
Chevrolets."

"The engineering department and
the manufacturing department have
given the public an outstanding prod-
uct, and it is gratifying to know that
their efforts are fully appreciated—
that Chevrolet cars and trucks, and
the institution behind them, enjoy
such a reputation that America will
unhesitatingly purchase thousands of
these products before anyone outside
the factory knows definitely what
they will be like."

SEED CORN LOAN
PLAN ANNOUNCED

The Federal seed corn loan program
announced by the Agricultural Ad-
justment Administration in September will
soon be under way, officials said this
week. The necessary forms have been
prepared and will be available for dis-
tribution within a very short time.

Through the operation of the new loan
program and the publicity given to it,
AAA officials are of the opinion that
seed corn supplies next spring will be
adequate in all areas except where no
corn was produced this year. In the lat-
ter areas it is probable that farmers will
need from 500,000 to 1,000,000 bushels
from outside sources. The new loan pro-
gram assures producers that supplies of
corn adaptable for seed will remain on
the farm where it is needed and will
prevent the skyrocketing of seed prices
next spring.

The program consists of two types of
loans—on-farm-stored seed corn: (1) a
loan of \$1.75 a bushel on field selected
corn which meets proper germination
and storage requirements, and (2) a
loan of 55 cents a bushel on good qual-
ity cribbed corn which can be stored for
seed at a later date. Each loan agree-
ment carries with it an option of right
of purchase by the Government at a rate
considerably above the loan value rate.
Though the 55-cent loan is designed as
an emergency drought measure, it will
be conducted in much the same man-
ner as the corn loan programs of the
past three years which provided a loan
of credit to thousands of farmers
throughout the Midwest. Though a
number of States had warehouse laws
and the means for financing commodity
loans prior to 1933, it was not until the
advent of the Roosevelt administration
that farmers were provided with the
use of these facilities.

Provides Low-Cost Credit

Farmers long held that they could
market their crops more effectively,
could iron-out to some extent the wide
fluctuations in price and could more
adequately protect the country against
shortages, if adequate low-cost credit
were available on their commodities in
storage at or near the farm. It was not
until 1933, however, that the commodity
loan was initiated by the Government
when loans were made on warehoused
cotton at 10 cents a pound and on farm-
stored corn at the rate of 45 cents a
bushel. If similar facilities had been pro-
vided a few years earlier, thousands of
farmers would not have been forced by
low prices to burn their corn and wheat
as fuel.

Loans to corn farmers on their 1933
crop totaled about \$120,500,000. It is es-
timated that producers taking advan-
tage of this loan on 267,540,000 bushels
of corn realized a net gain of nearly
\$82,000,000 over the value of their corn
and the costs of the loan. The amount
placed under seed, approximating one-
third of the average annual corn crop,
made it possible for farmers to carry
their corn through to the 1934-35 feeding
season when it was greatly needed as a
result of the unprecedented drought in 1934.

A 55-cent a bushel loan on the 1934
crop totaled \$11,041,500. The 213,000
farmers taking advantage of these two
loans have repaid them in full.

The Government loans to producers
on their 1935 crop amounted to nearly
\$15,000,000. Practically all of these loans
have now been paid. Though they mat-
ured on July 1, 1936, liquidation was not
pushed after the drought developed,
thus enabling farmers to dispose of their
supplies in orderly fashion. Some farm-
ers had to release their corn prior to
this date because of the need for feed
and financial assistance or because their
stored corn had been damaged or was
threatened by damage as a result of high
moisture content.

Farm to Market Road
Program Goes Ahead

Greater progress has been made in the
construction of farm to market roads
since the beginning of the Roosevelt Ad-
ministration than ever before. In the
last three and a half years, under the
supervision of the Bureau of Public
Roads, of the United States Department
of Agriculture, 18,078 miles of secondary
or feeder roads have been completed;
3,716 miles are under construction, and
projects for the construction of 886 miles
have been approved, making a total of
23,560 miles. Congress has authorized
the expenditure of \$25,000,000 for each
of the fiscal years, 1938 and 1939, to carry
on the work; Federal expenditures to be
matched by the States.

In June of 1933, an appropriation of
\$400,000,000 was provided by Congress
for a highway construction program, and
the Hayden-Cartwright Act of 1934
supplied another \$200,000,000. One-
fourth of both appropriations was ap-
portioned for farm to market roads.
These are in addition to roads built un-
der supervision of the Bureau of Public
Roads.

Construction of farm to market roads
under these appropriations is under the
supervision of the Works Progress Ad-
ministration. When completed, more
than 130,000 miles of all-weather rural
roads will have been built. If added to
the roads constructed by the Federal
Emergency Relief Administration and the
Civil Works Administration the grand total
would be nearly 400,000 miles, or about one-sixth of all the dirt
roads in the country. The mileage of
farm-to-market roads improved by WPA
workers if laid in transcontinental high-
ways would stretch nearly 44 times
across the widest dimension of the
United States, or five times around the
world.

In addition to WPA, 12,000 secondary
road projects, the Bureau of Public
Roads has placed 200,000 emergency
workers on a \$500,000,000 highway and
grade-crossing elimination program, let
by contract through State Highway De-
partments.

More than half the Nation's farms are
located on roads not usable in all seasons.
In addition to releasing farm fam-
lies from weather-bondage, all-weather
roads actually increase land values, and
the construction is an investment which
would otherwise have to be financed by
local taxes.
